§ 949.6 *Approved plant.* "Approved plant" means any milk plant (a) which is approved by the appropriate health authority of the marketing area for the processing of Grade A milk and from which Class I milk is delivered (including delivery by a vendor, or sale from a plant or plant store) in the marketing area other than to any milk processing plant, or (b) which is supplying Class I milk to a federal institution or base in the marketing area.

§ 949.7 *Pool plant.* "Pool plant" means an approved plant from which the volume of skim milk and butterfat distributed as Class I milk to retail or wholesale outlets (including sales through plant stores) in the marketing area during the delivery period is 15 percent or more of the receipts of milk at such plant during the month from pool plants and from dairy farmers conforming to the requirements of § 949.10 (a) or (b): *Provided*, That, in any event, a plant which was an approved plant during the month of May 1953 shall, upon written application to the market administrator on or before the 10th day after the effective date of this subpart, be designated as a pool plant during each month of the six month period following the effective date hereof, in which Class I milk is disposed of from such plant to retail or wholesale outlets in the marketing area, and such plant has been a pool plant in each of the preceding month(s) of such period.

§ 949.8 *Non-pool plant.* "Non-pool plant" means any milk receiving, manufacturing, or distributing plant other than a pool plant.

§ 949.9 *Handler.* "Handler" means a person in his capacity as the operator of an approved plant(s), or a cooperative association with respect to producer milk diverted for the account of such association pursuant to § 949.10. Milk so diverted shall be deemed to have been received at a pool plant.

§ 949.10 *Producer.* "Producer" means any person who produces milk received directly from the farm at a pool plant or diverted from a pool plant to a non-pool plant for the account of a cooperative association, which milk is (a) produced under a permit or rating for the production of milk to be disposed of for consumption as Grade A milk issued by the appropriate health authority having jurisdiction in the marketing area, or by another health authority whose certification is accepted by such health authority, or (b) is acceptable to an agency of the Federal Government for fluid consumption in its institutions or bases. This definition shall not include any such person with respect to milk received by a handler partially exempt from this subpart pursuant to § 949.60.

§ 949.11 *Producer milk.* "Producer milk" means any skim milk or butterfat contained in milk received directly at the pool plant from producers, or diverted by a cooperative association in accordance with the provisions of § 949.10.

§ 949.12 *Other source milk.* "Other source milk" means all receipts of skim milk or butterfat other than that contained in (a) producer milk, (b) receipts from pool plants, or (c) Class II products disposed of in the form in which received without further processing or packaging by the handler.

MARKET ADMINISTRATOR

§ 949.20 *Designation.* The agency for the administration of this subpart shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by and shall be subject to removal at the discretion of, the Secretary.

§ 949.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 949.22 *Duties.* The market administrator shall:

(a) Within 30 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 949.87 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 949.86) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as the Secretary may request;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts has not:

(1) Made reports pursuant to §§ 949.30 to 949.31 inclusive, or

(2) Made payments pursuant to §§ 949.60, 949.61 and §§ 949.80 to 949.87, inclusive.

(i) On or before the twelfth day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report the milk so received shall be assigned to each class in the proportion that the total producer milk in each class is of the total receipts of producer milk by such handler.

(j) Notify handlers and make announcement by such other means as he deems appropriate of prices as follows:

(1) On or before the tenth day of each month the Class I price for such month computed pursuant to § 949.51 and the Class I butterfat differential computed pursuant to § 949.54;

(2) On or before the fifth day of each month the Class II price for the preceding month computed pursuant to § 949.53 and the Class II butterfat differential computed pursuant to § 949.54; and

(3) On or before the twelfth day of each month for the preceding month the uniform price computed pursuant to § 949.71, and the butterfat differential to producers computed pursuant to § 949.81.

(k) Prepare and publish such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 949.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants as follows:

(a) The quantities of skim milk and butterfat contained in producer milk;

(b) The quantities of skim milk and butterfat contained in (or represented by) receipts from pool plants;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk;

(d) The quantities of skim milk and butterfat contained in receipts of Class II products disposed of in the form in which received without further processing or packaging by the handler;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(f) Such other information with respect to the receipt and utilization of skim milk and butterfat as the market administrator may prescribe.

§ 949.31 *Reports of payments to producers.* On or before the 20th day after the end of each month, each handler who received milk from producers shall submit to the market administrator his producer payroll for the month, which shall show for each producer;

(a) His total deliveries of milk.

(b) The average butterfat content of such milk, and

(c) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

§ 949.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all skim milk and butterfat received from any source;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and other milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and other milk products on hand at the beginning and end of each month.

§ 949.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon determination of the litigation or where the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 949.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month at a pool plant in the form of producer milk, other source milk, or receipts from other pool plants shall be classified by the market administrator pursuant to the provisions of §§ 949.41 to 949.46, inclusive.

§ 949.41 *Classes of utilization.* Subject to the conditions set forth in §§ 949.43 and 949.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, cultured sour cream, any mixture (except eggnog and bulk ice cream and frozen dairy product mixes) of cream and milk or skim milk; (2) contained in inventories of products designated as Class I pursuant to subparagraph (1) of this paragraph on hand at the end of the month, and (3) all other skim milk and butterfat not specifically accounted for as Class II milk;

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those designated as Class I in paragraph (a) of this section;

(2) Disposed of for livestock feed;

(3) In shrinkage up to 2 percent of receipts from producers; and

(4) In shrinkage of other source milk.

§ 949.42 *Shrinkage.* The market administrator shall allocate shrinkage to a handler's receipts at pool plants as follows:

(a) Compute the total shrinkage of skim milk and butterfat; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and other source milk.

§ 949.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if such skim milk or butterfat is later disposed of (whether in original or other form) as Class I milk.

§ 949.44 *Transfers.* Skim milk or butterfat transferred from a pool plant in the form of milk, skim milk, or cream shall be classified:

(a) As Class I milk, if transferred to the pool plant of another handler, unless utilization as Class II milk is mutually reported in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transfer occurred, and the amount of skim milk or butterfat so assigned to Class II does not exceed the amount of skim milk or butterfat, respectively, remaining in Class II utilization by the transferee handler after the subtraction of other source milk pursuant to § 949.46: *Provided*, That the skim milk and butterfat so transferred shall be classified so as to result in a maximum assignment of producer milk to Class I milk.

(b) As Class I milk, if transferred or diverted to a non-pool plant except as:

(1) The transferring or diverting handler claims utilization as Class II milk;

(2) The operator of the non-pool plant maintains books and records showing the receipts and utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and

(3) The Class I utilization of skim milk and butterfat respectively at such plant is less than the total of skim milk and butterfat so transferred plus receipts at such plant of skim milk and butterfat in milk from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such non-pool plant.

(c) As Class II milk if transferred subject to verification by the market administrator to a wholesale food manufacturing establishment which has no Class I disposition of skim milk or butterfat.

§ 949.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 949.46 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for each handler for each month shall be the pounds of skim milk in such class allocated to producer milk received by such handler during such month.

(1) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in Class I products which were on hand at the beginning of the month;

(2) Subtract from the pounds of skim milk in each class the pounds of skim milk received from pool plants of other handlers in a form other than milk, skim milk, or cream according to its classification pursuant to § 949.41;

(3) Subtract from the pounds of skim milk remaining in Class II milk the plant shrinkage of skim milk in producer milk classified as Class II milk pursuant to § 949.41 (b) (3);

(4) Subtract from the pounds of skim milk in Class I milk the pounds of skim milk received from a non-pool plant in the form of packaged fluid milk which is not in excess of the volume of skim milk transferred in the form of bulk milk to such plant by such handler and classified as Class I milk;

(5) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which were not subject to the Class I pricing provisions of another order issued pursuant to the act, less the skim milk subtracted pursuant to subparagraph 4 of this paragraph: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II, the balance shall be subtracted from the pounds of skim milk in Class I;

(6) Subtract from the pounds of skim milk remaining in Class II the pounds of skim milk in other source milk which were subject to the Class I pricing provisions of another order issued pursuant to the act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II, the balance shall be subtracted from the pounds of skim milk in Class I;

(7) Subtract the pounds of skim milk in milk, skim milk, or cream received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 949.44 (a);

(8) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (3) of this paragraph and if the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with the lowest price class.

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content in Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 949.50 *Minimum prices.* Subject to the appropriate butterfat differential computed pursuant to § 949.54 each handler shall pay in the manner set forth in §§ 949.70 through 949.85 for milk received at his pool plant from producers at no less than the prices per hundredweight set forth in §§ 949.51 and 949.53.

§ 949.51 *Class I milk.* The Class I price shall be an amount calculated as follows:

(a) Multiply the formula index computed pursuant to § 949.52 by $5.99, and divide by 100.

(b) Adjust the price calculated pursuant to paragraph (a) of this section so that it does not exceed the price calculated pursuant to paragraph (e) of this section by less than $2.00 or more than $3.00.

(c) For the months of April through June subtract and for the months of September through November add 50 cents.

(d) To the foregoing price add 3 cents for each percentage point which the utilization percentage calculated pursuant to paragraph (f) of this section is less than 100 or subtract 3 cents for each percentage point which such utilization percentage is more than 110 provided that in no case shall more than 60 cents be added to or subtracted from the price because of the provisions of this paragraph. The resulting amount rounded to the nearest full cent shall be the Class I price.

(e) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the preceding month at the following plants or places for which prices have been reported to the market administrator or to the United States Department of Agriculture, divided by 3.5 and multiplied by 4.0:

Present Operator and Location

Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(f) The percentage calculated from receipts and utilization for the first and second preceding months as follows shall be known as the utilization percentage;

(1) From the total gross pounds of Class I milk determined pursuant to § 949.40 for all pool plants subtract the following:

(i) Inventories as defined in § 949.41 (a) (2);

(ii) The pounds of skim milk and butterfat subtracted pursuant to § 949.46 (a) (4) and the corresponding step of (b);

(iii) The pounds of skim milk and butterfat subtracted pursuant to § 949.46 (a) (7) and the corresponding step of (b);

(2) Add the Class I milk disposed of in the marketing area by non-pool plants, except those partially exempted from the provisions of this part pursuant to § 949.60.

(3) Divide the total pounds of producer milk received during such period by the total net Class I sales determined pursuant to this paragraph and multiply by 100. Round the result to the nearest whole percentage point.

§ 949.52 *Formula index.* Based on the latest data published not later than the 5th day of each month, the market administrator shall calculate a formula index for the current month as follows:

(a) Divide the monthly wholesale price index for all commodities as announced by the Bureau of Labor Statistics, U. S. Department of Labor, by the average of such index for the years 1948 through 1950 and multiply by 100.

(b) Divide by 3.586 the average of the three latest monthly indexes of retail sales of non-durable goods as announced by the Department of Business of the University of Texas, Austin, Texas.

(c) Compute a labor-feed index as follows:

(1) Divide by 0.0485 the daily farm wage rate without board or room for the State of Texas as reported by the U. S. Department of Agriculture and multiply by 0.3;

(2) Divide by 0.03971 the average price paid per hundredweight for all mixed dairy feed in the State of Texas as reported by the U. S. Department of Agriculture and multiply by 0.7;

(3) Add together the amounts determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Add the amounts determined pursuant to paragraphs (a), (b), and (c) of this section, divide by 3 and round to the nearest one-tenth.

§ 949.53 *Class II milk.* The prices for Class II milk shall be determined according to the following computations:

(a) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the U. S. Department of Agriculture during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0;

(b) From the average of the carlot prices per pound of nonfat dry milk solids for human consumption, spray process, f. o. b. manufacturing plants in the Chicago area as reported by the U. S. Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the current month, subtract 5 cents, multiply by 8.16; and

(c) Add together the amounts computed pursuant to paragraphs (a) and (b) of this section and round to the nearest full cent.

§ 949.54 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 949.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to §§ 949.51 and 949.53 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent, an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the United States Department of Agriculture during the appropriate month by the applicable factor listed below:

(a) *Class I milk.* Multiply such price for the preceding month by 0.125;

(b) *Class II milk.* Multiply such price for the current month by 0.120.

§ 949.55 *Use of equivalent factors in formulas.* If for any reason a price, index, or wage rate, specified in this part for use in computing class prices and for other purposes is not reported or published in the manner described in this part, the market administrator shall use a price, index, or wage rate, determined by the Secretary to be equivalent to or comparable with the factor specified.

APPLICATION OF PROVISIONS

§ 949.60 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by a milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to the total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) The handler shall pay on or before the 13th day after the end of the month to the market administrator for deposit into the producer-settlement fund an amount determined as follows:

(1) Compute the total skim milk and butterfat disposed of by such handler during the month as Class I milk on retail or wholesale routes (including sales through vendors) in the marketing area;

(2) From such handler's total Class I sales, pursuant to the order regulating the pricing of milk at such handler's plant, subtract the total quantity of skim milk and butterfat received from producers pursuant to such order and allocated to Class I milk;

(3) Multiply the hundredweight computed pursuant to subparagraph (1) or (2) of this paragraph, whichever is less, by the rate determined pursuant to § 949.65.

§ 949.61 *Handlers operating non-pool plants.* None of the provisions from §§ 949.44 through 949.55, inclusive, or from §§ 949.70 through 949.84, inclusive, shall apply in the case of a handler in his capacity as the operator of a non-pool plant, except that such handler shall, on or before the 13th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund pursuant to § 949.82 an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month, by the rate determined pursuant to § 949.65.

UNPRICED MILK

§ 949.65 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced Class I milk shall be any plus amount calculated as follows:

(a) During the months of February through July:

(1) Subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price, adjusted by the Class I butterfat differential;

(2) From such difference subtract 10 cents and an amount calculated by multiplying 0.16 cent by the miles (shortest highway distance) from the edge of the marketing area to the plant at which the unpriced milk originates.

(b) During the months of January and August, subtract from the Class I price, adjusted by the Class I butterfat differential, the uniform price to producers, adjusted by the Class I differential.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 949.70 *Computation of value of milk for each handler.* For each month the market administrator shall compute the value of milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 949.46 by the applicable Class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 949.46 (a) (3) and (b) by the applicable class price, and

(c) For the months of January through August add an amount computed by multiplying the hundredweight of other source skim milk and butterfat subtracted from Class I milk pursuant to § 949.46 (a) (5) and (b) by the rate computed pursuant to § 949.65, applicable at the nearest plants from which an equivalent amount of such other source milk was received.

§ 949.71 *Computation of uniform price for pool milk.* For each month the market administrator shall compute the uniform price for all milk received from producers as follows:

(a) Combine into one total the amounts computed pursuant to § 949.70 (a) and (b) for all handlers who made the reports prescribed in § 949.30 and who are not in default of payments required pursuant to §§ 949.80 and 949.83;

(b) Add an amount representing not less than one-half of the unobligated cash balance in the producer-settlement fund account pursuant to § 949.82 (a);

(c) Add during each of the months of September through December an amount equivalent to one-fourth of the total in payments to the producer-settlement fund for the immediately preceding months of January through August pursuant to § 949.82 (b);

(d) Subtract if the average butterfat content of the producer milk of handlers included in the computations pursuant to paragraph (a) of this section is greater than 4.0 percent, or add if such average is less than 4 percent, an amount computed by multiplying the amount by which such average butterfat content varies from 4.0 percent by the butterfat differential computed pursuant to § 949.81 and multiply the resulting amount by the hundredweight of such milk;

(e) Divide by the total hundredweight of producer milk of handlers included in the computation pursuant to paragraph (a) of this section;

(f) Subtract not less than 4 cents nor more than 5 cents. The resulting figure shall be the uniform price per hundredweight for all milk of 4.0 percent butterfat content received from producers.

PAYMENT FOR MILK

§ 949.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the last day of each month to each producer for milk received during the first 15 days of such month at not less than the price per hundredweight for Class II milk for the preceding month.

(b) On or before the 15th day after the end of the month during which the milk was received, to each producer at not less than the uniform price per hundredweight computed for such month pursuant to § 949.71 subject to the following adjustments: (1) The butterfat differential pursuant to § 949.81, (2) the payment made pursuant to paragraph (a) of this section, (3) marketing service deductions pursuant to § 949.86, and (4) proper deductions authorized by the producers: *Provided*, That if by such date such handler has not received full payment pursuant to § 949.84, he may reduce his total payment to all producers pro rata by not more than the amount of reduction in payments from the market administrator; he shall, however, complete such payments pursuant to this paragraph not later than the date for making such payments next following receipt of the balance due from the market administrator.

(c) In making the payments to producers pursuant to paragraph (b) of this section each handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month for which payment is made and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, together with a description of the respective deductions; and

(6) The net amount of payment to such producer.

§ 949.81 *Producer butterfat differential.* In making payments pursuant to § 949.80 there shall be added to the uniform price for each one-tenth of one percent that the average butterfat content of such milk is above 4.0 percent not less than, or there may be deducted from the uniform price for each one-tenth of one percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply by 1.1 the simple average computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month, divide the result by 10 and round to the nearest one-tenth of a cent.

§ 949.82 *Producer-settlement fund.* The market administrator shall establish a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers, pursuant to §§ 949.60, 949.61, 949.83, and 949.85 and out of which he shall make all payments, pursuant to §§ 949.84 and 949.85. This fund shall be maintained by the market administrator in two separate accounts as follows:

(a) Payments made by handlers pursuant to §§ 949.83 and 949.85 less the amounts determined pursuant to § 949.70 (c).

(b) The payments required pursuant to §§ 949.60, 949.61, and the amounts determined pursuant to § 949.70 (c).

§ 949.83 *Payments to the producer-settlement funds.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount of money if any, by which the value of the milk received by such handler from producers as determined pursuant to § 949.70 is greater than the value of such milk calculated at the uniform price adjusted by the producer butterfat differential.

§ 949.84 *Payments out of the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 949.70 is less than the value of such milk calculated at the uniform price adjusted by the producer butterfat differential. During each of the months of September through December one-fourth of the amount established pursuant to § 949.82 (b) for the immediately preceding months of January through August shall be applied by the market administrators to such payments.

§ 949.85 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's books, reports, records, or accounts discloses errors resulting in money due:

(a) The market administrator from such handler;

(b) Such handler from the market administrator; or

(c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred.

§ 949.86 *Marketing services*—(a) *Marketing service deduction.* Except as set forth in paragraph (b) of this section each handler, in making payments to producers (other than himself) shall make a deduction of six cents per hundredweight of milk or such lesser deduction as the Secretary from time to time may prescribe. Such deductions shall be paid by the handler to the market administrator on or before the 15th day after the end of the month. Such moneys shall be expended by the market administrator for verification of weights and tests of milk received from such producers and in providing market information to such producers.

(b) *Marketing service deduction with respect to producers who are members of or are marketing through a cooperative association.* In the case of each producer who is a member of, or who has given written authorization for the rendering of marketing services and the taking of a deduction therefor to a cooperative association, which the Secretary as determined is performing the services described in paragraph (a) of this section, such handler, in lieu of the deduction specified under paragraph (a) of this section, shall deduct from the payments to such producer the amount per hundredweight specified by such association which is not in excess of the rate authorized by such producer and shall pay such deduction to the cooperative association entitled to receive it on or before the 15th day after the end of the month during which such milk was received.

§ 949.87 *Payment of administration expense.* As his pro rata share of the expense of administration of this part each handler shall pay to the market administrator on or before the 15th day after the end of the month for such month 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to skim milk and butterfat (a) received from producers, (b) received at a pool plant as other source milk and allocated to Class I milk, or (c) distributed as Class I milk in the marketing area from a non-pool plant.

§ 949.88 *Termination of obligation.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The delivery period during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such pro-

ducer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the agreement (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 949.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 949.91.

§ 949.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 949.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 949.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 949.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 949.101 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the applications of such provisions and the remaining provisions of this part to other persons or circumstances, shall not be affected thereby.

Issued at Washington, D. C., this 12th day of January 1954, to be effective on and after the 1st day of February 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 69]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.15, the Parker, Colorado, area (D-195), published on July 16, 1949, in 14 F. R. 4289, and amended on December 13, 1952, in 17 F. R. 11256, and on October 15, 1953, in 18 F. R. 6559, is further amended by changing the "Designated Altitudes" column to read: "Surface to 22,000 feet MSL", and by changing the "Using Agency" column to read: "Lowry AFB, Colorado".

2. In § 608.24, the Osage City, Kansas, area (D-405), published on May 3, 1952, in 17 F. R. 4104, is deleted.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on January 6, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-286; Filed, Jan. 15, 1954; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53417]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

ENTRY FOR REWAREHOUSE; PROCEDURE

In view of the amendment of section 484 (a), Tariff Act of 1930, by section 16 (b), Customs Simplification Act of 1953, to extend from 48 hours to 5 days after arrival at the port of destination the time for making entry for imported merchandise, § 8.33 (a), Customs Regulations, is amended by substituting "5 days" for "48 hours" in the last sentence.

(R. S. 161, 251, secs. 484, 624, 46 Stat. 722, as amended, 759; 5 U. S. C. 22, 19 U. S. C. 66, 1484, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: January 7, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 54-305; Filed, Jan. 15, 1954; 8:49 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Reg. 118; T. D. 6060]

PART 39—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

REQUIREMENTS FOR FILING AND APPROVING APPLICATIONS FOR EXEMPTION FROM INCOME TAX; ANNUAL RETURNS BY FARMERS' COOPERATIVE MARKETING AND PURCHASING ASSOCIATIONS

In order to authorize certain changes in the processing of applications for exemption from income tax under section 101 of the Internal Revenue Code and to prescribe rules respecting annual returns in the case of farmers' cooperative marketing and purchasing associations exempt under section 101 (12) of the Code, Regulations 118 (26 CFR Part 39) are hereby amended as follows:

Section 39.101-1 is amended as follows:

(A) By striking "(4), except a bona fide credit union," from the third sentence of paragraph (a) thereof.

(B) By striking "under section 101 (4), except bona fide credit unions, Form 1027;" from the fourth sentence of paragraph (a) thereof.

(C) By striking ", including bona fide credit unions," from the fifth sentence of paragraph (a) thereof.

(D) By revising (c) thereof to read as follows:

(c) *Duties of district director with respect to proof of exemption.* The district director of internal revenue shall take steps to insure that the application and other papers are complete and in order and shall take such other action as may be prescribed leading to a determination whether the organization is exempt under section 101.

(E) By inserting immediately following the second sentence of (e) thereof, which sentence ends with the words "with the requirements of this section and of § 39.153-1", the following new sentence: "In the case of a farmers' cooperative marketing and purchasing association exempt under section 101 (12), such association shall file annually Form 990-C in lieu of Form 990."

(F) By striking the words "Forms 990 and 990-A" from the third sentence of paragraph (e) thereof, and inserting in lieu thereof "Forms 990, 990-A, and 990-C".

(G) By striking the words "Form 990 or Form 990-A" from the last sentence of paragraph (e) thereof, and inserting in lieu thereof "Form 990, Form 990-A, or Form 990-C".

(H) By inserting immediately preceding the first sentence of paragraph (f) thereof the following new sentence: "The provisions of this paragraph shall be inapplicable in the case of a farmers' cooperative marketing and purchasing association exempt under section 101 (12)."

(I) By adding immediately after the last sentence of paragraph (g) thereof the following new sentence: "However, Form 990-C, applicable under paragraph (e) of this section, to a farmers' cooperative marketing and purchasing association, shall be filed in accordance with the provisions of section 53 and the regulations prescribed thereunder."

(J) By striking the words "Form 990 or Form 990-A" from paragraph (i) thereof, and inserting in lieu thereof "Form 990, Form 990-A, or Form 990-C".

Because this Treasury decision establishes a rule of Department practice and makes further amendments of a technical nature only, it is hereby found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: January 12, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

[F. R. Doc. 54-306; Filed, Jan. 15, 1954; 8:49 a. m.]

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

[1954 Dept. Circ. 1]

PART 129—VALUES OF FOREIGN MONEYS

QUARTER BEGINNING JANUARY 1, 1954

JANUARY 1, 1954.

§ 129.17 *Calendar year, 1954—(a) Quarter beginning January 1, 1954.* Pursuant to section 522, title IV, of the Tariff Act of 1930, reenacting section 25 of the act of August 27, 1894, as amended, the following estimates by the Director of the Mint of the values of foreign monetary units are hereby proclaimed to be the values of such units in terms of the money of account of the United States that are to be followed in estimating the value of all foreign merchandise exported to the United States during the quarter beginning January 1, 1954, expressed in any such foreign monetary units: *Provided, however,* That if no such value has been proclaimed, or if the value so proclaimed varies by 5 per centum or more from a value measured by the buying rate in the New York market at noon on the day of exportation, conversion shall be made at a value measured by such buying rate as determined and certified by the Federal Reserve Bank of New York and published by the Secretary of the Treasury pursuant to the provisions of section 522, title IV, of the Tariff Act of 1930.

[The value of foreign monetary units, as shown below in terms of United States money, is the ratio between the legal gold content of the foreign unit and the legal gold content of the United States dollar. It should be noted that this value, with respect to most countries, varies widely from the present exchange rates. Countries not having a legally defined gold monetary unit, or those for which current information is not available, are omitted]

Country	Monetary unit	Value in terms of U. S. money	Remarks
Colombia	Peso	$0.5125	Monetary Law No. 90 of Dec. 16, 1948, effective Dec. 18, 1948, content of peso 0.59687 gram of gold 9/10 fine. Obligation to sell gold suspended Sept. 24, 1931.
Costa Rica	Colon	.1781	Parity of 0.156267 fine gram gold established by decree law effective Mar. 22, 1937.
Denmark	Krone	.1937	Conversion of notes into gold suspended Sept. 29, 1931
Dominican Republic	Peso	1.0000	By monetary law No. 1528 effective October 9, 1947, gold content of peso [illegible] fine.
Ethiopia	Dollar	.4025	New [illegible] by Proclamation of the Emperor on May 25, 1945, effective [illegible]
Finland	Markka	.0226	Conversion [illegible]
Guatemala	Quetzal	1.0000	Decree No. 2[illegible] [illegible] gold [illegible] fine. Mar. 6, 1948.
Haiti	Gourde	.2000	National bank [illegible] suspended May 18, 1932; exchange control
Peru	Sol	.4740	Conversion [illegible] g to the Central Bank Act approved June 15, 1948. [illegible]
Phillippines	Peso	.5000	Inconvertible [illegible]
Sweden	Krona	.1937	Conversion [illegible]
Uruguay	Peso	.6583	Present gold [illegible] by law of Jan. 10, 1935. Conv[illegible] Aug. 2, 1914; exchange control establ[illegible]
Venezuela	Bolivar	.3267	Exchange control established Dec. 12, 1936.

(Sec. 25, 28 Stat. 552, sec. 403, 42 Stat. 17, sec. 522, 42 Stat. 974, sec. 522, 46 Stat. 739; 31 U. S. C. 372)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 861—OFFICERS' RESERVE

APPOINTMENT OF REGULAR NURSE, WOMEN MEDICAL SPECIALISTS, VETERINARY, OR MEDICAL SERVICE OFFICERS FROM THE AIR FORCE RESERVE

Sections 861.151 to 861.156 supersede §§ 861.151 to 861.158 (15 F. R. 2056–58):

Sec.
861.151 Purpose.
861.152 Definitions.
861.153 Testing and selection of applicants.
861.154 Eligibility.
861.155 Grade determination.
861.156 Instructions.

AUTHORITY: §§ 861.151 to 861.156 issued under secs. 101, 102, 61 Stat. 41, as amended; secs. 502, 506, 61 Stat. 883, 890; 10 U. S. C. 166, 166a, 506, 506c. Interpret or apply sec. 307, 65 Stat. 330; 10 U. S. C. 1837.

DERIVATION: AFR 36–31.

§ 861.151 *Purpose.* Sections 861.151 to 861.156 establish the eligibility requirements and the procedurg for officers in a Reserve component of the Air Force to apply for appointment in the Regular Air Force with a view to designation for the performance of nurse, women medical specialist, veterinary, or medical service duties. Sections 861.151 to 861.156 apply to all Air Force activities.

§ 861.152 *Definitions.* For the purpose of §§ 861.151 to 861.156, the following terms will apply:

(a) *Immediate superior.* The officer to whom an applicant is immediately responsible for the performance of his assigned duty and who is responsible for the preparation of the applicant's AF Form 77, "USAF Officer Effectiveness Report."

(b) *Organization commander.* The commander responsible for the operation and administration of the organization to which the applicant is actually assigned.

(c) *Commander of major air command.* The commander responsible for the operation and administration of any organization designated a major air command who reports directly to the Chief of Staff, United States Air Force, and under whose command jurisdiction the applicant's organization of assignment falls.

(d) *Professional experience*—(1) *Nurses.* Professional experience gained subsequent to graduation from a nursing school offering either a diploma or degree program.

(2) *Women medical specialists.* Professional experience gained in medical institutions subsequent to completion of a hospital dietetic internship, occupational therapy clinical affiliation, or physical therapy training course.

§ 861.153 *Testing and selection of applicants.* The testing and selection of applicants will normally be conducted to appoint two groups of Regular officers each year.

(a) *Application and testing periods.* Applications may be submitted during the period January 1 to February 28 and July 1 to August 31 each year. Applications received by the Director of Personnel Procurement and Training, Headquarters United States Air Force, other than during these periods will be returned without action. Field testing will commence 30 days after the opening date of each application period, and will continue for approximately 60 days.

(b) *Reapplicants.* A person who is unsuccessful in his application for Regular Air Force appointment under §§ 861.151 to 861.156 (or previous issues thereof) may reapply within established application periods not sooner than 1 year after date of previous application provided that all eligibility requirements are met at that time. Only one reapplication may be submitted. Waivers of this requirement will not be granted. Failure to meet eligibility criteria is not considered as an unsuccessful application, and those persons previously having been disqualified administratively, but now eligible under §§ 861.151 to 861.156, may reapply during any application period.

(c) *Processing and consideration.* After field action is completed, applications will be processed in Headquarters United States Air Force. Processing will include obtaining records to complete applicants' files and computing applicants' composite scores based on the results of tests and performance reports. Completed files on applicants will then be referred to the Surgeon General, United States Air Force, for review and recommendation for the selection or nonselection of the applicants. Applications will then be submitted with the recommendations of the Surgeon General, United States Air Force, to the Secretary of the Air Force Personnel Council for final consideration. Applicants will be either selected for appointment, deferred for consideration, or rejected. Only those persons considered to be best qualified will be selected. Due consideration will be given practical experience, academic achievement, qualification in a particularly desired Air Force Specialty, manner of performance, and being graduated as a "distinguished graduate" from the Air Force Reserve Officers' Training Corps or United States Air Force Officer Candidate School.

(d) *Notification of appointment, deferral, or rejection.* Applicants selected for appointment will be recommended to the President for nomination to and confirmation by the Senate. When confirmed, applicants will be tendered appointments in the Regular Air Force in the appropriate grade in accordance with § 861.155. Concurrently, deferred and rejected applicants will be notified of action taken on their applications.

(e) *Delay of appointment.* To prevent loss of seniority among new Regular officers and to eliminate a delay in promoting Regular officers already on the promotion list, the appointment of all officers who are within 6 months of becoming eligible for appointment in the next higher grade at time of selection will be deferred until the date on which they complete the necessary years of service for promotion as described in § 861.155. Officers whose appointments are temporarily delayed and whose current service statements will expire before appointments can be tendered will be permitted to sign indefinite service statements with the proviso that they will be released from active duty without delay in the event their appointments fail to materialize for any reason and they express a desire for release in writing.

§ 861.154 *Eligibility*—(a) *Requirements common to all applicants.* A person submitting application for appointment in the Regular Air Force for service as a nurse, women medical specialist, veterinary officer, or medical service officer must:

(1) Have reached his/her 21st birthday.

(2) Hold a valid appointment as a Reserve officer of the Air Force and be serving as a commissioned officer in the active military service, and currently designated to perform medical service, veterinary, nurse, or women medical specialist duties pursuant to sec. 307, 65 Stat. 330; 10 U. S. C. 1837.

(3) Have served on active duty as a commissioned officer under such designation, as outlined in subparagraph (2) of this paragraph, for not less than 6 months immediately prior to date of application.

(4) Be a citizen of the United States. An applicant who is not a citizen of the United States by birth must furnish a certificate by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original Certificate of Citizenship Number _____ (or certified copy of court order establishing citizenship) stating that _____ was admitted to
(Full name)
United States citizenship by the _____ Court of _____, _____
(District or County) (State)
on _____. The following person was
(Date)
named in the certificate as a minor child: _____; age _____
(Full name)

NOTE: Facsimiles or copies, photographic or otherwise, will not be made of naturalization certificates under any circumstances. Act 25 June 1948 (62 Stat. 767; 18 U. S. C. 1426 (h) provides that whoever, without lawful authority, prints, photographs, makes or executes any print or impression in the likeness of a certificate of arrival, declaration of intention to become a citizen, or certificate of naturalization or citizenship, or any part thereof, shall be fined not more than $5,000 or imprisoned not more than five years, or both.

(5) Be medically qualified for appointment in the Regular Air Force.

(6) If a female applicant, be unmarried. If divorced, a female applicant must submit documentary evidence of final divorce decree.

(7) If a female applicant, not have any legal or other responsibility for the custody, control, care, maintenance, or support of a dependent under 18 years of age. A woman having a stepchild or foster child under 18 years of age and such child is within her household for a period of more than 30 days each year or who otherwise stands in relationship of parent to such child may not be appointed.

(b) *Specific requirements*—(1) *Nurse.* Each applicant for duty as a nurse must:

(i) Be a female registered nurse.

(ii) Not exceed the age limitation described below on opening date of period for submission of applications:

(a) Applicants with less than 2½ years of professional experience on opening date of application period may not exceed the age of 27 years; however, the age of 27 may be increased by the period of active Federal commissioned service performed after December 31, 1947, but not to exceed 4 years 6 months.

(b) Applicants with more than 2½ years of professional experience on opening data of application period may not exceed the age of 30 years; however, the age of 30 may be increased by the period of active Federal commissioned service performed after December 31, 1947, but not to exceed 4 years 6 months.

(c) On date of nomination by the President, a successful applicant may not exceed the age of 27 or 30 as prescribed in (a) and (b) of this subdivision, by a period greater than the number of years, months, and days (not to exceed 5 years) of active Federal commissioned service performed after December 31, 1947.

(d) Be a graduate of a nursing school acceptable to the Surgeon General, United States Air Force.

(2) *Women medical specialist.* Each applicant for duty as a women medical specialist must:

(i) Be a female.

(ii) Meet the criteria specified in subparagraph (1) (ii) of this paragraph.

(iii) Meet the following educational requirements:

(a) Dietitians must have a baccalaureate degree from an approved college or university, with a major either in foods and nutrition or in institution management, and have completed a hospital dietetic internship acceptable to the Surgeon General, United States Air Force.

(b) Occupational therapists must have a baccalaureate degree from an approved school or university and be a graduate of a training course in occupational therapy acceptable to the Surgeon General, United States Air Force.

(c) Physical therapists must have a baccalaureate degree in physical therapy from an approved school of physical therapy or a baccalaureate degree from an approved college or university with major emphasis in physical education or biological science plus a physical therapy training course acceptable to the Surgeon General, United States Air Force.

(3) *Veterinary officer.* Each applicant for duty as a veterinary officer must:

(i) Not have passed his 32d birthday on the opening date of period for submission of application; however, an applicant may exceed the age of 32 by the number of years, months, and days of active Federal commissioned service performed after December 31, 1947 in the Army or Air Force, but not to exceed 4 years 6 months. At the time of appointment, a successful applicant may not exceed the age of 32 years by more than the number of years, months, and days (not to exceed 5 years) of active Federal commissioned service performed by him since December 31, 1947, with the Army of the United States or the Air Force.

(ii) Be a graduate of a veterinary college acceptable to the Surgeon General, United States Air Force.

(4) *Medical service officer.* Each applicant for duty as a medical service officer must:

(i) Not have passed his 30th birthday on the opening date of period for submission of application; however, an applicant may exceed the age of 30 by the number of years, months, and days of active Federal commissioned service performed after December 31, 1947 in the Army or Air Force but not to exceed 4 years 6 months. At the time of appointment, a successful applicant may not exceed the age of 30 years by more than the number of years, months, and days (not to exceed 5 years) of active Federal commissioned service performed by him since December 31, 1947, with the Army of the United States or the Air Force.

(ii) Have completed a minimum of 60 semester or 90 quarter hour credits toward a baccalaureate degree from a college or university accredited by a national or regional accrediting association or have successfully completed the General Educational Development Test (college level) administered by the United States Armed Forces Institute. A transcript of all college and/or university credits or the military test report from United States Armed Forces Institute indicating scores attained in the General Educational Development Test (college level) must be attached to the application. The passing scores for the General Educational Development Test (college level), for the purpose of §§ 861.151 to 861.156 only are:

(a) Test I	61
(b) Test II	70
(c) Test III	72
(d) Test IV	68

§ 861.155 *Grade determination*—(a) *Permanent grades.* Appointments will be made in permanent grades as follows:

(1) Regular Air Force appointments with a view to designation for performance of duty as nurses and women medical specialists will be made in the grade of second lieutenant if the selectee has less than 3 years of professional experience or first lieutenant if the selectee has 3 or more years of professional experience acceptable to the Surgeon General, United States Air Force, on date of nomination by the President.

(2) On the basis of service credit as provided in paragraph (b) (2) of this section, the commissioned officer grade in which a person is appointed with a view to designation for the performance of duty as a veterinary officer or medical service officer will be determined as follows:

(i) Persons who are credited with less than 3 years' service will be appointed in the grade of second lieutenant.

(ii) Persons who are credited with 3 or more years' but less than 7 years' service will be appointed in the grade of first lieutenant.

(iii) Persons who are credited with 7 or more years' service will be appointed in the grade of captain.

The names of persons so appointed will be placed upon the applicable promotion list immediately below those officers of the same grade having the same or next greater period of service.

(b) *Service credit (Veterinary and medical service officers only).* (1) For the purpose of determining grade, position on the promotion list, permanent grade seniority, and eligibility for promotion, each person initially appointed with a view to designation for performance of duty as a veterinary officer or medical service officer in the Regular Air Force will, at the time of appointment, be credited with all active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army or the Air Force after December 31, 1947, up to a maximum of 5 years of such service.

(2) In addition to subparagraph (1) of this paragraph and for the same purposes, each person appointed with a view to designation for performance of duty as a veterinary officer in the Regular Air Force will, at the time of appointment, be credited with an amount of service equal to 2 years. Each person appointed with a view to designation for performance of duty as a medical service officer in the Regular Air Force who at the time of appointment holds a degree of doctor of philosophy or comparable degree recognized by the Surgeon General, United States Air Force, in a science allied to medicine, will be credited at the time of appointment with an amount of service equal to 3 years.

(c) *Temporary grades.* Acceptance of appointment in the Regular Air Force will not affect a higher temporary grade in which an officer is serving at the time.

§ 861.156 *Instructions*—(a) *Applicant.* Any person who is eligible under § 861.154 may be considered for Regular appointment by complying with these instructions. Failure to comply with subparagraph (1) of this paragraph in all respects will preclude an applicant from being considered for appointment.

(1) *Submitting application.* Proper application must be submitted during the periods indicated in § 861.153 (a) to the applicant's immediate superior. A proper application consists of the following documents:

(i) AF Form 17, "Application for Appointment in the United States Air Force," completed in duplicate. Each applicant will plainly mark, at the top of AF Form 17, the duty designation in the medical service for which application is submitted.

(ii) AF Form 17A, "Supplement to Application for Commission in the United States Air Force (Medical Service)," in duplicate (submitted by nurses and women medical specialists only).

(iii) One copy of DD Form 98, "Loyalty Certificate for Personnel of the

Armed Forces," and one copy of DD Form 98a, "Consolidated List of Organizations Designated by the Attorney General on October 30, 1950, Pursuant to Executive Order 9835."

(iv) Certificates from at least three reputable persons based upon personal acquaintance regarding the character, habits, and evidence of professional attainment of the applicant.

(v) Originals or photostatic copies of diplomas and/or certificates evidencing graduation or completion of courses at veterinary, nursing, or other professional schools.

(vi) Originals or photostatic copies of properly authenticated transcripts of all college credits or the military test report from the United States Armed Forces Institute indicating scores attained in the General Educational Development Test (college level) (submitted only by applicants for appointment as medical service officers).

(vii) Certificate from an officer verifying citizenship by naturalization as required in § 861.154 (a) (4), if applicable.

(viii) Standard Form 88, "Report of Medical Examination" (in duplicate) and Standard Form 89, "Report of Medical History."

(ix) A recent photograph of the applicant, head-and-shoulders type, not less than 3 by 5 inches. The applicant's name will appear on the reverse.

(2) *Completing AF Form 17.* For the purpose of §§ 861.151 to 861.156, instructions on completing AF Form 17, August 23, 1949, are revised and supplemented as follows (these instructions do not apply to AF Form 17, September 1, 1952):

(i) *Item 11, section I.* Below the heading "Other Schools," enter all military schools attended and indicate the period of attendance, title of course, whether successfully completed, and final grade or class standing if known.

(ii) *Item 17, section I.* Enter all supplementary schooling completed or in process such as extension or correspondence courses, examinations for credit, or home study without supervision, and indicate type of study, titles of courses, and credit granted or expected to be granted.

(iii) *Item 12, section II.* Enter names and other required information of all immediate superior officers under whom the applicant has served directly as a commissioned officer for periods of 90 or more days during the 3-year period immediately preceding application, except the immediate superior to whom application is submitted.

(iv) *Item 13, section II.* Enter names and other required information of superior officers (other than those listed in item 12) who have either exercised supervision of the applicant or have closely observed the applicant in the performance of duty for a period of 90 or more days during the 3-year period immediately preceding application.

(3) *Service statement.* The service statement of the person to include date of expiration will be indicated in paragraph 14, section II, AF Form 17, August 23, 1949, or the remarks paragraph of AF Form 17, September 1, 1952. Persons who submit valid applications and are subsequently relieved from active duty will be considered for Regular commissions. Applicants in this category, who are selected, will be tendered appointments provided that they are medically qualified and do not exceed the maximum statutory age for initial appointment as specified in § 861.154.

(4) *Change of address.* The military address furnished on the AF Form 17 will be used for the purpose of contacting an applicant with regard to his application. The applicant is responsible for giving immediate notice to the Director of Personnel Procurement and Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., of any change of address, permanent or temporary (if for 15 days or more), between submission of application and notification of final action. If such a change of address occurs prior to completion of field testing, notification will be made by electrical means.

(5) *Reporting for testing.* An applicant will report for testing at the designated time and place or make prior arrangements satisfactory to the appropriate base commander. Applicants who have been scheduled for testing and who proceed on temporary duty, permanent change of station, or leave prior to being tested, will report to the nearest base with testing facilities to be scheduled for testing. To be tested, such applicants must present copy of letter from Headquarters United States Air Force acknowledging receipt of application and containing authority for being tested to any commander of a base where testing facilities are available.

(6) *Replying to communications.* Applicants who do not promptly reply to and or comply with all communications and instructions regarding their applications and testing will be considered as being no longer interested in a Regular commission and their applications may be considered to have been abandoned by Headquarters United States Air Force.

(7) *Compromising test questions.* Applicants are directed not to discuss the contents of the "USAF Officer Aptitude Test" after its completion. Since officers are selected for Regular appointments on a competitive basis, any applicants who have advance information concerning test questions will be at a decided advantage over all other applicants.

(b) *Immediate superior.* The immediate superior will review the application for completeness and correctness and forward the application within 3 working days of receipt to the applicant's organization commander. The forwarding indorsement will contain a statement regarding the applicant's suitability for appointment in the Regular Air Force. The officer evaluation report referred to on AF Form 17 will not be prepared by the immediate superior at time application is indorsed to the organization commander.

(c) *Organization commander.* After receipt of the application, the organization commander will:

(1) Determine if applicant meets the eligibility requirements for applying, and if application has been supported with the necessary documents. Section 861.154 and paragraphs (a) (1) of this section will be used as a checklist for this purpose.

(2) Return incomplete applications by indorsement directly to the applicants with reasons therefor not later than 3 working days after receipt. Information copies of all indorsements returning applications will be furnished the Director of Personnel Procurement and Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C.

(3) Indorse completed applications directly to the Director of Personnel Procurement and Training, Headquarters, United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., within 3 working days after receipt. Applications from organizations located overseas will be forwarded by airmail. Indorsements will contain a statement to the effect that the applicant's records have been examined carefully, the applicant is eligible under §§ 861.151 to 861.156, the application is complete, and nothing was found in the applicant's file of a sufficient derogatory nature to preclude further consideration of the application.

(4) Furnish sufficient explanation of the circumstances in the event of derogatory information or questionable findings.

(5) Advise the Director of Personnel Procurement and Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., if, between date of application and final action by Headquarters United States Air Force, any matter comes to his attention with regard to an applicant under his command which would materially affect (favorably or unfavorably) the applicant's qualifications for Regular Air Force appointment.

(6) Upon receipt of notification of testing appointment for any member of his organization, issue necessary instructions directing travel where necessary and specifying time and place applicant must report for testing. If the applicant will not be available at the specified time, advise the base commander responsible for testing that it is not feasible for applicant to report and request that another date and/or testing point be designated.

(d) *Commander of major air command.* The commander of a major air command will monitor and coordinate the testing of applicants by base commanders and determine the appropriate base for testing.

(1) *Testing authority.* Authority to test applicants will be forwarded by the Director of Personnel Procurement and Training, Headquarters United States Air Force, directly to the commanders of the major air commands or on occasion directly to the appropriate base commanders. Persons will be tested only upon receipt of this specific authority or upon presentation by applicants of acknowledgment letters from Headquarters United States Air Force indicating receipt of their applications. Testing authority will be transmitted either by letter or electrical communication. Upon receipt of testing authority, commanders of major air commands will relay instructions for testing to their base commanders for completion of testing.

(2) *Inability to accomplish testing.* Upon notification by a base commander that testing cannot be accomplished, the commander of a major air command will take the following action:

(i) If testing cannot be accomplished because applicant is located in an area normally serviced by another base but still under the jurisdiction of the same major air commander, testing authority will be transferred to the appropriate base. This authority may be delegated to base commanders for automatic implementation.

(ii) If the applicant is located outside the jurisdiction of the commander of a major air command, testing authority will be transferred to the appropriate major air commander for action. Information copies of all communications either written or electrical transferring testing authority between commanders of major air commands will be furnished to the Director of Personnel Procurement and Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C.

(iii) If a base commander is unable to accomplish testing for reasons other than the applicant's absence from the base area, the commander of the major air command will make every effort to resolve the problem and arrange for testing. If a solution does not appear feasible, the commander of the major air command will promptly advise the Director of Personnel Procurement and Training, Headquarters United States Air Force, Attention: Personnel Procurement Division, Washington 25, D. C., with a brief statement of the circumstances.

(e) *Base commander.* Immediately upon receipt of testing authority from Headquarters United States Air Force, a commander of a major air command, or upon presentation by an applicant of a letter from Headquarters United States Air Force acknowledging receipt of his application, base commanders will make arrangements to test applicants. Applicants will be scheduled for testing during one of the testing periods set forth in § 861.153 (a). Priority will be given to applicants who may be under orders for change of station or who are not in the active military service. In conjunction with their notifications, applicants will be advised regarding any documents or records which they may be required to furnish for completion of their application. In order to test applicants, the base commanders will:

(1) Request organization commanders of applicants on active duty to issue necessary instructions, directing travel where necessary, and specifying the time and place of testing.

(2) Furnish written notification to applicants who are not in the active military service, specifying the time and place for testing and informing them that cost of travel, quarters, and subsistence will be at no expense to the Government. Every effort will be made to schedule such applicants at times convenient to them.

(3) Give applicants upon arrival for testing, a brief orientation to consist of:

(i) A brief welcome, an explanation of how applicants will be scheduled and rules of the testing center, including a description of messing, billeting, and other facilities.

(ii) Direction not to discuss test questions with any other applicants for the reason stated in paragraph (a) (7) of this section.

(4) If the responsible test control officer is an applicant for a Regular Air Force commission, appoint a Regular Air Force officer to administer the test to the test control officer.

(f) *Director of Personnel Procurement and Training.* Upon receipt of the applications, the Director of Personnel Procurement and Training, Headquarters United States Air Force, will:

(1) Set up application file for applicants and obtain other pertinent military records.

(2) Forward instructions to test qualified applicants to the appropriate commanders of major air commands or base commanders approximately 30 days after opening date of application period.

(3) Take necessary action to obtain AF PRT 422a, "USAF Performance Reports Integration Form."

(4) Upon receipt of testing instruments, process each case and forward it to the Surgeon General, United States Air Force, for recommendation of selection or non-selection.

(5) Transmit the complete file of each applicant, with the recommendations of the Surgeon General, United States Air Force, to the Secretary of the Air Force Personnel Council for final consideration.

(6) Notify applicants of their selection, deferral, or rejection.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

[F. R. Doc. 54-284; Filed, Jan. 15, 1954; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 923]

[Docket No. AO-251]

HANDLING OF MILK IN APPALACHIAN MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Bristol Hotel, Bristol, Virginia, beginning at 10:00 a. m., February 1, 1954.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Appalachian marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in the said marketing area. The proposed marketing agreement and order provisions set forth below have not received the approval of the Secretary of Agriculture. At the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modification thereof.

Marketing agreement and order proposed by the Tri-State Milk Producers Association, Inc. and East Tennessee Milk Producers Association, Inc.:

DEFINITIONS

§ 923.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 923.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 923.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 923.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 923.5 *Appalachian Marketing Area.* "Appalachian Marketing Area," hereinafter called the "marketing area," means all the territory within the counties of Sullivan, Washington, and Greene in Tennessee, Washington, Smythe and Wise in Virginia, and Harlan in Kentucky.

§ 923.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18th, 1922, as amended, known as the "Capper-Volstead Act," and is authorized by its members to make collective sales or to market milk or its products for the members of such cooperative.

§ 923.7 *Producer-handler.* "Producer-handler" means any person who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area and who processes milk from his own production, distributing all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

§ 923.8 *Delivery period.* "Delivery period" means a calendar month, or the portion thereof during which this part is in effect.

§ 923.9 *Fluid milk plant.* "Fluid milk plant" means (a) any milk plant, except a plant at which the handling of milk is regulated by another milk marketing agreement or order issued pursuant to the act, used during the month for the processing and packaging of milk all or a portion of which was disposed of as Class I milk to wholesale or retail outlets (including the delivery by a vendor or sale from a plant store) in the marketing area; or (b) any plant which in any delivery period delivers a total of 20,000 pounds or more of milk to one or more plants which are fluid milk plants pursuant to paragraph (a) of this section: *Provided*, That a plant shall not be a fluid milk plant pursuant to this paragraph during any of the delivery periods of September through February in which milk is delivered from such plant to one or more fluid milk plants pursuant to paragraph (a) of this section on less than one day of each week ending within such delivery period.

§ 923.10 *Producer.* "Producer" means any person, except a producer-handler, who produces milk and whose milk is: (a) Received at a fluid milk plant, or (b) diverted during the months of April through July by a handler from a fluid milk plant to a nonfluid plant.

§ 923.11 *Handler.* "Handler" means (a) any person in his capacity as operator of a fluid milk plant, (b) a producer-handler, or (c) any cooperative association with respect to milk of producers diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

§ 923.12 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant.

§ 923.13 *Other source milk.* "Other source milk" means all skim milk (including reconstituted skim milk) and butterfat not received from a producer, or from a fluid milk plant, but: (a) Contained in milk, skim milk, or cream, or (b) used to produce any milk product.

§ 923.14 *Producer milk.* "Producer milk" means milk produced by one or more producers.

§ 923.15 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of April through August which is not in excess of such producer's daily average base computed pursuant to § 923.60 multiplied by the number of days in such month.

§ 923.16 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of April through August which is in excess of base milk received from such producer during such month, and shall include all milk received during such month from a producer from whom no daily average base can be computed pursuant to § 923.60.

MARKET ADMINISTRATOR

§ 923.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 923.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 923.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 923.84 (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses except those incurred under § 923.85 necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose at his discretion to handlers and producers, unless otherwise directed by the Secretary, the name of any person who does not perform such acts: (1) Reports pursuant to § 923.30 or (2) payments pursuant to §§ 923.80, 923.81 and 923.82;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) Publicly announce and notify each handler in writing on or before: (1) The 6th day of each delivery period the minimum prices for Class I milk pursuant to § 923.51 (a) and the Class I butterfat differential pursuant to § 923.52 (a), both for the current delivery period; and the minimum price for Class II milk pursuant to § 923.51 (b) and the Class II butterfat differential pursuant to § 923.52 (b), both for the preceding delivery period; and (2) the 8th day after the end of each delivery period, the uniform price pursuant to §§ 923.71 and 923.72 and the butterfat differentials to be paid pursuant to § 923.82.

REPORTS, RECORDS, AND FACILITIES

§ 923.30 *Reports of receipts and utilization.* On or before the 4th day after the end of each delivery period each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in (1) all receipts at his fluid milk plant(s) within such delivery period of (i) producer milk, and for the months of April through August the aggregate quantities of base and excess, (ii) skim milk and butterfat in any form from other handlers, and (iii) other source milk; and (2) milk diverted pursuant to § 923.10 (b);

(b) The utilization of all skim milk and butterfat required to be reported under paragraph (a) of this section; and

(c) Such other reports concerning receipts and utilization as the market administrator may require.

§ 923.31 *Other reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator as follows, except that each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request:

(a) On or before the 20th day after the end of the delivery period his producer payroll for such delivery period which shall show: (1) The total pounds of milk received from each producer or cooperative association, including for the delivery periods of April through August the total deliveries of base milk and excess milk by each producer; (2) the number of days deliveries are made and if less than a full calendar month, the date of first and last delivery; (3) the average butterfat content of such milk; and (4) the net amount of such handler's payment to each producer or a cooperative association, together with the prices paid, deductions and charges involved.

§ 923.32 *Records and facilities.* Each handler shall keep adequate daily records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weight, sample, and test for butterfat content all milk and milk products handled; (c) verify payment to producers; and (d) make such examinations of operations, equipment, products and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

§ 923.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such three-year period the market administrator notifies the handler in writing that the retention of such books and records or of specified books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 923.40 *Basis of classification.* All skim milk and butterfat contained in (a) receipts at a fluid milk plant(s) within such delivery period of (1) producer milk, (2) skim milk and butterfat in any form from other handlers, and (3) other source milk; and (b) milk diverted pursuant to § 923.10 (b) shall be classified by the market administrator in the classes set forth in § 923.41.

§ 923.41 *Classes of utilization.* Subject to the conditions set forth in §§ 923.42 through 923.45 the classes of utilization shall be as follows:

(a) Class I shall be all skim milk and butterfat (1) disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream and any cream products, or any mixtures of these products in fluid form, except frozen cream and ice cream mix; (2) in inventory variation; and (3) not specifically accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat used to produce any item other than those designated as Class I milk in paragraph (a) of this section.

§ 923.42 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be classified as Class I milk, unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

(b) Any skim milk or butterfat classified in Class II shall be reclassified Class I if used or reused by such handler or by another handler in that class.

§ 923.43 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a fluid milk plant of another handler, unless utilization in Class II is reported by the transferor handler in his regular monthly utilization report to the market administrator, but in no event shall the amount classified in any class exceed the total use in such class by the transferee-handler: *Provided*, That if either or both handlers have received other source milk, such milk so disposed of shall be classified at both plants so as to return the higher class utilization to producer milk.

(b) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a producer-handler.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a plant other than a fluid plant, except that of a producer-handler, unless the handler reports utilization in Class II in his monthly report to the market administrator; and provided that the operator of the nonfluid milk plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant in the use indicated in such statement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I: *Provided further*, That if such plant disposes of fluid cream to another nonfluid milk plant which conforms with the requirements of this paragraph, such cream shall be classified as Class II milk.

§ 923.44 *Computation of skim milk and butterfat in each class.* For each delivery period, the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 923.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for each handler for each delivery period shall be the pounds in such class allocated to producer milk received by such handler.

(1) Subtract from the pounds of skim milk remaining in each class, in series beginning with the lowest price Class II milk, the pounds of skim milk in other source milk;

(2) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk received from other handlers and assigned to such class pursuant to § 923.43 (a);

(3) If all the pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class, in series beginning with Class II.

(b) Allocate the pounds of butterfat in each class to producer milk in the same manner prescribed for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

MINIMUM PRICES

§ 923.50 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest cent) to be used in determining the price for Class I milk of 4.0 percent butterfat content shall be the highest of the prices computed pursuant to paragraphs (a), (b), or (c) of this section.

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the delivery period by the companies listed below:

Company and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

Add an amount computed by multiplying the butterfat differential computed pursuant to § 923.52 (a) by 5;

(b) The price computed from the following formula:

(1) Multiply by 4.24 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at New York, as reported by the United States Department of Agriculture, during the delivery period;

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids,

for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding delivery period through the 25th day of the current delivery period, by the United States Department of Agriculture:

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 68 cents; and

(4) Add an amount computed by multiplying the butterfat differential computed pursuant to § 923.52 (a) by 5; or

(c) The price intended to be reflected to producers for manufacturing milk, as announced for the current marketing year by the Secretary of Agriculture under the government price support program, adjusted to 4.0 percent butterfat equivalent in accordance with the butterfat differential provided in § 923.52 (a).

§ 923.51 *Class prices.* Subject to the provisions of § 923.52 each handler shall pay producers, at the time and in the manner set forth in §§ 923.80 through 923.83, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk computed pursuant to § 923.45:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price for the immediately preceding delivery period, plus $2.25 per hundredweight.

(b) *Class II milk.* The price for Class II milk shall be the higher of the prices computed pursuant to § 923.50 (b) or the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the delivery period by the companies indicated below:

Company and Location

Southern Dairies, Christianburg, Va.
Pet Milk Co., Bowling Green, Ky.
Pet Milk Co., Greeneville, Tenn.
Pet Milk Co., Abingdon, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N. C.
Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S. C.
Carnation Co., Galax, Va.

§ 923.52 *Butterfat differentials to handlers.* If the average butterfat test of Class I milk or Class II milk is more or less than 4.0 percent, there shall be added to or subtracted from, as the case may be, the price for such class of utilization for each one-tenth of 1 percent that such average butterfat test is above or below 4.0 percent, a butterfat differential calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply by 0.120 the average of the daily wholesale prices (using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at New York City, as reported by the Department of Agriculture during the immediately preceding delivery period, and round to the nearest one-tenth cent.

(b) *Class II milk.* Multiply by 0.110 the average of the daily wholesale prices (using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at New York City as reported by the Department of Agriculture during the delivery period, and round to the nearest one-tenth cent.

DETERMINATION OF BASE

§ 923.60 *Computation of daily average base for each producer.* For the months of April through August of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 923.61.

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September through February immediately preceding by the number of days from the first day of delivery by such producer during such months to the last day of February, inclusive, but not less than 120 days.

§ 923.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer, the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(3) If a baseholder ceases to deliver Grade A milk to any handler, base may be transferred in whole to one designated by baseholder.

§ 923.62 *Announcement of established bases.* On or before April 1 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer the daily base established by such producer.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 923.70 *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price, (b) add together the resulting amounts, and (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the appropriate class price.

§ 923.71 *Computation of the uniform price for each handler.* For each month of September through February, the market administrator shall compute for each handler the uniform price for milk received from producers as follows:

(a) To the amount computed pursuant to § 923.70 add if the average butterfat content of milk received from producers by such handler is less than 4.0 percent, or subtract if such average butterfat content is more than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers computed pursuant to § 923.82, and multiply the result by the total hundredweight of such milk;

(b) Add the amount represented by any deductions made pursuant to paragraph (c) of this section for fractions of a cent in computing the uniform price for the preceding month;

(c) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result, less any fraction of a cent per hundredweight, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat, f. o. b. fluid milk plant.

§ 923.72 *Computation of the uniform price for base milk and for excess milk for each handler.* For each of the months of April through August, the market administrator shall compute for each handler the uniform price for base milk and for excess milk received from producers as follows:

(a) To the amount computed pursuant to § 923.70 add if the average butterfat content of milk received from producers by such handler is less than 4.0 percent, or subtract if such average butterfat content is more than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers computed pursuant to § 923.82 and multiply the result by the total hundredweight of such milk;

(b) Add the amount represented by any deductions made pursuant to § 923.71 (c) or paragraphs (e) and (f) of this section for fractions of a cent in computing such uniform prices for the preceding month;

(c) Subject to the condition set forth in paragraph (d) of this section, compute the value of excess milk by multiplying the quantity of such milk by the Class II price;

(d) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (c) of this section from the value obtained pursuant to paragraph (b) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of base milk delivered by producers by the Class I price computed pursuant to § 923.51, such value in excess thereof shall be added to the value computed pursuant to paragraph (c) of this section to the extent that the excess price shall not exceed the base price as calculated in this subpart. Any additional value remaining shall be prorated on a volume basis between excess and base milk;

(e) Divide the result obtained in paragraph (d) of this section by the quantity of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price per hundredweight for such handler for "base milk" of 4.0 percent butterfat content; and

(f) Divide the result obtained in paragraph (c) of this section by the quantity of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price per hundredweight for such handler for "excess milk" of 4.0 percent butterfat content.

§ 923.73 *Notification of handlers.* On or before the 8th day after the end of each delivery period, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of April through August the amounts and value of his base and excess milk, respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 923.71 and 923.72 and the butterfat differential computed pursuant to § 923.82; and

(d) The amounts to be paid by such handler pursuant to §§ 923.80, 923.81, 923.82, 923.84 and 923.85.

PAYMENTS

§ 923.80 *Time and method of payment for producer milk.* (a) On or before the last day of each delivery period each handler shall make payment to each producer for milk received from him during the first effective days of such delivery period at not less than the Class II price per hundredweight for the preceding delivery period: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association on or before the 2d day before the end of each delivery period an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(b) On or before the 15th day after the end of each delivery period each handler shall make payment to each producer for milk which was received from him during the delivery period at not less than the uniform price computed pursuant to § 923.71, if such delivery period is any of the months of September through March, or at not less than the uniform price for base milk computed pursuant to § 923.72 with respect to base milk received from such producer and at not less than the uniform price for excess milk computed pursuant to § 923.72 with respect to excess milk received from such producer, if such delivery period is any of the months of April through August, subject to the following adjustment: (1) The butterfat differential pursuant to § 923.82, (2) less payment made pursuant to paragraph (a) of this section, (3) less marketing service deductions pursuant to § 923.85, (4) less deductions authorized in writing by the producer, and (5) adjusted for any error in calculating payment to such individual producer for past delivery periods: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall pay such cooperative association, on or before the 13th day after the end of each delivery period, an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

§ 923.81 *Adjustment of errors in payment.* Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 923.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 923.82 *Butterfat differential to producers.* In making payments to each producer there shall be added to the uniform price(s) for each one-tenth of 1 percent that the average butterfat content of such milk delivered by such producer is above 4.0 percent not less than, or there may be deducted from the uniform price for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply the simple average computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at New York City as reported by the United States Department of Agriculture during the month, by 0.110 and round to the nearest one-tenth of a cent.

§ 923.83 *Statement to producers.* In making payments required by § 923.80, each handler shall furnish each producer or cooperative association with a supporting statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The delivery period and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer;

(c) The minimum rate or rates at which payment to the producers is required under the provisions of §§ 923.80 and 923.82;

(d) The rate which is used in making the payment if such rate is other than the applicable minimum;

(e) The amount of the rate per hundredweight of each deduction claimed by the handler, including any deduction made pursuant to § 923.85, together with a description of the respective deductions; and

(f) The net amount of payment to the producer or cooperative association.

§ 923.84 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to receipts during the delivery period, of (a) milk from producers (including such handler's own production), and (b) other source milk received at a fluid milk plant.

§ 923.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to producers pursuant to § 923.80 (b) shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers, excepting such handler's own farm production, during the delivery period, and shall pay such deductions to the market administrator not later than the 15th day after the end of the delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the delivery period and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a), of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each delivery period, pay over such deductions to the association rendering such services.

§ 923.86 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted prior to the issuance of this order, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If the handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact material to the obligation on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 923.90 *Producer-handlers.* Sections 923.40 through 923.45, 923.50 through 923.52, 923.60 through 923.62, 923.70 through 923.73, 923.80 through 923.86 shall not apply to a producer-handler.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 923.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 923.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 923.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 923.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 923.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this act, to other persons or circumstances shall not be affected thereby.

§ 923.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Copies of this notice of hearing may be procured from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 12, 1954, Washington, D. C.

[SEAL] GEORGE A. DICE
Acting Deputy Administrator.

[7 CFR Part 951]

TOKAY GRAPES GROWN IN SAN JOAQUIN AND SACRAMENTO COUNTIES IN CALIFORNIA

FINDINGS AND DETERMINATIONS WITH RESPECT TO CONTINUATION IN EFFECT OF AMENDED MARKETING AGREEMENT AND

Pursuant to the applicable provisions of Marketing Agreement No. 93, as amended, and Order No. 51, as amended (7 CFR Part 951), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), notice was given in the FEDERAL REGISTER on November 25, 1953 (18 F. R. 7520), that a referendum would be conducted among the growers who, during the period beginning April 1, 1953, and ending November 1, 1953, both dates inclusive (which period was determined to be a representative period for the purpose of such referendum), had been engaged, within San Joaquin and Sacramento Counties in California, in the production of Tokay grapes for market, to cast their ballots relative to the termination of said amended marketing agreement and order.

Upon the basis of the results of the aforesaid referendum, which was conducted during the period November 28 to December 5, 1953, both dates inclusive, it is hereby found and determined that the termination of the said marketing agreement and order is not favored by the requisite majority of such growers.

Done at Washington, D. C., this 12th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[7 CFR Part 974]

[Docket AO-176-A10]

HANDLING OF MILK IN COLUMBUS, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Marketing Services, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Columbus, Ohio, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendment to the tentative marketing agreement and to the order, as amended, was formulated, was conducted at Columbus, Ohio, on June 8, 9, and 15, 1953, pursuant to notice thereof which was issued on May 28, 1953 (18 F. R. 3174).

The material issues of record relate to:

1. The classification and pricing of milk used in the manufacture of ice cream and related products;

2. The classification of other source milk received under a written permit issued by the appropriate health authorities in the marketing area;

3. The classification of milk disposed of in the form of cream;

4. The supply-demand adjustment to the Class I price;

5. Seasonal variation in returns to producers.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof.

Milk for ice cream. The price for milk used to produce frozen cream, condensed milk and condensed skim milk (except evaporated milk or skim milk in hermetically sealed cans), ice cream, ice cream mix, ice cream novelties, ice sherbets, or imitation ice cream should be reduced approximately 50 cents per hundredweight for each of the months of April, May, June, and July. To facilitate this price change milk used in such manner should be designated as Class III milk and the present Class III milk should be redesignated as Class IV milk. Since January 1, 1950, milk which would become the new Class III milk has been classified and priced the same as milk disposed of in the form of cream (Class II).

In June 1952 the Columbus Board of Health took action to permit ice cream or ice cream ingredients which are under the Cleveland, Ohio, Health Department inspection to be used in Columbus. In recent months substantial volumes of such ice cream or ice cream ingredients have been brought into Columbus. Milk used to produce such ice cream or ice cream ingredients is not subject to the pricing provisions of the Columbus milk marketing order and may not necessarily be subject to the Cleveland milk marketing order. Prices for such milk under the Cleveland order in 1952 averaged 62.5 cents per hundredweight (of milk containing 3.5 percent of butterfat) below comparable prices under the Columbus order. The cost of ice cream or ice cream ingredients from these Cleveland sources made from milk not subject to the Cleveland order is calculated to be relatively the same as the cost of such items made from milk which is subject to the Cleveland order. Additional handling and transportation costs involved in delivering these Cleveland products to Columbus would be expected to represent only a portion of this price difference, so it appears that Columbus ice cream distributors obtaining ice cream or ice cream ingredients from Cleveland sources are enjoying competitive advantages over their competitors who use producer milk for their ice cream. These competitive advantages have been exemplified to some extent in lower wholesale and retail prices for ice cream. Unless the competitive disadvantages to ice cream distributors using producer milk are removed by changing the applicable order provisions, the ice cream distributors suffering such disadvantages may attempt to remove it themselves by seeking ice cream or ice cream ingredients from lower cost sources.

Prior to this June 1952 action of the Columbus Board of Health all ice cream and ice cream ingredients for Columbus were required to be made from milk produced under supervision of the Columbus Board of Health—the same quality of milk that was required for use in bottled milk or cream. On the basis of this quality requirement and the accompanying limited source of supplies of such milk, milk for use in ice cream was priced under the order at the same price as milk for use in bottled cream. The June 1952 action of the Board of Health has opened up a new large lower priced source of supply of ice cream or ice cream ingredients for Columbus.

Handlers have historically stored frozen cream and condensed products in the spring and summer, notably in May and June, for use in the following August or September through February or March. These stored products are used largely for ice cream. About 85 percent of the frozen cream stored during 1950–52 was used for ice cream and most of the remainder was reclassified to Class III. Of the condensed products stored during this period, about 60 percent was used for ice cream, about 25 percent was disposed of to persons other than handlers, and most of the remainder was reclassified, over three-fourth to Class I. To the extent that storage for use in ice cream is practiced, the need for currently produced producer milk for ice cream requirements in the fall and winter is accordingly reduced. In the last three Novembers when both milk production and ice cream sales were at or near their seasonal low point, the utilization of skim milk for ice cream and ice cream ingredients (frozen cream and condensed products) ranged from 4.0 to 5.1 percent of the skim milk contained in producer milk. The comparable range for butterfat was 7.2 to 10.1. In the last three Mays for which data are shown in the record, when milk production was at its seasonal peak and ice cream sales were rapidly increasing seasonally, the utilization of skim milk and butterfat for ice cream and ice cream ingredients ranged from 18.9 to 23.7 percent and from 26.1 to 32.9 percent, respectively, of the respective supplies of skim milk and butterfat in producer milk. In one month (November 1951) almost half of the butterfat used by handlers in ice cream was obtained from stored frozen cream, and in each of the months of November 1950 and November 1952 about one-fourth of the butterfat so used came from stored cream.

The above data show that market requirements for producer milk for ice cream vary seasonally in a pattern somewhat similar to the seasonality of supplies of producer milk, and that with the storage practice which has been followed a much larger proportion of producer milk is used for ice cream (current needs plus storage) during the spring and summer months than during the fall and winter months.

The reduction in the price of milk for ice cream during April, May, June, and July, resulting in a lower level of prices of milk for ice cream and a wider seasonal variation in these prices, should offer some further incentive for increased ice cream outlets and for storing products during those months for later use.

The proposal that for skim milk manufactured into condensed skim milk during April-July, placed in storage, and sold during the following January-March to a person other than a handler, a handler should be credited with the difference between the present Class II price (new Class III price) and the present Class III price (new Class IV price), making the net cost of such milk the present Class III price (new Class IV price) should not be adopted. Handlers testified that this proposal is of little or no consequence in providing outlets for surplus skim milk because of the high storage costs experienced.

It was proposed at the hearing that milk used in aerated products (Reddi-Whip, Instant Whip, and similar products) be classified and priced the same as milk for ice cream. Evidence in the record indicates that the quality requirements and the available sources of supplies of milk for these products remain the same as for bottled cream; accordingly, this proposal is denied.

The question of whether the new Class III price (milk for ice cream and related uses) should be subject to the supply-demand adjustment arises. Since the revisions concluded above to be necessary are designed to price milk used during April, May, June, and July for ice cream or ice cream ingredients in closer relationship to the cost of Cleveland approved ice cream or ice cream ingredients, the supply-demand adjustment should not apply during these months. During the remaining months of the year the price of milk used for ice cream should be subject to the supply-demand adjustment—when supplies are short less milk will be available for use in ice cream and the price should be higher to reflect this condition; and

when supplies are long a lower price for milk for ice cream would be desirable.

A proposal that the proposed reduction in the price of milk for ice cream be accompanied by an increase in the Class I price sufficient to prevent any resulting decline in returns to producers should be denied. Such an increase in the Class I price would be appropriate only for the purpose of retaining supplies of producer milk for ice cream at no less than the present level.

A comparison of the price of milk for ice cream (Class II price) and the uniform price during recent years indicates that in all fall and winter months and in some of the spring and summer months the uniform price has been higher than the Class II price. This indicates that in most months returns from milk for ice cream have had a depressing influence on the uniform price. Thus it is not in the producers' interest that producer milk supplies be maintained at a high level to meet ice cream requirements and neither is it in the public interest as long as other sources of supply of ice cream or ice cream ingredients are available. At present and proposed levels of the price of milk for ice cream, ice cream is a desirable outlet only for seasonal reserve milk supplies.

Producer representatives proposed that in lieu of a price reduction to meet the competition of these new lower priced sources of ice cream and ice cream ingredients provisions for collecting an amount sufficient to remove the price advantages of these sources should be prescribed. This would involve the extension of the regulatory provisions of the order to a number of persons not presently regulated thereunder. Adoption of this proposal would not be appropriate unless a conclusion is reached (expressed or implied) that supplies of producer milk should be sufficient to meet ice cream requirements—or that all milk for ice cream should be subject to the pricing provisions of the order.

One condition under the present producer definition is "a dairy farm permit issued by the appropriate health authorities in the marketing area." It appears that this condition would prevent dairy farmers who supply Cleveland approved milk which is disposed of as ice cream or ice cream ingredients in the Columbus marketing area from being producers under the Cleveland order—thus the proposal would assess a charge with respect to milk or milk products which health authorities permit to be used for ice cream but which could not be producer milk under the order.

The proposal involves revision of the fluid milk plant definition so that any plant from which ice cream or other frozen desserts or ice cream mix are distributed in the marketing area would become a fluid milk plant. It would be possible in such an event that the milk of all dairy farmers whose milk would be only of incidental use in the market could be fully subject to the pricing and payment provisions of the order and share proportionately with the milk of other producers, primarily supplying the market for Class I utilization.

Other source milk received under a written permit. Proposals that skim milk and butterfat received in other source milk pursuant to a written permit issued by appropriate health authorities be classified on the basis of the actual use of such skim milk and butterfat should be denied. At the present time any such other source milk received at a plant pursuant to emergency permits issued by health authorities is classified in the same classes and proportions as producer milk at that plant and all remaining other source milk is classified in the lowest valued class of utilization at the plant. Proponents pointed out that local health authorities have never issued emergency permits, so all other source milk has been classified in the lowest valued class of utilization at the plant. They claimed that since local health authorities will now allow ice cream or ice cream ingredients to be obtained from Cleveland approved sources, any products obtained under this permission should be classified on the basis of their actual use.

The price reduction concluded above to be necessary for milk for ice cream is designed to remove the competitive disadvantages now experienced by handlers using producer milk for ice cream. Under such conditions the only apparent need for handlers to rely on supplies of other source milk for use in ice cream would arise when a handler's producer milk supplies are not sufficient for his Class I and Class II requirements and under these circumstances any other source milk obtained for use in ice cream would be classified under the present order provisions on the basis of its use in ice cream. Adoption of this proposal would mean that handlers at their own discretion could have producer milk classified on the basis of its use in butter at a time when they were obtaining other source milk for use in ice cream.

Verification by the market administrator of the actual use of other source milk at a plant is not feasible because it could be effected only by complete and continuous observation of all operations at the plant. Therefore, classification of other source milk on the basis of its actual utilization cannot be adopted.

Classification of cream. Milk disposed of in the form of cream should continue to be classified (as Class II) and priced in the same manner as at present. Supporting evidence on the proposal to include milk for cream as Class I milk indicated that the proposal was submitted mainly for the purpose of increasing returns to producers to offset lower returns which might accrue to producers if the handlers' proposals on pricing of milk for ice cream and classifying other source milk were adopted.

An important consideration in the pricing of milk for use as bottled cream is the relationship between market supplies and market requirements of butterfat. Analysis of data showing this relationship indicates that market supplies of butterfat are larger than market supplies of skim milk in relation to market requirements for butterfat and skim milk, respectively. Increasing the price of milk used for cream would tend to reduce consumption of cream and would thus result in further unbalance in supplies and requirements of butterfat as compared with supplies and requirements of skim milk.

Supply-demand adjustment. Handlers' proposals in the hearing notice would eliminate the supply-demand adjustment; but at the hearing a modified supply-demand adjustment based on the relationship between market supplies and requirements during the most recent 12 months was presented.

The supply-demand adjustment is applied for the purpose of promptly effecting limited adjustments in the Class I price differential in response to changed market conditions. Thus the supply-demand adjustment is useful primarily as an immediate reflector of changes in market conditions. These changes can occur in either market demand or market supplies. In the last year (for which data is shown in the record) Class I utilization increased about 10 percent, and most of that increase occurred in the last 6 or 7 months. Market supplies can change quickly as a result of extremely favorable or unfavorable production conditions.

Under the handlers' proposed supply-demand adjustment any changed condition would have to be in existence several months before appreciably affecting prices, and the full affect would not be experienced until the changed condition had been effective for 12 months. Thus it appears that the lag between changed market conditions and resulting price changes under the handlers' proposal would be such that the primary use of the supply-demand adjustment to quickly reflect changes in market conditions would be impaired.

Handlers also testified that market requirements for Class II milk have declined in relation to Class I requirements in the last three or four years and that this decline has made the present standard utilization percentages contained in the supply-demand adjustment (calculated on sales of Class I milk in relation to supplies) inappropriate. (To the extent that this objection is valid, it also applies to the supply-demand adjustment proposed by handlers.) It would be concluded from this that these standards are now too low (or reflect larger than necessary supplies) and should be increased. A review of supplies in relation to Class I and Class II requirements last November and December shows that only 2.3 and 4.6 percent, respectively, of producer milk supplies were classified as Class III milk during those months. The supply-demand adjustment for December was based on these two months and was zero. It does not appear reasonable to conclude that supplies were excessive during these months.

Handlers also express dissatisfaction with the present supply-demand adjustment because it did not occasion a minus adjustment in the early months of 1953 when supplies of producer milk were at record high levels; however, they expressly avoided the conclusion that the resultant Class I prices were too high. The larger supplies were reflected in the supply-demand adjustment which declined from a plus 26 cents for November to zero for December. As was mentioned in the foregoing Class I requirements during these months were about 10 percent higher than a year earlier—a record high level of Class I requirements.

With the increased scope of supplies of milk for ice cream and the reduction in April-July of order prices for such milk the question arises of whether the desirable relationship between market supplies and requirements as reflected in the standard utilization percentages contained in the supply-demand adjustment should be revised. It was indicated above that the effect which the revised pricing of milk for ice cream during April-July will have on requirements for producer milk for ice cream cannot yet established. Under these circumstances no change should be made at this time.

The proposal made by handlers to limit or prohibit Class I and Class II price increases during April, May, June, and July and declines during October, November, and December should be denied. Such limitations or prohibitions might unduly delay needed price changes to reflect a change in the basic value of milk or in the relationship between supplies and requirements. The decline of 26 cents in the supply-demand adjustment from November to December 1952 in response to greatly increased supplies of producer milk would have been delayed under this proposal.

Handlers claimed that the form of supply-demand adjustment contained in the order conflicts with the program to reduce seasonal variation in supplies because as production becomes more even seasonally supplies during the spring and summer months will not be as great in relation to requirements and as a result the supply-demand adjustment will increase spring and summer prices. It is true that this result is likely unless positive action is taken to prevent it; however, the seasonal correction of supplies can be expected to occur gradually and with close surveillance this undesirable result can readily be foreseen and prevented.

Proposals offered at the hearing to change the basic formula price and the Class III (new Class IV) skim milk price cannot be considered because other interested persons were not given adequate notice that such proposals would be considered.

Seasonal variation in returns to producers. The proposal that the seasonal variation in returns to producers be increased somewhat by making the deduction of 35 cents per hundredweight during April-July applicable to all producer milk (it is presently applicable to Class I and Class II producer milk) should be adopted. Wide seasonal variation still exists in the market supply of producer milk. Only a year of experience under the present program of encouraging more even production of milk seasonally by holding a portion of the money paid by handlers for milk during April, May, June, and July in reserve and paying it to producers in October, November, and December is shown in the record. Additional experience is necessary before the effectiveness of this program can be appraised; however, the adoption of this proposal should provide additional incentives for the program to accomplish its intended purposes.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of handlers, The Central Ohio Co-Operative Milk Producers, Inc., and Telling Ice Cream Company.

The briefs contained proposed findings and conclusions and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendment to the order. The following amendment to the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Amend § 974.22 (i) (1) by changing the reference "§§ 974.51, 974.52 and 974.53" appearing therein to read "§§ 974.51 through 974.54".

2. Amend § 974.22 (k) by changing the terms "Class I milk, Class II milk, and Class III milk" appearing therein to read "Class I milk, Class II milk, Class III milk, and Class IV milk".

3. Amend § 974.41 (a) (3) by changing the terms "Class II milk or Class III milk" appearing therein to read "Class II milk, Class III milk, or Class IV milk,"

4. Amend § 974.41 (b) (1) and (2) to read as follows:

(1) Disposed of in fluid form for consumption as sweet or sour cream or any mixture of cream and milk (or skim milk), including eggnog, containing more than 6 percent of butterfat;

(2) Used to produce aerated products containing milk, cream, or any combination thereof (such as "Reddi-Wip", "Instant Whip", etc.); and

5. Delete that portion of § 974.41 (c) preceding subparagraph (2) thereof and substitute therefor the following:

(c) Class III milk shall be all skim milk and butterfat used to produce frozen cream, condensed milk and condensed skim milk (except evaporated milk or skim milk in hermetically sealed cans), ice cream, ice cream mix, ice cream novelties, ice sherberts, or imitation ice cream.

(d) Class IV milk shall be all skim milk and butterfat specifically accounted for as:

(1) Having been used to produce any milk product other than as specified in paragraphs (a) (1) or (2), (b), or (c) of this section;

6. Amend § 974.43 (a) (3) by changing the terms "Class II milk or Class III milk" appearing therein to read "Class II milk, Class III milk, or Class IV milk".

7. Amend § 974.43 (b) (3) by changing the terms "Class I milk or Class III milk" appearing therein to read "Class I milk, Class III milk, or Class IV milk".

8. Amend § 974.44 by changing the terms "Class I milk, Class II milk and Class III milk" appearing therein to read "Class I milk, Class II milk, Class III milk, and Class IV milk".

9. Amend § 974.44 (d) (2) and (e) (3) by changing the terms "Class II milk or Class III milk" appearing therein to read "Class II milk, Class III milk, or Class IV milk".

10. Amend § 974.44 (h) to read as follows:

(h) Determine the total pounds of butterfat in Class III milk by computing the aggregate amount of butterfat used to produce each of the several items of Class III milk;

11. Delete § 974.44 (i) (2) and (3) and substitute therefor the following:

(2) Subtracting the result obtained in paragraph (h) of this section;

(j) Determine the total pounds of butterfat in Class IV milk by:

(1) Computing the aggregate amount of butterfat used to produce each of the several items of Class IV milk; and

(2) Adding actual plant shrinkage of butterfat referred to in § 974.41 (d) (3) and (4); and

(k) Determine the total pounds of skim milk in Class IV milk by:

(1) Computing the aggregate amount of skim milk and butterfat (in whatever form) used to produce each of the several items of Class IV milk;

(2) Subtracting the result obtained in paragraph (j) (1) of this section; and

(3) Adding actual plant shrinkage of skim milk referred to in § 974.41 (d) (3) and (4).

12. Amend § 974.45 by changing the terms "Class I milk Class II milk and Class III milk" appearing therein to read "Class I milk, Class II milk, Class III milk, and Class IV milk".

13. Amend § 974.45 (a) to read as follows:

(a) Subtracting from Class IV milk (other than butterfat used in butter making) the actual plant shrinkage of skim milk and butterfat, respectively, allowed pursuant to § 974.41 (d) (3) and (4);

14. Amend § 974.45 (d) by changing the term "Class III milk" appearing therein to read "Class IV milk".

15. Amend § 974.45 (f) to read as follows:

(f) Subtracting from the remaining pounds of skim milk and butterfat in each class (not including plant shrinkage on producer milk in Class IV milk), the total pounds of skim milk and butterfat, respectively, received from other handlers (except those referred to in paragraph (c) of this section) and stated by the transferring handler and receiver to have been used in such class, to the extent of the amounts of skim milk and butterfat remaining in such class after making the computation pursuant to paragraphs (b) and (c) of this section: *Provided*, That skim milk or butterfat allocated by such statements to Class II milk, Class III milk, or Class IV milk in excess of amounts subtracted above pursuant to this paragraph shall be subtracted from Class I milk; and

16. Amend §§ 974.51 and 974.52 by changing the reference "§ 974.54" appearing therein to read "§ 974.55".

17. Amend § 974.52 (b) by changing the reference "paragraph (b) of § 974.53" appearing therein to read "§ 974.54 (b)".

18. Insert immediately before paragraph (a) of § 974.53 the following:

(a) For each of the months of August through March the prices for skim milk and butterfat shall be those computed pursuant to § 974.52; and

(b) For each of the months of April through July the prices for skim milk and butterfat shall be computed as follows:

(1) Add 20 cents to the basic formula price;

(2) Multiply the price computed in subparagraph (1) of this paragraph by the percentage computed in § 974.51 (b) and then divide by 0.035, and the resulting amount shall be the Class III butterfat price per hundredweight: *Provided*, That in no event shall the price of Class III butterfat be less than the price computed pursuant to § 974.54 (b) prior to the proviso; and

(3) Subtract from the price computed pursuant to subparagraph (1) of this paragraph the amount computed pursuant to subparagraph (2) of this subparagraph times 0.035, and divide the result by 0.965, and the resulting amount shall be the Class III skim milk price per hundredweight.

§ 974.54 *Class IV milk prices.* The respective minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant and classified as Class IV milk shall be as follows, as computed by the market administrator:

19. Renumber § 974.54 as § 974.55.

20. Amend § 974.60 by changing the terms "Class II and Class III prices" appearing in the last proviso thereof to read "Class III and Class IV prices"; and by changing the terms "Class I milk or Class II milk" appearing in the last proviso thereof to read "Class I milk, Class II milk, or Class III milk".

21. Amend § 974.63 (e) to read as follows:

(e) Deducting for each of the months of April, May, June, and July an amount computed by multiplying the hundredweight of milk which was received from producers during each such month by 35 cents;

22. Amend § 974.91 to read as follows:

§ 974.91 *Producer-handlers.* Sections 974.50 through 974.62 and 974.70 through 974.78 shall not apply to a handler who handles only milk from his own farm production or received from other handlers.

Filed at Washington, D. C., this 12th day of January 1954.

[SEAL] GEORGE A. DICE,
Acting Deputy Administrator.

[F. R. Doc. 54-299; Filed, Jan. 15, 1954; 8:48 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 53-62]

COAST GUARD PORT SECURITY CARDS

The United States Coast Guard is authorized to issue Coast Guard Port Security Cards as one means of identification of persons regularly employed on vessels or on waterfront facilities or of persons having regular public or private business connected with the operation, maintenance, or administration of vessels, their cargoes, or waterfront facilities. The practice is to limit the validity of these Coast Guard Port Security Cards to two years from date of issuance. It is not deemed appropriate or necessary to require the rescreening of holders of Coast Guard Port Security Cards and the reissuance of such cards at this time.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by 33 CFR 6.10-7 in Executive Order 10173, as amended by Executive Orders 10277 and 10352 (15 F. R. 7005, 7007, 7008, 16 F. R. 7537, 7538, 17 F. R. 4607), notice is given to holders of Coast Guard Port Security Cards (Form CG-2514) that the period of validity of such cards, unless sooner surrendered or canceled by proper authority, will be for a period of six years from the date of issuance thereof instead of the period of two years as indicated on the reverse of the card.

This document supersedes Coast Guard document CGFR 52-47 entitled "Coast Guard Port Security Cards," dated October 7, 1952, and published October 11, 1952 (17 F. R. 9084).

Dated: January 11, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard,
Commandant.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

ALASKA PUBLIC SALE ACT; CLASSIFICATION NO. 13

DECEMBER 29, 1953.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625, 8627), the following described land is classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679, 43 U. S. C. 364a-364e) as hereinafter indicated:

T. 1 S., R. 1 W., Fairbanks Meridian,
Section 24: N½N½NW¼SW¼; W½NW¼, that portion south of the right-of-way of the Richardson Highway.

Containing approximately 58.5 acres. Classified for industrial and commercial purposes.

U. S. Survey 3148: Lots 109-186, inclusive.

Containing approximately 46.06 acres. Classified for industrial and commercial purposes.

U. S. Survey 2774: Lots 1-4, inclusive.

Containing approximately 5.20 acres. Classified for industrial, commercial and housing purposes.

Proposed U. S. Survey 3292:
Tract A: Lots 1, 2, 2A and 3

Containing approximately 3.99 acres. Classified for industrial, commercial and housing purposes.

Proposed U. S. Survey 3292:
Tract B: Lots 7-14, inclusive;
Tract F: Lots 72-76, inclusive;
Tract F: Lots 78-85, inclusive.

Containing approximately 10.10 acres. Classified for industrial and commercial purposes.

The above land will be offered for sale in accordance with regulations contained in 43 CFR 75.32. If no bid at the minimum acceptable price or above is made, the land may be held for future offering or the classification may be rescinded.

FRED J. WEILER,
Chief,
Division of Land Planning.

Bureau of Reclamation

[No. 11]

YUMA MESA DIVISION, GILA IRRIGATION PROJECT, ARIZONA

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

DECEMBER 30, 1953.

1. *Water rental.* Irrigation water will be furnished during calendar year 1954 under approved applications for water service during development period to the public land, public land entered, state land and private land described in section 1 of Public Notice Nos. 4 and 9 dated December 10, 1947, amended January 8, 1951, and January 21, 1952, respectively, both entitled "Public Notice Announcing Availability of Water for Public, State and Private Lands and Opening of Public Lands to Entry", to the desert land entries and private land described in paragraph 1 of Public Notice No. 7 dated January 7, 1950, entitled "Public Notice Announcing Availability of Water for Certain Desert Land Entries and Private Lands", and, when available and where the progress of construction contemplated herein will permit, upon a rental basis under approved applications for temporary water service, to those public lands in the Yuma Mesa Unit of the Yuma Mesa Division which are not described in either of said notices, and to those private lands in said unit listed below:

GILA AND SALT RIVER MERIDIAN, ARIZONA

Private lands:

T. 8 S., R. 23 W.,
Sec. 34 NW¼SE¼ lying S. of S. P. R. R.,
T. 9 S., R. 22 W.,
Sec. 31 S½SW¼,
T. 9 S., R. 23 W.,
Sec. 2 E½SE¼SW¼,
Sec. 10 N½N½NE¼NE¼,
T. 10 S., R. 22 W.,
Sec. 6 W½NW¼.

2. *Charges and terms of payment.* Water rental charges shall be payable in advance of the delivery of water at rates as follows:

(a) (i) For lands irrigated hereunder by gravity before July 1, 1954, and under irrigation prior to July 1, 1953, the minimum charge shall be $9.45 per acre for each acre of land for which water service is requested, payment of which will entitle the applicant to an allotment of 9 acre-feet of water per acre. Additional water will be furnished at the rate of $1.30 per acre-foot.

(ii) For lands irrigated hereunder by gravity before July 1, 1954, and not under irrigation prior to July 1, 1953, the minimum charge shall be $7.20 per acre for each acre of land for which water service is requested during 1954, payment of which will entitle the applicant to an allotment of 12 acre-feet of water per acre for the establishment of a new crop on raw land. Additional water will be furnished at the rate of $1.00 per acre-foot.

(iii) For lands irrigated hereunder by sprinkler the minimum charge shall be $5.25 per acre for each acre of land for which water service is requested, payment of which will entitle the applicant to an allotment of 5 acre-feet of water per acre. Additional water will be furnished at the rate of $1.30 per acre-foot.

(iv) If applicant so requests, one-half of said minimum charge may be paid on January 1, 1954, or at such time prior to July 1, 1954, as the water-service application may be filed, which upon approval, shall entitle the applicant to one-half of the allotment of water as set forth in paragraphs 2 (a) (i), 2 (a) (ii) or 2 (a) (iii) above. The balance of said minimum charge shall be paid on July 1, 1954, or at such time as applicant requires more than one-half of such allotment of water, whichever is sooner, and payment thereof shall entitle the applicant to the remaining one-half of such allotment.

(b) For the remaining lands mentioned in paragraph 1 not irrigated at any time theretofore, but receiving water after July 1, 1954, there will be a charge of $0.60 per acre-foot for the first 6 acre-feet of water ordered during calendar year 1954 and a charge of $1.00 per acre-foot for all additional water ordered during that year.

3. The presently constructed distribution system for lands in the Yuma Mesa Unit of the Yuma Mesa Division generally provides single turnout facilities for legal subdivisions of private lands comprising approximately 80 gross acres. Under present plans the Bureau contemplates the construction of additional water-service facilities upon application therefor, subject to the conditions stated below, for units lacking individual water-service facilities which constitute portions of such subdivisions and which comprised not less than approximately 40 gross acres as of December 31, 1947, according to records of the County Recorder of Yuma County, Arizona. Each request for the construction of such facilities shall be accompanied by a deposit of the minimum per-acre charge mentioned in paragraph 2 (a) above and by evidence satisfactory to the Chief, Operations Division, Lower Colorado River District, that the applicant will proceed as expeditiously as practicable with the agricultural development of the unit. Such construction will be limited to the extent deemed by the Bureau to be practicable and prosecution thereof will be subject to the availability of funds therefor; such construction will be scheduled for completion within six months from the approval of such request. Upon approval of such request, the above-mentioned deposit shall be credited to the applicant's account and thereafter applied against charges made pursuant to paragraphs 2 (a) (i), 2 (a) (ii), 2 (a) (iii) or 2 (b) above in connection with water delivered to said unit.

4. Except as otherwise provided in the Reclamation Law (act of June 17, 1902, 32 Stat. 388, as amended or supplemented) no water will be delivered hereunder to any lands which constitute "excess lands" within the meaning of said laws.

5. No application for water service to isolated tracts will be approved where such service, in the opinion of the Chief, Operations Division, Lower Colorado River District, would require excessive expenditures for maintenance.

6. Applications for temporary water service may be made by the landowner or by anyone who presents evidence satisfactory to the Chief, Operations Division, Lower Colorado River District, that he is the tenant or lessee of the land for which water is requested, or that he has been authorized by the owner to make a water rental application for such land.

7. Water-service applications and the payments required thereunder will be received at the office of the Chief, Operations Division, Lower Colorado River District, Yuma, Arizona.

E. G. NIELSEN,
Regional Director.

[F. R. Doc. 54-287; Filed, Jan. 15, 1954; 8:45 a. m.]

[No. 12]

WELLTON-MOHAWK DIVISION, GILA IRRIGATION PROJECT, ARIZONA

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

DECEMBER 31, 1953.

1. *Water rental.* Irrigation water will be furnished during calendar year 1954 under approved Applications for Water Service During Development Period to the lands included in Irrigation Block No. 1, established by Assistant Secretary Aandahl's letter of October 28, 1953, to Mr. R. H. McElhaney, President, Board of Directors, Wellton-Mohawk Irrigation and Drainage District, which fixed a development period of ten (10) years from and including October 28, 1953, pursuant and subject to the provisions of the contract between the United States and said District, dated March 4, 1952, and in addition, to applicants for irrigation water for lands in the Wellton-Mohawk Division which are not included in said irrigation block, following approval by the District Manager, Lower Colorado River District, of Applications for Irrigation Water.

2. *Charges and terms of payment.* Water rental charges shall be payable in advance of the delivery and/or taking of water at rates as follows:

(a) (i) For lands irrigated hereunder before July 1, 1954, and under irrigation prior to January 1, 1954, the minimum charge shall be $11.50 per acre for each acre of land for which water is requested during 1954, payment of which will entitle the applicant to an allotment of 4 acre-feet of water per acre. Additional water will be furnished at the rate of

$3.00 per acre-foot for those lands designated as "Valley" lands on Drawing No. 50-303-5071 on file in the office of the Chief, Operations Division, Lower Colorado River District, and for those lands designated as "Mesa" lands on said drawing, at the rate of $1.00 per acre-foot for the first six (6) acre-feet of additional water, and thereafter at the rate of $3.00 per acre-foot.

(ii) For lands irrigated hereunder before July 1, 1954, and not under irrigation prior to January 1, 1954, the minimum charge shall be $11.50 per acre for each acre of land for which water is requested during 1954, payment of which will entitle the applicant to an allotment of 5 acre-feet of water per acre for the establishment of a new crop on raw land. Additional water will be furnished at the rates for additional water set out in subparagraph (a) (i) above.

(iii) If applicant so requests, one-half of said minimum charge may be paid on January 1, 1954, or at such time prior to July 1, 1954, as the water-service application may be filed, which upon approval, shall entitle the applicant to one-half of the allotment of water as set forth in subparagraphs 2 (a) (i) or 2 (a) (ii) above. The balance of said minimum charge shall be paid on July 1, 1954, or at such time as applicant requires more than one-half of such allotment of water, whichever is sooner, and payment thereof shall entitle the applicant to the remaining one-half of such allotment.

(b) (i) For those lands mentioned in Paragraph 1 for which water is requested after July 1, 1954, but prior to November 1, 1954, the minimum charges shall be one-half of those specified in subparagraphs 2 (a) (i) and 2 (a) (ii) above, payment of which will entitle the applicants to one-half of the allotments provided for in said subparagraphs. Additional water will be furnished at the same rates therefor as provided in subparagraph 2 (a) (i).

(ii) For the remaining lands mentioned in Paragraph 1 for which water is requested on or after November 1, 1954, there will be a charge of $3.00 per acre-foot for all water ordered during calendar year 1954.

3. Applications for either water service during development period or for irrigation water may be made by the landowner or purchaser or by anyone who presents evidence satisfactory to the Chief, Operations Division, Lower Colorado River District, that he is the tenant or lessee of the land for which water is requested, or that he has been authorized by the owner or purchaser to make a water application for such land.

4. Water applications and the payments required thereunder will be received at the office of the Chief, Operations Division, Lower Colorado River District, Yuma, Arizona.

E. G. NIELSEN,
Regional Director.

[No. 12, Amdt.]

WELLTON-MOHAWK DIVISION, GILA IRRIGATION PROJECT, ARIZONA

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

JANUARY 5, 1954.

Paragraph 2 of Public Notice No. 12, entitled Public Notice of Annual Water Rental Charges, issued December 31, 1953, for the Wellton-Mohawk Division, Gila Irrigation Project, Arizona, is hereby amended by the addition of subdivision (c), reading as follows:

(c) Applicants for water for lands designated as Class 4 on Drawing No. 50-303-5071, referred to in paragraph 2 (a) (i), which have not heretofore been planted in crops, may receive up to 4 acre-feet of leaching water per acre on payment in advance of $1.00 per acre-foot of water in addition to the payment of all other charges provided hereinabove.

E. G. NIELSEN,
Regional Director.

INTERSTATE COMMERCE COMMISSION

[Nos. 30416, 30660]

CLASS RATES

MOUNTAIN PACIFIC TERRITORY AND TRANSCONTINENTAL RAIL, 1950

JANUARY 6, 1954.

Class rates, Mountain Pacific Territory, No. 30416; Class rates, Transcontinental Rail, 1950 No. 30660.

The above-entitled cases are set for further hearing before Examiner Witters and one or more members of Division 2, according to the following schedule:

April 19, 1954, at Salt Lake City, Utah, U. S. Court Room.
April 22, 1954, at Los Angeles, Calif., Federal Building.
April 28, 1954, at San Francisco, Calif., Federal Office Building, Civic Center.
May 6, 1954, at Seattle, Wash., U. S. Court House, Room 400, Fifth and Madison Streets.

All hearings will begin at 9:30 o'clock a. m. United States standard time.

Verified statements (affidavits). Pursuant to request of the parties and in order to expedite the proceeding, Division 2 hereby directs that verified statements (affidavits), with exhibits attached, may be received in evidence in this proceeding. Shippers and organizations representing shippers will be allowed to file verified statements with the Commission in Washington, D. C., on or before March 15, 1954. Each verified statement will be assigned a serial number and will be open to inspection promptly upon filing at the office of the Commission in Washington, D. C. Verified statements which have been filed on or before March 15, 1954 and assigned a number will be offered and received in evidence at any of the above-scheduled regional hearings, subject to any valid objection which might be made to any evidence offered in the proceeding. Objections to the receipt of any verified statement should be made at the time such verified statement is offered in evidence. Witnesses filing verified statements must be prepared to appear at one of the above-scheduled regional hearings if timely request is made for cross-examination by any party to the proceeding. Requests for appearance of any such witness filing a verified statement for cross-examination must be made by telegram addressed to the party filing the verified statement, or his attorney, within 10 days prior to the date of the hearing at which cross-examination is desired. All requests for cross-examination must specify the particular hearing at which attendance of the witness is desired. Verified statements should contain only matters which are the proper subject of evidence. All verified statements, with exhibit attached, received in evidence will be made a part of the record.

Copies of verified statements. The following copies of verified statements should be furnished: 10 copies to the Commission in Washington, D. C., one of which should be a signed original; 40 copies to H. C. Barron, 310 Union Station, Chicago, Ill., for the western railroads; 40 copies to Edwin A. Lucas, 1740 Suburban Station Building, Pennsylvania Railroad, Philadelphia, Pa., for the eastern railroads, and 20 copies to Joseph Marks, c/o Southern Railway System, Fifteenth and K Streets NW., Washington 13, D. C., for the southern railroads. Copies should be furnished to any party upon request therefor, and 50 copies should be furnished for distribution to parties at the hearing at which the verified statement is offered in evidence.

By the Commission, Division 2.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10757]

UNITED BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of United Broadcasting Company, Ogden, Utah, Docket No. 10757, File No. BPCT-1687; for construction permit for a new television station.

The above-entitled proceeding was scheduled for hearing at 10:00 a. m. January 11, 1954 at the Commission's offices in Washington, D. C. At that time and place no appearance was made by the applicant. However, on the night of January 10th a severe snow storm struck Washington and large portions of the nation. As a result fo the storm traffic has been seriously impaired. Under such conditions to hold the applicant in default appears unduly harsh. Counsel for the Broadcast Bureau has indicated no objection to a brief continuance. The Examiner is engaged for the remainder of the week in other hearing matters.

Accordingly it is ordered, This 11th day of January 1954, on the Examiner's own motion, that hearing in the above-entitled proceeding is continued to 10:00 a. m., January 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-309; Filed, Jan. 15, 1954; 8:50 a. m.]

[Docket No. 10771, 10772]

RADIO PAGING AND JOHN R. SUTHERLAND

ORDER CONTINUING HEARING WITHOUT DATE

In re applications of Radio Paging, St. Louis, Missouri, Docket No. 10771, File No. 580-C2-P-53; John R. Sutherland, St. Louis, Missouri, Docket No. 10772, File No. 868-C2-P-53; construction permits for one-way signaling base stations in the Domestic Public Land Mobile Radio Service.

It appearing that John R. Sutherland, one of the applicants above named, has petitioned the Commission for permission to dismiss without prejudice his application herein; and

Whereas the effect of the granting of said petition would be to render the issues herein moot:

It is ordered, This 11th day of January 1954, that the hearing herein scheduled for January 12, 1954, be, and it hereby is continued without date.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3165]

APPALACHIAN ELECTRIC POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF COMPETITIVE BIDDING AND FEES AND EXPENSES IN SALE OF FIRST MORTGAGE BONDS

JANUARY 12, 1954.

The Commission, by order dated December 30, 1953 (Holding Company Act Release No. 12290) having granted or permitted to become effective the application or declaration, as amended, of Appalachian Electric Power Company ("Appalachian"), a public-utility subsidiary of American Gas and Electric Company, a registered holding company, regarding, among other things, the issuance and sale by Appalachian of $20,000,000 of its First Mortgage Bonds, --- percent Series due 1983, subject to reservations of jurisdiction with respect to the results of competitive bidding under Rule U-50 and the fees and expenses to be incurred in connection with the proposed transaction;

Appalachian having on January 11, 1954, filed a further amendment to its application or declaration herein setting forth the action taken by it to comply with the requirements of Rule U-50, and stating that, pursuant to the invitation for competitive bids, the following bids have been received:

Group headed by—	Annual interest rate (percent)	Price to company (percent of principal amount)	Annual cost to company (percent)
Union Securities Corp.-----[illegible]	3.50	102.321	3.3764
Kuhn, Loeb & Co.-----[illegible]	3.50	101.95	3.[illegible]
Halsey, Stuart & Co., Inc.	3.50	101.895	3.[illegible]
The First Boston Corp.----	3.50	101.8[illegible]	3.[illegible]
Harriman Ripley & Co., Inc.	3.50	101.6099	3.4139

The amendment having further stated that Appalachian has accepted the bid of the group headed by Union Securities Corporation and Kuhn, Loeb & Co. set forth above, and that the bonds will be reoffered to the public at a price of 102.824 percent of their principal amount, representing an underwriting spread of 0.503 percent;

The record having been completed with respect to the fees and expenses incurred or to be incurred in connection with the proposed transactions which are stated to be as follows:

Simpson Thacher & Bartlett, New York, counsel to Appalachian----	$12,500
Hunton, Williams, Anderson, Gay & Moore, Virginia counsel to Appalachian ----------	4,000
Penn, Hunter, Smith & Davis, Tennessee counsel to Appalachian...	1,750
Campbell, McClintic, James & Wise, West Virginia counsel to Appalachian ----------	2,000
Four Virginia counsel engaged to examine titles----------	3,000
Niles and Niles, accountants for Appalachian ----------	5,500
Winthrop, Stimson, Putnam & Roberts, independent counsel for underwriters ----------	7,500
Bankers Trust Co., trustee (including counsel fee of $1,000)-------	14,000
Registration fee----------	2,065
Federal stamp taxes----------	22,000
State taxes and fees----------	11,750
Printing and engraving----------	34,000
Miscellaneous expenses----------	4,850
Total ----------	124,915

The Commission having examined the amendment and having considered the record herein and observing no basis for imposing terms and conditions with respect to the price to be received for said bonds, the interest rate and the underwriter's spread, or otherwise; it appearing that the fees and expenses incurred and to be incurred are not unreasonable; and it appearing to the Commission that jurisdiction heretofore reserved over the results of competitive bidding and the fees and expenses with respect to the issuance and sale of the bonds be released:

It is ordered, That the application or declaration, as further amended, be, and the same hereby is granted or permitted to become effective forthwith, and that the jurisdiction heretofore reserved over the results of competitive bidding with respect to the aforesaid sale of bonds be, and the same hereby is, released, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the fees and expenses to be incurred in connection with the proposed sale of bonds be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-296; Filed, Jan. 15, 1954; 8:47 a. m.]

[File No. 70-3175]

MISSISSIPPI POWER & LIGHT CO.

NOTICE OF FILING REGARDING SALE OF PREFERRED STOCK AT COMPETITIVE BIDDING

JANUARY 11, 1954.

Notice is hereby given that a declaration has been filed with this Commission by Mississippi Power & Light Company ("Mississippi"), a public utility subsidiary of Middle South Utilities, Inc., a registered holding company. The declarant has designated sections 6 (a) and 7 of the act and Rule U-50, promulgated thereunder, as applicable to the proposed transactions, which are summarized as follows:

The declarant proposes to issue and sell to the public 60,000 shares of a new class of Preferred Stock ($100 par value), to provide funds for its 1954 construction program and other corporate purposes.

Mississippi contemplates expenditures of approximately $7,000,000 in the year 1954 in connection with its program for the construction of new facilities and the extension and improvement of its present facilities to provide electric service to its customers. The company desires to obtain a portion of the funds with which to carry forward such program and funds for other corporate purposes through the issuance and sale of preferred stock and believes that it is desirable to obtain said funds by such means. The company's charter now authorizes 100,000 shares of $6 preferred stock, of which 44,476 shares are issued and outstanding. Mississippi intends to amend its charter by appropriate corporate action, to authorize 60,000 shares of a new class of preferred stock and establish its characteristics, and to authorize the issuance and sale of said 60,000 shares to the public.

The dividend rate, to be a multiple of 1/20 of 1 percent, and the price of the New Preferred Stock to be paid the Company, to be not less than $100 nor more than $102.75 per share plus accrued dividends will be fixed by proposals to be invited by the Company pursuant to the requirements of the Commission's Rule U-50 and the Company will reserve the right to reject any or all proposals at or after the opening thereof. Declarant has requested that the Commission's order herein be issued on January 26, 1954, and that the 10-day period for publication as provided by Rule U-50 be shortened in order to permit opening of bids on February 2, 1954.

Notice is further given that any interested person may, not later than January 25, 1954, at 5:30 p. m., request the Commission in writing that a hear-

ing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 25, 1954, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 12

Washington, Tuesday, January 19, 1954

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS UNDER THE SECURITIES EXCHANGE ACT OF 1934

TRADING IN GERMAN SECURITIES

On December 8, 1941, following the attack on Pearl Harbor, the national securities exchanges suspended dealings in securities of German, Italian, Japanese and other Axis origin; and the Commission, having consulted with the State and Treasury Departments, requested the cooperation of brokers and dealers in refraining from effecting transactions in all securities of such origins. Trading was restored in Italian securities in December 1947 and in Japanese securities in November 1950.

In March, 1951 following the announcement by the Government of the Federal Republic of Germany (West Germany) of its recognition of pre-war external debts of the German Reich, the Commission, having consulted with the State Department, advised that it did not intend to withdraw its request that brokers and dealers refrain from effecting transactions in German securities until full assurances could be given to investors, through validation proceedings, that only securities which constitute "good delivery" would be afforded a market in the United States. This action was necessary because of the large volume of German securities, particularly foreign currency bonds, reacquired by the Germans and held in negotiable form in Berlin, which were lost or looted after the occupation of Berlin in 1945 by the Soviet armed forces. In September, 1952 and April, 1953, the Commission again requested brokers and dealers to refrain from effecting transactions in German securities pending the establishment of appropriate validation procedures.

The Federal Republic of Germany has enacted legislation requiring the validation of foreign currency bonds and certain internal securities, and procedures for validation have been or are being established. The Agreement on German External Debts signed in London on February 27, 1953, provided that the Federal Republic would permit the settlement of certain debts, including German foreign currency securities, and would provide the necessary foreign exchange to permit payments on debts which are settled. Validation is a necessary step before a bondholder may participate in a settlement which may be offered pursuant to the Agreement of February 27, 1953. An exchange offer has been made by the Federal Republic with respect to certain issues of the German Reich and the Free State of Prussia, and an issue of the Conversion Office for German Foreign Debts. It is understood that further exchange offers are being negotiated. Negotiations in the case of dollar bonds issued or guaranteed by West German states or municipalities are being conducted by the Foreign Bondholders Protective Council, Inc., 90 Broad Street, New York 4, New York, and negotiations in the case of other German dollar bonds are being conducted by the United States Committee for German Corporate Dollar Bonds, 910, Seventeenth Street NW., Washington 6, D. C. Inquiries concerning these matters should be addressed to the Foreign Bondholders Protective Council or to the Committee for German Corporate Dollar Bonds, whichever is appropriate.

The procedures for validation are not identical for all securities. Under an Agreement dated February 27, 1953, entered into between the United States Government and the Federal Republic of Germany, a joint German and American board has been established in this country to validate German dollar bonds, and registration of such securities for validation began in September 1953. In addition, under the provisions of a Treaty between the Federal Republic and the United States signed on April 1, 1953, no German dollar bond subject to the validation laws of the Federal Republic is enforceable unless and until it has been validated.

In addition to the problem of validation, the Commission has been concerned with obtaining for investors recent information about the various issuers of German dollar securities. Such information is considered desirable in connection with the resumption of trading in such securities. In November 1952 the

Commission initiated steps through the Government of the Federal Republic looking to the furnishing of current information by the German issuers. Such information about the Federal Republic is now available in a circular dated October 6, 1953, which relates to the exchange offer which it is now making. Copies of the circular may be obtained from the exchange agents: J. P. Morgan & Co. Incorporated, 23 Wall Street, New York 8, New York and Dillon, Read & Co., 48 Wall Street, New York 5, New York. Since information about the other German issuers had not been furnished, the Commission in November 1953, after consultation with the Department of State, sent direct requests to sixty-three issuers of German dollar obligations, and again requested the assistance of the Government of the Federal Republic. As a result of such efforts, thirteen German issuers[1] have transmitted to the Commission copies (in the German language) of their annual reports, but the remaining fifty issuers have so far failed to send information. The annual reports on hand are available for public inspection in the Commission's Washington office, and where sufficient copies have been received, are also available for public inspection at the Commission's regional offices in New York, Chicago and San Francisco. Reports received from other German issuers will likewise be made available for public inspection as rapidly as they are received.

On November 20, 1953, the Securities and Exchange Commission announced that it had under consideration a proposal to adopt a rule under section 15 (c) (2) of the Securities Exchange Act of 1934 to prohibit brokers and dealers from trading in the over-the-counter market in German securities which are required to be and have not been validated pursuant to the validation laws of the Federal Republic of Germany. The Commission has considered all of the comments and suggestions received and has adopted § 240.15c2–3 (Rule X-15C2–3) in the form stated below.

[1] City of Cologne: City of Frankfurt am Main; City of Munich; Dortmunder Stadtwerke A. G. (Dortmund Municipal Utilities); Electrowerke A. G. zu Berlin (Electric Power Corporation of Berlin); Energie-Versorgung Schwaben A. G. (Consolidated Hydro-Electric Works of Upper Wurttemberg); Feldmuehle Papier & Zellstoffwerke, A. G. (Feldmuehle Paper & Cellulose Works Corp.); Hamburger Hochbahn A. G. (Hamburg Elevated, Underground & Street Railways Co.); Hamburgische Electricitaets-Werke A. G. (Hamburg Electric Company and Unterelbe Power & Light Co.); Rudolph Karstadt A. G.; Rhein-Main-Donau A. G. (Rhine-Main-Danube Corporation); Energie-Versorgung Ostbayern A. G. (Oberpfals Electric Power Corporation); Harpener Bergbau—A. G. (Harpen Mining Corp.).

This new rule makes it a "fraudulent, deceptive or manipulative act or practice", as used in section 15 (c) (2) of the act, for any broker or dealer to effect any transaction in, or to induce the purchase or sale of, any German security required to be validated under applicable validation laws of the Federal Republic of Germany unless it has been duly validated. If such security is a dollar security, it must have attached to it a document of the Validation Board for German Dollar Bonds certifying to the validation of such security. The Commission has been informed by representatives of the various exchanges upon which German securities have been traded that securities which have not been validated will not be considered "good delivery" against sales made on these exchanges.

The Commission has been informed that, where the authenticity of an outstanding dollar security has been established, the Validation Board will attach to each such dollar security a document certifying to its validation. Consequently, § 240.15c2–3 provides that a German dollar security required to be validated cannot be traded unless this document is attached to it. Since the Commission has no assurance that a validated security other than a dollar security will have any document certifying to its validation attached to it, a broker or dealer proposing to effect a transaction in such a security will have to be certain that it has been duly validated; if he should effect a transaction in a security not validated as required he would be violating § 240.15c2–3 if the mails or other jurisdictional elements are involved.

Persons wishing information regarding the validation of German dollar securities should communicate with the Validation Board for German Dollar Bonds, 30 Broad Street, New York 4, New York. Information concerning the validation of securities other than dollar securities may be obtained from the Foreign Representative of the German Federal Republic, 30 Broad Street, New York 4, New York.

In view of the above, the Commission feels that it is appropriate to withdraw its request that brokers and dealers refrain from effecting transactions in West German securities to the extent that such trading is not prohibited under the provisions of its new Rule X-15C2–3. The Commission's action, of course, should not be construed to mean that it has in any way passed upon the merits of any of the securities which are permitted to be traded.

The Commission has no information when validation procedures will be established for dollar securities of issuers in that part of Germany under the control of the Soviet or Polish Governments. Therefore, the Commission, after consultation with the Department of State, requests that brokers and dealers continue to abstain from any activities which would tend to create a public market in these securities. While the Commission has been advised that negotiations are under way to establish validation procedures for Austrian dollar securities, the Commission requests that the securities industry also refrain from trading these securities until further notice after the establishment of validation procedures. The Commission is not in possession of any information which it feels would justify it in withdrawing its earlier request that brokers and dealers refrain from trading in securities issued by Bulgaria, Hungary, and Roumania, and by issuers in any of these countries.

Statutory basis. Section 240.15c2–3 (Rule X-15C2–3) is adopted pursuant to the provisions of the Securities Exchange Act of 1934, particularly sections 15 (c) (2) and 23 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors, and necessary for the execution of the functions vested in it under the act. In accordance with the provisions of section 4 (c) of the Administrative Procedure Act, the Commission finds that there is good cause for making this rule effective before the expiration of thirty days after its publication because brokers and dealers subject to the rule have been refraining from effecting transactions in the securities covered by the rule at the request of the Commission, and it is necessary in the public interest and for the protection of investors that the rule be made effective before the expiration of said thirty-day period.

§ 240.15c2–3 *Prohibiting trading in German securities unless validated.* The term "fraudulent, deceptive, or manipulative act or practice," as used in section 15 (c) (2) of the act, is hereby defined to include any act of any broker or dealer designed to effect any transaction in, or to induce or attempt to induce the purchase or sale of, any security required to be validated under any applicable validation law of the Federal Republic of Germany unless (a) such security has been duly validated, and (b) if such security is a dollar security, there is attached a document of the Validation Board for German Dollar Bonds certifying to the validation of such security.

The foregoing shall become effective January 12, 1954.

(Sec. 23, 48 Stat. 901, as amended; 15 U. S. C. 78w)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 8, 1954.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PENICILLIN-STREPTOMYCIN (DIHYDRO-STREPTOMYCIN) POWDER

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 61 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 146) are amended by adding the following new sections:

§ 141.71 *Penicillin-streptomycin powder, penicillin-dihydrostreptomycin powder*—(a) *Potency*—(1) *Penicillin content.* Use an accurately weighed sample of approximately 1 gram and proceed as directed in § 141.1, except paragraph (i) of that section. The penicillin content of the powder is satisfactory if it contains not less than 85 percent of the number of units that it is represented to contain.

(2) *Streptomycin content.* Use an accurately weighed sample of approximately 1 gram and proceed as directed in § 141.36 (a) (2). The streptomycin content of the powder is satisfactory if it contains not less than 85 percent of the number of milligrams of activity that it is represented to contain.

(3) *Dihydrostreptomycin content.* Use an accurately weighed sample of approximately 1 gram and proceed as directed in § 141.36 (a) (3). The dihydrostreptomycin content of the powder is satisfactory if it contains not less than 85 percent of the number of milligrams of activity that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.5 (a).

§ 146.93 *Penicillin-streptomycin powder, penicillin-dihydrostreptomycin powder.* Penicillin-streptomycin powder and penicillin-dihydrostreptomycin powder conform to all the requirements and are subject to all procedures prescribed by § 146.88 for penicillin-streptomycin tablets and penicillin-dihydrostreptomycin tablets, except that:

(a) Each gram contains not less than 100,000 units of penicillin and not less than 10 milligrams of streptomycin or dihydrostreptomycin.

(b) In lieu of the labeling prescribed by § 146.88 (a) (2), each package shall bear on the outside wrapper or container and the immediate container the number of units of penicillin and the number of milligrams of streptomycin or dihydrostreptomycin in each gram and the statement "Expiration date _____."

the blank being filled in with the date which is 12 months after the month during which the batch was certified.

(c) In lieu of the minimum number of tablets prescribed by § 146.88 (a) (3), a person who requests certification of a batch shall submit with his request a sample of the batch consisting of 1 immediate container for each 5,000 immediate containers but in no case less than 6 or more than 12 immediate containers. Such sample shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(d) The fee for the services rendered with respect to each immediate container in the sample submitted in accordance with the requirements prescribed by paragraph (c) of this section shall be $4.00.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371; Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: January 13, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc. 54-340; Filed, Jan. 18, 1954; 8:47 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 36—UNMAILABLE MATTER

OBSCENE MATTER; USE OF MAILS, MONEY ORDERS, OR POSTAL NOTES

In Part 36—Unmailable Matter, insert between § 36.2 *Obscene matter unmailable; scope and penalty* and § 36.3 *Threat to harm the President* new § 36.2a to read as follows:

§ 36.2a *Obscene matter; use of mails, money orders, or postal notes.* Upon evidence satisfactory to the Postmaster General that any person, firm, corporation, company, partnership, or association is obtaining, or attempting to obtain, remittances of money or property of any kind through the mails for any obscene, lewd, lascivious, indecent, filthy, or vile article, matter, thing, device, or substance, or is depositing or is causing to be deposited in the United States mails information as to where, how, or from whom the same may be obtained, the Postmaster General may:

(a) Instruct postmasters at any post office at which registered letters or any other letters or mail matter arrive directed to any such person, firm, corporation, company, partnership, or association, or to the agent or representative of such person, firm, corporation, company, partnership, or association, to return all such mail matter to the postmaster at the office at which it was originally mailed, with the word "Unlawful" plainly written or stamped upon the outside thereof, and all such mail matter so returned to such postmasters shall be by them returned to the senders thereof, under such regulations as the Postmaster General may prescribe; and

(b) Forbid the payment by any postmaster to any such person, firm, corporation, company, partnership, or association, or to the agent or representative of such person, firm, corporation, company, partnership, or association, of any money order or postal note drawn to the order of such person, firm, corporation, company, partnership, or association, or to the agent or representative of such person, firm, corporation, company, partnership, or association, and the Postmaster General may provide by regulation for the return to the remitters of the sums named in such money orders or postal notes.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 64 Stat. 451; 5 U. S. C. 22, 369, 39 U. S. C. 259a)

[SEAL] LOUIS J. DOYLE, *Acting Solicitor.*

[F. R. Doc. 54-328; Filed, Jan. 18, 1954; 8:45 a. m.]

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127—International Postal Service: Postage Rates, Service Available, and Instructions for Mailing, 39 CFR Part 127, make the following changes:

a. In § 127.14 *International reply coupons* amend paragraph (a) by striking out the words "except Korea," appearing in the second sentence.

b. In § 127.294 *Libya (United Kingdom of), (Tripolitania and Cyrenaica)* amend the table of rates in subdivision (i) of paragraph (b) (1) to read as follows:

Pounds	Rate	Pounds	Rate
1	$0.68	12	$3.47
2	.90	13	[illegible]
3	1.17	14	3.91
4	1.39	15	4.13
[illegible]	1.61	16	4.35
6	1.83	17	4.57
7	2.05	18	4.79
8	2.33	19	5.01
9	2.55	20	5.23
10	2.77	21	5.45
11	[illegible]	22	5.67

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] LOUIS J. DOYLE, *Acting Solicitor.*

[F. R. Doc. 54-331; Filed, Jan. 18, 1954; 8:46 a. m.]

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

In Part 127—International Postal Service: Postage Rates, Service Available, and Instructions for Mailing, 39 CFR Part 127, make the following changes:

a. In § 127.81 *Certificates of mailing* amend paragraph (a) by striking out "1 cent" and inserting in lieu thereof "3 cents."

The foregoing amendment is effective February 1, 1954.

b. In § 127.159 *Special provisions applicable to ordinary Americo-Spanish parcel post* amend paragraph (b) by striking out "1 cent" and inserting in lieu thereof "3 cents."

The foregoing amendment is effective February 1, 1954.

c. In § 127.345 *Salvador (El)* amend the table of rates in subdivision (i) of paragraph (b) (1) to read as follows:

Pounds:	Rate	Pounds:	Rate
1	$1.19	23	$7 17
2	1.41	24	7 39
3	1.72	25	7.61
4	1.94	26	7.83
5	2.16	27	[illegible]
6	2.38	28	[illegible]
7	[illegible]	29	[illegible]
8	[illegible]	30	8.71
9	3.11	31	[illegible]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 60]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet above airport elevation. Ceilings are in feet above airport elevation. If LFR instrument approach procedure for the below named airport is conducted in accordance with the following procedure, it is authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified route or fix. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth herein.

City and State; airport name, elevation, facility class and identification, procedure No., effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (initial and intermediate altitudes, limiting distances	Ceiling and visibility minimums: Type aircraft: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h. GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnet C. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

City and State, airport name, elevation, effective date	Radar terminal area maneuvering altitudes by sectors and limiting distances	Ceiling and visibility minimums						Except when the ground controller may direct otherwise prior to final approach, a missed approach procedure shall be executed as provided below when (a) communication on final approach is lost for more than 5 seconds, (b) directed by ground controller; (c) visual reference is not established upon descent to the authorized landing minimums; or (d) landing is not accomplished.

5. The very high frequency omnirange procedures prescribed in § 609.15 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation, facility class and identification procedure No., effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound altitudes, limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums			If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
							Condition	Type aircraft		
								75 m. p. h. or less	More than 75 m. p. h.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GRAPEFRUIT [1]

MISCELLANEOUS AMENDMENTS

Pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83rd. Cong., approved July 28, 1953) and by virtue of the authority vested in me by the Secretary of Agriculture, the United States Standards for Grades of Canned Grapefruit (7 CFR Part 52; 18 F. R. 7987) are amended as hereinafter set forth.

The amendment provides a minimum drained weight for U. S. Grade A (or U. S. Fancy) of not less than 58 percent of the capacity of the container, regardless of container size.

It is hereby found that it is impractical, unnecessary, and contrary to the public interest to engage in rule making procedures and to postpone the effective date of this amendment for 30 days after publication in the FEDERAL REGISTER for the reasons that:

(1) The packing season for canned grapefruit is now in progress;

(2) New methods of processing to attain better quality packs in some respects result in slightly lower drained weights than had heretofore been accomplished;

(3) An emergency exists in this respect, retarding the proper marketing of canned grapefruit in larger-sized containers; and

(4) Additional time is not required in order for the industry to make preparation for compliance with this amendment.

The following amendment is promulgated to become effective upon publication in the FEDERAL REGISTER:

1. Footnote 1 to the subpart title is amended by deleting the period and adding the following: "or with applicable state laws and requirements."

2. Paragraph (a) of § 52.1142 is amended to read:

§ 52.1142 *Grades of canned grapefruit.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned grapefruit that possesses a drained weight or average drained weight, as the case may be, of not less than 58 percent of the capacity of the container; that consists of not less than 75 percent by weight of the drained grapefruit which is in whole segments or almost whole segments; that possesses a good color; that is practically free from defects; that possesses a good character; that possesses a good flavor and odor; and that scores not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

* * * * *

3. Paragraphs (b) and (c) of § 52.1147 are amended to read:

§ 52.1147 *Drained weight*—* * *

(b) (*A*) *classification.* Canned grapefruit that possesses a drained weight of not less than 58 percent of the capacity of the container may be given a score of 18 to 20 points for the respective containers as outlined in Table I and Table II. Whenever more than 1 container of the product is being graded, the score for the drained weight of each container is determined by averaging the drained weights of the containers. If the average drained weight indicates a score of 18 to 20 points (in accordance with Table I or II) such score will be assigned to each container: *Provided,* That the drained weight of no individual container indicates a score of less than 16 points. However, if any individual container scores less than 16 points, each container will be assigned the score for its own drained weight.

(c) (*B*) *classification.* If the drained weight of the canned grapefruit is less than 58 percent of the capacity of the container, but is not less than 55 percent of the capacity of the container, a score of 16 or 17 points may be given for the respective containers as outlined in Table I or II. Whenever more than 1 container of the product is being graded, the score for the drained weight of each container is determined by averaging the drained weights of the containers. If the average drained weight indicates a score of 16 or 17 points (in accordance with Table I or II) such score will be assigned to each container: *Provided,* That the drained weight of no individual container indicates a score of less than 14 points. However, if any individual container scores less than 14 points, each container will be assigned the score for its own drained weight. Canned grapefruit that falls into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule).

4. Table II is amended in its entirety to read:

TABLE II—SCORE FOR DRAINED WEIGHTS OF CANNED GRAPEFRUIT

Grade classification	Score points	Percentage that drained weight is of capacity of container	Drained weight on basis of container designation and size		
			No. 2 (3⅞ x 4⅝ inches)	No. 3 cylinder (4⅝ x 7 inches)	No. 5 (5⅜ x 5⅝ inches)
			Ounces	*Ounces*	*Ounces*
U. S. Grade A	20	61 percent or more	12.81 or more	31.81 or more	36.06 or more.
	19	59½ percent to 61 percent.	12.20 to 12.50 inclusive.	30.74 to 31.50 inclusive.	35.17 to 36.05 inclusive.
U. S. Fancy	18	58 percent to 59½ percent.	11.89 to 12.19 inclusive.	29.96 to 30.73 inclusive.	34.28 to 35.16 inclusive.
U. S. Grade B or U. S. Choice	17	56½ percent to 58 percent.	11.59 to 11.88 inclusive.	29.19 to 29.95 inclusive.	33.40 to 34.27 inclusive.
	16	55 percent to 56½ percent.	11.28 to 11.58 inclusive.	28.41 to 29.18 inclusive.	32.51 to 33.39 inclusive.
U. S. Broken	15	52½ percent to 55 percent.	10.77 to 11.27 inclusive.	27.12 to 28.40 inclusive.	31.03 to 32.50 inclusive.
Substandard	14	50 percent to 52½ percent.	10.25 to 10.76 inclusive.	25.83 to 27.11 inclusive.	29.55 to 31.02 inclusive.
	13 or less	Less than 50 percent.	Less than foregoing drained weights.		

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and requirements.

(Sec. 205, 60 Stat. 1090, Pub. Law 156, 83d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C., this 13th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Agricultural Marketing Service.

[F. R. Doc. 54-349; Filed, Jan. 18, 1954; 8:49 a. m.]

Chapter III—Agricultural Research Service, Department of Agriculture

[D. P. Q. 1]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—PINK BOLLWORM

ADMINISTRATIVE INSTRUCTIONS AUTHORIZING TREATMENT OF GIN WASTE FOR MOVEMENT FROM LIGHTLY INFESTED AREAS

Pursuant to the authority conferred by the second proviso of Pink Bollworm Quarantine No. 52 (7 CFR 301.52, 18 F. R. 6348), issued under sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended (7 U. S. C. 161, 162) and section 3 of the Insect Pest Act of March 3, 1905 (7 U. S. C. 143), the Chief of the Plant Pest Control Branch hereby issues administrative instructions to appear as § 301.52b in Title 7, Code of Federal Regulations (7 CFR Supp. 301.52b) as follows:

§ 301.52b *Administrative instructions authorizing movement from lightly infested areas of gin waste given prescribed treatment.* (a) Section 301.52–3 prohibits the movement of gin waste (all forms of unmanufactured waste cotton fiber, including gin motes, resulting from the ginning of seed cotton) from the pink bollworm regulated areas, except as authorized in §§ 301.52–5 (b) and 301.52–6 (b) with respect to baled gin waste and § 301.52–14 with respect to shipments for scientific purposes.

(b) The Chief of the Plant Pest Control Branch hereby finds that facts exist as to the pest risk involved in the movement of gin waste to which § 301.52–3 applies, making it safe to modify by making less stringent the requirements of § 301.52–3. Hereafter, in addition to movement authorized under §§ 301.52–5 (b), 301.52–6 (b) and 301.52–14, gin waste (including burrs) may be moved from any lightly infested pink bollworm area to any destination under certificate to be issued when, under the supervision of an inspector, the gin waste has been ground in a hammer mill, passed through a screen of no greater than ⅜-inch mesh, then bagged in clean, porous sacks (such sacks to be sewn or tied to prevent spillage), and fumigated in the sacks with methyl bromide in an approved manner, and the gin waste has been subsequently protected from contamination.

The purpose of these instructions is to make less stringent the requirements for movement of gin waste from the lightly infested areas described in the regulations under the Pink Bollworm Quarantine, since it has been determined that the pest risk involved in such movement does not require the continuation of the present requirements. In order to be of maximum benefit to producers and shippers of gin waste in the areas involved, the instructions should be made effective as soon as possible. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public procedure concerning these instructions are impracticable and unnecessary and since the instructions relieve restrictions they may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318, 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

These instructions shall become effective Jan. 19, 1954.

Done at Washington, D. C., this 11th day of January, 1954.

[SEAL] W. L. POPHAM,
Chief, Plant Pest Control Branch.

[F. R. Doc. 54-353; Filed, Jan. 18, 1954; 8:49 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 39]

INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62, 124B, and 3791 of the Internal Revenue Code (53 Stat. 32; 67 Stat. 620; 53 Stat. 467; 26 U. S. C. 62, 124B, 3791).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

In order to conform Regulations 118 (26 CFR Part 39) to section 206 of the Technical Changes Act of 1953, approved August 15, 1953, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding section 23 (u) the following:

SEC. 206. AMORTIZATION DEDUCTION FOR GRAIN STORAGE FACILITIES (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 15, 1953).

* * * * *

(b) *Technical amendments.* (1) Section 23 (t) is hereby amended to read as follows:

(t) *Amortization deduction.* The deduction for amortization provided in sections 124, 124A, and 124B.

* * * * *

(c) *Effective date.* The amendments made by subsections (a) and (b) shall apply only with respect to taxable years ending after the date of the enactment of this Act.

PAR. 2. There is inserted immediately following § 39.124A (i)–1 the following:

§ 39.124B *Statutory provisions; amortization deduction for grain storage facilities; allowance of deduction; election of amortization; termination of amortization; definition of grain storage facility; determination of adjusted basis.*

SEC. 206. AMORTIZATION DEDUCTION FOR GRAIN STORAGE FACILITIES (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 15, 1953).

(a) *Allowance of deduction.* Supplement B of subchapter C of chapter 1 is hereby amended by inserting after section 124A the following new section:

SEC. 124B. *Amortization deduction for grain storage facilities*—(a) *Allowance of deduction*—(1) *Original owner.* Any person who constructs, reconstructs, or erects a grain storage facility (as defined in subsection (d)) shall, at his election, be entitled to a deduction with respect to the amortization of the adjusted basis (for determining gain) of such facility based on a period of sixty months. The sixty-month period shall begin as to any such facility, at the election of the taxpayer, with the month following the month in which the facility was completed, or with the succeeding taxable year.

(2) *Subsequent owners.* Any person who acquires a grain storage facility from a taxpayer who—

(A) Elected under subsection (b) to take the amortization deduction provided by this subsection with respect to such facility, and

(B) Did not discontinue the amortization deduction pursuant to subsection (c) shall, at his election, be entitled to a deduction with respect to the adjusted basis (determined under subsection (e) (2)) of such facility based on the period, if any, remaining (at the time of acquisition) in the sixty-month period elected under subsection (b) by the person who constructed, reconstructed, or erected such facility.

(3) *Amount of deduction.* The amortization deduction provided in paragraphs (1) and (2) shall be an amount, with respect to each month of the amortization period within the taxable year, equal to the adjusted basis of the facility at the end of such month, divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such adjusted basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction above provided with respect to any month shall be in lieu of the deduction with respect to such facility for such month provided by section 23 (l) (relating to exhaustion, wear and tear, and obsolescence).

(b) *Election of amortization.* The election of the taxpayer under subsection (a) (1) to take the amortization deduction and to begin the sixty-month period with the month following the month in which the facility was completed shall be made only by a statement to that effect in the return for the taxable year in which the facility was completed. The election of the taxpayer under subsection (a) (1) to take the amortization deduction and to begin such period with the taxable year succeeding such year shall be made only by a statement to that effect in the return for such succeeding taxable year. The election of the taxpayer under subsection (a) (2) to take the amortization deduction shall be made only by a statement to that effect in the return for the taxable year in which the facility was acquired. Notwithstanding the preceding three sentences, the election of the taxpayer under subsection (a) (1) or (2) may be made, under such regulations as the Secretary may prescribe, before the time prescribed in the applicable sentence.

(c) *Termination of amortization deduction.* A taxpayer which has elected under subsection (b) to take the amortization deduction provided in subsection (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Secretary before the beginning of such month. The deduction provided under section 23 (l) shall be allowed, beginning with the first month as to which the amortization deduction is not applicable, and the taxpayer shall not be entitled to any further amortization deduction with respect to such facility.

(d) *Definition of grain storage facility.* For the purposes of this section, the term "grain storage facility" means—

(1) Any corn crib, grain bin, or grain elevator, or any similar structure suitable primarily for the storage of grain, which crib, bin, elevator, or structure is intended by the taxpayer at the time of his election to be used for the storage of grain produced by him (or, if the election is made by a partnership, produced by the members thereof);

(2) Any public grain warehouse permanently equipped for receiving, elevating, conditioning, and loading out grain,

the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956. If any structure described in clause (1) or (2) of the preceding sentence is altered or remodeled so as to increase its capacity for the storage of grain, or if any structure is converted, through alteration or remodeling, into a structure so described, and if such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, such alteration or remodeling shall be treated as the construction of a grain storage facility. The term "grain storage facility" shall include only property of a character which is subject to the allowance for depreciation provided in section 23 (l). The term "grain storage facility" shall not include any facility any part of which is an emergency facility within the meaning of section 124A.

(e) *Determination of adjusted basis*—(1) *Original owners.* For the purpose of subsection (a) (1)—

(A) In determining the adjusted basis of any grain storage facility, the construction, reconstruction, or erection of which was begun before January 1, 1953, there shall be included only so much of the amount of the adjusted basis (computed without regard to this subsection) as is properly attributable to such construction, reconstruction, or erection after December 31, 1952, and

(B) In determining the adjusted basis of any facility which is a grain storage facility within the meaning of the second sentence of subsection (d), there shall be included only so much of the amount otherwise included in such basis as is properly attributable to the alteration or remodeling.

If any existing grain storage facility as defined in the first sentence of subsection (d) is altered or remodeled as provided in the second sentence of subsection (d), the expenditures for such remodeling or alteration shall not be applied in adjustment of the basis of such existing facility but a separate basis shall be computed in respect of such facility as if the part altered or remodeled were a new and separate grain storage facility.

(2) *Subsequent owners.* For the purpose of subsection (a) (2), the adjusted basis of any grain storage facility shall be whichever of the following amounts is the smaller: (A) The basis (unadjusted) of such facility for the purposes of this section in the hands of the transferor, donor, or grantor, adjusted as if such facility in the hands of the taxpayer had a substitute basis within the meaning of section 113 (b) (2) (A), or (B) so much of the adjusted basis (for determining gain) of the facility in the hands of the taxpayer (as computed without regard to this subsection) as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(f) *Depreciation deduction.* If the adjusted basis of the grain storage facility (computed without regard to subsection (e)) exceeds the adjusted basis computed under subsection (e), the deduction provided by section 23 (l) shall, despite the provisions of subsection (a) (3) of this section, be allowed with respect to such grain storage facility as if the adjusted basis for the purpose of such deduction were an amount equal to the amount of such excess.

(g) *Life tenant and remainderman.* In the case of property held by one person for life with remainder to another person, the amortization deduction provided in subsection (a) shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant.

* * * * *

(c) *Effective date.* The amendments made by subsections (a) and (b) shall apply only with respect to taxable years ending after the date of the enactment of this Act.

§ 39.124B–1 *Introductory*—(a) *General.* Sections 39.124B–2 to 39.124B–8, inclusive, are applicable only with respect to taxable years ending after August 15, 1953 (the date of the enactment of the Technical Changes Act of 1953). These sections comprise the regulations under section 124B of the Internal Revenue Code, relating to the amortization of grain storage facilities. These regulations are to be distinguished from the regulations under section 124A of the Code (§§ 39.124A (a) to 39.124A (i)–1, inclusive) relating to amortization of emergency facilities.

(b) *General scope of section 124B.* Section 124B of the Code provides for the amortization of grain storage facilities, as defined therein, over a period of 60 months. The amortization deduction is allowable at the election of the taxpayer and subject to the provisions of section 124B. The amortization deduction is not only allowable to the original owner of a grain storage facility, but may be allowable to any subsequent owner who acquires the facility from another person who elected to take the amortization deduction and had not discontinued such deduction under the statute. In the case of the original owner of a grain storage facility the amortization period is a period of 60 months. For a subsequent owner the amortization period is the period, if any, remaining at the time of his acquisition in the 60-month period elected by the person who completed construction, reconstruction, or erection of the grain storage facility.

(c) *Cross-references.* For the right of estates and trusts to amortize grain storage facilities, see section 172 and § 39.172–1. For the allowance of the amortization deduction in the case of grain storage facilities of partnerships, see section 190 and § 39.190–1.

§ 39.124B–2 *Definition of grain storage facility*—(a) *General.* For the purpose of section 124B the term "grain storage facility" means—

(1) Any corn crib, grain bin, or grain elevator, or any similar structure suitable primarily for the storage of grain, but only if the taxpayer at the time of his election to take the amortization deduction allowed under section 124B (a) intends such crib, bin, elevator, or structure to be used for the storage of grain produced by him, or in case the election to take the amortization deduction is made by a partnership only if such crib, bin, elevator, or structure is intended by the partnership at the time of its election to be used for the storage of grain produced by members of the partnership; and

(2) Any public grain warehouse or elevator permanently equipped for receiving, elevating, conditioning, and loading out grain,

the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956. The term "grain" includes all products commonly classed as grain, such as wheat, corn, oats, barley, rye, rice, soybeans, grain sorghums, flaxseed and dry edible beans.

(b) *Private grain storage facilities.* In the case of any structure described in subparagraph (1) of paragraph (a) of this section, the construction, reconstruction, or erection of which was completed after December 31, 1952, and on or before December 31, 1956, the taxpayer at the time of his election to take the amortization deduction with respect to the structure must intend to use the facility for the storage of grain produced or to be produced by him. If the election is made by a partnership, the structure must be intended at the time of the election to be used for the storage of grain produced by members of the partnership. The statute does not require that the facility be actually used at the time of the election for the storage of grain. The intent required by the statute at the time of the taxpayer's election to take the amortization deduction is applicable not only to the original owner who completed the construction, reconstruction, or erection of the facility, but to any subsequent owner of the facility. The existence of the requisite intent is a question of fact to be ascertained from the circumstances of each particular case. The lack of the required intent with respect to the use of the facility by a subsequent owner does not affect the allowance of the amortization deduction to a preceding owner for the period during which the facility was owned by him. However, the absence of the required intent as to the use of the facility on the part of either the original owner or any intervening owner precludes any subsequent owner from taking the amortization deduction with respect to the facility. A structure is not suitable primarily for the storage of grain if it is of a type customarily used for other purposes, even though it may actually be used for storing grain. For example, no part of a residential dwelling may qualify as a grain storage facility. Nor is a structure suitable primarily for the storage of grain unless it is so constructed as to be especially adapted to efficient storage of grain. Thus, a general utility type of building does not qualify under the statute as a grain storage facility, even though it may be actually used for storing grain. However, structures not suitable primarily for the storage of grain may through alteration or remodeling qualify as grain storage facilities (see paragraph (d) of this section). On the other hand a structure which is suitable primarily for the storage of grain is not disqualified under the statute merely because it may at times be used for other purposes. The structures described in subparagraph (1) of paragraph (a) of this section may include trackside grain storage facilities.

(c) *Public grain storage facilities.* The term "public grain warehouse" as used in section 124B (d) includes only a grain warehouse or elevator transacting business with members of the general public. The amortization deduction, however, is not available to a person who stores only grain purchased for consumption in his business, such as a milling company which constructs storage facilities for purchased grain held for processing. The statute also requires that the grain warehouse or elevator must be equipped for receiving, elevating, conditioning, and loading out grain, and that the equipment used for these purposes must be permanently installed. Such equipment is considered a part of the grain warehouse or elevator for the purpose of section 124B. A grain warehouse or elevator using portable equipment for receiving, elevating, conditioning or loading out grain cannot qualify as a "grain storage facility" for the purposes of section 124B. The term "conditioning" as used in section 124B (d) includes turning, drying, aerating, fumigating, or other processing of grain. While it is not essential for qualification as a grain storage facility that a public grain warehouse or elevator be permanently equipped to render all services embraced within the meaning of "conditioning", the grain warehouse or elevator must be permanently equipped for turning, drying, or similar processing of grain.

(d) *Alteration or remodeling.* (1) If any structure described in subparagraph (1) or (2) of paragraph (a) of this section is altered or remodeled so that its capacity for the storage of grain is increased, and such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, for the purpose of section 124B such alteration or remodeling is treated as the construction of a grain storage facility. Such alteration or remodeling may qualify as a grain storage facility, whether or not the original structure constituted a grain storage facility as defined in section 124B (d). If the original structure did qualify as a grain storage facility for the purpose of section 124B, the amortization deduction allowable under section 124B (a) may be taken with respect to such alteration or remodeling, whether or not the taxpayer or any preceding owner elected to take the amortization deduction allowable with respect to the original structure.

(2) Likewise, if any structure not described in subparagraph (1) or (2) of paragraph (a) of this section is converted through alteration or remodeling into a structure so described, and such alteration or remodeling was completed after December 31, 1952, and on or before December 31, 1956, for the purpose of section 124B such alteration or remodeling is treated as the construction of a grain storage facility.

(3) For election to take the amortization deduction with respect to alteration or remodeling described in subparagraphs (1) and (2) of this paragraph, see § 39.124B–4. For determination of adjusted basis for the purpose of the amortization deduction with respect to a grain storage facility attributable to such alteration or remodeling, see § 39.124B–6.

(e) *Excluded property*—(1) *Nondepreciable property.* The term "grain storage facility" includes only property of a character which is subject to the allowance for depreciation provided in section 23 (l). Thus, "grain storage facility" does not include the land on which a structure defined in paragraph (a) of this section is erected.

(2) *Emergency facilities.* (i) The term "grain storage facility" does not include any facility any part of which is considered an emergency facility within the meaning of section 124A. For the definition of "emergency facility" for the purpose of section 124A, see § 39.124A (d)–1 (b).

(ii) If all or any part of the adjusted basis (computed under section 113 (b)) of a structure described in paragraph (a) of this section is certified as an "emergency facility" under section 124A (e), such structure cannot qualify as a "grain storage facility" for the purposes of section 124B. However, if prior to the making of any election to take the amortization deduction allowable under section 124A (a) with respect to such structure, the certificate made under section 124A (e) is cancelled by the certifying authority, such structure will be considered a "grain storage facility" for the purposes of section 124B.

(iii) In the case of any alteration or remodeling described in subparagraph (1) or (2) of paragraph (d) of this section, if all or any part of the adjusted basis (computed under section 113 (b)) of the original structure is certified as an "emergency facility" under section 124A (e), such alteration or remodeling may, nevertheless, qualify as a "grain storage facility" for the purposes of section 124B, provided the following conditions are met:

(a) None of the expenditures attributable to such alteration or remodeling represents construction, reconstruction, erection, installation, or acquisition included in the certificate made under section 124A (e) with respect to the original structure, and

(b) A separate certificate is not made under section 124A (e) with respect to such alteration or remodeling as a new and separate emergency facility, or if a separate certificate was made, such certificate, prior to the making of any election to take the amortization deduction allowable under section 124A (a) with respect to such alteration or remodeling, is canceled by the certifying authority.

§ 39.124B–3 *Amortization deduction*—(a) *Original owner.* Any person who constructs, reconstructs, or erects a grain storage facility as defined in section 124B (d) is entitled at his election to a deduction with respect to the amortization of the adjusted basis (for determining gain) of such facility based on a period of 60 months. As to the adjusted basis of a grain storage facility, see § 39.124B–6. The taxpayer may, with respect to a grain storage facility, elect to begin the 60-month amortization period with (1) the month following the month in which such facility was completed, or (2) the taxable year succeeding that in which such facility was completed (see § 39.124B–4). The date on which, or the month within which, an emergency facility is completed is to be determined upon the facts in the particular case. A statement of the date ascertained by the taxpayer, together with a statement of the pertinent facts relied upon, should be filed with the taxpayer's election to take amortization deductions with respect to such facility.

(b) *Subsequent owner.* Any person who acquires a grain storage facility from a taxpayer who elected to take the amortization deduction provided by section 124B (a) with respect to such facility and who prior to the acquisition by such person had not discontinued the amortization deduction pursuant to section 124B (c) is entitled at his election to a deduction with respect to the amortization of the adjusted basis (determined under section 124B (e) (2)) of such facility based on the period, if any, remaining at the time of his acquisition in the 60-month period elected by the original owner of such facility. For the determination of the adjusted basis of a grain storage facility in the hands of a subsequent owner for the purpose of the amortization deduction, see § 39.124B–6.

(c) *Amount of deduction.* (1) In general, with respect to each month of the 60-month period which falls within the taxable year, the amortization deduction is an amount equal to the adjusted basis of the facility at the end of such month divided by the number of months (including the particular month for which the deduction is computed) re-

maining in the 60-month period. If a grain storage facility is held successively by two or more persons during a single month, the amortization deduction, if any, allowable to each of such persons in respect of that month shall be only that portion of the amount to which each such person would be entitled for a full month which the number of days in such month during which the facility was held by him bears to the total number of days in such month. The adjusted basis of the grain storage facility at the end of any month shall be computed without regard to the amortization deduction with respect to such facility for such month. The total amortization deduction with respect to a grain storage facility for a particular taxable year is the sum of the amortization deductions allowable with respect to such facility for each month of the 60-month period which falls within such taxable year.

(2) The amortization deduction with respect to a grain storage facility for any month is in lieu of the deduction for depreciation which would otherwise be allowable under section 23 (l) with respect to the facility for that month. If the original owner of a grain storage facility elects to begin the 60-month amortization period with the taxable year succeeding that in which the facility was completed, the deduction for depreciation provided in section 23 (l) is allowable with respect to the facility for the period intervening between the completion of the facility and the beginning of the 60-month period. However, if the original owner elects to begin the 60-month amortization period with the month following that in which the facility was completed, no deduction under section 23 (l) is allowable in respect of the month in which the facility was completed. For depreciation allowable with respect to any amount not subject to amortization see § 39.124B–7.

(d) *Examples.* This section may be illustrated by the following examples:

Example (1). On July 1, 1953, A, who makes his income tax return on a calendar year basis, begins the construction of a grain storage facility which is completed on September 30, 1953, at a cost of $24,000, not including the cost of the land on which the facility is erected. A elects to take the amortization deduction with respect to the facility and to begin the 60-month amortization period with October 1953, the month following its completion. The adjusted basis of the facility at the end of October is $24,000. The allowable amortization deduction with respect to such facility for the taxable year 1953 is $1,200, computed as follows:

Monthly amortization deductions:	
October: $24,000 divided by 60	$400
November: $23,600 ($24,000 minus $400) divided by 59	400
December: $23,200 ($23,600 minus $400) divided by 58	400
Total amortization deduction for 1953	1,200

Example (2). The X Corporation, which makes its income tax return on the calendar year basis, begins the construction of a grain storage facility on June 15, 1953. The facility is completed on August 2, 1953. The X Corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with September 1953, the month following its completion. At the end of the first month of the amortization period the adjusted basis of the facility is $30,000. In October 1953, the facility is damaged by fire, as the result of which the adjusted basis is properly reduced by $2,537. The allowable amortization deduction with respect to the facility for the calendar year 1953 is $1,871, computed as follows:

Monthly amortization deductions:	
September: $30,000 divided by 60	$500
October: $26,963 ($30,000 minus $500 and $2,537) divided by 59	457
November: $26,506 ($26,963 minus $457) divided by 58	457
December: $26,049 ($26,506 minus $457) divided by 57	457
Total amortization deduction for 1953	1,871

For illustration in the case of a subsequent owner of a grain storage facility, see Example (2) in § 39.124B–6 (f).

§ 39.124B–4 *Election of amortization—*(a) *General rule—*(1) *Original owner.* The election by a taxpayer who constructs, reconstructs, or erects a grain storage facility to take amortization deductions with respect to the facility and to begin the 60-month amortization period, either with the month following the month in which the facility was completed or with the taxable year succeeding the taxable year in which such facility was completed, shall be made by a statement to that effect in the taxpayer's return for the taxable year in which falls the first month of the 60-month amortization period so elected. Such statement shall include the following information:

(i) A description clearly identifying each grain storage facility for which an amortization deduction is claimed.

(ii) The date on which the construction, reconstruction, or erection of each such facility was complete.

(iii) The total costs and expenditures paid or incurred in the construction, reconstruction, or erection of any such facility, excluding the cost of any land.

(iv) If the construction, reconstruction, or erection of any such facility was begun before January 1, 1953, the amount of the costs and expenditures properly attributable to such construction, reconstruction, or erection after December 31, 1952.

(2) *Subsequent owner.* The election by a subsequent owner (that is, a person who acquires a grain storage facility from a taxpayer who elected to take the amortization deduction with respect to the facility and who prior to the acquisition by the subsequent owner had not discontinued the amortization deduction under section 124B (c)) to take amortization deductions with respect to the facility shall be made by a statement to that effect in the taxpayer's return for the taxable year in which falls the month in which the facility was acquired. Such statement shall include the following information:

(i) The name and address of the preceding owner.

(ii) The date and the manner of the acquisition of the grain storage facility from such preceding owner.

(iii) A statement of the basis (unadjusted) of the facility in the hands of the preceding owner for amortization purposes, adjusted to the date of acquisition by the taxpayer.

(iv) A statement of the adjusted basis of the facility in the hands of the taxpayer for amortization purposes, computed as of the date of acquisition by the taxpayer.

(b) *Special rules for making election prior to filing of return.* If, prior to the time prescribed in paragraph (a) of this section for making the election to take amortization deductions with respect to a grain storage facility, such facility is acquired by a subsequent owner, the preceding owner of the facility may make such election within 60 days after the date of acquisition of such facility by the subsequent owner. In the event that the preceding owner dies or ceases to exist prior to making an election, the election may be made within such time by the duly authorized representatives of the preceding owner. Unless the election to take amortization deductions with respect to the facility is made by the preceding owner or on his behalf, the subsequent owner of the facility shall not be entitled to take the amortization deductions allowable under section 124B (a) with respect to such facility. A statement of election under this paragraph shall be filed with the district director of internal revenue (for the internal revenue district determined under section 53 (b) as if such election were a return required to be filed by the taxpayer), and shall contain the same information required with respect to a statement of election under paragraph (a) of this section. If the preceding owner of the facility was the original owner, the statement of election must specify the beginning of the 60-month amortization period. Unless the grain storage facility is acquired from the original owner after the beginning of his taxable year succeeding the taxable year in which such facility was completed, an election made under this paragraph must begin the 60-month amortization period with the month following the month in which the facility was completed.

(c) *Election not made at the time or in the manner prescribed by this section.* (1) The Commissioner has no authority to extend the time prescribed in section 124B (b) and paragraph (a) of this section for making an election to take amortization deductions allowable under section 124B (a). However, the Commissioner in his discretion may, for good cause shown, grant a reasonable extension of time for the making of an election under paragraph (b) of this section (see § 39.6000–1).

(2) Except as provided in the preceding subparagraph, if a statement of election under paragraph (a) or (b) of this section does not comply with the requirements prescribed therein, it may, in the discretion of the Commissioner and for good cause shown, be made in such manner and form as may be approved by him.

(3) No method of making the election to take the amortization deductions with respect to a grain storage facility other than those prescribed in this section shall be permitted. A taxpayer who fails to elect to take amortization deductions with respect to such a facility shall not be entitled to amortization deductions with respect to such facility.

(d) *Alteration or remodeling of existing grain storage facility.* If an existing grain storage facility, as defined in section 124B (d), is altered or remodeled and such alteration or remodeling is treated under section 124B (d) as the construction of a grain storage facility (see §§ 39.124B–2 (d) and 39.124B–6 (e)), the part of the facility altered or remodeled is treated as a new and separate grain storage facility. In such case unless the taxpayer who completes such alteration or remodeling makes a separate election, in the manner and within the time provided in this section, to take amortization deductions and to begin a new 60-month period with respect to such alteration or remodeling, he shall not be entitled to amortization deductions with respect to such alteration or remodeling. Such alteration or remodeling is also treated as a separate grain storage facility in the hands of a subsequent owner.

§ 39.124B–5 *Termination of amortization deduction.* (a) If a taxpayer has elected to take amortization deductions with respect to a grain storage facility, he may, prior to the expiration of the 60-month amortization period and prior to the acquisition of such facility by another person, discontinue the amortization deductions with respect to such facility for the remainder of the 60-month period. An election to discontinue the amortization deductions shall be made by notice in writing filed with the district director of internal revenue (for the internal revenue district determined under section 53 (b) as if such notice were a return required to be filed by the taxpayer), specifying the month as of the beginning of which the taxpayer elects to discontinue such deductions. Such notice shall be filed before the beginning of the month specified therein, and should contain a description clearly identifying the grain storage facility with respect to which the taxpayer elects to discontinue the amortization deductions. If the taxpayer elects in the manner provided herein to discontinue the amortization deductions with respect to a grain storage facility, he shall not be entitled to any further amortization deductions with respect to such facility.

(b) A taxpayer who elects to discontinue amortization deductions with respect to a grain storage facility is entitled to a deduction for depreciation under section 23 (l) with respect to such facility. The deduction for depreciation shall begin with the first month as to which the amortization deduction is not applicable and shall be computed on the adjusted basis of the property as of the beginning of such month (see section 113 (b) and the regulations thereunder).

(c) This section may be illustrated by the following example:

Example. On February 1, 1953, the Y Corporation, which makes its income tax returns on the calendar year basis, begins the construction of a grain storage facility. The facility is completed on June 30, 1953, at a cost of $306,000 of which $60,000 is allocable to the land and $246,000 to the facility. The corporation elects to take amortization deductions with respect to the facility and to begin the 60-month amortization period with July 1953, the month following its completion. On March 25, 1954, the corporation files notice with the district director of its election to discontinue the amortization deductions beginning with the month of April 1954. The adjusted basis of the facility on July 31, 1953, is $246,000. The amortization deductions for the taxable year 1953 and the months of January, February, and March 1954, amount to $36,900, or $4,100 per month for nine months. Accordingly, the adjusted basis of the facility as of April 1, 1954 is $209,100. Beginning as of that date the deduction for depreciation under section 23 (l) is allowable with respect to the property. Such deduction shall be computed on the adjusted basis ($209,100) of the property as of April 1, 1954.

§ 39.124B–6 *Adjusted basis of grain storage facility—*(a) *General.* Section 124B (e) provides rules which apply in the determination of the adjusted basis of a grain storage facility for the purpose of computing the amortization deductions allowable under section 124B (a). Section 124B (e) does not purport to provide an all-inclusive formula for the computation of adjusted basis for amortization purposes, but only prescribes certain modifications in the amount which would otherwise constitute the adjusted basis of the facility. As a result of these modifications the adjusted basis for the purpose of computing the amortization deductions allowable with respect to the facility will differ in some cases from the adjusted basis of the facility determined under section 113 without regard to section 124B (e). The adjusted basis for amortization purposes may also differ from the adjusted basis of the facility for other purposes in that it shall be the adjusted basis for determining gain (see section 113). The adjusted basis for amortization purposes is derived from the unadjusted basis of the grain storage facility determined under section 113. The special rules provided in section 124B (e) are applicable in translating the unadjusted basis determined under section 113 into the unadjusted basis for amortization purposes under section 124B. The unadjusted basis for amortization purposes, less the adjustments properly allocable thereto, becomes the adjusted basis for amortization purposes. These adjustments are those specified in section 113 (b). However, adjustments which increase the adjusted basis under section 113 (b) are not to be taken into account in determining the adjusted basis for amortization purposes (see paragraph (d) of this section).

(b) *Original owners.* Section 124B (e) (1) provides rules which apply in the determination of the adjusted basis for amortization purposes of a grain storage facility in the hands of an original owner (see § 39.124B–3 (a)). As the result of the application of the rules stated in subparagraphs (1) and (2) of this paragraph, the adjusted basis of the facility for amortization purposes will be smaller than the amount which would otherwise constitute the adjusted basis of the facility. The rules are the following:

(1) If the construction, reconstruction, or erection of the facility was begun before January 1, 1953, there is to be included only so much of the entire unadjusted basis of the facility as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(2) If a structure which is not an existing grain storage facility as defined in section 124B (d) is altered or remodeled and such alteration or remodeling is treated under section 124B (d) as the construction of a grain storage facility (see § 39.124B–2 (d)), there is to be included only so much of the entire unadjusted basis of such structure as is properly attributable to such alteration or remodeling as was completed after December 31, 1952, and on or before December 31, 1956. In the case of alteration or remodeling of an existing grain storage facility, see paragraph (e) of this section.

(c) *Subsequent owners.* A special rule is provided in section 124B (e) (2) for the determination of the adjusted basis for amortization purposes of a grain storage facility in the hands of a subsequent owner (see § 39.124B–3 (b)). Such adjusted basis is the smaller of the following amounts:

(1) The adjusted basis determined by including an amount in respect of unadjusted basis equal to the adjusted basis of the facility for amortization purposes in the hands of the preceding owner, determined as of the date of acquisition of the facility by the taxpayer. For the purpose of this paragraph in determining the adjusted basis of the facility for amortization purposes in the hands of the preceding owner, the adjustments required under section 113 (b) shall include an adjustment in respect of the amount of the amortization deduction allowable to the preceding owner for the month in which the facility was acquired by the taxpayer. See § 39.124B–3 (c). For the rule excluding capital additions from the adjusted basis of a grain storage facility for amortization purposes, see paragraph (d) of this section.

(2) The adjusted basis (computed under section 113 for determining gain) of the facility in the hands of the taxpayer. If the construction, reconstruction, or erection of the facility was begun before January 1, 1953, in determining such adjusted basis there is to be included only so much of the entire unadjusted basis of the facility (in the hands of the taxpayer) as is properly attributable to construction, reconstruction, or erection after December 31, 1952.

(d) *Capital additions.* If after the completion or acquisition of a grain storage facility further expenditures are made for construction, reconstruction, or erection, such expenditures shall not be added to the adjusted basis of the facility for amortization purposes. If such expenditures result in alteration or remodeling which under section 124B (d) is treated as the construction of a grain storage facility, see paragraph (e) of this section.

(e) *Alteration or remodeling of existing grain storage facility.* If an existing grain storage facility as defined in section 124B (d) is altered or re-

modeled and such alteration or remodeling is treated under section 124B (d) as the construction of a grain storage facility (see § 39.124B–2 (d)), the expenditures for such alteration or remodeling shall not be applied in adjustment of the basis of the existing facility, but a separate basis shall be computed by reference to such expenditures as if such alteration or remodeling represented a new and separate grain storage facility. A structure which was not an existing grain storage facility prior to alteration or remodeling which is treated under section 124B (d) as the construction of a grain storage facility becomes an existing grain storage facility for the purposes of this subparagraph. Thus, if a structure which is an existing grain storage facility by reason of such alteration or remodeling is again altered or remodeled and such alteration or remodeling is treated under section 124B (d) as the construction of a grain storage facility, the provisions of this paragraph are also applicable to such later alteration or remodeling.

(f) *Examples.* The computation of the adjusted basis of a grain storage facility for amortization purposes may be illustrated in the following examples:

Example (1). On February 28, 1953, A completes the construction of a grain storage facility as defined in section 124B (d) at a cost of $2,000 for the land and $6,000 for the construction. Only $3,000 of the total cost of the facility is properly attributable to construction after December 31, 1952. A elects to claim the amortization deduction and to begin the 60-month period on March 1, 1953. Under section 124B (e) the adjusted basis of the facility for the purpose of section 124B (a) as of that date is only $3,000, the amount attributable to construction after December 31, 1952. In determining the adjusted basis of the facility as of any subsequent date for the purpose of computing the amortization deduction, the amortization deductions allowable in respect of the period prior to such date must, of course, be taken into account. See section 113 (b) of the Code. Thus, the adjusted basis of the facility for the purpose of computing the amount of the amortization deduction allowable for the month of January 1954, is $2,500 ($3,000 minus $500, the amortization deductions allowable prior to January 1, 1954).

Example (2). A began on January 1, 1953, and completed on June 30, 1953, the construction of a grain storage facility as defined in section 124B (d) at a cost of $5,000 for the land and $30,000 for the construction. A elects to claim the amortization deduction and to begin the 60-month period on July 1, 1953. On May 1, 1954, A sells the grain storage facility to B for a price of $34,000 of which $6,000 is allocable to the land. B elects to claim the amortization deduction on the basis of the 50 months remaining in the amortization period. B, in determining the adjusted basis of the facility in his hands, must start with the unadjusted basis of the facility in the hands of A ($30,000) and adjust such basis under section 113 (b) (1) (B) in respect of amortization claimed by A during his ownership of the facility ($5,000). Since this amount ($25,000) is smaller than the adjusted basis (for determining gain) of the facility in B's hands as of May 1, 1954, ($28,000, that is $34,000 less $6,000 allocable to land), the adjusted basis of the facility for the purpose of section 124B (a) in B's hands as of May 1, 1954, is $25,000. B, therefore, may include only $25,000 in determining the adjusted basis of the facility in his hands as of May 1, 1954, the date of the purchase. The amortization deductions claimed by B must, of course, be applied in reduction of such adjusted basis in determining the adjusted basis of the facility as of any subsequent date for the purpose of his amortization deduction under section 124B (a). The amount by which the purchase price paid by B and allocable to depreciable property ($28,000) exceeds the adjusted basis determined under section 124B (e) for such property ($25,000)—or $3,000— is treated as the adjusted basis (as of May 1, 1954) for the purpose of the depreciation deduction allowable under section 23 (l). See § 39.124B–7.

§ 39.124B–7 *Depreciation of portion of grain storage facility not subject to amortization.* The rule set forth in section 124B (a) (see § 39.124B–3), that the amortization deduction with respect to a grain storage facility is in lieu of any deduction for depreciation which would otherwise be allowable under section 23 (l) with respect to the facility, is subject to an exception provided in section 124B (f). Under this exception if the adjusted basis of the facility as computed under section 113 (b) for purposes other than the amortization deductions (see § 39.113 (b) (1)–1) is in excess of the adjusted basis computed under section 124B (e) for the purpose of the amortization deductions (see § 39.124B–6), any excess shall be charged off over the useful life of the facility and recovered through depreciation deductions allowable under section 23 (l). Thus, if the construction of a grain storage facility was begun before January 1, 1953, no amortization deductions are allowable with respect to the amount attributable to such construction before such date (see § 39.124B–6). However, the depreciation deduction provided by section 23 (l) and the regulations thereunder is allowable with respect to the amount attributable to construction before January 1, 1953. Similarly, in the case of a subsequent owner the adjusted basis of a grain storage facility computed under section 113 (b) for purposes other than the amortization deductions (see § 39.113 (b) (1)–1) may exceed the adjusted basis of the facility computed under section 124B (e) for amortization purposes. In such case the excess will be subject to the allowance for depreciation provided by section 23 (l). For illustration of the treatment of the portion of a grain storage facility which is subject to the allowance for depreciation, see Example (2) in § 39.124B–6 (f).

§ 39.124B–8 *Life tenant and remainderman.* In the case of a grain storage facility held by one person for life with the remainder to another person, the amortization deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant during his life.

PAR. 3. There is inserted immediately preceding § 39.172–1, the following:

SEC. 206. AMORTIZATION DEDUCTION FOR GRAIN STORAGE FACILITIES (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 16, 1953).

* * * * *

(b) *Technical amendments.*

* * * * *

(2) Section 172 is hereby amended by striking out "of emergency facilities".

* * * * *

(c) *Effective date.* The amendments made by subsections (a) and (b) shall apply only with respect to taxable years ending after the date of the enactment of this Act.

PAR. 4. Section 39.172–1 is amended by striking out the second and third sentences and inserting in lieu thereof the following: "The same rule is applicable in the case of a grain storage facility, as defined in section 124B (d). See sections 23 (l), 124A, and 124B and the regulations thereunder. The principles governing the apportionment of depreciation in the case of property held in trust are applicable with respect to the amortization of an emergency facility or of a grain storage facility of an estate or trust."

PAR. 5. There is inserted immediately preceding § 39.190–1 the following:

SEC. 208. AMORTIZATION DEDUCTIONS FOR GRAIN STORAGE FACILITIES (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 16, 1953).

* * * * *

(b) *Technical amendments.*

* * * * *

(3) Section 190 is hereby amended by inserting after "emergency facilities" the following: "or grain storage facilities".

(c) *Effective date.* The amendments made by subsections (a) and (b) shall apply only with respect to taxable years ending after the date of the enactment of this Act.

PAR. 6. Section 39.190–1 is amended by striking out the last two sentences and inserting in lieu thereof the following: "The same rule is applicable in the case of a grain storage facility, as defined in section 124B (d). See sections 23 (l), 124A, and 124B and the regulations thereunder. Amortization deductions with respect to an emergency facility or a grain storage facility of a partnership are not allowed to the members of the partnership."

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

FROZEN GREEN BEANS AND FROZEN WAX BEANS

UNITED STATES STANDARDS FOR GRADES[1]

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of United States Standards for Grades of Frozen Green Beans and Frozen Wax Beans, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). This revision, if made effective, will be the fourth issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file same, in duplicate, with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, GRADES, AND TYPES

Sec.
52.2321 Product description.
52.2322 Styles of frozen beans.
52.2323 Grades of frozen beans.
52.2324 Types of frozen beans.

FACTORS OF QUALITY

52.2325 Ascertaining the grade.
52.2326 Ascertaining the rating for the factors which are scored.
52.2327 Color.
52.2328 Defects.
52.2329 Character.

LOT CERTIFICATION TOLERANCES

52.2330 Tolerances for certification of officially drawn samples.

[illegible]

52.2331 Score sheet for frozen green beans and frozen wax beans.

AUTHORITY: §§ 52.2321 to 52.2331 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624, Pub. Law 156, 83d Cong.

PRODUCT DESCRIPTION, STYLES, GRADES, AND TYPES

§ 52.2321 *Product description.* (a) "Frozen green beans" and "frozen wax beans," hereinafter called "frozen beans," means the frozen product prepared from the clean, sound, succulent pods of the bean plant by stemming, washing, blanching, sorting, and properly draining and is then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

(b) "Unit" means an individual green bean or wax bean or portion of either in frozen beans.

§ 52.2322 *Styles of frozen beans.* (a) "Whole" means frozen beans consisting of whole pods, including pods which after removal of either or both ends are less than 2¾ inches in length, or transversely cut pods not less than 2¾ inches in length.

(b) "Sliced Lengthwise" or "French" style means frozen beans consisting of pods that are sliced lengthwise.

(c) "Cut" means frozen beans consisting of pods that are cut transversely into pieces less than 2¾ inches, but not less than ¾ inch in length, and may contain shorter end pieces which result from cutting.

(d) "Short Cut" means frozen beans consisting of pods that are cut transversely into pieces of which 75 percent, by count, or more are less than ¾ inch in length and not more than 1 percent, by count, are more than 1¼ inches in length.

(e) "Mixed" means a mixture of two or more of the following forms of frozen beans: "Whole," "Cut," or "Short Cut."

§ 52.2323 *Grades of frozen beans.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen beans that possess similar varietal characteristics; that possess a good flavor; that possess a good character; that are practically free from defects; that possess a good color; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 90 points: *Provided,* That the frozen beans may possess a reasonably good color, and may possess a reasonably good character, scoring not less than 34 points, except that sliced lengthwise style may possess a reasonably good character, if the total score is not less than 90 points.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen beans that possess similar varietal characteristics; that possess a reasonably good flavor; that possess a reasonably good color; and that for those factors which are scored in accordance with the scoring system outlined in this subpart, the total score is not less than 80 points: *Provided,* That the frozen beans may possess a fairly good color, if the total score is not less than 80 points.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen beans that possess similar varietal characteristics; that possess a fairly good flavor; that possess a fairly good character; that are fairly free from defects; that possess a fairly good color; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of frozen beans that fail to meet the requirements of U. S. Grade C or U. S. Standard.

§ 52.2324 *Types of frozen beans.* (a) The type of frozen beans is not incorporated in the grades of the finished product, since type of frozen beans is not a factor of quality for the purpose of these grades. The type of frozen beans is described as round type or flat type.

(b) "Round type" means frozen beans consisting of round type beans having a width not greater than 1½ times the thickness of the beans.

(c) "Flat type" means frozen beans consisting of flat type beans having a width greater than 1½ times the thickness of the bean.

FACTORS OF QUALITY

§ 52.2325 *Ascertaining the grade.* (a) The grade of frozen beans is ascertained by considering the requirements with respect to varietal characteristics and flavor, which are not scored, and the factors of color, defects, and character, which are scored.

(b) The relative importance of each factor which is scored is expressed numerically on a scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
Color	20
Defects	40
Character	40
Total score	100

(c) The scores for the factors of color and defects are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. The evaluation of the factors of character and flavor is ascertained immediately after thawing the product and after cooking a representative sample.

(d) "Good flavor" means that the product, after cooking, has a good, characteristic, normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(e) "Fairly good flavor" means that the product, after cooking, may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.2326 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor is inclusive. For example, the range 18 to 20 means 18, 19, or 20 points.

§ 52.2327 *Color*—(a) *(A) classification.* Frozen beans that possess a good color may be given a score of 18 to 20 points. "Good color" means that the frozen beans possess a color that is typical of very young and tender beans of similar varietal characteristics, are bright, and that the appearance of the product is not more than slightly affected by variations in color.

(b) *(B) classification.* If the frozen beans possess a reasonably uniform typical color, a score of 16 or 17 points may be given. "Reasonably good color" means that the frozen beans possess a color that is typical of young and reasonably tender beans of similar varietal characteristics, are reasonably bright, and that the appearance is not materially affected by variations in color.

(c) *(C) classification.* Frozen beans that possess a fairly good color may be given a score of 14 or 15 points. Frozen beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the frozen beans possess a color typical of nearly mature and fairly tender beans of similar varietal characteristics, the appearance of the product is not seriously affected by variations in color, and are not off color.

(d) *(SStd.) classification.* Frozen beans that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2328 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from extraneous vegetable material, loose seeds and pieces of seeds, unstemmed units, small pieces, damaged units, or units that are blemished or seriously blemished.

(1) "Blemished" means any unit which is blemished by discoloration or blemished by other means to the extent that the appearance or eating quality of the product is materially affected.

(2) "Seriously blemished" means any unit blemished to such an extent that

the appearance or eating quality of the product is seriously affected.

(3) "Extraneous vegetable matter" means leaves, detached stems, and other similar vegetable matter.

(4) "Small pieces" means pieces of pods less than ½ inch in length, except in "Short Cut" style.

(5) "Damaged unit" means any unit that is broken or split or that has very ragged edges, or is damaged by other similar means to such an extent that the appearance or eating quality of the unit is seriously affected.

(b) *(A) classification.* Frozen beans that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that extraneous vegetable material, loose seeds and pieces of seeds, small pieces, and damaged units may be present that do not more than slightly affect the appearance and eating quality of the product, and that:

(1) For each 10 ounces, net weight, of units there may be present not more than 2 unstemmed units;

(2) With respect to whole beans, not more than 4 percent, by count, of blemished units, and of such 4 percent not more than ½ thereof or 2 percent, by count, of all the units may be seriously blemished;

(3) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than ½ thereof or 1 percent, by count, of all the units may be seriously blemished;

(4) With respect to sliced lengthwise style, not more than 2 percent, by weight, of blemished units, and of such 2 percent not more than ½ thereof or 1 percent, by weight, of all the units may be seriously blemished; and that

(5) With respect to sliced lengthwise style, the pods are reasonably well sliced.

(c) *(B) classification.* If the frozen beans are reasonably free from defects, a score of 32 to 35 points may be given. Frozen beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that extraneous vegetable material, loose seeds and pieces of seeds, small pieces, and damaged units may be present that do not materially affect the appearance or eating quality of the product, and that:

(1) For each 10 ounces, net weight, of units there may be present not more than 4 unstemmed units;

(2) With respect to whole beans, not more than 6 percent, by count, of blemished units, and of such 6 percent not more than ⅓ thereof or 3 percent, by count, of all the units may be seriously blemished;

(3) With respect to cut, short cut, and mixed styles, not more than 4 percent, by count, of blemished units, and of such 4 percent not more than ½ thereof or 2 percent, by count, of all the units may be seriously blemished;

(4) With respect to sliced lengthwise style, not more than 2 percent, by weight, of blemished units, and of such 2 percent not more than ½ thereof or 1 percent, by weight, of all the units may be seriously blemished; and that

(5) With respect to sliced lengthwise style, the pods are reasonably well sliced.

(d) *(C) classification.* If the frozen beans are fairly free from defects, a score of 28 to 31 points may be given. Frozen beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that extraneous vegetable material, loose seeds and pieces of seeds, small pieces, and damaged units may be present that do not seriously affect the appearance or eating quality of the product, and that:

(1) For each 10 ounces, net weight, of units there may be present not more than 5 unstemmed units;

(2) With respect to whole beans, not more than 10 percent, by count, of blemished units, and of such 10 percent not more than ½ thereof or 5 percent, by count, of all the units may be seriously blemished;

(3) With respect to cut, short cut, and mixed styles, not more than 8 percent, by count, of blemished units, and of such 8 percent not more than ½ thereof or 4 percent, by count, of all the units may be seriously blemished;

(4) With respect to sliced lengthwise style, not more than 8 percent, by weight, of blemished units, and of such 8 percent not more than ½ thereof or 4 percent, by weight, of all the units may be seriously blemished; and that

(5) With respect to sliced lengthwise style, the pods are fairly well sliced.

(e) *(SStd.) classification.* Frozen beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2329 *Character—(a) General.* The factor of character refers to the maturity as reflected in the development of the seed and pod, to the tenderness of the pods, the freedom from tough strings, and the appearance of the pods with respect to sloughing. "Tough strings" means strings or pieces of string at least ½ inch in length removed from the cooked frozen bean which will support a ½ pound weight for not less than 5 seconds.

(b) *(A) classification.* Frozen beans that possess a good character may be given a score of 36 to 40 points. "Good character" means that the seeds are in the early stage of maturity, the units are not more than slightly affected by sloughing, are tender, the pods are full fleshed for the variety, and that:

(1) With respect to whole, cut, short cut, and mixed styles, not more than 2 percent, by count, of all the units may possess tough strings, and that

(2) With respect to sliced lengthwise style, not more than 2 percent, by weight, of all the units may possess tough strings.

(c) *(B) classification.* If the frozen beans possess a reasonably good character, a score of 32 to 35 points may be given. Frozen (whole, cut, short cut, and mixed styles) beans that fall into this classification, scoring less than 34 points, shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a partial limiting rule which does not apply to sliced lengthwise style). "Reasonably good character" means that the seeds may have passed the early stage of maturity and have not reached the late stage of maturity, the units are not materially affected by sloughing, are reasonably tender, the pods may have lost to some extent their fleshy structure, and that:

(1) With respect to whole, cut, short cut, and mixed styles, not more than 4 percent, by count, of all the units may possess tough strings, and that

(2) With respect to sliced lengthwise style, not more than 4 percent, by weight, of all the units may possess tough strings, and that

(d) *(C) classification.* If the frozen beans possess a fairly good character, a score of 28 to 31 points may be given. Frozen beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the seeds may be nearly mature, that the units are not seriously affecting by sloughing, are fairly tender, the pods may have lost to a considerable extent their fleshy structure, and that:

(1) With respect to whole, cut, short cut and mixed styles, not more than 6 percent, by count, of all the units may possess tough strings, and that

(2) With respect to sliced lengthwise style, not more than 8 percent, by weight, of all the units may possess tough strings.

(e) *(SStd.) classification.* Frozen beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.2330 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen beans, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to the containers comprising the sample:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule is within the score range of that factor for the grade indicated by the average of such total scores; and

(5) All containers meet all applicable standards of quality promulgated by the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

MILK IN THE GREATER BOSTON, LOWELL-LAWRENCE, SPRINGFIELD, WORCESTER, AND FALL RIVER, MASSACHUSETTS, MARKETING AREAS

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTION THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENTS AND PROPOSED ORDERS AMENDING THE ORDERS, AS NOW IN EFFECT, REGULATING HANDLING

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed marketing agreements and proposed amendments to the orders, as now in effect, regulating the handling of milk in the Greater Boston, Lowell-Lawrence, Springfield, Worcester, and Fall River, Massachusetts, marketing areas.

Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after the publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. A public hearing, on the record of which the proposed marketing agreements and the proposed orders were formulated was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of petitions filed on behalf of the majority of producers and by several handlers in the five markets. The public hearing was held in Worcester, Massachusetts, on September 30; and Boston, Massachusetts, on October 1 and 2, 1953 pursuant to a notice duly published in the FEDERAL REGISTER (18 F. R. 5652).

The material issues considered at the hearing were concerned with the following:

1. The definition of "receiving plant"
2. The level and basis of pricing Class II milk
3. The allocation and pricing of milk from other Federal order markets and from unregulated sources
4. The nearby location differential
[redacted]
5. Marketing service assessment under the Boston order
6. Extension of the exempt milk definition
7. A base excess price plan for the Fall River market
8. Administrative changes

Findings and conclusions. The following findings and conclusions on the material issues are based upon evidence contained in the record of the hearing:

1. *Definition of receiving station.* The present receiving plant definitions of the Greater Boston, Lowell-Lawrence, Worcester, and Springfield orders should be expanded to include a plant where milk is received in bulk from tank trucks which pick-up such milk from the bulk farm tanks of individual dairy farmers. The present receiving plant is restricted by definition to a plant, where among other things, milk is received in cans direct from dairy farms.

At the present time considerable attention is being focused on the installation of bulk farm tanks into which the individual farmer places his milk, immediately after milking, for cooling and holding, and from which the hauler transfers the milk to a tank truck for delivery to the milk plant. This type of handling, commonly called "bulk tank pickup", is in its initial phases of development in the New England area and while it is a subject of great interest, it is impossible at this stage of development to envision its ultimate impact on the handling and processing operations of the fluid milk industry. Many problems, particularly with reference to hauling rates and diversions, will undoubtedly be precipitated as application of the method develops. At this time the form and extent of the problems which may arise are speculative and it is unwise to make anticipatory changes in the order language based on conjecture. Such a cause of action could result in strangulation of the process or unduly promote it. It is concluded, therefore, that a decision on these matters should be deferred until a later date when experience will indicate the necessary order revisions. In the meantime, however, in order that producers of such milk disposed of to plants associated with the fluid milk operation of the Boston and three secondary markets may continue to be producers under the terms of their respective orders with the privilege of sharing in the equalization pools, and the plants may continue as pool plants, the receiving plant definition in each of these orders should be extended to include a plant where the commingled milk of individual dairy farmers is received in bulk tank trucks direct from the dairy farmers' farms.

Under a bulk tank type of pickup, milk of individual producers is commingled in the bulk tank truck at the time the milk is drawn from the farm tank. Once the milk leaves the farm tank it loses its individual identity. Hence any verification program with reference to weights and tests must begin at the farm tank itself. In order that the market administrator can effectively carry out his responsibilities in this regard he must be advised promptly whenever a producer installs a farm tank and initiates bulk tank shipments. The reporting provisions should, therefore, be amended to place the responsibility of notification on the individual handler to whom the producer disposes of his milk.

2. *Class II prices.* The provisions of the orders which establish floor prices for Class II milk should be amended to provide a floor at the level of prices being paid at all manufacturing plants in the United States on a month to month basis. Although the long time floor price feature presently contained in the several New England orders tends to maintain prices for Class II milk in the Boston area in line with the United States manufacturing milk price, it is possible for the month to month prices in the Boston area to become seriously out of line with the national average. These differences are largely a result of variable cream price quotations when very little cream is being purchased for the Boston market from sources outside the pool.

The record shows that in periods of several months' duration the Boston Class II price has dropped below the level of prices paid at manufacturing plants, even after allowance is made for the different seasonality of the two price series. The floor price factor based on a 12-month average has failed to reflect the divergence of the Boston Class II price at the time the price dropped below the manufacturing plant price to producers.

At the time the present floor price feature was considered for the Boston order in 1951, the series of United States manufacturing milk prices had been available only for a limited period, and there was some uncertainty concerning the short time relationship between this price series and the Boston price. We now have data for seven full years to compare the Class II price with this price series for manufacturing milk purchased at plants throughout the

United States. With the data now available it is possible to calculate the normal difference in the seasonal pattern of the Boston Class II prices and the prices paid at manufacturing plants in the United States. By applying this normal seasonal adjustment factor to current prices it is possible to judge whether the level of the Class II price has fallen below the average of prices paid at these manufacturing plants.

The adoption of a floor price related to the current level of prices paid at manufacturing plants rather than a 12-month average should not affect the price level over a period of time. In periods of declining prices the current floor price would be lower than the 12-month average and in periods of rising prices the floor price based on a current relationship of prices would be higher. The floor price feature based on current prices would establish a minimum price for Class II milk in the Boston market in line with current prices for milk used in manufacturing in the country as a whole.

A floor pricing mechanism based on current conditions is needed also to establish Class II prices for New England markets in those periods when cream purchases are insufficient upon which to rely for pricing the large quantity of surplus milk available in the region.

Certain proponents of revisions in the floor price provisions relating to the Class II price asked that the floor be established at the level of price established for milk utilized to make salted butter and cheddar cheese during the period April through July. Others requested that the floor be established at the level of prices paid at a selected group of evaporated milk plants in the midwestern dairy region. Either of these proposals if adopted would raise the price of Class II milk primarily in the season of flush milk production without affecting the price materially in other periods of the year. The evidence in this record supports the need for a year around floor under the Class II price rather than a reduction in the seasonal variable by raising only the flush season prices. It would be possible to apply a seasonal adjustment factor to either the prices paid at plants which, manufacture evaporated milk, butter and creamery by-products, or American cheese. However, the price series presently used to compute floor prices reflects the prices paid at all of these types of plants. The record fails to show any need for relating the floor price to prices paid at only certain types of manufacturing plants. It appears therefore, that the floor price should continue to be computed on the basis of the price series reflecting several types of milk manufacturing operations.

One difficulty in utilizing this price series on a current basis is the fact that the price does not become available until nearly the end of the month in which the milk was purchased from farmers. However, it is possible to compute the relationship between gross market values of butter and powder as related to this pay price to producers during the preceding delivery period. By making such a comparison for the latest two months for which data are available a moving allowance can be constructed which may be applied to the gross market values of butter and powder based on the current month's operation. In making the comparison with Boston prices the different seasonal pattern of the Boston Class II price and the United States manufacturing milk price should be taken into account.

A comparison of the simple average of the difference between the prices for Class II milk under the Boston order and the United States manufacturing milk price, adusted by direct ratio to a 3.7 percent butterfat test, for the years 1949 through 1952 shows the Boston price deviated by months by the following amounts:

	Cents		*Cents*
January	+11	July	+6
February	+10	August	+15
March	−7	September	+12
April	−11	October	+14
May	−14	November	+15
June	−13	December	+15

This variable pattern of Class II prices encourages handlers to accept milk in excess of Class I requirements during the months when seasonally excessive supplies normally exist. On the other hand as supplies relative to Class I sales decline seasonally the Class II prices are normally higher than the United States average for manufacturing milk. This difference in the seasonal pattern of prices should be applied to the calculated allowance.

Although a simple comparison of these seasonal adjustment factors appears to indicate a higher Boston Class II price than the United States manufacturing milk prices, the seasonal pattern of prices in the Boston market results in a lower weighted average figure for all milk going into regular Class II uses as compared to a weighted average of all milk for manufacturing in United States plants, which is handled on a less seasonal basis. We do not have information in this record on which to establish the exact pattern of seasonal deliveries to manufacturing plants in the United States. It may be assumed that such deliveries would more nearly resemble the pattern of all deliveries by producers to Boston pool plants than the pattern of Class II milk. On that assumption, by weighting the seasonal adjustment factors recommended herein by the difference in the seasonal variation of the United States manufacturing milk volumes and the Boston Class II milk utilization, the recommended factors would have raised the annual price level approximately 2½ cents in 1952. Accordingly a factor of minus 3 cents should apply to this floor price formula.

A simple comparison of the Class II price with the United States average furthermore does not take into account the fact that the level of the annual return for Class II milk in recent years has been reduced from ½ cent to 2 cents per hundredweight as a result of the lower prices established for milk which is utilized in salted butter and cheddar type cheeses during certain months in the Boston market.

The formula proposed herein could be estimated in advance by the use of market quotations for butter and nonfat dry milk solids. The nonfat dry milk solids price used in the floor formula is the same quotation presently used in the Class II pricing formula. The current adjustment for butterfat price changes would be determined on the basis of 92 score butter on the Chicago wholesale market. Since handlers indicated that cream is generally purchased at a differential based on that quotation, this factor is well known by handlers and is constantly referred to in price quotations. By using the gross allowance to handlers indicated by the United States average manufacturing milk price for the first preceding month as well as the current month, the erratic variations in this factor are reduced and handlers by knowing the previous months' factor have a good basis for predicting the price in advance of its announcement. There is some lag in the adjustment of the formula price to the level of the manufacturing plant prices because of the use of the previous month gross allowance along with the current month allowance. The disadvantages of this lag are offset, however, by the greater certainty obtained in predicting the price.

The proposed floor would have established slightly higher prices for Class II milk during the months October 1949 through June 1950, a period in which the cream purchases on which the Boston weighted average price is computed were relatively small. Cream purchases moved up substantially in the last half of 1950 and in those months the Boston Class II price exceeded the proposed floor. Cream purchases were low in 1951 until November and in that year the floor price would have established the Class II price at slightly higher levels in each month from January through September except the month of June. The indicated adjustment in this period varied from 0.8 cent to 7.6 cents.

The most important change in the price in recent years would have resulted under the proposed formula during the period November 1952 through March 1953. The adjustments in each of those months would have increased the price 2.9 cents in November, 9.5 cents in December, 11.3 cents in January, 13 1 cents in February and 4.7 cents in March. This was a period in which cream receipts were exceptionally low for the period of the year. In both January and February there were less than 7,000 cans of cream purchased from nonpool sources by Boston cream buyers.

The recommended formula for establishing a floor price should be used also to determine the Class II price whenever the Boston weighted average cream price is not reported. As heretofore stated the floor price feature is needed particularly when cream purchases are below normal and it is reasonable therefore to use it directly when the market is too thin to warrant a quotation.

In the absence of a cream quotation the butterfat differential should be computed by multiplying the average price for the period of 92 score butter sold wholesale at Chicago by 1.25 to determine a value per pound of butterfat. This factor will approximate the butterfat differential computed at present price levels on the cream price quotation.

The recommended changes in the Boston Class II price and butterfat differential should be adopted also in the similar provisions of the orders regulating the handling of milk in the Fall River, Lowell - Lawrence, Springfield and Worcester markets.

No other changes should be made at this time in these secondary market Class II prices. At the present time the secondary market city plant Class II prices are established at the Boston country plant level, plus the cost of shipping cream to the market. A producer cooperative association proposed that the secondary market Class II city plant prices be increased to the level of the Boston city plant price which is 38.1 cents above the 201–210 mile zone country plant price.

Since most of the milk supply in the secondary markets is received directly at the city plants the problem of disposing of surplus milk at city plants is essentially the same as that at Boston country plants. Butterfat is sold as fluid cream or is frozen and stored for later disposition while skim milk is primarily disposed of as nonfat dry milk powder in competition with products manufactured at Boston country plants or in other surplus production areas. Accordingly it is concluded that the Class II price for secondary market city plants should be maintained in its present relationship with Boston country plant prices.

A handler operating under the Fall River order proposed that in the computation of his uniform price the price actually received for Class II milk disposed of through a producers' association be used in lieu of the specified order price. He contended that he does not realize the full Class II price from the sale of such milk and, accordingly he should not be so charged. The evidence presented in connection with proposals involving the level of Class II price, and discussed elsewhere in this decision, support a strengthening of this price. Accordingly the proposal is denied.

3. *Classification and pricing of milk from nonproducer sources.* The assignment provisions of the Boston, Lowell-Lawrence, Springfield and Worcester orders should be amended to permit the assignment of receipts from New York order pool plants to Class I only to the extent of their classification and actual pricing as pool milk in Class I–A or I–B at the New York order plant. The assignment provisions of the New York order are so constructed that milk may be classified without actually being priced. As a result milk classified as I–A or I–B, but actually unpriced under the New York order passes through New York pool plants and into pool plants under the New England orders. Milk so handled replaces regular producer milk in Class I under the New England orders and may be obtained at considerable saving in cost to the handler.

Only that milk classified as I-A or I-B for which the market administrator is furnished documentary proof of actual pricing in such class should be assigned to Class I under the New England orders. Since proof of pricing can be furnished only by the handler subject to the New York order such receipts from New York order plants should be considered as receipts of outside milk on which the receiving handler must pay the difference between the Class I and the Class II price, unless he obtains from the New York handler satisfactory evidence of the fact that the milk has been priced under the New York order. If such proof is not furnished at the time of the transaction and the milk is treated as outside milk, a subsequent audit adjustment credit would be given the handler for the amount of reimbursement due when satisfactory proof of actual pricing as Class I-A or I-B under the New York order is furnished.

The provisions of the Boston order should be revised to permit sales of Class I milk direct to consumers in the Boston marketing area by Worcester handlers without payment to the Boston pool. The Boston and Worcester marketing areas are so near one to the other that there is considerable overlapping of retail routes of Boston handlers and Worcester handlers. Under the present provisions of the two orders Worcester handlers must pay to the Boston pool the difference between the Class I and Class II prices on all sales of Class I milk which they make within the Boston area while at the same time all Class I sales by Boston handlers in the Worcester market also accrue to the Boston pool. Boston producers thus receive the benefit of all Class I sales in the Boston market irrespective of plant or origin and at the same time receive credit for all Class I sales made by Boston handlers in the Worcester market.

Competition for consumer sales should not be discouraged by Federal regulation. If Worcester handlers extend their sales direct to consumers in the Boston area such sales are a part of the regular fluid market which Worcester producers may expect to supply. This does not extend to all dispositions of packaged Class I milk products since packaging of special products is sometimes accomplished in one plant for more than one market and would therefore not identify the area of a handler's regular business. The Worcester pool should therefore receive credit only for Class I sales direct to consumers in the Boston area.

No change should be made in the present Boston order assignment provision to permit the crediting of a Worcester handler with Class I sales resulting from packaged receipts from the Boston pool plant of the same handler. Proponents of a change asked that the Worcester market be credited with such sales up to the amount of bulk milk moved from the secondary market plant to the Boston plant of such handler. They contended that their proposal is merely an extension of the exempt milk provision as presently applied between Boston handlers and nonfederal unregulated plants.

While the transfer of milk between Worcester and Boston may have some aspects of the practices permitted under the exempt milk provision the situation is fundamentally different. Some Boston handlers who also operate Worcester pool plants regularly supply the Worcester requirements for special types and packages of milk from their Boston plant. Whenever their Worcester receipts exceed their requirements for other fluid sales not regularly supplied from Boston, such excess milk is transferred or diverted to the Boston plant. Accordingly, while receipts from Boston are continuing, regular operations, diversions to Boston are varying and intermittent, occurring usually as surplus milk accumulates in the Worcester market. The problem is one of determining what producers should receive credit for sales made by Boston handlers through their secondary market plant. A revision in the present scheme of allocation to credit such sales to secondary markets would represent a basic departure from the principles under which the present order relationships were established. Insufficient evidence was adduced in this hearing to consider such a fundamental revision at this time.

The present outside milk provisions of the Boston order should be revised to provide that compensatory payments on outside milk be computed at the difference between the zone Class I price and the lowest price for which such milk might logically be obtained at the plant of origin.

The present order provisions provide for a compensatory payment on outside milk received at Boston City plants computed on the basis of the difference between the Boston city plant Class I and Class II prices. The city plant Class II price is the 201–210 mile zone price plus the milk freight to Boston. Under the present scheme of pricing outside milk Boston handlers have been able to receive both unregulated milk and milk regulated under other Federal orders at their city plants at substantial savings in cost over the order prices for such milk. Milk regulated under the Worcester order has been regularly diverted to a Boston city plant and such milk is priced approximately 32 cents under the Boston city plant price. In the case of unregulated milk the primary source of supply has been nonpool milk from plants located in the State of Maine. As a result of a low price for surplus milk in local Maine markets certain Boston handlers have regularly shipped nonpool milk to Boston in increasing volumes. Although other provisions of the Boston order require an additional payment of approximately 13.9 cents on each hundredweight of milk so received, handlers have been able to secure a substantial competitive advantage as a result of the saving in cost of such milk used for fluid sales in the marketing area.

If outside milk is regularly received in the market because of a monetary advantage which accrues to the handler it is obvious that producers of such milk are deprived of the actual use value of their milk. As regular suppliers of the market they should enjoy the same pooling privilege as other producers under the order. Unless handlers are required to pay prices equivalent to actual order prices for outside milk it is likely that

a greater and greater proportion of the market supply will come from such nonpool sources.

In the absence of any competitive or regulatory force which compels all handlers to pay producers for milk used in fluid outlets at a rate commensurate with its value for such use, the position of any handler who pays Class I prices is insecure, if not untenable, whenever cheaper milk is available to the market.

A classified pricing program under regulation cannot hope to be successful in the long run in insuring returns to producers at rates contemplated by the act if it is possible for some handlers to purchase outside milk at less than the Class I producer price and sell it for Class I use. Any handler who finds himself in a situation where his competitors pay less for fluid milk than he pays will be compelled to resort to the same methods, if possible. A price advantage in using outside milk is a compelling force in promoting its greater use and as a result it is probable that regular sources of regulated milk would eventually be abandoned by handlers, thus creating insecurity for themselves, producers, and consumers alike.

Sale of lower priced milk and consequent displacement of producer milk can occur under the order if plants distributing milk in the marketing area simply shift their purchases of milk to unregulated sources. By restricting or discontinuing purchases of milk from regulated sources, a handler could distribute such lower priced milk as Class I. Alternative supplies of milk for the purpose might be obtained from any unregulated source which was acceptable to the appropriate health authority in the marketing area. Such sources would not become regulated unless they met the pooling requirements for supply plants and the handler had not requested a nonpool plant status.

Producer milk might also be displaced to the extent that handlers not qualified under the performance standards of the order distributed milk directly to consumers in the marketing area. This would be possible to some extent, under the provisions of the order, since a distributing plant must sell certain minimum percentages of its milk in the marketing area in order to qualify for pooling.

It is concluded, therefore, that the compensation provisions of the order are necessary to insure against the displacement of producer milk for the purpose of cost advantage. This is essential to preserve uniformity of pricing to all handlers under the classified pricing program of the order. If intermittent supplies are not to be subject to the full regulation of the order, there is no choice as to what type of provision can be used for this purpose since minimum class prices may not be set under the order for handlers who do not participate in market-wide equalization. The only alternative is to levy a charge against unpriced milk to the extent necessary for the removal of any advantage there may be in using unregulated milk in Class I instead of regulated producer milk.

Several methods might be suggested for determining what rate of compensation payment would be appropriate. One of these is to ascertain the actual cost to the regulated handler of milk which he purchases from unregulated plants and charge as a compensation payment any amount by which the Class I price exceeded the cost of the unregulated milk used in Class I. Such a scheme is not sound from the standpoint of administrative feasibility and it would not necessarily remove the advantage in using unregulated milk even though it were feasible. Billing prices between dealers may not represent actual cost. In the case of a firm which owns or controls pool plants under the Boston order as well as unregulated plants, the rate of payment from one plant to another if any were made would have little or no significance. If such a provision were to be adopted, the billing rate might be deliberately set in each instance at a level which would avoid any payments without regard to the value of the milk.

A handler having no unregulated plants would no doubt find it possible to arrange a billing price on purchased milk which would avoid any compensatory payments. If a handler had the choice of paying money to the market-wide pool or to a person from whom he was buying milk, he would probably choose the latter. A kick-back arrangement or offsetting purchase and sale might readily be arranged, perhaps through a third party. Since the billing price for milk would be a selfserving figure for both parties to the transaction, it would be virtually impossible to ascertain that it represented true cost to the purchaser.

If the stated purchase price were a true cost, it would still not fulfill the purpose of removing the advantage to unregulated milk to base compensation payments on the difference between such price and the Class I price. The record discloses that sales of priced milk between regulated handlers ordinarily take place at the class price plus a handling charge. This handling charge may vary according to circumstances, but represents a payment to the receiver of the milk to offset his purchasing and handling costs, such as receiving, weighing, testing and cooling the milk, paying the producers, profit margin, and so on. The cost of receiving the milk in bulk form is somewhat less than receiving it from producers. Thus, in order to remove the advantage to unregulated milk, it would be necessary to provide that the cost of bulk unregulated milk be somewhat more than the Class I price. It would be exceedingly difficult to determine what this excess rate should be.

Another method is to determine the price actually paid dairy farmers by the unregulated milk dealer who first received the milk, and base the compensation payment thereon. This method has several shortcomings. The various payment plans which might be and are used in paying farmers for milk would make the determination of pay rates to each farmer an extremely complicated task. For example, unregulated milk dealers may use varying rates of butterfat differentials, different types of base rating plans, various premium payments, and so on. These various schemes used by dealers for paying farmers could make it impossible to determine the actual rate of payment. Stated prices can be an illusion since actual cost of milk may be modified by items such as hauling subsidies or overcharges, and all kinds of supplies and services which might be overpriced or underpriced to the farmer. Whatever payment plan an unregulated milk dealer may use is a matter of his own choice. Determination of pay rates to farmers by unregulated dealers is handicapped also by the lack of verification of butterfat tests and weights. In the case of cooperatives, part of the proceeds from the sale of milk is often distributed at the end of a fiscal year.

Another possible method for determining the rate of compensation payments would be to base the rate of payment on the difference between blend prices prevailing in an area and the Class I price. This would presume that unregulated handlers will be forced by competition to pay farmers approximately average blend prices. While this may be true in many instances, it is not necessarily always true, and a payment based on the difference between such prices could not be expected to insure that unregulated milk would not be used to displace regulated milk for cost reasons at all times throughout the year. Unregulated plants, as well as regulated plants, have some surplus milk at all times and particularly during the seasons of flush production. As a result, prices paid farmers are, in fact, blend prices made up of returns from the sale of milk in Class I outlets, as well as sales to the surplus market. If an unregulated plant were in a position to sell its surplus milk for Class I use in the marketing area and maintain its own Class I outlets, it would have a competitive advantage over unregulated handlers who found it necessary to dispose of part of their milk as surplus.

In the absence of a compensation payment, the unregulated plant might sell its milk for Class I use in other markets at substantial handling charges whenever fluid milk tended to be in short supply, and then dispose of milk for Class I use in the regulated market to maintain its blend price during the season of flush production when Class I sales elsewhere were difficult to make. A plant which could thus keep its disposition of milk largely as Class I and avoid qualification as a pool plant would be in a position to pay its farmers at a higher rate than that received by producers under the order, or it could retain the extra money as profits. In either case, however, pool milk would be at a disadvantage relative to unregulated milk.

Since none of these suggestions presents an acceptable approach to the problem of compensation payments, it is necessary to resort to a different procedure. The only sound method of dealing with this problem seems to be one based on a recognition of the economics involved as they affect producers and handlers. This approach resolves itself primarily into a question of market values for milk.

Handlers under the order seeking to purchase unregulated milk will naturally resort to the lowest cost source from which suitable milk is available. In fixing the rate of compensation payment, it is necessary, therefore, to determine what the lowest cost source may be and to base the payment on the difference between the cost of such milk and the cost of milk for Class I use as priced under the order.

For the most part milk produced in the New England area and not regulated under Federal orders is regulated by the individual states. In general the alignment as between State and Federal minimum prices has been reasonably close, most of the states following the Boston order prices. Under usual circumstances fixing the compensatory payment rate at the difference between the Boston Class I and Class II price in the mileage zone in which the originating plant is located would accomplish the desired pricing. Accordingly it is concluded that in the case of outside receipts at Boston city plants from points other than Maine or the nearby area of Rhode Island, Massachusetts and Connecticut the compensatory payment should be the difference between the Boston Class I and Class II price in the zone in which the originating plant is located.

In the case of the nearby area of Massachusetts, Rhode Island, and Connecticut, location with respect to centers of distribution has a direct and positive effect on prevailing prices with the result that the city plant prices established under Federal regulation represent prevailing prices at the point of origin. Consequently, for convenience of administration it is concluded that for receipts of outside milk from within the State of Massachusetts and from nearby States of Rhode Island and Connecticut the compensatory payment rate should be the difference between the secondary market city plant Class I and Class II prices.

Outside milk receipts from points within the State of Maine must be accorded somewhat different treatment since on the basis of the record surplus prices are established under the Maine State Milk Commission lower than the surplus prices prevailing in other parts of New England. Maine has a very high potential as a continuing source of supply in substantial and increasing volume. Under the present pricing scheme in effect under the Maine State order the Class II or surplus price is based solely on the weighted average cream price at Boston and includes no value for skim. During the months of April, May and June the price for surplus in excess of 15 percent is established 35 cents below "cream value." Since milk would logically move from the cheapest available source it is from these prices which we must compute our compensatory payment. Accordingly, it is concluded that on all outside milk received at Boston plants direct from plants located within the State of Maine the compensatory payment should be the difference between the Class I price established under the Boston order for the zone in which the originating plant is located and the Boston order Class II price for such zone or, in the event the Maine State order surplus price is below the Boston order Class II price, the lowest price for Class II milk established for the month under the provisions of such Maine State order.

Such payments are necessary to sustain the classification and pricing of milk according to its use in the market. In the current economic circumstances they will remove any unfair competitive advantage of outside, unpriced milk in relation to priced milk and thereby will avoid displacement of producer milk. However, if experience proves that milk is available to handlers at any time of the year at prices lower than those anticipated, the rates of compensation payments should be reviewed on the base of such experience.

The implementation of the recommended method of computing compensatory payment charges requires some revision of the method of determining the quantities of Class I milk of producers which should be allocated to each of a handler's plants. Such changes are provided in the recommended amendment set forth in this decision.

4. *Location differential areas.* No change should be made at this time in the boundaries of the nearby differential areas as set forth under the provisions of the Boston, Springfield, Worcester and Lowell-Lawrence orders.

Springfield producers operating in Berkshire County proposed that the nearby differential area boundary which presently terminates at the Berkshire County line be extended to include the County of Berkshire. They contended that their exclusion from the area deprives them of an additional 46 cents per hundredweight which their neighbors across the county line enjoy. Producers in the easternmost tier of towns in Berkshire County are included in the intermediate area and receive a differential of 23 cents per hundredweight. Producers in the remainder of the county receive the basic blended price.

The record indicates that Berkshire producers have access to only limited outlets for their milk. With the exception of a New York order pool plant located at Great Barrington, there is no practical outlet for present Springfield producers in this area. As a result virtually all of the milk produced in the upper two thirds of the county, except that disposed of in limited local markets, moves to Springfield. There is no evidence that present prices have resulted in any shift of these producers away from the Springfield market.

The present scheme of pricing under the Springfield order is designed to provide prices generally in line with Boston and New York order prices at competing points. Blended prices which Springfield producers located in Berkshire County have actually received have consistently exceeded the Great Barrington plant prices. Any change in the pricing structure which would increase the disparity between Springfield and New York blend producer prices would tend to promote shifts of producers away from the New York market and would tend to disrupt the orderly marketing of milk in both the Springfield and New York markets.

One handler asserted that the areas to which the nearby location differentials apply under the Boston, Springfield, Lowell-Lawrence and Worcester orders should be revised. These differentials have been established on the records of previous hearings with respect to these several orders and no new evidence was presented on the record of this hearing which would alter the earlier conclusions.

5. *Marketing service under the Boston order.* Order provisions requiring that marketing services be rendered to producers who are not members of cooperative associations should not be incorporated into the Boston order at this time. Under the present order provisions a limited check testing program and market information program is carried on with administrative funds. Certain cooperative associations proposed that a marketing service assessment be established under the Boston order and a comprehensive marketing service program be initiated for nonmember producers.

The act is specific with reference to a marketing service deduction. The language is permissive rather than mandatory. Most of the Federal milk marketing orders now in effect do make provision for a marketing service program financed through a marketing service assessment. Each of the New England secondary market orders now has such a provision for a marketing service program.

The evidence on the record suggests the need for a more comprehensive marketing service program under the Boston order. However, evidence is incomplete concerning the scope of the program now in effect, the type of program desirable under the Boston order, and the extent of personnel and funds which would be necessary to carry it out. The question should be further explored at a future hearing with particular attention as to the details on type and extent of program needed and the estimated cost thereof. It is concluded that no action should be taken on this issue on the basis of this record.

The reporting provisions of the Boston order should be amended to require that a handler promptly report to a cooperative association of producers the date on which any member producer, for whom the handler has had prior notification of association membership, begins or terminates his deliveries of milk to such handler.

If an association of producers is to effectively consumate its marketing obligations under its membership contracts it is essential that it have up to date knowledge as to the plant to which the milk of its members is disposed of. In a market the size of Boston shifts of producers from one handler to another are a common occurrence. Unless some formal procedure for notification is followed, an association cannot effectively follow the disposition of its members' milk for purpose of checking weights and tests.

Furthermore, since the order presently provides that authorized deductions be made by the handler and turned

over to the association it is desirable that a more effective procedure be devised for following producer changes as between handlers. A positive system for following producer changes gives a cooperative association greater assurance of collecting authorized operating revenues while, at the same time, providing member producers greater assurance of the performance of effective marketing services by their association.

Since information on "starts and stops" are now required to be reported to the market administrator the job of notifying the several cooperative associations of changing status of their producer members might be considerably simplified if it were made a permissive task of the market administrator on specific authorization by the handler. Accordingly it is provided that the handler may discharge his responsibility by authorizing the market administrator to furnish the several associations such information with reference to its membership.

6. *Definition of exempt milk.* No revision should be made in the Springfield order provisions which would alter the procedure for computing charges presently assessed against a handler doing only a minor portion of his business within the marketing area.

Under the present order provisions a handler's plant is required to pool if at least 10 percent of its total receipts of fluid milk products, other than cream, is disposed of as Class I milk within the marketing area. The operator of a plant not qualifying for pooling must either purchase pool milk in a volume equivalent to his sales of Class I milk in the marketing area, or pay on the volume of milk so disposed of, the difference between the Class I and Class II price.

A handler presently doing only a minor portion of his business in the marketing area asked that the order be amended to provide that a handler operating a nonpool plant and disposing of less than 10 percent of his Class I business, but not more than 200 quarts of milk daily, to consumers within the marketing area be exempted from any pool payment if he purchased an equivalent volume of milk from a dairy farmer located within the marketing area. He maintained that small handlers operating in the area immediately adjacent to the marketing area are severely penalized as a result of any minor sales made within the marketing area. They must either buy pool milk to cover the volume of such sales in which case they are charged premiums over the Class I price, or they must pay the difference between the Class I and Class II price in event they buy no pool milk. In either case their milk costs are in excess of the Class I price.

The problem of fringe area sales exists whenever marketing area boundaries are established. Handlers within the regulated area normally have some sales outside the area and outside handlers normally have or desire sales on routes extending into the area.

The present order provisions are written to assure producers regularly supplying the market priority in the Class I sales of the market, and an equal share in the distribution of the pool. A handler operating only nominally within the marketing area has the alternative of increasing his market area business to meet minimum pooling requirements, withdrawing entirely from the area of regulation, or buying pool milk to cover his market area Class I sales. If his within-area sales are sought as an outlet for milk surplus to his regular sales he should be required to make retribution to the pool. Since the pool does not share in his regular Class I sales, it is not reasonable that his excess milk should replace producer milk in Class I sales of the market.

7. *Base excess price plan for Fall River market.* The proposal for the inclusion of a base-rating plan in the Fall River order should not be adopted at this time. The proposal was made by a handler operating under the order with the view of promoting a more desirable pattern of milk production among his several producers. A base rating plan is a price plan employed in fluid milk markets to promote a pattern of production compatible with market requirements. A base rating plan does not affect the handlers' costs of milk but is a method of distributing monies as between producers. Such a plan should have general producer support to be considered. The record fails to show that producers were consulted or would support a base rating plan.

8. *Administrative changes.* Other order changes herein recommended for adoption are of an administrative nature, largely nonsubstantive in effect, and their adoption was not contested by either producers or handlers. These changes would correct the references to the New England Joint Tariff rates, delete volume and city plant location differentials as set forth under the Boston order, correlate the numbering scheme under the Boston and secondary market orders, provide a uniform monthly rate for adjustment payments due to and from the market administrator, change the due date of market service assessments in the secondary markets to conform with the due date of other payments to the market administrator, and substitute the name "Merrimack Valley" in place of "Lowell-Lawrence" as the marketing area defined by Order No. 34.

The "other differentials" set forth in Section 65 of the Boston order provide permissive deductions in the case of city plants located outside the marketing area and in the case of small country plants. No handlers have taken advantage of these permissive differentials in recent years and very few handlers have operations which would permit them to qualify in any event. It is unlikely that competition would enable any handler to take advantage of this permission. The differential rates set forth were established early in the period of regulation in the market and there is no reason to expect that they would be appropriate at the present time. It is concluded therefore that the provision should be deleted.

Changing the name of the marketing area under order No. 34 to the "Merrimack Valley" provides a more appropriate name for the area now covered by the order. Ever since the addition of Haverhill as a part of the marketing area, considerable confusion has occurred locally because of the restricted nature of the name Lowell-Lawrence. "Merrimack Valley" is the name by which the area actually regulated is usually referred to and its use is more appropriate under the circumstances.

General findings. (a) The proposed marketing agreements and the orders, now in effect, and as hereby proposed to be amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The proposed marketing agreements and the orders, now in effect, and as hereby proposed to be amended, regulate the handling of milk in the same manner as, and are applicable only to, persons in the respective classes of industrial and commercial activity specified in marketing agreements upon which a hearing has been held; and

(c) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the respective marketing areas, and the minimum prices specified in the proposed marketing agreements and in the orders, now in effect, and as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk in each of said marketing areas, respectively, and be in the public interest.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of interested persons. The briefs contained suggested findings of facts, conclusions, and arguments with respect to the proposals considered at the hearing. Every point covered in the briefs was carefully examined along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied.

Recommended marketing agreements and orders. The following amendments to the respective orders are recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreements are not included in this decision because the regulatory provisions thereof would be the same as those contained in the orders, as amended, and as herein proposed to be further amended.

BOSTON

1. In §§ 904.2 (e) and 904.48 (b) (1), delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley."

2. Delete § 904.3 (d) and substitute therefor the following:

(d) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

3. In § 904.4 (f) (3) insert after the comma following the words "unregulated plant" the words "except a Worcester regulated plant."

4. In § 904.27 insert following the words "which are classified" the words "and priced."

5. In § 904.29 (a) delete the word "All" at the beginning of the sentence and substitute therefor the following: "Subject to the provisions of §§ 904.47 and 904.65, all".

6. In § 904.32 (a) delete the word "or" following the words "from one farm to another," as it appears in the first sentence and add following the words "to any of a handler's pool plants," the words "or starts delivering his milk to the handler's plant by tank truck,".

7. In § 904.32 add a new paragraph (e) as follows:

(e) Each handler who is not an association of producers shall, upon request from any such association, promptly furnish it with information with respect to each of its producer members who starts, resumes, or stops deliveries to any of the handler's pool plants. Such information shall include the date on which the change took place, the producer member's post office address and farm location, and, if known, the plant to which he previously delivered, or the reason for his failure to continue deliveries. In lieu of his providing the information directly to the association, the handler may authorize the market administrator to furnish the association with such information, derived from the handler's reports and records.

8. Delete all of the language of § 904.41 (a) following the first sentence thereof.

8a. In § 904.41 (c) delete the words ", adjusted pursuant to paragraph (d) of this section. The" and substitute therefor the following: ". Subject to paragraph (d) of this section, the".

9. Delete § 904.41 (d) and substitute therefor the following:

(d) For each month in which no cream price, as described in paragraph (a) of this section, is reported, or for which the amount determined pursuant to this paragraph is greater, by more than 3 cents, than the amount computed pursuant to paragraph (c) of this section, the amount determined pursuant to this paragraph, less 3 cents, shall be the Class II price per hundredweight of milk received from producers at plants located in the 201–210 railroad freight mileage zone.

(1) Adjust, to a 3.7 percent butterfat basis by direct ratio, the average prices reported by the United States Department of Agriculture for the current and the preceding month for milk for manufacturing purposes, f. o. b. plant United States;

(2) Compute a gross butter-powder value for the current and the preceding month by adding together for the respective months the results obtained in subdivisions (i) and (ii) of this subparagraph:

(i) Compute the simple average of daily prices, using the midpoint of any range as one price, for Grade A (92 score) butter at wholesale in the Chicago market, as reported for the month by the United States Department of Agriculture, multiply by 3.7 and then by 1.22.

(ii) Multiply by 7.86 the simple average of the price per pound of roller process and spray process nonfat dry milk solids for human consumption in carlots, f. o. b. Chicago area manufacturing plants, as reported by the United States Department of Agriculture for the period from the 26th day of the preceding month through the 25th day of the month for which the computation is being made.

(3) Subtract from the results obtained in subparagraph (2) of this paragraph for the current and the preceding month, the amount computed pursuant to subparagraph (1) of this paragraph for the respective month; add the resulting figures, divide by 2, and adjust by the amount shown below for the applicable month:

Month:	Amount (cents)
January	−11
February	−10
March	+7
April	+11
May	+14
June	+13
July	−6
August	−15
September	−12
October	−14
November	−15
December	−15

(4) Subtract from the gross butter-powder value computed pursuant to subparagraph (2) of this paragraph for the current month, the amount computed pursuant to subparagraph (3) of this paragraph.

10. In the first sentence of § 904.43 change the reference "New England Joint Tariff—M No. 6" to "New England Joint Tariff—M No. 7."

10a. In § 904.44 (b) insert a new sentence immediately following the first sentence as follows: "If the Class II price is determined pursuant to § 904.41 (d), subtract the amount determined pursuant to paragraph (a) of this section from the simple average of the daily prices, using the midpoint of any range as one price, for Grade A (92-score) butter at wholesale in the Chicago market, as reported for the month by the United States Department of Agriculture multiplied by 1.22."

11. Delete § 904.47 and substitute therefor the following:

§ 904.47 *Allocation of Class I milk to plants.* For the purpose of determing the respective quantities of Class I milk subject to the applicable zone prices, each pool handler's Class I milk during the month, after excluding receipts assigned to Class I pursuant to §§ 904.25 through 904.28, shall be allocated to plants as follows:

(a) His Class I milk first shall be allocated to receipts at his city plants of milk from producers' farms; and then to the receipts of outside milk at his city plants from unregulated plants located in Connecticut, Massachusetts, or Rhode Island.

(b) Thereafter, his Class I milk shall be allocated to other plants in the order of the nearness of the plants to Boston by railroad freight mileage distance. The quantity allocated to any of his pool plants shall be equal to its shipments of fluid milk products, other than cream, to the limit of its receipts from producers' farms. The quantity allocated to any unregulated plant shall be equal to its shipments of outside milk to the handler's regulated plants. However, shipments to plants located in the States of Maine, New Hampshire, Vermont, or New York, with respect to which utilization as Class II is established shall not be allocated to Class I milk.

(c) For the purpose of this section, a handler's receipts of outside milk from dairy farmers for other markets shall be considered as shipped from the unregulated plant to which such farmers most recently delivered.

12. In § 904.51 renumber the present paragraphs (e) and (f) as paragraph (d) and (e), respectively, and change in paragraphs (a) and (b) the reference "§ 904.66" to "§ 904.65."

13. Delete § 904.62 and substitute therefor the following:

§ 904.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 904.61 (b) and 904.65, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23rd day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 904.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

14. In § 904.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the price of Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day, inclusive, of the current month by the United States Department of Agriculture and dividing the result by 10."

15. Delete §§ 904.65 and 904.66 and substitute therefor a new § 904.65 as follows:

§ 904.65 *Payments on outside milk.* Within 23 days after the end of each month, each handler who handles outside milk shall make such payment thereon to producers, through the market administrator, as is required by the applicable provisions of this section.

(a) Each pool handler who receives outside milk which is allocated to Class I milk in accordance with § 904.47, and each buyer-handler or producer-handler whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such allocated quantity or excess quantity as follows:

(1) Except as provided in subparagraph (2), (3), and (4) of this paragraph, the payment shall be at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the freight mileage zone of the plant at which the handler received the outside milk.

(2) On outside milk received from an unregulated plant located in Maine, the payment shall be at the difference between the price pursuant to § 904.40 applicable at the freight mileage zone of the plant, and the lesser of the following:

(i) The simple average for the month of the lowest minimum semimonthly prices for Class II milk containing 3.7 percent butterfat which are established by the Maine Milk Commission for the market in which such unregulated plant is located; or

(ii) The price pursuant to § 904.41 applicable at the freight mileage zone of that plant.

(3) On outside milk received at a regulated city plant from an unregulated plant located in Connecticut, Massachusetts, or Rhode Island, the payment shall be at the difference between the Class I price applicable to milk received from producers at city plants and the Class II price applicable to milk received from producers at plants located in the 201–210 freight mileage zone plus 5.8 cents.

(4) On outside milk received at a regulated city plant from an unregulated plant located in States other than Connecticut, Maine, Massachusetts, and Rhode Island, the payment shall be at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the location or freight mileage zone of the unregulated plant.

(5) For the purposes of this paragraph, outside milk received from dairy farmers for other markets shall be considered as received from the unregulated plant to which they most recently delivered.

(b) Each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment on the quantity so disposed of. The payment shall be at the difference between the price pursuant to § 904.40 and the price pursuant to § 904.41 applicable at the location or freight mileage zone of the handler's plant.

16. Renumber § 904.75 as § 904.66.

17. In § 904.67 change the reference "§ 904.66" to "§ 904.65".

18. In § 904.68(e), delete the reference "§§ 904.65 and 904.75," and substitute therefor "§ 904.66".

19. Renumber §§ 904.77 and 904.78 as §§ 904.72 and 904.73, respectively.

20. In § 904.12(c), change the reference "§ 904.77" to "§ 904.72".

LOWELL-LAWRENCE

1. In § 934.1 (b) and (c), delete the words "Lowell-Lawrence, Massachusetts, marketing area" and substitute therefor the words "Merrimack Valley, Massachusetts marketing area".

2. Delete § 934.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank trucks; and at which are are currently maintained weight sheets or other records of the individual farmers' deliveries.

3. In § 934.12 (b), change the reference "§ 934.71" to "§ 934.72".

4. In § 934.27 (c) insert following the word "classified" the words "and priced".

5. In § 934.32 (a) delete the word "or" following the words "from one farm to another," as it appears in the first sentence and add following the words "to any of a handler's pool plants," the words "or starts delivering his milk to the handler's plant by tank truck,".

6. In §§ 934.40 and 934.43 delete the reference "New England Joint Tariff M No. 6" and substitute therefor the reference "New England Joint Tariff M No. 7".

7. Delete § 934.41 and substitute therefor the following:

§ 934.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined by adding to the Class II price determined for the month pursuant to § 904.41 of the order regulating the handling of milk in the Greater Boston marketing area (exclusive of any adjustment pursuant to § 904.44 of such order) for Class II milk received from producers at plants located in the 201–210 freight mileage zone under such order, the amount of 5.8 cents: *Provided,* That the factor 5.8 cents shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof. The adjusted rate shall be computed by dividing such cream freight rate by 9.05, then multiplying by 1.03 and adjusting the result to the nearest one-tenth cent. Any such adjusted rate shall become effective in the first complete month in which such increase or decrease in the tariff applies.

8. In § 934.48 (b) (1) delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

9. In § 934.50 (g) delete the reference "§ 904.66 (b)" and substitute therefor "§ 904.65 (b)".

10. Delete § 934.62 and substitute therefor the following:

§ 934.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 934.61 (b), 634.65, and 934.66, the market administrator shall promptly issue to the handler a charge bill or credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 934.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

11. In § 934.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the price of Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

12. In § 934.68 (e), delete the reference "§§ 934.69 and 934.70," and substitute therefor "§§ 934.70 and 934.71,".

13. In the first sentence of § 934.69 delete the words "25th day" and substitute therefor the words "23rd day".

14. Renumber §§ 934.69 through 934.72 as "§§ 934.70 through 934.73," respectively.

FALL RIVER

1. In §§ 947.50 and 947.53 delete the reference "New England Joint Tariff M No. 6" and substitute therefor the reference "New England Joint Tariff M No. 7."

2. Delete § 947.51 and substitute therefor the following:

§ 947.51 *Class II prices.* Each handler shall pay producers or cooperative associations for Class II milk containing 3.7 percent butterfat delivered by them to plants located within 100 miles of the City Hall in Fall River, not less than the Class II price determined for the month pursuant to § 904.41 of the order regulating the handling of milk in the Greater Boston marketing area (exclusive of any adjustment pursant to § 904.44 of such order) for Class II milk received from producers at plants located in the 201–210 freight mileage zone under such order, the amount of 5.8 cents: *Provided,* That the factor 5.8 cents shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof. The adjusted rate shall be computed by dividing such cream freight rate by 9.05, then multiplying by 1.03 and adjusting the result to the nearest one-tenth cent. Any such adjusted rate shall become effective in the first complete month in which such increase or decrease in the tariff applies.

3. In § 947.54 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the price of Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

4. In § 947.48 (b) (1) delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley."

SPRINGFIELD

1. Delete § 996.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

2. In § 996.27 (c) insert following the word "classified" the words "and priced".

3. In § 996.32 (a) delete the word "or" following the words "from one farm to another," as it appears in the first sentence and add following the words "to any of a handler's pool plants," the words "or starts delivering his milk to the handler's plant by tank truck,".

4. In § 996.40 and § 996.43 delete the reference "New England Joint Tariff M No. 6" and substitute therefor the reference "New England Joint Tariff M No. 7".

5. Delete § 996.41 and substitute therefor the following:

§ 996.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined by adding to the Class II price determined for the month pursuant to § 904.41 of the order regulating the handling of milk in the Greater Boston marketing area (exclusive of any adjustment pursuant to § 904.44 of such order) for Class II milk received from producers at plants located in the 201–210 freight mileage zone under such order, the amount of 5.8 cents: *Provided,* That the factor 5.8 cents shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof. The adjusted rate shall be computed by dividing such cream freight rate by 9.05, then multiplying by 1.03 and adjusting the result to the nearest one-tenth cent. Any such adjusted rate shall become effective in the first complete month in which such increase or decrease in the tariff applies.

6. In §§ 996.2 (e); 996.4 (f) (2); 996.16 (c), (d), and (e); 996.20 (c); 996.27 (b); 996.48 (b) (1); and 996.66, delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley."

7. Delete § 996.62 and substitute therefor the following:

§ 996.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator or reports of payments of any handler discloses an error in payments made pursuant to §§ 996.61 (b), 996.65, and 996.66, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23d day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 996.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

8. In § 996.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the price of Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

9. In the first sentence of § 996.70 delete the words "25th day" and substitute therefor the words "23d day".

WORCESTER

1. Delete § 999.3 (b) and substitute therefor the following:

(b) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms in cans, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers' farms by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

2. In §§ 999.2 (e); 999.4 (f) (2); 999.16 (c), (d), and (e); 999.20 (c); 999.27 (b); 999.48 (b) (1); and 999.66, delete the words "Lowell-Lawrence" and substitute therefor the words "Merrimack Valley".

3. In § 999.27 (c) insert following the word "classified" the words "and priced".

4. In § 999.32 (a) delete the word "or" following the words "from one farm to another," as it appears in the first sentence and add following the words "to any of a handler's pool plants," the words "or starts delivering his milk to the handler's plant by tank truck,".

5. In §§ 999.40 and 999.43 delete the reference "New England Joint Tariff M No. 6" and substitute therefor the reference "New England Joint Tariff M No. 7".

6. Delete § 999.41 and substitute therefor the following:

§ 999.41 *Class II price at city plants.* The Class II price per hundredweight at city plants shall be determined by adding to the Class II price determined for the month pursuant to § 904.41 of the order regulating the handling of milk in the Greater Boston marketing area (exclusive of any adjustment pursuant to § 904.44 of such order) for Class II milk received from producers at plants located in the 201–210 freight mileage zone under such order, the amount of 5.8 cents: *Provided,* That the factor 5.8 cents shall be increased or decreased to the extent of any increase or decrease in the rail tariff for the transportation of cream in 40-quart cans in carlots of 100–199 cans, as published in New England Joint Tariff M No. 7 and supplements thereto or revisions thereof. The adjusted rate shall be computed by dividing such cream freight rate by 9.05, then multiplying by 1.03 and adjusting the result to the nearest one-tenth cent. Any such adjusted rate shall become effective in the first complete month in which such increase or decrease in the tariff applies.

7. Delete § 999.50 (g).

8. Delete § 999.62 and substitute therefor the following:

§ 999.62 *Adjustments of errors in payments.* (a) Whenever verification by the market administrator of reports or payments of any handler discloses an error in payments made pursuant to §§ 999.61 (b), 999.65, and 999.66, the market administrator shall promptly issue to the handler a charge bill or a credit, as the case may be, for the amount of the error. Adjustment charge bills issued during the period from the 16th day of the prior month through the 15th day of the current month shall be payable by the handler to the market administrator on or before the 23rd day of the current month. Adjustment credits issued during such period shall be payable by the market administrator to the handler on

or before the 25th day of the current month.

(b) Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of an amount less than is required by § 999.61 (a), the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

9. In § 999.63 delete all of the language beginning with the second sentence and substitute therefor the following: "If the cream price described above is not reported as indicated the butterfat differential shall be determined by multiplying by 1.25 the price of Grade A (92 score) butter at wholesale in the Chicago market as reported for the period between the 16th day of the preceding month and the 15th day inclusive of the current month by the United States Department of Agriculture, and then dividing by 10."

10. In the first sentence of § 999.70 delete the words "25th day" and substitute therefor the words "23d day".

Issued at Washington, D. C., this 13th day of January 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

[F. R. Doc. 54-352; Filed, Jan. 18, 1954; 8:49 a. m.]

NOTICES

POST OFFICE DEPARTMENT

CHIEF POST OFFICE INSPECTOR AND ASSISTANT POSTMASTER GENERAL OF THE BUREAU OF TRANSPORTATION

DELEGATIONS OF AUTHORITY WITH RESPECT TO ISSUANCE OF AIR AND SURFACE TRAVEL [illegible]

The following is the text of Order No. 55503, dated January 7, 1954, delegating certain authority to the Assistant Postmaster General, Bureau of Transportation, and to the Chief Post Office Inspector, with respect to the issuance of air and surface travel commissions:

Pursuant to authority of section 1 (b) of Reorganization Plan No. 3 of 1949 (63 Stat. 1066), authority is hereby delegated as follows:

(1) To the Chief Post Office Inspector (including any person acting as such), to issue, in his own name, commissions necessary to authorize officers and employees of the Department to travel by surface transportation in the performance of their official duties;

(2) To the Assistant Postmaster General, Bureau of Transportation (including any person acting as such), to issue, in his own name, commission necessary to authorize officers and employees of the Department to travel by air in the performance of their official duties.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-205, 59-95]

NORTH AMERICAN CO. AND UNION ELECTRIC CO. OF MISSOURI

SUPPLEMENTAL ORDER PURSUANT TO INTERNAL REVENUE CODE

JANUARY 13, 1954.

In the matter of the North American Company, Union Electric Company of Missouri, File No. 54-205; the North American Company, File No. 59-95.

The Commission having issued its findings and opinion and order on October 31, 1952, approving a plan for the liquidation and dissolution of the North American Company ("North American"), pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"); said plan having been joined in to the extent necessary for its consummation by Union Electric Company of Missouri ("Union"); said plan, on December 11, 1952, having been ordered enforced by the United States District Court for the District of New Jersey; North American having on said date declared said plan to be effective as of January 20, 1953; said plan having become effective; North American having effected the initial partial liquidating distribution of shares of $10 par value common stock of Union to stockholders of North American on January 20, 1953, on the basis of one share of Union common stock with respect to each ten shares of North American common stock held of record on December 22, 1952;

It appearing that in connection with and as a part of the liquidation and dissolution of North American, as required by the plan, North American has proposed to make a second partial liquidating distribution of shares of $10 par value common stock of Union to stockholders of North American on January 21, 1954 on the basis of one share of Union common stock with respect to each ten shares of North American common stock held of record on December 21, 1953, and to pay cash in lieu of fractional shares of Union common stock at the rate of $23.125 per share of Union common stock;

It further appearing that in connection with such proposed distribution North American has surrendered to Union for conversion 796,124 shares of no par value common stock of Union and Union has issued and North American has received 796,124 shares of $10 par value common stock of Union upon such conversion as part of the securities required for distribution on January 21, 1954 to the common stockholders of North American;

It further appearing that the number of shares of $10 par value common stock of Union which will be required for distribution on January 21, 1954 has been determined to be 849,006; that an additional 52,882 shares of no par value common stock of Union must be presented by North American to Union for conversion into 52,882 shares of $10 par value common stock of Union; and that on January 21, 1954, pursuant to the plan, North American will distribute to the holders of its common stock of record on December 21, 1953, 849,006 shares of $10 par value common stock of Union and will pay cash in lieu of fractional shares of Union common stock aggregating 8,256.4 shares at the rate of $23.125 per share, such cash payments totaling $190,934.44 (after rounding fractions of a cent);

North American having requested the Commission to issue an appropriate order, with respect to said transactions, under Supplement R of Chapter 1 and section 1808 (f) of Chapter 11 of the Internal Revenue Code, as amended; and the Commission deeming it appropriate and in the public interest to grant such request;

It is hereby ordered and recited and the commission finds, That: (a) The proposed surrender by North American to Union of 52,882 shares of no par value common stock of Union, represented by certificate No. NC84, for conversion and the proposed issue by Union and the receipt by North American in exchange therefor upon such conversion of 52,882 shares of $10 par value common stock of Union, represented by certificate No. TNB644; and

(b) The proposed transfer and distribution to the holders of common stock of North American of record on December 21, 1953, by North American, of 849,006 shares of $10 par value common stock of Union represented by certificates Nos. TNB643 and TNB644, together with cash in lieu of fractional shares of Union common stock aggregating 8,256.4 shares, at the rate of $23.125 per share, such cash payments totaling $190,934.44 (after rounding fractions of a cent);

All in connection with and as part of the liquidation and dissolution of North American and as authorized or permitted by the order of this Commission of October 31, 1952, and, in obedience thereto, be executed and are necessary or appropriate to the integration or simplification required to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

It is further ordered, That jurisdiction be, and hereby is, reserved to enter such other or further orders conforming to the requirements of Supplement R of Chapter 1 and section 1808 (f) of Chapter 11 of the Internal Revenue Code, as amended.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2066]

NORTH AMERICAN CO. AND UNION ELECTRIC CO. OF MISSOURI

ORDER EXTENDING TIME FOR DISPOSITION OF CERTAIN INTERESTS

JANUARY 13, 1954.

Order extending time for disposition by Union Electric Company of Missouri of its interest in water properties and business of Missouri Power & Light Company.

The North American Company ("North American"), a registered holding company, and its public utility subsidiary, Union Electric Company of Missouri ("Union"), also a registered holding company, having filed a joint application-declaration and amendments thereto, pursuant to sections 6, 7, 9 (a), 10, 11 (b) (1) and 12 (d) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-23, U-43, U-44 and U-50 promulgated thereunder, with respect to the transfer by North American to Union of all of the outstanding common stock of Missouri Power & Light Company ("Missouri"), then a public utility subsidiary of North American;

The Commission, by order dated December 28, 1950, having granted and permitted to become effective said application-declaration, as amended, subject, among other things, to the following condition:

(1) That within six months after the receipt by Union of the Missouri common stock, or such further time as the Commission may grant upon good cause shown, Union shall cause the disposition of its interest in Missouri's water and ice properties and businesses and Missouri's electric properties located at Clinton, Missouri; and that North American shall cause Union to take such action;

The Commission having heretofore extended until December 31, 1953, the time for compliance with the aforesaid condition;

It appearing that Missouri has disposed of its ice properties located at Mexico, Missouri, and its electric properties located at Clinton, Missouri, and Union and Missouri, by letter dated December 11, 1953, having stated that they have been unable in the exercise of due diligence to dispose of Missouri's water properties at Excelsior Springs, Missouri, and Mexico, Missouri, and having represented that diligent efforts are being made to dispose of such properties and having requested the Commission to extend for an additional period, to June 30, 1954, the time in which to comply with the Commission's order of December 28, 1950; and

The Commission having considered such request and the reasons advanced in support thereof and deeming that the public interest and the interests of investors and consumers will not be affected adversely by granting such request;

It is ordered, That the time prescribed for compliance by Union and North American with the above-recited condition relating to the water properties and business of Missouri be, and hereby is, extended to June 30, 1954.

By the Commission.

[File No. 70-3063]

AMERICAN NATURAL GAS CO. AND MICHIGAN CONSOLIDATED GAS CO.

ORDER REGARDING PROPOSED ISSUANCE AND SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS

JANUARY 13, 1954.

The Commission, by order dated June 2, 1953, granted and permitted to become effective an application-declaration filed by American Natural Gas Company, a registered holding company, and its public-utility subsidiary Michigan Consolidated Gas Company ("Michigan Consolidated") pursuant to the Public Utility Holding Company Act of 1935 ("act") regarding, among other things, the issuance and sale by Michigan Consolidated of $20,000,000 principal amount of First Mortgage Bonds __ Percent Series due 1978 ("new bonds") subject to the condition that the issuance and sale of said bonds should not be consummated until the results of competitive bidding should have been made a matter of record in this proceeding.

Following publication of an Invitation for Bids, Michigan Consolidated received on June 15, 1953, at the time and place fixed for the opening of bids, only one bid for the aforesaid bonds. This bid was submitted by a group of bidders represented jointly by Halsey, Stuart & Co., Inc., Harriman, Ripley & Co., Incorporated, and Union Securities Corporation, and specified an interest rate of 5% and a price to Michigan Consolidated of 100.125% of the principal amount of the new bonds. The bid was rejected by Michigan Consolidated.

Michigan Consolidated having filed an amendment to its application-declaration in which it proposes to issue and sell new bonds as follows:

1. The Registration Statement heretofore filed under the Securities Act of 1933 with respect to the new bonds will be amended so as to reflect changes in the dating, maturity and other terms of the new bonds, and to bring up to date information concerning Michigan Consolidated reflected therein.

2. When the Registration Statement as so amended has become effective, and necessary authority has been obtained in this proceeding under the act, the Company proposes to issue an invitation to investment banking firms to submit bids for the new bonds, either on their own respective behalves or on behalf of groups represented by them respectively, such bids to be submitted on a date (within six weeks of the issuance of the invitation) to be fixed by the Company on not less than 45 hours prior notice by telegram to those so invited. Those invited to bid will include the representatives of the several groups which indicated an interest in the new bonds when earlier offered for competitive bids. Should the company be advised of other responsible prospective bidders, or of firms previously included in bidding groups who wish to bid under different arrangements, the invitation will be extended to them also. The terms and conditions relating to bids so invited will provide that acceptance of any bid shall be subject to the further approval of the Commission. Except as aforesaid, the proposed procedure, terms and conditions relating to bids, and purchase contract provisions, will conform to those customarily followed by Michigan Consolidated when operating pursuant to the requirements of Rule U-50.

Estimated fees and expenses aggregate $167,500 as follows:

SEC registration fee	$2,100
Federal revenue stamps	25,311
Michigan Public Service Commission fee	23,010
Printing and engraving	47,500
Trustee: Authentication and delivery fees and expenses	9,500
Accounting fee of Arthur Andersen & Co.	10,000
Fee of Ralph E. Davis, petroleum and natural gas engineer	5,000
Counsel fees:	
Dyer, Angell & Neek	13,000
Clare J. Hall	1,500
Clifford B. Langley	500
James W. Williams	500
Sidley, Austin, Burgess & Smith	17,500
Mortgage recording fees and title expense	2,500
Miscellaneous	9,579
Total	167,500

In addition, fees of Chadbourne, Hunt, Jaeckel & Brown, counsel for the prospective purchasers are estimated at $13,750.

Due notice having been given of the filing of the application-declaration and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective, forthwith, without the imposition of terms and conditions, other than those specified below, and finding that the fees and expenses as estimated, are not unreasonable:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, including the modified bidding procedure, be, and it hereby is, granted and permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3174]

PUBLIC SERVICE CO. OF OKLAHOMA

NOTICE OF FILING REGARDING SALE OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

JANUARY 13, 1954.

Notice is hereby given that an application has been filed with this Commission by Public Service Company of Oklahoma ("Oklahoma"), a public-utility subsidiary of Central and South West Corporation, a registered holding company. The applicant has designated section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Oklahoma proposes to issues and sell, at competitive biddings pursuant to Rule U-50 of the general rules and regulations of the Commission under the act, $12,500,000 in principal amount of its First Mortgage Bonds, Series E, __ percent, to be dated February 1, 1954, to mature February 1, 1984, and to be issued under and secured by the Indenture of Mortgage dated July 1, 1945, between the applicant and the First National Bank and Trust Company of Tulsa, as Trustee, as amended by the indentures supplemental thereto heretofore executed and by a proposed Supplemental Indenture to be dated February 1, 1954. The proposed Supplemental Indenture states the terms, provisions and characteristics of the bonds of Series E and supplements and amends said Indenture in certain related respects, and will confirm the lien of said Indenture on certain "after-acquired property" constructed or acquired by Oklahoma on or subsequent to March 1, 1953, and described therein.

The net proceeds (exclusive of accrued interest) to be received by applicant from the sale of the $12,500,000 principal amount of Series E Bonds proposed to be issued, will be used in payment or reimbursement of a part of the cost of additions, extensions and improvements made or to be made to its electric utility properties.

The filing states that the issuance and sale of the proposed bonds are subject to the jurisdiction of the Corporation Commission of Oklahoma, the State commission of the State in which Oklahoma is organized and doing business.

Applicant requests that this Commission's order to be entered herein become effective forthwith upon its issuance.

Notice is further given that any interested person may, not later than January 28, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 28, 1954, said application, as filed or as amended, may be granted as provided in Rules U-23 and U-50 of the rules and regulations promulgated under the act or the Commission may except such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-345; Filed, Jan. 18, 1954; 8:49 a. m.]

[File No. 24NY-3576]

APARTMENT OWNERS, INC.

NOTICE OF OPPORTUNITY FOR HEARING

JANUARY 13, 1954.

For the purpose of obtaining an exemption from the registration provisions of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder, Apartment Owners, Inc. (hereinafter referred to as the "corporation") filed with the Commission, on December 29, 1953, a notification on Form 1-A relating to a proposed offering of 2,920 shares of its 5 percent cumulative preferred stock of the par value of $100.00 per share and 2,920 shares of its common stock of the par value of $1.00 per share to be sold in units consisting of one share of such preferred stock and one share of such common stock at an offering price of $101.00 per unit; and

The Commission having reasonable cause to believe that the terms and conditions of said Regulation A have not been complied with, in that the notification on Form 1-A and the offering circular omit to state material facts necessary to make the statements made, in the light of the circumstances under which they are made, not misleading; and

The use of the offering circular as filed with the Commission in connection with any offering of the shares to which the notification relates would operate as a fraud or deceit upon the offerees thereof;

Notice is hereby given that the Commission has this day, pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, issued its order that the conditional exemption under Regulation A be denied.

Notice is further given that, upon receipt of a written request by any person having any interest therein, the Commission will set the matter down for hearing within twenty days after receipt of such request, at a place to be designated by the Commission, for the purpose of determining whether said order of denial shall be vacated, and that notice of the time and place for such hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-346; Filed, Jan. 18, 1954; 8:49 a. m.]

[File No. 812-861]

DIVERSIFIED FUNDS, INC.

NOTICE OF APPLICATION REQUESTING EXEMPTION REGARDING APPROVAL OF INVESTMENT ADVISORY CONTRACT, ELECTION OF DIRECTORS, AND ACQUISITION OF STOCK OF INVESTMENT COMPANY

Notice is hereby given that Diversified Funds, Inc., Elizabeth, New Jersey, a registered, open-end, diversified investment company, has filed an application pursuant to section 6 (c) of the act seeking an order exempting certain of the following proposed transactions from the provisions of sections 12 (d) (1), 15 (a) and 16 (a) of the act.

The Applicant's authorized capital consists of 15,001,000 shares of the par value of $1 per share, of which 1,000 shares are common stock and 15,000,000 are Special Stock issuable in series as established by resolutions of the board of directors. The receipts from the sale or issuance of each series of Special Stock, the securities in which these receipts are invested, and the income, profits and proceeds of these investments (called collectively the "underlying assets" of the series) are segregated on the books of the company, and the holders of shares in any series have no interest in the assets or income of any other series.

All the 1,000 shares of authorized common stock are outstanding and are held by the Applicant's principal underwriter and investment adviser, Hugh W. Long and Company, Incorporated, which purchased such shares at a price of $1 per share. The common stock is not offered for sale to the public. The common stock is not redeemable; the Special Stock is redeemable.

The designations of each series of Special Stock which is now issued by Applicant, the number of shares outstanding, and the aggregate net asset value of each such series as of November 30, 1953 are as follows:

Series designation	Number outstanding	Net asset value
Diversified investment fund	5,084,694	$37,107,954
Diversified common stock fund	1,081,770	8,029,432
Diversified growth stock fund	1,252,748	8,918,883

The Applicant has proposed a readjustment program pursuant to which Diversified Growth Stock Fund will operate as a new corporation with a single class of stock and Diversified Investment Fund and Diversified Common Stock Fund will be combined so that Applicant will have outstanding only a single class of stock. Under this readjustment program, which will require approval of the Applicant's shareholders, (1) the underlying assets of the series designated Diversified Growth Stock Fund will be transferred by Applicant to a new open-end investment company, Diversified Growth Stock Fund, Inc. ("New Company"), in exchange for shares of stock of New Company equal in number and net asset value to that of the shares of Diversified Growth Stock Fund outstanding on the date of exchange; (2) this stock of New Company will then be delivered by Applicant to the shareholders of Diversified Growth Stock Fund series on a share for share basis, in cancellation and redemption of that entire series; (3) the shares of Applicant's common stock and of its two series designated Diversified Investment Fund and Diversified Common Stock Fund will be reclassified, by an appropriate exchange of shares, upon the basis of relative net asset value, into a single class of new common stock with a par value of $1 per share; and (4) Applicant's name will be changed from Diversified Funds, Inc. to Diversified Investment Fund, Inc.

Under the proposal Hugh W. Long and Company, Incorporated, the present investment adviser and principal underwriter for the Applicant, will continue to act as principal underwriter for the Applicant following the change of its name to Diversified Investment Fund, Inc. and also will become principal underwriter for New Company. It will be proposed to the shareholders that each of these companies retain Investors Management Company, Inc. as investment adviser beginning April 1, 1954, the projected effective date of the proposals. It is also proposed that the same persons be elected as directors of New Company as will on the date of the election be directors of Applicant.

During the brief period when the Applicant will be the sole stockholder of New Company, Applicant intends to vote to approve the proposed investment advisory contract for New Company and to elect the board of directors proposed for it. Such voting action will be taken by Applicant only if it is authorized by a majority vote of the beneficial owners of the capital stock of New Company. Accordingly, the form of proxy to be submitted to the holders of Diversified Growth Stock Fund, in connection with the meeting of Applicant's shareholders at which action will be taken on the proposed readjustment, will provide means for giving such shareholders an opportunity to vote for or against granting the indicated authority with respect to the investment advisory contract and the election of directors.

The Applicant states that the present series structure unduly complicates the company's prospectus and its reporting, accounting and tax problems, and that it is expensive to maintain; and that, in its opinion, savings could be made and services to investors improved if the assets relating to each series were represented by a single class of stock of a separate company.

Section 12 (d) (1) of the act prohibits the acquisition by a registered investment company of more than 5 percent of the total outstanding voting stock of any other investment company if the policy of such other investment company is the concentration of investments in a particular industry or group of industries, or more than 3 percent of such stock if the policy is not so to concentrate. Applicant indicates that certain exceptions to this prohibition contained in this section may not be applicable to its proposed readjustment program. Section 15 (a) of the act prohibits any person from acting as investment adviser of a registered investment company, except pursuant to a written contract which contains certain provisions and has been approved by the vote of a majority of the outstanding voting securities of such company. Section 16 (a) of the act, with certain exceptions not pertinent here, prohibits any person from serving as a director of a registered investment company unless elected to that office by the holders of the outstanding voting securities of such company, at an annual or special meeting duly called for that purpose.

Notice is further given that any interested person may, not later than January 21, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

FEDERAL POWER COMMISSION

[Docket Nos. E-6534, E-6535]

MISSOURI PUBLIC SERVICE CO. AND EMPIRE DISTRICT ELECTRIC CO.

NOTICE OF ORDER AUTHORIZING DISPOSITION, AND ACQUISITION AND MERGER OR CONSOLIDATION OF FACILITIES

JANUARY 13, 1954.

In the matters of Missouri Public Service Company, Docket No. E-6534, the Empire District Electric Company, Docket No. E-6535.

Notice is hereby given that on January 8, 1954, the Federal Power Commission issued its order adopted January 6, 1954, in the above-entitled matters, authorizing the disposition of certain of the facilities of The Empire District Electric Company, Docket No. E-6535, and the acquisition and merger or consolidation of said facilities by Missouri Public Service Company, Docket No. E-6534.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-326; Filed, Jan. 18, 1954; 8:45 a. m.]

[Docket Nos. G-2253 and G-2336]

ALABAMA-TENNESSEE NATURAL GAS CO.

ORDER PERMITTING INTERVENTION AND GRANTING JOINT MOTION FOR CONSOLIDATION OF PROCEEDINGS AND POSTPONEMENT OF HEARING

On December 31, 1953, the Cities of Athens, Decatur, Florence, Hartselle, Huntsville, Sheffield, and Tuscumbia, Alabama, Corinth and Iuka, Mississippi, and Selmer, Tennessee, filed joint petitions seeking leave to intervene in the proceedings in Docket No. G-2253 and Docket No. G-2336.

On the same date said cities filed a joint motion to consolidate the proceedings in Docket No. G-2336 with the proceeding in Docket No. G-2253 for the purpose of hearing.

The Commission, by order issued September 24, 1953, at Docket No. G-2253, suspended and deferred the use of certain tariff sheets filed by Alabama-Tennessee Natural Gas Company (Alabama-Tennessee) proposing an increase in rates and charges to its wholesale customers, and ordered a public hearing to be held on February 24, 1954.

By order issued December 17, 1953, the Commission, at Docket No. G-2336, suspended and deferred the use of certain tariff sheets filed by Alabama-Tennessee proposing to change its general service rate schedules by instituting penalty charges for unauthorized overruns of the contracted maximum daily delivery obligations.

The aforesaid cities purchase their entire natural gas requirements from Alabama-Tennessee. They allege in their motion, among other things, that the two proceedings involve the common question of law concerning the lawfulness of the rates and charges proposed by Alabama-Tennessee as they may be reflected in the cost of gas purchased by the cities. It is also alleged that since they intend to participate actively in the hearings the convenience of the cities will be greatly served by consolidation of the proceedings for hearing.

By telegram dated January 5, 1954, Alabama-Tennessee advised the Commission of its concurrence in the joint motion for consolidation of the proceedings and postponement of the hearing date in Docket No. G-2336.

The Commission finds:

(1) The participation of the above-named cities in the proceedings in Docket Nos. G-2253 and G-2336 may be in the public interest.

(2) Good cause exists for consolidating the proceedings involved in Docket No. G-2336 with those involved in Docket No. G-2253 for purposes of hearing and decision thereof, and for postponement of the hearing in Docket No. G-2336 to the date presently fixed for Docket No. G-2253, as hereinafter ordered.

The Commission orders:

(A) The above-named cities be and the same hereby are permitted to become interveners in these proceedings, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests specifically set forth in the joint petitions for leave to intervene: *And provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in these proceedings.

(B) The proceedings involved in Docket Nos. G–2253 and G–2336 be and they hereby are consolidated for purpose of hearing and the public hearing in the consolidated proceedings shall be held on February 24, 1954, at the same time and place designated in the order of the Commission issued September 24, 1953, at docket No. G–2253.

(C) In all other respects the orders issued September 24 and December 17, 1953, at Docket Nos. G–2253 and G–2336, respectively, shall remain in full force and effect.

Adopted: January 13, 1954.

Issued: January 13, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54–338; Filed, Jan. 18, 1954; 8:47 a. m.]

[Docket No. G–2279]

EL PASO NATURAL GAS CO.

ORDER FIXING DATE OF HEARING

On October 15, 1953, El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business at El Paso, Texas, filed an application and a supplement thereto on November 19, 1953, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission pipe-line facilities, subject to the jurisdiction of the Commission, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that the application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 3, 1953 (18 F. R. 6949).

(2) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on January 25, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved and the issues presented by the application herein: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 13, 1954.

Issued: January 13, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28825]

VARIOUS COMMODITIES BETWEEN POINTS IN TEXAS

APPLICATION FOR RELIEF

JANUARY 14, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for carriers parties to schedule listed below:

Commodities involved: Coffee, extract of, sewer pipe and fittings, castor pomace, etc., carloads.

Between: Points in Texas.

Grounds for relief: Rail competition, circuity, and to meet intrastate rates.

Schedules filed containing proposed rates: Lee Douglass, Agent, I. C. C. No. 807, supp. 36.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28826]

CANNED GOODS FROM TEXAS TO LOUISIANA

APPLICATION FOR RELIEF

JANUARY 14, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for carriers parties to schedule listed below.

Commodities involved: Canned goods, carloads.

From: Points in Texas.

To: Points in Louisiana.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula and additional destinations.

Schedules filed containing proposed rates: Lee Douglass, Agent, I. C. C. No. 802, supp. 38.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28827]

PETROLEUM PRODUCTS BETWEEN POINTS IN LOUISIANA

APPLICATION FOR RELIEF

JANUARY 17, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Agent, for carriers parties to his tariff I. C. C. No. 779.

Commodities involved: Petroleum products, in carloads.

Between: Points in Louisiana.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28828]

LIQUEFIED CHLORINE GAS FROM BATON ROUGE, LA., MEMPHIS, TENN., AND CALVERT, KY., TO CINCINNATI, OHIO, AND LOUISVILLE, KY.

APPLICATION FOR RELIEF

JANUARY 14, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent for carriers parties to schedules listed below.

Commodities involved: Liquefied chlorine gas, in tank-car loads.

From: Baton Rouge, La., Memphis, Tenn., and Calvert, Ky.

To: Cincinnati, Ohio, and Louisville, Ky.

Grounds for relief: Rail competition, circuity, and market competition.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1351, supp. 45; W. P. Emerson, Agent, I. C. C. No. 417, supp. 43.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 28829]

LIQUID WOOD PRESERVATIVES FROM SOUTHERN, ILLINOIS, SOUTHWESTERN AND WESTERN TRUNK-LINE TERRITORIES AND WESTERN CANADA TO PACIFIC COAST TERRITORY

APPLICATION FOR RELIEF

JANUARY 14, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Wood preservatives, liquid, (with chlorinated phenal base or petroleum base), carloads and less-than-carload.

From: Points in southern, Illinois, southwestern and western trunk-line territories, and western Canada.

To: Pacific Coast territory.

Ground for relief: Rail competition, circuity, competition with motor carriers, and to maintain grouping.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. 1559, supp. 10.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. PAPER AND PAPER ARTICLES FROM SOUTHWEST TO WESTERN TRUNK-LINE TERRITORY

APPLICATION FOR RELIEF

JANUARY 14, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Paper and paper articles, carloads.

From: Specified points in Arkansas, Louisiana, Oklahoma, and Texas.

To: Points in western trunk-line territory.

Grounds for relief: Rail competition, circuity, and additional routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4038, supp. 13.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 28—COTTON STANDARDS

CHANGES IN COTTON CLASSIFICATION SERVICES

Pursuant to authority contained in section 10 of the United States Cotton Standards Act (42 Stat. 1519; 7 U. S. C. 61), section 205 (b) of the Agricultural Marketing Act of 1946 (60 Stat. 1090; 7 U. S. C. 1624 (b), and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953), Part 28 is hereby amended to provide (1) revisions of certain sections of Subpart A relating to cotton classification services and cotton standards, (2) a new Subpart B with regulations for the classification of foreign growth cotton, and (3) redesignation of the present Subparts B and C.

The amendments to Subpart A provide for cotton classification and the issuance of Form A cotton classification memoranda on samples freshly drawn and submitted direct from a public warehouse at the request of the owner of the cotton or his agent. They also provide a new Form D classification service for samples submitted direct from the owner of the cotton or his agent. Requests for Form A determinations must be filed with the board of cotton examiners serving the territory in which the cotton is located but requests for Form D determinations may be filed with the board serving the territory in which the samples are located. Not more than one request for a Form A or Form D determination on the same cotton, except a request for a review of a Form A determination, may be filed by the same owner within any 30-day period. Form D determinations will not be subject to review. Requests for reviews of Form A determinations must be filed within 30 days after the issuance of the original Form A classification memorandum. Requests for original Form A or Form D determinations may not be filed with the Appeal Board of Review Examiners at Washington, D. C., or the Memphis Committee of the Appeal Board since boards of cotton examiners are located at both Washington and Memphis to handle such requests. In addition, the amendment clarifies the language of certain sections and provides for disposal of the original and reserve sets of official cotton standards after specified periods.

The new Subpart B provides regulations for the classification and issuance of classification memoranda on samples from cotton produced outside the continental United States. Such samples will be classed according to the universal standards for American cotton or other official cotton standards of the United States.

It is hereby found that it would be impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rulemaking

procedures in respect to the amendment or delay the effective date thereof for the reasons that (1) it does not require any preparation on the part of applicants for the service, (2) it is largely a matter of administration of the services provided under the cotton classification program, (3) all cotton classification services heretofore rendered will be continued and additional classification service is provided, including a new classing service for samples from foreign growth cotton, and (4) requests for the new services are currently in demand and delay in establishing the services would serve no useful purpose. The amendment hereinafter set forth is to become effective upon publication in the FEDERAL REGISTER.

1. Section 28.12 is amended to read:

§ 28.12 *Classification and comparison; requests.* For each lot or mark of cotton which the applicant desires classified or compared separately he shall make a written request specifying which one of the following four forms of service is desired:

(a) *Form A determination.* The classification or comparison of samples freshly drawn and submitted to a board of cotton examiners direct from a public warehouse, at the request of the owner of the cotton or his agent. Such classification or comparison shall be evidenced by a Form A memorandum which shall be subject to review as provided in § 28.58.

(b) *Form B determination.* The classification or comparison of samples submitted by mutual agreement of two or more parties to a dispute. The classification or comparison in such cases shall be evidenced by a Form B certificate which shall be subject to review as provided in § 28.58.

(c) *Form C determination.* The classification of bales of cotton, to be sampled under the supervision of a supervisor of inspection. The classification in such cases shall be evidenced by a Form C certificate which shall be subject to review as provided in § 28.58.

(d) *Form D determination.* The classification or comparison of samples submitted by the owner of the cotton or his agent. Such classification or comparison shall be evidenced by a Form D memorandum which shall not be subject to review.

2. Section 28.15 is amended to read:

§ 28.15 *Filing of requests for classification or comparison.* All requests for classification or comparison leading to Form A memoranda, Form D memoranda, and Form B certificates shall be filed with the secretary of the board which serves the territory in which the cotton is located: *Provided*, That (a) requests for Form B determinations may, where desired, be filed directly with the Appeal Board of Review Examiners located at Washington, D. C., or with any committee of such Appeal Board, and (b) requests for Form D determinations may be filed with the secretary of the board which serves the territory in which the samples are located. Samples which are submitted to any board for classification or comparison may be referred by such board to another board for classification or comparison.

3. Section 28.18 is amended to read:

§ 28.18 *One request only for classification.* Not more than one request for the classification and/or comparison of the same cotton, except a request for a review determination, shall be filed by the same owner within any 30-day period. Any subsequent request shall be accompanied by redrawn samples and the chairman of the board may require that any Form A or Form D memoranda previously issued with respect to samples purporting to represent the same cotton shall be returned before such redrawn samples are classed.

4. The undesignated center head immediately preceding § 28.20 is amended to read "Submission and Disposition of Samples for Form A, Form B, and Form D Determinations".

5. Section 28.20 is amended to read:

§ 28.20 *Submission of samples.* Samples of cotton submitted to a board of cotton examiners for classification and/or comparison shall be drawn from both sides of the bale and shall be delivered to the secretary of the Board with which the request was filed, as soon as possible after the filing of such request. Samples submitted for classification and/or comparison leading to a Form A memorandum shall be drawn under the supervision of a public warehouseman and shall be delivered immediately to the secretary of the Board by such warehouseman. All transportation charges incident to the submission of samples for Form A, Form B, and Form D determinations shall be prepaid by the party making the request or his agent.

6. Section 28.23 is amended to read:

§ 28.23 *Disposal of samples.* When so stipulated in the classification request for a Form A or Form D determination, the samples submitted shall be returned to the person making the request, at his expense, at the time the memorandum is issued or when the request for classification is withdrawn or rejected. Samples not returned shall be disposed of in accordance with § 28.25.

7. Section 28.26 is amended to read:

§ 28.26 *Cotton; method of submitting to Secretary.* All bales of cotton submitted to the Secretary or to his duly authorized reperesentatives for the purpose of classification or certification in accordance with section 4 of the act (42 Stat. 1517; 7 U. S. C. 54) and the issuance of a Form C certificate shall be submitted in accordance with §§ 28.26 to 28.37.

8. Section 28.39 is amended to read:

§ 28.39 *Order of classification.* All samples for which classification requests are pending shall be classified, as far as practicable, in the order in which the samples are delivered for classification. When in the opinion of the chairman of the board an emergency exists, he shall designate which samples will be given priority in classification.

9. Section 28.51 is amended to read:

§ 2851 *Issuance of memoranda and certificates.* As soon as practicable after the classification of cotton has been completed by a board of cotton examiners, there shall be issued a cotton class memorandum or certificate of the appropriate kind showing the results of such classification.

10. Section 28.52 is amended to read:

§ 28.52 *Form A and Form D memoranda.* (a) When a classification and/or comparison has been made of any samples submitted to a board of cotton examiners direct from a public warehouse, the results of such classification and/or comparison may be stated in a Form A memorandum.

(b) When a classification and/or comparison has been made of any samples submitted by the owner of the cotton or his agent, the results of such classification and/or comparison may be stated in a Form D memorandum.

(c) Form A and Form D memoranda shall not be deemed to be final certificates within the meaning of section 4 of the act (42 Stat. 1517; 7 U. S. C. 54).

11. Section 28.55 is amended to read:

§ 28.55 *New memorandum or certificate; issuance.* Upon the written request of a holder of a cotton class memorandum or certificate issued under this subpart, a new memorandum or certificate shall be issued, without the reclassification of the cotton, to take the place of the former memorandum or certificate for any cotton covered thereby, when necessary on account of the breaking or splitting of a lot or otherwise for the business convenience of such holder: *Provided*, That in any case where a part of a lot of cotton for which a Form C certificate has been issued is removed from the certificated stock of any market the chairman of the board of cotton examiners or the supervisor of inspection may upon request cancel from said certificate the bales so removed. In any case where a new memorandum or certificate is requested in accordance with this section the former memorandum or certificate shall be surrendered for cancellation, and such new memorandum or certificate shall bear a new number and the date of its issuance and the date of original classification and shall otherwise comply with this subpart.

12. Section 28.56 is amended to read:

§ 28.56 *Lost memorandum or certificate may be replaced by duplicate.* Upon the written request of the last holder of a valid Form A or Form D memorandum, Form B certificate, or Form C certificate and a showing to the satisfaction of the chairman of the board which issued such memorandum or certificate that it has been lost or destroyed and, if lost, that diligent effort has been made to find it without success, a new memorandum or certificate shall be issued without the reclassification of the cotton. Such new memorandum or certificate shall bear the same number and date of issuance as the lost or destroyed memorandum or certificate and shall include a statement to the effect that it is a duplicate issued in lieu of the lost or destroyed original, as the case may be.

13. Section 28.57 is amended to read:

§ 28.57 *Surrender of memoranda or certificates.* For good cause any memorandum or certificate issued under §§ 28.51 to 28.56 shall be surrendered to the chairman of the board which issued it, upon his request or upon the request of the Administrator. A new memorandum or certificate complying with this subpart may be issued in substitution therefor. If such memorandum or certificate be not surrendered upon such request, it shall nevertheless be invalid for the purposes of the act and this subpart.

14. Section 28.58 is amended by adding the following sentence at the end of the section: "Classifications or comparisons represented by Form D memoranda shall not be subject to review."

15. Section 28.59 is amended to read:

§ 28.59 *Form A memorandum; review.* A review of any Form A determination may be requested by the owner or custodian of the cotton from which the sample was drawn within 30 days after the issuance of the original memorandum. Such request may be filed with, and the review made by, the board which issued such memorandum or the Appeal

Board of Review Examiners. Redrawn samples shall be required except in cases where the original samples have remained, identity preserved, in the custody of the aforesaid board or Appeal Board. When redrawn samples are necessary, they shall be drawn and submitted in accordance with § 28.20. As evidence of a review determination, a Form A memorandum appropriately marked to indicate that it represents a review determination shall be issued to the applicant requesting the review. The applicant may be required by the board or Appeal Board issuing such review determination to surrender the original classification memorandum.

16. Section 28.64 is amended to read:

§ 28.64 *Change of classification, only for error.* The classification of any bale shown by the original cotton class memorandum or certificate shall be changed only when it shall appear that such classification was clearly erroneous.

17. Section 28.117 (a) is amended by adding the following sentence immediately after the second sentence: "Such containers shall remain in the custody of the Administrator until the original standards contained therein are superseded by new or revised standards."

18. The last three sentences of § 28.117 (c) are amended to read as follows: "The first reserve set of the preceding 3-year period shall then be again sealed and shall remain in the custody of the Administrator. If, upon the opening and examination of the first reserve set as herein provided, it shall appear that such set has undergone any substantial change, the second reserve set shall, for the purposes of this paragraph, be used in its stead. The first and second reserve sets of each 3-year period shall be retained by the Administration until the original standards which they represent have been superseded by new or revised standards."

19. Section 28.119 (c) is amended by deleting the last sentence.

20. The headnote and first sentence of § 28.120 is amended to read:

§ 28.120 *Fee for new memorandum or certificate.* For each new memorandum or certificate issued in substitution for a prior memorandum or certificate at the request of the holder thereof, on account of the breaking or splitting of the lot of cotton covered thereby or otherwise for his business convenience, the person requesting such substitution shall pay a fee of 25 cents when the number of bales covered by the new memorandum or certificate is 10 or less, or a fee of 50 cents when the number of bales covered by such memorandum or certificate is more than 10.

(Sec. 10, 42 Stat. 1519; 7 U. S. C. 61)

21. Redesignate the present Subpart B as Subpart C, redesignate the present Subpart C as Subpart D, and insert a new Subpart B to read as follows:

SUBPART B—COTTON CLASSIFICATION FOR FOREIGN GROWTH COTTON

Sec.
28.175 Administrative and general.
28.176 Requests for classification and comparison.
28.177 Submission of samples.
28.178 Methods of classification and comparison.
28.179 Issuance of classification memoranda.
28.180 Review of classification.
28.181 Surrender of memoranda.
28.182 Fees and costs; payment.

AUTHORITY: §§ 28.175 to 28.182 issued under sec. 205, 60 Stat. 1090, Pub. Law 156, 83d Cong.; 7 U. S. C. 1624.

§ 28.175 *Administrative and general.* Insofar as applicable, and not inconsistent with §§ 28.175 to 28.182, the provisions of subpart A of this part relating to the organization and functions of boards of cotton examiners; requests for classification and comparison; submission and disposition of samples in Form A and Form B determinations; classification; sample and type comparison; certificates and memoranda; reviews; and fees and costs, shall likewise apply to the classification and comparison of cotton produced outside the continental United States: *Provided*, That the classification of such cotton shall be according to the universal standards or other official cotton standards of the United States in effect at the time of such classification.

§ 28.176 *Requests for classification and comparison.* The applicant shall make a separate written request, on a form supplied by the Administration, for each lot or mark of cotton which he desires classified or compared separately. The same applicant shall not file more than one request for the classification or comparison of the same cotton within any 30-day period except for a review classification or comparison as provided in § 28.180. All requests for classification or comparison in the United States shall be filed with the Board of Cotton Examiners which serves the territory in which the samples are located. The chairman of such board may refer any request and the samples submitted to another board or to the Appeal Board of Review Examiners for classification or comparison.

§ 28.177 *Submission of samples.* Samples of cotton submitted to a board of cotton examiners for classification and/or comparison shall be drawn from both sides of the bale and shall be delivered to the secretary of the board with which the request was filed, as soon as possible after the filing of such request. All such samples shall be inclosed in one or more wrappers, which shall be labeled or marked, or both, in such manner as to show the name and address of the owner, the lot number or marks, if any, the number of bales represented by the samples in each wrapper, and such other information as may be necessary in accordance with the instructions of the chairman of the board. All transportation charges incident to the submission of samples shall be prepaid by the party making the request or his agent.

§ 28.178 *Methods of classification and comparison.* The classification of samples from cotton produced outside the continental United States shall be according to the universal standards or other official cotton standards of the United States in effect at the time. When a comparison of such cotton samples with other actual samples or with a type is requested, the procedure and methods shall be as outlined in §§ 28.45 to 28.50 of this chapter.

§ 28.179 *Issuance of classification memoranda.* As soon as practicable after the classification or comparison of cotton has been completed by a board of cotton examiners, there shall be issued a cotton classification memorandum which shall embody within its written or printed terms:

(a) The results of the classification or comparison.

(b) The name of the country in which the cotton was produced.

(c) The source from which the samples were received for classification.

(d) A statement that any classification made has been according to the universal standards or other official cotton standards of the United States in effect at the time of such classification.

(e) The signature of the Chairman of the Board, the location of the Board, and the date of issuance of the memorandum.

§ 28.180 *Review of classification.* A review of any classification or comparison made pursuant to § 28.179 may be requested by the owner or custodian of the cotton from which the sample was drawn within 30 days after the issuance of the original memorandum. Such request, accompanied by the original memorandum, may be filed with either the board which issued the original memorandum or the Appeal Board of Review Examiners. Redrawn samples shall be required except in cases where the original samples have remained, identity preserved, in the custody of the board which issued the original memorandum. As evidence of any review determination, a classification memorandum marked to indicate that it represents a review determination shall be issued to the applicant requesting the review.

§ 28.181 *Surrender of memoranda.* For good cause any memorandum issued under §§ 28.179 to 28.180 shall be surrendered to the chairman of the board which issued it, upon his request or upon the request of the Administrator, and a new memorandum complying with this subpart issued in substitution therefor If the memorandum be not surrendered upon such request, it shall nevertheless be invalid for the purposes of this subpart.

§ 28.182 *Fees and costs; payment.* The provisions of §§ 28.118 to 28.128 relating to fees, costs, and method of payment shall apply to services performed with respect to cotton produced outside the continental United States.

Done at Washington, D. C., this 15th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-382; Filed, Jan. 19, 1954; 8:50 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 17]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

DESIGNATION OF AREAS IN WHICH SWINE ARE AFFECTED WITH VESICULAR EXANTHEMA

Pursuant to the authority conferred upon the Administrator of the Agricultural Research Service by § 76.27 of Subpart B, as amended, Part 76, Title 9, Code of Federal Regulations (18 F. R. 3637), § 76.27a of said Subpart B (18 F. R. 3829, as amended) is hereby amended to read as follows:

§ 76.27a *Designation of areas in which swine are affected with vesicular exanthema.* The following areas are hereby designated as areas in which swine are affected with vesicular exanthema:

The State of California;

The Town of Manchester in Hartford County, in Connecticut;

The Town of Lewiston in Androscoggin County, that area consisting of the Towns of Portland, South Portland, Westbrook, Cape Elizabeth and Scarboro, in Cumberland County, and the Towns of Saco, Biddeford, Kennebunk, Alfred and Sanford in York County, that area consisting of the Towns of Cumberland and Yarmouth, in Cumberland County, and that area consisting of the Towns of Chelsea and Hallowell in Kennebec County, in Maine;

That area consisting of Hampden, Worcester, Middlesex, Essex, Suffolk, Norfolk, Bristol, and Plymouth Counties, in Massachusetts;

Atlantic, Bergen, Camden, Gloucester, Hudson, Hunterdon, and Morris Counties, that area consisting of Union, Middlesex, Monmouth, and Ocean Counties, that area in Lower Township in Cape May County lying east of U. S. Highway No. 9, that area in Dennis Township in Cape May County bounded by the Belleplain State Forest on the south and east and State Highway No. 550 on the north and west and State Highway Spur No. 550 on the west, and all of Burlington County except Delran, Washington, Shamong, Tabernacle, and Bass River Townships, in New Jersey;

The Town of Poland in Chautauqua County, the Town of Poughkeepsie in Dutchess County, and that area in the Town of Clarkstown lying north of New York State Route No. 59 in Rockland County, in New York;

Bucks and Delaware Counties, in Pennsylvania.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes from the areas heretofore designated as areas in which swine are affected with vesicular exanthema:

Eagle Township in Clinton County, Oneida and Roxand Townships in Eaton County, and Danby Township in Ionia County, in Michigan;

That area in Bell County lying north of U. S. Highway No. 190 and west of State Highways No. 36 and No. 317, in Texas.

The Administrator of the Agricultural Research Service has determined that swine in these areas are not now affected with the disease, and that the quarantine of such areas is no longer required to prevent the dissemination thereof. Accordingly, these areas are no longer quarantined under said § 76.27, and the restrictions pertaining to the interstate movement of swine and carcasses, parts and offal of swine from or through quarantined areas contained in 9 CFR Part 76, Subpart B, as amended (18 F. R. 3636, as amended), no longer apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas contained in said Subpart B, as amended, apply thereto.

The effect of the amendment is to relieve certain restrictions presently imposed. The amendment must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended; sec 2, 32 Stat. 792, as amended; secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 128, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 15th day of January 1954.

[SEAL] M. R. CLARKSON,
Agricultural Research Service.

[F. R. Doc. 54-384; Filed, Jan. 19, 1954; 8:51 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 5]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

NEW EFFECTIVE DATE FOR CAA RULES, INTERPRETATIONS, AND POLICIES

In Civil Air Regulations Amendment 40-2, published on December 30, 1953, in 18 F. R. 8865, the Civil Aeronautics Board changed the effective date of revised Part 40 from January 1, 1954, to April 1, 1954.

In Special Regulation 393B, published on December 30, 1953, in 18 F. R. 8866, the Civil Aeronautics Board provided that the Administrator of Civil Aeronautics may, upon application, amend the operations specifications of an air carrier coming under the provisions of § 40.1 of revised Part 40, to authorize such air carrier to operate, prior to April 1, 1954, in compliance with selected provisions of revised Part 40 in lieu of the equivalent provisions of presently effective Parts 40 and 61.

Therefore, the concluding paragraphs of Supplement 1 to revised Part 40, published on October 17, 1953, in 18 F. R. 6622, Supplement 2 to revised Part 40, published on November 11, 1953, in 18 F. R. 7164, Supplement 3 to revised Part 40, published on December 24, 1953, in 18 F. R. 8684, and Supplement 4 to revised Part 40, published on December 22, 1953, in 18 F. R. 8612, are amended to read:

This supplement shall become effective April 1, 1954. However, under Special Regulation 393B, published on December 30, 1953, in 18 F. R. 8866, the Administrator may, upon application, amend the operations specifications of an air carrier coming under the provisions of Part 40 effective April 15, 1954, to authorize such air carrier to operate prior to April 1, 1954, in compliance with selected provisions of Part 40 effective April 1, 1954, in lieu of the equivalent provisions of presently effective Parts 40 and 61.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 36—UNMAILABLE MATTER

MAILING OF PISTOLS, REVOLVERS, AND OTHER FIREARMS

In § 36.12 *Mailing of pistols, revolvers, and other firearms,* amend paragraph (i) to read as follows:

(i) *For manufacturers and dealers—(1) Between manufacturers and dealers.* Parcels containing unloaded firearms properly prepared for mailing may be conveyed in the mails to manufacturers of firearms or bona fide dealers therein in customary trade shipments, including such articles for repairs or replacement of parts, from one to the other. At the time such parcels are presented for mailing there shall be filed with the postmaster a statement signed by the sender that he is a manufacturer of firearms or that he is a bona fide dealer therein and that the parcels are customary trade shipments or contain such articles for repairs or replacement of parts and that to the best of his knowledge and belief the addressees are manufacturers of firearms or bona fide dealers therein. If satisfied that the sender is a manufacturer of firearms or a bona fide dealer therein, the postmaster shall accept the parcel for mailing.

(2) *To manufacturers and dealers, by others.* Parcels containing unloaded firearms properly prepared for mailing may be conveyed in the mails to manufacturers of firearms or bona fide dealers therein for purposes of repair, replacement of parts, or other trade adjustment, when sent by persons entitled to receive such firearms under the provisions of paragraphs (d), (e), and (f) of

this section: *Provided*, That the use of the firearms by sender is as required by those paragraphs. At the time such parcels are prepared for mailing there shall be filed with the postmaster, by the senders or their agents, statements and affidavits of the same character as required by the aforementioned paragraphs of this section to be furnished in connection with firearms mailings to such senders, respectively, the statement also to be made to the postmaster that the firearms are being sent for repair, replacement of parts, or other trade adjustment, and that to the best of the senders' knowledge and belief, the addressees are manufacturers of firearms or bona fide dealers therein.

(3) Before making delivery of any parcels mailed under subparagraphs (1) and (2) of this paragraph, the postmaster at the office of address shall satisfy himself that the addressee is a manufacturer of firearms or a bona fide dealer therein.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 1, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1715)

[SEAL] LOUIS J. DOYLE,
Acting Solicitor.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

ORDER AMENDING ORDER PERMITTING THE KILLING OF WATERFOWL OR COOT IN AGRICULTURAL AREAS OF CALIFORNIA

Paragraphs numbered 1 *Coot* and 3 *Method of killing* of the order permitting the killing of waterfowl or coot in agricultural areas of California, dated January 6, 1954 (19 F. R. 173), are hereby amended to read as follows:

1. Coot may be killed in the counties of Alameda, Butte, Colusa, Contra Costa, Fresno, Glenn, Imperial, Kern, Kings, Los Angeles, Madera, Marin, Merced, Monterey, Orange, Placer, Sacramento, San Diego, San Joaquin, Solano, Stanislaus, Sutter, Tulare, Ventura, Yolo, and Yuba.

* * * * *

3. Method of killing: Coot and widgeon may be taken only by shooting with a shotgun not larger than No. 10 gage fired from the shoulder.

(Sec. 3, 40 Stat. 755, as amended; 16 U. S. C. 704)

Dated: January 12, 1954.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

GREEN ASPARAGUS

UNITED STATES STANDARDS FOR CANNING OR FREEZING [1]

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised United States Standards for Green Asparagus for Canning or Freezing under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953) to supersede the existing United States Standards for Green Asparagus for Canning or Freezing effective December 22, 1937.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t., on the thirtieth day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

GRADES

Sec.
51.2335 U. S. No. 1.
51.2336 U. S. No. 2.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetics Act.

CULLS

Sec.
51.2337 Culls.

BUTTS

51.2338 Butts.

DIAMETER CLASSIFICATIONS

51.2339 Diameter classifications.

DEFINITIONS

51.2340 Fresh.
51.2341 Fairly well formed.
51.2342 Damage.
51.2343 Diameter.
51.2344 Green color.
51.2345 Badly deformed.
51.2346 Serious damage.

GRADES

§ 51.2335 *U. S. No. 1.* U. S. No. 1 consists of spears of asparagus which are fresh, fairly well formed, and which are free from decay and free from damage caused by broken tips, spreading tips, dirt, discoloration, doubles, freezing, hail, scars, disease, beetles or other insects, or mechanical or other means.

(a) Unless otherwise specified, each spear shall be not less than three-eights inch in diameter, the length shall not exceed 7 inches, and the spear shall have a green color extending at least 5 inches below the extreme tip. (See §§ 51.2338 and 51.2339.)

§ 51.2336 *U. S. No. 2.* U. S. No. 2 consists of spears of asparagus which are fresh, not badly deformed, and which are free from decay and free from damage caused by dirt, and free from serious damage caused by broken tips, spreading tips, discoloration, freezing, scars, disease, beetles or other insects, or mechanical or other means.

(a) Unless otherwise specified, each spear shall be not less than three-eighths inch in diameter, the length shall not exceed 7 inches, and the spear shall have a green color extending at least 3 inches below the extreme tip. (See §§ 51.2338 and 51.2339.)

CULLS

§ 51.2337 *Culls.* Culls consist of spears of asparagus which do not meet the requirements of either of the foregoing grades.

BUTTS

§ 51.2338 *Butts.* That portion of the spear that is in excess of the maximum length specified shall be classified as a butt; and if a contract between processor and grower restricts the amount of white on a spear, the white in excess of the amount specified shall also be classified as a butt; and in either case the remaining portion of the spear shall be considered as meeting the grade requirements in regard to these factors.

DIAMETER CLASSIFICATIONS

§ 51.2339 *Diameter classifications.* (a) The following terms are provided for describing the diameter of the spears:

Small—¼ inch to less than ⅜ inch in diameter.
Medium—⅜ inch to less than ⅝ inch in diameter.
Large—⅝ inch and larger in diameter.

(b) Other sizes may be specified by agreement between the grower and processor in terms of minimum diameter, or in terms of minimum and maximum diameters expressed in fractions of an inch.

DEFINITIONS

§ 51.2340 *Fresh.* "Fresh" means that the spear is not badly wilted, limp or flabby.

§ 51.2341 *Fairly well formed.* "Fairly well formed" means that the spear is not badly flattened, crooked, or otherwise so badly deformed that its canning or freezing quality is materially affected.

§ 51.2342 *Damage.* "Damage" means any defect which more than slightly affects the canning or freezing quality of the upper 5 inches of the spear, or which materially affects the canning or freezing quality of the remaining portion of the spear, exclusive of the butt. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Broken tips when two or more branchlets are broken or missing from the tip, or when the shape or general appearance of the spear is more than slightly affected by the absence of the extreme tip branchlet;

(b) Spreading tips when so spread or branched that the appearance is more than slightly affected, or the tips have a "seedy" appearance which more than slightly affects the canning or freezing quality;

(c) Dirt or sand which is so imbedded in the tip or under the bracts on the upper 5 inches of the spear that it cannot be removed in the ordinary process of washing. Dirt or sand which occurs on the remaining portion of the spear shall not be considered as damage;

(d) Discoloration when more than 4 bracts are discolored, or when more than 2 bracts on the upper 5 inches of the spear are discolored;

(e) Doubles when the appearance of the upper 5 inches of the spear is more than slightly affected, or when there is a hollow opening in the center portion greater in area than that of a circle one-eighth inch in diameter measured 5 inches from the extreme tip. Doubles which occur on the remaining portion of the spear shall not be considered as damage;

(f) Scars which are not shallow, or shallow scars on the upper 5 inches of the spear which have an aggregate area exceeding that of a circle one-eighth inch in diameter, or scars on the remaining portion of the spear not classed as a butt which have an aggregate area exceeding that of a circle one-fourth inch in diameter; and,

(g) Insect holes or beetle eggs when present on the upper 5 inches of the spear, or when more than 3 are present on the remaining portion of the spear not classed as a butt.

§ 51.2343 *Diameter.* "Diameter" means the greatest thickness of the spear measured at a point 5 inches from the extreme tip, or at the base of the spear for spears less than 5 inches in length, or at any other point specified in the contract between the grower and processor.

§ 51.2344 *Green color.* "Green color" means any shade of green color or that shade of purple which will blanch green. The extent of green or purple color on the spear shall be determined by measuring the distance from the extreme tip to the lowest point at which the entire circumference of the spear is of a green or acceptable purple color.

§ 51.2345 *Badly deformed.* "Badly deformed" means that the spear is so severely flattened, crooked or curled that the canning or freezing quality of the upper 5 inches of the spear is seriously affected.

§ 51.2346 *Serious damage.* "Serious damage" means any defect which materially affects the canning or freezing quality of the upper 5 inches of the spear, or which seriously affects the canning or freezing quality of the remaining portion of the spear, exclusive of the butt. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Broken tips when more than two branchlets are missing from the tip, or when the extreme tip is missing and not fairly well covered with lower bracts, or when the general shape of the head is not retained;

(b) Spreading tips when tip branches exceed three-fourths inch in length, exclusive of the head, or when spread out from the spear;

(c) Discoloration when more than 4 bracts on the upper 5 inches of the spear are discolored;

(d) Scars occurring on the upper 5 inches of the spear which are not shallow, or which are shallow and have an aggregate area exceeding that of a circle one-fourth inch in diameter, or scars on the remaining portion of the spear not classed as a butt which have an aggregate area exceeding that of a circle one-half inch in diameter; and,

(e) Beetle eggs when there are more than 6 eggs on the spear, or when there are more than 3 eggs on the upper 5 inches of the spear.

Done at Washington, D. C., this 15th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

Agricultural Research Service

[9 CFR Part 155]

INSPECTION OF ANIMAL FOODS

NOTICE OF PROPOSED AMENDMENTS

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Department of Agriculture, pursuant to the provisions of section 203 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622), and provisions contained in the item for Marketing Services in the Department of Agriculture Appropriation Act, 1954 (7 U. S. C. Sup. 414), is considering proposed amendments of the regulations governing the inspection, certification and identification as to class, quality, quantity and condition of foods for dogs, cats and other carnivora (9 CFR Part 155, as amended) as follows:

1. Section 155.2(m) would be amended to read:

(m) "Mule meat" means the clean, sound, healthful, wholesome muscle tissue derived from mules as determined by antemortem and postmortem inspection by an inspector in accordance with § 155.41. It includes muscle tissue which is found in the tongue, in the diaphragm, in the heart or in the esophagus, with or without the accompanying and overlying fat and the portions of sinews, nerves, and blood vessels which normally accompany the muscle tissue and which are not separated from it in the process of dressing.

2. Section 155.2 would be amended by adding paragraphs (n) and (o):

(n) "Mule meat by-product" means the clean, sound, healthful, wholesome part, other than mule meat, derived from mules as determined by antemortem and postmortem inspection by an inspector in accordance with § 155.41.

(o) "Bone" means the U. S. inspected and passed and so identified clean, wholesome bone which has been derived from cattle, sheep, swine, goats or horses, or bone derived from mules slaughtered and passed under Branch inspection in accordance with § 155.41.

3. Section 155.1 (b) would be amended to read:

(b) Adequate facilities, including denaturing materials, for the proper disposal of condemned articles including carcasses, parts of carcasses and other materials, shall be provided.

4. Section 155.28 would be amended by inserting, at the beginning of the first sentence therein, the phrase "Subject to § 155.41," and by decapitalizing the word "Any" in said sentence.

5. Section 155.29 (b) would be amended to read:

(b) Not less than 30 percent of meat or meat by-product or both, or of horse meat or horse meat by-product or both, or of mule meat or mule meat by-product or both, shall be used in the preparation of canned certified maintenance food. Upon specific approval of the Chief of the Branch, combinations of the above-specified ingredients may be used. The uncooked weight of the meat or meat by-product or both, or of the horse meat or horse meat by-product or both, or of the mule meat or mule meat by-product or both, or combinations thereof, shall be used in the calculation, and the percentage shall be obtained by relating this weight to the total weight of the certified maintenance food.

6. Section 155.30 (a) would be amended to read:

(a) Certified 32 percent component shall contain not less than 95 percent of meat or meat by-product or both, or of horse meat or horse meat by-product or both, or of mule meat or mule meat by-product or both. Upon specific approval of the Chief of the Branch, combinations of the above-specified ingredients may be used.

7. Part 155 would be amended by adding a new § 155.41 to read as follows:

§ 155.41 *Antemortem and postmortem inspection for mules.* (a) (1) An antemortem examination and inspection shall be made of all mules about to be

slaughtered for use in the preparation of products under this part, before their slaughter shall be allowed for such use. Such inspection shall be made on the day of slaughter.

(2) Mules found on such inspection to show symptoms of disease shall be set apart and slaughtered separately. Those found to be affected with strangles, purpura hemorrhagia, azoturia, infectious equine encephalomyelitis, toxic encephalomyelitis (forage poisoning), infectious anemia (swamp fever), dourine, acute influenza, generalized osteoporosis, glanders, farcy, or other malignant disorder, acute inflammatory lameness or extensive fistula, shall be condemned and destroyed. Any mule which is suspected on antemortem inspection of being infected with glanders shall be tested with mallein, and any mule which on physical examination is suspected of being affected with dourine shall be held for further examination or for such test as the Chief of the Branch may prescribe.

(b) (1) A careful postmortem examination and inspection shall be made of all carcasses and parts thereof of all mules inspected under this section, at the time of slaughter. All carcasses and parts of mules found to be affected with any disease listed under paragraph (a) of this section shall be condemned and destroyed.

(2) Other carcasses and parts of mules found abnormal or diseased upon inspection under this section shall be disposed of in accordance with such provisions of the Meat Inspection Regulations (Title 9, Chapter I, Subchapter A, Code of Federal Regulations, as amended) as are deemed applicable by the Chief of the Branch.

8. Section 156.42 *Marking of mule meat and mule meat by-product.* All mule meat and mule meat by-product inspected under this part shall be marked and identified as the Chief of the Branch may require in any particular case.

Any interested person who wishes to submit written data, views, or arguments on the proposed amendments may do so by filing them with the Chief of the Meat Inspection Branch, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C., not less than 15 days after the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 15th day of January 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

[29 CFR Parts 655, 703]

[Administrative Order 437]

PUERTO RICO; SPECIAL INDUSTRY COMMITTEE NO. 15

NOTICE OF RESIGNATION AND APPOINTMENT

On January 14, 1954, immediately following the hearing for the Corsets, Brassieres, and Allied Garments Industry in Puerto Rico, David Dubinsky of New York, New York resigned as a member of Special Industry Committee No. 15.

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, hereby appoint Lazare Teper of New York, New York to serve on said Committee as a representative of the employees for the Needlework and Fabricated Textile Products Industry and the Men's and Boys' Clothing and Related Products Industry.

Signed at Washington, D. C., this 14th day of January 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 54-387; Filed, Jan. 19, 1954; 8:52 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 1, 4a, 4b]

SPECIAL CIVIL AIR REGULATION; BASIS FOR APPROVAL OF MODIFICATION OF AIRPLANE TYPES DOUGLAS DC-3 AND LOCKHEED L-18

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of a Special Civil Air Regulation which will provide additional bases for approval by the Administrator of modifications and new maximum certificated weights for Douglas DC-3 and Lockheed L-18 airplanes.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by February 20, 1954. Copies of such communications will be available after February 23, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

On October 7, 1953, the Civil Aeronautics Board adopted Special Civil Air Regulation SR-398, effective November 11, 1953 (18 F. R. 6448), which provided a basis for approval of modifications of DC-3 and L-18 airplanes, but limited the scope of that regulation to increases in engine take-off power limitation up to 1,350 horsepower per engine, to installation of engines of not more than 1,830 cubic inches displacement, and to the establishment of new maximum certificated weights not in excess of 26,900 pounds for the DC-3 and 19,500 pounds for the L-18. This notice of proposed rule making proposes expansion of the substance of SR-398 to permit approval of additional modifications and maximum certificated weights for DC-3 and L-18 airplanes. In order that the additional provisions proposed by this notice may be considered in context with SR-398, this notice embodies the provisions of SR-398 in addition to the changes proposed herein.

The Douglas DC-3 and the Lockheed L-18 airplane types were originally designed and certificated on the basis of airworthiness standards in effect prior to 1940. These were contained in Bulletin 7-A promulgated by the former Bureau of Air Commerce and in the initial Part 04 of the Civil Air Regulations which was basically a recodification of Bulletin 7-A. Subsequently the Civil Aeronautics Board has promulgated and kept up to date newer airworthiness requirements contained in Parts 3, 4a, and 4b of the Civil Air Regulations, the latter two parts containing rules for transport category airplanes. The DC-3 and the L-18 are the only large airplane types now in general use in the United States which retain the old standards as a basis for their certification.

For a number of years after the initial certification of these two airplane types relatively few important design changes were introduced, and the airplane specifications regarding maximum certificated weights remained practically unchanged. More recently, however, several operators have made significant design changes in DC-3 and L-18 airplanes and it has become apparent that with the continued use of these airplanes, more operators are considering design changes, such as the installation of higher-powered engines and increases in maximum certificated weights. Although the basis for certification of these airplanes remains unchanged, the Administrator of Civil Aeronautics in some instances has made changes to the pertinent aircraft specifications by applying certain provisions of Part 4a of the Civil Air Regulations. The Board in adopting SR-398 indicated that it did not consider Bulletin 7-A and the early versions of Part 04 adequate regulatory basis upon which further modifications to these airplane types can be approved by the Administrator. Additional rules are proposed herein which are considered necessary for uniform application of all future design changes to the DC-3 and L-18.

The provisions of Special Civil Air Regulation SR-398 and the changes proposed herein would provide the basis for approval by the Administrator of future modifications of individual DC-3 and L-18 airplanes. The provision in section 1 of SR-398 permitting the Administrator to waive the requirements of the regulation when it was shown that a particular airplane was in the process of modification at the time that regulation became effective, has been omitted from this proposed rule because SR-398 will have been in effect for sufficient time to eliminate the need for waiver authority by the Administrator.

In general, SR-398 requires that modifications of DC-3 and L-18 airplanes be accomplished in accordance with the provisions of either Part 4a or Part 4b of

the Civil Air Regulations applicable to the modification being made, and which were in effect on September 1, 1953, unless the applicant elects to make the modification in accordance with Part 4b as in effect on the date of modification. The regulation requires, however, that in electing to perform a modification under either Part 4a or Part 4b, each specific modification must be accomplished in accordance with all of the provisions of either Part 4a or Part 4b related to the particular modification. It does not permit selection of certain provisions of Part 4a and other provisions of Part 4b. For example, if it were desired to make a modification of the landing gear, it could be made under either Part 4a or Part 4b, but not partially under Part 4a and partially under Part 4b. This also applies when the applicant elects to make a modification in accordance with the provisions of Part 4b in effect on the date of modification in lieu of Part 4a or Part 4b as in effect on September 1, 1953.

In addition to the general provisions for modification, SR-398 and the additional rules proposed herein provide specific requirements with respect to approval of increases in take-off power limitation and the installation of new type engines in DC-3 and L-18 airplanes. The intent of these specific requirements is to insure that such changes will not result in a decrease in safety. This is in general consistent with the policy followed by the Administrator in approving changes made prior to the adoption of SR-398.

In the case of an increase in the take-off power limitation beyond 1,200 horsepower per engine, but not to exceed 1,350 horsepower per engine, SR-398 requires that the increase in power shall not adversely affect the flight characteristics of the airplane. The intent of this provision is to permit increases in take-off power only if the applicant can show that the use of the increased power does not result in deterioration of the flight characteristics of the airplane when compared to its previous characteristics. It is believed, however, that increases in take-off power limitation above 1,350 horsepower per engine may result in changes in the engine installation and the airplane's flight characteristics to such an extent that the basis for approval of increases in horsepower provided in SR-398 is no longer appropriate. Since Part 4b represents the most recent design practices, it is proposed that the take-off power limitation may be increased beyond 1,350 horsepower if compliance is shown with Part 4b at the increased power with respect to the engine installation provisions, the flight characteristics, and the ground handling requirements.

SR-398 also establishes either Part 4a or Part 4b as the basis for approving the installation of engines not exceeding 1,830 cubic inches displacement which necessitates major modification or redesign, on the condition that there is no decrease in engine fire prevention and protection when compared to the prior engine installation. Since the use of engines with more than 1,830 cubic inches displacement will necessitate extensive modification of the entire engine installation, it appears necessary that such an installation be accomplished in accordance with the most recent airworthiness provisions of the regulations. This notice, therefore, proposes that the installation of these larger engines be accomplished in accordance with the requirements of Part 4b of the Civil Air Regulations.

SR-398 also permits the establishment of new maximum certificated weights not to exceed 26,900 pounds for the DC-3 and 19,500 pounds for the L-18. Where new maximum weights are desired, SR-398 provides that the airworthiness certificate be amended and that maximum weights be established in accordance with the transport category performance requirements of either Part 4a or Part 4b, subject to the structural limitations of the airplane. With respect to maximum weights in excess of 26,900 pounds for the DC-3 and 19,500 pounds for the L-18, it is considered that such increases in weight may seriously affect not only the structural limitations, but also the flight and ground handling characteristics of the airplane. This notice proposes that weights in excess of 26,900 pounds for the DC-3 and 19,500 pounds for the L-18 may be established in accordance with the performance, structural, flight characteristics, and ground handling requirements of Part 4b.

SR-398 also requires, as a basis for approval of new maximum certificated weights, that the applicant provide flight manual material containing information which will enable the application of the transport category performance operating limitations in the operation of the airplane. In view of the fact that an applicant for new maximum certificated weights has such weights established in accordance with the transport category performance requirements of either Part 4a or Part 4b, an airplane having such newly established weights should be considered a transport category airplane in applying the operating rules of the Civil Air Regulations. As a result, therefore, such airplanes when used in air carrier passenger service must be operated in accordance with the transport category performance operating limitations, but when used in other types of services the transport category performance operating limitations are not applicable at present. However, consideration is being given to the problem of making the transport category performance operating limitations applicable to all types of operations conducted in transport category airplanes. If such rules are established, then all DC-3 and L-18 airplanes, having certificated weights increased in accordance with this regulation, would have to comply with these rules also. In the meantime, it is recommended that operators, whose airplanes are approved for increased weights by reason of SR-398, make use of this information to aid in assuring safety in their operations.

Accordingly, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to provide in substance as follows:

1. *Applicability.* Contrary provisions of the Civil Air Regulations regarding certification notwithstanding,[1] this regulation shall provide the basis for approval by the Administrator of modifications of individual Douglas DC-3 and Lockheed L-18 airplanes subsequent to the effective date of this regulation.

2. *General modifications.* Except as modified in sections 3 and 4 of this regulation, an applicant for approval of modifications to a DC-3 or L-18 airplane which result in changes in design or in changes to approved limitations shall show that the modifications were accomplished in accordance with the rules of either Part 4a or Part 4b in effect on September 1, 1953, which are applicable to the modification being made: *Provided*, That the applicant may elect to accomplish a modification in accordance with the rules of Part 4b in effect on the date of application for the modification in lieu of Part 4a or Part 4b as in effect on September 1, 1953: *And provided further*, That each specific modification must be accomplished in accordance with all of the provisions contained in the elected rules relating to the particular modification.

3. *Specific conditions for approval.* An applicant for any approval of the following specific changes shall comply with section 2 of this regulation as modified by the applicable provisions of this section.

(a) *Increase in take-off power limitation—1,200 to 1,350 horsepower.* The engine take-off power limitation may be increased to more than 1,200 horsepower but not more than 1,350 horsepower per engine if the increase in power does not adversely affect the flight characteristics of the airplane.

(b) *Increase in take-off power limitations to more than 1,350 horsepower.* The engine take-off power limitation may be increased to more than 1,350 horsepower per engine if compliance is shown with the engine installation, flight characteristics, and ground handling requirements of Part 4b.

(c) *Installation of engines of not more than 1,830 cubic inches displacement.* Engines of not more than 1,830 cubic inches displacement which necessitate a major modification or redesign of the engine installation may be installed, if the engine fire prevention and fire protection is equivalent to that on the prior engine installation.

(d) *Installation of engines of more than 1,830 cubic inches displacement.* Engines of more than 1,830 cubic inches displacement may be installed if compliance is shown with the engine installation requirements of Part 4b.

4. *Establishment of new maximum certificated weights.* An applicant for approval of new maximum certificated weights shall apply for an amendment of the airworthiness certificate of the airplane and shall show that the weights

[1] It is not intended to waive compliance with such airworthiness requirements as are included in the operating parts of the Civil Air Regulations for specific types of operation.

sought have been established, and the appropriate manual material obtained, as provided in this section.

NOTE: Transport category performance requirements result in the establishment of maximum certificated weights for various altitudes.

(a) *Weights, 25,200 to 26,900 for the DC-3 and 18,500 to 19,500 for the L-18.* New maximum certificated weights of more than 25,200 but not more than 26,900 pounds for the DC-3 and more than 18,500 but not more than 19,500 pounds for the L-18 airplanes may be established in accordance with the transport category performance requirements of either Part 4a or Part 4b, if the airplane at the new maximum weights can meet the structural requirements of either Part 4a or Part 4b.

(b) *Weights of more than 26,900 for the DC-3 and 19,500 for the L-18.* New maximum certificated weights of more than 26,900 pounds for the DC-3 and 19,500 pounds for the L-18 airplanes shall be established in accordance with the performance, structural, flight characteristics, and ground handling requirements of Part 4b.

(c) *Airplane flight manual; performance operating information.* An approved airplane flight manual shall be provided for each DC-3 and L-18 airplane which has had new maximum certificated weights established under this section. The airplane flight manual shall contain the applicable performance information prescribed in that part of the regulations under which the new certificated weights were established and such additional information as may be necessary to enable the application of the take-off, en route, and landing limitations prescribed for transport category airplanes in the operating parts of the Civil Air Regulations.

(d) *Performance operating limitations.* Each airplane for which new maximum certificated weights are established in accordance with paragraphs (a) or (b) of this section shall be considered a transport category airplane for the purpose of complying with the performance operating limitations applicable to the operations in which it is utilized.

5. *Reference.* Unless otherwise provided, all references in this regulation to Parts 4a and 4b are those parts of the Civil Air Regulations in effect on September 1, 1953.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Dated: January 8, 1954, at Washington, D. C.

By the Bureau of Safety Regulation.

[14 CFR Parts 20, 21, 22, 24, 25, 26, 27, 33, 34, 35, 51]

[Draft Release No. 54-2]

CITIZENSHIP REQUIREMENTS FOR ISSUANCE OF AIRMAN CERTIFICATES

NOTICE OF PROPOSED RULEMAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments of Parts 20, 21, 22, 24, 25, 26, 27, 33, 34, 35, and 51 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by February 20, 1954. Copies of such communications will be available after February 23, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Currently effective Civil Air Regulations provide that an applicant for a student, private, or free balloon pilot certificate may be a citizen of any country or a person without nationality but that an applicant for those classes of airman certificates which can be used for remuneration or hire who is not a United States citizen or an individual who has been admitted to the United States for permanent residence must be a citizen of a country whose government grants or has undertaken to grant to citizens of the United States airman privileges and employment rights equivalent to those which such government grants to its own citizens. However, with regard to the latter classes of certificates certain exceptions have been included for those which involve "ground duties" when the holder uses the certificate outside the United States and renders service thereunder which would be of benefit to the operations of United States aircraft. Provision is also made for the issuance to a citizen of a foreign government of a Limited Pilot Certificate appropriate to his pilot time and aeronautical experience upon a showing that he holds a currently effective certificate or license issued by his foreign government. The issuance of this certificate does not require the existence of equivalent privileges or employment rights. Current regulations further prescribe that an airman certificate issued to other than a United States citizen shall remain in effect no longer than 12 months after the date of issuance.

The Administrator of Civil Aeronautics has now advised that since the citizenship requirements were last amended in May of 1953, he has experienced the utmost difficulty in their implementation and administration. He has found that some of the provisions are in some cases impossible of determination and that in all cases inquiries are required, some of which it is estimated may take as long as two years for completion. Moreover, since he has found that the current regulations are not serving the best interests of the United States in the manner originally contemplated and that the administrative detail of their implementation has seriously increased the time demands upon his staff, he has requested that the rules be amended so that an applicant, regardless of citizenship, may receive any of our airman certificates upon passing the required technical examination.

In view of the foregoing, notice is hereby given that it is proposed to amend the citizenship requirements of Parts 20, 21, 22, 24, 25, 26, 27, 33, 34, 35, and 51 of the Civil Air Regulations to prescribe that an applicant may be a citizen of any country or a person without nationality.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. These proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012; 49 U. S. C. 551-560; 62 Stat. 1216)

Dated: January 14, 1954, at Washington, D. C.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 3]

[Docket No. 10848]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Paris, Tenn.	----	308
Nashville, Tenn.	248	----

3. The purpose of the proposed amendment is to provide a Class B channel in Paris, Tennessee, thereby facilitating consideration of a pending application requesting a Class B assignment there.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before February 15, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: January 13, 1954.

Released: January 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-372; Filed, Jan. 19, 1954; 8:48 a. m.]

[47 CFR Part 8]

[Docket No. 10853]

STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

GRANTING OF INTERIM RADIOTELEPHONE SHIP STATION LICENSES BY FIELD ENGINEERING OFFICES OF THE COMMISSION

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. The proposed amendments to the rules are intended to provide a method of expediting the issuance of authorizations for the immediate use and operation of radiotelephone ship stations operating in the 2 Mc band and installed on vessels other than those required by treaty or statute to be fitted with a radiotelephone installation. Engineers in Charge of the Commission's field offices would be authorized to act upon requests for interim ship station licenses when made in person by the applicant or his agent and when accompanied by a duly related and properly executed formal application for regular license which is to be forwarded to the Commission's Washington, D. C. office.

3. The proposed amendments to the rules are set forth below. They are issued pursuant to sections 5 (d) (1), 308 and 303 (r) of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form set forth herein, and any person desiring to support this proposal, may file with the Commission on or before February 15, 1954, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last date for filing original comments. The Commission will consider all comments and briefs presented before taking final action in the matter.

5. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: January 13, 1954.

Released: January 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

1. Subpart B of part 8 is amended as follows:

a. Amend § 8.24 to read:

§ 8.24 *Application precedent to authorization.* (a) Except as otherwise provided by §§ 8.26, 8.41, and 8.42, no authorization will be granted for use or operation of any radio station on board ship in any service governed by this part unless formal written application therefor in proper form[1] first is filed with the Commission at its offices in Washington 25, D. C., or pursuant to § 8.35 at a Field Engineering Office of the Commission.

(b) Except as otherwise provided by §§ 8.35, 8.41, and 8.42, an application in writing should be filed at least sixty days prior to the earliest date on which it is desired that the requested authorization be granted by the Commission, in order that action therein may be taken by that date.

(c) Each application shall be specific and complete with regard to the information requested in the application form, or otherwise specifically requested by the Commission. Unless otherwise specified in a particular case or for a particular form, each application shall be filed in original only.

b. Amend paragraph (c) of § 8.27 to read:

(c) When an application in written form is considered to be incomplete or defective, the Secretary of the Commission or, in the case of an application for regular ship station license or modification of license filed at a Field Engineering Office of the Commission accompanied by a request for interim ship station license, either the Secretary of the Commission or the Engineer-in-Charge of the particular Engineering Field Office, will return it to the applicant unless the Commission should otherwise direct. The reason for return of the application will be indicated, and, if appropriate, necessary additions or corrections may be suggested.

c. Amend § 8.29 by inserting in the text thereof the following words in parentheses after the ninth word "application" and before the tenth word "in": "(other than a grant of an interim ship station license)"

d. Amend § 8.33 by inserting in the text thereof the following words in parentheses after the eighth word "license", and before the ninth word "any": "(other than an interim ship station license)"

and by inserting "8.35, 8.41 and" after the words "except as otherwise provided by sections" and before the section number "8.42".

e. Insert a new § 8.35 to read:

§ 8.35 *Request for interim ship station license.* (a) A formal application for ship station license, or for modification of existing license including modification to cover replacement of radiotelephone transmitting apparatus (but not including renewal of station license), to authorize the use of telephony only on board a vessel not required by any statute or international agreement to be fitted with a radiotelephone installation, when accompanied by a request for an interim ship station license, shall be filed in accordance with § 8.36 and presented in person by the applicant or his agent at the nearest Field Engineering Office of the Commission.

(b) Such application as prescribed in paragraph (a) of this section may be filed, without regard to the filing time specified in §§ 8.24 (b) and 8.33 whenever need arises for necessary authority to use a ship station for telephony under the limitations of an interim ship station license on board any vessel (not required by any statute or international agreement to be fitted with a radiotelephone installation) pending action by the Commission at Washington, D. C., on the related formal application for regular license or modification of license.

(c) In the event the use of a ship station under the limitations of an interim license would not meet the requirements of an applicant or when an application for renewal of station license is involved, the applicant may, subject to and in accordance with the conditions set forth in § 8.41 or § 8.42, whichever is applicable, apply to the Commission at Washington, D. C., for special temporary station authorization or for license or modification or renewal of license in an emergency.

f. Amend paragraph (a) of § 8.37 by inserting in the text thereof the following words in parentheses after the ninth word "license" and before the tenth word "covering": "(other than an interim ship station license)".

g. Amend § 8.42 as follows: In the text of paragraph (a), after the sixteenth word "equipment" and before the seventeenth word "applications", insert "wherein the grant of an interim ship station license as provided by § 8.35 is not possible under the provisions thereof or wherein such grant would not satisfy the requirements of the emergency,".

2. Subpart C of Part 8 is amended as follows:

a. Amend § 8.63 to read:

§ 8.63 *Effective license periods.* (a) Except as hereinafter provided in other paragraphs of this section, the period of time during which a license is valid

[1] Standard forms are prescribed herein for use in connection with the majority of applications submitted for Commission consideration. These forms may be obtained without cost from the Commission at Washington, D. C. or from any of its field offices.

for a station on board ship in the maritime mobile or maritime radiolocation service normally shall begin at 3:00 a. m., e. s. t., and normally shall be:

(1) For an initial license, from one to five years from the date on which it becomes effective, the term varying as may be necessary to permit the orderly scheduling of renewal applications;

(2) For a renewal license, four years from the date on which the renewal license becomes effective.

(b) Unless otherwise directed by the Commission, each license, modification of license or renewal of license issued solely on the basis of an application filed in accordance with § 8.42 shall become effective at the time when granted by the Commission and shall expire at a time not beyond the period of the emergency found by the Commission as provided by that section: *Provided*, That each renewal license granted under the provisions of that section prior to expiration of the license which it will renew, shall become effective only upon expiration of the latter license.

(c) A permit for the operation of a station on board a ship at sea, issued by cable, telegraph, or radio, as the result of an application therefor filed under the provisions of § 8.42 shall become effective at the time when granted by the Commission and shall be effective, in lieu of a station license until such ship first arrives at a port of the continental United States subsequent to the time of issuance of such permit.

(d) A license for a developmental station on board ship shall be issued specifically upon a temporary basis for a period beginning at 3.00 a. m., e. s. t., and not exceeding one year from the date on which it becomes effective.

(e) Each special temporary authorization granted on the basis of an application filed under the provisions of § 8.41 shall be issued specifically upon a temporary basis for a specified period of time designated in such authorization and not extending beyond expiration of the outstanding license of the particular station to which it applies or otherwise not exceeding the normal license term of stations of the particular class and in the particular service designated in such special temporary authorization.

(f) An interim ship station license granted under the provisions of § 8.64 shall become effective when issued at the respective Field Engineering Office of the Commission and shall expire at 3:00 a. m., e. s. t., on a date three months from the date of grant, unless terminated earlier by the Commission pursuant to the provisions of § 8.64.

b. Delete existing § 8.64 and substitute a new § 8.64 to read:

§ 8.64 *Interim ship station license.* Upon request made in accordance with § 8.35, an interim ship station license may be granted by the Commission at any of its Engineering Field Offices to authorize solely the use of a ship station for telephony in conformity with the conditions and limitations of § 8.369, on board a vessel not required by any statute or international agreement to be fitted with a radio-telephone installation, for an interim period of three months pending action by the Commission at Washington, D. C. on the related formal application for regular ship station license or modification of license filed at such Engineering Field Office as prescribed by §§ 8.35 and 8.36. Unless otherwise directed by the Commission in exceptional circumstances, an interim ship station license shall not be renewed and the authority conferred by such license may be terminated, without hearing, at any time prior to its normal expiration date if in the discretion of the Commission the need for such action arises.

3. Subpart O of Part 8 is amended as follows:

a. Add a new § 8.369 to read:

§ 8.369 *Operation under interim ship station license.* (a) The use and operation of a station on board ship under the authority conferred by an interim ship station license shall be subject to and in accordance with all applicable rules of the Commission; *Provided*, That the class of station, the use of frequencies, the class of emission, and the transmitting equipment shall be limited at all times under such license to the authorization hereinafter designated:

(1) Class of ship station:

(i) Public: If equipped to operate on one or more of the frequencies designated by this section for transmission to public coast stations;

(ii) Limited: If not equipped to operate as prescribed in subdivision (i) of this subparagraph;

(2) Authorized carrier frequencies in kilocycles:

(i) 2182 for calling and distress;

(ii) 2638 and 2738 for ship-to-ship communication only; not authorized for use on the Great Lakes;

(iii) 2003 for ship-to-ship communication only; for use on the Great Lakes exclusively;

(iv) The frequencies below 3500 kc which are authorized by § 8.354 for transmission from ship stations to public coast stations in designated geographic areas as set forth in that section;

(3) Authorized classes of emission: A3; and for brief operating signals A2;

(4) Equipment: The particular equipment which is described in the related formal application filed for regular ship station license or modification of license, and which is capable of being operated with class A3 emission in accordance with all applicable rules and regulations on one or more radio-channels of which the authorized carrier frequencies are designated by this section.

(This license is issued subject to the conditions shown on the reverse side.)

[SEAL] .....

Secretary

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts, treaties, and all rules, and regulations heretofore and hereafter made by this Commission and further subject to the terms and conditions set forth in this authorization, the licensee named herein is granted an *interim ship station license* for the use and operation of a ship station (telephony only) on board the vessel herein named as prescribed in particular by section 8.369 of the rules of the Commission.

This license, when signed by an issuing officer of the Commission and countersigned by the licensee, is valid until the expiration date shown on the face hereof, Provided, That the authority herein conferred may be terminated without hearing at any time prior to expiration if in the discretion of the Commission the need for such action shall arise.

This authorization shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. This authorization is subject to the right of use or control by the Government of the United States conferred by section 606 of the Communications Act of 1934, as amended.

It is prohibited to receive radio correspondence other than that which the station is authorized to receive, but, in case such correspondence is received involuntarily, it must neither be reproduced nor communicated to third persons nor used for any purpose whatever, and the very existence thereof must not be revealed.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 53420]

PUERTO PLATA, DOMINICAN REPUBLIC

ADDITION TO "NO CONSUL" LIST

JANUARY 15, 1954.

In accordance with a recommendation from the Department of State, Puerto Plata, Dominican Republic, is hereby added to the "No consul" list (1950), T. D. 52407, as amended.

Under the provisions of section 482 (f), Tariff Act of 1930 (19 U. S. C. 1482 (f)), an invoice for merchandise from the above-named place on foreign service Form 138, or in lieu thereof, a commercial invoice containing the information required by section 481, Tariff Act of 1930 (19 U. S. C. 1481), may be accepted if certified by a consular officer of a nation at the time in amity with the United States. If no such consular officer is available, the invoice shall be executed before a notary public or other officer having an official seal.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

POST OFFICE DEPARTMENT

DEPUTY POSTMASTER GENERAL AND ADMINISTRATIVE ASSISTANT TO DEPUTY POSTMASTER GENERAL

DELEGATIONS OF AUTHORITY

The following orders affecting the organization of the Post Office Department, and relating to delegations of final authority with respect to matters affecting the public are published in compliance with section 3 (a) (1) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1002):

[Order No. 55507]

DELEGATION OF AUTHORITY TO THE DEPUTY POSTMASTER GENERAL

JANUARY 13, 1954.

Pursuant to authority of section 1 (b) of Reorganization Plan No. 3 of 1949 (63 Stat. 1066), authority is hereby delegated to the Deputy Postmaster General to execute and perform in his own name all powers, functions and duties conferred by law upon the Postmaster General, including authority to modify, suspend, or rescind orders, instructions, and regulations which have heretofore, or which may hereafter be issued in the name of the Postmaster General, except that I do hereby reserve to the Postmaster General exclusive authority to modify, suspend, or rescind all or any part of the authority delegated to the Deputy Postmaster General by this order.

The Deputy Postmaster General is hereby authorized to delegate to any officer, employee, or agency of the Post Office Department designated by him such of the powers, functions and duties delegated to him by this order as he deems appropriate.

All prior delegations made by me are to remain in full force and effect until changed by order of the Postmaster General or the Deputy Postmaster General.

[Order No. 55510]

ORGANIZATION OF THE ADMINISTRATIVE ASSISTANT TO THE DEPUTY POSTMASTER GENERAL

JANUARY 14, 1954.

Pursuant to the authority of sections 1 (a) and 1 (b) of Reorganization Plan No. 3 of 1949, and Postmaster General Order No. 55507 of January 13, 1954, the following changes in the organization of the Post Office Department are made.

1. The Administrative Assistant to the Deputy Postmaster General is authorized to issue in his name and revoke when revocation is warranted the orders which the Postmaster General is authorized to issue by sections 255, 259, 259a and 732 of title 39, U. S. Code, in the following circumstances and conditions:

(a) When the order to be issued involves and concerns persons residing outside the United States its Territories and possessions and for whom an agency hearing under the Administrative Procedure Act (5 U. S. C. 1001 et seq.) is not available.

(b) When the order to be issued involves and concerns residents in the United States its Territories and Possessions who, having been offered opportunity for agency hearing, have failed to file answer as provided by the Post Office Department Rules of Practice in Proceedings under the Administrative Procedure Act (5 U. S. C. 1001 et seq.).

2. There is hereby created under the jurisdiction of the Administrative Assistant to the Deputy Postmaster General a Division of Hearing Examiners. Such division shall be headed by a Chief Hearing Examiner. The Chief Hearing Examiner and all hearing examiners shall exercise and execute in their names all power and authority vested in them by law and by the Rules of Practice promulgated by the Postmaster General. In the absence of the Chief Hearing Examiner the hearing examiners in the order of their standing shall act in his stead.

3. The Docket Clerk heretofore assigned to the Office of Hearing Examiners is reassigned to the Administrative Assistant to the Deputy Postmaster General.

4. The "Office of Hearing Examiners" as an organizational unit is hereby abolished. * * *.

NOTE: The omitted provisions of Order No. 55510, dated January 14, 1951, cover amendments to the Department's rules of procedures (§§ 150.400 to 150.426 of 39 CFR, Chapter I). Said amendments are being included in a complete revision of the cited sections, and will be published in a subsequent issue of the FEDERAL REGISTER.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[SEAL] LOUIS J. DOYLE,
Acting Solicitor.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 78

JANUARY 8, 1954.

1. Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. Sec. 682a), as amended, the following described public lands in the Fairbanks Alaska District:

SOUTH FAIRBANKS AREA

[illegible]

For Home Sites

U. S. Survey 3148:
Lots 1-57, inclusive;
Lots 61-108, inclusive.

Comprising 105 tracts aggregating approximately 64.93 acres.

2. These lands were formerly embraced in a military withdrawal and were restored on January 25, 1952, subject only to disposition under the Small Tract regulations. The tracts are located south of the City of Fairbanks and are accessible by a graveled road. The generally flat terrain is covered by a thick stand of birch reproduction interspersed with open patches of scrub birch, and at least part of the area is underlain by permafrost. The climate features short warm summers, long cold winters, and low annual precipitation. Sewage disposal on these tracts can be accomplished through the use of cesspools and septic tanks. Churches, schools, business establishments, and other community facilities are available in the City of Fairbanks.

3. This classification order shall not otherwise become effective to change the status of any lands described herein or to permit the leasing of any such lands under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on February 24, 1954. At that time the lands described below shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection, as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on February 24, 1954, to close of business on May 25, 1954, inclusive, preference will be given, as set forth above, to:

(1) Applications under the Small Tract Act of June 1, 1938, (52 Stat. 609;

43 U. S. C. 682a) as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, (58 Stat. 747; 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and

(2) Applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by veterans and other qualified persons under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph.

(b) *Advance period for simultaneous preference right filings.* All applications filed by such veterans and other qualified persons, or by persons claiming preference rights superior to those of such veterans filed under the preceding paragraph (a) on February 3, 1954 or thereafter, up to and including 10:00 a. m. on February 24, 1954, shall be treated as simultaneously filed. All applications filed under the preceding paragraph (a) after 10:00 a. m. on February 24, 1954, shall be considered in the order of filing.

(c) *Date for non-preference right filings.* Commencing at 10:00 a. m. on May 26, 1954, any lands remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on May 5, 1954, or thereafter, up to and including 10:00 a. m. on May 26, 1954, shall be treated as simultaneously filed. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy, (both sides) of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or which constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications for these lands, which shall be filed in the Land Office at Fairbanks, Alaska, shall be made on Form 4–776 and shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938 shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938 will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, under the circumstances, are substantial, and are appropriate for the use for which the lease is issued. Leases will be issued for a period of two years, at an annual rental of $5 for homesites, payable in advance for the entire lease period. Applications for extension for an additional period of one year shall be considered in appropriate cases. Every lease for land classified for lease and sale will contain an option to purchase clause and every such lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 0.47 acre to approximately 0.95 acre, in accordance with the classification maps on file in the Land Office, Fairbanks, Alaska. These tracts are appraised at prices ranging from $215 to $760.

8. Lessees must locate any wells or sewage disposal facilities in accordance with the laws and regulations of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, as specified in the Classification and Appaisal Report on file in the Land Office, Fairbanks, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. In the discretion of the authorized officer of the Bureau of Land Management, these rights-of-way may be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

FRED J. WEILER,
Chief,
Division of Land Planning.

[F. R. Doc. 54–371; Filed, Jan. 19, 1954; 8:48 a. m.]

[No. 21 (R–IV)]

UTAH

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 11, 1954.

In exchanges of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315g), the following described lands have been reconveyed to the United States:

SALT LAKE MERIDIAN

T. 7 S., R. 6 W.
Sec. 25, S½SW¼, NW¼SW¼.
Sec. 26, S½SW¼, E½SE¼, SW¼SE¼.
Sec. 36, W½, NE¼, S½SE¼, NE¼SE¼, S½NW¼SE¼.
T. 8 S., R. 6 W.
Sec. 3, Lot 1, SE¼NE¼.
Sec. 21, W½SW¼.
T. 21 S., R. 7 E.
Sec. 3, NE¼, S½NW¼, S½.
Sec. 4, S½NE¼, SW¼SW¼, E½SW¼, N½SE¼, SE¼SE¼.
Sec. 8, S½N½, S½SE¼.
Sec. 9, SW¼NW¼.

The area described contains 2,261.24 acres.

These tracts are primarily valuable for grazing, and it is unlikely that any will be classified for disposal under the homestead, desert-land, or small tract laws.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official

document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, 312 Federal Building, Salt Lake City, Utah.

RALPH J. MITCHELL,
Acting Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8809, 10788, 10789, 10790]

ST. LOUIS TELECAST, INC., ET AL.

ORDER CONTINUING HEARING

In re applications of St. Louis Telecast, Inc., St. Louis, Missouri, Docket No. 8809, File No. BPCT–294; St. Louis Amusement Company, St. Louis, Missouri, Docket No. 10788, File No. BPCT–745; Columbia Broadcasting System, Inc., St. Louis, Missouri, Docket No. 10789, File No. BPCT–1565; 220 Television, Inc., St. Louis, Missouri, Docket No. 10790, File No. BPCT–1778; for construction permits for new television stations.

On January 8, 1954, the United States Circuit Court of Appeals for the District of Columbia Circuit in the case of Broadcast House, Inc. v. Federal Communications Commission, et al, No. 12040, issued a stay order which reads in pertinent part:

> Ordered by the Court that appellee Federal Communications Commission and its agents and examiners be, and they are hereby, restrained during the pendency of this appeal from conducting any hearing or other proceeding or taking any final action relative to the granting to any applicant therefor of a license to operate on, or a permit to construct facilities for operation on, television chanel 11 assigned to St. Louis, Missouri; • • •

Accordingly, it is ordered, This 12th day of January 1954, that the hearing in the above-entitled proceeding, presently scheduled to commence at 10:00 a. m., January 14, 1954, is continued indefinitely.

FEDERAL COMMUNICATIONS COMMISSION.
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54–374; Filed, Jan. 19, 1954; 8:49 a. m.]

[Docket Nos. 8837, 10846, 10847]

RADIO STATION WSOC, INC., ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Radio Station WSOC, Incorporated, Charlotte, North Carolina, Docket No. 8837, File No. BPCT–304; Piedmont Electronics and Fixture Corporation, Charlotte, North Carolina, Docket No. 10846, File No. BPCT–1621; Carolinas' Television Corporation, Charlotte, North Carolina, Docket No. 10847, File No. BPCT–1817; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of January 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 9 in Charlotte, North Carolina; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 12th day of February 1954 in Washington, D. C., to determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION.
[SEAL] WM. P. MASSING,
Acting Secretary.

[Docket No. 10785]

LA PORTE COUNTY BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In the matter of La Porte County Broadcasting Co., Inc., La Porte, Indiana, Docket No. 10785; revocation of License of Station WLOI.

The Commission having under consideration a petition filed by La Porte County Broadcasting Company on January 6, 1954, requesting that the hearing in this proceeding be continued until after its Petition for Reconsideration, filed January 4, 1954, has been acted upon;

It appearing, that a hearing may not be necessary if the Petition for Reconsideration is granted;

It further appearing, that no opposition to a grant of the above-requested continuance has been filed to date;

It is ordered, This 12th day of January 1954, that the hearing now scheduled for January 18, 1954 is continued without date pending action by the Commission upon the applicant's Petition for Reconsideration.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,

[Docket Nos. 10450, 10852]

BELLEVILLE BROADCASTING CO., INC., AND FRANKLIN COUNTY BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Belleville Broadcasting Company, Inc., Belleville, Illinois (WIBV), Docket No. 10852, File No. BP-

6480; Leslie P. Ware d/b as Franklin County Broadcasting Company, Washington, Missouri, Docket No. 10450, File No. BP-8241; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of January 1954;

The Commission having under consideration the above-entitled application of the Belleville Broadcasting Company, Inc. for a construction permit to change the facilities of Station WIBV, Belleville, Illinois, from 1060 kc, 250 w, Day, to 1260 kc, 1000 watts, Day; and

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WIBV as proposed, but that the operation would result in mutually prohibitive interference with the operation proposed by the above-entitled application of the Franklin County Broadcasting Company; and

It further appearing, that the above-entitled application of the Franklin County Broadcasting Company and an application of the Edwardsville Broadcasting Company for a new station on 1260 kc, 1 kw, Day at Edwardsville, Illinois (BP-8663), were mutually exclusive and set for comparative hearing to be held on November 30, 1953, Docket Nos. 10450 and 10451, respectively, and on November 25, 1953, the Edwardsville application was dismissed and a continuance of the said hearing granted pending action on the instant application; and

It further appearing, that in a 309 (b) letter dated December 2, 1953, the Commission advised the subject applicant that its proposed operation was mutually exclusive with the above-entitled application of the Franklin County Broadcasting Company; and

It further appearing, that counsel for the subject applicant, in a letter dated December 22, 1953, stated that it could not remove the obstacle to its grant without a hearing;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing in a consolidated proceeding with Docket No. 10450, on January 21, 1954, upon the following issues:

1. To determine, in the light of section 307 (b) of the Communications Act of 1934, as amended, which of those applicants would provide the more fair, efficient and equitable distribution of radio service.

2. To determine, on a comparative basis, which of the operations proposed in the above-entitled aplications would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issue and the record made with respect to the significant differences between the applicants as to:

a. The background and experience of each of the above-named applicants to own and operate the proposed stations.

b. The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

c. The programming service proposed in each of the above-mentioned applications.

Released: January 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

OWNERS AND OPERATING PERSONNEL OF SHIPS SUBJECT TO UNITED STATES-CANADA AGREEMENT FOR SAFETY PROMOTION ON GREAT LAKES BY MEANS OF RADIO

RADIOTELEPHONE INSTALLATIONS AND [illegible]

JANUARY 14, 1954.

The agreement between the United States and Canada for promotion of safety on the Great Lakes, which was ratified in November 1952, will go into effect on November 13, 1954. As a result of this agreement, radiotelephone installations and certified radiotelephone operators will become mandatory for safety purposes on board certain classes of ships on the Great Lakes, and it is expected that several hundred ships will be affected on and after that date. Among the several classes of vessels to come under the agreement are vessels of 500 gross tons or over and passenger carrying vessels over 65 feet in length.

Persons wishing to operate the radiotelephone equipment required by the agreement on and after November 13, 1954, should arrange to meet the new requirements.

Under Article 7 of the above-mentioned agreement, the United States Government is required to certify the qualifications of radiotelephone operators for vessels of the United States. The Commission expects to carry out this obligation through its operator licensing process.

The qualifications which candidates for certification must possess are set forth in the regulations (Regulation No. 3) annexed to the agreement. The Commission's present Radiotelephone Third-Class Operator Permit may be accepted as proof of these qualifications and persons wishing to be certified in the immediate future should obtain that class of permit. The Restricted Radiotelephone Operator Permits presently held by a number of officers of Great Lakes ships will not meet the requirements of the agreement.

The Commission's Radiotelephone Third-Class Operator Permit may be obtained by eligible persons at any of 30 Field offices located in the continental United States, its territories and possessions. A written examination in Element No. 1 and Element No. 2 of the Commission's Commercial Operator examination is required for this class of permit.

Field offices at which the examination may be taken in the Great Lakes area are located in Chicago, Ill.; Detroit, Mich.; Buffalo, N. Y.; and St. Paul, Minn. Examinations for operator licenses and permits are also given periodically at other points. More detailed information in regard to operator examinations may be obtained by communicating with the Commission in Washington, D. C., or with its Field offices.

Adopted: January 13, 1954.

FEDERAL POWER COMMISSION

[Docket Nos. G-2170, G-2201]

TEXAS GAS TRANSMISSION CORP. AND SHELBYVILLE GAS CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of Texas Gas Transmission Corporation, Docket No. G-2170, Shelbyville Gas Company, Docket No. G-2201.

Texas Gas Transmission Corporation (Texas Gas), a Delaware corporation having its principal place of business in Owensboro, Kentucky, filed on May 11, 1953, an application, as supplemented August 7, 1953, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a metering station and appurtenant equipment on its 26-inch pipe line at a point near Middletown, Kentucky, for the purpose of selling gas to Shelbyville Gas Company (Shelbyville) for resale in maximum daily volumes of 1,058 Mcf

Shelbyville, a Delaware corporation having its principal place of business in Shelbyville, Kentucky, filed on June 25, 1953, an application, as supplemented August 17, September 14, and October 19, 1953, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 4-inch pipe line, approximately 15 miles in length, from a point of connection with the metering station proposed by Texas Gas in Docket No. G-2170 to the City of Shelbyville, Kentucky, for the purpose of transporting gas purchased from Texas Gas for sale at retail in Shelbyville and along the route of its proposed pipe line.

Both Applicants have requested that their applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Due notice of the filing of both applications has been given, including publication in the FEDERAL REGISTER on July 15, 1953 (18 F. R. 4148). No request to be heard, protest, or petition has been filed with respect to the application by Shelbyville, but a petition seeking leave to intervene in Docket No. G-2170 was filed by Memphis Light, Gas & Water Division, City of Memphis, Tennessee (Memphis), on July 27, 1953, and Memphis was permitted to intervene by order issued August 27, 1953. Although Memphis has not formally withdrawn its intervention in Docket No. G-2170, it has indicated

through letters filed in In the Matter of Texas Gas Transmission Corporation, Docket No. G-2225, order issued November 30, 1953, that it has no objection to expeditious disposition of the instant proceeding. Memphis has the opportunity to object if its attitude has been misunderstood.

The Commission finds:

(1) Good cause exists for consolidation of the proceedings in Docket Nos. G-2170 and G-2201 on the ground that the applications therein are interdependent.

(2) The above-entitled proceedings may be proper ones for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) The proceedings in Docket No. G-2170 and G-2201 be and they are hereby consolidated for purposes of hearing and disposition.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 4, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 13, 1954.

Issued: January 14, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-359; Filed, Jan. 19, 1954; 8:45 a. m.]

[Docket No. G-2275]

ATLANTIC SEABOARD CORP.

ORDER PERMITTING SUBSTITUTION OF REVISED SHEETS IN SUSPENDED TARIFF AND SUSPENDING SUCH REVISED SHEETS

On December 14, 1953, Atlantic Seaboard Corporation (Atlantic Seaboard) submitted for filing First Revised Sheets Nos. 13 and 16 to its FPC Gas Tariff, Fifth Revised Volume No. 1.

On September 14, 1953, Atlantic Seaboard filed certain revised sheets to its FPC Gas Tariff, Fifth Revised Volume No. 1, which were suspended by orders of the Commission issued October 13, and 26, 1953, until March 1, 1954 and until such further time thereafter as such revised tariff sheets might be made effective in the manner prescribed by the Natural Gas Act. The proposed First Revised Sheets Nos. 13 and 16 provide for a change in the heat content adjustment clause under the CDS-2 and GS-1 rate schedules from an adjustment based on a band of 1025 to 1075 Btu per cubic foot to an adjustment based on 1150 Btu per cubic foot.

By First Revised Sheets Nos. 13 and 16, referred to above, Atlantic Seaboard proposes to conform the Btu adjustment clause in the CDS-2 and GS-1 rate schedules with that contained in the other rate schedules of Fifth Revised Volume No. 1. Atlantic Seaboard states that the supporting material submitted on September 14, 1953, was based upon uniform application of the 1150 Btu heat content adjustment clause under all of the rate schedules, but through inadvertence the clause was omitted from Rate Schedules CDS-2 and GS-1.

Atlantic Seaboard requests special permission pursuant to § 154.66 of the Commission's rules to file the proposed revised tariff sheets, and that, as its filing of September 14, 1953, is under suspension until March 1, 1954, the suspension period for the proposed sheets likewise terminate on March 1, 1954.

The Commission finds: Good cause exists to permit the substitution of First Revised Sheets Nos. 13 and 16 in Atlantic Seaboard's FPC Gas Tariff, Fifth Revised Volume No. 1, for corresponding original sheets.

The Commission orders:

(A) First Revised Sheets Nos. 13 and 16 filed December 14, 1953, be and they hereby are substituted for the corresponding original sheets in Atlantic Seaboard's FPC Gas Tariff, Fifth Revised Volume No. 1.

(B) The hearing heretofore scheduled by order of the Commission issued October 13, 1953, will concern the lawfulness of the rates, charges, classifications and services, subject to the jurisdiction of the Commission, contained in Atlantic Seaboard's FPC Gas Tariff, Fifth Revised Volume No. 1, as amended by its filing of September 14, 1953, and as now further amended by First Revised Sheets Nos. 13 and 16.

(C) Pending such hearing and decision thereon, First Revised Sheets Nos. 13 and 16, be and the same hereby are suspended and the use thereof is deferred until March 1, 1954, and until such further time as such tariff sheets may be made effective in the manner prescribed by the Natural Gas Act.

(D) The terms and conditions of the Commission's order issued October 13, 1953, as modified by the order issued October 26, 1953, in this proceeding, shall apply to the matters stated in paragraph (B) above.

Adopted: January 13, 1954.

Issued: January 14, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-360; Filed, Jan. 19, 1954; 8:45 a. m.]

[Docket No. G-2294]

ALGONQUIN GAS TRANSMISSION CO.

ORDER FIXING DATE OF HEARING

Algonquin Gas Transmission Company (Applicant), a Delaware corporation, with its principal place of business in Boston, Massachusetts, on October 26, 1953, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, and on December 7, 1953, filed an amendment to such application, requesting authorization for the construction and operation of 2,500 feet of 4-inch lateral pipe connecting its existing transmission line with a proposed metering station at Suffern, New York, together with regulating and measuring facilities at Suffern, New York, for the delivery of a contract quantity of 5,000 Mcf of gas per day to Rockland Light and Power Company, as described in the application and amendment on file with the Commission, and open to public inspection.

Due notice of the filing of the application and of the amendment has been given, including publication in the FEDERAL REGISTER on November 13, 1953 (18 F. R. 7211-7212), and December 24, 1953 (18 F. R. 8707), respectively.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings: *Provided, however*, That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 5, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 13, 1954.

Issued: January 14, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2305]

IROQUOIS GAS CORP.

ORDER FIXING DATE OF HEARING

Iroquois Gas Corporation (Applicant), a New York corporation with its principal place of business in Buffalo, New York, filed an application with the Commission on November 9, 1953, and an amendment

thereto on December 14, 1953, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of metering facilities, subject to the jurisdiction of the Commission, at two points of connection on its system with Republic Light, Heat and Power Company, Inc. (Republic), in Niagara and Erie Counties, New York, for the sale of mixed and/or natural gas to Republic for resale in Republic's Niagara District.

Temporary authorization to construct and operate facilities requested, and to sell gas to Republic, as described in the amended application filed December 14, 1953, was granted by the Commission on December 24, 1953.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened-procedure provided by the aforesaid rule for non-contested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 26, 1953 (18 F. R. 7573).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 10, 1954, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application and amendment, filed thereto: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 13, 1954.

Issued: January 14, 1954.

By the Commission.

[Docket No. G-2326]

PENNSYLVANIA GAS CO.

ORDER FIXING DATE OF HEARING

Pennsylvania Gas Company (Applicant), a Pennsylvania corporation with its principal place of business in the Borough of Warren, Pennsylvania, filed, on December 7, 1953, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of 12.5 miles of 6-inch transmission line from a point on its existing transmission line near Phillipsville, Pennsylvania, to North East, Pennsylvania, and four new 440 H. P. gas engine-driven compressor units to replace two 1,200 H. P. steam-driven units at Applicant's Roystone Compressor Station, for the purpose of augmenting present and supplying future demands of Applicant's customers and to maintain service during a period of highway construction, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 24, 1953 (18 F. R. 8707-8708).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 5, 1954, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1580]

GENERAL TELEPHONE CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 13th day of January A. D. 1954.

The Philadelphia-Baltimore Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, $20 Par Value, of General Telephone Corporation, a security listed and registered on the New York Stock Exchange and on the Midwest Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to January 26, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[File No. 54-169]

MARKET STREET RAILWAY CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEE FOR LEGAL SERVICES TO BE PAID BY FORMER PARENT COMPANY

JANUARY 13, 1954.

The Commission having heretofore approved a plan of reorganization filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 by Market Street Railway Company ("Market Street"), a former subsidiary of Standard Gas and Electric Company ("Standard Gas") and Standard Power and Light Corporation, both registered holding companies;

The Commission having reserved jurisdiction to determine the reasonableness and appropriate allocation of all fees and expenses and other remuneration incurred or to be incurred for services rendered in connection with said plan and the transactions incident thereto;

Standard Gas having advised the Commission that it proposes to pay the law firm of Brobeck, Phleger & Harrison of San Francisco, California, the sum of $7,000 in full settlement of that firm's claim for legal services rendered Standard Gas in connection with certain court proceedings instituted by Standard Gas against Market Street for the collection of an open-account indebtedness, which indebtedness was later compromised in the aforesaid plan;

The record having been completed with respect to the services rendered by Brobeck, Phleger & Harrison; and it appearing to the Commission that the fee proposed to be paid is not unreasonable, and the Commission deeming it appropriate to release the jurisdiction heretofore reserved with respect to such fee:

It is ordered, That the jurisdiction heretofore reserved herein with respect to the fee of Brobeck, Phleger & Harrison for legal services rendered to Standard Gas in connection with the reorganization of Market Street be, and the same hereby is released.

It is further ordered, That the jurisdiction reserved by the Commission in its orders dated May 3, 1950, October 24, 1950, and May 12, 1953, over fees and expenses be, and the same hereby is, continued, except to the extent heretofore or herein specifically released.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28831]

COAL FROM MINES SERVED BY NASHVILLE, CHATTANOOGA AND ST. LOUIS RAILWAY TO AUGUSTA, GA.

APPLICATION FOR RELIEF

JANUARY 15, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Southern Railway Company for itself and on behalf of the Nashville, Chattanooga & St. Louis Railway.

Commodities involved: Coal, in carloads.

From: Mines served by the Nashville, Chattanooga and St. Louis Railway.

To: Augusta, Ga.

Grounds for relief: Rail competition, circuity, market competition, to maintain grouping, and additional routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1403.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

SECRETARY OF HEALTH, EDUCATION, AND WELFARE

DELEGATION OF AUTHORITY TO ADMINISTER CONTRACT FOR PROCESSING AND DISTRIBUTION OF MOTION PICTURE AND FILM STRIPS

1. Pursuant to the authority vested in me by section 205 (d) of the Federal Property and Administrative Services Act of 1949, as amended, authority is hereby delegated to the Secretary of Health, Education, and Welfare, to act as contracting officer on Contract No. GS-03S-11529, covering the period January 1, 1954, through December 31, 1955, and in such capacity to make all decisions necessary under the terms of said contract.

2. Appeals from decisions of said contracting officer shall be taken to the Administrator of General Services.

3. Amendments to said contract shall be made only with the approval of the Administrator of General Services or his authorized representative.

4. This authority may be redelegated to any official or employee of the Department of Health, Education, and Welfare, and shall be exercised in accordance with such policies, procedures, and controls prescribed by the General Services Administration.

5. This delegation of authority shall be effective as of January 1, 1954.

Dated: January 13, 1954.

VOLUME 19 NUMBER 14

Washington, Thursday, January 21, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10512

REVOCATION OF EXECUTIVE ORDER NO. 9047,[1] EXEMPTING CERTAIN OFFICERS AND EMPLOYEES OF THE GOVERNMENT FROM AUTOMATIC SEPARATION FROM THE SERVICE

WHEREAS by Executive Order No. 9047 of January 30, 1942, certain officers and employees in the executive branch of the Government were exempted from automatic separation from the service under the provisions of the Civil Service Retirement Act of May 29, 1930, as amended, for an indefinite period of time not extending beyond the duration of their appointment or term of service; and

WHEREAS, in my judgment, the public interest no longer requires the exemption of any of such officer or employee from automatic separation from the service:

NOW, THEREFORE, by virtue of the authority vested in me by section 204 of the act of June 30, 1932, 47 Stat. 382, 404, and as President of the United States, it is ordered that the said Executive Order No. 9047 be, and it is hereby, revoked.

This order shall become effective at the close of business on March 31, 1954.

EXECUTIVE ORDER 10513

DESIGNATING CERTAIN OFFICERS TO ACT AS SECRETARY OF LABOR

By virtue of the authority vested in me by section 179 of the Revised Statutes of the United States (5 U. S. C. 6) and section 301 of title 3 of the United States Code, it is ordered as follows:

I hereby authorize and direct the Assistant Secretaries of Labor and the Solicitor of Labor, in the order designated as hereinafter provided, to perform the duties of the office of the Secretary of Labor in case of the absence, sickness, resignation, or death of both the Secretary of Labor and the Under Secretary of Labor.

The Assistant Secretaries of Labor and the Solicitor of Labor shall act as Secretary of Labor as herein provided (1) in such order as the Secretary of Labor (or the Under Secretary when acting as Secretary) may by order designate from time to time, or (2) if no such designation order is in effect at the time, in the order of the respective dates of their commissions, or in the event that two or more of their commissions bear the same date, in the order in which they shall have taken their oath of office.

This order supersedes Executive Order No. 9968 of June 17, 1948, entitled "Designation of Certain Officers To Act as Secretary of Labor."

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 61]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility, class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude over facility on final approach course (ft.)	Course and distance (flt. time, facility to airport)	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	Procedure turn (—) side of final approach course (outbound and inbound); altitudes, limiting distances

					If visual contact not established at authorized landing minimums after passing facility, within distance specified, or if landing not accomplished			
					Within 11½ miles climb to 1,500' on SE course within 23 miles or as directed by ATC.			

2. The automatic direction finding procedures prescribed in § 609.9 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation

If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility, class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes, limiting distances	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.

TITLE 7—AGRICULTURE

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

PART 1103—AGRICULTURAL CONSERVATION; VIRGIN ISLANDS

SUBPART—1954

Foreword. Productive land is the main source of the food, clothing, and shelter for the American people. The conservation and improvement of this resource for sustained, productive use is an undertaking of vital concern to citizens of all walks of life.

The Agricultural Conservation Program is an important part, but only a part, of a coordinated effort to help landowners and operators attain soil conservation objectives. The total effort includes research, education, technical assistance, cost-sharing, and such indirect aids as credit.

The fundamental purpose of the Agricultural Conservation Program is to provide a means by which the public can share with landowners and operators the cost of carrying out needed conservation work over and above that which they would do with only their own resources. It is our sincere hope that the Agricultural Conservation Program will be carried out in such a manner that it will make a marked contribution toward attainment of conservation objectives.

General program principles. The 1954 Agricultural Conservation Program for the Virgin Islands has been developed and is to be carried out on the basis of the following general principles:

1. The program is confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit.

2. The program is designed to encourage those conservation practices which provide the most enduring conservation benefits practicably attainable in 1954 on the lands where they are to be applied.

3. Costs will be shared with a farmer only on satisfactorily performed conservation practices for which Federal cost-sharing was requested by the farmer before the conservation work was begun.

4. Costs should be shared only on practices which it is believed farmers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations on a particular farm should not be eligible for cost-sharing.

5. The rates of cost-sharing are the minimum required to result in substantially increased performance of needed practices.

6. The purpose of the program is to help achieve additional conservation on the land. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

7. If the Federal Government shares the cost of the initial application of conservation practices which farmers otherwise would not perform but which are essential to the national interest, the farmers should assume responsibility for the upkeep and maintenance of those practices.

INTRODUCTION

Sec.
1103.300 Introduction.

CONTROL OF FUNDS

1103.301 Maximum Federal cost-share.
1103.302 Adjustments.
1103.303 Allocation.

SELECTION OF PRACTICES AND RESPONSIBILITY FOR TECHNICAL PHASES

1103.306 Selection of practices.
1103.307 Responsibility for technical phases.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

1103.311 Practice 1: Initial establishment of permanent pasture for erosion control by seeding, sodding, or sprigging perennial grasses, or other approved forage plants.
1103.312 Practice 2: Initial eradication of shrubs or trees for establishing new permanent pasture for erosion control.
1103.313 Practice 3: Initial eradication of hurricane grass for establishing permanent pasture for erosion control.
1103.314 Practice 4: Construction of permanent cross fences to obtain better distribution and control of livestock grazing and to promote proper grassland management for protection of the established forage resources.
1103.315 Practice 5: Constructing wells for livestock water to obtain proper distribution of livestock, and encourage rotation grazing and better grassland management, as a means of protecting established vegetative cover.
1103.316 Practice 6: Installing pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover
1103.317 Practice 7: Constructing concrete or rubble masonry watersheds (catchments) and/or storage tanks to collect rainwater or for accumulating water from wells or springs for livestock or for irrigation purposes
1103.318 Practice 8: Constructing rock barriers to form bench terraces or to obtain or control the flow of water and check erosion on sloping land.
1103.319 Practice 9: Planting adapted trees on farmland for farm woodlots, erosion control, or for forestry purposes.
1103.320 Practice 10: Planting adapted trees on strips which have been cleared in areas of heavy brush, for erosion control and forestry purposes.
1103.321 Practice 11: Planting fruit trees for erosion control in gullies.

FEDERAL COST-SHARES

1103.331 Division of Federal cost-shares
1103.332 Increase in small Federal cost-shares.
1103.333 Federal cost-shares limited to $1,500.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

1103.336 Maintenance of practices.
1103.337 Practices defeating purposes of programs.
1103.338 Depriving others of Federal cost-share.
1103.339 Filing of false claims.
1103.340 Federal cost-shares not subject to claims.
1103.341 Assignments.
1103.342 Compliance with regulatory measures.
1103.344 Practices carried out with State or Federal aid.
1103.345 Excess cotton acreage.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

1103.351 Persons eligible to file application.
1103.352 Time and manner of filing application and information required.

APPEALS

1103.356 Appeals.

INTRODUCTION

§ 1103.300 *Introduction.* Through the 1954 Agricultural Conservation Program for the Virgin Islands (referred to in this subpart as the 1954 program), administered by the Department of Agriculture, the Federal Government will share with farmers of the Virgin Islands the cost of carrying out approved conservation practices in accordance with the provisions contained herein, and such modifications thereof, as may hereafter be made. Approved practices will be deemed to have been carried out during the program year if started after the beginning of the program year and the ASC State Office determines that they were substantially completed by the end of the program year. However, no practice will be eligible for Federal cost-sharing until it has been completed in accordance with all applicable specifications and program provisions. The 1954 program was developed by the ASC State Office, the Director of the Soil Conservation Service for the Caribbean Area, the Forest Service official having jurisdiction of farm forestry in the Virgin Islands, and representatives of the Agricultural Extension Service.

CONTROL OF FUNDS

§ 1103.301 *Maximum Federal cost-share.* The maximum Federal cost-share for a farm shall be equal to the total of the cost-shares for all practices approved for the farm and carried out in accordance with the specifications for such practices.

§ 1103.302 *Adjustments.* If the total estimated earnings under the program exceed the total funds available, the Federal cost-shares will be reduced equitably.

§ 1103.303 *Allocation.* The amount of funds available for conservation practices under this program is $9,000. This amount does not include the amount set aside for administrative expenses and the amount required for increase in small Federal cost-shares in § 1103.332.

SELECTION OF PRACTICES AND RESPONSIBILITY FOR TECHNICAL PHASES

§ 1103.306 *Selection of practices.* (a) This subpart contains a general description of the conservation practices in the 1954 program, the applicable specifications, and the rates of Federal cost-sharing for each practice. The practices included herein are those for which the ASC State Office, the Soil Conservation Service, and the Forest Service agree that the bearing by the Federal Government of a share of the cost is essential to permit accomplishment of needed conservation work which would not otherwise be carried out in the desired volume.

(b) Each farm operator shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance in adequate volume on his farm. Costs will be shared only for those practices for which cost-sharing is requested before performance of the practice is started. Any person who wishes to participate in the 1954 program must file a Cert. Form No. 39–54–V. I., Declaration of Intention, Request for Inspection and Certification of Conservation Needs, on or before September 15, 1954. In cases of hardship, such date may be extended by the ASC State Office. These forms may be obtained and filed at any of the offices of the Soil Conservation Service (SCS), offices of the Extension Service and Farmers Home Administration. Prior approval of the ASC State Office is required for all practices. Such approval shall be conditioned upon carrying out the practices under the supervision of persons who have been designated to be responsible for the practices and must be obtained before performance of the practice is started unless otherwise approved by the ASC State Office.

§ 1103.307 *Responsibility for technical phases.* (a) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1103.315–1103.318 and 1103.321. This responsibility shall include (1) a finding that the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land).

(b) The Forest Service is responsible for the technical phases of the practices contained in §§ 1103.319 and 1103.320. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through the ASC State Office, determining compliance in meeting these specifications.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

§ 1103.311 *Practice 1: Initial establishment of permanent pasture for erosion control by seeding, sodding, or sprigging perennial grasses, or other approved forage plants.* Federal cost-sharing will be allowed for planting any of the following grasses, or similar approved grasses or forage plants: Guinea Grass, Molasses Grass, Para Grass, Barbados Sour Grass, Bermuda Grass, St. Augustine Grass, Sour Paspalum Grass, Merker Grass, Pangola Grass, and Carpet Grass. The varieties of grasses must be well adapted to conditions of the particular area to be planted. The land must be properly prepared by plowing, and harrowing if necessary, and furrowing along contour lines, and sufficient quantities of slips, cuttings, or seeds used to assure a good ground cover at maturity. Where pasture is established by using seed, the rate of seeding should be not less than 12 pounds per acre. Where pasture is established by using slips or cuttings, the distance between the rows must not be more than 3 feet. On land of 2 percent or more slope the planting and cultivating must be as near as practicable along contour lines.

Maximum Federal cost-share. $4.50 per [illegible].

§ 1103.312 *Practice 2: Initial eradication of shrubs or trees for establishing new permanent pasture for erosion control.* (a) Federal cost-sharing will be allowed for eradicating any of the following shrubs or trees: Acacia, Soap Brush, Kanappy (Kennep), Sage, Guava, Logwood, Marigold, Tan Tan, Wild Cedar, Ginger Thomas, all varieties of Cactus, and Thibet (Tebit). All shrubs or trees, except such as can be used for timber or shade, must be thoroughly uprooted either by hand labor or mechanical implements, and all shrubs, trees and roots must be removed from the land or may be burned thereon. Permanent pasture of the varieties specified under practice 1 (§ 1103.311) must be established as soon as practicable. Temporary use of the land for other crops may be permitted where the ASC State Office determines this is essential to establishing the grasses. Farmers must obtain prior approval from the ASC State Office of the area and acreage to be cleared before starting the practice.

(b) No Federal cost-sharing will be allowed for this practice on any area on which cost-sharing for this practice has been allowed under a previous program. Federal cost-sharing for carrying out this practice is limited to not more than 20 acres on any farm, as defined in § 1103.366. This practice is applicable only to St. Thomas and St. John Islands. No Federal cost-sharing will be allowed for this practice if the Virgin Islands Corporation shared in the cost under any other program.

Maximum Federal cost-share. (1) $4.00 per acre on land with light growth where the shrubs or trees cover up to 30 percent of the area.

(2) $7.00 per acre on land with medium growth where the shrubs or trees cover more than 30 percent and up to 60 percent of the area.

(3) $10.00 per acre on land with heavy growth where the shrubs or trees cover more than 60 percent of the area.

§ 1103.313 *Practice 3: Initial eradication of hurricane grass for establishing permanent pasture for erosion control.* The eradication must be carried out by plowing or disking the whole area to a depth of at least 6 inches and double cuttings with heavy disk harrow at least twice at 30-day intervals. Permanent pasture of the varieties specified under practice 1 (§ 1103.311) must be established as soon as practicable after the hurricane grass has been eradicated. No Federal cost-sharing will be allowed for carrying out this practice on any acreage for which Federal cost-sharing for eradicating hurricane grass was allowed under a previous program.

Maximum Federal cost-share. $3.00 per acre.

§ 1103.314 *Practice 4: Construction of permanent cross fences to obtain better distribution and control of livestock grazing and to promote proper grassland management for protection of the established forage resources.* Federal cost-sharing will be allowed for new fences constructed entirely of new materials. Hardwood or living tree posts shall be used. Posts must be spaced not more than 6 feet apart with corner posts adequately braced. Four strands of No. 12½ standard gage or heavier barbed wire must be used and tightly stretched. Federal cost-sharing will not be allowed for boundary fences, fences between pasture and other land, and the repair, replacement, or maintenance of existing fences.

Maximum Federal cost-share. $2.20 per 100 linear feet.

§ 1103.315 *Practice 5: Constructing wells for livestock water to obtain proper distribution of livestock, and encourage rotation grazing and better grassland management, as a means of protecting established vegetative cover.* The wells should be constructed or drilled in an area of the farm where the providing of water will contribute to a better distribution of grazing. The necessary pumping equipment must be installed, except in conection with artesian wells. Adequate drinking troughs for animals also must be installed. Dug wells must have a minimum diameter of not less than 8 feet, including the stone lining which must have a thickness of not less than 12 inches. No Federal cost-sharing will be allowed for wells constructed or drilled at or for use at farm headquarters nor unless water is obtained.

Maximum Federal cost-share. (1) Constructing dug wells lined with stone, $3.25 per cubic yard of well dug.

(2) Drilling wells:

(a) $1.00 per linear foot of well for wells having a bore taking a casing of less than 4 inches in diameter, and artesian wells.

(b) $2.00 per linear foot of well for wells having a bore taking a casing of 4 inches or more but less than 6 inches in diameter, excluding artesian wells.

(c) $3.00 per linear foot of well for wells having a bore taking a casing of 6 inches or more in diameter, excluding artesian wells.

§ 1103.316 *Practice 6: Installing pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover.* Federal cost-sharing will be allowed when the pipeline carries water to areas where no other water supply for livestock is available and proper drinking troughs for livestock have been provided. No Federal cost-sharing will be allowed for this practice if the cost is shared by the Virgin Islands Corporation under any other program.

Maximum Federal cost-share. (1) $0.12 per linear foot when pipes of 1 inch diameter are used.

(2) $0.18 per linear foot when pipes of 1¼ inches diameter are used.

(3) $0.25 per linear foot when pipes of 2 inches or more diameter are used.

§ 1103.317 *Practice 7: Constructing concrete or rubble masonry watersheds (catchments) and/or storage tanks to collect rain water or for accumulating water from wells or springs for livestock or for irrigation purposes.* Adequate pumping equipment and drinking troughs for animals must be installed. No Federal cost-sharing will be allowed for maintaining an existing structure.

Maximum Federal cost-share. (1) $12.00 per cubic yard of concrete structure.

(2) $7.00 per cubic yard of rubble masonry structure.

§ 1103.318 *Practice 8: Constructing rock barriers to form bench terraces or to obtain or control the flow of water and check erosion on sloping land.* The height of the barriers must not exceed 5 feet. The location and the distance between the barriers shall be in accordance with the recommendations of the Soil Conservation Service.

Maximum Federal cost-share. $1.50 per cubic yard of rock used.

§ 1103.319 *Practice 9: Planting adapted trees on farmland for farm woodlots, erosion control, or for forestry purposes.* The trees must be planted, regardless of the slope of the land, in rows not less than 10 feet apart, with a distance of not less than 10 feet within the row, and must have been planted at least one year and only those living will be counted. All plantings must be protected from fire and grazing. No Federal cost-sharing will be allowed for this practice if the Virgin Islands Corporation shared in the cost under any other program.

Maximum Federal cost-share. $5.00 per 100 trees.

§ 1103.320 *Practice 10: Planting adapted trees on strips which have been cleared in areas of heavy brush, for erosion control and forestry purposes.* All brush on the strips must be uprooted and the brush removed from the spaces where trees are to be planted. The trees must be planted on the strips cleared in this manner, and spaced not more than 10 feet apart. All plantings must be protected from fire and grazing. Necessary erosion preventive measures must be carried out. Federal cost-sharing will be allowed only for well-established trees, approximately 1 foot high and living at the time of inspection, and for not more than 200 trees per acre. No Federal cost-sharing will be allowed for this practice if the Virgin Islands Corporation shared in the cost under any other program.

Maximum Federal cost-share. (1) For clearing strips 2 feet wide at intervals of 20 feet, $3.00 per acre.

(2) Planting trees such as mahogany or varieties suitable for timber, recommended by the Forest Service, $0.05 per tree.

§ 1103.321 *Practice 11: Planting fruit trees for erosion control in gullies.* Trees must be planted on the contour and protected from fire and grazing. A permanent cover of grass, legumes, or mulch must be obtained under the trees. Federal cost-sharing will be allowed for not more than 200 trees on a farm. No Federal cost-sharing will be allowed for this practice if the Virgin Islands Corporation shared in the cost under any other program.

Maximum Federal cost-share. $0.10 per tree.

FEDERAL COST-SHARES

§ 1103.331 *Division of Federal cost-shares.*—(a) *Federal cost-shares.* Federal cost-shares shall be credited to the person who carried out the practices by which such Federal cost-shares are earned. If more than one person contributed to the carrying out of such practices, the Federal cost-share shall be divided among such persons in the proportion that the ASC State Office determines they contributed to the carrying out of the practices. In making this determination, the ASC State Office shall take into consideration the value of the labor, equipment or material contributed by each person toward the carrying out of each practice on a particular acreage and shall assume that each contributed equally unless it is established to the satisfaction of the ASC State Office that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance.* In case of death, incompetency, or disappearance of any person, any Federal share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended (Part 1108 of this chapter).

§ 1103.332 *Increase in small Federal cost-shares.* The Federal cost-share computed for any person with respect to any farm shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may in such manner and at such time as is consistent with such legislation discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of cost-share computed:	Increase in cost-share
$1 to $1.99	$0.40
$2 to $2.99	.80
$3 to $3.99	1.20
$4 to $4.99	1.60
$5 to $5.99	2.00
$6 to $6.99	2.40
$7 to $7.99	2.80
$8 to $8.99	3.20
$9 to $9.99	3.60
$10 to $10.99	4.00
$11 to $11.99	4.40
$12 to $12.99	4.80
$13 to $13.99	5.20
$14 to $14.99	5.60
$15 to $15.99	6.00
$16 to $16.99	6.40
$17 to $17.99	6.80
$18 to $18.99	7.20
$19 to $19.99	7.60
$20 to $20.99	8.00
$21 to $21.99	8.20
$22 to $22.99	8.40
$23 to $23.99	8.60
$24 to $24.99	8.80
$25 to $25.99	9.00
$26 to $26.99	9.20
$27 to $27.99	9.40
$28 to $28.99	9.60
$29 to $29.99	9.80
$30 to $30.99	10.00
$31 to $31.99	10.20
$32 to $32.99	10.40
$33 to $33.99	10.60
$34 to $34.99	10.80
$35 to $35.99	11.00
$36 to $36.99	11.20
$37 to $37.99	11.40
$38 to $38.99	11.60
$39 to $39.99	11.80
$40 to $40.99	12.00
$41 to $41.99	12.10
$42 to $42.99	12.20
$43 to $43.99	12.30
$44 to $44.99	12.40
$45 to $45.99	12.50
$46 to $46.99	12.60
$47 to $47.99	12.70
$48 to $48.99	12.80
$49 to $49.99	12.90
$50 to $50.99	13.00
$51 to $51.99	13.10
$52 to $52.99	$13.20
$53 to $53.99	13.30
$54 to $54.99	13.40
$55 to $55.99	13.50
$56 to $56.99	13.60
$57 to $57.99	13.70
$58 to $58.99	13.80
$59 to $59.99	13.90
$60 to $185.99	14.00
$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.

[2] No increase.

§ 1103.333 *Federal cost-shares limited to $1,500.* (a) The total of all Federal cost-shares under the 1954 program to any person with respect to farms, ranching units, and turpentine places in United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $1,500.

(b) All or any part of any Federal cost-share which otherwise would be due any person under the 1954 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1103.336 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm under the 1954 program will be subject to the condition that the person with whom the costs are shared will maintain such practices in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1103.337 *Practices defeating purposes of programs.* If the ASC State Office finds that any person has adopted or participated in any practice which tends to defeat the purpose of the 1954 or any previous program, including, but not limited to, failure to maintain in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1103.338 *Depriving others of Federal cost-share.* If the ASC State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1103.339 *Filing of false claims.* If the ASC State Office finds that any person has knowingly filed claim for payment of the Federal cost-share under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-sharing under the program and shall refund all amounts that may have been paid to him under the program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1103.340 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1103.341, and except for indebtedness to the United States subject to set-off under orders issued by the Secretary); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1103.341 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1954 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1954. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70–Insular Region.

§ 1103.342 *Compliance with regulatory measures.* Persons who carry out conservation practices under the 1954 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

§ 1103.344 *Practices carried out with State or Federal aid.* The Federal share of the cost for any practice shall not be reduced because it is carried out with materials or services furnished through the program or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total Federal cost-share computed on the basis of the total number of units of the practice performed shall be reduced by the value of the aid, as determined by the ASC State Office, in computing the amount of the Federal cost-share to be paid for performance of the practice. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 1103.345 *Excess cotton acreage.* (a) Any person who makes application for payment of cost-shares with respect to any farm located in a county in which any kind of cotton is planted in 1954 shall file with such application a statement that he has not knowingly planted any kind of cotton or caused any kind of cotton to be planted during 1954 on any farm in which he has an interest in excess of the 1954 acreage allotment established for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended.

(b) Any person who knowlingly plants any kind of cotton or causes any kind of cotton to be planted on his farm in 1954 in excess of the 1954 acreage allotment for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment of cost-shares whatsoever on that farm or on any other farm under 1954 programs authorized by sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended. Cotton of any kind shall not be deemed to have been planted on any farm in excess of the farm acreage allotment for such kind of cotton if, after the acreage originally planted to such kind of cotton has been determined and notice thereof sent to the operator of the farm, the acreage planted to such kind of cotton is adjusted to the farm acreage allotment for such kind of cotton in the period allowed under the notice. If the operator is notified that the acreage allotment for any kind of cotton has been exceeded and the acreage planted to such kind of cotton is not adjusted to such acreage allotment in the period allowed under the notice, the acreage allotment for such kind of cotton shall be deemed to have been knowingly exceeded by all producers having an interest in such kind of cotton on the farm. Notice of overplanting to the operator of the farm shall be deemed to be notice to all persons sharing in the production of any kind of cotton on the farm.

(c) For the purposes of this section "kind of cotton" shall be upland cotton or extra long staple cotton.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

§ 1103.351 *Persons eligible to file application.* Any person who, as landlord, tenant, or sharecropper on a farm, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1103.352 *Time and manner of filing application and information required.* Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the offices of the Soil Conservation Service Work Unit at St. Thomas or St. Croix not later than February 28, 1955, except that the ASC State Office may accept an application filed after February 28, 1955, but not later than December 31, 1955, in any case where the failure to timely file was not the fault of the applicant. If an application for a farm is filed within the time prescribed, any person on the farm who did not sign the application may subsequently file an application, provided he

does so on or before December 31, 1955. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any form which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the ASC State Office within the time fixed by the Administrator, ACPS, which time shall be not later than December 31, 1955. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible, to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the SCS Work Unit offices and making copies available to the press.

APPEALS

§ 1103.356 *Appeals.* Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the ASC State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-shares with respect to the farm. The ASC State Office shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the ASC State Office, he may, within 15 days after its decision is forwarded to or made available to him, request the Administrator, ACPS, to review the decision of the ASC State Office. The decision of the Administrator, ACPS, shall be final. Written notice of any decision rendered under this section by the ASC State Office shall also be issued to each other landlord, tenant, or sharecropper on the farm who may be adversely affected by the decision.

BULLETINS, INSTRUCTIONS, AND FORMS

§ 1103.361 *Bulletins, instructions, and forms.* The Administrator, ACPS, is authorized to make determinations and to prepare and issue bulletins, instructions, and forms containing detailed information with respect to the 1954 program as it applies to the Virgin Islands, and forms will be available in the State and district ASC offices. Producers wishing to participate in the program should obtain all information needed from the offices mentioned herein.

DEFINITIONS

§ 1103.366 *Definitions.* For the purposes of the 1954 program:

(a) "Secretary" means the Secretary of the United States Department of Agriculture or the officer of the Department acting in his stead pursuant to delegated authority.

(b) "Administrator, ACPS," means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means the Virgin Islands.

(d) "ASC State Office" means the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico.

(e) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise, or other legal entity (and, wherever applicable, a State, a political subdivision of a State, or any agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(f) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the ASC State Office, in accordance with instructions issued by the Administrator, ACPS, determines is operated by the same person as part of the same unit in producing livestock or with respect to the rotation of crops, and with work stock, machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm shall be regarded as located in the municipality in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the municipality in which the major portion of the farm is located.

(g) "Cropland" means farmland which in 1953 was tilled or was in regular crop rotation, excluding (1) bearing orchards (except the acreage of cropland therein), and (2) plowable noncrop open pasture.

(h) "Orchards" means the acreage in planted fruit trees, nut trees, coffee trees, vanilla plants, and banana plants.

(i) "Pastureland" means farmland, other than rangeland, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(j) "Rangeland" means nonirrigated land growing, without cultivation, native perennial grasses and forage plants primarily, and used for grazing by domestic livestock.

(k) "Program Year" means the period from January 1, 1954, through December 31, 1954.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1103.371 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q), and the Department of Agriculture Appropriation Act, 1954.

§ 1103.372 *Availability of funds.* (a) The provisions of the 1954 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1954 program will not be available for paying Federal cost-shares for which applications are filed in the SCS Work Unit Offices after December 31, 1955.

§ 1103.373 *Applicability.* (a) The provisions of the 1954 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act), or the Fish and Wildlife Service of the United States Department of the Interior; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by a State or political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator, ACPS, and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 18th day of January 1954.

[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture.

[F. R. Doc. 54–399; Filed, Jan. 20, 1954; 8:48 a. m.]

PART 1106—NAVAL STORES CONSERVATION PROGRAM

SUBPART—1954

EXCESS COTTON ACREAGE

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act and section 348 of the Agricultural Adjustment Act of 1938, as amended, the 1954 Naval Stores Conservation Program, issued August 15 1953 (18 F. R. 4885) is amended by adding a new § 1106.527 a to read as follows:

§ 1106.527a *Excess cotton acreage.* (a) Any person who makes application for payment of cost-shares with respect to any farm located in a county in which any kind of cotton is planted in 1954 shall file with such application a statement that he has not knowingly planted any kind of cotton or caused any kind of cotton to be planted during 1954 on any farm in which he has an interest in excess of the 1954 acreage allotment established for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended.

(b) Any person who knowingly plants any kind of cotton or causes any kind of cotton to be planted on his farm in 1954 in excess of the 1954 acreage allotment for the farm for such kind of cotton under the Agricultural Adjustment Act of 1938, as amended, shall not be eligible for any payment of cost-shares whatsoever on that farm or on any other farm under 1954 programs authorized by sections 7–17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended. Cotton of any kind shall not be deemed to have been planted on any farm in excess of the farm acreage allotment for such kind of cotton if, after the acreage originaly planted to such kind of cotton has been determined and notice thereof sent to the operator of the farm, the acreage planted to such kind of cotton is adjusted to the farm acreage allotment for such kind of cotton in the period allowed under the notice. If the operator is notified that the acreage allotment for any kind of cotton has been exceeded and the acreage planted to such kind of cotton is not adjusted to such acreage allotment in the period allowed under the notice, the acreage allotment for such kind of cotton shall be deemed to have been knowingly exceeded by all producers having an interest in such kind of cotton on the farm. Notice of overplanting to the operator of the farm shall be deemed to be notice to all person sharing in the production of any kind of cotton on the farm.

(c) For the purposes of this section "kind of cotton" shall be upland cotton or extra long staple cotton.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended, sec. 348, 52 Stat. 59, as amended, Public Law 156, 83d Cong.; 7 U. S. C. 1348, 16 U. S. C. 590g–590q)

Done at Washington, D. C. this 18th day of January 1954.

[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture.

[F. R. Doc. 54–421; Filed, Jan. 20, 1954; 8:53 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

MISCELLANEOUS AMENDMENTS

Sections 536.31 and 536.32 are rescinded and the following substituted therefor:

§ 536.31 *Policy.* (a) Persons or agencies apprehending and detaining or delivering absentees or deserters to military control will be rewarded or reimbursed by:

(1) Payment of a reward of $15 for the apprehension and detention of absentees, deserters, or escaped military prisoners until the military authorities take them under control;

(2) Payment of a reward of $25 for the apprehension and delivery to military control of absentees, deserters, or escaped military prisoners; or

(3) Reimbursement for actual expenses incurred incident to apprehension and detention or delivery not to exceed $25 under circumstances when rewards are not payable.

(b) The amount of reward or reimbursement for actual expenses incurred incident to apprehension and detention or delivery will be charged against the absentee, deserter, or escaped military prisoner including a prisoner sentenced to discharge, whose discharge has not been executed.

(c) The costs of reward or reimbursement will not be charged against an absentee, deserter, or escaped military prisoner who was mentally irresponsible at the time of commencement of absence.

§ 536.32 *Definitions.* For the purpose of §§ 536.31 to 536.35, the following definitions apply:

(a) *Service member.* A commissioned officer, warrant officer, or enlisted member of the Army.

(b) *Absent without leave.* The status of a service member subject to military law who, without proper authority, fails to go to an appointed place of duty at the time prescribed, or goes from that place, or absents himself, or remains absent from his unit, organization, or other place of duty at which he is required to be at the time prescribed.

(c) *Absentee.* A service member who is absent without leave.

(d) *Desertion.* Absence without leave accompanied with the intention not to return, or to avoid hazardous duty, or to shirk important service.

(e) *Military prisoner.* A prisoner, whether detained, arraigned, or sentenced, or unsentenced.

(f) *Return to military control.* The physical turn-over or delivery of an absentee, deserter, or escaped military prisoner to the military authorities authorized to receive such persons.

§ 536.33 *Payment of reward.* Persons or agencies (except any salaried officer or employee of the Federal government or service member) may be paid a reward for the apprehension and detention or delivery of absentees, deserters, or escaped military prisoners under the following circumstances, provided that the persons or agencies are in receipt of DD Form 553 (Absentee Wanted By The Armed Forces), or have been notified by military authorities, or Federal law enforcement officers that the person was absent and that his return to military control is desired. Payment of the reward will be made to the person or agency who turns over or delivers to military control an absentee, deserter, or an escaped military prisoner. Such payments will be in full satisfaction of all expenses of apprehending, keeping and delivering the absentee, deserter, or escaped military prisoner. If two or more persons join in performing these services, payment will be made only to the person or agency recognized and designated by the military authority, at the time the service member is received, as having returned the member to military control. Payment of reward will be made when absentees, deserters, or escaped military prisoners voluntarily surrender to persons or agencies, other than salaried officers or employees of the Federal government or service members, and such persons or agencies take them into custody and detain or deliver them to military control. However, payment of a reward will not be made to an attorney on whose advice the absentee, deserter, or escaped military prisoner surrenders himself. Payment will not be made merely for information leading to an apprehension, or for an apprehension not followed by the return to military control of the service member apprehended.

(a) A reward of $15 may be paid for the apprehension and detention of absentees, deserters, or escaped military prisoners until the military authorities take them under control. The person or agency must notify the proper military authorities and detain the absentee, deserter, or escaped military prisoner until the military authorities physically take over control.

(b) A reward of $25 may be paid for the apprehension and delivery to military control of absentees, deserters, or escaped military prisoners. The delivery must be to a military installation where actual physical control may be assumed by military authorities.

(c) One reward only may be paid for any particular apprehension and detention or delivery. The reward may be divided by the payee among several participants in the apprehension and detention or delivery. However, payment will be made only to one person or agency.

(d) In the event the apprehension and detention or delivery is effected jointly by a salaried officer or employee of the Federal Government or service member and a person or agency qualified to receive a reward, payment of the full reward will be made to the person or agency so qualified.

§ 536.34 *Reimbursement for actual expenses.* (a) Reimbursement for actual expenses incurred may be made not to exceed $25 in those cases when the absentee, deserter, or escaped military prisoner has been physically turned over to military control and when no reward has been offered or when conditions for payment of a reward cannot otherwise be met. Reimbursement of actual expenses may be made to a person or agency ineligible to receive rewards, a salaried officer or employee of the Federal Government, a service member, or an attorney on whose advice the absentee, deserter, or escaped military prisoner surrenders himself to military authorities. Reasonable expenses for which reimbursement may be made include the following:

(1) Travel performed by privately owned conveyance at the rate of 7 cents

a mile, on a round trip basis, from either place of apprehension or civil police headquarters to place of return to military control.

(2) Actual and necessary expenses including taxicab fare or bus fare when necessary for travel performed by the person or agency representative and prisoner.

(3) Cost of all necessary meals consumed by the prisoner, provided the cost was actually incurred by the apprehending, detaining, or delivering person or agency representative.

(4) Telephone and telegraph communication costs in connection with the apprehension or detention or delivery of the prisoner to military authority.

(5) Damages to the apprehending, detaining, or delivering persons or agencies property whenever such damages are caused directly by the prisoner.

(6) Any other reasonable expenses incurred in the actual apprehension or detention or delivery of the prisoner as may be deemed justifiable and reimbursable by the certifying officer.

(b) Reimbursement may be made to more than one person or agency listed in paragraph (a) of this section for the expenses incurred by each in apprehending, detaining, or delivering the absentee, deserter, or escaped military prisoner when more than one person or agency is involved in the actual return of the individual to military control, provided the total reimbursement does not exceed $25 for the return of any individual. However, the absentee, deserter, or escaped military prisoner must actually be returned to military control before reimbursement may be made to any of the persons or agencies involved in the apprehending, detaining, or delivering of the individual.

(c) Reimbursement will not be made for transportation performed by official vehicles or for personal services of delivering person or agency representative.

(d) Both reward and reimbursement may not be paid for the same apprehension and detention or delivery.

§ 536.35 *Cost of confinement of military prisoners in nonmilitary facilities.*

(a) Civil authorities may be reimbursed for the cost of confinement of absentees, deserters, or escaped military prisoners detained for safekeeping at the request of the appropriate military authority after the member has been turned over to military control, provided the military authority has authorized such further detention.

(b) When the use of nonmilitary confinement facilities is contracted for by the appropriate military authority for the reason that military confinement facilities are not available at the military installation for prisoners, civil authorities may be paid for the costs of such confinement.

[AR 35-1570, May 14, 1953, and C2, AR 35-1570, December 30, 1953] (R. S. 161; 5 U. S. C. 22)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 54-406; Filed, Jan. 20, 1954; 8:50 a. m.]

Subchapter E—Organized Reserves

PART 561—ARMY RESERVE

MISCELLANEOUS AMENDMENTS

1. In § 561.31, paragraph (g) is rescinded and the following substituted therefor:

§ 561.31 *Eligibility.* • • •

(g) *Dependents.* Male applicants having dependents are eligible for enlistment if otherwise qualified, only if entitled to enlist in grade E-4 or higher, or or in circumstances equivalent to those prescribed in §§ 571.1 to 571.5 of this chapter governing enlistment in the Regular Army of male applicants with dependents, including enlistment of Selective Service registrants classified 1A, except that applicants without prior active service who have four or more dependents are not eligible for enlistment. Applicants for immediate reenlistment who have dependents and who have had not less than 3 years' service may be reenlisted (without regard to grade) but, if in grade lower than E-4, will be required to sign a waiver, as shown below, of any deferment from active duty.

State of ---------- ss:
City, town, or military post ----------
I, ----------, applicant for enlistment as a reservist of the Army, understanding that if enlisted I am subject to being ordered to active duty, do hereby waive any right I might have to deferment from active duty.

(Signature)

Sworn to and subscribed before me this ---- day of ---------, 19---

---
(Signature (Army Reserve recruiting officer or offier administering oath))

• • • • • •

2. In § 561.32, paragraph (a) is rescinded and the following substituted therefor:

§ 561.32 *Ineligibility.* • • •

(a) Any person who has been ordered to report for preinduction physical and mental examinations under the Universal Military Training and Service Act, as amended, except for immediate reenlistment and concurrent order to active duty and except for those instances where deferment from induction has been granted and is of such length or character that the training which the enlistee could reasonably be expected to undergo would be of advantage to the individual and to the Army. A registrant currently classified 1-A-P is not eligible.

• • • • • •

3. In § 561.33 a new paragraph (a-1) is added as follows:

§ 561.33 *Grade.* • • •

(a-1) Former noncommissioned officers of the Army last discharged from active duty in grades E-7, E-6, or E-5 who apply for enlistment after 180 days but within 12 months from date of discharge will be enlisted in a grade one grade lower than that in which discharged. Those who apply for enlistment within the period from 12 to 24 months after date of discharge will be enlisted in a grade two grades lower than that in which discharged. Those enlisting after the expiration of 24 months may be enlisted in grade as authorized in pertinent special regulations.

• • • • • •

4. Section 561.36 is rescinded and the following substituted therefor:

§ 561.36 *Report of separation from the Armed Forces of the United States required for enlistment or reenlistment.* Persons applying for enlistment or reenlistment as reservists of the Army for service in the Army Reserve who have had prior military service will present their last Report of Separation from the Armed Forces of the United States (DD Form 214) to the recruiting officer who will enter thereon the date, place, and period of the new enlistment. In the event that the applicant has lost or misplaced his last report of separation or when otherwise necessary, verification of his Army service will be obtained by the recruiting officer from The Adjutant General, or from the station or organization from which discharge is claimed, prior to accomplishing enlistment or reenlistment. For duty other than in the Army, verification will be obtained by the recruiting officer from proper officials of the service concerned prior to accomplishing enlistment or reenlistment.

[C2, SR 140-107-1, December 24, 1953] (68 Stat. 481)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VI-3]

DMO VI-3—ESTABLISHMENT OF AN INDUSTRIAL DEFENSE COMMITTEE

By virtue of the authority vested in me by Executive Order 10461 of June 17, 1953 and Reorganization Plan No 3 of June 12, 1953, and in order to facilitate the development and insure the coordination and effectiveness of Federal policies, programs and activities for reducing and overcoming the effects of attack damage on the Continental United States, it is hereby ordered:

1. There is established in the Office of Defense Mobilization the Industrial Defense Committee which shall consist of a representative of the Office of Defense Mobilization who is hereby designated as Chairman, and a representative designated by the head of each of the following agencies:

Department of the Treasury.
Department of Defense.
Department of the Interior.
Department of Agriculture.
Department of Commerce.
Department of Labor.
Department of Health, Education and Welfare
Federal Civil Defense Administration
Federal Reserve System.
General Services Administration
Housing and Home Finance Agency
Small Business Administration.

and such other agencies as the Director of the Office of Defense Mobilization may from time to time designate.

2. The Committee shall advise the Assistant Director for Non-Military Defense on policies, plans, programs, problems and activities related to reducing and overcoming the effects of attack damage on the continental United States which come within his jurisdiction.

3. The Central Task Force on Post-Attack Industrial Rehabilitation is hereby terminated. Each person who is now a member of the Central Task Force may continue as a member of the Industrial Defense Committee without the necessity of redesignation by reason of this order.

4. This order shall become effective immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter III—Corps of Engineers, Department of the Army

PART 311—RULES AND REGULATIONS GOVERNING PUBLIC USE OF CERTAIN RESERVOIR AREAS

MISCELLANEOUS AMENDMENTS

The Secretary of the Army having determined that the use of the John Martin Reservoir Area, including Lake Hasty, Arkansas River, Colorado, by the general public for boating, swimming, bathing, fishing and other recreation purposes will not be contrary to the public interest and will not be inconsistent with the operation and maintenance of the reservoir for its primary purposes, hereby prescribes rules and regulations for the public use of the John Martin Reservoir Area, including Lake Hasty, Colorado, pursuant to the provisions of section 4 of the Flood Control Act of 1946 (60 Stat. 643) as follows:

A new paragraph (xx) is added to § 311.1 and a new subparagraph (27) is added to paragraph (a) of § 311.4, as follows:

§ 311.1 *Areas covered.* • • •

(xx) John Martin Reservoir Area, including Lake Hasty, Arkansas River, Colorado.

§ 311.4 *Houseboats.* (a) A permit shall be obtained from the District Engineer for placing any houseboats on the water of any reservoir area listed in § 311.1, except for the following reservoir areas on which houseboats are prohibited:

• • • • • •

(27) John Martin Reservoir Area, including Lake Hasty, Arkansas River, Colorado.

• • • • • •

TITLE 43—PUBLIC LANDS: INTERIOR

Subtitle A—Office of the Secretary of the Interior

[Order No. 2744]

PART 8—JOINT POLICY FOR LAND ACQUISITION ON RESERVOIR PROJECTS; DEPARTMENT OF THE INTERIOR-DEPARTMENT OF THE ARMY

JANUARY 13, 1954.

Sec.
8.1 Lands to be acquired in fee.
8.2 Lands for which easements are to be acquired.
8.3 Blocking out.
8.4 Mineral rights.
8.5 Buildings.
8.6 Acquisition of lands for collateral purposes.
8.7 Application of policy.

AUTHORITY: §§ 8.1 to 8.7 issued under sec. 7, 32 Stat. 389, sec. 14, 53 Stat. 1197; 43 U. S. C. 421, 389.

§ 8.1 *Lands to be acquired in fee.* The fee title will be acquired to the following lands:

(a) Lands necessary for permanent structures.

(b) Lands below the top of the pool elevation for storing water for navigation, power, irrigation and other conservation purposes.

(c) Fee title in general will be acquired to all land 300 feet horizontally from the edge of the conservation pool described in paragraph (b) of this section. In those projects where the topography is precipitous, or where the topography is unusually flat, and where such discretionary action is desirable, fee title may be acquired to those lands which are included in the five-year flood frequency rather than 300 feet horizontally.

(d) Additional lands which may be needed to provide for limited public use and reasonable access in accordance with applicable laws, or for operation and maintenance of the project.

(e) Lands covered by the exception noted in § 8.2 (f).

§ 8.2 *Lands for which easements are to be acquired.* Easements will be acquired to the following lands:

(a) Additional reservoir lands needed for flowage in reservoir areas above those described in § 8.1 (c).

(b) Lands in reservoir areas of navigation only projects.

(c) Lands in reservoir areas of flood control only projects which do not provide conservation pools.

(d) Lands required for a relatively short time for temporary structures or for use during the construction period only.

(e) Easements may be acquired for lands in the zone as defined in § 8.1 (c) above the conservation pool, and which are in remote areas of the reservoir or which had previously been subject to frequent inundation, where it is determined that fee title is not required.

(f) Fee title may be taken as necessary where it is to the financial advantage of the Government to acquire fee rather than easement, and in special cases to prevent hardship.

§ 8.3 *Blocking out.* In land acquired in fee, blocking out will be accomplished in accordance with sound real estate practices, for example, on minor sectional subdivision lines; and, normally, land will not be acquired to avoid severance damage if the owner will waive such damage. For lands acquired in easement, close tangents may be used in the upper limit of the easement-held lands; the final easement taking line thereof should generally follow the upper flood line when elevation differences are not significant. Tangents will not be refined to the point they are economically disadvantageous. If more economical, easements may be secured on the basis of the right to flood to a prescribed elevation rather than to block out the upper flood line.

§ 8.4 *Mineral rights.* Mineral, oil and gas rights will not be acquired where the owner objects or where a substantial additional cost would be involved, except where mineral development would interfere with operation of the project or except where required by the provisions of the Atomic Energy Act. Mineral rights not acquired will be subordinated to the Government's right to regulate their development in a manner that will not interfere with the primary purposes.

§ 8.5 *Buildings.* Buildings for human occupancy as well as other structures which would interfere with the operation of the project for its primary purposes would be prohibited in the reservoir areas on lands for which an easement is acquired.

§ 8.6 *Acquisition of lands for collateral purposes.* Except as authorized by law, no title to land will be acquired for purposes of preservation of wildlife or forests, restoration or replacement of such values destroyed by reservoirs or for creating additional values of like nature, or for recreational purposes.

§ 8.7 *Application of policy.* The policy set forth in this part will govern the determination as to acquisition of any tract on which title to the United States has not been vested or a final judgment in condemnation has not been entered except for projects on which the land acquisition program has progressed to the point where application of the policy would be unreasonable or to the distinct disadvantage of the United States or to the general public. The application of the principles and criteria outlined above to lands already acquired for reservoir projects by disposal of fee title to former owners will require Federal legislation. Flowage easements will be retained where necessary. All other lands rendered surplus by this policy will continue to be dis-

posed of in accordance with existing laws.

RALPH A. TUDOR,
Acting Secretary of the Interior.

[F. R. Doc. 54-358; Filed, Jan. 20, 1954; 8:45 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

OWNERSHIP REPORTS, BROADCAST LICENSEES AND PERMITTEES

1. The Commission has before it for consideration § 1.343 of its rules and regulations relating to the filing of Ownership Reports (FCC Form 323) by licensees and permittees of broadcast stations.

2. Under paragraph (a) of the existing rule licensees and permittees of each broadcast station (standard, FM, television and international) are required to file on or before April 1 of each year an Ownership Report (FCC Form 323) giving certain information as of December 31 of the preceding calendar year. Under paragraph (b) of the existing rule licensees and permittees of broadcast stations are required to file a supplemental Ownership Report (FCC Form 323) within 30 days after any change occurs in the information required in the ownership report (the application or construction permit in the case of a permittee who has not filed an Ownership Report).

3. On the basis of its past experience, the Commission is now of the view that compliance by licensees and permittees with paragraph (b) of § 1.343 of the rules provides the Commission with sufficient ownership data as to warrant elimination of the requirement of annual ownership reporting. The Commission is, however, of the opinion that the public interest does require that licensees file a full and complete ownership report at the time of application for renewal of license.

4. The amendment adopted herein is procedural in nature and prior notice of rule making in this case is not required. The amendment adopted herein represents a relaxation of the requirements of the present rule since it provides that licensees of broadcast stations file ownership reports at the time an application for renewal of license is filed rather than annually. Accordingly, the amendment adopted herein may be made effective immediately.

5. In view of the foregoing: *It is ordered*, That, effective immediately, § 1.343 of the Commission's rules and regulations is amended as follows:

a. Amend paragraph (a) to read as follows:

(a) The licensee of each broadcast station (standard, FM, television and international) shall file an Ownership Report (FCC Form 323) at the time the application for renewal of station license is required to be filed by § 1.320 (a), giving the following information as of the date of filing:

(1) In the case of an individual, the name of such individual.

(2) In the case of a partnership, the names of the partners and the interests of each partner.*

(3) In the case of a corporation or association: (i) Capitalization, with a description of the classes and voting power of stock authorized and the shares of each class issued and outstanding; (ii) the name, residence, citizenship, and stockholdings of officers and directors, and stockholders; (iii) full information with respect to the interest and identity of any person whether or not a stockholder of record, having any interest direct or indirect, in the licensee or any of its stock;

For example:

(a) Where A is the beneficial owner or votes stock held by B, the same information should be furnished for A as is required for B.

(b) Where X corporation controls the licensee, or holds 25 percent or more of the stock of the licensee, the same information should be furnished with respect to X corporation (its capitalization, officers, directors, and stockholders and the amount of stock in X held by each) as is required in the case of the licensee, together with full information as to the identity and citizenship of the person authorized to vote licensee's stock.

(c) The same information should be furnished as to Y corporation if it controls X corporation or holds 25 percent or more of the stock of X, and as to Z corporation if it controls Y corporation or holds 25 percent or more of the stock of Y and so on back to natural persons.

(iv) Full information as to family relationship or business association between two or more officials and/or stockholders.

(4) In the case of all licensees (i) a list of all contracts still in effect required to be filed with the Commission by § 1.342 showing the date of execution and expiration of each contract; (ii) any interest which the licensee may have in any other broadcast station.

b. In paragraph (b), after the words "any change" add footnote numbers 6 and 7.

c. At the end of footnote 7 add "and § 1.321".

6. *It is further ordered*, That, the present Ownership Report (FCC Form 323) dated June 1953 be amended by deleting the word "annually" in the last line of the note on Page 3, Paragraph 8 and as amended, is hereby adopted and designated as the form to be used in reporting required ownership information.

7. *It is further ordered*, That, because of the instant amendment of § 1.343 of the rules herein adopted no annual Ownership Report for the calendar year ending December 31, 1953, need be filed.

8. *It is further ordered*, That, licensees of broadcast stations required to file an application for renewal of station license on and after February 1, 1954, under § 1.320 (a) of the Commission's rules, for station licenses expiring on May 1, 1954 and after, shall also file an Ownership Report (FCC Form 323) under § 1.343 (a) as herein amended.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: January 13, 1954.

Released: January 14, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-419; Filed, Jan. 20, 1954; 8:53 a. m.]

PART 3—RADIO BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

The Commission desires to make changes in Part 3—Radio Broadcast Services (revised to June 30, 1953) to correct certain typographical errors contained in §§ 3.25, 3.165, section 2A of Appendix to Subpart B and Table III of Appendix II to Subpart E.

The amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately.

The amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's order defining the functions and establishing the organizational structure of the Office of the Secretary, dated February 14, 1952, as amended.

It is ordered, This 18th day of January 1954, that, effective immediately, Part 3 of the Commission's rules and regulations is revised as set forth below:

I. Section 3.25 (c) is amended to read as follows:

(c) For Class II stations which will not deliver over 5 microvolts per meter groundwave or 25 microvolts per meter 10 percent time skywave at any point on the Canadian border and provided that such stations operating nighttime (i. e., sunset to sunrise at the location of the Class II station) are located not less than 650 miles from the nearest Canadian border, 540,[1] 690, 740, 860, 990, 1010,[2] and 1580 kilocycles.

II. The last word in § 3.165 (b) (4) is changed from "ommissions" to "emissions."

III. Section 2 A of Appendix to Subpart B—Standards of Good Engineering Practice Concerning FM Broadcast Stations is amended to read as follows:

A. Sections 3.202 to 3.205 inclusive of the rules and regulations describe the basis for allocation of FM broadcast stations, including the division of the United States into Areas I and II.

IV. Table III of Appendix II to Subpart E is amended as follows: Change the statute mile figure for 40° 18'' to read 52.830 instead of 53.830.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Released: January 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-420; Filed, Jan. 20, 1954; 8:53 a. m.]

* Any change in partners or in their rights will require prior consent of the Commission upon an application for consent to assignment of license or permit. If such change involves less than a controlling interest, the application for Commission consent to such change may be made upon FCC Form No. 316 (Short Form).

[1] See § 2.104 (a) of this chapter.

[2] A station on 1010 kilocycles shall also protect a Class I-B station at Havana, Cuba.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 40]

EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 62 of the Internal Revenue Code (53 Stat. 32; 26 U. S. C. 62) and in sections 433 (b) (19) and 457 (c) of the Internal Revenue Code, as added by sections 4 and 1, respectively, of Public Law 594, 82d Congress, approved July 21, 1952.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 130 (26 CFR Part 40) to sections 1, 2, 3, and 4 of Public Law 594, 82d Congress, approved July 21, 1952, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 40.433 (b)-1 the following:

PUBLIC LAW 594—82D CONGRESS APPROVED JULY 21, 1952

* * * * *

SEC. 4. Effective with respect to taxable years ending after June 30, 1950, section 433 (b) of the Internal Revenue Code (relating to the computation of average base period net income) is hereby amended by inserting at the end thereof two new paragraphs reading as follows:

(18) *Adjustment for base period losses from branch operations.* In the case of a taxpayer which during two or more such taxable years operated a branch at a loss, the excess profits net income for each such taxable year (determined without regard to this paragraph) shall be increased by the amount of the excess of such loss above the loss, if any, incurred by such branch during the taxable year for which the tax under this subchapter is being computed. As used in this paragraph, the term 'branch' means a unit or subdivision of the taxpayer's business which was operated in a separate place from its other business and differed substantially from its other business with respect to character of products or services. A unit or subdivision of the taxpayer's business shall not be considered to differ substantially from the taxpayer's other business unless it is of a type classifiable by the Standard Industrial Classification Manual in a different major industry group or in a different subgroup of the taxpayer's major industry group than that in which its other business is so classifiable: *Provided, however*, That this paragraph shall not apply unless the sum of the net losses of such branch during the base period exceeded 15 per centum of the aggregate excess profits net income of the taxpayer during the base period. For the purposes of this paragraph, the aggregate excess profits net income of the taxpayer during the base period shall be the sum of its excess profits net income for all years in the base period, increased by the sum of the net losses of such branch during the base period.

(19) *Rules for application of paragraph (18).* For the purposes of paragraph (18):

(A) A branch shall be deemed to have been operated at a loss during a taxable year if the portion of the deductions under section 23 for such year which is determined, under regulations prescribed by the Secretary, to be the portion thereof properly allocable to the operation of such branch exceeds the portion of the gross income during the taxable year which is determined under such regulations to be the portion thereof properly allocable to the operation of such branch; and the amount of the loss shall be an amount equal to such excess.

(B) If the portion of the gross income determined to be properly allocable to the operation of the branch is a minus quantity, the amount of such excess shall be the sum of the deductions under section 23 determined to be properly allocable to the operation of the branch plus an amount equal to such minus quantity.

* * * * *

PAR. 2. There is inserted immediately after § 40.433 (b)-3 the following new section:

§ 40.433 (b)-4 *Base period losses from branch operations*—(a) *In general.* In the case of a taxpayer which during two or more taxable years in the base period operated a branch at a loss, section 433 (b) (18) provides an adjustment in computing the excess profits net income of the taxpayer for each taxable year in the base period during which such branch was operated at a loss. The excess profits net income of the taxpayer for any such taxable year in the base period (determined without regard to section 433 (b) (18)) shall be increased by the amount of the excess, if any, of (1) the loss incurred by the branch during the taxable year in the base period, over (2) the loss, if any, incurred by such branch during the taxable year for which the excess profits tax is being computed. The adjustment under section 433 (b) (18) shall not be made, however, unless the sum of the net losses of such branch during the base period, as determined under paragraph (c) (3) of this section, exceeded 15 percent of the aggregate excess profits net income of the taxpayer during the base period. For the purposes of section 433 (b) (18) and this section, the aggregate excess profits net income of the taxpayer during the base period shall be the sum of its excess profits net income for all taxable years in the base period, increased by the sum of the net losses of such branch during the base period.

(b) *Definition of "branch"*—(1) *In general.* The term "branch", as used in section 433 (b) (18) and this section, means a unit or subdivision of the taxpayer's business which (i) was operated in a separate place from its other business and (ii) differed substantially from its other business with respect to the character of products or services.

(2) *Separate location.* A unit or subdivision of the taxpayer's business shall be considered as having been operated in a separate place from its other business only if there was a distinct and complete physical separation between the unit or subdivision and the taxpayer's other business.

(3) *Different products or services.* A unit or subdivision of the taxpayer's business shall not be considered to differ substantially from the taxpayer's other business with respect to the character of products or services unless the unit or subdivision is of a type properly classifiable by the Standard Industrial Classification Manual prepared by the Division of Statistical Standards of the Bureau of the Budget in a different major industry group or in a different subgroup of the taxpayer's major industry group than that in which its other business is so classifiable. A difference in classification by the Manual shall not necessarily constitute a substantial difference with respect to the character of products or services. Whether a unit or subdivision differs substantially from the taxpayer's other business with respect to the character of products or services is to be determined upon the particular facts in each case.

(c) *Computation of loss and sum of the net losses*—(1) *Allocation of gross income and deductions.* Items of gross income and deductions shall be allocated to the branch and to the taxpayer's other business in such manner as will clearly reflect the gross income and deductions properly attributable to such branch and to such other business.

(2) *Computation of loss.* The amount of the loss sustained by the branch during any taxable year shall be the excess, if any, of:

(i) The portion of the deductions under section 23 (not including the net operating loss deduction provided in section 23 (s)) for such year which is allocable to the branch under subparagraph (1) of this paragraph, taking into account any applicable adjustments under section 433 (a) or (b), over

(ii) The portion of the gross income for such year which is allocable to the branch under subparagraph (1) of this

paragraph, taking into account any applicable adjustments under section 433 (a) or (b).

If the amount under subdivision (ii) of this subparagraph is a minus quantity, the amount of the loss shall be the sum of the amount under subdivision (i) of this subparagraph plus an amount equal to such minus quantity. If the amount under subdivision (i) of this subparagraph does not exceed the amount under subdivision (ii) of this subparagraph, then the amount by which the amount under subdivision (ii) of this subparagraph exceeds the amount under subdivision (i) of this subparagraph shall be considered the profits realized by the branch during the taxable year.

(3) *Computation of sum of the net losses.* The sum of the net losses of the branch during the entire base period shall be an amount equal to (i) the aggregate losses sustained by the branch during the base period minus (ii) the aggregate profits realized by the branch during the base period, computed as provided in subparagraphs (1) and (2) of this paragraph.

(d) *Statement required.* A taxpayer claiming the benefits of section 433 (b) (18) shall attach to its income tax return or claim for refund a statement setting forth fully all pertinent information necessary for the establishment of its eligibility and for the computation of the adjustment under such section.

PAR. 3. There is inserted immediately preceding § 40.457–1 the following:

PUBLIC LAW 594—82D CONGRESS APPROVED JULY 21, 1952

[SECTION 1.] • • • effective with respect to taxable years ending after June 30, 1950, section 457 of the Internal Revenue Code, as added by section 101 of the Excess Profits Tax Act of 1950, is hereby amended by changing its heading to read "Corporations Completing Contracts or Making Deposits Under Merchant Marine Act" and by adding to said section 457 the following new subsection:

(c) *Base period earnings credit for deposits under Merchant Marine Act, 1936.* The excess profits net income computed under section 433 (b) for any base period year shall be increased by the amount, if any, by which (1) the taxpayer's tax-deferred deposits of earnings, made in or accrued to reserve funds under section 607 of the Merchant Marine Act, 1936, in respect of such base period year, exceeds (2) the amount of such deposits of earnings for the taxable year. The Secretary shall provide, by regulation, for proper adjustment of the deposits made in or accrued to the reserve funds for any taxable year so as to exclude therefrom any amount payable for such year as reimbursement of operating-differential subsidy.

• • • • •

PAR. 4. Section 40.457–1 is amended by striking "457" in the first sentence of paragraph (a) and of paragraph (c) and in the first and second sentences of paragraph (d) and of paragraph (e) and by inserting in each case in lieu thereof "457 (a) and (b)".

PAR. 5. There is inserted immediately after § 40.457–1 the following new section:

§ 40.457–2 *Corporations making deposits under Merchant Marine Act of 1936*—(a) *In general.* Section 457 (c) is applicable to a taxpayer which has entered into a contract with the Federal Maritime Board or its predecessor, the United States Maritime Commission, pursuant to the Merchant Marine Act, 1936, as amended (hereinafter referred to as the act), which makes provision for the payment of an operating-differential subsidy to the taxpayer. Section 457 (c) provides that the excess profits net income of the taxpayer for any taxable year in the base period, computed under section 433 (b), shall be increased by the excess, if any, of (1) the taxpayer's tax-deferred deposits of earnings (as defined in paragraph (b) of this section) made in or accrued to the reserve funds under section 607 of the act in respect of such taxable year in the base period, over (2) the taxpayer's tax-deferred deposits of earnings (as defined in paragraph (b) of this section) made in or accrued to the reserve funds under such section 607 in respect of the taxable year for which the excess profits tax is being computed.

(b) *Tax-deferred deposits.* The term "tax-deferred deposits of earnings", for the purposes of section 457 (c) and this section, means the excess, if any, of (1) the amounts of ordinary income for any taxable year deposited by the taxpayer in either the capital reserve fund or the special reserve fund under section 607 of the act, to the extent that such amounts are treated as "tax-deferred" in a closing agreement entered into under section 3760 between the taxpayer and the Commissioner, over (2) the amount payable for such year by the taxpayer as reimbursement of operating-differentiation subsidy, as computed under paragraph (c) of this section. Ordinary income deposited in such reserve funds consists of the following items: (i) Mandatory deposits of the earnings from the operations of subsidized vessels and services incident thereto, including the excess of (a) the amounts which the United States Maritime Commission or the Maritime Administration requires the taxpayer to deposit for depreciation over (b) the amounts allowable as depreciation under section 23 (l), computed on the adjusted basis provided in section 113 (b); (ii) voluntary deposits of earnings; and (iii) interest earned on tax-deferred amounts in the capital reserve and special reserve funds. Excessive profits which the taxpayer is excused from depositing, to the extent such profits are withheld from the payment of operating-differential subsidy by the United States Maritime Commission or the Maritime Administration (as provided by Public Law 862, 80th Congress, 62 Stat. 1196, or any corresponding provisions of law subsequently enacted), shall be treated as if they were deposited in the special reserve fund. The deposit of amounts received from the United States Maritime Commission or the Maritime Administration which had previously been withheld from payment of operating-differential subsidy under the provisions of Public Law 862, 80th Congress, 62 Stat. 1196, or under any corresponding provisions of law subsequently enacted, shall be considered a deposit of earnings with respect to the taxable year in which actually deposited in the reserve fund. Tax-deferred deposits of earnings do not include amounts which would constitute capital gains under section 117, or would be treated as capital gains under section 117 (j), if currently taxable, even though such amounts are deposited in the reserve funds.

(c) *Adjustment for amounts payable as reimbursement of operating-differential subsidy.* (1) For the purpose of the adjustment of tax-deferred deposits referred to in paragraph (b) (2) of this section, the amount payable for any taxable year as reimbursement of operating-differential subsidy shall be the amount of excessive profits accruing for such year to the United States Maritime Commission or the Maritime Administration under sections 606 and 607 of the Act. The amount of excessive profits so accruing for any taxable year shall be determined by reference to the recapturable profits account as properly recorded on the corporate books of account, taking into account the excess, if any, of (i) the balance of such account as of the close of such year, over (ii) the balance of such account as of the close of the preceding taxable year.

(2) In computing the excess under subparagraph (1) of this paragraph, the respective balances of the recapturable profits account shall be determined as of the close of the taxable year without regard to any events which happen after the close of such year and shall be further adjusted to eliminate any part of such balances attributable to any recapture period prior to the recapture period in which the taxable year falls.

(3) The recapturable profits account referred to in subparagraphs (1) and (2) of this paragraph is the "Recapturable Profits—Maritime Administration" account prescribed by the Maritime Administrator in the "Uniform System of Accounts for Maritime Carriers" (General Order No. 22, revised October 16, 1950) and, for the period prior to January 1, 1951, the "Recapture Profits—U. S. Maritime Commission" account prescribed by the United States Maritime Commission in the "Uniform System of Accounts for Operating-Differential Subsidy Contractors" (General Order No. 22, adopted February 4, 1938).

(4) The term "recapture period", as used in subparagraph (2) of this paragraph, means the period referred to in section 606 (5) of the act.

(d) *Statement required.* A taxpayer claiming the benefits of section 457 (c) shall attach to its income tax return or claim for refund a statement showing a complete computation of the amount of the adjustment under such section, including an itemized list of all deposits into the capital reserve fund and into the special reserve fund and a complete computation showing the amount payable as reimbursement of operating-differential subsidy.

PAR. 6. There is inserted immediately after § 40.459 (e)–1 the following:

PUBLIC LAW 594—82D CONGRESS APPROVED JULY 21, 1952

• • • • • •

SEC. 2. Section 459 of the Internal Revenue Code (miscellaneous provisions relating to the computation of average base period net income) is hereby amended by adding at the end thereof the following new subsection:

(f) *Companies preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals—(1) Eligibility requirement.* In the case of a taxpayer which commenced business on or prior to January 1, 1936, and since such date has been primarily engaged in manufacturing, if—

(A) The percentage of the taxpayer's purchases of raw materials which were strategic and critical metals (as defined in paragraph (3)) was 80 per centum or more for each of the taxable years beginning with or within the taxpayer's base period;

(B) The taxpayer's average monthly excess profits net income (computed in the manner provided in section 443 (e)) for the period comprising all taxable years ending with or within the first twenty-four months of its base period was 250 per centum or more of the average monthly excess profits net income (so computed) of the taxpayer for the period comprising all taxable years ending with or within the last twenty-four months of its base period;

(C) The adjusted basis of the taxpayer's total facilities (as defined in section 444 (d)) as of the beginning of its base period (when added to the total facilities at such time of all corporations with which the taxpayer has the privilege under section 141 of filing a consolidated return for its first taxable year under this subchapter) did not exceed $10,000,000; and

(D) The adjusted basis of the taxpayer's total facilities (as defined in section 444 (d)) on the last day of its base period was 180 per centum or more of the adjusted basis of its total facilities on the first day of its base period.

the taxpayer's average base period net income determined under this subsection shall be the amount computed under paragraph (2).

(2) *Computation.* The average base period net income determined under this subsection for a taxpayer entitled to the benefits of this subsection shall be the amount computed under section 435 (e) (2) (E) and (F) except that there shall be substituted for the aggregate of the excess profits net income for each of the six months in the period beginning July 1, 1949, and ending December 31, 1949, an amount computed by multiplying the aggregate of the excess profits net income for each of the six months in the period beginning July 1, 1946 and ending December 31, 1946, by the per centum determined by dividing the adjusted basis of taxpayer's total facilities (as defined in section 444 (d)) on December 31, 1948, by the adjusted basis of its total facilities on the first day of its base period. The average base period net income computed under the preceding sentence shall not exceed 80 per centum of the excess profits tax net income for the taxpayer's first taxable year under this subchapter.

(3) *Definition of strategic and critical metals.* As used in this subsection, the term "strategic and critical metals" means copper and zinc which on January 1, 1945, had been determined by proper authority to be strategic and critical under the provisions of the Strategic and Critical Stock Piling Act and shall include scrap containing such metals.

SEC. 3. The amendment made by section 2 shall be applicable with respect to all taxable years ending after June 30, 1950.

• • • • •

§ 40.459 (f)–1 *Companies preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals*—(a) *In general.* A corporation which commenced business on or before January 1, 1936, which has been primarily engaged in manufacturing since January 1, 1936, and which satisfies all the requirements provided in subparagraphs (A) through (D) of section 459 (f) (1) may compute its average base period net income, for the purpose of computing its excess profits tax for any taxable year ending after June 30, 1950, under the provisions of section 459 (f) (2) and of (b) of this section instead of under any other applicable provision of the Code and regulations. The average base period net income computed under section 459 (f) (2), in the case of a taxpayer which meets the eligibility requirements provided in section 459 (f) (1), shall be used in computing the taxpayer's excess profits tax for any excess profits tax taxable year if the use of such average base period net income computed under section 459 (f) results in a lesser excess profits tax for such taxable year than would result from any other allowable computation of such tax. If the taxpayer computes its average base period net income under section 459 (f), the base period capital addition provided in section 435 (f) shall not be allowed in computing its excess profits credit. Thus, for example, if the use of the amount computed under section 435 (d) as the average base period net income together with the base period capital addition would result in a lesser excess profits tax for a taxable year than would result from the use of the amount computed under section 459 (f) as the average base period net income but without the base period capital addition, then in determining the excess profits tax for such taxable year the average base period net income shall be the amount computed under section 435 (d) and not the amount computed under section 459 (f) without regard to which of such amounts is the greater.

(b) *Computation of average base period net income under section 459 (f).* If a taxpayer may compute its average base period net income under section 459 (f), its average base period net income as computed under section 459 (f) (2) shall be the amount computed under section 435 (e) (2) (E) and (F) and under § 40.435–5 (a) (5) and (6) and § 40.435–5 (b), except that there shall be substituted for the aggregate of the excess profits net income for each of the six months in the period beginning July 1, 1949, and ending December 31, 1949, an amount computed by multiplying the aggregate of the excess profits net income for each of the six months in the period beginning July 1, 1946, and ending December 31, 1946, by the percent determined by dividing the adjusted basis of the taxpayer's total facilities (as defined in section 444 (d)) on December 31, 1948, by the adjusted basis of its total facilities on the first day of its base period. In no event, however, shall the average base period net income computed under section 459 (f) (2) exceed 80 percent of the taxpayer's excess profits net income for its first excess profits tax taxable year (that is, for its first taxable year ending after June 30, 1950).

(c) *Definition of strategic and critical metals.* The term "strategic and critical metals", for the purposes of section 459 (f) and of this section, means copper and zinc which on January 1, 1945, had been determined by proper authority to be strategic and critical under the provisions of the Strategic and Critical Stock Piling Act and shall also include scrap containing such metals, if such metals constitute a substantial portion of such scrap.

(d) *Date the taxpayer commenced business.* The date the taxpayer commenced business shall be determined, for the purposes of section 459 (f) and of this section, under the rules provided in the regulations promulgated under section 445, relating to the computation of average base period net income in the case of new corporations. See § 40.445–1 (a) (2).

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10765]

RADIO BROADCAST SERVICES

NOTICE OF EXTENSION OF TIME FOR FILING

In re amendment of § 3.25 (a) of the Commission rules, Docket No. 10765.

1. On November 24, 1953 the Commission issued a notice of proposed rule making (FCC 53–1531) in the above entitled matter which specified that comments were to be filed on or before January 15, 1954. National Broadcasting Company, Inc. (NBC) and Clear Channel Broadcasting Service (CCBS) have requested the time for filing comments be extended until March 8, 1954 in order that engineering studies may be concluded.

2. In view of the above requests notice is hereby given that the time for filing comments in the above entitled matter is extended to March 8, 1954. Replies to such comments may be filed on or before March 23, 1954.

Adopted: January 14, 1954.

Released: January 15, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

NOTICES

DEPARTMENT OF THE TREASURY

Foreign Assets Control

IMPORTATION OF CERTAIN MERCHANDISE DIRECTLY FROM HONG KONG

AVAILABLE CERTIFICATIONS

Notice is hereby given that certificates of origin issued by the Department of Commerce and Industry of the Government of Hong Kong under procedures agreed upon between that government and the Foreign Assets Control are now available with respect to the importation into the United States directly, or on a through bill of lading, from Hong Kong of the following additional commodities:

Pictures, iron.
Plum sauce.
Sandalwood fans.
Soy bean sauce.
Trays, brass.
Wheat starch.

[SEAL] ELTING ARNOLD,
Acting Director,
Foreign Assets Control.

[F. R. Doc. 54-406; Filed, Jan. 20, 1954; 8:49 a. m.]

HAIR OF CERTAIN ANIMALS, AND COTTON AND SILK WASTE; IMPORTATION FROM COUNTRIES NOT IN AUTHORIZED TRADE TERRITORY

APPLICATIONS FOR LICENSES

Notice is hereby given that the Treasury Department is now prepared to consider applications for licenses under the Foreign Assets Control Regulations (31 CFR 500.101-500.808) to purchase and import any of the following commodities from countries not in the authorized trade territory (other than Communist China and North Korea):

Badger hair.
Camel hair.
Cotton waste.
Goat hair.
Horse mane hair, horse tail hair and other horse hair.
Silk waste.
Yak hair.

Applications will now be considered from persons who have previously imported such a commodity from any part of the world, including Communist China and North Korea. Up to the present time Foreign Assets Control licenses were granted only to persons who had previously imported such a commodity from a country not in the authorized trade territory, other than Communist China and North Korea.

Any person wanting to import during 1954 one or more of the aforementioned commodities from any country not in the authorized trade territory (other than Communist China or North Korea) should file an application for this purpose on Form TFAC-1. The application should be filed in duplicate with the Federal Reserve Bank of New York no later than February 23, 1954. Each application should describe and state the quantity and value of each commodity the applicant desires to import during 1954, its country of origin and the names and addresses of all persons who it is contemplated will be involved as suppliers, agents, shippers or intermediaries of any sort. The application should also set forth for each commodity desired to be imported the record of the importations effected for applicant's own account and risk for each of the years 1946 through 1951. The record should show for each such importation the description of the merchandise as per the contract or invoice, the date of the invoice, the country of origin of the merchandise, the name and address of the supplier, the quantity and value of the merchandise actually imported, and the date, port and number of the covering entry. No importation, whether made in the name of the applicant or another person, should be listed unless the importation was for the account and at the risk of the applicant. In all cases where importations were in the name of persons other than the applicant, the basis on which they are listed as importations by the applicant should be fully explained.

Attention is directed to the fact that the term "authorized trade territory" is defined in § 500.322 of the Foreign Assets Control Regulations and that the term "countries not in the authorized trade territory" as used herein includes Albania, Bulgaria, Czechoslovakia, the Eastern Zone of Germany, the Eastern Sector of Berlin, Estonia, Hungary, Latvia, Lithuania, Outer Mongolia, Poland, Rumania, and the Union of Soviet Socialist Republics.

[SEAL] ELTING ARNOLD,
Acting Director,
Foreign Assets Control.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Misc. 60935]

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS RESTORED FROM COLORADO RIVER STORAGE PROJECT

JANUARY 15, 1954.

An order of the Bureau of Reclamation dated April 2, 1951, concurred in by the Assistant Director, Bureau of Land Management, May 7, 1951, revoked the departmental order of October 16, 1931, so far as it withdrew under the provisions of the Reclamation Act of June 17, 1902 (32 Stat. 388), the following-described land in connection with the Colorado River Storage Project, Arizona, and provided that such revocation should not affect any other orders withdrawing or reserving the lands described:

GILA AND SALT RIVER MERIDIAN

T. 13 N., R. 19 W.,
Sec. 4.

The area described contains 639.76 acres.

The lands lie in a rough, broken area, about 15 miles from the nearest highway, and are almost inaccessible by automobile. Vegetation consists of black brush, burro brush, mesquite, scattered grasses and weeds. They are usable mainly for grazing. They are primarily suitable for disposition by private exchange. It is not likely that they will be classified for any other disposition, but any application that is filed will be considered on its merits.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals, the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Phoenix, Arizona.

WILLIAM PINCUS,
Assistant Director.

ARIZONA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

JANUARY 15, 1954.

An application, serial number Misc. 63087, for the withdrawal from all forms of appropriation under the public land laws, except the mineral leasing laws of the lands described below was filed on April 7, 1952, by Fish and Wildlife Service, U. S. Department of the Interior. The purposes of the proposed withdrawal: Gila River Water Fowl Area Acquisition, Arizona.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region V, Bureau of Land Management, Department of the Interior at Box 1695, Albuquerque, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

GILA AND SALT RIVER MERIDIAN

ALASKA

RESTORATION ORDER NO. 3, UNDER FEDERAL POWER ACT

JANUARY 14, 1954.

Pursuant to the following-listed determination of the Federal Power Commission, and in accordance with section 2.22 (a) (4) of Order No. 427, approved by the Secretary of the Interior August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights, the lands in Alaska, hereinafter described, so far as they are withdrawn for power purposes, are hereby opened to disposition under the public land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

Determination No.	Dates and types of withdrawals	Type of restoration
DA-2 Alaska	Power Site Reserve No. 676 of Jan. 23, 1918; Power Site Classification No. 107 of June 12, 1925; Power Site Classification No. 369 of Mar. 29, 1950.	Under the applicable public land laws.

LAND DESCRIPTION, SEWARD MERIDIAN

T. 14 N., R. 1 E., all unsurveyed lands located within ¼ mile of Peters Creek.
T. 15 N., R. 1 E., all unsurveyed lands located within ¼ mile of Peters Creek.
T. 15 N., R. 1 W., all unsurveyed land therein lying within ¼ mile of Peters Creek

This order shall not become effective until 10:00 a. m. on the 35th day after the date of this order. At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead, home or headquarters site under the act of May 26, 1934 (48 Stat. 809, 48 U. S. C. 461), by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statement in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent such regulations are applicable. Applications under the homestead and homesite laws shall be governed by the regulations contained in Parts 64, 65 and 166 of Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

LOWELL M. PUCKETT,
Regional Administrator.

R., effective 1-7-54 to 1-6-55; 10 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour; installers and repairmen, framemen, testmen, switchmen; each 320 hours at 53 cents an hour, 320 hours at 58 cents an hour, 320 hours at 63 cents an hour (telephone industry).

Porto Rico Telephone Co., Hato Rey, P. R., effective 1-7-54 to 1-6-55; 10 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour (telephone industry).

Porto Rico Telephone Co., Mayaguez, P. R., effective 1-7-54 to 1-6-55; 15 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour; installers and repairmen, framemen, testmen, switchmen; each 320 hours at 53 cents an hour, 320 hours at 58 cents an hour, 320 hours at 63 cents an hour (telephone industry).

Porto Rico Telephone Co., Ponce, P. R., effective 1-7-54 to 1-6-55; 15 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour; installers and repairmen, framemen, testmen, switchmen; each 320 hours at 53 cents an hour, 320 hours at 58 cents an hour, 320 hours at 63 cents an hour (telephone industry).

Porto Rico Telephone Co., Rio Piedras, P. R., effective 1-7-54 to 1-6-55; 10 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour, (telephone industry).

Porto Rico Telephone Co., Santurce, P. R., effective 1-7-54 to 1-6-55; 95 learners; telephone operators, 240 hours at 53 cents an hour, 240 hours at 58 cents an hour; installers and repairmen, splicers, framemen, apparatus repairmen, testmen, switchmen; each 320 hours at 53 cents an hour, 320 hours at 58 cents an hour, 320 hours at 63 cents an hour (telephone industry).

Weston Puerto Rico, Inc., Ponce, P. R., effective 1-7-54 to 5-6-54; 30 learners; coil winding, 160 hours at 34 cents an hour, 160 hours at 37 cents an hour; assemblers, adjusters, inspectors, each 160 hours at 34 cents an hour (assembly of electrical indicating instruments).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 13th day of January 1954.

MILTON BROOKE, *Authorized Representative of the Administrator.*

Wage and Hour and Public Contracts Divisions

EMPLOYMENT OF HANDICAPPED CLIENTS BY SHELTERED WORKSHOPS

ISSUANCE OF SPECIAL CERTIFICATES

Notice is hereby given that special certificates authorizing the employment of handicapped clients at hourly wage rates lower than the minimum wage rates applicable under section 6 of the Fair Labor Standards Act of 1938, as amended, and section 1 (b) of the Walsh-Healey Public Contracts Act, as amended, have been issued to the sheltered workshops hereinafter mentioned, under section 14 of the Fair Labor Standards Act of 1938, as amended (sec. 14, 52 Stat. 1068; 29 U. S. C. 214, as amended, 63 Stat. 910), and Part 525 of the regulations issued thereunder, as amended (29 CFR Part 525), and under sections 4 and 6 of the Walsh-Healey Public Contracts Act (secs. 4, 6, 49 Stat. 2038; 41 U. S. C. 38, 40) and Article 1102 of the regulations issued pursuant thereto (41 CFR 201.1102).

The names and addresses of the sheltered workshops, wage rates and the effective and expiration dates of the certificates are set forth below. In each case, the wage rates are established at rates not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or at wage rates stipulated in the certificate, whichever is higher.

Sheltered Shop; Rehabilitation Center for the Physically Handicapped, Inc., 20 Wall Street, Stamford, Connecticut; at a rate of not less than 5 cents per hour for a training period of 40 hours and 15 cents thereafter. Certificate is effective November 1, 1953, and expires October 31, 1954.

Buffalo Association for the Blind, 864 Delaware Avenue, Buffalo 9, New York; at a rate of not less than 30 cents per hour for a training period of 80 hours and 50 cents thereafter in the Contract Shop and at a rate of not less than 30 cents per hour in The Rehabilitation Center. Certificate is effective December 1, 1953, and expires November 30, 1954.

Buffalo Association for the Blind, 180 Goodell Street, Buffalo, New York; at a rate of not less than 35 cents per hour for a training period of 320 hours and 50 cents thereafter. Certificate is effective December 1, 1953, and expires November 30, 1954.

Elmira Association for the Blind, Inc., 717 Lake Street, Elmira, New York; at a rate of not less than 50 cents per hour for a training period of 160 hours and 60 cents thereafter. Certificate is effective December 1, 1953, and expires November 30, 1954.

Federation of the Handicapped, Inc., 211 West 14th Street, New York 11, New York; at a rate of not less than 40 cents per hour. Certificate is effective November 5, 1953, and expires October 31, 1954.

Goodwill Home and Rescue Mission, 28-44 Eagles Street, Newark, New Jersey; at a rate of not less than 40 cents per hour for a training period of 120 hours and 55 cents thereafter for Paper Balers and at a rate of not less than 40 cents per hour for Truck Helpers. Certificate is effective January 1, 1954, and expires December 31, 1954.

Mobility, Inc., Mobility Workshop, 13 North Central Avenue, Elmsford, New York; at a rate of not less than 50 cents per hour. Certificate is effective December 4, 1953, and expires November 30, 1954.

The New York Association for the Blind, Occupational Department, 111 East 59th Street, New York 22, New York; at a rate of not less than 10 cents per hour. Certificate is effective January 1, 1954, and expires November 30, 1954.

New York Guild for the Jewish Blind, 1880 Broadway, New York 23, New York; at a rate of not less than 20 cents per hour. Certificate is effective November 25, 1953, and expires February 28, 1954.

Veterans of Foreign Wars of the United States, Buddy Poppy Department, Home for Disabled Soldiers, Menlo Park, New Jersey; at a rate of not less than 10 cents per hour for a training period of 80 hours and 15 cents thereafter. Certificate is effective November 1, 1953, and expires October 31, 1954.

Veterans of Foreign Wars of the United States, Buddy Poppy Department, New Jersey Memorial Home, Vineland, New Jersey; at a rate of not less than 10 cents per hour for a training period of 80 hours and 15 cents thereafter. Certificate is effective November 1, 1953, and expires October 31, 1954.

Veterans of Foreign Wars of the United States, Buddy Poppy Department, Veterans' Camp, Mt. McGregor, New York; at a rate of not less than 10 cents per hour for a training period of 80 hours and 15 cents thereafter. Certificate is effective November 1, 1953, and expires October 31, 1954.

Baltimore Goodwill Industries, 201 South Broadway, Baltimore, Maryland; at a rate of not less than 40 cents per hour. Certificate is effective January 1, 1954, and expires December 31, 1954.

Pennsylvania Association for the Blind, Lancaster County Branch, 506 West Walnut Street, Lancaster, Pennsylvania; at a rate of not less than 40 cents per hour. Certificate is effective January 1, 1954, and expires December 31, 1954.

Pennsylvania Association for the Blind, Inc., Washington County Branch, 254 North Main Street, Washington, Pennsylvania; at a rate of not less than 50 cents per hour. Certificate is effective November 25, 1953, and expires November 30, 1954.

Volunteers of America, 724 Diamond Street, Pittsburgh, Pennsylvania; at a rate of not less than 57 cents per hour. Certificate is effective December 1, 1953, and expires November 30, 1954.

Mississippi Industries for the Blind, 2501 North West Street, Jackson, Mississippi; at a rate of not less than 50 cents per hour. Certificate is effective December 1, 1953, and expires November 30, 1954.

Jackson Goodwill Industries, 217 North Jackson Street, Jackson, Michigan; at a rate of not less than 40 cents per hour for a training period of 40 hours and 60 cents thereafter. Certificate is effective December 14, 1953, and expires November 30, 1954.

The Lott Day School, 255 Heffner at Kelsey, Toledo 5, Ohio; at a rate of not less than 10 cents per hour. Certificate is effective November 9, 1953, and expires October 31, 1954.

The Montefiore Home, 3151 Mayfield Road, Cleveland Heights 18, Ohio; at a rate of not less than 5 cents per hour for a training period of 80 hours and 8 cents thereafter. Certificate is effective December 7, 1953, and expires November 30, 1954.

The Chicago Lighthouse for the Blind, 3323 West Cermak Road, Chicago 23, Illinois; at a rate of not less than 30 cents per hour for a training period of 160 hours and 40 cents thereafter. Certificate is effective December 1, 1953, and expires November 30, 1954.

Goodwill Industries of Chicago and Cook County, Illinois, 1500 West Monroe Street, Chicago 7, Illinois; at a rate of

not less than 40 cents per hour for a training period of 160 hours and 50 cents thereafter. Certificate is effective December 1, 1953, and expires November 30, 1954.

Indianapolis Goodwill Industries, Inc., 215 South Senate Avenue, Indianapolis 25, Indiana; at a rate of not less than 45 cents per hour for a training period of 160 hours and 50 cents thereafter in the Shoe Repair Division and at a rate of 50 cents per hour for a training period of 160 hours and 55 cents thereafter in all other Divisions. Certificate is effective November 1, 1953, and expires October 31, 1954.

Industrial Workshop, a division of the Jewish Vocational Service, 311 Hamm Building, St. Paul 2, Minnesota; at a rate of not less than 30 cents per hour. Certificate is effective November 4, 1953, and expires April 30, 1954.

Marion County Society for Crippled Children and Adults, Inc., 3001 North New Jersey Street, Indianapolis 5, Indiana; at a rate of not less than 25 cents per hour for assembling, sorting, and stuffing mail; at a rate of not less than 50 cents per hour for a training period of 160 hours and 55 cents thereafter for typing, mimeographing, and alphabetizing; at a rate of not less than 45 cents per hour for a training period of 160 hours and 50 cents thereafter for multigraphing; and at a rate of not less than 50 cents per hour for a training period of 160 hours and 60 cents thereafter for other contract work. Certificate is effective December 1, 1953, and expires November 30, 1954.

Dallas County Association for the Blind, 2729 Hatcher Street, Dallas, Texas; at a rate of not less than 25 cents per hour for a training period of 480 hours and 40 cents thereafter. Certificate is effective October 1, 1953, and expires September 30, 1954.

Goodwill Industries of El Paso, El Paso, Texas; at a rate of not less than 50 cents per hour. Certificate is effective January 1, 1954, and expires December 31, 1954.

Goodwill Industries and Gospel Mission, 13 West Salem Avenue, Roanoke, Virginia; at a rate of not less than 45 cents per hour in the Store and at a rate of not less than 50 cents per hour in all other Divisions. Certificate is effective January 1, 1954, and expires December 31, 1954.

Norfolk Goodwill Industries, 316 Bank Street, Norfolk, Virginia; at a rate of not less than 55 cents per hour. Certificate is effective December 1, 1953, and expires November 30, 1954.

Upper East Tennessee Workshop for the Blind, 600 East Maple, Johnson City, Tennessee; at a rate of not less than 40 cents per hour for a training period of 320 hours and 50 cents thereafter. Certificate is effective November 16, 1953, and expires October 31, 1954.

The employment of handicapped clients in the above-mentioned sheltered workshops under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 525 of the regulations, as amended. These certificates have been issued on the applicants' representations that they are sheltered workshops as defined in the regulations and that special services are provided their handicapped clients. A sheltered workshop is defined as, "A charitable organization or institution conducted not for profit, but for the purpose of carrying out a recognized program of rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, and to provide such individuals with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature."

These certificates may be cancelled in the manner provided by the regulations, as amended. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 12th day of January 1954.

JACOB I. BELLOW,
Assistant Chief of Field Operations.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10851]

AKRON BROADCASTING CORP. (WCUE)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Akron Broadcasting Corporation (WCUE), Akron, Ohio, Docket No. 10851, File No. BP-8478; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of January 1954;

The Commission having under consideration the above-entitled application of the Akron Broadcasting Corporation, licensee of Radio Station WCUE, for a construction permit to change hours of operation from daytime only to unlimited time, with power of 500 watts night and one kilowatt day, employing directional antenna both day and night (DA-2), and installation of a new transmitter; and

It appearing, that the applicant is legally, technically, financially and otherwise qualified to operate Station WCUE as proposed but that the proposed operation may not comply with the Standards of Good Engineering Practice; particularly with reference to coverage of the city and metropolitan district of Akron, Ohio, and the excessive number of persons residing between the normally protected and actual nighttime limitation contours; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the Commission notified the applicant of the foregoing deficiencies, by letter dated February 25, 1953, since the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing, that in a reply dated December 7, 1953, the applicant reiterated essentially the same reasons in support of his request as were contained in the original application; and

It further appearing, that after consideration of the reply, the Commission is still unable to find that a grant would be in the public interest;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations with particular reference to service to the city and metropolitan district of Akron and excessive population residing between the normally protected and actual nighttime limitation contours.

Released: January 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-1785]

SOUTHEASTERN ILLINOIS GAS CO. AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF ORDER TERMINATING PROCEEDINGS

JANUARY 15, 1954.

In the matter of Southeastern Illinois Gas Company, complainant, vs. Texas Eastern Transmission Corporation, defendant, Docket No. G-1785.

Notice is hereby given that on January 14, 1954, the Federal Power Commission issued its order adopted January 13, 1954, terminating proceeding in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-396; Filed, Jan. 20, 1954; 8:47 a. m.]

[Docket Nos. G-2035, G-2040, G-2048, G-2049, G-2050, G-2073, G-2091, G-2301, G-2349]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

ORDER SUSPENDING NOTICE OF CANCELLATION OF RATE SCHEDULES, CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of Panhandle Eastern Pipe Line Company, Docket Nos. G-2035, G-2040, G-2048, G-2049, G-2050, G-2073, G-2301, G-2349, and Panhandle Eastern Pipe Line Company, Southeastern Michigan Gas Company, Citizens Gas Fuel Company, Citizens Gas Company, Michigan Gas Utilities Company, Docket No. G-2091.

Panhandle Eastern Pipe Line Company (Panhandle) on December 15 and 28, 1953 filed pursuant to § 154.64 of the Commission's general rules and regulations, First Revised Sheets Nos. 1, 27, 41, and 43-E to its FPC Gas Tariff Original Volume No. 1, proposing to cancel as of January 18, 1954, its Interruptible Rate Schedules I-1, I-2, and I-3, the term of service provision and the form of service agreement applicable thereto.

Panhandle cites as reasons for the proposed cancellation of its interruptible rate schedules the interference of service under such schedules with the orderly operation of its pipe line, its inability to physically control interruptible gas deliveries to its general service customers, undue discrimination of interruptible service against direct sale customers, and failure of such service to permit flexible pipe line operations.

The interruptible rate schedules are a part of the form of tariff under which Panhandle operates as a result of the following condition in the Commission's July 13, 1951 order accompanying Opinion No. 214, as modified by its August 23, 1951 order accompanying Opinion No. 214-A:

(A) The order of May 4, 1950, issued in these proceedings, and the certificate of public convenience and necessity issued thereby, be further conditioned so as to require Panhandle to operate its pipe line under the form of tariff, Appendix A, hereto, which is hereby approved.

No application has been made by Panhandle for appropriate modification of the Commission's order of July 13, 1951, or the form of tariff upon which operation of Panhandle's pipe line was conditioned.

The consolidated proceedings at Docket Nos. G-2035, G-2040, G-2048, G-2049, G-2073, G-2301, and G-2091 are concerned, among other matters, with whether Panhandle is to be required to render interruptible service to certain of its resale customers, as well as whether changes are to be permitted in Panhandle's interruptible rate schedules. These proceedings are to a large measure related to the existence of interruptible rate schedules.

Letters requesting comment from all of Panhandle's customers on the proposed cancellation were sent out by the Secretary on December 18, 1953. There have been received among the responses several which have objected to the cancellation of the interruptible rate schedules.

Upon consideration of the aforesaid notice of cancellation, the data tendered in support thereof, the comments and objections filed with respect thereto, the nature of the proceedings in Docket No. G-2035 et al., and the failure of Panhandle to apply for concomitant modification of its outstanding certificate authorization, it appears that the tariff changes in Panhandle's tendered filing have not been shown to be justified and may be unjust, unreasonable, and otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest, to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing, as hereinafter ordered, pursuant to the authority contained in section 4 of the act with respect to the lawfulness of First Revised Sheets Nos. 1, 27, 41, and 43-E to Panhandle's FPC Gas Tariff, Original Volume No. 1, and that said revised tariff sheets may be unjust, unreasonable, unduly discriminatory, or preferential, and should be suspended and the use thereof deferred, as hereinafter ordered.

(2) Good cause exists for consolidating for purpose of hearing the proceedings referred to in paragraph (1) above at Docket No. G-2349 with proceedings at Docket Nos. G-2035, G-2040, G-2048, G-2049, G-2050, G-2073, G-2301 and G-2091.

(3) Panhandle may not change, amend, modify, or cancel the form of its tariff upon which its operations were conditioned by order of July 13, 1951, without prior order of the Commission authorizing such changes, amendment, modification or cancellation.

The Commission orders:

(A) The proceedings at Docket Nos. G-2035, G-2040, G-2048, G-2049, G-2050, G-2073, G-2301, G-2091 and G-2349, be and the same are hereby consolidated for the purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, including sections 4, 5, 7, 14, 15, and 16, and the Commission's general rules and regulations, a public hearing be held commencing February 23, 1954, at 10:00 a. m. in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in the consolidated proceedings, including the lawfulness of First Revised Sheets Nos. 1, 27, 41, and 43-E to Panhandle's FPC Gas Tariff, Original Volume No. 1.

(C) Pending such hearing and decision thereon, First Revised Sheets Nos. 1, 27, 41, and 43-E to Panhandle's FPC Gas Tariff, Original Volume No. 1, be and the same are hereby suspended and the use thereof deferred, unless otherwise ordered by the Commission, until such time as said revised tariff sheets may be made effective in the manner prescribed by the Natural Gas Act and Panhandle may be authorized to operate in the fashion contemplated by such revised tariff sheets.

(D) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: January 13, 1954.

Issued: January 15, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

Docket No. G-2212

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF ORDER AMENDING ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JANUARY 15, 1954.

Notice is hereby given that on January 14, 1954, the Federal Power Commission issued its order adopted January 13, 1954, amending order issued October 9, 1953 (18 F. R. 203), issuing certificate of public convenience and necessity in the above-entitled matter.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-397; Filed, Jan. 20, 1954; 8:48 a. m.]

[Docket Nos. G-2340, G-2341, G-2342]

TEXAS EASTERN TRANSMISSION CORP. ET AL.

NOTICE OF APPLICATIONS

JANUARY 15, 1954.

In the matters of Texas Eastern Transmission Corporation, Docket No. G-2340; Texas Eastern Penn-Jersey Transmission Corporation, Docket No. G-2341; Transcontinental Gas Pipe Line Corporation, Docket No. G-2342.

Take notice that on December 23, 1953, Texas Eastern Transmission Corporation (Texas Eastern), Texas Eastern Penn-Jersey Transmission Corporation (Penn-Jersey), and Transcontinental Gas Pipe Line Corporation (Transcontinental), each a Delaware corporation, filed applications, as designated above, for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing construction and operation of facilities as hereafter described. Texas Eastern and Penn-Jersey have their respective principal places of business at Shreveport, Louisiana, and Transcontinental's principal place of business at Houston, Texas.

In Docket No. G-2340, Texas Eastern seeks authority (a) to increase peak-day deliveries to the Philadelphia Gas Works Division of the United Gas Improvement Company (Philadelphia Gas) from 83,642 Mcf to 113,072 Mcf, effective September 1, 1954; (b) to increase daily deliverable volumes of gas to the Manufacturers Light and Heat Company and the Ohio Fuel Gas Company from 60,386 Mcf to 102,003 Mcf; (c) to "loan" from its Oakford Storage Field to Transcontinental up to 136,174 Mcf of gas per day during the period November 16 through April 15 of each year, and to receive back from Transcontinental during the period April 16 through November 15 of each year, equivalent volumes of gas for storage in the Oakford Storage Field; and (d) to lease and operate a pipeline system to be constructed and owned by Penn-Jersey, extending from the Oakford Storage Field, Westmoreland County, Pennsylvania, to Texas Eastern's Compressor Station No. 26, near Lambertville, New Jersey, for the purpose of enabling the additional deliveries described in (a), (b), and (c) to be made. Texas Eastern states that such increased daily deliveries will be required by the companies named above, to enable such companies to meet their increased market demands in the winter of 1954-1955, and that the deliveries to Transcontinental will enable Transcontinental and its customers to store their off-peak summer gas.

In Docket No. G-2341, Penn-Jersey seeks authority (a) to construct a new 24-inch pipeline and appurtenant facilities approximately 265 miles in length, extending from the Oakford Storage Field in Westmoreland County, Pennsylvania, eastwardly to Texas Eastern's Lambertville, New Jersey, Compressor Station No. 26; (b) to install a 3,300 hp reciprocating compressor station on said line near the terminus of the line in Oakford Storage Field; and (c) to lease such facilities to Texas Eastern for operation as described above. Estimated cost of the proposed facilities is $30,755,300, to be raised through the sale of debts securities in the amount of 75 percent of Penn-Jersey's requirements, and the sale of equity securities for the remainder.

In Docket No. G-2342, Transcontinental seeks authority to increase its maximum daily delivery volumes to certain of its existing customers, as designated in its application, in the total of 136,452 Mcf. To accomplish such increased deliveries, Transcontinental will "borrow" gas from Texas Eastern and return an equivalent volume of gas at one or more of three delivery points, as described in its application, or by deliveries at its existing marketing stations, for Texas Eastern's account, to customers common to both Transcontinental and Texas Eastern. The total cost of the three proposed metering and gas interchange facilities is estimated to be $131,628, to be defrayed from funds on hand.

Protests or petitions to intervene in all or any of the proceedings may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with its rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 4th day of February 1954. The applications are on file with the Commission and open for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. G-2343]

TOWN OF TROY, TENN.

NOTICE OF APPLICATION

JANUARY 15, 1954.

Take notice that the Town of Troy (Applicant), a body politic and corporate and an existing municipality of the State of Tennessee, filed on December 24, 1953, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Trunkline Gas Company (Trunkline) to establish physical connection of its transportation facilities with the facilities of Applicant's proposed natural gas distribution system, and to sell natural gas to Applicant for local distribution to the citizens of Troy, Tennessee, and its environs.

Applicant proposes to interconnect its facilities with those of Trunkline at a proper place near Applicant's corporate limits.

The estimated maximum daily demand stated by Applicant is 275.8 Mcf the first year, 351.1 Mcf the third year, and 386.8 Mcf the fifth year.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 4th day of February 1954. The application is on file with the Commission for public inspection.

[Docket No. G-2346]

TOWN OF TRIMBLE, TENN.

NOTICE OF APPLICATION

JANUARY 15, 1954.

Take notice that the Town of Trimble (Applicant), a body politic and corporate and an existing municipality of the State of Tennessee, filed on December 30, 1953, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Trunkline Gas Company (Trunkline) to establish physical connection of its transportation facilities with the facilities of Applicant's proposed natural gas distribution system, and to sell natural gas to Applicant for local distribution to the citizens of Trimble, Tennessee, and its environs.

Applicant proposes to interconnect its facilities with those of Trunkline at a proper place near Applicant's corporate limits.

The estimated maximum daily demand stated by Applicant is 260.2 Mcf the first year, 326.7 Mcf the third year, and 354.8 Mcf the fifth year.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 4th day of February 1954. The application is on file with the Commission for public inspection.

[Project No. 2137]

PACIFIC GAS AND ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE

JANUARY 15, 1954.

Public notice is hereby given that Pacific Gas and Electric Company, of San Francisco, California, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for license for proposed Project No. 2137 to be located on the Pit River in Shasta County, California, and affecting lands of the United States in Shasta National Forest. The proposed project would consist of a concrete gravity dam in Pit River, to be known as Pit No. 7 Project; a reservoir, formed by the dam and extending upstream to Applicant's proposed Pit No. 6 powerhouse of Project No. 2104, with a gross capacity of about 15,500 acre-feet; a low, slotted, afterbay dam below proposed Pit No. 7 powerhouse; two steel penstocks extending through the dam to power plant; Pit No. 7 powerhouse; two steel penstocks extending through the dam to power plant; Pit No. 7 powerhouse; a substation and switchyard; and two 220-kv transmission lines. The project would have a capacity of 75,500 horsepower and would produce 60,000 kva. The power generated would be distributed through the Applicant's electric system and sold to the public in the central and northern parts of California.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with rules practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before March 4, 1954. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3155]

OHIO EDISON CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF COMPETITIVE BIDDING FOR UNDERWRITING COMMON STOCK RIGHTS OFFERING AND OVER SUBSCRIPTION PRICE FOR COMMON STOCK

JANUARY 14, 1954.

Ohio Edison Company ("Ohio Edison"), a registered holding company and a public-utility company, having filed an application-declaration and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), proposing, among other things, to offer to its common stockholders rights to subscribe for the purpose of 527,830 shares of its $12 par value common stock on the basis of one additional share for each 10 shares held at the close of business on January 14, 1954, and the privilege, subject to allotment, of subscribing for any unsubscribed shares; and also proposing to offer to underwriters, pursuant to the competitive bidding requirements of Rule U-50, at the subscription price, all of such shares as are not subcribed for by the stockholders, plus such number of shares, not exceeding 52,783, of the company's outstanding common stock as are purchased by it through stabilization transactions in connection with such stock offering; and

Ohio Edison having further proposed to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $30,000,000 of bonds; and

The Commission by order dated December 30, 1953, having granted and permitted to become effective said application-declaration, as amended, subject to the condition that the proposed issuance and sale of bonds and of common stock not be consummated until the subscription price of the stock and the results of competitive bidding for the bonds and common stock, pursuant to Rule U-50, shall have been made a matter of record in this proceeding and a further order or orders issued, for which purpose jurisdiction was expressly reserved; and

Ohio Edison, on January 14, 1954, having filed a further amendment to said application-declaration stating that the company has fixed $35.75 per share as the subscription price for such additional shares of its common stock, has invited bids, pursuant to Rule U-50, with respect to the compensation to be paid the underwriters for their services and their agreement to purchase the shares of common stock not subscribed for by the stockholders plus such additional shares of the outstanding common stock as are purchased by the company through stabilization transactions in connection with such stock offering, and has received the following bids:

Bidding group headed by—	Amount of compensation		Aggregate net proceeds to company [1]
	Per share	Aggregate	
White, Weld & Co...	$0.119	$62,811.77	$18,807,110.73
Lehman Bros...	.13307	69,711.39	18,800,211.37
Bear, Stearns & Co. Merrill Lynch, Pierce, Fenner & Beane Kidder, Peabody & Co	.14337	75,675.00	18,794,247.80
Morgan Stanley & Co	.148	78,119.00	18,791,803.50
The First Boston Corp	.164399	86,775.00	18,783,147.50

[1] After deducting amount of compensation per bid.

The amendment further stating that Ohio Edison has accepted the bid of White, Weld & Co. as set forth above; and

The Commission having examined said amendment and having considered the record herein, and finding that the applicable provisions of the act and the rules thereunder have been satisfied, and observing no basis for adverse findings or imposing terms and conditions in respect of the price to be received by the company for said common stock or the compensation to be paid the underwriters of the stock offering:

It is ordered, That the application-declaration, as further amended, be, and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24, and subject, further, to the continuance of the Commission's jurisdiction heretofore reserved in the aforesaid order, dated December 30, 1953, with respect to the proposed sale of bonds and with respect to the fees and expenses of counsel, accountants, and Commonwealth Services, Inc.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28832]

VARIOUS COMMODITIES BETWEEN PACIFIC COAST TERRITORY AND TRANSCONTINENTAL TERRITORY AND WESTERN CANADA

APPLICATION FOR RELIEF

JANUARY 18, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to his tariffs I. C. C. Nos. 1559, 1552 and 1555.

Commodities involved: Various commodities in carloads and less-than-carload.

Between: Pacific Coast territory on the one hand and points in Transcontinental territory taking Group F, F-1, G, or H in western-trunk line and southwestern territory, and western Canada, on the other.

Grounds for relief: Rail competition, circuity, to maintain grouping, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-400; Filed, Jan. 20, 1954; 8:48 a. m.]

[4th Sec. Application 28833]

WOODPULP FROM SOUTHWEST TO FLORIDA, NORTH CAROLINA AND TENNESSEE

APPLICATION FOR RELIEF

JANUARY 18, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-

haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Woodpulp, carloads.

From: Specified points in Arkansas, Louisiana, and Texas.

To: Miami and Fernandina, Fla., Kingsport and Holston, Tenn., and Rockingham, N. C.

Grounds for relief: Rail competition, circuity, to maintain grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3780, supp. 27.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28834]

GROUND LIMESTONE FROM MARBLE CITY, OKLA., TO JACKSON, MISS.

APPLICATION FOR RELIEF

JANUARY 18, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Limestone, ground, carloads.

From: Marble City, Okla.

To: Jackson, Miss.

Grounds for relief: Rail competition, circuity.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3736, supp. 243.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

FEDERAL REGISTER

VOLUME 19 NUMBER 15

Washington, Friday, January 22, 1954

TITLE 7—AGRICULTURE

MISCELLANEOUS AMENDMENTS

The provisions contained in Part 7 of Subtitle A, Chapter VII, Chapter VIII and Chapter XI, Title 7 of the Code of Federal Regulations (including Volume 18 of the FEDERAL REGISTER) are hereby amended as follows pursuant to Reorganization Plan No. 2 of 1953 (67 Stat. 633), section 161 of the Revised Statutes (5 U. S. C. 22) and the authorities under which such provisions were issued:

1. In Part 7 the subpart designation "Selection and Functions of Production and Marketing Administration County and Community Committees" is deleted and the designation "Selection and Functions of Agricultural Stabilization and Conservation County and Community Committees" is substituted therefor.

2. Wherever in Part 7 the designations "Production and Marketing Community Committee" and "Production and Marketing County Committee" appear they are deleted and the designations "Agricultural Stabilization and Conservation Community Committee" and "Agricultural Stabilization and Conservation County Committee", respectively, are substituted therefor.

3. Wherever in Part 7 the designations "State Production and Marketing Administration Committee" or "State PMA Committee" appear they are deleted and the designation "State Agricultural Stabilization and Conservation Committee" is substituted therefor.

4. Wherever in Part 7 the designations "Assistant Administrator for Production of the Production and Marketing Administration", "Assistant Administrator" and "PMA Administrator" appear they are deleted and the designations "Deputy Administrator for Production Adjustment of the Commodity Stabilization Service", "Deputy Administrator" and "Administrator, Commodity Stabilization Service", respectively, are substituted therefor.

5. Wherever in Part 7 the language "property of the Production and Marketing Administration" appears it is deleted and the language "property of the Department of Agriculture" is substituted therefor.

6. The definition of the term "Secretary" appearing in Parts 711, 714, 717, 722, 723, 725, 726, 727, 728, 729, 1101, 1102, 1103, 1104, 1105, and 1107 is amended to read:

"Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

7. Wherever in Parts 711, 717, 721, 722, 723, 725, 726, 727, 728, 729, 855, 857, 873, 874, and 1109 the designations "Assistant Administrator for Production of the Production and Marketing Administration" and "Assistant Administrator" appear they are deleted and the designations "Deputy Administrator for Production Adjustment of the Commodity Stabilization Service" and "Deputy Administrator", respectively, are substituted therefor.

8. Wherever in Parts 721, 722, 723, 725, 726, 727, 728, 729, 855, 873, and 874 the designations "Production and Marketing Administration county and community committees", "State and county Production and Marketing Administration Committees" and "State committee of the Production and Marketing Administration" appear they are deleted and the designations "Agricultural Stabilization and Conservation county and community committees", "Agricultural Stabilization and Conservation State and county committees" and "Agricultural Stabilization and Conservation State committee", respectively, are substituted therefor.

9. Wherever in Parts 721, 723, 725, 726, 727, 728, and 729 the designations "County PMA office" and "State PMA office" appear they are deleted and the designations "ASC county office" and "ASC State office", respectively, are substituted therefor.

10. The definitions of the term "State committee" appearing in Parts 714 and 717 are amended to read:

"State committee" means the group of persons designated within any State to act as the Agricultural Stabilization and Conservation State Committee.

11. Wherever in Parts 711 and 717 the designations "Production and Marketing Administration Caribbean Area

Committee", "PMA" and "Caribbean Area Office, Production and Marketing Administration" appear they are deleted and the designations "Caribbean Area Agricultural Stabilization and Conservation Committee", "ASC" and "Caribbean Area Agricultural Stabilization and Conservation Office", respectively, are substituted therefor.

12. Wherever in Part 722 the designation "PMA Caribbean Area Committee" appears it is deleted and the designation "Caribbean Area ASC Committee" is substituted therefor.

13. Wherever in Parts 714 and 722 the designations "Cotton Branch PMA" and "Cotton Branch, Production and Marketing Administration" appear they are deleted and the designation "Cotton Division, Commodity Stabilization Service" is substituted therefor.

14. Wherever in Parts 714, 723, 725, 726, and 727 the designation "Tobacco Branch, Production and Marketing Administration" appears it is deleted and the designation "Tobacco Division, Commodity Stabilization Service" is substituted therefor.

15. Wherever in Parts 721 and 728 the designation "Grain Branch, Production and Marketing Administration" appears it is deleted and the designation "Grain Division, Commodity Stabilization Service" is substituted therefor.

16. Wherever in Part 729 the designation "Fats and Oils Branch of the Production and Marketing Administration" appears it is deleted and the designation "Oils and Peanuts Division, Commodity Stabilization Service" is substituted therefor.

17. Wherever in Parts 801, 814, 816, 817, 818, 819, 831, 841, 855, 857, 861, 862, 863, 864, 866, 867, 868, 873, 874, 877, and 878 the designation "Sugar Branch, Production and Marketing Administration" appears it is deleted and the designation "Sugar Division, Commodity Stabilization Service" is substituted therefor

18. Wherever in Parts 816, 817, 818 and 819 the designation "Quota and Allotment Division" appears it is deleted and the designation "Quota and Allotment Branch" is substituted therefor.

19. In Parts 841, 845, 850, 855, 861, 862, 863, and 864:

(a) Wherever the designations "County PMA Committee" or "County Production and Marketing Administration Committee" appear they are deleted and the designation "ASC County Committee" is substituted therefor;

(b) Wherever the designations "State PMA Committee" or "State Production and Marketing Administration Committee", appear they are deleted and the designation "ASC State Committee" is substituted therefor; and

(c) Wherever the designation "PMA Committee" appears it is deleted and the designation "ASC Committee" is substituted therefor.

20. Wherever in Parts 814, 847, 848, 857, 867, 868, 877 and 878 the designations "Caribbean Area Office, Production and Marketing Administration" and "Caribbean Area PMA Committee" appear they are deleted and the designations "Caribbean Area Agricultural Stabilization and Production Office" and "Caribbean Area ASC Committee", respectively, are substituted therefor.

21. Wherever in Part 816 the designations "Director or Acting Director, Caribbean Area, Production and Marketing Administration" and "Office of the Production and Marketing Administration" appear they are deleted and the designations "Director or Acting Director, Caribbean Area Stabilization and Conservation Office" and "Agricultural Stabilization and Conservation Office", respectively, are substituted therefor.

22. Wherever in Parts 842 and 845 the designation "County Agricultural Conservation Committee" appears it is deleted and the designation "Agricultural Stabilization and Conservation County Committee" is substituted therefor.

23. Wherever in Parts 846, 866, and 876 the designations "Hawaiian Area Office of the Production and Marketing Administration" and "Area Office of PMA" appear they are deleted and the designation "Hawaiian Area Stabilization and Conservation Office" and "ASC Area Office", respectively, are substituted therefor.

24. Wherever in Part 850 the designations "Area Office of the Production and Marketing Administration" and "Area Office of PMA" appear they are deleted and the designations "Area Stabilization and Conservation Office" and "ASC Area Office", respectively, are substituted therefor.

25. Subject to the amendments heretofore specified, wherever in Parts 722, 723, 801, 833, 845, and 855 the designation "Production and Marketing Administration" appear it is deleted and the designation "Commodity Stabilization Service" is substituted therefor.

26. Under the heading "Redesignation of Regulations" Chapter XI, Title 7, Code of Federal Regulations (18 F. R. 3635), the first paragraph of enumerated paragraph 1 is amended to read:

1. The regulations pertaining to the Agricultural Conservation Program Service are removed from Chapter VII of Title 7, Code of Federal Regulations, and redesignated Chapter XI which shall be entitled "Agricultural Conservation Program Service, Department of Agriculture",

and enumerated paragraph 2 is amended to read:

2. Wherever the term "Director of Agricultural Conservation Programs Branch, Production and Marketing Administration" or "Director of ACP Branch" appears in these regulations it shall mean the "Administrator of the Agricultural Conservation Program Service."

27. In Part 1101:

(a) Wherever the designations "Chief Agricultural Conservation Program" and "Chief ACP" appear they are deleted and the designations "Administrator, Agricultural Conservation Program Service" and "Administrator ACPS", respectively, are substituted therefor;

(b) Wherever the designations "Production and Marketing Administration county and community committees", "PMA" and "Production and Marketing Administration" appear they are deleted and the designations "Agricultural Stabilization and Conservation county and community committees", "ASC" and "Agricultural Conservation Program Service", respectively, are substituted therefor; and

(c) The definition of the term "State Committee" is amended to read " 'State Committee' means the persons in the State designated by the Secretary as the Agricultural Stabilization and Conservation State Committees."

28. Wherever in Parts 1102, 1103, 1104 and 1105 the designations "Director" and "ACP Branch" appear they are deleted and the designations "Administrator" and "ACPS", respectively, are substituted therefor; and the definitions of the terms "Director" and "ACP Branch" appearing in said parts are deleted and the following definitions are substituted, respectively, therefor:

"Administrator" means the Administrator of the Agricultural Conservation Program Service.

"ACPS" means the Agricultural Conservation Program Service.

29. In Parts 1102 and 1103:

(a) Wherever the designation "PMA State Office", apears it is deleted and the designation "ACS State Office" is substituted therefor;

(b) Wherever the designations "Production and Marketing Administration District Offices" or "District Offices of the Production and Marketing Administration" appear they are deleted and the designation "Agricultural Stabilization and Conservation District Offices" is substituted therefor;

(c) Wherever the designation "PMA Inspector" appears it is deleted and the designation "Agricultural Conservation Program Service Inspector" is substituted therefor; and

(d) The definitions of the term "PMA State Office" appearing in said parts are amended to read " 'ASC State Office' means the Caribbean Area Agricultural Stabilization and Conservation Office."

30. Wherever in Part 1104 the designation "ACP Committee" appears it is deleted and the designation "Agricultural Stabilization and Conservation Committee" is substituted therefor.

31. In Part 1105:

(a) Wherever the designation "PMA Farm Checkers" appears it is deleted and the designation "Agricultural Conservation Program Service Farm Checkers" is substituted therefor;

(b) Wherever the designations "PMA Area Office" and "Office of the Production and Marketing Administration" appear they are deleted and the designations "Agricultural Stabilization and Conservation Area Office" and "Agricultural Stabilization and Conservation Office", respectively, are substituted therefor;

(c) Wherever the designation "Production and Marketing Administration" appears it is deleted and the designation "Agricultural Conservation Program Service" is substituted therefor; and

(d) The definition of the term "State Office" appearing in said part is amended to read " 'State Office' means the Agricultural Stabilization and Conservation Office in Honolulu, Territory of Hawaii."

32. In Part 1107:

(a) Wherever the designations "Agricultural Conservation Programs Branch", "ACP Branch" and "Director" appear they are deleted and the designations "Agricultural Conservation Program Service", "ACPS" and "Administrator", respectively, are substituted therefor, and the definition of the term "Director" appearing in said part is deleted and the following definition is substituted therefor, " 'Administrator' means the Administrator of the Agricultural Conservation Program Service."

33. Wherever in Part 1108 the designation "Production and Marketing Administration" appears it is deleted and the designation "Agricultural Conservation Program Service" is substituted therefor.

34. In Part 1109:

(a) Paragraph (d) of § 1109.1 is amended to read:

(d) A person is indebted to the Commodity Stabilization Service, or to any other agency of the Department of Agriculture by reason of any payments certified on vouchers or on sight-drafts by the Agricultural Stabilization and Conservation State Offices or by the County Agricultural Conservation Association, or is indebted for an unpaid marketing quota penalty.

(b) Wherever in §§ 1109.2 and 1109.3 the designation "Production and Marketing Administration" appears it is deleted and the designation "Commodity Stabilization Service" is substituted therefor.

Effective date. The foregoing amendments shall be effective upon publication in the FEDERAL REGISTER.

The foregoing amendments relate solely to matters of agency management and personnel, and therefore are excepted from the requirements of section 4 of the Administrative Procedure Act (5 U. S. C. 1003).

Done at Washington this 19th day of January 1954. Witness my hand and seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-465; Filed, Jan. 21, 1954; 8:50 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 904—MILK IN THE GREATER BOSTON MARKETING AREA

PART 934—MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

PART 947—MILK IN THE FALL RIVER, MASSACHUSETTS, MARKETING AREA

PART 996—MILK IN THE SPRINGFIELD, MASSACHUSETTS, MARKETING AREA

PART 999—MILK IN THE WORCESTER, MASSACHUSETTS, MARKETING AREA

DETERMINATION OF EQUIVALENT FEED PRICES

The simple average of the four latest weekly retail prices per ton of dairy

ration reported by the United States Department of Agriculture for the Boston milkshed are used pursuant to section 48 (a) (3) of the respective orders in the computation of a New England Basic Class I price. The publication of these specified feed prices has been discontinued by the United States Department of Agriculture.

The respective orders provide that if a feed price, specified by those orders for use in computing class prices, is not reported or published in the manner described in the respective orders, the market administrator shall use a feed price determined by the Secretary to be equivalent to or comparable with the feed price which is specified (§§ 904.45, 934.44, 996.44, 999.44, and 947.55 of the respective orders).

Pursuant to the applicable provisions of the respective orders and on the basis of available information it is hereby found and determined that the feed price equivalent to or comparable with the simple average of the four latest weekly average retail prices per ton of dairy ration for the Boston milkshed shall be determined as follows:

Multiply by 20 the average price per 100 pounds paid by farmers in the New England region for all mixed dairy feed of less than 29 percent protein content as reported by the United States Department of Agriculture for the month.

In accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), it is hereby found and determined that notice and public procedure with respect to this determination, and the postponement of the effective date of this determination until 30 days after publication thereof in the FEDERAL REGISTER are impractical, unnecessary, and contrary to public interest in that the equivalent feed price must become effective as soon as possible in order to facilitate, promote, and maintain orderly marketing of milk in the Greater Boston, Lowell-Lawrence, Springfield, Worcester, and Fall River marketing areas. The changes effected by this determination do not require any preparation by the persons affected prior to the effective date.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 18th day of January 1954, to become effective immediately.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-429; Filed, Jan. 21, 1954; 8:46 a. m.]

[Grapefruit Reg. 94]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA, AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.355 *Grapefruit Regulation 94*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 55, as amended (7 CFR Part 955), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California, and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than January 24, 1954. Shipments of grapefruit, grown as aforesaid, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 18, 1953, and will so continue until January 24, 1954; the recommendation and supporting information for continued regulation subsequent to January 23, 1954, was promptly submitted to the Department after an open meeting of the Administrative Committee on January 14; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., January 24, 1954, and ending at 12:01 a. m., P. s. t., February 28, 1954, no handler shall ship:

(i) Any grapefruit of any variety grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass unless such grapefruit grade at least U. S. No. 2; or

(ii) From the State of California or the State of Arizona (a) to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which are of a size smaller than $3^{11}/_{16}$ inches in diameter, or (b) to any point in Canada, any grapefruit, grown as aforesaid, which are of a size smaller than $3^{9}/_{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum sizes shall be permitted which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925 to 51.955 of this title: *Provided*, That in determining the percentage of grapefruit in any lot which are smaller than $3^{11}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4^{2}/_{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than $3^{9}/_{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $3^{13}/_{16}$ inches in diameter and smaller.

(2) As used in this section, "handler," "variety," "grapefruit," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 2" shall have the same meaning as when used in the revised United States Standards for Grapefruit (California and Arizona), §§ 51.925 to 51.955 of this title.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C.)

Done at Washington, D. C., this 19th day of January 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-440; Filed, Jan. 21, 1954; 8:48 a. m.]

PART 972—MILK IN THE TRI-STATE MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the Tri-State marketing area, hereinafter referred to as the "order," it is hereby found and determined that all provisions appearing in § 972.41 (b) of such order do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions thereof for the month of February 1954.

Request for the temporary suspension of the provisions of § 972.41 (b) was recently filed with the Department by associations representing a majority of the producers supplying milk to the Tri-State marketing area whose milk is priced pursuant to such regulation. Following this request a public meeting was held on January 4, 1954, at Gallipolis, Ohio, to consider whether the suspension, or possible termination of the said provisions would be appropriate. This meeting was attended by a number of handlers regulated under the order, counsel for other handlers, representatives of cooperative associations having members who are producers as defined in the order, government representatives, and others.

The provisions of § 972.41 (b) are intended to result in automatic Class I and Class II price adjustments as market supplies of producer milk change in relation to the quantity of Class I milk sold. As a measure of changes in the "supply-demand ratio" from a norm the percentage of supplies to sales in a recent two-month period is compared with a "standard utilization percentage." Certain revisions in other provisions of the order, including the introduction on November 1, 1953, of "individual-handler" pools to replace the former "market-wide" pool, and expansion of the marketing area, and the adoption of a revised definition of "fluid milk plant" to take effect May 1, 1954, were adopted following a public hearing held in May 1953. At least in part as the result of such changes in the regulatory program certain supply and marketing adjustments are taking place within both the Tri-State milkshed and Tri-State marketing area. In the circumstances prevailing the standard utilization percentages now effective under § 972.41 (b) do not perform to accurately measure supply changes in relation to market demand and at present have an adverse effect on producer prices even though other source milk still is being received in substantial quantities in portions of the marketing area for use as Class I and Class II milk. It is found and determined therefore that the issuance of this order to suspend the application of such provisions for February 1954 is necessary to reflect current marketing conditions and to facilitate, promote, and maintain the orderly marketing of milk produced for the said marketing area. The changes caused by this suspension order do not require of persons affected substantial or extensive preparation prior to its effective date. Any further action to alter the effects of such provisions of the order should be determined from subsequent consideration. A public hearing for this purpose will be convened at Gallipolis, Ohio, on February 18, 1954.

It is therefore ordered, That the provisions of the order (No. 72), as amended, regulating the handling of milk in the Tri-State marketing area which appear in § 972.41 (b) be and they are hereby suspended in their entirety for the month of February 1954.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 19th day of January 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-441; Filed, Jan. 21, 1954; 8:48 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

REGULATION C—REGISTRATION

On November 10, 1953, the Securities and Exchange Commission invited all interested persons to submit data, views and comments on a proposal to adopt § 230.415 (Rule 415) relating to competitive bidding registration statements, to adopt related amendments to certain other rules, and to rescind § 230.460 (Rule 460) (see Securities Act of 1933 Release No. 3491-Z). The Commission has considered all the data, views and comments submitted and has adopted the proposals with certain modifications set forth below. This action has been taken pursuant to the provisions of sections 7, 8, 10, and 19 (a) of the Securities Act of 1933, the Commission deeming such action necessary and apropriate to carry out the provisions of the act and necessary and appropriate in the public interest and for the protection of investors.

The Commission is engaged in a comprehensive review of the rules, regulations, forms and procedures adopted under the various statutes administered by it. It is attempting to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors. The action stated in this release is a part of this program, as is the parallel simplification of competitive bidding procedures under the Public Utility Holding Company Act of 1935.

The current practice where securities are offered at competitive bidding requires that the registration statement become effective prior to the invitation for bids, and that a post-effective amendment be filed at the time bids are opened, to reflect the results of the bidding. An order of the Commission is issued declaring the registration statement effective and an order is subsequently issued declaring the post-effective amendment effective. In most cases, the post-effective amendment makes no change in the effective registration statement except to reflect the results of the bidding.

Rule 415 modifies the procedure by providing that if specified conditions are met the amendment reflecting the results of the bidding will become effective without further order on filing with the Commission or a regional or branch office. In addition, the amended Rule 471 permits the amendment to be signed by the agent for service and the amended Rule 472 requires only the filing of changed pages of the prospectus, without the usual simultaneous filing of five complete copies of the amended prospectus, and does not require the refiling of exhibits solely to insert interest rate, redemption prices, etc. It should be noted that Rule 403 does not require that the amendment itself be printed. It may, for instance, be typed or mimeographed, and the Commission will continue to accept appropriate inked insertions provided they are legible.

Rule 415 codifies the practice of requiring that the registration statement in all competitive bidding cases contain an undertaking to file an amendment to reflect the results of the bidding. Under the new filing procedure, it will not be possible for the Commission to consider the adequacy of the distribution of bidding prospectuses, as it has in the past (see Release No. 3453, part IV). The rule, therefore, requires an additional undertaking intended to insure a minimum distribution as a condition to the use of the new filing procedure.

Paragraph (c) of the rule has principally a clarifying effect. The Commission's position is that when a registration statement becomes initially effective, the prohibitions of section 5 (a) of the act cease to apply in the absence of a stop order; that the bidding prospectus meets the requirements of section 10 of the act prior to the acceptance of a bid; and that after the acceptance of a bid, the prospectus does not meet the requirements of section 10 of the act unless it reflects the results of the bidding and otherwise complies with the applicable form and regulations. The Commission, moreover, construes section 5 (b) (2) of the act to require that the delivered prospectus meet the requirements of section 10 at the time the security is carried or caused to be carried through the mails or in interstate commerce and similarly construes section 2 (10) (a) of the act to require that the delivered prospectus meet the requirements of section 10 of the act at the time of making the other communication referred to in section 2 (10) (a) of the act.

Some issuers have, on occasion, combined in one registration statement securities to be offered at competitive bidding and other securities to be offered noncompetitively. Since the provisions of paragraphs (b) and (c) of Rule 415 have been drafted with specific reference to competitive bidding procedures, paragraph (d) of the rule limits the use of such joint registration statements to cases where all price and other required data for the non-competitive issue are available prior to the invitation for bids. An appropriate composite prospectus is permitted in any event.

The rule should simplify the registration procedure in competitive bidding cases to a substantial degree, as well as clarify the status of the registration statement and the prospectuses under section 5 of the act. By eliminating the present practice of requiring an order declaring a post-effective amendment effective, the rule should avoid the delay and attendant uncertainty which now occur between the filing and effectiveness of the amendment. Further, by permitting a filing in a regional or branch office, the rule should permit a more rapid filing and effectiveness. The Commission may administratively request that it be advised informally, as at present, of the results of the bidding, as promptly as practicable.

Rule 455 has been amended to make its filing requirements consistent with those set forth in Rule 415.

The Commission has (a) amended Rule 424 to provide for the filing of 25, instead of 20, copies of a prospectus, to make it clear that bidding prospectuses need not usually be filed under the rule, and to permit a revised prospectus to be used if it is filed or mailed for filing prior to its use and (b) similarly amended Rule 427 (c).

The Commission has also rescinded § 230.460 (Rule 460).

The text of § 230.415 (Rule 415) and of the amendments to §§ 230.424, 230.427, 230.455, 230.471, and 230.472 (Rules 424, 427, 455, 471 and 472) as adopted by the Commission are as follows:

§ 230.415 *Competitive bidding registration statements.* (a) A registration statement covering securities to be offered at competitive bidding, the terms of which require that each bid be for the purchase or underwriting of the entire amount of one or more of the issues registered, shall contain undertakings by the registrant (1) to file an amendment to the registration statement reflecting the results of the bidding, the terms of reoffering, and related matters to the extent required by the applicable form, not later than the first use, authorized by the registrant, after the opening of bids, of a prospectus relating to the securities offered at competitive bidding, unless no further public offering of such securities by the registrant and no reoffering of such securities by the purchasers is proposed to be made, and (2) to use its best efforts to distribute, as soon as practicable after the registration statement has become effective and prior to the opening of bids, to prospective bidders, underwriters, and dealers, a reasonable number of copies of the prospectus relating to the securities offered at competitive bidding contained in the effective registration statement, together with any supplements thereto. Any order declaring the registration statement effective shall be deemed to declare an amendment to the registration statement filed pursuant to the first such undertaking effective in accordance with paragraph (b) of this section.

(b) An amendment to such a registration statement filed pursuant to the undertaking referred to in paragraph (a) (1) of this section (which may make such other changes in the registration statement as the registrant deems appropriate) shall become effective at the time such amendment is filed with the Commission at its principal office or any regional or branch office, unless the Commission has notified the registrant that it has instituted proceedings under section 8 of the act. The amendment shall be accompanied by the consent of a managing underwriter, acting on behalf of all principal underwriters of the securities offered at competitive bidding, to the filing thereof.

(c) When such a registration statement becomes effective the prohibitions of section 5 (a) of the act shall cease to apply to the securities registered unless a stop order is issued under section 8 of the act. A prospectus relating to the securities offered at competitive bidding, when used prior to the opening of bids, need not contain information dependent upon the determination of the offering price of such securities or the acceptance of the bid, in order to meet the requirements of section 10 of the act. A prospectus relating to such securities, when used after the opening of bids, shall not be deemed to meet the requirements of section 10 of the act unless (1) an amendment to the registration statement has been filed pursuant to the undertaking referred to in paragraph (a) (1) of this section, if required, and (2) such prospectus reflects the information contained in the registration statement, as amended, to the extent required by the applicable form.

(d) A registrant may register securities to be offered at competitive bidding and securities not to be so offered pursuant to a single joint registration statement only if all information (including offering data, etc.) required by the applicable form with respect to the securities not to be so offered is included in the registration statement prior to the initial effectiveness thereof. If such information is not so included, the Commission will not accelerate such effectiveness unless an amendment to the registration statement is first filed so as to make it cover only the securities to be offered at competitive bidding. The registrant may, however, either initially or after such amendment, register the securities not to be offered at competitive bidding pursuant to a separate registration statement. An appropriate composite form of prospectus may in any event be used for all securities registered.

§ 230.424 *Filing of prospectuses; number of copies.* * * *

(b) Within 5 days after the commencement of a public offering, 25 copies of each form of prospectus used in connection with such offering shall be filed with the Commission in the exact form in which it was used: *Provided, however,* That this paragraph shall not apply in respect of a form of prospectus contained in a registration statement and relating solely to securities offered at competitive bidding which prospectus is intended for use prior to the opening of bids.

(c) No prospectus which purports to comply with section 10 of the act and which varies from any form of prospectus filed pursuant to paragraph (b) of this section shall be used until 25 copies thereof have been filed with, or mailed for filing to, the Commission, together with 5 copies of a cross reference sheet similar to that previously filed, if changed; provided however, that this paragraph shall not apply in respect of a form of prospectus contained in a registration statement and relating solely to securities offered at competitive bidding which prospectus is intended for use prior to the opening of bids.

§ 230.427 *Contents of prospectuses used after 13 months.* * * *

(c) Twenty-five copies of every prospectus used more than 13 months after the effective date of the registration statement shall be filed with the Commission pursuant to § 230.424 (c).

§ 230.455 *Place of filing.* All registration statements and other papers filed with the Commission shall be filed at its principal office, except as otherwise provided in § 230.415. Such material may be filed by delivery to the Commission through the mails or otherwise.

§ 230.471 *Signatures to amendments.* (a) Except as provided in paragraph (b) of this section and § 230.478, every amendment to a registration statement shall be signed by the persons specified in section 6 (a) of the act. At least one copy of every amendment filed with the Commission shall be signed. If the amendment is typewritten, the original "ribbon" copy shall be signed. Unsigned copies shall be conformed.

(b) A registration statement filed in connection with the registration of securities to be offered at competitive bidding may expressly confer authorization upon the agent for service named in the registration statement to amend the registration statement in accordance with the undertaking required by § 230.415 (a) (1). The authorization shall be substantially in the following form:

> Each person whose signature appears below hereby authorizes the agent for service named in the registration statement to execute in the name of each such person, and to file an amendment to the registration statement pursuant to the above undertaking, which amendment may make such other changes in the registration statement as the registrant deems appropriate.

§ 230.472 *Filing of amendment; number of copies.* (a) Three copies of every amendment, other than telegraphic amendments pursuant to § 230.473, shall be filed with the Commission. If an amendment relates to the prospectus a copy of the amended prospectus and of the cross reference sheet required by § 230.404 (c), if amended, shall be included in each copy of the amendment filed; except that only the changed pages of the prospectus and the cross reference sheet, if amended, need be included in an amendment filed pursuant to the undertaking referred to in § 230.415 (a) (1).

(b) Where an amendment relates to the prospectus, five copies of the amended prospectus and of the cross reference sheet, if amended, shall be filed in addition to the three copies required by paragraph (a) of this section. This paragraph shall not apply to amendments filed pursuant to the undertaking referred to in § 230.415 (a) (1).

(c) If an exhibit to a registration statement (other than an opinion or a consent), filed in preliminary form, has been changed only (1) to insert information as to interest, dividend or conversion rates, redemption or conversion prices, purchase or offering prices, underwriters' or dealers' commissions, names, addresses or participations of underwriters or similar matters, which information appears elsewhere in an amendment to the registration statement, or (2) to correct typographical errors, insert signatures or make other similar immaterial changes, then, notwithstanding any contrary requirement of any rule or form, the registrant need not refile such exhibit as so amended; provided the registrant states in the amendment the basis provided in this section for not refiling such exhibit. Any such incomplete exhibit may not, however, be incorporated by reference in any subsequent filing under any act administered by the Commission.

Since the adoption of § 230.415 and the amendment to §§ 230.424, 230.427, 230.455, 230.471 and 230.472 are designed primarily to simplify and clarify competitive bidding procedures, they have been made effective immediately, January 13, 1954; except that such adoption and amendments shall not be effective as to any registration statement which theretofore became effective or, if the registrant so elects, as to any registration statement filed prior to February 13, 1954. Since the rescission of § 230.460 relieves a restriction, it has been made effective immediately, January 13, 1954.

(Secs. 19, 48 Stat. 85, as amended; 15 U. S. C. 77s. Interprets or applies secs. 7, 8, 10, 48 Stat. 78, 79, 81; 15 U. S. C. 77g, 77h, 77j)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-424; Filed, Jan. 21, 1954; 8:45 a. m.]

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

REGULATION D—EXEMPTION FOR CANADIAN SECURITIES

Purpose of amendment. The Securities and Exchange Commission has amended § 230.501 (b) (6) (ii) (Rule 501 (b) (6) (ii) of Regulation D under the Securities Act of 1933.

Regulation D provides a conditional exemption from registration under the act for offerings not exceeding $300,000 in any one year made by Canadian issuers or by domestic issuers having their principal place of business in Canada. The promulgation of this regulation, on March 6, 1953, followed the amendment of the extradition agreements between the United States and Canada. It is part of a comprehensive program designed to achieve advantages for investors by remedying certain abuses which existed in this area in years past. The steps which have been taken under this program are noted in Securities Exchange Act Release No. 4937 (September 14, 1953).

The original Rule 501 (b) (6) (ii) of the regulation automatically renders the exemption unavailable if the issuer, its management, the underwriters or certain other persons are subject to certain securities injunctions. In certain instances, injunctions of a technical nature, not based on fraud, have resulted in disqualification under the rule and have prevented registered Canadian brokers from underwriting an issue, although this result might not be required in the public interest in the particular case.

In a similar context, the Commission, in considering applications by Canadian firms under section 15 (b) of the Securities Exchange Act of 1934 has, under the public interest standard there provided, granted registration where the injunctions existing against the applicant were only of a technical nature as distinguished from decrees based upon fraud or overreaching of investors. (See Matter of Dennis, Securities Exchange Act Release No. 4769.)

The present amendment of Regulation D will permit the same considerations to govern under that regulation in the absence of fraud or overreaching.

Statutory basis. The action is taken pursuant to the Securities Act of 1933, particularly sections 3 (b) and 19 (a) thereof, the Commission deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act.

Text of amendment. Section 230.501 (b) (6) is amended to read as follows:

§ 230.501 *Securities exempted.* * * *

(b) No exemption under this regulation shall be available for any of the following securities:

* * * * *

(6) Securities of any issuer if such issuer or any of its directors, officers, affiliates or predecessors, any of its promoters presently connected with it in any capacity, or any underwriter of the securities to be offered under this section:

(i) Has been convicted within five years preceding the filing of the notification required by § 230.503 of any crime or offense involving the purchase or sale of any security or arising out of the conduct of the business of a broker or dealer;

(ii) Is subject to any order, judgment or decree of any court entered within five years prior to the date of such filing, enjoining or restraining such person from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security or arising out of the conduct of the business of a broker or dealer, unless cause be shown as to why it is not necessary or appropriate in the public interest or for the protection of investors that the exemption be denied on the basis of such order, judgment or decree in the particular case; or

(iii) Is subject to a United States Post Office fraud order.

The Commission finds that as the foregoing amendment is exemptive in character and reserves to the Commission full right to deny the exemption, if appropriate in the public interest, notice and procedure in accordance with section 4 of the Administrative Procedure Act with respect thereto is not necessary.

The amendment is therefore, effective immediately upon publication January 13, 1954.

(Sec. 19, 48 Stat. 85 as amended; 15 U. S. C. 77s)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

JANUARY 12, 1954.

[F. R. Doc. 54-426; Filed, Jan. 21, 1954; 8:46 a. m.]

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

REGULATION AND EXEMPTION OF VARIOUS FINANCIAL TRANSACTIONS

Statutory basis. On November 10, 1953, the Securities and Exchange Commission invited all interested persons to submit data, views and comments on a proposal to amend § 250.50 (Rule U-50) to eliminate supplemental bidding orders under certain circumstances (Holding Company Act Release No. 12206-Y). The Commission has considered all the data, views and comments submitted and has adopted the amendments to Rule U-50, as proposed, with certain modifications set forth below. This action has been taken pursuant to the provisions of sections 6 (b), 7, 12 (d) and 20 (a) of the Public Utility Holding Company Act of 1935, the Commission deeming such action necessary and appropriate to carry out the provisions of the act.

Statement of purpose. The Commission is engaged in a comprehensive review of the rules, regulations, forms and procedures adopted under the various statutes administered by it. It is attempting to eliminate duplication and to simplify its requirements wherever practicable without prejudice to the public interest or the protection of investors. The amendment of Rule U-50 is a part of this program, as is the parallel simplification of competitive bidding procedures under the Securities Act of 1933.

Rule U-50 requires, except in the cases specified in paragraph (a), that the issue or sale of securities by registered holding companies and subsidiary companies be at competitive bidding. Paragraph (c) of the rule formerly required that the results of competitive bidding be submitted to the Commission by amendment of the application or declaration for final clearance.

The principal change in the rule consists of an amendment to paragraph (c) which makes unnecessary an amendment to the application or declaration and a supplemental order of the Commission with respect to the results of the competitive bidding if at least two bids are submitted. The new paragraph (d) of the rule will, however, keep the Commission informed as to bidding results. If only one bid is received, however, a further order of the Commission authorizing the issuance or sale must be obtained, as in the past. As the Commission stated in Holding Company Act Release No. 12206-Y (November 10, 1953) it is anticipated that the amendment of paragraph (c) will result in a considerable saving of time and expense

to issuers and sellers and to the Commission itself without, in practice, adversely affecting the interest of investors or consumers.

Paragraph (b) of the rule has been amended to shorten the required bidding period from 10 to 6 days.

The amendments to Rule U-50 are in the nature of an experiment by the Commission. If, after a reasonable period, the rule does not produce the expected results, the Commission reserves the right to modify or rescind the amendments.

The amendments of Rule U-50 will, of course, not affect the Commission's policies as to the terms of securities issued. The necessary information as to such matters is available to the Commission before it authorizes the invitation for bids.

Pending revision of Form U-1 (17 CFR 259.101), the amendments to Rule U-50 supersede any contrary instructions in that form.

Text of rule. The text of paragraphs (b), (c), and (d) of § 250.50 as amended read as follows:

§ 250.50 *Requirement of public invitation of proposals for the purchase or underwriting of securities.* • • •

(b) *Public invitation of proposals.* The Commission will not grant or permit to become effective any application or declaration subject to this rule unless the application or declaration states that the applicant or declarant, at least six days prior to entering into any contract or agreement for the issuance or sale of the securities therein proposed, will publicly invite sealed written proposals for the purchase or underwriting of such securities. Such proposals as may be received in response to such invitation shall not be opened at any time or place other than as specified in the invitation. The duly authorized representative of any person making any such proposal shall be entitled to be present at the opening of such proposals and to examine each proposal submitted.

(c) *Sale of securities.* If, pursuant to the public invitation, at least two independent proposals for the purchase or underwriting of the securities are received, the applicant or declarant may, without further order of or filing with the Commission, issue or sell the securities in accordance with the terms and conditions contained in the application, if granted or in the declaration, if effective; and the applicant or declarant shall be exempt from the provisions of § 250.24 (c) (3) (i) (Rule U-24 (c) (3) (A)) with respect to the issuance or sale. In any other event the applicant or declarant shall, as promptly as practicable after the opening of the proposals, file an amendment which shall include the applicable information or documents specified in paragraph (d) of this section; and the proposed issuance or sale of the securities shall not be consummated until a further order of the Commission authorizing such issuance or sale has been entered.

(d) *Reports.* If the issuance or sale is consummated without further order of the Commission pursuant to paragraph (c) of this section, the applicant or declarant shall include as part of the certificate filed pursuant to Rule U-24 (a), the names of the purchasers or underwriters, the terms of the several proposals received, the names of the persons (or in the case of a proposal by a group, of the manager of the group) submitting the proposals, the prospectus being used in connection with the issuance or sale, the underwriting agreement with respect thereto, any State Commission order authorizing the issuance or sale not previously filed, and the indenture or certificate setting forth the definitive terms of the securities. Unless requested by the Commission or required to complete the record as to any matter as to which jurisdiction has been specifically reserved, no further filing with respect to the issuance or sale shall be required.

Since the amendments to Rule U-50 simplify procedures in cases subject to that rule, they have been made effective immediately, January 13, 1954, except that the amendments shall not be effective as to any issuance or sale with respect to which the Commission has heretofore specifically reserved jurisdiction over the results of competitive bidding.

(Sec. 20, 49 Stat. 833; 15 U. S. C. 79t. Interprets or applies secs. 6, 7, 12, 49 Stat. 814, 815, 823; 15 U. S. C. 79f, 79g, 79l)

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

JANUARY 12, 1954.

[F. R. Doc. 54-425; Filed, Jan. 21, 1954; 8:45 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 590—GENERAL PROVISIONS

PART 596—CONTRACT CLAUSES AND FORMS

PART 597—TERMINATION OF CONTRACTS

PART 602—GOVERNMENT PROPERTY

PART 605—PROCUREMENT FORMS

MISCELLANEOUS AMENDMENTS

1. Section 590.302–3 is revoked and § 590.455 is amended to read as follows:

§ 590.302–3 *Small business concerns.* [Revoked.]

§ 590.455 *Standards of conduct.* In all procurements and related functions, stress shall be placed upon the importance of protection of the interests of the Government and the avoidance of any acts which may tend to compromise both the Department of the Army and the individual member of the Army Establishment, thus impairing public confidence in the integrity of business relations between the Department of the Army and industry.

(a) *Policy.* The Department of the Army policy is contained in the following publications:

(1) AR 600–205 (Standards of Conduct of Personnel Assigned to Procurement and related activities).

(2) AR 600–10 (Military Discipline).

(b) *Responsibility of all personnel.* All individuals concerned, either directly or indirectly, with any phase of procurement, inspection, and contract administration will read and initial a copy of AR 600–205. Such initialed copy shall be retained in the files of the office involved and shall be subject to inspection at all times. Likewise, each such individual shall be furnished a copy of AR 600–205. Further, those individuals referenced in § 590.454 and subject to military laws shall be fully cognizant of the provisions of AR 600–10.

2. Section 596.104–10 is revoked and in § 596.536–1, Clause 16 is amended to read as follows:

§ 596.104–10 *Renegotiation Act of 1951.* [Revoked.]

§ 596.536–1 *Sample of form.*

• • • • •

16. *Covenant against contingent fees.* The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this lease without liability or in its discretion to require the Lessee to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

• • • • •

3. A new Subpart F, including §§ 597.603 and 597.603–3, is added to Part 597 as follows:

SUBPART F—TERMINATION INVENTORY

§ 597.603 *Inventory schedules.*

§ 597.603–3 *Inventory descriptions.* All reportable Contractor inventory shall be listed on separate inventory schedules. These schedules plainly marked with the letter "Q", will be forwarded to the Department of Defense screening agency. In order to expedite the disposal of this property, it shall be screened concurrently with the Department of Defense screening agency and with General Services Administration on a regional basis only. Automatic release date will be 75 days after the issue date of the excess listing prepared by the Department of Defense screening agency from the inventory schedule and will be specifically set forth therein. The release date will be furnished the holding activity by the Department of Defense screening agency.

4. In § 602.805, the heading and paragraph (g) are amended and a new paragraph (i) is added as follows:

§ 602.805 *General (301, Appendix B, and 207.1, Appendix C of Part 413 of this title).* • • •

(g) Accounting for identical items of plant equipment valued at $500 or less on individual stock record cards or historical record forms in accordance with paragraph 304.3 of the Manual is not required. Individual item accounting is not required for identical items of furniture, office, medical, and cafeteria equipment, regardless of price.

• • • • •

(i) Individual item accounting is required for those items which are included in a standard departmental registration numbering system as indicated in § 602.811–1 (a) (2) regardless of price.

5. Section 602.807–3 is rescinded and the following substituted therefor:

§ 602.807–3 *Records of plant equipment.* The form of property records to be maintained for plant equipment shall be prescribed by the respective technical service. In addition to the exceptions provided for in paragraph 304.3 (a) and (b) of the Manual, the following exception also is applicable:

(a) *Records of plant equipment priced at $500 or under with the exception provided for in § 602.805 (g).* Items of plant equipment of identical nomenclature and operating performance for which individual item accounting is not required may be recorded on a single record. In the event such items of property listed on a single record have serial numbers and/or manufacturer's number, these numbers will be listed on the appropriate record or on a single supporting list. [304.3]

6. Section 602.808 is rescinded and the following substituted therefor:

§ 602.808 *Numbering property accounts.* Property account serial numbers need not be obtained from Army commanders for accounts established under contracts to which Appendix B or Appendix C of Part 413 of this title, are applicable, but rather the property account will be identified by the contract number and the appropriate regional office of the Army Audit Agency will be advised as specified in § 590.606–8 (c) of this subchapter. For the purpose of paragraph 401.1 of the Manual, the digits which designate the army, technical service, and procurement center in the property identification number specified in paragraphs (a) and (b) of this section will be accepted.

(a) *Technical service code.* The two-digit technical service code symbol will designate the owning technical service. The two-digit code symbol is as follows:

DEPARTMENT OF THE ARMY

Field Force elements	00
Ordnance Corps	01
Quartermaster Corps	02
Corps of Engineers	03
Transportation Corps	04
Signal Corps	05
Chemical Corps	06
Army Medical Service	07

(b) A two-digit procurement center code symbol established for each of the procurement centers or installations having nation-wide procurement responsibilities within the technical service will designate the center having jurisdiction over the item. For example, the Ordnance Ammunition Center may be designated "01" and the Ordnance Tank Automotive Center may be designated "02," etc. In the case of Corps of Engineers' construction activities, division engineer offices may be designated as procurement centers and assigned procurement center code symbols in accordance with this procedure. [305]

7. New §§ 602.811 and 602.811–1 are added to Subpart H of Part 602 as follows:

§ 602.811 *Identification of Government property.* Effective immediately, procurement center code symbols will be assigned and all Government property acquired hereafter for Department of the Army account for Contractor use will be identified as prescribed in this part. This identification shall be accomplished prior to delivery as part of the purchase agreement, by the Contractor, or by the procuring service, as applicable. Government property on hand or on order will be identified as prescribed in this part when the equipment is prepared for storage, reactivated, or at any other convenient occasion. [401 and 307]

§ 602.811–1 *Identification marking of Government property.* (a) The identification marking of Government property will be physically affixed to the item in accordance with paragraph 401 of the Manual. The identification markings shall consist of the following as may be applicable for the particular item being identified:

(1) *United States ownership; "U. S."* This identification symbol is applicable to all Government property except as may be exempted in accordance with paragraph 401.1 of the Manual. The letters "U. S." will be permanently affixed to the item to indicate Government ownership. For those items not requiring a registration number or United States Government tag number, the owning technical service code symbol, as prescribed in § 602.808 (a), will be permanently affixed immediately following the letters "U. S.," for example, "US–01," etc.

(2) *Registration number.* This number is applicable to those items included within a standard military registration numbering system such as motor vehicles (602.450 (a)), materials handling equipment, railroad equipment, and any other applicable items. For these items, application for registration number will be made to the appropriate technical service. Assigned registration numbers will be physically affixed to the item in accordance with applicable instructions.

(3) *Government tag number.* This number is applicable to those items for which individual item accounting is required as stipulated in §§ 602.805 (g) and 602.807–3, except those items having a registration number as prescribed in subparagraph (2) of this paragraph. This number shall be the Government property identification number assigned in accordance with paragraph 401.1 (c) of the Manual, which is as follows for the Department of the Army:

(i) The first part shall be the letters "U. S." to indicate Government ownership as prescribed in subparagraph (1) of this paragraph.

(ii) The second part shall consist of the code symbols which designate the technical service and procurement center involved. The two-digit code which indicates technical service ownership is given in § 602.808 (a). The two-digit code which indicates procurement center jurisdiction is given in § 602.808 (b).

(iii) The third part shall consist of a six-digit serial number. The assignment of serial numbers shall be in numerical sequence beginning with 000.001. Each procurement center having a code symbol as prescribed in § 602.808 (b) will be assigned six digits beginning with 000.001 or a total of 999.999 numbers for property control purposes.

(4) *Standard Commodity Classification Code.* This code number is applicable to metalworking machinery (SCC codes 3411 through 3419 and 3441 through 3449) included in or subject to inclusion in the Department of Defense publication "The Directory of Metalworking Machinery." This identification marking shall be the expanded 10-digit Standard Commodity Classification Code.

(b) Based upon the identification marking system mentioned in paragraph (a) of this section, a vertical milling machine purchased from the Government funds for production of medium tanks on a procurement program assigned to the Ordnance Tank Automotive Center could have the following identification marking:

US–01–02–000.001
SCC–3417–23–40–42

8. A new § 605.008 is added to Part 605, Procurement Forms, as follows:

§ 605.008 *Order and Voucher for Purchase of Supplies and Services (DD Form 738).* Authority is granted in effecting procurement outside the United States, its territories, and possessions to deviate from DD Form 738 to the extent indicated.

(a) *Clause 1—Disputes.* Substitute "disputes" clause prescribed in § 596.103–12 (c) of this subchapter.

(b) *Clause 2—Convict labor.* Delete clause.

(c) *Clause 3—Nondiscrimination in employment.* Delete clause. See § 596.–001 (b) (1) (iv) of this subchapter.

[Proc. Cir. 31, Dec. 29, 1953] (R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–161)

[SEAL] WM. E. BERGIN, *Major General, U. S. Army, The Adjutant General.*

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

NEW MEXICO

NOTICE OF POSTPONEMENT OF DATE FOR DRAWING UNDER PUBLIC LAND ORDER NO. [illegible]

The drawing provided in the last paragraph of Public Land Order No. 933 dated December 24, 1953, and published in 18 F. R. 8899, is postponed from 10 a. m., m. s. t., January 22, 1954, the date

specified in the order, to 10 a. m., m. s. t., February 23, 1954. The simultaneous filing period is extended to February 15, 1954, for the purpose of enabling those applicants who have hitherto filed under this order on unavailable land to refile on other land listed in this order.

ORME LEWIS,
Assistant Secretary of the Interior.

JANUARY 21, 1954.

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 53-60]

LIFESAVING APPLIANCES AND FIRE PROTECTION EQUIPMENT

A notice regarding proposed miscellaneous changes in the rules and regulations governing inspection of vessels in connection with lifesaving appliances and fire protection equipment was published in the FEDERAL REGISTER dated September 9, 1953, 18 F. R. 5432, 5433, as Items VII and VIII on the agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on September 29, 1953, at Washington, D. C. All comments, views, and data submitted were considered and where practicable were incorporated into the regulations.

The amendments to 46 CFR 33.05-2 (c), 33.15-3, and 33.20-1 (c) (3) revised certain requirements regarding lifeboats, portable radio telegraph apparatus, and deck illumination for tank vessels engaged in international voyages. These changes bring the requirements for tank vessels into agreement with similar requirements presently applicable to inspected dry cargo vessels, and implement the 1948 Convention for the Safety of Life at Sea. These amendments are based on Item VIII of the agenda.

The amendments to 46 CFR 34.10-25 (b), 34.10-30 (f), 76.10-10 (1), and 95.10-10 (1) revise the requirements regarding the number of threads used in fire hose couplings on board all types of inspected vessels. The revised regulations establish a standard of 9 threads per inch for 1½-inch fire hose couplings in lieu of the 11½ threads per inch standard presently in use and will apply only to new construction. This revision is in accord with the recommendations of the National Fire Protection Association and many other leading fire safety organizations and is an effort to secure standardization of couplings for fire hoses in order to facilitate using shore based fire-fighting facilities to deal with fires which may occur on board ships in port. This action is also based on Recommendation 8 of the International Convention for the Safety of Life at Sea, 1948. These amendments are based on Item VII of the agenda.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER, except as otherwise indicated in the regulations:

Subchapter D—Tank Vessels

PART 33—LIFESAVING APPLIANCES

SUBPART 33.05—LIFEBOATS, LIFE RAFTS, AND BUOYANT APPARATUS REQUIRED

1. Section 33.05-2 (c) is amended to read as follows:

§ 33.05-2 *Lifeboats for tank ships: ocean; construction or conversion of which was started on or after November 19, 1952—T/O.* • • •

(c) All tank ships of 1,600 gross tons and over on an international voyage shall carry at least one motor-propelled or hand-propelled lifeboat.

SUBPART 33.15—EQUIPMENT FOR LIFEBOATS, LIFE RAFTS, OR BUOYANT APPARATUS

2. Section 33.15-3 is amended to read as follows:

§ 33.15-3 *Portable radiotelegraph apparatus—T/OC.* All tank ships of 500 gross tons and over on an international voyage shall be provided with a portable radiotelegraph apparatus complying with the requirements of the Federal Communications Commission. The apparatus shall be kept in the radio room, or the chart room, or other suitable location and shall be immediately available for placement in one of the lifeboats.

SUBPART 33.20—STOWAGE OF LIFEBOATS, LIFE RAFTS, AND BUOYANT APPARATUS

3. Section 33.20-1 (c) (3) is amended to read as follows:

§ 33.20-1 *Davits and launching devices—T/B/ALL.* • • •

(c) • • •

(3) On tank ships on an international voyage, suitable means shall be provided for illuminating the launching gear and the lifeboats during the process of launching the lifeboats from the stowed position until they are waterborne.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended, 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

PART 34—FIRE-FIGHTING EQUIPMENT

SUBPART 34.10—FIRE PUMPS, MAINS, HYDRANTS, AND FIRE HOSE FOR TANK SHIPS

1. Section 34.10-25 (b) is amended to read as follows:

§ 34.10-25 *Fire hydrants—T/ALL.* • • •

(b) Hose connections shall be brass, bronze, or other equivalent metal. For installations on tank ships, the construction or conversion of which is started on or after July 1, 1954, National Standard fire hose coupling threads shall be used for the 1½-inch and 2½-inch sizes, i. e., 9 threads per inch for 1½-inch hose and 7½ threads per inch for 2½-inch hose.

2. Section 34.10-30 is amended by adding a new paragraph (f), reading as follows:

§ 34.10-30 *Fire hose—T/ALL.* • • •

(f) Couplings shall conform to the requirements of § 34.10-25 (b).

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended, 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Subchapter H—Passenger Vessels

PART 76—FIRE PROTECTION EQUIPMENT

SUBPART 76.10—FIRE MAIN SYSTEM, DETAILS

Section 76.10-10 (1) (1) is amended to read as follows:

§ 76.10-10 *Fire hydrants and hose.* • • •

(1) • • •

(1) Couplings shall be of brass, bronze, or other equivalent metal. For installations on vessels contracted for on or after July 1, 1954, National Standard fire hose coupling threads shall be used for the 1½-inch and 2½-inch sizes, i. e., 9 threads per inch for 1½-inch hose and 7½ threads per inch for 2½-inch hose.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, 4483, as amended, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Subchapter I—Cargo Vessels

PART 95—FIRE PROTECTION EQUIPMENT

SUBPART 95.10—FIRE MAIN SYSTEM, DETAILS

Section 95.10-10 (1) (1) is amended to read as follows:

§ 95.10-10 *Fire hydrants and hose.* • • •

(1) • • •

(1) Couplings shall be of brass, bronze, or other equivalent metal. For installations on vessels contracted for on or after July 1, 1954, National Standard fire hose coupling threads shall be used for the 1½-inch and 2½-inch sizes, i. e., 9 threads per inch for 1½-inch hose and 7½ threads per inch for 2½-inch hose.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, and 4483, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526p, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Dated: January 15, 1954.

[SEAL] MERLIN O'NEILL,
Vice Admiral, U. S. Coast Guard, Commandant.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MEMBER LINES OF WESTERN HEMISPHERE PASSENGER CONFERENCE

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. Section 814.

Agreement No. 8030-4 between the Member Lines of the Western Hemisphere Passenger Conference modifies the provision of the basic agreement of that conference (No. 8030) requiring members to furnish the Conference Chairman reports of passengers to whom free or reduced transportation has been granted. The purpose of the modification is to provide that such reports will be required only where the free or reduced transportation granted is below the minimum rates.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to this agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: January 19, 1954.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

BEACHVIEW BROADCASTING CORP. AND PORTSMOUTH RADIO CORP.

ORDER CONTINUING HEARING

In the matter of Beachview Broadcasting Corp., Norfolk, Virginia, Docket No. 10800, File No. BPCT-1605; Portsmouth Radio Corp., Portsmouth, Virginia, Docket No. 10801, File No. BPCT-1750; for television construction permits.

Because of the sudden illness of counsel for one of the applicants in the above-entitled matter: *It is ordered*, This 18th day of January 1954 that the further hearing conference heretofore scheduled pursuant to § 1.841 for January 19, 1954, be, and it hereby is, postponed indefinitely.

Released: January 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-436; Filed, Jan. 21, 1954; 8:47 a. m.]

[Docket Nos. 10833, 10834, 10835]

CITY OF JACKSONVILLE ET AL.

ORDER CONTINUING HEARING CONFERENCE

In the matter of City of Jacksonville, Jacksonville, Florida, Docket No. 10833, File No. BPCT-749; Florida-Georgia Television Company, Inc., Jacksonville, Florida, Docket No. 10834, File No. BPCT-1624; Jacksonville Broadcasting Corporation, Jacksonville, Florida, Docket No. 10835, File No. BPCT-1625; for construction permits for new television stations.

Hearing Conference in the above-entitled matter having heretofore been scheduled for February 5, 1954; and

Counsel for the parties having unanimously requested, with the concurrence of counsel for the Broadcast Bureau, a continuance of the matter from February 5, 1954, to February 15, 1954; and

It appearing, that good and sufficient reasons exist for such request,

It is therefore ordered, This 18th day of January 1954 that the hearing conference pursuant to § 1.841, heretofore scheduled for February 5, 1954, be continued to February 15, 1954.

Released: January 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket Nos. 10849, 10850]

CENTRAL CITY-GREENVILLE BROADCASTING CO. AND MUHLENBERG-OHIO-McLEAN BROADCASTERS

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of L. L. Stone, A. E. Stone and R. G. Utley, a partnership d/b as Central City-Greenville Broadcasting Company, Central City Kentucky, Docket No. 10849, File No. BP-8951; Hugh O. Potter and Cliffordean H. Potter, a partnership d/b as Muhlenberg-Ohio-McLean Broadcasters, Central City, Kentucky, Docket No. 10850, File No. BP-8789; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 13th day of January 1954:

The Commission having under consideration the above-entitled applications for construction permit for a new standard broadcast station to operate on 1380 kc, 500 watts, daytime only, at Central City, Kentucky; and

It appearing, that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated October 21, 1953, that operation of both stations as proposed would result in mutually prohibitive interference with each other; that insufficient information was submitted with the application of the Muhlenberg-Ohio-McLean Broadcasters to determine whether it was financially qualified; and that the Commission was unable to conclude that a grant of either application would be in the public interest; and

It further appearing, that the Muhlenberg-Ohio-McLean Broadcasters filed a reply dated October 28, 1953, in which it submitted information sufficient to determine that it is financially qualified; and

It further appearing, that the Central City-Greenville Broadcasting Company filed a reply dated November 20, 1953, in which it stated that it would appear if the subject applications were designated for hearing; and

It further appearing, that the Commission, after consideration of the replies, is of the opinion that a hearing is mandatory:

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

To determine, on a comparative basis, which of the operations proposed in the above-entitled applications would best serve the public interest, convenience or necessity in the light of the evidence adduced and the record made with respect to the significant differences between the applicants as to:

a. The background and experience of each of the above-named applicants to own and operate the proposed stations.

b. The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

c. The programming service proposed in each of the above-mentioned applications.

Released: January 19, 1954.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3168]

SOUTHERN CO. ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE BY HOLDING COMPANY OF PROMISSORY NOTES AND ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARIES TO PARENT COMPANY

JANUARY 15, 1954.

In the matter of The Southern Company, Alabama Power Company, Georgia Power Company; File No. 70-3168.

The Southern Company ("Southern"), a registered holding company, and two of its public-utility subsidiary companies, Alabama Power Company ("Alabama") and Georgia Power Company ("Georgia"), having filed with this Commission a joint application-declaration, pursuant to sections 6 (b), 7, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43 thereunder, with respect to the following proposed transactions:

Southern proposes to issue to forty-nine banks unsecured promissory notes in an aggregate principal amount of $15,000,000. Each of said notes will mature February 1, 1956, and will bear interest at the rate of 3½ percent per annum. The agreement under which it is proposed to issue such notes provides for the renewal thereof extending the maturity date to February 1, 1959. The proposed notes may be prepaid in whole at any time or in part from time to time without penalty or premium. The proceeds to be derived from the sale of the proposed notes, together with treasury funds, will be used by Southern to purchase the common stocks of Alabama and Georgia as described below.

Alabama and Georgia propose to issue and sell to Southern 80,000 and 100,000 shares, respectively, of their no par common stocks for an aggregate consideration of $8,000,000 in the case of Alabama and of $10,000,000 in the case of Georgia. The proceeds from the sale of such stock will be used by these companies to finance improvements, extensions and additions to their respective utility plants.

The joint application-declaration indicates that Southern requests authority to renew the proposed notes on February 1, 1956, and states that should the Commission prefer to withhold action at this time with respect to the renewal of such notes, Southern requests the Commission to reserve jurisdiction with respect thereto. The application-declaration further states that it is contemplated that the proposed notes will be paid at or before their maturity, or their extended maturity, through the issuance and sale by Southern of such securities as may be appropriate and approved by the Commission. Southern agrees that such securities will meet the requirements of section 7 (c) (1) of the act or that it will demonstrate that such securities are for necessary and urgent corporate purposes and that the requirements of section 7 (c) (1) would impose an unreasonable financial burden upon Southern and are not necessary or appropriate in the public interest or for the protection of investors or consumers.

The proposed common stock sale by Alabama and Georgia have been expressly authorized by the Alabama Public Service Commission and the Georgia Public Service Commission, respectively, and according to the joint application-declaration no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Fees and expenses are estimated at $10,500 for Southern, $3,700 for Alabama and $3,900 for Georgia including legal fees of $6,500 in the case of Southern and $500 each for Alabama and Georgia.

Due notice having been given of the filing of the joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said joint application-declaration be granted and permitted to become effective forthwith, except that jurisdiction should be reserved over the renewal of the notes maturing February 1, 1956, as alternatively proposed in the joint application-declaration and over the fees and expenses of counsel as to which the record has not been completed:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said joint application-declaration be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the reservations of jurisdiction hereinafter set forth; and

It is further ordered, That jurisdiction be, and the same hereby is, reserved over the renewal of the notes maturing February 1, 1956, as alternatively proposed in the joint application-declaration, and with respect to the fees and expenses of counsel.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File Nos. 70-3167, 70-3181]

CITIES SERVICE CO. ET AL.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING REGARDING ACQUISITION OF SECURITIES OF PUBLIC UTILITY COMPANY, ISSUANCE AND SALE OF NOTES AND COMMON STOCK, AND PLEDGE OF SECURITIES, AND ORDER CONSOLIDATING PROCEEDINGS

JANUARY 19, 1954.

In the matter of Cities Service Company, The Gas Service Company, Gas Advisers, Inc., File No. 70-3167; Missouri Public Service Company, File No. 70-3181.

The Commission having on January 12, 1954, issued its supplemental notice of filing and notice of and order for hearing directing that a hearing be held on January 26, 1954, upon the application-declaration of Cities Service Company ("Cities"), The Gas Service Company ("Gas Service") and Gas Advisers, Inc. ("Gas Advisers") (File No. 70-3167), regarding, among other things, the sale by Cities of 1,500,000 shares of the common stock of Gas Service to Missouri Public Service Company ("Missouri"); and

Missouri having now filed a Notification of Registration, as a person purposing to become a holding company, pursuant to section 5 (a) of the Public Utility Holding Company Act of 1935, and having filed an application-declaration (File No. 70-3181) pursuant to sections 6, 7, 10, and 12 of said act and Rules U-44, U-50, and U-62 promulgated thereunder, regarding the acquisition by Missouri from Cities of the 1,500,000 shares of the common stock of Gas Service, the borrowing of $18,000,000 from banks, such indebtedness to be evidenced by six-months promissory notes bearing interest at the rate of 4 percent per annum, the increase of the authorized number of shares of its common stock from 530,000 to 1,060,000, the issuance and sale of 527,865 shares of its common stock without par value, without competitive bidding, to a group of underwriters headed by Kidder, Peabody & Co., for resale to the public, subject to a preemptive offering to its present stockholders on the basis of one share for each existing share, and the pledge of all of the shares of the Gas Service common stock to secure said $18,000,000 bank loans; and having requested exemption of the issue and sale of its common stock from the competitive bidding requirements of Rule U-50; and having also filed proxy material in connection with a special meeting of stockholders to be held to vote upon the increase in the number of authorized shares of its common stock and to ratify the action of the management in contracting to purchase the common stock of Gas Service; and

It appearing to the Commission that said application-declaration of Missouri in File No. 70-3181 presents common questions of law and fact with the application-declaration of Cities et al. in File No. 70-3167 and should be consolidated for hearing with the proceeding last named; and

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a public hearing be held with respect to the transactions proposed in the application-declaration of Missouri for the purpose of affording an opportunity to all interested persons to present evidence and to be heard with respect to the proposed transactions set forth in said application-declaration;

It is ordered, That the application-declaration of Missouri be, and the same hereby is, consolidated for hearing with the application-declaration of Cities et al. and that the hearing on both matters be held on January 26, 1954, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On such date the hearing room clerk will advise as to the room in which such hearing will be held. Any person (other than the Public Service Commission of the State of Missouri and the cities of Kansas City, Independence, Joplin, and St. Joseph, Missouri), desiring to be heard in connection with these proceedings or proposing to intervene, shall file with the Secretary of this Commission on or before January 25, 1954, a written request relative thereto, as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That James G. Ewell, or any other officer or officers of the Commission designated by it for that purpose shall preside at said consolidated hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the application-declaration of Missouri and that upon the basis thereof the following matters and questions are presented for consideration in addition to those matters and questions presented in connection with the application-declaration of Cities et al., without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the acquisition by Missouri of the Gas Service stock meets the requirements of section 10 of the act;

(2) Whether the issuance and sale by Missouri of notes and common stock meet the requirements of section 7 of the act;

(3) Whether Missouri is entitled to exemption from the provisions of Rule U-50 with respect to the sale of its common stock;

(4) Whether the pledge of the Gas Service stock meets the requirements of section 12 (d) and Rule U-44 promulgated thereunder;

(5) Whether the accounting treatment proposed in connection with the consummation of the transactions proposed by Missouri is appropriate;

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions, in addition to those matters and questions heretofore specified in the Commission's order of January 12, 1954.

It is further ordered, That jurisdiction be, and hereby is, reserved to separate either for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters hereinbefore set forth or which may hereafter arise, or to consolidate these proceedings with other proceedings, or to take such other action as may appear to be necessary for the orderly, prompt, and economical disposition of the matters involved.

It is further ordered, That in lieu of the notice specified in Rule III-(c) of the Commission's rules of practice, notice of the public hearing on the application-declaration of Missouri and the consolidation thereof with the application-declaration of Cities et al. be given by confirmed telegram and by mailing by registered mail of a copy of this notice of and order for hearing to Cities, Gas Service, Gas Advisers, Missouri, The Public Service Commission of the State of Missouri, The State Corporation Commission of the State of Kansas, The Nebraska State Railway Commission, The Corporation Commission of the State of Oklahoma, and the Cities of Kansas City, Independence, Joplin, and St. Joseph, Missouri; and that a copy of this notice of and order for hearing shall also be published in the FEDERAL REGISTER, and be made the subject of a general release of the Commission, distributed to the press and mailed to the mailing list for releases under the act, but that any lack of timeliness in such publication or general release shall not be deemed to effect the validity of the notice given in the manner specified above.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28835]

WOOD REFUSE OR WASTE FROM NASHVILLE, TENN., TO PHILO, OHIO

APPLICATION FOR RELIEF

JANUARY 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Wood refuse or waste, viz: Block, chips, cores, scrap or waste, carloads.

From: Nashville, Tenn.

To: Philo, Ohio.

Grounds for relief: Rail competition, circuity.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 708, supp. 201.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[4th Sec. Application 28836]

BARIUM SULPHATE FROM NORTH ATLANTIC PORTS TO CHARLESTON, W. VA.

APPLICATION FOR RELIEF

JANUARY 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin and Frank Van Ummersen, Agents, for carriers parties to schedules listed below.

Commodities involved: Crude barium sulphate (barytes ore), carloads.

From: North Atlantic ports.

To: Charleston and South Charleston, W. Va.

Grounds for relief: Competition, circuity, and to maintain port rate relations.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-941, supp. 85; C. W. Boin, Agent, I. C. C. No. A-914, supp. 62; Frank Van Ummersen, Alternate Agent, I. C. C. No. 591, supp. 113; R. B. LeGrande, Agent, I. C. C. No. 253, supp. 72; R. B. LeGrande, Agent, I. C. C. No. 238, supp. 129.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28837]

METHANOL (METHYL ALCOHOL) FROM POINTS IN WEST VIRGINIA TO CINCINNATI, OHIO

APPLICATION FOR RELIEF

JANUARY 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to schedules listed below.

Commodities involved: Methanol (methyl alcohol) in tank-car loads.

From: Points in the Charleston, W. Va., industrial district, and Morgantown, W. Va.

To: Cincinnati, Ohio.

Grounds for relief: Rail competition, circuity, and market competition.

Schedules filed containing proposed rates: Baltimore and Ohio Railroad Company, I. C. C. No. 24126, supp. 31; Chesapeake & Ohio Railway Company, I. C. C. No. 13168, supp. 143; New York Central Railroad Company, I. C. C. No. 1123, supp. 216; Pennsylvania Railroad Company, I. C. C. No. 3305, supp. 33; Pittsburgh & Lake Erie Railroad Company, I. C. C. No. 3481, supp. 66.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[Rev. S. O. 562, Taylor's I. C. C. Order 32]

NASHVILLE, CHATTANOOGA AND ST. LOUIS RAILWAY

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the Nashville, Chattanooga and St. Louis Railway, because of high water, is unable to transport traffic routed over its lines between Hobbs Island and Guntersville: *It is ordered*, That:

(a) Rerouting NC&StL traffic: The Nashville, Chattanooga and St. Louis Railway is hereby authorized to reroute or divert traffic moving on its lines, routed via its car ferry, over any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 12:01 a. m., January 19, 1954.

(g) Expiration date: This order shall expire at 11:59 p. m., February 2, 1954, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., January 18, 1954.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

FEDERAL REGISTER

VOLUME 19 NUMBER 16

Washington, Saturday, January 23, 1954

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Reg. 130; T. D. 6061]

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

ASCERTAINMENT OF AMOUNT OF ADJUSTMENT; INTEREST

Regulations 130 amended to correct the example in § 40.452–4 (f), relating to adjustment in case of position inconsistent with prior income tax liability.

Regulations 130 (26 CFR Part 40) are hereby amended as follows:

PARAGRAPH 1. Section 40.452–4 (f), which contains an example illustrating the computation of an adjustment in the case of a position inconsistent with prior income tax liability, is amended as follows:

(A) By striking out the computation following the colon in the third undesignated paragraph of paragraph (f) and inserting in lieu thereof the following:

Tax previously determined for 1946	$28,500
Normal-tax net income ($75,000) and surtax net income ($75,000) on which tax previously determined was based	75,000
Plus: Ordinary loss previously allowed under section 117 (j) (excess of $25,000 loss on exchange with Y Corporation over $10,000 gain on sale of other depreciable business property)	15,000
Ordinary normal-tax net income	90,000
Ordinary surtax net income	90,000
Tax as recomputed (38 percent of $90,000 plus 25 percent of $10,000 gain from sale of depreciable business property)	36,700
Tax previously determined	28,500
Increase in tax	8,200
Interest on increase in tax	1,968
Total increase for 1946	10,168

(B) By striking out the computation following the colon in the last undesignated paragraph of paragraph (f) and inserting in lieu thereof the following:

Increase for 1946 (X Corporation)	$10,168
Less: Decrease for 1946 (Y Corporation)	589
Net increase (amount of adjustment authorized)	9,579

PAR. 2. Section 40.452–5 (b), relating to the deductibility of the portion of the adjustment under section 452 which represents interest, is amended by substituting "$1,854" for "$942" and "$1,968" for "$1,056".

Because this Treasury decision merely corrects an erroneous computation in the regulations, it is found to be unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: January 19, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

The findings and determination made by the Secretary in § 721.506 have been made on the basis of the latest available statistics of the Federal Government and after due consideration within the limits permitted by the Agricultural Adjustment Act of 1938, as amended, of data, views, and recommendations received pursuant to public notice (18 F. R. 6456) given in accordance with the Administrative Procedure Act.

§ 721.506 *1954 acreage allotment for corn.* The acreage allotment for corn for 1954 for the commercial corn-producing area is 46,995,504 acres.

Issued at Washington, D. C., this 20th day of January 1954.

[SEAL] E. T. BENSON,
Secretary of Agriculture.

[Navel Orange Reg. 15]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.315 *Navel Orange Regulation 15*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on January 21, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., January 24, 1954, and ending at 12:01 a. m., P. s. t., January 31, 1954, is hereby fixed as follows:

(i) District 1: 288,750 boxes;
(ii) District 2: 150,150 boxes;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 22d day of January 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 531]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.628 *Lemon Regulation 521*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on January 20, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 24, 1954, and ending at 12:01 a. m., P. s. t., January 31, 1954, is hereby fixed as follows:

(i) District 1: 40 carloads;

(ii) District 2: 210 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 21st day of January 1954.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 2]

PART 24—MECHANIC AND REPAIRMAN CERTIFICATES

MECHANICAL EXPERIENCE

The purpose of this supplement is to outline the CAA interpretation of the experience requirements of § 24.31. A new § 24.31-1 is hereby adopted to read as follows:

§ 24.31-1 *Mechanical experience (CAA interpretations which apply to § 24.31).* The 18 months of experience required by § 24.31 is interpreted to mean that an applicant for either an airframe or a powerplant rating must have 18 months of exclusive experience for the particular rating. For example, an applicant lists 18 months of airframe experience acquired from January 1, 1951, through July 1952, while employed as a mechanic at Repair Station X. Subsequently, he applies for a powerplant rating and states on the application that he was employed as an engine mechanic at Repair Station X from January 1, 1951, through July 1952. Obviously, he does not meet the experience requirements for a powerplant rating, since § 24.31 requires him to have 18 months for each rating, or under these circumstances, 30 months if the experience has been obtained concurrently for both ratings.

(Sec. 205, 52 Stat. 984, as amended: 49 U. S. C. 425. Interpret or apply secs. 602, 608, 52 Stat. 1008, 1011, as amended; 49 U. S. C. 552, 558)

This supplement shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

TITLE 20—EMPLOYEES' BENEFITS

Chapter I—Bureau of Employees' Compensation, Department of Labor

Subchapter E—Extension of the Longshoremen's and Harbor Workers' Compensation Act to Persons Engaged in Employment Outside Continental United States

PART 51—GENERAL ADMINISTRATIVE PROVISIONS

ESTABLISHMENT OF COMPENSATION DISTRICTS

Pursuant to the authority conferred by section 39 of the Longshoremen's and Harbor Workers' Compensation Act (act of March 4, 1927, 44 Stat. 1442; 33 U. S. C. 939), as extended to employments at military, air and naval bases, and other places outside the United States by the act of August 16, 1941, as amended (55 Stat. 622, as amended by 56 Stat. 1035; 42 U. S. C. 1651), § 51.2 (20 CFR 51.2) is hereby amended, effective February 1, 1954, so as to redefine the geographic limits of the compensation district established as Pacific District, and to abolish a compensation district under said act now known as Western Pacific District. The new designation for the Pacific District in § 51.2 of said regulations shall read as follows:

§ 51.2 *Establishment of compensation districts.* (a) • • •

(2) *Pacific District.* This district comprises all land and water areas outside the continents of North and South America which are south of the 45th degree north latitude and westward from the 110th degree west longitude to the 90th degree east longitude, except areas in the North Atlantic Ocean and contiguous waters, with headquarters at Honolulu, T. H.

• • • • • •

(8) *Western Pacific District.* [Revoked.]

(Sec. 39, 44 Stat. 1442; 33 U. S. C. 939)

Signed at Washington, D. C., this 18th day of January 1954.

WM. MCCAULEY,
Director, Bureau of Employees' Compensation.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 532—PAYMENTS ON BEHALF OF MENTALLY INCOMPETENT PERSONNEL

RETIRED AND RETIREMENT PAY

In § 532.2, paragraph (i) is revised to read as follows:

§ 532.2 *Retired and retirement pay.*

• • •

(i) *Payment to mentally incompetent retired members.* Payment of retired pay to mentally incompetent Army members receiving retired pay when located in the continental United States, or in any place other than Panama, Puerto Rico, Hawaii, and the Philippine Islands, will be made by the Finance Center, U. S. Army, Indianapolis 49, Indiana. Where mentally incompetent members reside in Panama, Puerto Rico, Hawaii, and the Philippine Islands, payment will be made by the disbursing officer designated to make payments of retired pay in the area. No designation of person or persons to receive payments under this section will be made for or on behalf of mentally incompetent retired members residing outside the continental limits of the United States; payments to such members will be made only to a legal committee, guardian, or other legal representative appointed by a court of competent jurisdiction.

PART 590—GENERAL PROVISIONS

PART 601—LABOR

MISCELLANEOUS AMENDMENTS

1. In § 590.606-8, a new subparagraph (5) is added to paragraph (a) as follows:

§ 590.606-8 *Distribution to the Army Audit Agency of procurement contracts and other documents.* (a) • • •

(5) When a contract supplement reflecting (i) redetermined prices under a price redetermination type contract or (ii) a termination settlement is forwarded to a regional office of the Army Audit Agency in accordance with the requirements of subparagraph (1), (2), (3), or (4) of this paragraph, one copy of the record of negotiations will be attached to the supplement. This record will be an extra copy of summary of negotiations necessary for proper documentation in the contract file, or for review by a board of awards (if appropriate). No special record is required to be prepared to meet the requirements of this section.

* * * * *

2. In Part 601, §§ 601.403, 601.450, 601.451, 601.502 and 601.503 are revoked.

§ 601.403 *Department of Labor regulations.* [Revoked.]

§ 601.450 *Predeterminations of prevailing wage rates.* [Revoked.]

§ 601.451 *List of ineligible contractors and disqualified bidders.* [Revoked.]

§ 601.502 *Applicability.* [Revoked.]

§ 601.503 *Department of Labor regulations.* [Revoked.]

TITLE 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 105—FINANCIAL ASSISTANCE FOR CURRENT EXPENDITURES FOR LOCAL EDUCATIONAL AGENCIES IN AREAS AFFECTED BY FEDERAL ACTIVITIES AND ARRANGEMENTS FOR THE FREE PUBLIC EDUCATION OF CERTAIN CHILDREN RESIDING ON FEDERAL PROPERTY

FINAL DATE FOR FILING APPLICATIONS FOR FINANCIAL ASSISTANCE

Part 105, 45 CFR 105.5, as amended in 18 F. R. 6703, issued pursuant to Public Law 874, 81st Congress (64 Stat. 1100) as amended, is amended to extend the date for filing applications. The section as amended reads as follows:

§ 105.5 *Final date for filing applications for financial assistance from funds appropriated for the fiscal year 1954, and thereafter.* (a) The final date for filing applications for financial assistance under sections 2, 3 or 4 of the act, or under any subsection thereof, and this part, out of funds appropriated for any fiscal year shall be March 31st of such fiscal year for all applicants. An application must be received by the Commissioner, or under cover postmarked, on or before the final filing date after transmittal through and certification by the State educational agency. The applicant is responsible for obtaining the certification of the State educational agency and for securing transmittal of the application to the Commissioner of Education by the final filing date. The applicant, in order to give the State educational agency time in which it may process the application, should file its application with the State educational agency by March 1 of the fiscal year. The final date for filing the application with the Commissioner is subject to the following exceptions:

(1) With respect to an applicant whose eligibility for financial assistance under this act is established by an activity of the United States initiated or reactivated, or by the acquisition of Federal property, during the fiscal year, the filing date shall be extended 60 days beyond the date of such occurrence establishing eligibility, but not beyond the last day of the fiscal year; or

(2) With respect to an applicant whose eligibility for financial assistance is established under or pursuant to an amendment to the act adopted during the fiscal year, the filing date shall be extended 60 days beyond the date of such amendment, but not beyond the last day of the fiscal year: *Provided*, That where an application is filed directly with the Commissioner within the applicable filing date, and a copy is filed within such time with the State educational agency, the application, for good cause shown, will be considered to be timely filed if within fifteen days after the applicable filing date and within the fiscal year the applicant obtains and files with the Commissioner approval, verification and certification of the application by the State educational agency: *And provided, further*, That an application timely filed may be amended to obtain additional or alternative financial assistance based upon a Federal activity which has been initiated or reactivated, or upon property which has been acquired by the United States after the application was filed, or upon an amendment to the act enacted after the application was filed, or upon a determination of the Commissioner first communicated to the applicant that property is or is not "Federal property" under the act, if such amendment is made within the fiscal year and within 60 days of the occurrence or communication of the Commissioner's ruling to the applicant.

(b) After the applicable filing date an application cannot be amended or modified to assert a basis for financial assistance not clearly stated and supported by data in the application.

(Sec. 7, 64 Stat. 1107; 20 U. S. C. 242. Interprets or applies sec. 5, 64 Stat. 1106; 20 U. S. C. 240)

Dated: Jan. 12, 1954.

[SEAL] S. M. BROWNELL,
United States Commissioner of Education.

Approved: January 19, 1954.

OVETA CULP HOBBY,
Secretary of Health, Education, and Welfare.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 965]

[Docket No. AO-166-A18 RO 1]

MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF REOPENING OF HEARING; PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the public hearing held October 16, 1953, at Cincinnati, Ohio, pursuant to notice issued October 8, 1953 (18 F. R. 6468), such reopened hearing to be held at the Sinton Hotel, Fourth and Vine Streets, Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., January 28, 1954, for the purposes of receiving additional evidence with respect to proposal No. 1 below, set forth in the original notice of hearing, to amend the tentative marketing agreement heretofore approved by the Secretary of Agriculture and the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area, and of receiving evidence with respect to the additional amendment proposals set forth herein, or appropriate modifications of any of such proposals. These proposed amendments have not received the approval of the Secretary of Agriculture.

Consideration will be given also to the question of whether economic and marketing conditions which relate to the handling of milk for the said marketing area require emergency action with respect to any or all amendments deemed necessary as the result of the hearing.

Proposed by the K. I. O. Milk Producers Association, the Milk Producers Union, the Cincinnati Milk Sales Association, and the Cooperative Pure Milk Association:

Proposal No. 1: Amend § 965.51 (a) (5) by deleting the following phrase "the month of July shall not be more than such adjusted differential for the immediately preceding month of June and for each of the months of August and September the Class I differential adjusted pursuant to this subparagraph shall not be more than such adjusted differential for the immediately preceding month of June plus 30 cents" and substituting therefor the following: "the months of May, June, and July shall not be more than such adjusted differential for the immediately preceding month of April;"

Proposal No. 2: Amend § 965.60 to read as follows:

§ 965.60 *Computation of value of milk for each handler.* The value of milk received from producers during each month by each handler shall be a sum of money computed by the market administrator by multiplying the hundredweight of milk in each class by the applicable class prices, subject to the butterfat differential provided in § 965.52 and adding an amount resulting from the following computations: (1) Multiply the pounds of butterfat subtracted pursuant to § 965.46 (g) by the price for the applicable class adjusted by the applicable butterfat differential, and (2) multiply the pounds of milk and butterfat subtracted from Class I and/or Class II pursuant to § 965.46 (d) by the difference between the price of milk and/or butterfat of the class from which subtracted and the Class III price for milk and/or butterfat.

Proposal No. 3: Amend § 965.7 (c) by changing the phrase "not less than one percent" to "not less than two and one-half percent".

Proposal No. 4: Amend § 965.8 by changing the period at the end of the paragraph to a colon and adding the following proviso: *"Provided further*, That this definition shall not be deemed to include for the months of March, April, May, and June of any year any such person whose milk was not received at a pool plant on 15 or more days during each of the preceding months of October through February, except that for March, April, May, and June 1954 any such person shall not be deemed to be a producer if he fails to deliver milk to a pool plant on 15 days or more during the month of February 1954."

Proposal No. 5: Amend § 965.64 by adding thereto appropriate language which would provide for a location differential to apply to all receiving stations or milk plants selling milk in the Cincinnati market located thirty (30) miles or more from the Court House in Cincinnati, such differential to be based upon the evidence adduced in relation thereto.

Proposal No. 6: Amend § 965.9 by adding the following paragraph:

(c) Any local cooperative milk marketing association in respect to milk which has been diverted to it in shippers cans or in bulk by any person described in paragraph (a) of this section.

Proposal No. 7: Amend § 965.41 by adding thereto the following paragraph:

(e) Class V milk shall be all distress milk diverted to a local co-operative milk marketing association whenever the total receipts of milk from producers as described in this order exceeds one hundred and fifty percent of the gross Class I and II utilization.

Proposal No. 8: Amend § 965.51 by adding thereto the following paragraph:

(e) The price for Class V milk shall be the price received by a local co-operative milk marketing association for distress milk diverted to such association pursuant to § 965.9 (c).

Proposed by the Matthews-Frechtling Dairy Company:

Proposal No. 9: Amend the introductory language of § 965.51 (c) to read as follows: "The price for Class III milk shall be the lower of the prices computed to subparagraphs (1) and (2) of this paragraph, during the months of March, April, May, June, July, and August of each year, and the price for Class III milk shall be the higher of the prices computed pursuant to subparagraphs (1) and (2) of this paragraph plus thirty cents, during the months of September, October, November, December, January, and February."

Proposal No. 10: Amend § 965.41 (d) by adding the words "or Cheddar cheese" after the word "butter" and amend § 965.41 (c) by adding the words "except Cheddar cheese" after the words "all cheese".

Proposal No. 11: Add the following as § 965.43 (c):

(c) Any handler may transfer milk in producer's cans between handlers subject to approval of the milk market administrator.

Proposed by the J. Weber Dairy Company et al.:

Proposal No. 12: Amend that portion of § 965.51 (c) which precedes subparagraph (1) thereof to read as follows:

(c) The price for Class III milk during each of the months of March through August shall be the price computed pursuant to subparagraph (2) of this paragraph; and the price for Class III milk during each of the months of September through February, shall be the higher of the prices computed pursuant to subparagraph (1) and (2) of this paragraph. * * *

Proposal No. 13: Amend § 965.7 (c) by inserting the following provisos immediately following the schedule contained in said paragraph and immediately preceding the proviso presently contained therein: "*Provided*, That the requirements of this paragraph shall not disqualify any plant from its status as a 'pool plant' if said plant has been qualified as a 'pool plant' for the preceding five years: *And provided*, That the requirements of this paragraph shall not disqualify any plant from its status as a 'pool plant' if said plant has been qualified as a 'pool plant', and if said plant receives from pool plants distress surplus milk or skim milk during the months of February through July, and further"

Proposal No. 14: Amend § 965.7 (c) by adding the words "and skim milk" in line 5 of this section, immediately after the word "milk."

Proposal No. 15: Amend the last eight lines of § 965.43 (b) by changing the colon at the end of the eighth last line to a period and deleting the last seven lines of this section, beginning with the words: "*And provided further, etc.*"

Proposal No. 16: Amend § 965.41 (c) (1) by deleting the word "candy", and inserting in its place the words "food products".

Proposed by the H. Miller Dairy Company:

Proposal No. 17: Amend § 965.41 (c) (1) by adding at the end thereof the following phrase: "cream used in the manufacture of sour cultured cream;"

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 18: Make such other changes as may be required to make the entire marketing agreement and order conform with any amendment(s) thereto that may result from this hearing.

Copies of this notice of hearing and of the aforesaid tentative marketing agreement and order may be procured from the market administrator, Room 202, Southern Ohio Bank Bld., 519 Main St., Cincinnati, Ohio, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: January 20, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 148]

POSTING FREIGHT OR PASSENGER TARIFFS AT STATIONS

NOTICE OF PROPOSED RULE MAKING

JANUARY 18, 1954.

Under authority of section 6 of the Interstate Commerce Act, the Commission, by orders dated October 12, 1915, and later, and by Rule 6 of Tariff Circulars 22 and 23, modified the requirements of sections 6 and 306 with respect to the posting of freight and passenger tariffs at stations.

It appears that there is need for a revision of the regulations prescribed in those orders. The Railroads' Tariff Research Group has asked that they be changed in certain respects and has submitted proposed amendments and explanations in support thereof. The proposed revised regulations are set forth below. The petition of the Railroads' Tariff Research Group is attached.[1] Interested parties may obtain copies of the petition of the Railroads' Tariff Research Group by writing Mr. Chas. S. Baxter, Chairman, Railroads' Tariff Research Group, Transportation Building, Washington 6, D. C.

While in the main the proposed revision is a restatement of the current posting regulations, it will change them in the following respects:

1. The present regulations require each carrier to file with the Commission in the form of a tariff, and to keep current, lists of the tariffs which are to be found in the files at each station or office where tariffs are required to be posted. This would be eliminated in the proposed revision. Instead each carrier would be required to furnish the agent or employe in charge of each tariff file, at least once a year, a list of the tariffs which should be in that file. Upon receipt of the list the responsible employe would be re-

[1] Filed as part of the original document.

quired immediately to check it against the tariffs actually on hand and report back any deficiencies.

2. The present regulations designate by name the points on many (not all) railroads at which the carrier must maintain a complete file of its tariffs for public inspection. The proposed regulations would merely fix the minimum number of such places, based on the size of the railroad (the number of miles of main-line track operated), and would permit the carrier to select the places. The Commission, however, would retain the authority, upon reasonable investigation to require any carrier to maintain public tariff files at other places, in addition to or in substitution of those selected by the carrier.

3. The present requirement that each carrier shall make an annual inspection of the tariff files at each station, by traveling auditors or inspectors, would be eliminated, and a general admonition substituted which would allow the carriers' latitude to place in effect a system of continuous control and supervision looking towards the maintenance of tariff files in complete and readily accessible form.

4. The present regulations do not specifically cover the posting of tariffs of pipeline companies. The proposed regulations provide for the posting of such tariffs at the principal office of each pipeline company.

Anyone interested may, on or before April 18, 1954, advise the Commission in writing (an original and six copies) of any cause or reason why the Commission should not hereafter prescribe the regulations set forth below. No formal hearing with respect to the matter is contemplated, but informal conference with members of the staff of the Commission's Bureau of Traffic may be had.

Notice to the public will be given by depositing a copy of this notice, with its two appendices, in the office of the Secretary of the Commission for inspection, and by filing a copy with the Director, Division of Federal Register.

[SEAL] GEORGE W. LAIRD,
Secretary.

The following material, if approved by the Commission, will be published as Rule 32 of Tariff Circular 20, Rule 82 of Tariff Circular 18–A and Rule 6 of Tariff Circulars 22 and 23 (cancels order of October 12, 1915, "In the Matter of Modification of the Provisions of Section Six" and all subsequent amendments thereof).

§ 148.1 *Definitions.* The term "post" as used herein means the maintenance of a file of tariffs in the custody of an agent of the carrier in a complete, accessible and usable form, and keeping such file of tariffs available to the public upon request during ordinary business hours. The term "tariffs" includes tariff supplements or amendments.

§ 148.2 *Posting of tariffs.* Each railroad, sleeping-car company and pipeline company subject to the provisions of section 6 of the act, and each common carrier by water subject to the provisions of section 306 of the act, shall post its tariffs (including those filed for it by tariff-publishing agents or by other carriers with its concurrence) as provided in paragraphs (a) and (b) of this section, except that paragraph (a) shall not apply to pipeline companies:

(a) (1) At each station from which freight or passengers are transported, and at which an agent is employed, all tariffs which contain rates or fares applying from that station, or terminal or other charges applicable at that station, together with all other tariffs needful to determine the application of such rates, fares or charges, excepting tariffs which show only the marked capacities, lengths, dimensions and cubical capacities of cars. There shall also be posted at each such station an index of the carrier's freight tariffs, in form as provided in Rule 11 of Tariff Circular No. 20 and an index of its passenger tariffs in form as provided in Rule 39 of Tariff Circular 18–A.

(2) If any tariff so posted (other than a tariff index) has not been used for a substantial length of time the posting of that tariff, including reissues thereof, may be discontinued at that station until such time as a request is made to the carrier's agent to have it reposted. It will then be reposted within ten days and thereafter kept posted.

(3) Freight tariffs and indexes need not be posted at exclusively passenger stations, nor passenger tariffs and indexes at exclusively freight stations.

(b) (1) In addition each common carrier by water, sleeping-car company and pipeline company shall post at its principal office a complete set of all tariffs which it issues or to which it is a party, together with an index or indexes thereto, and each rail carrier shall post at not less than the number of places indicated below a complete set of all freight tariffs which it issues or to which it is a party, and a complete set of all passenger tariffs containing fares from points on its lines, together with indexes thereto:

If number of main-line miles of railroad operated in the United States is:	*Number of posting places*
Less than 500	1
500 or more but less than 2,000	2
2,000 or more but less than 8,000	3
More than 8,000	4

In determining the number of miles of main-line railroad operated family lines may be considered as a unit and subsidiary carriers as a part of the controlling carrier.

(2) Railroads will select those posting places which in their judgment will best serve and promote the convenience of the public in using the tariffs. The places selected shall be cities directly served by the railroad. Each railroad will advise the Commission by letter of the posting places selected and of any changes thereafter made. The Commission may, after reasonable investigation and without formal hearing, designate posting places additional to or in substitution of those chosen by the carrier.

§ 148.3 *Time of posting.* Each tariff must be posted at least thirty days before its effective date, excepting those as to which the Commission has authorized a shorter period of notice to the public. Each carrier shall require every station or office at which tariffs are posted to write or stamp on each tariff, as received, the date on which it was posted.

§ 148.4 *Tariff files to be accessible to the public.* (a) Each file of tariffs shall be in charge of an agent of the carrier. Each carrier shall require and instruct such agent to afford inquirers an opportunity to examine any of such tariffs without asking the inquirer to assign any reason therefor, and, upon request, to lend asistance to seekers of information therefrom, with all promptness possible and consistent with proper performance of other duties.

(b) Each carrier shall also cause to be displayed continuously in a conspicuous public place at each station or office at which tariffs are required to be posted by § 148.2 (a), a notice printed in large type reading as follows:

> With only such exceptions as have been authorized by the Interstate Commerce Commission, all tariffs which contain rates or fares applying from or at this station are on file in this office, together with an index of all of this company's tariffs. The tariffs and index may be inspected by any person upon application and without the assignment of any reason for such desire. The agent or other employee on duty in this office will lend any assistance desired in securing information therefrom.
>
> In addition a complete file (complete files) of all of this company's tariffs, with indexes thereto, is (are) maintained and kept freely available for public inspection at:
>
> (Here indicate the place or places where complete tariff files are maintained, including the street address and where appropriate the room number.)

(c) At exclusive freight or exclusive passenger stations the foregoing notice should be altered by deleting either the word "rates" or the word "fares" from the first sentence, and by inserting before the word "tariffs" (last word in first sentence) either the word "freight" or the word "passenger", as appropriate.

§ 148.5 *Check up on files of tariffs.* Each carrier shall place in effect a system of supervision that will insure the continued maintenance in proper and readily accessible form of tariff files required at each station and also at each office where complete files are maintained. Such stations and offices must be furnished at least once a year with a list of all of the tariffs which should be in their files. Upon receipt of the list the agent or employee in charge will immediately check the tariffs on hand against the list, and report any deficiencies. Evidence of improper maintenance of files at any station or office may necessitate the prescription of detailed instructions to the carrier by the Commission necessary to insure compliance with the regulations in this part.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[426.53]

BRASS PINION RODS

TARIFF CLASSIFICATION

JANUARY 19, 1954.

The Bureau by its letter to the collector of customs at New York, New York, dated January 19, 1954, ruled that brass pinion rods are properly classifiable as articles or wares, not specially provided for, composed wholly or in chief value of brass under the provisions of paragraph 397, Tariff Act of 1930, rather than as brass rods under the provisions of paragraph 381 of the tariff act.

As this ruling will result in the assessment of duty at a higher rate than has heretofore been assessed under an established and uniform practice, it shall be applied to such or similar merchandise only when entered, or withdrawn from warehouse, for consumption after 90 days from the date of publication of an abstract of this decision in a forthcoming issue of the weekly Treasury Decisions.

D. B. STRUBINGER,
Acting Commissioner of Customs.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 14654, Amdt.]

HENRY PETER RONKENDORF

In re: Estate of Henry Peter Ronkendorf, dec'd., File No. D–28–11310; E. T. sec. 16103.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR, 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, Vesting Order 14654 is hereby amended to read as follows:

1. That the domiciliary personal representatives, heirs, next of kin, legatees and distributees, names unknown, of the following person: Anna Margaretha Holst, widowed Baumguertel, nee Schlueter, including but not limited to Hinrich Amandus Holst, also known as Amandus Holst, who there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were, nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraph 1 hereof, and each of them in and to the Estate of Henry Peter Ronkendorf, deceased, is property which is, and prior to January 1, 1947, was, within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Sue H. Clowdsley as administratrix of the Estate of Henry Peter Ronkendorf, acting under the judicial supervision of the Superior Court of the State of California in and for the County of San Joaquin;

and it is hereby determined:

4. That to the extent that the persons identified in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as persons who are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9095, as amended by Executive Order 9193.

Executed at Washington, D. C., on January 18, 1954.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

ANNUAL SURVEY OF SALES, CREDIT BUSINESS, BAD DEBT LOSSES, AND OPERATING EXPENSES OF WHOLESALERS

NOTICE OF DETERMINATION

In conformity with the act of Congress approved June 19, 1948, 62 Stat. 478, and due notice of consideration having been published (18 F. R. 7827, December 4, 1953) pursuant to said act, I have determined that certain annual data, including that relating to annual sales figures, sales-expense ratios, sales-receivables ratios, credit-bad debt loss ratios, and notes and accounts receivable at the end of the year, of merchant wholesale trade establishments are needed to aid the efficient performance of essential governmental functions, and have significant application to the needs of the public and industry and are not publicly available from non-governmental or other governmental sources.

Merchant wholesalers serve as a connecting link in the flow of goods from factories, mines, farms, and other producers to industrial users, to retailers, to institutions, and to similar end users. Hence they are of strategic importance in the economy of this country and information such as the amount of merchandise inventories on hand, sales-inventory ratios by kind of business, the amount of credit outstanding at the end of the year, bad debt losses, and operating expenses are basic to an analysis of the functioning of the economy. Such agencies as the Office of Business Economics and the Council of Economic Advisors require inventory data and the amount of outstanding credit in appraising the business outlook. Data on the amount and trend of wholesalers' inventories, together with figures on other major elements of business investment, are needed for the measurement of the gross national product.

Business and industry also are interested in inventory, credit, bad debt loss, and operating expenses measures as indicators of the outlook for business activity and as tools for the promotion of business efficiency and stability. Wholesalers use sales-inventory ratios, credit-bad debt loss ratios, and operating expense ratios derived from the survey as benchmarks to which their own operation can be related.

The annual survey will collect information from a sample of all merchant wholesalers, as defined in the Standard Industrial Classification Manual published by the Bureau of the Budget, in the United States. Information will be collected annually covering the preceding calendar year, commencing with the year of 1954 and covering the year of 1953. Report forms will be furnished to firms covered by the survey. Additional copies of the form are available on request to the Director of the Census, Washington 25, D. C.

I have therefore directed that an annual survey be conducted for the purpose of collecting these data.

Dated: January 20, 1954.

[SEAL] ROBERT W. BURGESS,
Director,
Bureau of the Census.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

[F. R. Doc. 54–481; Filed, Jan. 22, 1954; 8:53 a. m.]

RECEIPTS OF SERVICE ESTABLISHMENTS WITH CERTAIN SUPPLEMENTARY DATA FOR MOTION PICTURE THEATERS, HOTELS, MOTELS AND TOURIST COURTS, AND LAUNDRY AND CLEANING ESTABLISHMENTS

NOTICE OF DETERMINATION

In conformity with the act of Congress approved June 19, 1948, 62 Stat. 478, and

due notice of consideration having been published (18 F. R. 7827, December 4, 1953) pursuant to said act, I have determined that certain annual data relating to, and including annual receipts of selected service trade establishments, with supplementary information for certain of these trades including the number of admissions for motion picture theaters, seating capacity, receipts from admissions, amount of admission taxes; and other receipts for hotels and motels, number of rental units, percentage of occupancy, number of rooms for transients and residential guests, receipts for room rentals, sales of meals and alcoholic beverages; for laundry and cleaning establishments, receipts from cash and carry and from delivered work, type and capacity of cleaning equipment, are needed to aid the efficient performance of essential governmental functions, and have significant application to the needs of the public and industry and are not publicly available from non-governmental or other governmental sources.

Service Trades are basic users of the products of industry and agriculture and supply some of the skills most important to the functioning of the economy. Information to be collected in this survey will permit publication of data such as consumer expenditures for laundry and cleaning, receipts of automobile repair shops, number of admissions and federal taxes of motion picture theaters, percentage of occupancy of hotels, and number of motel rental units. It will be especially useful when compared to the same data as collected in the 1948 Census of Business. This information is of great importance both to governmental agencies such as the Business and Defense Services Administration, the Budget Bureau, the Treasury Department, and to Business interests especially as represented by trade associations, and market research organizations, as well as to individual business establishments or individuals planning to go into business.

This survey will be confined to the following groups as described in the Standard Industrial Classification Manual issued by the Technical Committee on Industrial Classification, Division of Statistical Standards, Bureau of the Budget:

Major group or industry No.:	Title:
701	Hotels.
7031	Auto courts, etc. (part).
72	Personal services.
75	Automobile repair service and garages.
76	Miscellaneous repair services.
7831	Motion picture theaters.

Not all establishments engaged in the kinds of service mentioned above will be required to file reports. A probability sample has been designed which will provide the type of information outlined above and which will produce results, the accuracy or sampling variability of which can be measured. Reports will be requested from establishments selected in accordance with the sample design on the basis of their volume of receipts and location in Census Sample Areas. Reports will also be requested from some service firms which operate establishments outside Census Sample Areas but whose headquarters are located therein. Information will be collected annually covering the preceding calendar year commencing with the year of 1954, covering the year of 1953.

Report forms will be furnished to firms included in the sample. Additional copies of the forms are available on request to the Director of the Census, Washington 25, D. C.

I have therefore directed that an annual survey be conducted for the purpose of collecting these data.

Dated: January 20, 1954.

[SEAL] ROBERT W. BURGESS,
Director,
Bureau of the Census.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

[Docket Nos. G-1678, G-1996]

MICHIGAN-WISCONSIN PIPE LINE CO.

ORDER FIXING DATE FOR ORAL ARGUMENT

On May 25, 1953, during the course of the hearing in these consolidated proceedings, Commission Staff Counsel moved orally for the omission of the intermediate decision procedure. Said motion was concurred in by all parties, the record of these proceedings has been certified to the Commission, and briefs have been filed by the parties and Commission Staff Counsel.

The Commission finds: It is appropriate and in the public interest to hear oral argument concerning the matters involved and issues presented in these proceedings.

The Commission orders:

(A) Oral argument be had before the Commission on February 18, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and issues presented in these proceedings.

(B) Each party, including Staff counsel, on or before February 10, 1954, shall notify the Secretary of the Commission, in writing, as to whether such party will participate in the oral argument, and the amount of time desired for presentation of argument.

Adopted: January 13, 1954.

Issued: January 18, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2213]

MICHIGAN-WISCONSIN PIPE LINE CO.

ORDER FIXING DATE OF HEARING

On July 15, 1953, Michigan-Wisconsin Pipe Line Company (Applicant), a Delaware corporation, with its principal place of business at Detroit, Michigan, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the operation of a spare compressor unit at its compressor station No. 5, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that the application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on August 8, 1953 (18 F. R. 4735).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 4, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application herein: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 15, 1954.

Issued: January 18, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2347]

ARKANSAS-LOUISIANA GAS CO.

NOTICE OF APPLICATION

JANUARY 19, 1954.

Take notice that on January 4, 1954, Arkansas-Louisiana Gas Company (Applicant), a Delaware corporation, with its principal place of business at Shreveport, Louisiana, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 2,275 ft. of 4-inch pipeline, together with a check meter installation, and the withdrawal from interstate commerce and the transfer from its pipeline transmission account to its distribution account of approximately 12,100 ft. of its 12-inch line "D", all of said facilities being in the immediate vicinity of Shreveport, Louisiana.

The proposed facilities will allow Applicant to reduce pressures on its system in the vicinity of Shreveport so that it may use that portion of its Line D east of Station 425+92 for rendering service to customers adjacent thereto.

The Applicant requests that its application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 5th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-504]

LUDWIG BAUMANN & CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

JANUARY 19, 1954.

In the matter of Ludwig Baumann & Company, Common Stock, Par Value $1.00, File No. 1-504.

The American Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from listing and registration the Common Stock, Par Value $1.00, of Ludwig Baumann & Company.

The application alleges that the reasons for striking this security from listing and registration on this exchange are:

(1) From time to time one Spear & Company has been purchasing shares of the above security until, as of December 28, 1953, it owned approximately 147,000 shares, leaving approximately 4,500 other shares outstanding in the hands of about 125 public shareholders.

(2) The number of shares remaining outstanding in the hands of the public has become so reduced as to make further Exchange trading in this security inadvisable.

Upon receipt of a request, prior to February 16, 1954, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 54-211]

CENTRAL PUBLIC UTILITY CORP.

NOTICE AND ORDER GIVING OPPORTUNITY FOR HEARING REGARDING APPLICATION TO RELEASE JURISDICTION OVER PROCEDURE FOR SELECTION OF FORMER SUBSIDIARY'S BOARD OF DIRECTORS AND COMPOSITION THEREOF

JANUARY 19, 1954.

On December 4, 1953, the Commission approved a plan of Central Public Utility Corporation ("Cenpuc"), a registered holding company, filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 (the "act"). See Holding Company Act Release No. 12236. The plan proposed, among other things, the distribution by Cenpuc to its stockholders, on a pro rata basis, of the reclassified stock of its then only remaining domestic public-utility subsidiary company, Central Indiana Gas Company ("Central Indiana"). According to the plan, as soon as practicable and in any event within thirty days after the transfer of the Central Indiana stock to the distribution agent, which occurred on December 28, 1953, Central Indiana's Board of Directors would be reconstituted in such manner as may be, and would be composed only of such persons who are, satisfactory to the Commission. In its order approving the plan, the Commission reserved jurisdiction over, among other things, all aspects of the procedure with respect to the selection of Central Indiana's reconstituted Board of Directors and the composition thereof.

In connection with the proceedings on the plan, Central Indiana agreed that, without prior approval by this Commission, it will not have as an officer or director any person who is at the same time an officer or director of Cenpuc or any other company which is or has been in the Cenpuc holding company system. Cenpuc has now filed an application proposing that the reconstituted Central Indiana Board be composed of the individuals hereinafter named and Cenpuc has requested (a) that Christopher H. Coughlin, an officer and director of Cenpuc and certain of its subsidiaries, be approved as a member of the Central Indiana reconstituted Board, (b) that the jurisdiction heretofore reserved by the Commission with respect to the Central Indiana's Board be released, and (c) that, if necessary, the Commission permit and approve the amendment of the plan so as to extend the time by which the reconstituted Board of Central Indiana is to take office to such date as shall be practicable after the Commission has released jurisdiction with respect to such Board.

In support of its reconstituted Board for Central Indiana, Cenpuc states that the laws of Indiana require that a majority of Central Indiana's directors be residents of Indiana and that the proposed members were selected after consultation with a number of Cenpuc's largest stockholders.

A brief description of the proposed Board follows:

Christopher H. Coughlin, Jamaica, New York, is President of Central Indiana and Chairman of its Board of Directors and President and a Director of Cenpuc. He owns 14,644 shares of Central Indiana's stock and, according to the application, is that company's largest individual stockholder of record. Coughlin has submitted his resignation as Central Indiana's President and Chairman of the Board. It is represented that such resignation will be accepted at, or prior to, the meeting at which that company's board is to be reconstituted. The filing states that Coughlin has extensive knowledge of Central Indiana's history, business and affairs and his continuance as a director of Central Indiana would be beneficial to Central Indiana. It is further stated that Coughlin is acquainted with only two of the proposed new directors, namely, C. M. Cullison and Percival E. Jackson, that Coughlin owns less than 1½ percent of Central Indiana's stock and that except for C. M. Cullison none of the other proposed directors have, or ever have had, any connection as a director, officer or employee of Cenpuc or any of its present or former subsidiaries.

C. M. Cullison, Muncie, Indiana, has been employed by Central Indiana since 1929 and now is Executive Vice President and Manager of that company. According to the application it is contemplated that he will be its future President. He is not a stockholder of Central Indiana.

J. Wilson Barber, Anderson, Indiana, has been since 1943, and now is, President and General Manager of Barber Manufacturing Company of Anderson, Indiana, which manufactures springs for upholstered furniture. He is also a director of the Citizens Banking Company, a commercial bank in Anderson. He is not a stockholder of Central Indiana.

Walter E. Burt, Muncie, Indiana, has been since 1940, and now is, Vice President and General Manager of the Indiana Bridge Company of Muncie which engineers, fabricates and erects structural steel, fabricated steel and factory equipment. He is not a stockholder of Central Indiana.

Kenneth P. Valentine, Indianapolis, Indiana, is President of Pitman-Moore Co., a wholly-owned subsidiary of Allied Laboratories, Inc. The latter corporation and its subsidiaries are manufacturers of pharmaceuticals. He is not a stockholder of Central Indiana but is sponsored by the holders of in excess of 50,000 shares of Central Indiana stock.

Harry L. Wells, Evanston, Illinois, is Vice President and Business Manager of Northwestern University, Evanston, Illinois. He owns 1,000 shares of Central Indiana stock and is sponsored by the holders of in excess of 100,000 shares of such stock.

Percival E. Jackson, Sea Cliff, New York, is a lawyer practicing in the City of New York. He owns 7,500 shares of Central Indiana stock and is sponsored by the holders of in excess of 100,000 shares of such stock.

Notice is hereby given that any person may, not later than February 10, 1954 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on the aforementioned application stating therein the reasons for such request and the nature of his interest, and the issues of law or fact raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 10, 1954, said application, as filed or as amended, may be granted.

It is ordered, That the Secretary of the Commission shall mail a copy of this notice and order by registered mail to Cenpuc, Central Indiana, and the Public Service Commission of the State of Indiana and that notice be given to all other interested persons by general release of the Commission and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That Cenpuc on or before January 25, 1954, shall mail a copy of this notice and order to all of Central Indiana's shareholders of record on January 19, 1954.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-456; Filed, Jan. 22, 1954; 8:47 a. m.]

[File No. 70-3171]

COMMONWEALTH EDISON CO.

ORDER GRANTING APPLICATION FOR ACQUISITION OF SECURITIES OF A PUBLIC UTILITY COMPANY AND FOR EXEMPTION PURSUANT TO SECTION 3 (a) (1)

JANUARY 19, 1954.

Commonwealth Edison Company ("Edison"), an exempt holding company and a public-utility company, has filed with the Commission an application and an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), particularly sections 3, 9 and 10 of the act regarding the following proposed transactions:

Edison, an Illinois corporation, is primarily engaged in the electric utility business supplying electric service in the city of Chicago, Illinois, and in the northern part of Illinois. In addition, Edison is engaged in the distribution of gas at retail outside of Chicago and in the northern part of Illinois. Edison also provides heating service to a limited number of customers outside of Chicago. As of July 31, 1953, Edison's gas utility properties represented, on a consolidated basis, approximately 11 percent of its gross plant and accounted for approximately 14 percent of its total operating revenues for the 12 months ended on that date.

Edison has two public utility subsidiary companies, Sterling Hydraulic Company, an Illinois corporation, which presently holds title to a dam and certain water rights but which conducts no operations, and Chicago District Electric Generating Corporation ("Chicago District"), an Indiana corporation, which owns and operates an electric generating station located in Indiana on the shore of Lake Michigan at the Illinois-Indiana state line. Edison purchases the major portion of Chicago District's output of electric energy and the remainder thereof is sold to Northern Indiana Public Service Company, a non-affiliated company operating in Indiana. For the twelve months ended July 31, 1953, the revenues of Chicago District, exclusive of sales to Edison, amounted to 1.8 percent of the gross operating revenues of the Edison system for that period. Edison is exempt as a holding company by reason of the Commission's order dated June 30, 1948, issued pursuant to section 3 (a) (1) of the act.

Edison proposes to separate its gas and heating properties from its electric facilities by the transfer of all of the gas and heating properties to a new corporation, Northern Illinois Gas Company ("Northern Illinois"), formed under the laws of Illinois for the purpose of acquiring and operating such gas and heating properties. The transfer of such properties will be made pursuant to the provisions of a Separation Agreement proposed to be entered into between Edison and Northern Illinois.

Under the terms and conditions of the Separation Agreement the following transactions are proposed:

Edison agrees (a) to procure from the Trustee under its Mortgage Indenture dated July 1, 1923, as supplemented, the release from the lien of said mortgage of all of its gas and heating properties, together with certain franchises and inventories related thereto; (b) to subject the gas properties (with certain exceptions) to the lien of a new Indenture, dated January 1, 1954, with the Continental Illinois National Bank and Trust Company of Chicago, as Trustee, providing for the issuance, as the initial series, of $60,000,000 principal amount of Edison's Gas Divisional Lien Bonds; (c) to issue and sell such bonds to underwriters selected by Edison and to deposit the proceeds from such sale with the Trustee under Edison's existing mortgage; and (d) to transfer and convey to Northern Illinois the gas properties, subject to the lien of the new Indenture securing its Gas Divisional Lien Bonds, together with the heating properties, and certain franchises and inventories related to said properties, in exchange for 5,500,000 shares of common stock, par value $5 per share, of Northern Illinois, representing all of the common stock of Northern Illinois to be initially issued, plus an additional number of shares of such common stock (to be determined as hereinafter set forth as soon as practicable after such initial issuance). In addition, Edison proposes, in order to provide Northern Illinois with working capital, to purchase from Northern Illinois 100,000 shares of its 5 percent Convertible Preferred Stock, par value $100 per share, proposed to be issued by Northern Illinois, for a consideration of $10,000,000.

Northern Illinois, as consideration for the transfer and conveyance to it of the aforesaid gas and heating properties, agrees (a) to adopt as its own the Indenture dated January 1, 1954, securing the aforesaid Gas Divisional Lien Bonds proposed to be issued by Edison and to assume the payment thereof as the sole obligor under said Indenture; (b) to assume certain other liabilities of Edison; (c) to issue and deliver to Edison the aforesaid 5,500,000 shares of its common stock, plus an additional number of shares to be determined as hereinafter set forth; and (d) to issue and sell to Edison the aforesaid 100,000 shares of its preferred stock for a consideration of $10,000,000.

The additional number of shares of common stock of Northern Illinois to be issued and delivered to Edison in excess of the aforesaid 5,500,000 shares of common stock will be determined as follows:

There will be deducted from the book value of the gas utility and heating assets, as ascertained by Edison from its books at the close of business on a day to be determined, the total of (1) the sum of the amounts of accrued depreciation allocable to the gas utility assets and the heating assets, respectively, (2) the aggregate principal amount of Edison's Gas Divisional Lien Bonds assumed by Northern Illinois, (3) the aggregate amount of certain other undetermined liabilities assumed by Northern Illinois, and (4) the amount of $55,000,000; and by dividing the remainder by $10, the resulting quotient (dropping any fractions) being the number of such additional shares of common stock of Northern Illinois to be issued to Edison.

Edison represents that of the aforesaid 5,500,000 shares of common stock of Northern Illinois to be issued, 100 shares will be issued against incorporators' subscriptions assigned to Edison and will be deemed to have been paid for by a $1,000 undivided portion, in net book value, of the gas and heating properties transferred to Northern Illinois.

Northern Illinois' authorized capital stock will consist of 250,000 shares of preferred stock, par value $100 per share, and 12,500,000 shares of common stock, par value $5 per share. Upon completion of the transfer of the gas and heating properties of Edison to Northern Illinois, the outstanding securities of Northern Illinois will initially consist of $60,000,000 principal amount of bonds, $10,000,000 of 5 Percent Convertible Preferred Stock, par value $100 per share (each share convertible into 10 shares of common stock after January 31, 1957), and $27,500,000 of common stock of the par value of $5 per share, plus the par value of any additional shares issued as heretofore indicated.

The filing indicates that upon consummation of the proposed acquisition by Edison of the securities of Northern Illinois, Edison will also be a holding company with respect to Northern Illinois, whose operations will be confined to the State of Illinois. Edison requests that this Commission issue an order pursuant to section 3 (a) (1) of the act continuing Edison's present exemption after acquisition of the securities of Northern Illinois.

Edison estimates that the fees and expenses to be incurred in connection with the proposed acquisition of securities of Northern Illinois will amount to $105,000, as follows:

Federal tax on original issue	$44,000
Fee payable to State of Illinois in connection with authorization by Illinois Commerce Commission of issuance of preferred and common stock of Northern Illinois Gas Co.	20,000
License fees payable to State of Illinois	35,000
Attorneys' fees and expenses (payable to Isham, Lincoln & Beale)	4,000
Miscellaneous expenses, including printing, preparation of stock certificates, travel, telephone and telegraph, postage costs, etc.	2,000
Total	105,000

Edison, in support of its application represents, among other things, that the proposed separation of its electric and gas operations is a desirable objective under the act; that the gas operations of Edison will be benefited by their transfer to a new company concentrating on their development; and that the operating effectiveness of Edison as an electric utility will also be enhanced. In addition, Edison represents that although all of the stock of Northern Illinois to be initially issued will be acquired by and held by Edison, it is contemplated that ultimately the complete separation of Edison and Northern Illinois will be accomplished.

Edison is subject to the jurisdiction of the Illinois Commerce Commission and Northern Illinois upon consummation of the proposed transactions will be subject to the jurisdiction of that Commission which has approved such transactions.

Applicant requests that the order to be entered herein become effective forthwith upon issuance.

Due notice having been given of the filing of the application and a hearing not having been requested of or ordered by the Commission; the Commission finding that the applicable standards of sections 3 (a) (1) and 10 of the act are satisfied; and the Commission deeming it in the public interest and in the interest of investors and consumers to grant the application, as amended, effective forthwith:

It is ordered, Pursuant to Rule U-23 that the application, as amended, filed pursuant to section 10 of the act be, and hereby is, granted, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the application for exemption, as amended, filed pursuant to section 3 (a) (1) of the act be, and hereby is, granted.

It is further ordered, That this order shall become effective upon its issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-455; Filed, Jan. 22, 1954; 8:47 a. m.]

[File No. 70-3173]

ESSEX COUNTY ELECTRIC CO.

NOTICE OF FILING REGARDING SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

JANUARY 19, 1954.

Notice is hereby given that Essex County Electric Company ("Essex"), a public-utility subsidiary of New England Electric System ("NEES"), a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicant has designated section 6 (b) of the act and Rules U-42 (b) (2) and U-50 thereunder as applicable to the proposed transactions which are summarized as follows:

Essex proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $5,000,000 principal amount of its First Mortgage Bonds, Series A, due 1984. The price of the bonds which shall be not less than the principal amount nor more than 102¾ percent thereof and the interest rate which shall be a multiple of ⅛ of 1 percent and not in excess of 4½ percent will be determined by competitive bidding. Essex requests that the period for inviting bids be shortened to not less than six days. Bids will be received up to 12:00 Noon on a date fixed by Essex by giving notice at least 42 hours in advance thereof.

The proceeds (exclusive of accrued interest) derived from the sale of the bonds will be applied by Essex to the payment of short-term promissory notes payable to NEES and to a bank and the balance, if any, will be used by Essex to pay for capitalized expenditures or to reimburse its treasury therefor. Essex presently has outstanding $4,750,000 of such note indebtedness.

Essex is organized and doing business in The Commonwealth of Massachusetts and represents that the sale of its bonds will be expressly authorized by the Department of Public Utilities of that State.

The expenses to be incurred in connection with the issue and sale of the bonds, including expenses for services, at cost, by New England Power Service Company, an affiliated service company, are estimated by Essex to amount to $58,000.

Essex requests that the Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than February 5, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-854]

EQUITY CORP. ET AL.

NOTICE OF FILING OF APPLICATION REQUESTING ORDER EXEMPTING CERTAIN TRANSACTIONS BETWEEN AFFILIATES

JANUARY 18, 1954

In the matter of The Equity Corporation, Bell Aircraft Corporation, American Wheelabrator & Equipment Corporation, et al., File No. 812-854.

Notice is hereby given that The Equity Corporation ("Equity"), a Delaware corporation, a registered closed-end, nondiversified management investment company, and Bell Aircraft Corporation ("Bell"), a New York corporation, an affiliate of Equity, on behalf of themselves and also of American Wheelabrator & Equipment Corporation ("Wheelabrator"), a Nebraska corporation, also an affiliate of Equity, and of affiliated individual Wheelabrator stockholders, have filed an application under section 17 (b) of the Investment Company Act of 1940 ("act"), for an order exempting from the provisions of the act certain proposed transactions through which Bell would acquire common stock of Wheelabrator in exchange for its own common stock.

Bell's only outstanding stock consists of 884,278 shares of common stock, all of which is voting stock. Of this common stock Equity owns 427,876 shares, being 48.4 percent of the total. An additional 11,400 shares of Bell common stock are owned by a subsidiary and an affiliate of Equity, and these shares and the shares owned by Equity directly together constitute 49.7 percent of the voting power of Bell. Equity also owns 28,500 shares (100 percent) of the Class A voting common stock, and 300,000 shares (89.3 percent) of the Class B voting common stock of Wheelabrator, said holdings together representing 90.1 percent of the voting power of Wheelabrator. The balance of the outstanding Class B common stock of Wheelabrator (35,958 shares) is held in varied amounts by four officers of Wheelabrator and two of their wives. Under the definitions contained in section 2 (a) (3) of the act, the four individual stockholders who are officers of Wheelabrator are affiliated persons of Wheelabrator, which in turn is an affiliated person of Equity. Bell and Wheelabrator are presumptively controlled by Equity under the provisions of section 2 (a) (9) of the act.

Bell is an aircraft company principally engaged in research and development work in the fields of electronics, rocket motors and guided missiles, the development and manufacture of helicopters, and the production of bomber components for other aircraft manufacturers. Wheelabrator is a manufacturing company principally engaged in the production and sale of abrasive blasting equipment, dust and fume control equipment and abrasives. Bell proposes to acquire Wheelabrator as a step in its postwar program to diversify its operations.

Bell and Equity have entered into a Plan and Agreement of Reorganization which, as amended, provides that Equity will exchange all of the Class B common stock of Wheelabrator which it owns for common stock of Bell on the basis of eight shares (to the nearest full share) of Bell common stock for each seven shares of Wheelabrator Class B common stock and that Bell will make an offer to the individual Wheelabrator stockholders to exchange their shares on the same basis. The agreement also provides, as a condition to the exchange of the common stock, that Wheelabrator shall redeem all of its Class A stock, namely the 28,500 shares owned by Equity, at the redemption price of $5 a share, or an aggregate of $142,500, and application has also been made for an order exempting the redemption of the Class A stock from section 17 (a) of the act.

The Plan and Agreement of Reorganization also provides that Bell will cause its certificate of incorporation to be amended so as to permit Bell to issue its stock for stock of other corporations and to increase the authorized number of shares of its common stock from 1,250,000 to not less than 1,750,000. No application is made with respect to this amendment, which does not require Commission approval, but the amendment will require authorization by the holders of Bell's outstanding stock and a meeting is to be called for this purpose promptly after the requested exemption order is obtained from the Commission.

In support of the fairness of the proposed transactions, the applicants have submitted three reports prepared by Ebasco Services Incorporated ("Ebasco"), one a study of Bell, the second of Wheelabrator, and the third recommending a fair basis of exchange of Bell common stock for Wheelabrator Class B common stock. Ebasco, which was retained by Bell to make these studies, is an independent research organization which has prepared numerous valuation studies in connection with mergers, acquisitions, sales and purchases of corporate enterprises in the industrial and utility fields.

In the three and one-half year period from January 1, 1950, through June 30, 1953, average annual earnings applicable to the Wheelabrator Class B common stock were $3.24 per share and average annual dividends paid were $1.82 per share. In the same period, average annual earnings applicable to the Bell common stock were $2.71 per share and average annual dividends paid were $1.22 per share. For valuation purposes, Ebasco estimated that annual earnings applicable to the Wheelabrator Class B common stock would be $3.57 per share and annual dividends paid would be not less than $2.00 per share, and it estimated that annual earnings applicable to the Bell common stock would be $4.00 per share and annual dividends paid would be not less than $1.75 per share. Based on a study of the market history of comparable stocks in recent years, Ebasco determined that in valuing these stocks it was appropriate to apply a price earnings ratio of 6¾ times to its estimate of earnings for the Wheelabrator Class B common stock, and of 5¼ times to its estimate of earnings for the Bell common stock. Ebasco thus concluded that, for the purposes of the exchange, the Wheelabrator Class B common stock should be valued at approximately $24.10 per share and the Bell common stock at $21 a share. No market exists for the Wheelabrator Class B common stock. The Bell common stock, which is traded on the New York Stock Exchange, ranged in market price during 1952 from a low of 17¾ to a high of 26⅞ and the closing price for the year was 23⅝.

Section 17 (a) of the act makes it unlawful, subject to certain exceptions not relevant to the present application, for an affiliated person of a registered investment company, or an affiliate of such a person, to sell to or purchase from such registered company, or any company controlled by such registered company, any security or other property. However, under section 17 (b) of the act, the Commission upon application shall grant an exemption from the provisions of section 17 (a) of the act if it finds that the terms of the proposed transaction, including the consideration, are reasonable and fair and do not involve overreaching on the part of anyone concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and with the general purposes of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to the application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than February 10, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28838]

LIQUID CAUSTIC SODA FROM HUNTSVILLE AND REDSTONE ARSENAL, ALA., TO JACKSONVILLE, ILL.

APPLICATION FOR RELIEF

JANUARY 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Liquid caustic soda, in tank-car loads.

From: Huntsville and Redstone Arsenal, Ala.

To: Jacksonville, Ill.

Grounds for relief: Rail competition, circuity and market competition.

Schedules filed containing proposed rates; O. A. Spaninger, Agent, I. C. C. No. 1351, supp. No. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 54-466; Filed, Jan. 22, 1954; 8:49 a. m.]

[4th Sec. Application 28839]

LIQUID CAUSTIC SODA FROM HUNTSVILLE AND REDSTONE ARSENAL, ALA., TO TUSCOLA, ALA.

APPLICATION FOR RELIEF

JANUARY 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Liquid caustic soda, in tank-car loads.

From: Huntsville and Redstone Arsenal, Ala.

To: Tuscola, Ala.

Grounds for relief: Rail competition, circuity and market competition.

Schedules filed containing proposed rates; C. A. Spaninger, Agent, I. C. C. No. 1351, supp. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28840]

PIPE, STEEL AND WROUGHT IRON AND RELATED ARTICLES FROM MANHATTAN, ILL., TO POINTS IN SOUTHWEST

APPLICATION FOR RELIEF

JANUARY 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Pipe, steel or wrought iron, and related articles, carloads.

From: Manhattan, Ill.

To: Destinations in the Southwest.

Grounds for relief: Rail competition, circuity and additional origin.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3982, supp. 42.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28841]

SULPHURIC ACID FROM POINTS IN OKLAHOMA, TEXAS, ARKANSAS, AND LOUISIANA TO GONZALEZ, FLA.

APPLICATION FOR RELIEF

JANUARY 20, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Sulphuric acid, in tank-car loads.

From: Specified points in Oklahoma, Texas, Arkansas, and Louisiana.

To: Gonzalez, Fla.

Grounds for relief: Competition with rail carriers, circuity, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3919, supp. 206; F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 303; F. C. Kratzmeir, Agent, I. C. C. No. 3908, supp. 172; F. C. Kratzmeir, Agent, I. C. C. No. 4087, supp. 2.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. SUBVERSIVE ACTIVITIES CONTROL BOARD

[Docket No. 103-53]

HERBERT BROWNELL, JR., ATTORNEY GENERAL OF THE UNITED STATES, PETITIONER, v. INTERNATIONAL WORKERS ORDER, INC., RESPONDENT

Respondent having failed to appear at a hearing accorded it by the Board under and pursuant to the provisions of section 13 of the Subversive Activities Control Act of 1950, the Board, acting pursuant to section 13 (d) (2), issued on January 14, 1954, and caused to be served on the Parties, its Report in writing and caused to be served on the Parties an order reading as follows:

The Board having this day issued its report herein in which it finds and determines that the International Workers Order, Inc., respondent herein, has, within the meaning of section 13 (d) (2) of the Subversive Activities Control Act of 1950, hereinafter called the act, twice failed to appear at a hearing accorded it under and pursuant to the provisions of said section 13 of the act; and that accordingly petitioner's motion for an order pursuant to section 13 (d) (2) of the act requiring respondent to register as a Communist-front organization should be granted

It is ordered, That the said respondent, the International Workers Order, Inc., shall register as a Communist-front organization under and pursuant to section 7 of the act.

By the Board:

(Signed) Thomas J. Herbert, Chairman (Signed) Kathryn McHale, Member, (Signed) David J. Coddaire, Member, (Signed) Watson B. Miller, Member, (Signed) Harry P. Cain, Member.

FEDERAL REGISTER

VOLUME 19 NUMBER 17

Washington, Tuesday, January 26, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10515

AMENDMENT OF EXECUTIVE ORDER NO. 10379[1] OF AUGUST 2, 1952, SUSPENDING THE OPERATION OF CERTAIN PROVISIONS OF THE OFFICER PERSONNEL ACT OF 1947 APPLICABLE TO THE RETIREMENT OF COLONELS OF THE REGULAR ARMY AND THE REGULAR AIR FORCE

By virtue of the authority vested in me by subsection (f) of section 514 of the Officer Personnel Act of 1947 (61 Stat. 906), as amended (10 U. S. C. 941a), and as President of the United States, it is ordered as follows:

Executive Order No. 10379 of August 2, 1952, entitled "Suspension of the Operation of Certain Provisions of the Officer Personnel Act of 1947 Applicable to the Retirement of Colonels of the Regular Army and the Regular Air Force", is hereby amended by substituting for the words "or until June 30, 1957, whichever is earlier" the words "or until September 30, 1954, whichever is earlier (except that the Secretary of the Army may in his discretion retain not more than twenty of those officers selected for retention under the authority hereof until June 30, 1957, or such earlier dates as he may deem appropriate)".

DWIGHT D. EISENHOWER

THE WHITE HOUSE,

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

CHANGES IN REPRESENTATION OF CERTAIN DISTRICTS ON PLUM COMMODITY COMMITTEE

Notice was published in the FEDERAL REGISTER issue of December 30, 1953 (18 F. R. 8873), that the Department was giving consideration to the proposed amendment of the rules and regulations (7 CFR 936.100 et seq.; Subpart—Rules and Regulations; 18 F. R. 712, 2839) currently in effect pursuant to the amended marketing agreement and Order No. 36 (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order as the agency to administer the provisions thereof), it is hereby found and determined that the changed representation on the Plum Commodity Committee is based, so far as practicable, upon the proportionate quantity of plums shipped from the respective districts during the preceding three seasons. The approval of the amendment, as hereinafter set forth, of said rules and regulations is in accordance with the provisions of said amended marketing agreement and order and will tend to effectuate the declared purposes of the Agricultural Marketing Agreement Act of 1937, as amended. Such amendment is hereby approved; and the said rules and regulations are amended as follows:

Amend the provisions of § 936.118 to read:

§ 936.118 *Changes in the representation of certain districts on Plum Commodity Committee.* The representation or membership on the Plum Commodity Committee is changed to provide for:

(a) Three (3) members to represent the area included in the Fresno District and Tulare District;

(b) One (1) member to represent the area included in the Kern District and Southern California District;

(c) Two (2) members to represent the area included in the Placer District and Colfax District; and

(d) One (1) member to represent all of the territory in California not included in the foregoing districts.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amendt. 56]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows:

1. Section 610.12 *Green civil airway No. 2* is amended to read in part:

From—	To—	Minimum altitude
Seattle,[1] Wash. (LFR)	Ellensburg, Wash. (LFR).	8,000

[1] 4,000'—Minimum crossing altitude at Seattle (LFR), eastbound.

2. Section 610.13 *Green civil airway No. 3* is amended to read in part:

From—	To—	Minimum altitude
Reno,[1] Nev. (LFR)	Lovelock, Nev. (LFR).	10,000
New Brunswick [2], N. J.	Flatbush (INT), N. Y.	1,500
Flatbush (INT), N. Y.	LaGuardia, N. Y. (LFR).	2,500

[1] 10,500'—Minimum crossing altitude at Reno (LFR), westbound.

3. Section 610.101 *Amber civil airway No. 1* is amended to read in part:

From—	To—	Minimum altitude
Red Bluff, Calif. (LFR).	Delta (INT), Calif.	8,000
Delta (INT), Calif.	Redding, Calif. (FM) (southbound only).	7,000
Redding, Calif. (FM).	Red Bluff, Calif. (LFR) (southbound only).	3,000
Delta (INT), Calif.	Fort Jones, Calif. (LFR).	10,000

4. Section 610.108 *Amber civil airway No. 8* is amended to read in part:

From—	To—	Minimum altitude
Richmond (INT), Calif.	Travis AFB,[1] Calif. (LFR).	3,000

[1] 3,000'—Minimum crossing altitude at Travis (LFR) southwestbound.

5. Section 610.109 *Amber civil airway No. 9* is amended to eliminate:

From—	To—	Minimum altitude
Norfolk, Va. (LFR)	Salisbury, Md. (VAR).	1,500
Salisbury, Md. (VAR)	Atlantic City, N. J. (VAR).	1,500
Atlantic City, N. J. (VAR).	Matawan, N. J. (VAR).	1,500

6. Section 610.201 *Red civil airway No. 1* is amended to read in part:

From—	To—	Minimum altitude
Pendleton,[1] Oreg. (LFR).	Baker, Oreg. (LFR).	10,000
La Grande, Oreg. (FM)	Pendleton, Oreg. (LFR) (northwest-bound only).	7,000
Mountain Home, Idaho (FM).	Boise, Idaho (LFR) (northwest-bound only).	7,000
Burley,[2] Idaho (LFR)	Malad City, Idaho (LFR).	11,000

[1] 4,500'—Minimum crossing altitude at Pendleton (LFR), southeastbound.
[2] 7,500'—Minimum crossing altitude at Burley, eastbound.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

Subchapter B—Trade Practice Conference Rules

[File No. 21-208]

PART 94—LIVE POULTRY INDUSTRY, NEW YORK AND VICINITY

ORDER RESCINDING RULES

Whereas, on May 27, 1933, the Commission promulgated trade practice rules for the Live Poultry Industry, New York City and Vicinity, codified in the Code of Federal Regulations (Title 16, Part 94); and,

Whereas, by virtue of an act of Congress approved August 14, 1935 (Public No. 272, 74th Congress) entitled "An Act to Amend the Packers and Stockyards Act," and an order of the Secretary of Agriculture issued pursuant thereto which became effective November 25, 1935, certain trade practices of live poultry dealers in the cities of New York, New York, and Jersey City, New Jersey, were subjected to the jurisdiction of the Secretary of Agriculture; and,

Whereas, the Commission as a result of said act and order having been deprived of jurisdiction over the matters and things covered by the said trade practice rules for the Live Poultry Industry, New York City and Vicinity:

It is ordered, That the said rules be and the same are hereby rescinded.

Issued: January 21, 1954.

By the Commission.

[SEAL] ALEX. AKERMAN, JR.,
Secretary.

[F. R. Doc. 54-511; Filed, Jan. 25, 1954; 8:51 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

PROCEDURE WHEN CASE IS DESIGNATED FOR HEARING

The Commission desires to revise § 1.387 so as to make clear that a written appearance must be filed or the applicant will be found to have waived his hearing rights.

Accordingly, it is ordered, this 20th day of January 1954, that pursuant to the authority of sections 4 (i), (j) and 303 (r) of the Communications Act of 1934, as amended, § 1.387 (a) and (b) (4) of the Commission's rules and regulations are amended to read as follows:

§ 1.387 *Procedure when case is designated for hearing.* (a) When an application has been designated for hearing, the Secretary of the Commission will mail a written notice to applicant setting forth the action of the Commission designating the application for hearing, together with such statement of the Commission's reasons therefor as shall be appropriate to the nature of the application. In addition, notice of hearing involving matters under Part I of Title III of the act will be given by publishing the notice of hearing in the FEDERAL REGISTER. The Commission will attempt, when possible, to give at least 30 days advance notice of a hearing. In order to avail himself of the opportunity to be heard, the applicant, in person or by his attorney, shall, within 20 days of the mailing of the notice of designation for hearing by the Secretary, file with the Commission, in triplicate, a written appearance stating that he will appear and present evidence on the issues specified in the statement of reasons furnished by the Commission on such date as may be fixed for the hearing. Where an applicant fails to file such a written statement within the time specified, and has not filed prior to the expiration of that time period a petition to dismiss without prejudice pursuant to § 1.366, his application shall be dismissed with prejudice for failure to prosecute. In cases involving applications for facilities other than AM broadcast, FM broadcast, international broadcast, or television, the applicant shall submit with his appearance an additional copy of his application and supporting documents.

(b) * * *

(4) In order to avail himself of the opportunity to be heard, any person named as a party pursuant to this subsection shall, within 20 days of the mailing of the notice of his designation as a party, file with the Commission, in person or by attorney, a written appearance in triplicate stating that he will appear and present evidence on the issues specified in the notice of hearing. Any person so named who fails to file this written statement within the time specified, shall, unless good cause for such failure is shown, forfeit his hearing rights.

In view of the fact that § 1.387 of the Commission's rules is procedural, notice of proposed rule making in accordance with section 4 of the Administrative Procedure Act is unnecessary and this amendment shall be effective immediately.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, 50 Stat. 191, 47 U. S. C. 303)

Released: January 21, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary

[F. R. Doc. 54-514; Filed, Jan. 25, 1954; 8:52 a. m.]

[Docket No. 10619]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments* rules governing television broadcast stations, Docket No. 10619.

1. The Commission has under consideration its notice of proposed rule making (FCC 53-973) issued in this proceeding on July 31, 1953 and published in the FEDERAL REGISTER on August 7, 1953 (18 F. R. 4682) proposing to amend the Table of Assignments so as to assign Channel 10 to Parma or Onondaga or Parma-Onondaga, Michigan. The time for filing comments in this proceeding expired on September 18, 1953.

2. The assignment of Channel 10 may be made in conformance with the Commission's rules in a relatively small triangular area formed by arcs drawn at the minimum required co-channel spacings from the appropriate reference points in Columbus, Ohio, Milwaukee, Wisconsin, and London, Ontario, Canada, without any other changes in the Table of Assignments. This area in the south central portion of Michigan is west of Jackson and south of Lansing. It includes Parma, Michigan, a community of 630 people and Onondaga, Michigan, a community of 400 people. Parma is approximately 9½ miles from Jackson and Onondaga is approximately 15½ miles from that city. Parma and Onondaga are approximately 13 miles apart. Both are in the Jackson trading area.

3. Jackson Broadcasting and Television Corp., Jackson, Michigan proposed the assignment of Channel 10 to Jackson, Michigan; Jackson Broadcasting conceded that Channel 10 could not be assigned to Jackson under the present rules but urged that § 3.611 (a) (2) of the Commission's rules be amended so as to provide a 5 mile flexibility in making assignments in communities wherein the spacings to existing transmitter sites in other communities were below the minimum required spacings by no more than 5 miles. In a memorandum opinion and order issued on December 29, 1953 (FCC 53-1718) the Commission denied this and other proposals which sought to revise the Commission's rules governing assignment spacings. In view of this action, the request for the assignment of Channel 10 to Jackson must be denied.

4. Twin Valley Broadcasters, Inc., Coldwater, Michigan opposed the assignment of Channel 10 to Parma or Onondaga and urged instead that this assignment be made to Coldwater, Michigan. Twin Valley concedes that that separation between Coldwater and Milwaukee, to which Channel 10 has also been assigned is only 168 miles whereas the minimum co-channel spacing in this Zone is 170 miles but urges that the midpoint between these cities falls out in Lake Michigan and thereby the effect of greater spacing is obtained. The Commission in the Sixth Report and Order gave careful consideration to the problem of minimum assignment spacings and rejected all proposals which resulted in assignment spacings below the adopted minimums. We have not since deviated from this policy nor has Twin Valley presented any evidence to convince us that we should so deviate at this time. Accordingly, the request to assign Channel 10 to Coldwater must be denied.

5. Sparton Broadcasting Company, Jackson, Michigan urged that the assignment of Channel 10 be made to Parma rather than to Onondaga or to Parma and Onondaga jointly on the grounds that the assignment of this channel to the southernmost portion of the triangle in which the assignment is technically feasible confines the potential applications for cities south of Onondaga and furnishes the incentive to "apply for facilities in a community closer to the center of a compact and contiguous market area wherein people with common interests reside." Sparton further urges that there is a better chance to obtain economic support when the station in this area is located more nearly to the center (Jackson) of such an important trading area and finally that there would thereby be an incentive to serve the underserved areas to the south of Jackson.

6. Triad Television Association supported the assignment of Channel 10 to either Onondaga or Parma-Onondaga. In support of the assignment of this

channel to the two communities in combination Triad urged that these communities have very similar rural interests, are both in the Jackson trading area in close proximity to that city, have sufficient community interest between them so as to justify the joint allocation, and that a VHF station in either community would render service to most of the Jackson-Battle Creek-Lansing area as well as the Parma-Onondaga area.

7. Logansport Broadcasting Corporation, Logansport, Indiana opposed the assignment of Channel 10 to Parma and Onondaga, on the grounds that these communities were less than the required minimum spacings from Logansport, Indiana and would prejudice the assignment of this channel to Logansport which is the subject of a Petition for Review with the United States Court of Appeals for the District of Columbia (Case No. 11601). Logansport urged that in view of the conflict involved, that in the event an assignment is made on Channel 10 as proposed that it be expressly conditioned upon the termination of the Logansport litigation.

8. In view of our decision to deny the requests for the assignment of Channel 10 to Jackson and Coldwater, there remains for consideration the assignment of this channel to Parma or Onondaga or Parma-Onondaga. First, we are of the view that the assignment of this channel in this area would conform with the requirements of the rules and other principles of allocation and would be in the public interest. With respect to a choice of the communities involved, there is little basis to warrant a preference of one over the other. In view of the small size of the communities, their proximity to the city of Jackson and to each other, it appears that a station in either one would serve the other and provide the Jackson trading area with another warranted service. We are of the view therefore that the Channel 10 assignment should be made to the two communities in combination.

9. In view of the foregoing, the requests of Jackson Broadcasting and Television Corporation and Twin Valley Broadcasters, Inc., are denied; and the petition of Sparton Broadcasting Company, insofar as it requests the assignment of Channel 10 to Parma alone, is denied, and the petition of Triad Television association is granted.

10. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

11. *Accordingly, it is ordered*, That effective 30 days from publication in the FEDERAL REGISTER, the Table of Assignments, contained in § 3.606, rules governing television broadcast stations, is amended as follows:

Add to the table under the State of Michigan

City	*Channel No.*
Parma-Onondaga **	10—

** This assignment is made subject to such action as the Commission may take in the light of the final decision of the courts on the Petition for Review filed by the Logansport Broadcasting Company (C. A. D. C. Case No. 11601).

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 301, 48 Stat. 1081, 47 U. S. C. 301; sec. 303, 48 Stat. 1082, 50 Stat. 191, 47 U. S. C. 303; sec. 307, 48 Stat. 1084, 47 U. S. C. 307)

Adopted: January 20, 1954.

Released: January 21, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-515; Filed, Jan. 25, 1954; 8:52 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 786—MISCELLANEOUS EXEMPTIONS

SUBPART E—TAXICAB OPERATORS

ENFORCEMENT POLICY CONCERNING PERFORMANCE OF NON-EXEMPT WORK

Part 786 is hereby amended by adding a new Subpart E and § 786.2 thereunder to read as follows:

§ 786.2 *Enforcement policy concerning performance of non-exempt work.* The Division has taken the position that the exemption provided by section 13 (a) (12) of the Fair Labor Standards Act will be deemed applicable even though some non-exempt work (that is, work of a nature other than that which characterizes the exemption) is performed by the employee during the workweek, unless the amount of such non-exempt work is substantial. For enforcement purposes, the amount of non-exempt work will be considered substantial if it occupies more than 20 percent of the time worked by the employee during the workweek.

(52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.)

Signed at Washington, D. C., this 20th day of January 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[F. R. Doc. 54-494; Filed, Jan. 25, 1954; 8:47 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 934]

SOUTH DAKOTA

CORRECTING PUBLIC LAND ORDER NO. 932 OF NOVEMBER 30, 1953

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The penultimate paragraph of Public Land Order No. 932 of November 30, 1953, partially revoking Public Land Order No. 85 of January 29, 1943, is hereby corrected to read:

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended.

ORME LEWIS,
Assistant Secretary of the Interior.

JANUARY 20, 1954.

[F. R. Doc. 54-489; Filed, Jan. 25, 1954; 8:46 a. m.]

[Public Land Order 935]

ARIZONA

PARTIALLY REVOKING EXECUTIVE ORDERS OF JANUARY 13, 1915 AND AUGUST 28, 1918 WHICH CREATED PUBLIC WATER RESERVE NO. 24, ARIZONA NO. 3, AND PUBLIC WATER RESERVE NO. 55, ARIZONA NO. 9, RESPECTIVELY

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of January 13, 1915, creating Public Water Reserve No. 24, Arizona No. 3, is hereby revoked so far as it affects the following-described public land:

GILA AND SALT RIVER MERIDIAN

T. 31 N., R. 4 W.,
Sec. 13, NE¼.

The tract described contains 160 acres.

2. The Executive order of August 28, 1918, creating Public Water Reserve No. 55, Arizona No. 9, is hereby revoked so far as it affects the following-described public land:

GILA AND SALT RIVER MERIDIAN

T. 31 N., R. 3 W.,
Sec. 18, NE¼SE¼.

The tract described contains 40 acres.

3. The lands are situated on a high plateau where water is very scarce. Their best use is for grazing. They are chiefly suitable for disposal by public sale or exchange. It is not likely that they will be classified for any other disposition but any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provision of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans of World War II and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Inquiries concerning the land shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Phoenix, Arizona.

ORME LEWIS,
Assistant Secretary of the Interior.

JANUARY 20, 1954.

Chapter II—Bureau of Reclamation, Department of the Interior

PART 402—SALE OF LANDS IN FEDERAL RECLAMATION PROJECTS

SUBPART B—SMALL TRACTS; PUBLIC AND ACQUIRED LANDS; GILA PROJECT, ARIZONA

Subpart B, comprising §§ 402.21 to 402.23, is added to Part 402.

Sec.
402.21 Purpose of this subpart.
402.22 Provisions of Subpart A applicable.
402.23 Special provisions.

AUTHORITY: §§ 402.21 to 402.23 issued under sec. 15, 53 Stat. 1198, sec. 7, 61 Stat. 630; 43 U. S. C. 485l, 43 U. S. C. Sup. 613e. Interpret or apply secs. 3–4, 61 Stat. 629; 43 U. S. C. Sup. 613b–613c.

§ 402.21 *Purpose of this subpart.* The regulations in this subpart apply to the sale of small tracts of public and acquired lands on the Gila Project, Arizona, that are subject to the reclamation laws and that may be sold to actual settlers or farmers under the act of July 30, 1947 (61 Stat. 628; 43 U. S. C. Sup. 613–613e).

§ 402.22 *Provisions of Subpart A applicable.* The regulations in Subpart A of this part relative to the sale of public lands under the act of March 31, 1950 (64 Stat. 39; 43 U. S. C., Sup. 375b–375f) shall be applicable to all sales proposed to be made under this subpart, except that the provisions of § 402.23 (b) relative to deeds shall apply in lieu of the provisions of § 402.10 relative to patents.

§ 402.23 *Special provisions.* (a) After disposition of any lands under this subpart by contract of sale and during the time such contract shall remain in effect, said lands shall be (1) subject to the provisions of the laws of the State of Arizona relating to the organization, government, and regulation of irrigation, electrical power, and other similar districts, and (2) subject to legal assessment or taxation by any such district and by said State or political subdivisions thereof, and to liens for such assessments and taxes and to all proceedings for the enforcement thereof, in the same manner and to the same extent as privately-owned lands; *Provided*, however, That the United States shall not assume any obligation for amounts so assessed or taxed: *And provided further*, That any proceedings to enforce said assessments or taxes shall be subject to any title then remaining in the United States, to any prior lien reserved to the United States for unpaid installments under contracts of sale made under this subpart, and to any obligation for any other charges, accrued or unaccrued, for special improvements, construction, or operation and maintenance costs of the Gila Project. Any such lands situate within the Wellton-Mohawk Division of said project shall also be subject to the provisions of the Contract Between the United States and Wellton-Mohawk Irrigation and Drainage District for Construction of Works and for Delivery of Water, dated March 4, 1952, including but not limited to the provisions of subdivisions (b) and (c) of Article 22.

(b) When a purchaser has complied fully with the provisions of his contract and with the applicable provisions of law, including the regulations in this subpart, the Commissioner shall issue a deed to the purchaser. The deed shall recite the reservations described in the contract of sale.

RALPH A. TUDOR,
Acting Secretary of the Interior.

JANUARY 15, 1954.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 526]

INDUSTRIES OF SEASONAL NATURE

RECEIVING OF SOYBEANS FOR STORAGE IN COTTONSEED CRUSHING MILLS; NOTICE OF PRELIMINARY DETERMINATION

On October 5, 1950, it was found that the receiving of soybeans for storage in cottonseed crushing mills is an industry of a seasonal nature within the meaning of section 7 (b) (3) of the Fair Labor Standards Act (15 F. R. 6696). It now appears that cottonseed crushing mills also receive soybeans that are not stored but are handled and shipped out immediately after receipt. Such handling and shipping is not within the scope of the industry as defined in the determination referred to above. For that reason the exemption is defeated in some workweeks even though these handling and shipping operations, and the periods during which they are performed, are only slightly different from those prevailing for receiving for storage.

According to the information available to the Administrator, some soybeans that are not stored may be received earlier in the season than those which are received for storage. The period during which soybeans are received by cottonseed crushing mills is not, however, extended to any substantial extent by these receipts. It appears that cottonseed crushing mills engaged in handling and storing soybeans receive and handle more than 50 percent of the annual volume in a period or periods amounting in the aggregate to not more than 14 workweeks.

Upon consideration of the foregoing facts, and pursuant to § 526.5 (b) of the regulations, the Administrator finds that a prima facie case exists for amending the aforesaid determination to include the handling of soybeans. As amended, the determination will apply to the unloading, weighing, placing into storage, storing, and handling of soybeans in cottonseed crushing mills and any operations or services necessary or incident to the foregoing, including incidental selling and shipping, during the period or periods when soybeans are being received for storage or handling.

If no objection and request for hearing is received within 15 days following the publication of this preliminary determination, the Administrator pursuant to § 526.5 (b) of the regulations will make a finding upon the prima facie case. Objections and requests for hearing from any interested person should be submitted in writing to the Wage & Hour & Public Contracts Divisions, Department of Labor Building, Fourteenth Street and Constitution Avenue NW., Washington 25, D. C.

Signed at Washington, D. C., this 19th day of January 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

AIR NAVIGATION SITE WITHDRAWAL NO. 3

JANUARY 18, 1954.

By virtue of the authority contained in section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), and pursuant to section 2.22 (2) of Delegation Order No. 427 of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Subject to valid existing rights, the tract of land referred to as Farewell Landing lying in the 4th Judicial Division Territory of Alaska, on the east bank of the Kuskokwim River, 23 miles by air and 52 miles by river in an Easterly direction from McGrath, Alaska and located at approximately longitude 154° 51' and latitude 62° 59' and more particularly described as follows:

From the Northwest corner of the 20' x 50' CAA building used as a mess hall and garage Bo N. 75°30', W. 11 feet to a ½" iron pipe in line with the North side of said building, thence N. 4°38', E. 415 feet to a ½" iron pipe and the point of beginning, thence East 500 feet to Corner No. 1, thence South 965 feet to Corner No. 2, thence West 500 feet to a point marked by a 2" square hub, thence West 76 feet to a point on the East bank of the Kuskokwim River, thence on a meander line in a Northerly direction along said East bank to a point from which the point of beginning bears due East, thence East 30 feet to the point of beginning containing in all 12.25 acres of land more or less. All bearings are true.

It is intended that the public land described herein shall be returned to the administration of the Department of the Interior when it is no longer needed for the purpose for which it is reserved.

LOWELL M. PUCKETT,
Regional Administrator,
Region VII, Alaska.

Bureau of Reclamation

[Commissioner's Order 27]

GILA PROJECT; REGIONAL DIRECTOR, REGION 3, AND DISTRICT MANAGER; LOWER COLORADO RIVER DISTRICT

REDELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN DUTIES AND FUNCTIONS

NOVEMBER 17, 1953.

SECTION 1. *Redelegation.* In connection with the administration of the Gila Project, the Regional Director, Region 3, and the District Manager, Lower Colorado River District, severally, may:

(a) Effect sales of small tracts of public or acquired lands too small to be classed as farm units.

(b) Execute in the name of the Secretary the requisite deeds of conveyances.

(c) Perform all other acts necessary to effect such sales.

SEC. 2. *Regulations.* All sales shall be in accordance with the regulations prescribed by the Secretary.

SEC. 3. *Legal review.* There shall be legal review of all matters and transactions handled pursuant to the authority delegated herein which involve legal phases, and such review shall be the responsibility of the Regional Counsel, Region 3.

SEC. 4. *Authority.* This order is issued pursuant to Departmental Order No. 2018 (10 F. R. 259), as amended by Departmental Orders Nos. 2179 (11 F. R. 3483) and 2377 (14 F. R. 1088) and Departmental Order No. 2018, Amendment No. 3 (18 F. R. 3155).

W. A. DEXHEIMER,
Commissioner.

Approved: January 15, 1954.

RALPH A. TUDOR,
Acting Secretary of the Interior.

[F. R. Doc. 54-486; Filed, Jan. 25, 1954; 8:45 a. m.]

HAMMOND PROJECT, NEW MEXICO

ORDER OF REVOCATION

SEPTEMBER 28, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Order of October 11, 1944, insofar as said order affects the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the lands hereinafter described:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

Township 29 North, Range 11 West, Section 31: lots 3 and 4 and $E\frac{1}{2}SW\frac{1}{4}$.
Township 29 North, Range 12 West, Section 28: $SE\frac{1}{4}SW\frac{1}{4}$.

The above areas aggregate 199.60 acres.

H. F. MCPHAIL,
Acting Commissioner.

[Misc. 2003130]

JANUARY 18, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands in T. 29 N., R. 12 W., are included in a withdrawal for power purposes made by Executive Order of July 2, 1910.

The remaining lands released from withdrawal by this order aggregating 159.60 acres, are composed of reasonably good soil, sandy to sandy clay in texture, flat enough for cultivation. They appear suitable for agricultural development under applicable laws. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Inquiries regarding the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Santa Fe, New Mexico.

WILLIAM PINCUS,
Assistant Director.
Bureau of Land Management.

Office of the Secretary

GUIDIVILLE BAND OF POMO TRIBE OF CALIFORNIA

FEDERAL INDIAN LIQUOR LAWS

Pursuant to the act of August 15, 1953 (Pub. Law 277, 83d Cong., 1st sess.), I certify that the following ordinance relating to the application of the Federal Indian liquor laws on the Guidiville Reservation was duly adopted by the Guidiville Band of the Pomo Tribe of California which has jurisdiction over the area of Indian country included in the resolution:

Whereas Public Law 277, 83d Congress, approved August 15, 1953, provides that sections 1154, 1156, 3113, 3488 and 3618 of title 18, United States Code, commonly referred to as the Federal Indian liquor laws, shall not apply to any act or transaction within any area of Indian country provided such act or transaction is in conformity with both the laws of the State in which such act or transaction occurs and with an ordinance duly adopted by the tribe having jurisdiction over such area of Indian country, certified by the Secretary of the Interior, and published in the FEDERAL REGISTER.

Therefore, be it resolved that the introduction, sale or possession of intoxicating beverages shall be lawful within the Indian country under the jurisdiction of the Guidiville Band: *Provided*, That such introduction, sale or possession is in conformity with the laws of California.

Be it further resolved that any tribal laws, resolutions or ordinances heretofore enacted which prohibit the sale, introduction or possession of intoxicating beverages are hereby repealed.

ORME LEWIS,
Assistant Secretary of the Interior.

JANUARY 20, 1954.

DEPARTMENT OF AGRICULTURE

Foreign Agricultural Service

DIRECTOR OF THE FOREIGN TRADE PROGRAMS DIVISION

DELEGATION OF AUTHORITY WITH RESPECT TO THE ADMINISTRATION OF IMPORT REGULATION 1, AS AMENDED

There is hereby delegated to the Director of the Foreign Trade Programs Division, Foreign Agricultural Service, all of the authority vested in the Administrator, Foreign Agricultural Service, by Import Regulation 1 (7 CFR 6.20) as from time to time amended (in particular the amendments of January 6, 1954, 19 F. R. 57, in paragraphs A1, 2 and 3), except

(a) The authority to revoke import licenses pursuant to § 6.28 of such regulations; and

(b) The authority to review, upon appeal, action taken by the Director on petitions for relief from hardship filed pursuant to § 6.29.

As used herein, "Director" means the Director of the Foreign Trade Programs Division, Foreign Agricultural Service, and any other officer or employee of the Service authorized to act in his stead. All other terms shall have the same meaning as when used in Import Regulation 1, as from time to time amended.

This document shall become effective upon publication in the FEDERAL REGISTER. Done at Washington, D. C., this 21st day of January 1954.

[SEAL] CLAYTON E. WHIPPLE,
Administrator, Foreign Agricultural Service.

[F. R. Doc. 54-510; Filed, Jan. 25, 1954; 8:51 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Carole Industries, Inc., Rutherfordton, N. C., effective 1-13-54 to 1-12-55; 10 learners for normal labor turnover purposes (ladies' and misses' pajamas).

Champion Garment Co., Ltd., 100½ West Second Avenue, Rome, Ga., effective 1-15-54 to 1-14-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' slacks).

Chetopa Manufacturing Co., Inc., Chetopa, Kans., effective 1-16-54 to 1-15-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (work pants, waistband overalls).

Essex Lanufacturing Co., Inc., 21 West Center Street, Winooski, Vt., effective 1-13-54 to 1-12-55; 5 learners for normal labor turnover purposes (children's blouses and baby dresses).

The Garment Manufacturing Co., Inc., Hicks Street, Lawrenceville, Va., effective 1-14-54 to 1-13-55; 5 learners for normal labor turnover purposes (children's apparel).

Greer Shirt Corp., P. O. Box 390, Greer, S. C., effective 1-14-54 to 1-13-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport and dress shirts).

Hanover Shirt Co., Inc., Ashland, Va., effective 1-27-54 to 1-26-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Hollywood Corset Co., 301 Mulberry Street, Eastland, Tex., effective 1-21-54 to 1-20-55; 10 learners for normal labor turnover purposes (brassieres).

Hollywood Maxwell Co., East Union Street, Minden, La., effective 1-25-54 to 1-24-55; 10 learners for normal labor turnover purposes (brassieres).

Jermyn Manufacturing Co., Inc., 505 Washington Avenue, Jermyn, Pa., effective 1-14-54 to 1-13-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (dresses).

Lee-Mar Shirt Co., Pulaski, Tenn., effective 1-18-54 to 7-17-54; 20 learners for expansion purposes (sport shirts).

Lerner-Slone Clothing Corp., Forrest City, Ark., effective 1-15-54 to 1-14-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (trousers).

Marja Brassiere Co., Inc., 210-12 East Commerce Street, Jacksonville, Texas, effective 2-2-54 to 2-1-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (brassieres).

Oberman Manufacturing Co., Arkadelphia, Ark., effective 1-16-54 to 1-15-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' single pants).

Red Lion Manufacturing Co., 224-236 First Avenue, Red Lion, Pa., effective 1-27-54 to 1-26-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (ladies' dresses, pajamas, etc.).

Seneca Sportswear Manufacturing Co., 1234 Bryn Mawr Street, Scranton, Pa., effective 2-1-54 to 1-31-55; 10 learners for normal

labor turnover purposes (boys' and girls' outerwear).

Walhalla Garment Co., Inc., Walhalla, S. C., effective 1-14-54 to 1-13-55; 10 percent of the total number of factory production workers for normal labor turnover purposes (women's house dresses and housecoats).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as amended November 19, 1951, 16 F. R. 10733).

Adams-Millis Corp., 400 English Street, 710 Grimes Street, Gaylord Street, High Point, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Adams-Millis Corp., Bodenheimer Street, Kernersville, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Adams-Millis Corp., Tryon, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Amos Hosiery Mills, Inc., 328 Mangum Avenue, High Point, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Amos and Smith Hosiery Co., Pilot Mountain, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Baker-Cammack Hosiery Mills, Inc., Burlington, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Baker-Mebane Hosiery Mills, Inc., Mebane, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Charles H. Bacon Co., Lenoir City, Tenn., effective 2-13-54 to 2-12-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Charles H. Bacon Co., Loudon, Tenn., effective 2-13-54 to 2-12-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Graysville Hosiery Mills, Inc., 125 East Main Street, Dayton, Tenn., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Great American Knitting Mills, Inc., Bechtelsville and Bally, Pa., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Grenada Industries, Inc., Grenada, Miss., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

O. E. Kearns & Son, Inc., High Point, N. C., effective 1-18-54 to 1-17-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Windy City Knitting Mills, Inc., Hickory, N. C., effective 1-25-54 to 1-24-55; 5 percent of the total number of factory production workers for normal labor turnover purposes.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Porter Mills, Inc., Second and Elizabeth Streets, Cullman, Ala., effective 1-12-54 to 1-11-55; 5 learners for normal labor turnover purposes (children's panties, men's and boys' briefs, etc.).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 18th day of January 1954.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10660, 10661]

BOOTH RADIO & TELEVISION STATIONS, INC., AND WOODWARD BROADCASTING CO.

ORDER CONTINUING HEARING

In re application of Booth Radio & Television Stations, Inc., Detroit, Michigan; Docket No. 10660, File No. BPCT-724; Woodward Broadcasting Company, Detroit, Michigan, Docket No. 10661, File No. BPCT-1418; for construction permits for new television stations.

The Commission has before it a petition filed January 20, 1954, by Woodward Broadcasting Company in which it is requested (1) that the exchange of further information shall be on or before February 3, 1954, instead of January 21, 1954, as was ordered by the Commission's memorandum opinion and order of January 11, 1954, and (2) that the further hearing herein to be held pursuant to § 1.841 of the Commission's rules now scheduled for January 29, 1954, by the Commission's order of January 8, 1954, be rescheduled for February 12, 1954. The requests have been concurred in by counsel for Booth Radio and Television Stations, Inc., as well as by counsel for the Chief, Broadcast Bureau:

Wherefore it is ordered, This 20th day of January 1954, (1) that the information referred to in the foregoing memorandum opinion and order shall be furnished on or before February 3, 1954, and (2) that the further hearing herein to be held pursuant to § 1.841 of the Commission's rules now scheduled for January 29, 1954, is rescheduled for 10 a. m., February 12, 1954.

[Docket No. G-2075]

TRANSCONTINENTAL GAS PIPE LINE CORP.

ORDER POSTPONING DATE OF HEARING

By order issued December 30, 1953, the Commission fixed January 25, 1954, as a date for further hearings in the above-entitled proceedings.

On January 19, 1954, Transcontinental Gas Pipe Line Corporation filed a request for postponement of the date of hearing until February 8, 1954, for reason of a prior important commitment of its officers and counsel.

The Commission finds: Good cause exists to postpone the date of further hearings in the above-entitled proceedings from January 25, 1954, to February 9, 1954.

The Commission orders: The date of further hearings in the above-entitled proceedings be and the same is hereby postponed from January 25, 1954, to February 9, 1954.

Adopted: January 20, 1954.

Issued: January 20, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

FEDERAL TRADE COMMISSION

[File No. 21-460]

WHOLESALE PLUMBING AND HEATING INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference for the Wholesale Plumbing and Heating Industry will be held by the Federal Trade Commission in the Palmer House, Chicago, Illinois, on February 19, 1954, commencing at 10 a. m., c. s. t.

The purpose of the conference is to afford industry members an opportunity to consider and propose for establishment, subject to the Commission's approval, a comprehensive set of trade practice rules for the industry in substitution for those re-promulgated by the Commission on August 17, 1932. Copies of "suggested" rules, as prepared by the industry's Trade Practice Rules Committee and distributed to the members for their consideration at the conference, are available upon request.

The term "industry products" is defined in such draft of the rules as plumbing equipment and supplies, heating equipment and supplies, permanently installed, and connected air-conditioning equipment, pipe, valves and fittings. All persons, firms, corporations, and organizations engaged in the wholesale distribution or sale of such industry products are cordially invited to attend and participate in the scheduled trade practice conference.

Issued: January 22, 1954.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, JR.,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3237]

ADOLF GOBEL, INC.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 20th day of January A. D. 1954.

The Commission by order adopted March 13, 1953, pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, having summarily suspended trading in the $1.00 par value common stock of Adolf Gobel, Inc., on the American Stock Exchange for a period of ten days from that date, and subsequently having entered additional orders further suspending such trading in order to prevent fraudulent, deceptive or manipulative acts or practices; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on that Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder, for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, effective at the opening of the trading session on said Exchange on January 21, 1954, for a period of ten days.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-504; Filed, Jan. 25, 1954; 8:50 a. m.]

OHIO EDISON CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF COMPETITIVE BIDDING FOR BONDS AND OVER FEES AND EXPENSES

JANUARY 20, 1954.

Ohio Edison Company ("Ohio Edison"), a registered holding company and a public-utility company, having filed an application-declaration and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("act"), proposing, among other things, the issuance and sale, pursuant to the competitive bidding requirements of Rule U-50, of $30,000,000 principal amount of First Mortgage Bonds, __ percent Series of 1954 due 1984; and

Ohio Edison having also proposed to issue and sell, pursuant to an underwritten rights offering, 527,830 shares of its $12 par value common stock; and

The Commission by order dated December 30, 1953, having granted and permitted to become effective said application-declaration as amended, subject to the condition that the issuance and sale of the bonds and common stock not be consummated until the results of competitive bidding, pursuant to Rule U-50, and the subscription price of the common stock shall have been made a matter of record in this proceeding and a further order or orders issued, for which purpose jurisdiction was expressly reserved,

and subject further to a reservation of jurisdiction over the fees and expenses of counsel, accountants, and Commonwealth Services Inc.; and the Commission by order dated January 14, 1954, having released jurisdiction with respect to the issuance and sale of the common stock and having continued the jurisdiction reserved in the order of December 30, 1953, over the fees and expenses of counsel, accountants, and Commonwealth Services Inc.; and

Ohio Edison on January 20, 1954, having filed a further amendment to said application-declaration stating that it has invited bids, pursuant to said order of December 30, 1953, and Rule U-50, for the bonds, and has received the following bids:

Bidder	Annual interest rate (percent)	Price to Company [1] (percent of principal)	Annual cost to company (percent)
Halsey, Stuart & Co. Inc.; Clore, Forgan & Co.; Union Securities Corp. and	3¼	101.34	3.1883
White, Weld & Co	3¼	101.05	3.1963
Morgan Stanley & Co	3¼	[illegible]	3.[illegible]
The First Boston Corp	3¼	100.9889	3.1965

[1] Exclusive of accrued interest from Jan. 1, 1954.

The amendment further stating that Ohio Edison has accepted the bid of Halsey, Stuart & Co. Inc., as set forth above, and that the bonds will be offered for sale to the public at a price of 101.93 percent of the principal amount, plus accrued interest from January 1, 1954, resulting in an underwriters' spread of 0.59 percent of the principal amount of the bonds, or an aggregate spread of $177,000; and

The amendment further stating that the estimated fees to be paid to counsel, accountants and Commonwealth Services, Inc., and the allocation therof, as between the stock and bond transactions, are as follows:

	Stock	Bonds	Total
Company counsel:			
Winthrop, Stimson, Putnam & Roberts	$[illegible]	$[illegible]	$21,000
Fuller & Wharton	[illegible]	[illegible]	100
Underwriters' counsel:			
Simpson, Thacher & Bartlett	5,000	7,500	12,500
Total counsel fees	[illegible]	[illegible]	33,600
Accountants:			
Arthur Andersen & Co	[illegible]	[illegible]	5,475
Arthur Young & Co	[illegible]	[illegible]	100
Total accountants' fees	2,787	2,788	5,475
Commonwealth Services Inc. (other than in connection with transfer agents)	8,000	8,000	16,000

The amendment also stating that in addition to the above fees the estimated out-of-pocket expenses of counsel, accountants, and Commonwealth Services Inc., aggregate $4,300; and

The Commission having examined said amendment and having considered the record herein, and finding that the applicable provisions of the act and the rules thereunder have been satisfied, and observing no basis for adverse findings or imposing terms and conditions in respect of the price to be received by the company for the bonds or the underwriters' compensation; and it appearing that the estimated fees and expenses of counsel, accountants, and Commonwealth Services Inc., are not unreasonable:

It is ordered, That the application-declaration, as further amended, be and it hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions specified in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved over the fees and expenses of counsel, accountants and Commonwealth Services Inc., be, and the same hereby is, released.

By the Commission.

[File No. 70-3178]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING REGARDING INCREASE IN AUTHORIZED COMMON STOCK

JANUARY 20, 1954.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated sections 6 (a), 7 and 12 (e) thereof and Rules U-62 and U-65 of the rules and regulations promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Subject to the obtaining of favorable action by its stockholders at the annual meeting of stockholders of GPU to be held on April 5, 1954, GPU proposes to increase the number of shares of its authorized common stock from 9,893,000 shares to 12,500,000 shares. The purpose of such increase in the authorized common stock of GPU is to make provision for the obtaining, as needed from time to time, of the common stock equity component of the capital requirements of the GPU holding company system. The number of shares of GPU common stock issued and outstanding in the hands of the public at the close of business on October 31, 1953 was 9,098,640, including 2,752 shares then held by the Exchange Agent under the Plan of Reorganization of Associated Gas and Electric Company and Associated Gas and Electric Corporation. At that date 76,479 shares of common stock of GPU were held in its treasury. Upon the completion of GPU's projected 1954 common stock financing program, GPU's presently authorized but unissued common stock will be substantially exhausted.

Notice is further given that any interested person may, not later than February, 8, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest, and the issues of law and fact raised by said declaration which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 8, 1954, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said declaration which is on file with the Commission for a full statement of the transactions therein proposed.

By the Commission.

MARION J. STANKO

NOTICE OF APPLICATION FOR CONTINUANCE OF MEMBERSHIP IN THE NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., AND OF OPPORTUNITY FOR FILING REQUEST FOR HEARING

In the matter of the application of National Association of Securities Dealers, Inc., on behalf of a member firm for approval of the member firm's continuance in membership in the association with Marion J. Stanko, as a controlled person.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C. on the 19th day of January 1954.

The National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of a member, an application for approval of the member's continuance in membership in the Association with Marion J. Stanko as an employee and controlled person thereof, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934.

The application and exhibits attached thereto set forth, in substance, the following information:

1. Marion J. Stanko has been employed since April 1952 by said member, a registered broker-dealer and a member of the Association in District No. 8, having its principal office in Grand Rapids, Michigan.

2. The Commission, by order dated March 25, 1953, revoked the broker-dealer registration of Charles E. Bailey & Company pursuant to section 15 (b) of the Securities Exchange Act of 1934 and found that Marion J. Stanko was a cause of such order.

3. The District Committee for District No. 8 and the Board of Governors of the Association have considered this application and have reviewed the proceedings relating to Marion J. Stanko. Upon consideration of all the facts, including the representations as to the type of activity to be engaged in by Marion J. Stanko as an employee and controlled person of said member and the extent of the supervision which said member will exercise over his activities, they have concluded that Marion J. Stanko should be permitted to engage in the securities business as an employee and controlled person of said member and that said member should be continued in membership in the Association. They are of the belief that the continuace of said member in membership in the Association with Marion J. Stanko as an employee and registered representative thereof would be consonant with the stated purposes and policies of section 15A of the Securities Exchange Act of 1934 and have recommended approval of this application.

Under the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934 and section 2 of Article I of the Association's By-Laws, said member may not be continued in membership in the Association so long as Marion J. Stanko is employed by said member, except with the approval or at the direction of the Securities and Exchange Commission based upon a finding that such approval or direction is appropriate in the public interest.

Any interested person desiring to be given leave to be heard may file with the Secretary of the Commission on or before February 16, 1954, a written request to that effect setting forth the nature and extent of his interest in the matter pursuant to Rule XVII of the rules of practice. In the absence of such a request by any person having a bona fide interest in the matter, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate so to do, will determine the application on the basis of the record and without hearing.

This notice shall be served on said member and the National Association of Securities Dealers, Inc., forthwith and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act.

By the Commission.

KARL G. HAUCH

NOTICE OF APPLICATION FOR CONTINUANCE OF MEMBERSHIP IN THE NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., AND OF OPPORTUNITY FOR FILING REQUEST FOR HEARING

In the matter of the application of National Association of Securities Dealers, Inc., on behalf of a member firm for approval of the member firm's continuance in membership in the association with Karl G. Hauch, as a controlled person.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 19th day of January 1954.

The National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of a member, an application for approval of the member's continuance in membership in the Association with Karl G. Hauch as an employee and controlled person thereof, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934.

The application and exhibits attached thereto set forth, in substance, the following information:

1. Karl G. Hauch has been employed since June 1953 by said member, a registered broker-dealer and a member of the Association in District No. 8, having its principal office in Chicago, Illinois.

2. The Commission, by order dated April 28, 1953, revoked the broker-dealer registration of Mason, Moran & Company pursuant to section 15 (b) of the Securities Exchange Act of 1934, and found that Karl G. Hauch was a cause of such order.

3. The District Committee for District No. 8 and the Board of Governors of the Association have considered this application and have reviewed the proceedings relating to Karl G. Hauch. Upon consideration of all the facts, including the representations as to the type of activity to be engaged in by Karl G. Hauch as an employee and controlled person of said member and the extent of the supervision which said member will exercise over his activities, they have concluded that Karl G. Hauch should be permitted to engage in the securities business as an employee and controlled person of said member and that said member should be continued in membership in the Association. They are of the belief that the continuance of said member in membership in the Association with Karl G. Hauch as an employee and registered representative thereof would be consonant with the stated purposes and policies of section 15A of the Securities Exchange Act of 1934 and have recommended approval of this application.

Under the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934 and section 2 of Article I of the Association's By-Laws, said member may not be continued in membership in the Association so long as Karl G. Hauch is employed by said member, except with the approval or at the direction of the Securities and Exchange Commission based upon a finding that such approval or direction is appropriate in the public interest.

Any interested person desiring to be given leave to be heard may file with the Secretary of the Commission on or before February 16, 1954, a written request to that effect setting forth the nature and extent of his interest in the matter pursuant to Rule XVII of the rules of practice. In the absence of such a request by any person having a bona fide interest in the matter, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate so to do, will determine the application on the basis of the record and without hearing.

This notice shall be served on said member and the National Association of Securities Dealers, Inc., forthwith and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act.

By the Commission.

CHARLES E. BAILEY AND GORDON W. KIRK

NOTICE OF APPLICATION FOR CONTINUANCE OF MEMBERSHIP IN THE NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., AND OF OPPORTUNITY FOR FILING REQUEST FOR HEARING

In the matter of the application of National Association of Securities Dealers, Inc., on behalf of a member firm for approval of the member firm's continuance in membership in the association with Charles E. Bailey and Gordon W. Kirk, as controlled persons.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 19th day of January 1954.

The National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of a member, an application for approval of the member's continuance in membership in the Association with Charles E. Bailey and Gordon W. Kirk as employees and controlled persons thereof, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934.

The application and exhibits attached thereto set forth, in substance, the following information:

1. Charles E. Bailey and Gordon W. Kirk have been employed since November 1952 and June 1952, respectively, by said member, a registered broker-dealer and a member of the Association in District No. 8, having its principal office in Detroit, Michigan.

2. The Commission, by order dated March 25, 1953, revoked the broker-dealer registration of Charles E. Bailey & Company, pursuant to section 15 (b) of the Securities Exchange Act of 1934 and found that Charles E. Bailey and Gordon W. Kirk were each a cause of such order.

3. The District Committee for District No. 8 and the Board of Governors of the Association have considered this application and have reviewed the proceedings relating to Charles E. Bailey and Gordon W. Kirk. Upon consideration of all the facts, including the representations as to the type of activity to be engaged in by Charles E. Bailey and Gordon W. Kirk as employees and controlled persons of said member and the extent of the supervision which said member will exercise over their activities, they have concluded that Charles E. Bailey and Gordon W. Kirk should be permitted to engage in the

securities business as employees and controlled persons of said member and that said member should be continued in membership in the Association. They are of the belief that the continuance of said member in membership in the Association with Charles E. Bailey and Gordon W. Kirk as employees and registered representatives thereof would be consonant with the stated purposes and policies of section 15A of the Securities Exchange Act of 1934 and have recommended approval of this application.

Under the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934 and section 2 of Article I of the Association's By-Laws, said member may not be continued in membership in the Association so long as Charles E. Bailey and Gordon W. Kirk are employed by said member, except with the approval or at the direction of the Securities and Exchange Commission based upon a finding that such approval or direction is appropriate in the public interest.

Any interested person desiring to be given leave to be heard may file with the Secretary of the Commission on or before February 16, 1954, a written request to that effect setting forth the nature and extent of his interest in the matter pursuant to Rule XVII of the rules of practice. In the absence of such a request by any person having a bona fide interest in the matter, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate so to do, will determine the application on the basis of the record and without hearing.

This notice shall be served on said member and the National Association of Securities Dealers, Inc., forthwith and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

LEE D. WALKER

NOTICE OF APPLICATION FOR CONTINUANCE OF MEMBERSHIP IN THE NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., AND OF OPPORTUNITY FOR FILING REQUEST FOR HEARING

In the matter of the application of National Association of Securities Dealers, Inc., on behalf of a member firm for approval of the member firm's continuance in membership in the association with Lee D. Walker, as a controlled person.

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 19th day of January 1954.

The National Association of Securities Dealers, Inc., a registered securities association (hereinafter referred to as the Association), has filed with this Commission, on behalf of a member, an application for approval of the member's continuance in membership in the Association with Lee D. Walker as an employee and controlled person thereof, pursuant to the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934.

The application and exhibits attached thereto set forth, in substance, the following information:

1. Lee D. Walker has been employed since June 1952 by said member, a registered broker and dealer and a member of the Association in District No. 8, having its principal office in Detroit, Michigan.

2. The Commission, by order dated March 25, 1953, revoked the broker-dealer registration of Charles E. Bailey & Company pursuant to section 15 (b) of the Securities Exchange Act of 1934 and found that Lee D. Walker was a cause of such order.

3. The District Committee for District No. 8 and the Board of Governors of the Association have considered this application and have reviewed the proceedings relating to Lee D. Walker. Upon consideration of all the facts, including the representations as to the type of activity to be engaged in by Lee D. Walker as an employee and controlled person of said member and the extent of the supervision which said member will exercise over his activities, they have concluded that Lee D. Walker should be permitted to engage in the securities business as an employee and controlled person of said member and that said member should be continued in membership in the Association. They are of the belief that the continuance of said member in membership in the Association with Lee D. Walker as an employee and registered representative thereof would be consonant with the stated purposes and policies of Section 15A of the Securities Exchange Act of 1934 and have recommended approval of this application.

Under the provisions of section 15A (b) (4) of the Securities Exchange Act of 1934 and section 2 of Article I of the Association's By-Laws, said member may not be continued in membership in the Association so long as Lee D. Walker is employed by said member, except with the approval or at the direction of the Securities and Exchange Commission based upon a finding that such approval or direction is appropriate in the public interest.

Any interested person desiring to be given leave to be heard may file with the Secretary of the Commission on or before February 16, 1954, a written request to that effect setting forth the nature and extent of his interest in the matter pursuant to Rule XVII of the rules of practice. In the absence of such a request by any person having a bona fide interest in the matter, the Commission will either set the matter down for hearing on its own motion after appropriate notice or, if it should appear appropriate so to do, will determine the application on the basis of the record and without hearing.

This notice shall be served on said member and the National Association of Securities Dealers, Inc., forthwith and published in the FEDERAL REGISTER in the manner prescribed by the Federal Register Act.

By the Commission.

VOLUME 19 NUMBER 18

Washington, Wednesday, January 27, 1954

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

[Amdt. 2]

PART 7—AGRICULTURAL STABILIZATION AND CONSERVATION COMMITTEES

SUBPART—REGULATIONS RELATING TO SELECTION AND FUNCTIONS OF AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY AND COMMUNITY COMMITTEES

By virtue of the authority vested in the Secretary of Agriculture by the Soil Conservation and Domestic Allotment Act, as amended, the following amendments to the regulations in this subpart are prescribed, to be effective as of January 1, 1954:

1. Section 7.3 is amended by deleting the words "the Federal Crop Insurance Act," appearing therein.

2. Section 7.5 is amended by inserting at the end of paragraph (b) following the semicolon the word "or", inserting in paragraph (c) a period in lieu of the semicolon after the word "program" deleting the word "or" at the end of paragraph (c), and deleting paragraph (d) in its entirety.

3. Section 7.18 is amended by deleting the words "the crop insurance programs," appearing therein.

4. Section 7.34 is amended by changing the period at the end thereof to a comma and adding the words: "except that such space and facilities may be used, on a reimbursable basis, by the county crop insurance agent designated by the Federal Crop Insurance Corporation in the performance of his duties as such agent."

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret on apply 49 Stat. 1148, as amended; 16 U. S. C. 590h)

Done at Washington, D. C., this 22d day of January 1954.

S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

lished authorizing the exportation to Hong Kong of commodities listed below:

Schedule B No.	Commodity
001000–001900	Animals, edible.
002000–004998	Meat and meat products.
005000–005900	Animal oil and fats, edible.
006000–006998	Dairy products.
007000–007998	Fish and fish products.
008000–008998	Other edible animal products.
009002–009004	Hides and skins, raw, except furs:
	Sheep skins, dry and wet.
009008	Lamb skins, dry and wet.
009098	Other hides and skins, raw, except cattle, calf and kip skins.
030710–030900	Leather:
030910–035900	Upper leather except cattle and kip side upper and calf and whole kip.
	Other leather and tanned skins, except sole leather (bends, backs, and side), boot and shoe cut stock, belting leathers for industrial belts, and sole, welting, and belting leather offal.
	Leather manufactures:
064000–065900	Boots, shoes, and other footwear, except men's footwear (new) with leather uppers.
065910–065990	Leather gloves and mittens.
066000–066900	Harness, saddlery, and whips.
069510–069590	Handbags, pocketbooks, purses, cardcases, wallets, and similar articles, all materials.
069600	Luggage and related articles, all materials.
069710–069790	Belts worn on the person, all materials.
069900	Other leather manufactures, except leather wearing apparel (other than belts and gloves).
071300–075900	Furs and manufactures
099000–099400	Other inedible animals and animal products:
	Animals.
099498	Glue of animal origin.
099500	Casein, inedible.
099600	Shells unmanufactured.
099700	Pearl essence.
099900	Fish, shellfish, and other marine animal products, inedible, n. e. e.
099998	Other animal products, inedible, n. e. e., except feathers, manufactures of feathers, and sorted, bunched, or prepared bristles.
099998	Grains and preparations:
101300	Barley malt.
102100	Buckwheat.
103210–103500	Corn meal, corn flour, corn grits and hominy.
103700	Corn cereal foods, ready to eat.
104300–104400	Oatmeal, groats, and rolled oats.
107700	Macaroni and macaroni products.
107810	Bakery products.
107900	Prepared flour mixes.
108000–108500	Breakfast cereal foods, durum wheat flour and semolina.
109000	Grains and preparations, n. e. e.
110100–110900	Fodders and feeds, n. e. e.
120710–125000	Vegetables and preparations:
	Vegetables, fresh, frozen and dehydrated.
124100	Soups, dehydrated.
124700	Vegetables and juices, canned.
125000–125099	Vegetable preparations.
130100–132000	Fruits and preparations:
	Fruits, fresh.
132300	Fruits, dried and evaporated:
132500	Pears.
132700	Apples, apricots and peaches.
133100	Figs.
133900	Other fruits, except raisins, currants, prunes and mixed fruits.
134000	Dates, fresh, dried or otherwise prepared.
135100	Olives, green and ripe.
135900	Fruits, canned.
136700	Preserves, jellies, jams, and fruit butters.
136900	Fruit juices, canned and frozen.
137000	Fruit preparations, n. e. e.
137400	Nuts and preparations.
140000	Vegetable oils, fats, and waxes, refined.
150000	Cocoa, coffee, tea, and substitutes.
161000	Spices:
161100	Capsicum; cinnamon; cassia; cloves; and nutmegs (ground or unground).
161200	Vanilla beans (ground or unground).
161900	Spices, n. e. e., except pepper.
163000	Sugar and related products
163100	Sirup for table use, and edible molasses.
163200	Honey.
163300	Candy.
163410	Chewing gum.
163500	Confections and desserts.
170000	Beverages and related products.
178000	Rubber (natural, allied gums, and synthetics) and manufactures:
200000	Balata, gutta-percha, and other crude allied gums.
204010	Rubber toys, balls, and novelty balloons, except dolls, golf and tennis balls
204090	Hard rubber goods, not specially fabricated for particular machines or equipment, except electrical hard rubber goods.
207000	Solid tires, except truck and industrial.
208400	Rubber tiling and flooring
220000	Drugs, herbs, leaves, and roots, crude:
220500	Cinchona bark.
220600	Ginseng.
220900	Other crude drugs, herbs, leaves and roots, except cinchona bark, pyrethrum (insect flowers), and rotenone-bearing roots.
221000	Vegetable oils, fats, and waxes, crude:
221100	Vegetable oils (except essential) and fats, crude
224000	Peppermint, spearmint and other mint oils.
225000	Citrus oils.
226000	Vegetable waxes, crude.
240000	Seeds, except oilseeds, grass and field seeds.
250000	Nursery and floral stock.
260000	Miscellaneous vegetable products, inedible.
300000	Cotton semimanufactures:
300100	Cotton rags, old or used, and used civilian clothing.
300200	Cotton manufactures:
300210	Sewing thread, crochet, darning, and embroidery cotton.
300220	Unbleached (gray) cloth:
300230	Carded goods, except fine carded.
300240	Finished cloth, bleached, dyed, printed, stiffened, or otherwise converted, and colored yarn fabrics.
300250	Other cotton fabrics, except tire fabrics and unbleached cotton duck.
300400	Cotton wearing apparel.
315000	Laces, embroideries, and articles thereof, n. e. e.
316000	Cotton narrow fabrics, nonelastic, not over 12 inches wide, except industrial belts and belting.
317000	Cotton house furnishings.
319000	Fabricated products of cotton, n. e. e.
320000	Vegetable fibers and manufactures:
320100	Hemp, unmanufactured.
320200	Other unmanufactured vegetable fibers, except jute, manila or abaca, sisal or henequen.
320300	Handkerchiefs, linen.
350000	Wool, unmanufactured.
360000	Wool semimanufactures.
360200	Wool manufactures.
360300	Hair and manufactures, n. e. e.
370000	Silk and manufactures:
371000	Raw silk.
371100	Tram, organzine, and hard twists.
371900	Spun silk and noil yarns, single and plied
372000	Sewing, embroidery, and crochet silk.
372098	Broad woven silk fabrics, except parachute cloth.
373100–374100	Wearing apparel, including hosiery.
379900	Silk manufactures, n. e. e.
380000	Man-made (synthetic) fibers and manufactures:
384027	Glass fibers for weaving, knitting and braiding.
384064–384098	Rags and clips of rayon or other man-made (synthetic) fibers, and used civilian clothing, including hosiery.
384600–384660	Broad woven goods, wholly or chiefly of man made (synthetic) fibers by weight:
384921	Pile fabrics.
384929–384931	Other upholstery and drapery fabrics, wider than 42 inches, woven.
384950–384972	Woven filament yarn fabrics, wholly of rayon or acetate, n. e. c., gray (unfinished) and printed only.
384981	Woven spun yarn fabrics, wholly of rayon or acetate, n. e. e.
384985	Broad woven fabrics of mixed or blended fibers, chiefly rayon or acetate, n. e. c.
384992	Vinyl (saran) broad woven fabrics.
384998	Knit fabric in the piece.
385201–385720	Ribbons, woven with fast selvages.
385890	Wearing apparel.
390100	House furnishings.
390300	Miscellaneous textile products:
391100	Linoleum and felt-base floor coverings.
391400	Oilcloth for shelf, table, and wall.
391410–391420	Window-shade cloth (all types).
392100	Book cloth.
392800	Corsets, brassieres, and girdles, except rubber and rubberized.
393000	Neckties, cravats, mufflers, and scarves (all fibers)
394000–395000	Hat brands, hat bodies, and hats, caps and berets.
396300	Artificial or ornamental flowers, fruits, vegetables, grasses, grains, leaves, stems, or parts thereof (all materials).
397000	Mattresses, cotton kapok, moss, and hair.
398000	Absorbent cotton, sterilized gauze, and sterilized bandages.
398800	Elastic webbing, woven, knit, or braided.
399400	Garters, arm bands, suspenders, and braces of all materials
399900	Textile manufactures, n. e. e.
403500	Wood, manufactured:
416000–421000	Rattan, reed, cane, bamboo, and osier (raw or semimanufactured).
421401–421499	Wood manufactures:
421710	Wood containers and shooks, cooperage and cooperage stock.
422300	Veneers.
422500	Softwood plywood, interior type.
423000	Shingles.
424050	Millwork.
424070	Prefabricated and ready-cut houses, including lumber or plywood components, chief value wood.
424090	Wood pipe, conduit, vats, tanks, and wood components for cooling towers.
424300–424500	Furniture and specially fabricated parts, n. e. c., chief value rattan, reed, cane, willow, grass, fiber, wood, or upholstery and wood.
427000	Shoe lasts.
428400–429400	Handles (including pulls, knobs, belves hafts, grips, and backs).
429430	Tenrel slats.
429900	Used or salvaged building and construction materials of wood, except fuel wood.
429950	Woodenware
430000–430900	Cork and manufactures.
460000–460500	Paper base stocks, except rags and pulp.
480100	Paper, related products and manufactures:
480200	Paper, except building paper:
480400	Newsprint (standard and super-standard.
480500	Groundwood paper, printing and converting.
480700	Book paper, printing and converting.
480900	Fine paper:
481000	Writing paper.
481100	Bristols.
481400–482200	Cover paper.
482900	Coarse paper.
483000	Tissue paper.
483100	Absorbent paper and products, n. e. e.
483400–484750	Paperboard.
384900	Paper, related products and manufactures—Continued
485000–485600	Other manufactures of paper and board.
500000–500400	Converted paper and board products.
510000–512700	Coal and related fuels, except coke.
514000	Stone, hydraulic cement and lime:
517200	Building and monumental stone, and manufactures.
517400	Standard Portland cement.
517700	Concrete and cement manufactures.
521210–521400	Lime.
521800–522000	Glass and products:
523150	Flat glass:
523710–524018	Plate glass, and sheet and window glass, except colored and laminated.
525000–526100	Flat glass and products, n. e. e., except laminated glass and manufactures.
526300–526400	Glass bricks and blocks
526600–526900	Unfilled glass containers, new and used.
527000	Table and kitchen glassware.
529018	Lamp chimneys, lantern globes, and globes and shades for lighting fixtures.
529300–529400	Clay and products:
529600	Clays, except fire clay.
529800–530000	Pottery:
532010–532050	Table and kitchen articles and utensils for use in cooking, preparing, serving and storing food and drink.
532210–532400	Sanitary articles.
533800	Other pottery, except chemical and industrial.
534900–535000	Structural clay products (except pottery and refractories).
540000	Other nonmetallic minerals (precious included):
541520	Abrasives:
542000	Grindstones and pulpstones, natural
547100	Pulpstones of manufactured abrasives.
548350–548700	Asphalt tiles.
549010	Manufactures of natural asphalt and bitumen.
552400	Gypsum and manufactures.
556000	Rock wool, glass wool and other semiricid and "Fill" mineral insulating materials, n. e. e.
558958	Salt, crude and refined.
559000	Gravel.
559200	Stone, crushed, ground, or broken.
559400	Precious, semiprecious, synthetic, and imitation stones, except diamonds, jewel bearings, rubies (genuine and synthetic), sapphires (genuine and synthetic), and diamond bearings.
611200–611300	Metal manufactures:
611410	Safety razors and blades (except electric).
611600	Scissors, shears, clippers, and snips, n. e. e.
611800	Butchers' and kitchen knives, forks, cleavers and steels.
611920	Other cutlery and specially fabricated parts except table flatware and machine knives and blades.
611950	Table flatware and specially fabricated parts, n. e. e.:
611960	Silver-plated.
612000	Metals, except precious.
612355	Hollow ware, n. e. e., solid or plated, and specially fabricated parts, n. e. e.:
612358	Metal ...
612360	Cooking, kitchen, and hospital utensils, and specially fabricated parts, n. e. e.
612370	Kitchen appliances and tools, hand-operated, and specially fabricated parts, n. e. e.
612910	Vitreous enameled products, n. e. e., and specially fabricated parts, n. e. e.
613010	Tinware and other sheet metal ware, n. e. e. (including galvanized), and specially fabricated parts, n. e. e.
613110–613500	Metal partitions, shelving and lockers and specially fabricated parts, n. e. e.
614000	Metal cases, cabinets, counters, and other fixtures, n. e. e., and specially fabricated parts, n. e. e.
614360	Metal office equipment.
617910–618110	Metal household furniture and specially fabricated parts, n. e. e.
618150	Domestic cooking stoves and ranges.
618400	Hardware:
618440	Locks (all metals).
618840	Hinges and butts (all metals).
	Furniture hardware and specially fabricated parts, n. e. c.
	Hardware, n. e. c., metals other than iron, steel, or copper-base alloys.

Schedule B No.	Commodity
	Metal manufactures—Continued
618851–618859	Metal plumbing fixtures and fittings and specially fabricated parts, n. e. c.
	Construction materials
618983–618985	Sash, sections, and frames, door, and window.
618991	Venetian blinds (including slats and strip)
618993	and specially fabricated parts, n. e. c.
619951	Metal signs, except electric.
619955	
	Silver-plated manufactures, n. e. c.
707396	Electrical machinery and apparatus:
	Electric commercial cooking and food service equipment, n. e. c., and specially fabricated parts, n. e. c.
	Construction, excavating, mining, and related machinery:
722045	Clay spades and water sprinkler tanks.
723110	Overhead hoists (pendant type).
724050	Elevators and moving stairways, n. e. c., and specially fabricated parts, n. e. c.
	Other industrial machines and parts:
760020	Baking machines, n. e. c., and specially fabricated parts, n. e. c.
761100	Sugar-mill machines, n. e. c., and specially fabricated parts, n. e. c.
761310–761320	Bottling, bottle-washing, and bottle-labeling machines, and specially fabricated parts, n. e. c.
761510	Meat and other food cutting, chopping and slicing, power-driven machines, n. e. c., and specially fabricated parts, n. e. c.
762000	Cigarette and cigar-making, and tobacco processing machines, n. e. c., and specially fabricated parts, n. e. c.
726700–762810	Paper-converting machines, and specially fabricated parts, n. e. c.
773810–773850	Commercial laundry and dry cleaning equipment (including power-driven machines) and parts.
774340–774370	Scales and balances, except industrial and commercial, and specially fabricated parts, except lead scale weights.
	Office machines and parts:
776400–776710	Cash registers and parts.
777000–	Typewriters, standard and portable, new, used and rebuilt.
777600	Parts, and accessories, n. e. c., specially fabricated for typewriters.
777710	Staplers, for office use.
777925	Check-handling machines, and specially fabricated parts, n. e. c.
	Other vehicles and parts
797100–797105	Bicycles, and specially fabricated parts and accessories, n. e. c.
797130	Farm wagons, drays, and trailers.
799095	Vehicles, n. e. c., and specially fabricated parts, n. e. c., except logging wagons, motor scooters, sno-cats, and sno-cat trailers.
	Coal-tar products:
805909	Coal-tar dyes and stains, n. e. c., the following only, in small packages of 2 ounces or less: dye tablets; Easter egg colors, except of vegetable origin; food coloring, except of vegetable origin; hair tints and dyes; and household tints and dyes.
	Medicinal and pharmaceutical preparations:
813520	Menthol, bulk.
814800	Mouth washes, gargles, and personal antiseptics.
	Chemical specialties:
820600	Household and industrial insecticides, fungicides, exterminators, and repellents, liquid, paste, powder or solid form, except aerosol bombs, bug bombs, moth balls, and naphthalene balls and flakes.
820800	Household and industrial disinfectants, deodorants, germicides and similar preparations, n. e. c.
823000	Baking powder.
827000	Regenerated cellulose, including printed (except rayon), in rolls, and sheets.
827400	Cementing preparations for repairing, sealing, and adhesive use, the following only: automobile top sealer; floor cement; linoleum cement, except rubber; linoleum paste, except rubber; roofing cement; and running board cement.
828870	Detergents, all types.
828950	Specialty cleaning and washing compounds, n. e. c., except rifle cleaning compounds.
	Polishes:
829000	Metal and stove polishes.
829100	Shoe polishes and shoe cleaners.
829300	Floor wax, wood and furniture polishes.
829400	Automobile polishes.

Schedule B No.	Commodity
	Chemical specialties—Continued
829530	Aromatic chemicals of synthetic origin.
829540	Aromatic compounds containing natural and/or synthetic essential oils and/or aromatic chemicals of natural and synthetic origin for perfumery use.
829555–829595	Flavors and flavoring extracts, natural and synthetic.
829600	Pectin and preparations.
829900	Chemical specialty compounds, n. e. c., the following only: brewers' findings; brewers' sugar; chemical compounds, for manufacturing ice cream; chill proofing compound; clarifier for beer or ale; clarifying powder, for wines; hot finishing powder; ink eradicators; laundry sour; lipstick bases; lipstick waxes; marble polish; meat curing compound; rosin size; shaving cream base, concentrated; silk-stocking savers, in tablet form; and yeast food (dough conditioner).
	Industrial chemicals (exclusive of medicinal chemicals, U. S. P. and N. F.):
831510	Ethyl alcohol.
837000	Cream of tartar (synthetic included).
839700	Sodium bicarbonate or baking soda.
	Pigments, paints and varnishes:
840100	Iron oxides pigments, dry, synthetic and natural (mineral earth pigments).
840500	Extender pigments, dry, the following only: barytes, ground; calcium sulfate; and gypsum, ground.
843110	Artists' colors.
843190	Paste and semipaste paint colors in oil, putty and paste wood fillers, n. e. c., except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (Teflon), polytrifluorochloroethylene (Kel-F), and silicones.
843210–843250	Water thinned paints (all types).
843800	Ready-mixed paints, stains, and enamels, except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (Teflon), polytrifluorochloroethylene (Kel-F), and silicones.
844210	Varnishes (oil or spirit), natural or synthetic, n. e. c., except antifouling types (including all those containing cuprous oxide), and those containing polytetrafluoroethylene (Teflon), polytrifluorochloroethylene (Kel-F), and silicones.
	Soap and toilet preparations.
871100–877000	Photographic and projection goods:
	Motion-picture films, exposed or developed:
912170	Negative:
912180	Newsreels.
912190	Trailers, inserts, and replacements.
912200	Negative 8 mm film.
912300–912400	Sound track.
912700	Positive.
	Dry plates.
	Scientific and professional instruments, apparatus and supplies, n. e. c.:
	Optical goods:
914200	Ophthalmic lenses.
914350–914380	Sun glasses, sun goggles, ophthalmic spectacles, and specially fabricated parts, n. e. c.
915200	Teeth, dentures, and bridges.
921100–921200	Musical instruments, parts, and accessories:
922000	Pianos.
923200	Pipe organs.
924700–924900	Phonograph records and blanks.
	Other musical instruments, and specially fabricated parts and accessories, n. e. c., except electric and electronic organs, and phonographs and parts.
930310–930800	Miscellaneous office supplies.
940000–941900	Toys, athletic and sporting goods.
951000–952300, 955300–	Books, maps, pictures and other printed matter, n. e. c., except photographs, blueprints and technical data.
957100	Miscellaneous commodities, n. e. c.:
958000–968300	1-day alarm clocks.
	Watches and watch movements.

Schedule B No.	Commodity
961000	Miscellaneous commodities, n. e. c.—Con.
962100–962900	Paintings, etchings, engravings, statuary (except religious) and antiques.
963500	Jewelry and other personal ornaments, all materials, except solid gold, platinum and platinum allied metals.
	Jewelry findings, and specially fabricated parts, n. e. c.
	Bottle and container closures (including secondary closures), accessories, and specially fabricated parts, n. e. c., except cork.
971100–971900	Buttons and parts.
972200–979000	Lamps and illuminating devices, and parts, except incandescent mantles and electric lamps.
980000	Matches.
981510	Plastic kitchen and tableware.
982110	Synthetic sponges.
982120	Natural sponges, animal.
982200–982600	Brushes.
982695	Brooms.
982700	Combs, except wholly of rubber.
982900–982930	Smokers' articles, n. e. c., and specially fabricated parts, n. e. c.
983100–983150	Umbrellas and parasols, and specially fabricated parts, n. e. c.
983200	Candles, except pyrotechnic.
983300	Religious articles, n. e. c., and specially fabricated parts, n. e. c.
983400	Beads and bead articles, n. e. c.
983695	Snap fasteners.
984015	Zippers (including slide fasteners), and specially fabricated parts, n. e. c.
984098	Notions, novelties, specialties, and specially fabricated parts, n. e. c.
984200	Ice refrigerators, household and commercial types.
984600	Soda fountain and bar equipment, and specially fabricated parts, n. e. c.
984700	Barber and beauty shop equipment, n. e. c., and specially fabricated parts, n. e. c.
985300	Shoe findings, n. e. c.
987100–987200	Coin-operated machines, n. e. c.

This amendment shall become effective as of January 14, 1954.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. Sup. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

[F. R. Doc. 54-474; Filed, Jan. 26, 1954; 8:51 a. m.]

[6th Gen. Rev. of Export Regs., Amdt. P. L. 66 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Export Control Schedule B No.	Commodity	Unit	Processing code and commodity group	GLV and Validated license limits	Validated license required
618976	Buildings, prefabricated and knockdown, with or without appurtenances: Iron and steel buildings, having a single unsupported span of more than 40 feet, suitable for portable aircraft hangars.	No. and Lb.	STEB	1,000	S
618977	Other metal buildings, having a single unsupported span of more than 40 feet, suitable for portable aircraft hangars.	No. and Lb.	BLDG	1,000	S
	Other industrial chemicals:				
839000	Thiophorus oxychloride [2]	Lb.	SALT	100	RO
839040	Phosphorus trichloride [2]	Lb.	SALT	100	RO

[1] These commodities may be exported under the Positive Requirements licensing procedure (see Part 370 of this chapter) or the Limited Distribution licensing procedure (see Part 373 of this chapter).

This part of the amendment shall become effective as of 12:01 a. m., January 21, 1954.

2. The following commodities are deleted from the Positive List.

Export Control Schedule B No.	Commodity
092300	Feathers, crude, not dressed.
092900	Furskins, tanned or dressed, whole, with or without heads, tails, paws or other trimmings, but not manufactured in any way.
206625	Rubber, crude, latex, including concentrated latex (dry or liquid latex) and allied gums.
209800	Cordage, rope and twine (including fishing nets), of vegetable fibers (report low separators to one square inch).
303000	Cotton cloth, duck, and tire fabric (including mixed fabrics, cotton chief weight).
304000	Cotton specialty compounds, n. e. c.:
304050	Mixtures of chlorinated diphenyl oxides (Thermex).
304070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder, not plasticized (except those containing plasticizers).
320400	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
320500	Cellulose nitrate waste or scrap, not plasticized.
320900	Cellulose nitrate plastic materials, n. e. c. (specify by name).
322000	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
322500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
323000	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
323500	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
323600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 323500).
323630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
323650	Phthalic anhydride type.
323670	Other alkyd resins, including polyester type resins (specify type).
323700	Cellulose plastic materials, including polyester type resins (specify type):
323710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
323720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
326605	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-325600).
328000	Rubber manufactures, n. e. c.:
328050	Chemical specialty compounds, n. e. c.:
328060	Mixtures of chlorinated diphenyl oxides (Thermex).
328070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder, not plasticized (except those containing plasticizers).
328080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
328090	Cellulose nitrate waste or scrap, not plasticized.
328095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
328500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
328510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
328520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
328530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
328600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 328530).
328630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
328650	Phthalic anhydride type.
328670	Other alkyd resins, including polyester type resins (specify type).
328700	Cellulose plastic materials, including polyester type resins (specify type):
328710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
328720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
328905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-328650).
329000	Rubber manufactures, n. e. c.:
329050	Chemical specialty compounds, n. e. c.:
329060	Mixtures of chlorinated diphenyl oxides (Thermex).
329070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
329080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
329090	Cellulose nitrate waste or scrap, not plasticized.
329095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
329500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
329510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
329520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
329530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
329600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 329530).
329630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
329650	Phthalic anhydride type.
329670	Other alkyd resins, including polyester type resins (specify type).
329700	Cellulose plastic materials, including polyester type resins (specify type):
329710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
329720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
329905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-329650).
330000	Rubber manufactures, n. e. c.:
330050	Chemical specialty compounds, n. e. c.:
330060	Mixtures of chlorinated diphenyl oxides (Thermex).
330070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
330080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
330090	Cellulose nitrate waste or scrap, not plasticized.
330095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
330500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
330510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
330520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
330530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
330600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 330530).
330630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
330650	Phthalic anhydride type.
330670	Other alkyd resins, including polyester type resins (specify type).
330700	Cellulose plastic materials, including polyester type resins (specify type):
330710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
330720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
330905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-330650).
331000	Rubber manufactures, n. e. c.:
331050	Chemical specialty compounds, n. e. c.:
331060	Mixtures of chlorinated diphenyl oxides (Thermex).
331070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
331080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
331090	Cellulose nitrate waste or scrap, not plasticized.
331095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
331500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
331510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
331520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
331530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
331600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 331530).
331630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
331650	Phthalic anhydride type.
331670	Other alkyd resins, including polyester type resins (specify type).
331700	Cellulose plastic materials, including polyester type resins (specify type):
331710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
331720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
331905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-331650).
332000	Rubber manufactures, n. e. c.:
332050	Chemical specialty compounds, n. e. c.:
332060	Mixtures of chlorinated diphenyl oxides (Thermex).
332070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
332080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
332090	Cellulose nitrate waste or scrap, not plasticized.
332095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
332500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
332510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
332520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
332530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
332600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 332530).
332630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
332650	Phthalic anhydride type.
332670	Other alkyd resins, including polyester type resins (specify type).
332700	Cellulose plastic materials, including polyester type resins (specify type):
332710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
332720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
332905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-332650).
333000	Rubber manufactures, n. e. c.:
333050	Chemical specialty compounds, n. e. c.:
333060	Mixtures of chlorinated diphenyl oxides (Thermex).
333070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
333080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
333090	Cellulose nitrate waste or scrap, not plasticized.
333095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
333500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
333510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
333520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
333530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
333600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 333530).
333630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
333650	Phthalic anhydride type.
333670	Other alkyd resins, including polyester type resins (specify type).
333700	Cellulose plastic materials, including polyester type resins (specify type):
333710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
333720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
333905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-333650).
334000	Rubber manufactures, n. e. c.:
334050	Chemical specialty compounds, n. e. c.:
334060	Mixtures of chlorinated diphenyl oxides (Thermex).
334070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
334080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
334090	Cellulose nitrate waste or scrap, not plasticized.
334095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
334500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
334510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
334520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
334530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
334600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 334530).
334630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
334650	Phthalic anhydride type.
334670	Other alkyd resins, including polyester type resins (specify type).
334700	Cellulose plastic materials, including polyester type resins (specify type):
334710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
334720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
334905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-334650).
335000	Rubber manufactures, n. e. c.:
335050	Chemical specialty compounds, n. e. c.:
335060	Mixtures of chlorinated diphenyl oxides (Thermex).
335070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
335080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
335090	Cellulose nitrate waste or scrap, not plasticized.
335095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
335500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
335510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
335520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
335530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
335600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 335530).
335630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
335650	Phthalic anhydride type.
335670	Other alkyd resins, including polyester type resins (specify type).
335700	Cellulose plastic materials, including polyester type resins (specify type):
335710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
335720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
335905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-335650).
336000	Rubber manufactures, n. e. c.:
336050	Chemical specialty compounds, n. e. c.:
336060	Mixtures of chlorinated diphenyl oxides (Thermex).
336070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
336080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
336090	Cellulose nitrate waste or scrap, not plasticized.
336095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
336500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
336510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
336520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
336530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
336600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 336530).
336630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
336650	Phthalic anhydride type.
336670	Other alkyd resins, including polyester type resins (specify type).
336700	Cellulose plastic materials, including polyester type resins (specify type):
336710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
336720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
336905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-336650).
337000	Rubber manufactures, n. e. c.:
337050	Chemical specialty compounds, n. e. c.:
337060	Mixtures of chlorinated diphenyl oxides (Thermex).
337070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
337080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
337090	Cellulose nitrate waste or scrap, not plasticized.
337095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
337500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
337510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
337520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
337530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
337600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 337530).
337630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
337650	Phthalic anhydride type.
337670	Other alkyd resins, including polyester type resins (specify type).
337700	Cellulose plastic materials, including polyester type resins (specify type):
337710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
337720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
337905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-337650).
338000	Rubber manufactures, n. e. c.:
338050	Chemical specialty compounds, n. e. c.:
338060	Mixtures of chlorinated diphenyl oxides (Thermex).
338070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
338080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
338090	Cellulose nitrate waste or scrap, not plasticized.
338095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
338500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
338510	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
338520	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other than primary forms).
338530	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report primary forms).
338600	Synthetic resin and resin compounds, n. e. c. (except those in sheets, rods, tubes, and shapes) (report other unfinished forms, including scrap (report other unfinished forms as 338530).
338630	Alkyd resins, unmodified and modified (in all unfinished forms, except laminated):
338650	Phthalic anhydride type.
338670	Other alkyd resins, including polyester type resins (specify type).
338700	Cellulose plastic materials, including polyester type resins (specify type):
338710	Cellulose acetate and cellulose acetate-butyrate plastic sheets, rods, tubes and shapes.
338720	All other cellulose plastic materials, including waste or scrap (report low separators to one square inch).
338905	Specialty cleaning and washing compounds, n. e. c. (except those in Sch. B-325600, comps. in Sch. B-328650), (specify by name) (report organic surface-active agents in Sch. B-338650).
339000	Rubber manufactures, n. e. c.:
339050	Chemical specialty compounds, n. e. c.:
339060	Mixtures of chlorinated diphenyl oxides (Thermex).
339070	Cellulose acetate flake and powder, not plasticized, and cellulose acetate-butyrate flake and powder.
339080	Cellulose nitrate sheets, rods, tubes, and shapes, n. e. c. (specify by name).
339090	Cellulose nitrate waste or scrap, not plasticized.
339095	Cellulose nitrate plastic materials, n. e. c. (specify by name).
339500	Synthetic resins, n. e. c. (except those in primary forms), and synthetic resin compounds, n. e. c. (except those in primary forms), not plasticized, not finished or fabricated (except those in sheets, rods, tubes, and shapes).
339510	Synthetic resins, n. e. c. (except

3. The revised entries set forth below are substituted for entries presently on the Positive List. Where the Positive List contains more than one entry under a single Schedule B number, the entry to be superseded is identified by a numerical reference enclosed in parentheses following the commodity description in the revised entry.

Dept of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
	Cordage, except of cotton or jute (report cotton in 301900 or jute in 324400):				
341100	Binder twine, hand and soft fiber (report baler twine in 341200, 341400, and 341800) [24]	Lb.	TEXT 1	1,000	RO
501360	Unfin. fuel oils (for further refining; charged as of 42 gallons) (formerly 501350 and 501360) [9 10]	Bbl.	PETR 1	1,000	RO
	Refined oils:				
	Motor fuel and gasoline (report octane rating):				
801400	Blending agents of petroleum origin, specify by name (report natural gasoline in 520500) [9]	Gal.	PETR 1	100	RO
801800	Jet fuels, all types (barrels of 42 gallons) (formerly 520600) [9]	Bbl.	PETR 1	25	RO
801900	Naphthas in containers over 4 ounces, mineral spirits, solvents, and other finished light products (barrels of 42 gallons) (1, 2, and 4) [9]	Bbl.	PETR 1	[9] 25	RO
	Lubricating oils, except hydraulic (report hydraulic oils of petroleum origin in 520500, hydraulic oils, except of petroleum origin in 520810):				
802800	Industrial, except cutting oils (report cutting oils in 504100)	Gal	PETR 3	25	RO
803700	Insulating or transformer oils [9]	L. ton	PETR	100	RO
805900	Petroleum products, n. e. c., specify by name (report finished petroleum spirits in 520500 and specified fuels in 520600; motor additives, including those of petroleum origin in 520915) [9]	Lb. or Gal.	PETR	25	RO
	Abrasives:				
841140	Boron carbide [11]	Lb.	MINL 1	100	RO
	Asbestos:				
	Manufactures:				
845920	Brake lining in rolls	Lin. ft.	TRAN 6	500	R
845931	Woven (formerly 845900) [9 20 21]	Lin. ft.	TRAN 6	500	R
845940	Brake lining in sets, molded, semimolded, and woven, except brake blocks (formerly 845900 and 845910) [9 21]	Set	TRAN 6	500	R
847000	Carbon or graphite products (natural and artificial): Specified products (carbon bodies [suffix 5] 847500) [9 22]	Lb.	FILM	25	RO
853600	Magnesium silicate (talc, steatite and soapstone, crude and ground, except packaged extender pigments) [12]	L. ton	MINL	100	RO
	Steel ingots, blooms, billets, slabs, sheet bars and tinplate bars:				
	Alloy steel (including stainless):				
601702	Ingots, nickel-bearing stainless steel (2) [9]	S. ton	STEE	100	RO
601702	Other alloy steel ingots, and billets non-nickel-bearing stainless steel (1 and 3) [9]	S. ton	STEE	100	RO
601708	Billets, blooms, slabs, and sheet bars, nickel-bearing stainless steel [9]	S. ton	STEE	100	RO
601708	Other alloy steel billets (except product-ready and shell steel), blooms, slabs, sheet bars, and tinplate bars (includes non-nickel-bearing stainless steel) (1 and 3) [9]	S. ton	STEE	100	RO
601810	Semifinished material for seamless pipe and tubing, nickel-bearing stainless steel [9]	S. ton	STEE	100	RO
601810	Semifinished material for seamless pipe and tubing, other alloy steel (includes non-nickel-bearing stainless steel) (1 and 3) [9]	S. ton	STEE	100	RO
601910	Wire rods, other alloy steel (includes non-nickel-bearing stainless steel) (1 and 3) [9]	Lb.	STEE	100	RO
601950	Skelp, nickel-bearing stainless steel. (2) [9]	Lb.	STEE	1,000	RO
601950	Skelp, other alloy steel (includes non-nickel-bearing stainless steel) (1 and 3) [9]	Lb.	STEE	1,000	RO
	Steel plates, including boiler plate (hot or cold-rolled), not further processed:				
603125	Carbon steel	Lb.	STEE 5	1,000	RO
603150	Stainless, alloy steel and tool steel: Nickel-bearing stainless steel. (1) [9]	S. ton	STEE	1,000	RO

[9] See footnotes at end of table.

Dept of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
605110	Rails, trackwork and track accessories: Standard tee rails (over 60 pounds per yard) (specify whether carbon or alloy steel; if alloy, give analysis) (1 and 2) [9]	S. ton	STEE 18	1,000	RO
605230	Rails, except standard tee rails (report relaying rails in 602800): Alloy steel, including stainless [9]	S. ton	STEE 18	1,000	RO
605430	Rail joints and splice bars: Alloy steel, including stainless [9]	Lb.	STEE 14	100	RO
605530	Switches, frogs, and crossings: Alloy steel, including stainless [9]	Lb.	STEE	100	RO
605710	Pipe, tubes, and tubing, n. e. c., new and used (except scrap) (report pipe assemblies specially fabricated for particular machines or equipment as parts of such machines or equipment): Oil country pipe, including drill pipe, casing and tubing (see § 399.2 of this chapter, Int. 1): Seamless, carbon steel [9]	Lb.	STEE 15	100	RO
605730	Seamless, alloy steel, except stainless [9]	Lb.	STEE 15	100	RO
606210	Welded, carbon steel [9]	Lb.	STEE 16	100	RO
606260	Welded, alloy steel, except stainless [9]	Lb.	STEE 16	100	RO
606270	Line pipe, carbon and alloy steel, except stainless (if alloy, specify and give analysis (see § 399.2 of this chapter, Int. 1): Seamless (1 and 2) [9]	Lb.	STEE 15	100	RO
606280	Welded (1 and 2) [9]	Lb.	STEE 16	100	RO
	Steel wire, n. e. c., alloy and, except as provided in 709810-709898, electrical insulated wire and cable (report electrical insulated wire and cable in 709810-709898):				
606450	Unmounted wire, nickel bearing stainless steel (1) [9]	Lb.	STEE	100	RO
606210	Coated wire, except galvanized, all steel grades: Nickel bearing stainless steel (2) [9]	Lb.	STEE	100	RO
606210	Other alloy steel, including non-nickel-bearing stainless steel (1, 2 and 4) [9]	Lb.	STEE	100	RO
	Castings, iron and steel, rough and semi-finished:				
610491	Alloy steel castings, except stainless, (1 and 2) [9]	Lb.	STEE	100	RO
710002	Stainless steel grinding balls (1) [9]	Lb.	STEE	100	RO
610492	Other castings, nickel bearing stainless steel. (2) [9]	Lb.	STEE	100	RO
	Forgings, rough as forged or finished:				
610495	Alloy steel grinding balls, rough or polished, including stainless (1) [9]	Lb.	STEE 1	100	RO
610495	Other nickel-bearing stainless steel forgings (2) [9]	Lb.	STEE	100	RO
	Wheels without axles, and axles, specify and give analysis (report finished mounted wheels in 610500):				
610516	Railway car wheels, including trolley (1, 2 and 3) [9]	Lb.	STEE 13	100	RO
610518	Locomotive wheels (1 and 2) [9]	Lb.	STEE	500	RO
	Axles, without wheels (unless specify and give analysis):				
610528	Railway car axles, including trolley (1 and 2) [9]	Lb.	STEE 13	100	RO
	Locomotive axles (1 and 2) [9]	Lb.	STEE	500	RO
	Wheels and axles, mounted (if alloy, specify and give analysis):				
610535	Railway car mounted wheels and axles, including trolley (1 and 2) [9]	Lb.	STEE 13	100	RO
610538	Locomotive mounted wheels and axles (1 and 2) [9]	Lb.	STEE	500	RO
	Tool bit blanks and dies, and inserts for tools and rock drill bits:				
617903	Tool bit blanks and dies (1) [9 13]	.....	TOOL	50	RO
617905★	Tungsten carbide inserts for rock drill bits (2) [9 13]	.....	MINE	50	RO
617905★	Tungsten carbide inserts for other tools including die inserts (2) [9]	.....	TOOL	50	RO
617905	Molybdenum tool bit blanks [9 13]	.....	TOOL	50	RO
	Pipe fittings not specially fabricated for particular machines or equipment:				
618951	Steel pipe fittings, stainless or alloy (specify by name and analysis of steel)	Lb.	STEE	100	RO
	Fabricated tube products:				
618963	Plate, fabricated, punched or shaped, n. e. c., except pallets for concrete blocks [9]	Lb.	STEE	100	RO
618967	Storage tanks, unlined (all steel grades) (specify types) except tanks used as shipping containers in 619011 (1 and 2) [9]	Lb.	STEE	1,000	RO
	Welding rods and wires, including brazing rods:				
619031	Other iron and steel, electrode, except carbon steel. (2) [9]	Lb.	STEE	100	RO
619040	Aluminum and aluminum-base alloys (formerly 619030) [9]	Lb.	NONF	100	RO
619040	Containing 15 percent or more cobalt by weight (formerly 619030) [9 13]	Lb.	MINL	None	RO

Dept of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
	Welding rods and wires, including brazing rods—Con.				
619040	Copper, formerly 619030 [9 13]	Lb.	NONF 4	100	RO
619040	Molybdenum (formerly 619030) [9 13]	Lb.	MINL	None	RO
619040	Nickel and nickel alloy, specify by name and metal content (formerly 619039) [9 13]	Lb.	NONF	100	RO
619040	Tungsten, including tungsten carbide (formerly 619039) [9 13]	Lb.	MINL	None	RO
619040	Other welding rods and wires, except precious (specify type of metal) (report welding rods and wires of precious metals in 692600-692610, (formerly 619039) [9 13]	Lb.	NONF	100	RO
	Solders, except precious:				
619043	Lead solder (report solder of less than 50 percent lead by weight under 619045) (formerly 619039 and 851200) [9 13]	Lb.	NONF 6	800	RO
619045	Tin (formerly 619039) [9 13]	Lb.	NONF 1	100	RO
619045	Zinc (formerly 619039) [9 13]	Lb.	NONF	100	RO
619045	Other solders, except precious (specify type of metal) (formerly 619039) [9 13]	Lb.	NONF	100	RO
	Metal powders:				
619140	Other copper and copper base alloys (specify type of metal and copper content) (2, 3, 4 and 5) [9]	Lb.	NONF	100	RO
	Metal manufactures, n. e. c., and parts, n. e. c.:				
619910	Iron and steel (specify by name): Packing, nickel bearing stainless steel. (1) [9]	Lb.	STEE	100	RO
619980★	Other metals, except precious (specify by name and type of metal): Copper and copper base alloy perforated plates and perforated sheets (formerly 642500 and 642600) [9 13]	Lb.	NONF 15	100	RO
619950	Nickel catalysts. (6) [9]	Lb.	NONF	100	RO
619950	Tin shot (9) [9]	Lb.	NONF 1	100	RO
619990	Manufactures of other metals, n. e. c., except antifriction manufactures, bimetallic brake linings, clutch facings and friction material, tenplate, and manufactures of aluminum and aluminum base alloys, Babbitt metal, beryllium and beryllium alloys, brass or bronze, copper (other than perforated plates and sheets), invar metal, magnesium, tin (other than shot), and zinc (report iron and steel manufactures in 619910, precious metal manufactures in 692600-692610) [9]	Lb.	CDGS	25	RO
	Aluminum ores and concentrates:				
630010	Bauxite concentrates, alumina included, except causticized bauxite [9]	S. ton	NONF	800	RO
630050★	Aluminum scrap (new and old) [9]	Lb.	NONF	500	RO
630070	Aluminum slugs (formerly 619030) [9 13 19]	Lb.	NONF	300	RO
630070★	Other aluminum metal and alloys in crude form (including ingots, pigs, blooms, and plates) [9]	Lb.	NONF	100	RO
640100★	Copper ore and concentrates (copper content). (2) [9]	C. lb	NONF	1,000	RO
	Copper scrap (new and old):				
641300★	Slag (formerly 640100) [9 13 19]	Lb.	NONF 13	1,000	RO
641300★	Other copper scrap [13]	Lb.	NONF 13	1,000	RO
642200★	Copper tube and tubes (except flexible tubing, except electrical, in 642650), flexible electrical conduit in 709420) [13 24]	Lb.	NONF 15	100	RO
642000★	Copper semifabricated forms, n.e.c. (specify by name) (1 and 2) [13]	Lb.	NONF	100	RO
644100★	Beryllium-copper ingots (1) [7]	Lb.	NONF	300	RO
644100★	Other copper base alloy crude forms (formerly 644000) [9 13]	Lb.	NONF 15	100	RO
644900★	Copper-base alloy bars, rods, and other shapes, extruded, rolled and drawn. (1, 2, 3 and 4) [24]	Lb.	NONF 15	100	RO
645000★	Other copper-base alloy plates, sheets, and strips. (3, 4, 5 and 6) [13]	Lb.	NONF 15	100	RO
645300★	Copper-base alloy pipes and tubes (including pipe coils) (report flexible tubing, except electrical in 642650; and flexible electrical conduit in 709420). (1, 2, 3, 4 and 5) [13 24]	Lb.	NONF 15	100	RO
647013★	Other copper-base alloy castings and forgings, rough and semi finished (specify copper content) (2 and 3) [13]	Lb.	NONF	100	RO
647050★	Copper-base alloy semi fabricated forms, n.e.c. (specify by name). (1 and 2) [13]	Lb.	NONF	100	RO
650750	Lead slugs (formerly 619030) [9 13 19]	Lb.	NONF	100	RO
654702	Nickel slugs (formerly 619030) [9 13]	Lb.	NONF	100	RO
654702★	Other nickel metal in ingots, bars, rods and other crude forms, and scrap (formerly 654505) [9 13]	Lb.	NONF	None	RO
654702★	Nickel alloy metals in ingots, bars, rods and other crude forms, and scrap (formerly 654507) [9 13]	Lb.	NONF	100	RO
654504★	Nickel, metal sheets, plates, and strips (formerly 654503) [9 13]	Lb.	NONF	None	RO
654504★	Nickel alloy metal sheets, plates, and strips (formerly 654507) (report nickel silver in 644000 or 644900) [9 13]	Lb.	NONF	100	RO
656507	Titanium ore concentrates (formerly 656500) [9 13]	Lb.	NONF 7	100	RO
656507	Titanium ingots, pigs, bars, blanks, anodes, cathodes, slabs, and other crude forms (includes titanium sponge, formerly 656500) [9]	Lb.	NONF 8	100	RO
664504★	Cadmium metal alloys, dross, flue dust, residues, and scrap (including metallic shapes. (1, 2 and 3) [9]	Lb.	NONF 11	100	RO
	Manganese:				
664841	Manganese copper in crude form, and scrap. (1) [9]	Lb.	NONF	25	RO
664841	Other manganese metal and alloys in crude form, and scrap containing 10 percent or more manganese. (2) [9]	Lb.	MINL	None	RO
	Tungsten:				
664581★	Metal and alloys in crude form, and scrap (specify by name and tungsten content) (include alloy steel scrap containing one percent or more tungsten by weight) [9]	Lb.	MINL	None	RO
	Welding sets (report parts in 709000, 709100 and 709998, accessories in 709898, and protective equipment in 709898):				
709012	Direct current type [9 28]	No.	ELME 4	None	R
709022	Alternating current type [9 28]	No.	ELME 4	None	R
703020★	Electrical quantity and characteristic measuring and testing instruments, and parts (report automotive type electrical testing instruments in 703815): Electric meters, except student type (formerly 703900) [9 25]	No.	ELME 3	None	RO
703020	Other electrical quantity indicating instruments, non-recording, n. e. c., except battery testers, battery hydrometers and cell testers (specify by name) [9]	No.	ELME 3	25	RO
703850★	Parts, n. e. c., specially fabricated for electrometers, except nickel type (formerly 703900) [9]	.....	ELME 3	25	RO
703850	Other parts, n. e. c., specially fabricated for integrating meters (except watt hour), electrical quantity indicating and recording instruments, and electrical testing instruments (specify by name (report potentiometers, x-ray thickness meters, and specially fabricated parts and accessories, n. e. c., in 709000) [9]	.....	ELME 3	25	RO
	Electronic components:				
707803	Electron tubes (report X-ray tubes in 707505 and 707507): Receiving type tubes (specify by name) (formerly 707800) (report television picture tubes in 707815) [9 25]	No.	RARA 51	25	R
707830	Transmitting tubes (formerly 709007) [9 25 26]	No.	RARA 51	25	R
707830	Radio and television receiving type tubes (specify by name (formerly 707810) (report television camera tubes in 707815) [9]	No.	RARA 51	50	RO
707830	Other electron tubes, n. e. c. (specify by name) (formerly 707807) [9]	No.	RARA 51	25	RO
707840	Getters (formerly 709000) [9 25]	.....	RARA 51	25	RO
707840	Tantalum slugs, for radio transmitter and radio receiver tubes (formerly 709000) [9]	.....	MINL	None	RO
707840	Other parts, n. e. c., specially fabricated for radio and television receiving tubes (specify by name) (formerly 709000) [9]	.....	RARA 51	100	RO

[1] The GLV dollar value is increased.
[2] The GLV dollar value limit is decreased, effective January 21, 1954.
[3] The processing code is changed or related commodity group number is changed (see § 372.2 (b) and (c)).
[4] The letter "A" is added in the column headed "Commodity Lists," indicating that the commodity is subject to the IC/DV procedure (see § 372.2), effective March 1, 1954.
[5] The letter "A" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to the IC/DV procedure (see § 372.2).
[6] The letter "B" is added in the column headed "Commodity Lists," indicating that the commodity is subject to DL restrictions (see § 374.2), and is excepted from the Time Limit licensing procedure (see Part 377), effective February 13, 1954.
[7] The letter "B" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to DL restrictions (see § 374.2), and is no longer excepted from the Time Limit licensing procedure (see Part 377).
[8] The letter "D" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to evidence of availability requirements (see § 373.3).
[9] The letter "E" is added in the column headed "Commodity Lists," indicating that the commodity may be exported under the Periodic Requirements licensing procedure (see Part 376).
[10] The letter "E" is deleted in the column headed "Commodity Lists," indicating that the commodity may no longer be exported under the Periodic Requirements licensing procedure (see Part 376), effective February 13, 1954.
[11] The letter "F" is added in the column headed "Commodity Lists," indicating that the commodity may be exported under the Foreign Distribution licensing procedure (see Part 378).
[12] The commodity description is revised without substantive change.
[13] The unit of quantity is changed.
[14] Revised to conform with revisions in Schedule B, Statistical Classifications of Domestic and Foreign Commodities Exported from the United States as announced in P. B. B. 6, issued December 11, 1953, by Bureau of the Census.
[15] The Schedule B number is changed.
[16] All commodities presently classified under this Schedule B number are included in this entry. Accordingly, nonpetroleum formerly classified under Schedule B No. 504900 are added, effective January 21, 1954, and are subject to footnotes 4, 6, 12 and 23; isooctane formerly included in Schedule B No. 501900 is subject to footnotes 6 and 24; and isobutanes and isohexanes formerly included in Schedule B No. 501900 are subject to footnotes 1 (R and O country destinations other than Mexico), 2 (Mexico only), 4, 6, 11 and 24.
[17] The entry as revised includes: (1) the commodities formerly listed in the first, second and fourth entries on the Positive List under this Schedule B number; (2) amylenes, normal hexanes, octylens, pentanes and pentenes formerly included under Schedule B No. 501400; and (3) heptanes, hexenes, and pentanes formerly included under Schedule B No. 505000. The GLV dollar value limit for cyclohexane formerly included under the first entry for Schedule B No. 541900 and for the commodities formerly included under Schedule B No. 501400 is reduced from $100 to $25 for R and O destinations with the exception of Mexico, effective January 21, 1954; the GLV dollar-value limit for shipments to Mexico of all commodities in this entry is now $1,000. The commodities included in this revised entry may be exported under both the Periodic Requirements and the Foreign Distribution licensing procedure. (See Parts 376 and 377).
[18] The GLV dollar-value limit for shipment to Mexico is $1,000.

[24] Polybutene, formerly classified under Schedule B No. 200998, is included in this entry, effective January 21, 1954, and is subject to footnotes 4, 10, 12 and 24.

[25] Petro resin (petroleum residue), formerly classified under Schedule B No. 505900, is included in this entry, and is subject to footnotes 1, 10 and 24.

[26] All manufactured abrasives classified under Schedule B No. 541140, other than boron carbide, deleted from the Positive List.

[27] Packaged extender pigments were formerly classified under Schedule B No. 840500.

[28] The requirement to specify grade of steel is added.

[29] Nickel slugs are now included under Schedule B No. 654502.

[30] Tin slugs are now included under Schedule B No. 656507.

[31] Effective 12:01 a. m., January 1, 1954, all cathode-ray tubes, some of which were formerly licensed by Department of State, are now licensed by Bureau of Foreign Commerce. All outstanding licenses for cathode ray tubes issued by the Department of State prior to January 1, 1954, remain valid until they expire or are revoked.

[32] Effective 12:01 a. m., January 1, 1954. Doppler equipment was formerly licensed by the Department of State. Other electronic detection and navigational apparatus, some of which was formerly licensed by Bureau of Foreign Commerce, is now licensed by Department of State. All outstanding licenses issued by the Department of State or Bureau of Foreign Commerce prior to January 1, 1954, remain valid until they expire or are revoked.

[33] Effective 12:01 a. m., January 1, 1954, telemetering equipment, formerly licensed by Department of State, is now licensed by Bureau of Foreign Commerce. All outstanding licenses for telemetering equipment issued by the Department of State prior to January 1, 1954, remain valid until they expire or are revoked.

[34] Tape and wire recorders having a transport speed of 7½ inches per second or less, specially fabricated parts and accessories therefor, and all recording wire and tape are deleted.

[35] The steaming capacity of the boilers is changed from 9,000 pounds to 15,000 pounds.

[36] Steam specialties classified under this Schedule B number are deleted.

[37] Phthalic acid, formerly classified under Schedule B No. 8092490, is included in this entry, effective January 21, 1954, and is subject to footnotes 4, 10 and 12.

[38] Unfinished forms of styrene copolymers, formerly included under Schedule B No. 825250, are deleted from the Positive List.

[39] Additives not of petroleum origin, formerly Schedule B No. 829990, are also subject to footnotes 2, 3, 10 and 19.

[40] "Fluorinated aliphatic and alicyclic hydrocarbons or halocarbons," formerly 832990, are subject to footnotes 1, 3 and 4; "Other chlorodifluoromethanes" and "Other organofluorine compounds," formerly 839100, are subject to footnote 1.

[41] Thallium bromide was formerly classified under Schedule B No. 839900.

[42] Red mercury iodide, yellow mercury iodide, and thallium iodide were formerly classified under Schedule B No. 839990.

[43] Chloroplatinic acid (platinic chloride) was formerly classified under Schedule B No. 839980.

[44] Glassmeters and specially fabricated parts were formerly classified under Schedule B No. 919066.

[45] Effective 12:01 a. m., January 1, 1954, all supersonic generators and parts, some of which were formerly licensed by Department of State, are now licensed by Bureau of Foreign Commerce. All outstanding licenses for supersonic generators and parts issued by the Department of State prior to January 1, 1954, remain valid until they expire or are revoked.

★ The commodities described in this Positive List entry are excepted from the provisions of General In-Transit License *GIT*. See § 371.9 (c) of this chapter.

This part of the amendment shall become effective as of January 14, 1954, unless otherwise indicated in the footnotes.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in Parts 1 and 3 of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., January 21, 1954, may be exported under the previous general license provisions up to and including February 13, 1954. Any such shipment not laden aboard the exporting carrier on or before February 13, 1954, requires a validated license for export.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. Sup. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR, 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

[F. R. Doc. 54-475; Filed, Jan. 26, 1954; 8:51 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6097]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HUBER HOGE AND SONS ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service;* § 3.195 *Safety;* § 3.205 *Scientific or other relevant facts.* In connection with the offering for sale, sale, or distribution of the book entitled "TV Owner's Guide to Operation and Repair", whether sold under the same or any other name, or any book of substantially the same contents, in commerce: (1) Representing that ownership of and compliance with the instructions set forth in the "TV Owner's Guide to Operation and Repair" will enable a television set owner to maintain his set in perfect operating condition or prevent major breakdowns; (a) trace the source of all troubles; (b) make all needed repairs; (c) locate or replace all worn-out parts; (d) convert television sets to color; (e) save any stated amount in service charges; (f) obtain a discount upon purchase of a television set; (2) representing that said book gives an effective method of detecting defective tubes; (3) representing that, by following the instructions in said book, repairs or replacements may be made without danger; and (4) misrepresenting the distance from transmitting stations at which television sets, maintained in accordance with the instructions in said book, will give sharp and distinct reception; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Huber Hoge and Sons et al., New York, N. Y., Docket 6097, December 16, 1953]

In the Matter of Cecil C. Hoge, Hamilton Hoge, John Hoge, Sidney C. Hoge and Barbara Obolensky, Individuals and Copartners Doing Business as Huber Hoge & Sons; Harry Schneiderman, an Individual Doing Business as Bedford Company; and Louis Linetsky, an Individual also known as Louis Linett

This proceeding was instituted by complaint which charged respondents with unfair and deceptive acts and practices in commerce in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice", dated December 17, 1953, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith, was accepted by the Commission on December 16, 1953, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

Said order to cease and desist, thus entered of record, following the findings as to the facts[1] and conclusion,[1] reads as follows:

It is ordered, That respondents Cecil C. Hoge, Hamilton Hoge, John Hoge, Sidney C. Hoge and Barbara Obolensky, individually and as copartners doing business under the name of Huber Hoge and Sons, or under any other name, and respondent Harry Schneiderman, doing business under the name of Bedford Company or under any other name, and respondent Louis Linetsky, also known as Louis Linett, and the respective respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the book entitled "TV Owner's Guide to Operation and Repair," whether sold under the same or any other name, or any book of substantially the same contents, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing that ownership of and compliance with the instructions set forth in the "TV Owner's Guide to Operation and Repair" will enable a television set owner to maintain his set in perfect operating condition or prevent major breakdowns;

(a) Trace the source of all troubles;

(b) Make all needed repairs;

(c) Locate or replace all worn-out parts;

(d) Convert television sets to color;

(e) Save any stated amount in service charges;

(f) Obtain a discount upon purchase of a television set.

2. Representing that said book gives an effective method of detecting defective tubes.

3. Representing that, by following the instructions in said book, repairs or replacements may be made without danger.

4. Misrepresenting the distance from transmitting stations at which television sets, maintained in accordance with the instructions in said book, will give sharp and distinct reception.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: December 17, 1953.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

[Hearing Docket CE P 9]

PART 150—ORDERS OF THE COMMODITY EXCHANGE COMMISSION

LIMITS ON POSITION AND DAILY TRADING IN COTTONSEED OIL FOR FUTURE DELIVERY

Findings of fact. Pursuant to the provisions of section 4a of the Commodity Exchange Act (7 U. S. C. 6a), the Commodity Exchange Commission, after investigation and full consideration of the record made at a public hearing held in Washington, D. C., on May 25, and in Chicago, Ill., on July 13 and 14, 1953, of which due public notice had been given and at which all persons were given opportunity to hear, present, refute, and comment on the evidence in the premises, and after reconsideration of the record in Hearing Docket CE–P 8, and of the findings, conclusions, and order applicable to cottonseed oil issued by the Commission on January 16, 1953 (18 F. R. 443), finds:

(a) Except as specifically modified herein, the findings set forth in the order applicable to cottonseed oil, issued by the Commission on January 16, 1953 (Hearing Docket CE–P 8), are hereby confirmed;

(b) The record in Hearing Docket CE–P 9, the factual testimony of persons engaged in processing cottonseed oil, and the experience of the Commodity Exchange Authority in the enforcement of the order issued January 16, 1953 (Hearing Docket CE–P 8), indicate the existence of problems in the hedging use of edible fat and oil futures and in inventory accounting and management, which are peculiar to edible fats and oils and are not generally present in the enforcement of trading and position limits heretofore fixed by the Commission in respect to other commodities;

(c) Processors and merchandisers of and dealers in edible fats and oils under existing conditions do not always find their best opportunity to hedge in the futures of the particular fat or oil they desire to hedge and, therefore, find it necessary at times to hedge one fat or oil in the futures of a different fat or oil. Such transactions do not qualify as bona fide hedging transactions under the provisions of section 4a (3) of the Commodity Exchange Act. However, the Commodity Exchange Commission has wide discretion in fixing trading and position limits for different kinds of transactions and may exempt certain transactions from such limits;

(d) There is justification for the sale of, and a net short position in, cottonseed oil for future delivery on or subject to the rules of a contract market, by a processor of edible oil-bearing seeds or similar oil-bearing raw materials, to the extent that such sale, or net short position, is offset in quantity by the oil content of such edible oil-bearing seeds or similar oil-bearing raw materials owned or purchased by such processor, provided the price risk incident to such ownership or purchase is not otherwise offset;

(e) The limits on position and daily trading in cottonseed oil for future delivery proclaimed and fixed by the order of the Commission issued January 16, 1953, effective on and after April 1, 1953 (Hearing Docket CE–P 8), do not purport and are not required to be in amounts which precisely fit every situation at all times and under all conditions. Such limits are necessarily fitted to average conditions and normal expectancies, based on past experience, extent of market activity, and relationships between total open contracts and the portions thereof considered excessive for any person to hold or control; and

(f) Open contracts in cottonseed oil futures have declined steadily during the period beginning with February 1952 (14 months before the order became effective) through November 1953, and during most of this period speculative activity also declined markedly. The decline in open contracts and speculative activity is a reflection in part of a large increase in stocks of cottonseed oil held under the price support program and a decrease in commercial stocks. As of November 1953, open contracts were far below the levels regarded as normal at the time the limits on trading and position were considered in Hearing Docket CE–P 8. A decrease in open contracts does not warrant an increase in the size of speculative trading and position limits, but in view of these recent patterns of trading and levels of speculative activity, such limits may appropriately be held in abeyance until such time as shall be fixed hereafter by the Commission pursuant to notice published in the FEDERAL REGISTER.

Conclusions. Upon the foregoing facts, it is concluded that the order issued by the Commodity Exchange Commission on January 16, 1953, effective April 1, 1953, in the matter of limits on position and daily trading in cottonseed oil for future delivery (Hearing Docket CE–P 8; 18 F. R. 443), should be and is hereby amended to read as follows:

§ 150.6 *Limits on position and daily trading in cottonseed oil for future delivery.* The following limits on the amount of trading under contracts of sale of cottonseed oil for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in cottonseed oil on or subject to the rules of any one contract market is 3,600,000 pounds in any one future or in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of cottonseed oil which any person may buy, and on the maximum amount which any person may sell, on or subject to the rules of any one contract market during any one business day is 3,600,000 pounds in any one future or in all futures combined.

(c) *Exemptions.* The foregoing limits upon position and upon daily trading shall not be construed to apply to:

(1) Bona fide hedging transactions, as defined in section 4a (3) of the Commodity Exchange Act (7 U. S. C. 6a (3));

(2) Transactions or net positions in cottonseed oil futures by a processor or merchandiser of or dealer in an edible fat or oil other than cottonseed oil, to the extent that the bona fide purpose and the reasonable effect of such transactions or positions are to offset the price risk incident to the ownership, purchase, or sale of such edible fat or oil, provided such price risk is not otherwise offset; nor

(3) Sales or net short positions (or the closing out thereof) by a processor of edible oil-bearing seeds or similar oil-bearing raw materials, to the extent that such sales or net short positions are offset in quantity by the oil content of such edible oil-bearing seeds or similar oil-bearing raw materials owned or purchased by such processor, provided the price risk incident to such ownership or purchase is not otherwise offset.

(d) *Manipulation; corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5 (d) of the Commodity Exchange Act (7 U. S. C. 7 (d)) to prevent manipulation and corners.

(e) *Definition.* As used in this section the word "person" includes individuals, associations, partnerships, corporations, and trusts.

(f) *Effective date.* The position and daily trading limits proclaimed and fixed in this section shall be in full force and effect on and after such date as shall hereafter be announced by the Commodity Exchange Commission, by notice published in the FEDERAL REGISTER at least 30 days prior to such effective date.

(Sec. 4a, 49 Stat. 1492; 7 U. S. C. 6a)

This amendment shall become effective January 22, 1954.

The effect of this amendment is to exempt additional transactions and positions from the limits on position and daily trading in cottonseed oil for future delivery and to suspend such limits until such date as shall hereafter be fixed by the Commission. Since the amendment will operate to relieve or liberalize existing restrictions and will not adversely affect the public, it is hereby found upon good cause, in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)), that the amendment should be made effective

within less than 30 days after publication in the FEDERAL REGISTER.

Issued this 22d day of January 1954.

COMMODITY EXCHANGE COMMISSION,
[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture, Chairman.
SINCLAIR WEEKS,
Secretary of Commerce.
HERBERT BROWNELL, JR.,
Attorney General.

[F. R. Doc. 54-539; Filed, Jan. 26, 1954; 8:49 a. m.]

[Hearing Docket CE-P 9]

PART 150—ORDERS OF THE COMMODITY EXCHANGE COMMISSION

LIMITS ON POSITION AND DAILY TRADING IN SOYBEAN OIL FOR FUTURE DELIVERY

Findings of fact. Pursuant to the provisions of section 4a of the Commodity Exchange Act (7 U. S. C. 6a), the Commodity Exchange Commission, after investigation and full consideration of the record made at a public hearing held in Washington, D. C., on May 25, and in Chicago, Ill., on July 13 and 14, 1953, of which due public notice had been given and at which all persons were given opportunity to hear, present, refute, and comment on the evidence in the premises, and after reconsideration of the record in Hearing Docket CE-P 8, and of the findings, conclusions, and order applicable to soybean oil issued by the Commission on January 16, 1953 (18 F. R. 444), finds:

(a) Except as specifically modified herein, the findings set forth in the order applicable to soybean oil, issued by the Commission on January 16, 1953 (Hearing Docket CE-P 8), are hereby confirmed;

(b) The record in Hearing Docket CE-P 9, the factual testimony of persons engaged in processing soybean oil, and the experience of the Commodity Exchange Authority in the enforcement of the order issued January 16, 1953 (Hearing Docket CE-P 8), indicate the existence of problems in the hedging use of edible fat and oil futures and in inventory accounting and management, which are peculiar to edible fats and oils and are not generally present in the enforcement of trading and position limits heretofore fixed by the Commission in respect to other commodities;

(c) Processors and merchandisers of and dealers in edible fats and oils under existing conditions do not always find their best opportunity to hedge in the futures of the particular fat or oil they desire to hedge and, therefore, find it necessary at times to hedge one fat or oil in the futures of a different fat or oil. Such transactions do not qualify as bona fide hedging transactions under the provisions of section 4a (3) of the Commodity Exchange Act. However, the Commodity Exchange Commission has wide discretion in fixing trading and position limits for different kinds of transactions and may exempt certain transactions from such limits;

(d) There is justification for the sale of, and a net short position in, soybean oil for future delivery on or subject to the rules of a contract market, by a processor of edible oil-bearing seeds or similar oil-bearing raw materials, to the extent that such sale, or net short position, is offset in quantity by the oil content of such edible oil-bearing seeds of similar oil-bearing raw materials owned or purchased by such processor, provided the price risk incident to such ownership or purchase is not otherwise offset;

(e) The limits on position and daily trading in soybean oil for future delivery proclaimed and fixed by the order of the Commission issued January 16, 1953, effective on and after April 1, 1953 (Hearing Docket CE-P 8), do not purport and are not required to be in amounts which precisely fit every situation at all times and under all conditions. Such limits are necessarily fitted to average conditions and normal expectancies, based on past experience, extent of market activity, and relationships between total open contracts and the portions thereof considered excessive for any one person to hold or control; and

(f) Open contracts in soybean oil futures on the two contract markets declined markedly during the period beginning with December 1952 (four months before the order became effective) through August 1953, and during this period speculative activity also showed a downward tendency. Open contracts have increased since August 1953, but as of November 1953 open contracts on both markets combined were appreciably below the levels in November of the three prior years, and on the Chicago Board of Trade were much below the levels which (with due allowance for a new and growing market) were regarded as normal at the time the limits on trading and position were considered in Hearing Docket CE-P 8. A decrease in open contracts does not warrant an increase in the size of speculative trading and position limits, but in view of these recent patterns of trading and levels of speculative activity, such limits may appropriately be held in abeyance until such time as shall be fixed hereafter by the Commission pursuant to notice published in the FEDERAL REGISTER.

Conclusions. Upon the foregoing facts, it is concluded that the order issued by the Commodity Exchange Commission on January 16, 1953, effective April 1, 1953, in the matter of limits on position and daily trading in soybean oil for future delivery (Hearing Docket CE-P 8; 18 F. R. 444), should be and is hereby amended to read as follows:

§ 150.7 *Limits on position and daily trading in soybean oil for future delivery.* The following limits on the amount of trading under contracts of sale of soybean oil for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in soybean oil on or subject to the rules of any one contract market is 3,000,000 pounds in any one future or in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of soybean oil which any person may buy, and on the maximum amount which any person may sell, on or subject to the rules of any one contract market during any one business day is 3,000,000 pounds in any one future or in all futures combined.

(c) *Exemptions.* The foregoing limits upon position and upon daily trading shall not be construed to apply to:

(1) Bona fide hedging transactions, as defined in section 4a (3) of the Commodity Exchange Act (7 U. S. C. 6a (3));

(2) Transactions or net positions in soybean oil futures by a processor or merchandiser of or dealer in an edible fat or oil other than soybean oil, to the extent that the bona fide purpose and the reasonable effect of such transactions or positions are to offset the price risk incident to the ownership, purchase, or sale of such edible fat or oil, provided such price risk is not otherwise offset; nor

(3) Sales or net short positions (or the closing out thereof) by a processor of edible oil-bearing seeds or similar oil-bearing raw materials, to the extent that such sales or net short positions are offset in quantity by the oil content of such edible oil-bearing seeds or similar oil-bearing raw materials owned or purchased by such processor, provided the price risk incident to such ownership or purchase is not otherwise offset.

(d) *Manipulation corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5 (d) of the Commodity Exchange Act (7 U. S. C. 7 (d)) to prevent manipulation and corners.

(e) *Definition.* As used in this section the word "person" includes individuals, associations, partnerships, corporations, and trusts.

(f) *Effective date.* The position and daily trading limits proclaimed and fixed in this section shall be in full force and effect on and after such date as shall hereafter be announced by the Commodity Exchange Commission, by notice published in the FEDERAL REGISTER at least 30 days prior to such effective date.

(Sec. 4a, 49 Stat. 1492; 7 U. S. C. 6a)

This amendment shall become effective January 22, 1954.

The effect of this amendment is to exempt additional transactions and positions from the limits on position and daily trading in soybean oil for future delivery and to suspend such limits until such date as shall hereafter be fixed by the Commission. Since the amendment will operate to relieve or liberalize existing restrictions and will not adversely affect the public, it is hereby found upon good cause, in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)), that the amendment should be made effective within less

than 30 days after publication in the FEDERAL REGISTER.

Issued this 22d day of January 1954.

[Hearing Docket CE-P 9]

PART 150—ORDERS OF THE COMMODITY EXCHANGE COMMISSION

LIMITS ON POSITION AND DAILY TRADING IN LARD FOR FUTURE DELIVERY

Findings of fact. Pursuant to the provisions of section 4a of the Commodity Exchange Act (7 U. S. C. 6a), the Commodity Exchange Commission, after investigation and full consideration of the record made at a public hearing held in Washington, D. C., on May 25, and in Chicago, Ill., on July 13 and 14, 1953, of which due public notice had been given and at which all persons were given opportunity to hear, present, refute, and comment on the evidence in the premises, and after reconsideration of the record in Hearing Docket CE-P 8, and of the findings, conclusions, and order applicable to lard issued by the Commission on January 16, 1953 (18 F. R. 444), finds:

(a) Except as specifically modified herein, the findings set forth in the order applicable to lard, issued by the Commission on January 16, 1953 (Hearing Docket CE-P 8), are hereby confirmed;

(b) The record in Hearing Docket CE-P 9, the factual testimony of persons engaged in processing lard, and the experience of the Commodity Exchange Authority in the enforcement of the order issued January 16, 1953 (Hearing Docket CE-P 8), indicate the existence of problems in the hedging use of edible fat and oil futures and in inventory accounting and management, which are peculiar to edible fats and oils and are not generally present in the enforcement of trading and position limits heretofore fixed by the Commission in respect to other commodities;

(c) Processors and merchandisers of and dealers in edible fats and oils under existing conditions do not always find their best opportunity to hedge in the futures of the particular fat or oil they desire to hedge and, therefore, find it necessary at times to hedge one fat or oil in the futures of a different fat or oil. Such transactions do not qualify as bona fide hedging transactions under the provisions of section 4a (3) of the Commodity Exchange Act. However, the Commodity Exchange Commission has wide discretion in fixing trading and position limits for different kinds of transactions and may exempt certain transactions from such limits;

(d) There is justification for the sale of, and a net short position in, lard for future delivery on or subject to the rules of a contract market, by a packer or processor of lard to the extent that such sale, or net short position, is offset in quantity by the lard yield of live or dressed hogs owned or purchased by such packer or processor, provided the price risk incident to such ownership or purchase is not otherwise offset;

(e) The limits on position and daily trading in lard for future delivery proclaimed and fixed by the order of the Commission issued January 16, 1953, effective on and after April 1, 1953, (Hearing Docket CE-P 8), do not purport and are not required to be in amounts which precisely fit every situation at all times and under all conditions. Such limits are necessarily fitted to average conditions and normal expectancies, based on past experience, extent of market activity, and relationships between total open contracts and the portions thereof considered excessive for any person to hold or control; and

(f) Open contracts in lard futures have shown a downward tendency during the period beginning with September 1952 (seven months before the order became effective) through November 1953, and during most of this period speculative activity was also reduced. As of November 1953, open contracts were far below the levels regarded as normal at the time the limits on trading and position were considered in Hearing Docket CE-P 8. A decrease in open contracts does not warrant an increase in the size of speculative trading and position limits, but in view of these recent patterns of trading and levels of speculative activity such limits may appropriately be held in abeyance until such time as shall be fixed hereafter by the Commission pursuant to notice published in the FEDERAL REGISTER.

Conclusions. Upon the foregoing facts, it is concluded that the order issued by the Commodity Exchange Commission on January 16, 1953, effective April 1, 1953, in the matter of limits on position and daily trading in lard for future delivery (Hearing Docket CE-P 8; 18 F. R. 444), should be and is hereby amended to read as follows:

§ 150.8 *Limits on position and daily trading in lard for future delivery.* The following limits on the amount of trading under contracts of sale of lard for future delivery on or subject to the rules of any contract market, which may be done by any person, are hereby proclaimed and fixed:

(a) *Position limit.* The limit on the maximum net long or net short position which any person may hold or control in lard on or subject to the rules of any one contract market is 1,600,000 pounds in any one future or in all futures combined.

(b) *Daily trading limit.* The limit on the maximum amount of lard which any person may buy, and on the maximum amount which any person may sell, on or subject to the rules of any one contract market during any one business day is 1,600,000 pounds in any one future or in all futures combined.

(c) *Exemptions.* The foregoing limits upon position and upon daily trading shall not be construed to apply to:

(1) Bona fide hedging transactions, as defined in section 4a (3) of the Commodity Exchange Act (7 U. S. C. 6a (3));

(2) Transactions or net positions in lard futures by a processor or merchandiser of or dealer in an edible fat or oil other than lard, to the extent that the bona fide purpose and the reasonable effect of such transactions or positions are to offset the price risk incident to the ownership, purchase, or sale of such edible fat or oil, provided such price risk is not otherwise offset; nor

(3) Sales or net short positions (or the closing out thereof) by a packer or processor of lard to the extent that such sales or net short positions are offset in quantity by the lard yield of live or dressed hogs owned or purchased by such packer or processor, provided the price risk incident to such ownership or purchase is not otherwise offset.

(d) *Manipulation; corners; responsibility of contract market.* Nothing contained in this section shall be construed to affect any provisions of the Commodity Exchange Act relating to manipulation or corners, nor to relieve any contract market or its governing board from responsibility under section 5 (d) of the Commodity Exchange Act (7 U. S. C. 7 (d)) to prevent manipulation and corners.

(e) *Definition.* As used in this section the word "person" includes individuals, associations, partnerships, corporations, and trusts.

(f) *Effective date.* The position and daily trading limits proclaimed and fixed in this section shall be in full force and effect on and after such date as shall hereafter be announced by the Commodity Exchange Commission, by notice published in the FEDERAL REGISTER at least 30 days prior to such effective date.

(Sec. 4a, 49 Stat. 1492; 7 U. S. C. 6a)

This amendment shall become effective January 22, 1954.

The effect of this amendment is to exempt certain transactions and positions from the limits on position and daily trading in lard for future delivery and to suspend such limits until such date as shall hereafter be fixed by the Commission. Since the amendment will operate to relieve or liberalize existing restrictions and will not adversely affect the public, it is hereby found upon good cause, in accordance with section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)), that the amendment should be made effective within less than 30 days after publication in the FEDERAL REGISTER.

Issued this 22d day of January, 1954.

COMMODITY EXCHANGE COMMISSION,
[SEAL] EZRA TAFT BENSON,
Secretary of Agriculture, Chairman.
SINCLAIR WEEKS,
Secretary of Commerce.
HERBERT BROWNELL, JR.,
Attorney General.

[F. R. Doc. 54-538; Filed, Jan. 26, 1954; 8:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 862—AIR FORCE RESERVE OFFICERS' TRAINING CORPS

DEFERMENT FROM INDUCTION FOR AIR FORCE ROTC STUDENTS UNDER THE UNIVERSAL MILITARY TRAINING AND SERVICE ACT

Sections 862.76 to 862.88 (32 CFR 862.76 to 862.88) are revoked and the following new sections are issued in lieu thereof:

Sec.
862.76 Purpose.
862.77 Policy.
862.78 Definitions.
862.79 General information.
862.80 Deferment quotas.
862.81 Selection of students for deferment.
862.82 Obligation of students.
862.83 Period of deferment.
862.84 Preparation of AF Form 1041.
862.85 Cancellation of deferment.
862.86 Notification of local boards.
862.87 Concurrent membership in the Reserve of the Armed Forces and the Air Force ROTC.

AUTHORITY: §§ 862.76 to 862.87 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply secs. 3, 6, 12, 62 Stat. 605, 609, 622, as amended; 50 U. S. C. App., 453, 456, 462.

SOURCE: AFR 45–52.

§ 862.76 *Purpose.* Sections 862.76 to 862.87 prescribe the procedure by which certain members of the Air Force Reserve Officers' Training Corps (ROTC) may be deferred from induction under the Universal Military Training and Service Act (62 Stat. 604, as amended, 50 U. S. C. App., 451–470).

§ 862.77 *Policy.* The Air Force ROTC deferment procedure is designed solely to enable selected members of the Air Force ROTC to qualify for appointment as commissioned officers of a component of the Air Force through uninterrupted completion of academic and military courses. The Air Force will not select for deferment a student who cannot ultimately qualify for a commissioned appointment through enrollment and training afforded by the Air Force ROTC, or who evidences lack of desire to become an officer of the Air Force.

§ 862.78 *Definitions.* Except where specifically stated otherwise, the following definitions will apply:

(a) *Advanced course.* Includes the Air Force ROTC camp prescribed by the law.

(b) *In good standing.* Refers to student status which meets or exceeds minimum institutional retention standards. A student is "in good standing" if he is so certified by the registrar of the institution in which he is enrolled.

(c) *PAST.* Professor of air science and tactics.

(d) *Authorized periods of nonattendance.* Refers to:

(1) Regularly scheduled vacation periods.

(2) Periods of sick leave authorized by the PAST.

(3) Periods of leave from the military course of instruction when authorized by the Commandant, Air Force ROTC.

(4) Periods of regularly scheduled on-the-job training under a cooperative plan.

(5) Periods of nonattendance between completion of the Air Force ROTC program and completion of the academic course, when authorized by the Commandant, Air Force ROTC.

(e) *Commandant, Air Force ROTC.* A commander subordinate to the Commander, Air University, responsible for the field activities of the Air Force ROTC program.

(f) *Between the ages of 18 and 26.* Refers to persons who have attained the 18th anniversary of the date of their birth, and who have not attained the 26th anniversary of the date of their birth.

(g) *Deferment.* Deferment from induction and does not include or imply a delay in reporting for active military service pursuant to orders or call to such service where the student is concurrently a member of a Reserve component of the Air Force (Air National Guard of the United States or Air Force Reserve). Enrollment in the Air Force ROTC or deferment from induction under §§ 862.76 to 862.87 do not in themselves establish status as a member of a component of the Air Force.

§ 862.79 *General information.* (a) To be deferred from induction, Air Force ROTC students selected for enrollment or continuance in the ROTC program within numbers prescribed by the Secretary of Defense must agree in writing to accept a commission, if tendered, and subsequent to receipt of such commission, to serve, subject to the order of the Secretary of the Air Force, for not less than 2 years on active duty, and to remain a member of a Regular or Reserve component until the eighth anniversary of the receipt of commission.

(b) Students enrolled in the Air Force ROTC who desire to execute a deferment agreement will have explained to them by the professor of air science and tactics or designated officer representative the obligations which they will incur under the Universal Military Training and Service Act.

(c) Air Force ROTC students granted deferment from induction by the Selective Service System will be required to register under section 3 of the Universal Military Training and Service Act (sec. 3, 62 Stat. 605, as amended; 50 U. S. C. App., 453), if between the ages of 18 and 26, on the day or days proclaimed by the President.

§ 862.80 *Deferment quotas.* Air Force ROTC students may be selected for deferment by the PAST within the limiting numbers specified by the Department of the Air Force in accordance with instructions issued for that purpose. Specific deferment quotas will be allotted by Headquarters Air Force ROTC.

§ 862.81 *Selection of students for deferment.* (a) *By PAST.* To be deferred from induction under section 6 (d) (1) of the Universal Military Training and Service Act (sec. 6 (d) (1), 62 Stat. 611, as amended; 50 U. S. C. App., 456), the student must be selected for deferment by the PAST.

(b) *Establishment of boards.* The PAST, in conjunction with the institutional authorities, will establish a board or boards which will recommend to the PAST students for deferment. Each board will be composed of not less than three members and will include representatives of the Air Force and academic faculties. The academic faulty will not constitute a majority of the board.

(c) *Air Science I enrollees.* Air Science I fall enrollees will not be deferred prior to February 16. Midyear Air Science I enrollees will not be deferred until after the completion of one academic semester or quarter at the institution, and only after the PAST has verified the students' academic and Air Force ROTC grades to determine that they meet the acceptable standards.

(d) *Redeferments.* Students who were deferred and whose deferments were subsequently canceled are not again eligible for deferment under §§ 862.76 to 862.87 without the approval of the Commandant, Air Force ROTC, in each individual instance. In submitting requests for redeferment authorization, PASTs will provide a transcript of the applicant's academic and military course record, letters attesting to the status of the applicant in the institution and the Air Force ROTC program, and a chronological brief of his academic, Air Force ROTC, and Selective Service relationships.

§ 862.82 *Obligation of student.* (a) All students accepted for formal enrollment in the Air Force ROTC course are required to execute AF Form 1041, "Deferment Agreement," prior to signing an advanced course contract, unless, because of prior active military service, they are not liable for induction under the Universal Military Training and Service Act.

(b) Students who sign AF Form 1041 agree to:

(1) Complete the basic course, if enrolled therein, and at the proper time enroll in and complete the advanced course, if accepted therefor.

(2) Accept appointment as a commissioned officer in a component of the Air Force, if tendered.

(3) Serve on active duty for a period of not less than 2 years after receipt of commission, if so ordered by the Secretary of the Air Force.

(4) Remain a member of a Regular or Reserve component of the Air Force of which he becomes a member until the eighth anniversary of receipt of commission.

(c) A student, otherwise currently liable for induction under existing law, who voluntarily signs AF Form 1041, is bound by the provisions of the deferment agreement and, upon failure or refusal to fulfill the terms of that agreement, may be subject to prosecution as prescribed in section 12 of the Universal Military Training and Service Act (sec. 12, 62 Stat. 622, 50 U. S. C. App., 462).

(d) Students permitted to pursue Air Force ROTC training as informally enrolled students are not eligible for deferment under section 6 (d) (1) of the Universal Military Training and Service Act (sec. 6 (d) (1), 62 Stat. 611, as amended; 50 U. S. C. App., 456).

§ 862.83 *Period of deferment.* (a) Students selected for deferment may be deferred from induction for training and service under the Universal Military Training and Service Act until completion of the unfinished portion of both the Air Force ROTC course and the academic course required for a commission, provided that they remain in good standing in academic courses, satisfy Air Force ROTC standards, and their attendance is continuous except for authorized periods of nonattendance as outlined in § 862.78 (d).

(b) Students who complete Air Science IV (including Air Force ROTC camp training) prior to completion of the educational course will continue to be deferred from induction pending completion of the educational course, provided that they meet the requirements of paragraph (a) of this section. When a student is permitted to transfer to a new academic course, and when such transfer will result in the extension of the period of instruction beyond the normal date of completion of the original course, his deferment may be extended, at the discretion of the Commandant, Air Force ROTC, for not more than one year beyond the normal date of completion of the original course. Students in both of these categories will be charged against the quota allocated the unit.

(c) Students who have been authorized by the Commandant, Air Force ROTC to postpone attendance of the Air Force ROTC camp will be deferred from induction pending completion of camp training. Postponement of Air Force ROTC camp attendance beyond the summer following completion of academic work will not be authorized and the deferment of students who cannot complete camp during the specified period will be canceled.

(d) PASTs will maintain strict control over deferments. All allocated deferment spaces will, at the end of each semester or quarter, be reviewed to ascertain whether each student is entitled to continuance of his deferment.

§ 862.84 *Preparation of AF Form 1041.* (a) AF Form 1041 will be prepared in triplicate and distributed as follows:

(1) The original and first carbon will be retained by the PAST. Final disposition of the original will be made as indicated in paragraph (b) of this section.

(2) The second carbon will be furnished the student concerned.

(b) The PAST will retain the original until the student makes application for appointment as a commissioned officer, or until his status as a member of the Air Force ROTC is terminated. If the student successfully completes all requirements for appointment, the original of the agreement will be attached to AF Form 24, "Application for Appointment in the Air Force Reserve," at the time the application is forwarded to Headquarters Air Force ROTC. If the status of the student as a member of the Air Force ROTC is terminated, the original of the agreement will be retained as part of the student's file at the institution AF Form 1041 will not be forwarded to Selective Service System boards.

(c) The student will sign the agreement in ink, and fill in the local board number and address with pencil. The PAST will insure that the current number and address of the local board is on the agreement at the time the original copy is attached to AF Form 24.

(d) Locally reproduced forms that have been previously accomplished will continue in force.

§ 862.85 *Cancellation of deferment.* (a) The deferment granted any student under section 6 (d) (1) of the Universal Military Training and Service Act (sec. 6 (d) (1), 62 Stat. 611, as amended; 50 U. S. C. App., 456) will be canceled, and he will immediately become subject to induction (unless exempted or deferred under the Universal Military Training and Service Act) if the student:

(1) Ceases to be a formally enrolled student of the Air Force ROTC.

(2) Fails to remain in good standing in his academic courses and to satisfy the Air Force ROTC standards.

(3) Fails to demonstrate that further instruction will qualify him for a commissioned appointment.

(4) Declines or fails to accept a commissioned appointment as a Reserve of the Air Force, if and at the time tendered.

(5) Is not tendered a commissioned appointment as a Reserve of the Air Force upon graduation because of limitations on appointments prescribed by current regulations and directives. The deferment will be canceled not later than 60 days after the date of graduation.

(b) PASTs will, in addition to action directed in § 862.88 (b), inform any student whose deferment is canceled under paragraph (a) of this section, of the provisions of section 6 (h) of the Universal Military Training and Service Act (sec. 6 (h), 62 Stat. 611, as amended; 50 U. S. C. App., 456). That reference provides that registrants who, on June 19, 1951, were then or thereafter deferred under section 6 of the Universal Military Training and Service Act (62 Stat. 609, as amended; 50 U. S. C. App., 456) will remain liable for training and service in the Armed Forces until the 35th anniversary of the date of birth.

§ 862.86 *Notification of local boards.* (a) When a student has signed a deferment agreement, the PAST will immediately furnish the local Selective Service System board concerned a statement of the student's deferment status. Paragraph 6 of DD Form 44, "Military Status of Individual," will be used for this purpose, and copies will be distributed as follows:

(1) Original to the appropriate local board.

(2) Duplicate to the student concerned.

(3) Triplicate to be retained in the Air Force ROTC unit file.

(4) Quadruplicate, when applicable, to the unit commander or the custodian of the person's records when the person concerned is concurrently a member of a Reserve component.

(b) Change of status of a student, after submission of original status notification, will be reported by the PAST to the local Selective Service System board concerned, within 72 hours, following the distribution procedure used for the original report. Paragraphs 8 and 9, DD Form 44, will be used for reporting changes of status when a student becomes ineligible for an Air Force ROTC deferment. Paragraphs 8 and 10, DD Form 44, will be used to report the appointment of an Air Force ROTC graduate as a commissioned officer. The "Remarks" section will be used when necessary for clarification of change of status.

(c) It is the responsibility of the Air Force ROTC student who is deferred under §§ 862.76 to 862.87 to inform the PAST of the number and address of his local Selective Service System board, and to inform the board concerned of his Air Force ROTC deferment status.

(d) If a local board fails or refuses to honor DD Form 44 for any member of the Air Force ROTC, The Director of Personnel Procurement and Training, Headquarters USAF, Washington 25, D. C., will be advised of all pertinent facts of the case.

(e) When a formally enrolled Air Force ROTC student transfers to another institution having an Air Force ROTC unit, the following procedures will apply:

(1) The student will notify the PAST of the losing institution of his intention to transfer.

(2) As soon as the student has registered at the gaining institution and has been regularly enrolled in the appropriate air science course, the gaining PAST will notify the losing PAST that:

(i) The student is regularly enrolled in the Air Force ROTC.

(ii) The new DD Form 44 has been sent to the student's local Selective Service System board.

(3) The losing PAST will then drop the student from accountability.

(4) The losing PAST will cancel the deferment of all nonenrolled students at his institution not later than October 15 after the fall enrollment and March 15 after the spring enrollment.

§ 862.87 *Concurrent membership in the Reserve of the Armed Forces and the Air Force ROTC.* (a) Enlisted members and warrant officers of the National Guard of the United States, Air National Guard of the United States, Army Reserve, Naval Reserve, Marine Corps Reserve, Air Force Reserve, or Coast Guard Reserve, who are otherwise qualified and who are not in the active military service, may be enrolled in the basic course of the Air Force ROTC and may be selected for deferment on the same basis as any other eligible member of the student body. Such persons are not exempt, however, from call or order to active military service as members of a Reserve component under other provisions of applicable law.

(b) Members of Reserve components of other services may be selected for enrollment in the advanced course, Air Force ROTC, but may not be formally enrolled, or selected for deferment, under §§ 862.76 to 862.87 until they have been discharged from such membership or transferred to the Air Force Reserve.

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

WATERMELONS

U. S. STANDARDS [1]

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised United States Standards for Watermelons under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953) to supersede the existing United States Standards for Watermelons (16 F. R. 10331, as recodified in 18 F. R. 7146), effective February 12, 1945.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t. on the thirtieth day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

Sec.

51.1970 U. S. No. 1.
51.1971 U. S. Commercial.
51.1972 U. S. No. 2.

UNCLASSIFIED

51.1973 Unclassified.

APPLICATION OF TOLERANCES

51.1974 Application of tolerances.

51.1975 Size.

DEFINITIONS

51.1976 Mature.
51.1977 Fairly well formed.
51.1978 Damage.
51.1979 Free from damage by anthracnose.
51.1980 Not badly misshapen.
51.1981 Serious damage.

GRADES

§ 51.1970 *U. S. No. 1.* U. S. No. 1 consists of watermelons of similar varietal characteristics which are mature but not overripe, fairly well formed, and which are free from anthracnose, decay, sunscald and free from damage caused by other diseases, sunburn, hail, scars, insects, hollow heart, whiteheart or mechanical or other means. (See §§ 51.1974 and 51.1975.)

(a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent, by count, of the watermelons in any lot may fail to meet the requirements of this grade: *Provided*, That not more than one-half of this amount, or 5 percent, may be badly misshapen, or seriously damaged by any means, including therein not more than 1 percent for decay.

§ 51.1971 *U. S. Commercial.* U. S. Commercial consists of watermelons which meet all the requirements of U. S. No. 1 grade except for anthracnose spots. In this grade each watermelon shall be free from damage by anthracnose. (See §§ 51.1974 and 51.1975.)

(a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent, by count, of the watermelons in any lot may fail to meet the requirements of this grade: *Provided*, That not more than one-half of this amount, or 5 percent, may be badly misshapen or seriously damaged by any means, including therein not more than 1 percent for decay.

§ 51.1972 *U. S. No. 2.* U. S. No. 2 consists of watermelons of similar varietal characteristics which are mature but not overripe; which are not badly misshapen and which are free from decay, sunscald and free from serious damage caused by anthracnose, other diseases, sunburn, hail, scars, insects, hollow heart, whiteheart or mechanical or other means. (See §§ 51.1974 and 51.1975.)

(a) In order to allow for variations incident to proper grading and handling, not more than a total of 10 percent, by count, of the watermelons in any lot may fail to meet the requirements of this grade: *Provided*, That not more than one-tenth of this amount, or 1 percent, shall be allowed for decay.

UNCLASSIFIED

§ 51.1973 *Unclassified.* Unclassified consists of watermelons which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards, but is provided as a designation to show that no grade has been applied to the lot.

APPLICATION OF TOLERANCES

§ 51.1974 *Application of tolerances.* (a) When packed in crates or other types of containers the contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade:

(1) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, except that when the package contains 15 specimens or less, individual packages may contain not more than double the tolerance specified; and,

(2) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one specimen which does not meet the requirements shall be allowed in any package.

SIZE

§ 51.1975 *Size.* (a) Where the size of watermelons is stated in terms of average weight, unless otherwise specified, the melons in any lot averaging less than 30 pounds shall not vary more than 4 pounds below the stated average, and the melons in any lot averaging 30 pounds or more shall not vary more than 6 pounds below the stated average. Size may also be stated in terms of minimum weight, or minimum and maximum weights.

TABLE OF WEIGHTS

Average weight	Minimum weight [2] (unless otherwise specified)	Tolerance permitted for melons below the minimum weight
Pounds	*Pounds*	*Percent*
20	16	5
22	18	5
24	20	5
26	22	5
28	24	5
30	26	5
32	28	5
34	30	5
36	32	5
40	34	5
42	36	5

(b) In order to allow for variations, incident to proper sizing, not more than 5 percent, by count, of the watermelons in any lot may be below the minimum size requirements: *Provided*, That when minimum and maximum weights are specified, not more than 5 percent, by count, may be below the specified minimum weight and not more than 5 percent, by count, may be above the specified maximum weight.

DEFINITIONS

§ 51.1976 *Mature.* "Mature" means that the melon has reached the stage of development at which the flesh is at least fairly sweet and shows characteristic color of a mature melon for the variety.

§ 51.1977 *Fairly well formed.* "Fairly well formed" means having the characteristic shape but not necessarily the perfect type of the variety.

§ 51.1978 *Damage.* "Damage" means any defect which materially affects the appearance or the edible or shipping quality of the melon. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Sunburn when affecting the appearance to a greater extent than 9 square inches of greenish-yellow sunburn on a 30-pound melon.

(b) Hail, scars and other external defects, except anthracnose, when affecting the appearance to a greater extent than 9 square inches of greenish-yellow sunburn on a 30-pound melon; and,

(c) Hollow heart when the internal appearance is affected to a greater extent than that of a 30-pound, long type melon having cracks which aggregate three-fourths inch in width, or that of a 30-pound, round type melon having cracks which aggregate 1¼ inches in width.

§ 51.1979 *Free from damage by anthracnose.* "Free from damage by anthracnose" means that each melon may have not more than 5 anthracnose spots which are not cracked or sunken below the contour of the surface of the melon.

§ 51.1980 *Not badly misshapen.* "Not badly misshapen" means that the melons are not bottlenecks or gourdnecks, but may be tapered at the ends or slightly constricted.

§ 51.1981 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance or the edible quality of the melon. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Anthracnose when there are more than 15 anthracnose spots, or when any spot is cracked or sunken below the contour of the surface of the melon;

(b) Sunburn when affecting the appearance to a greater extent than 20 square inches of greenish-yellow sunburn on a 30-pound melon;

(c) Hail, scars and other external defects, except anthracnose, when affecting the appearance to a greater extent than 20 square inches of greenish-yellow sunburn on a 30-pound melon; and,

(d) Hollow heart when the internal appearance is affected to a greater extent than that of a 30-pound, long type melon having cracks which aggregate 1½ inches in width, or that of a 30-pound, round type melon having cracks which aggregate 2½ inches in width.

Done at Washington, D. C., this 20th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[7 CFR Part 51]

FRUITS, VEGETABLES AND OTHER PRODUCTS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of existing regulations (18 F. R. 7065) governing the inspection and certification of fresh fruits and vegetables and other products issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.) and the Department of Agriculture Appropriation Act of 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed revision should file same in duplicate, with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revisions are as follows:

1. Delete § 51.37 *Basis for charges* and insert in lieu thereof the following:

§ 51.37 *Basis for charges.* (a) The fee for each lot of products inspected by a salaried inspector acting exclusively for the Department of Agriculture, except for peanuts, pecans and other nuts, shall be on the following basis:

For an inspection covering quality and condition $12.00 when the quantity involved is more than one-half of a carload of the customary size for such products in the area from which shipped but not more than a full carload, and $8.00 when the quantity involved is not more than one-half of such carload, but the maximum fee for any carload not exceeding the customary size which contains more than one kind of a product shall be $24.00. For an inspection covering condition only, $10.00 when the quantity involved is more than one-half of carload of the customary size for such products in the area from which shipped but not more than a full carload, and $6.00 when the quantity involved is not more than one-half of such carload, but the maximum fee for condition only inspection of any carload not exceeding the customary size which contains more than one kind of a product shall be $20.00.

(b) For each lot of peanuts, pecans, or other nuts inspected, except pursuant to the provisions in § 51.19, the fee shall be $15.00 when the quantity involved is not more than a full carload; *Provided*, That the different grades and varieties of peanuts shall be considered separate lots and the fee for farmers' stock peanuts (unshelled) shall be $1.50 per ton.

(c) When any lot involved is in excess of a carload the quantity shall be calculated in terms of carloads and fractions thereof of the customary size for such carloads and carload rates aforesaid applied: *Provided*, That said fractions shall be calculated in terms of fourths or next higher fourths. When inspections are made on which formal certificates are not issued, as provided in § 51.19, or when the products inspected cannot readily be calculated in terms of carlots, or when the services rendered are such that a charge on the carlot basis would be inadequate or inequitable, charges for inspection may be based on the time consumed by the inspector in connection with such inspections, computed at the rate of $4 per hour, or the charges may be based upon the number of pounds or number of containers in the lot inspected, if such charges are in substantial conformity with the hourly or carload rate.

2. Delete § 51.40 *Fees for appeal inspections* and insert in lieu thereof the following:

§ 51.40 *Fees for appeal inspections.* Fees for appeal inspections on all products shall be double those for original inspections, except that when it is found that there was a material error in the determination based upon the original inspection no fee will be charged, and except that appeal inspection for Government agencies shall be on the hourly basis prescribed in § 51.37, plus traveling and other expenses authorized to be charged by the provisions in § 51.41. The maximum fee for the appeal inspection of a single car shall not exceed $30.00.

3. Delete § 51.42 *Fees for additional copies of inspection certificates*, and insert thereof, the following:

§ 51.42 *Fees for additional copies of inspection certificates.* Additional copies of any inspection certificate other than those provided for in § 51.21, may be supplied to any interested party upon payment of a fee of $2.00 for each set of 3 or less copies.

Done at Washington, D. C., this 22d day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 52]

PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of existing regulations (18 F. R. 7904) governing the inspection and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621, et seq.), and the Department of Agriculture Appropriation Act of 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed revision should file same in duplicate, with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revisions in the regulations are as follows:

1. Delete paragraph (o) of § 52.3 *Terms defined* and insert in lieu thereof the following:

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[1] Among such other products are the following: Raw nuts; Christmas trees and greens, flowers and flower bulbs; and onion sets.

[1] Among such other processed food products are the following: Honey; molasses, except for stock feed; nuts and nut products, except oil; sugar (cane, beet and maple); sirups (blended), sirups, except from grain; marine food products, except oil.

(o) "Lot" has the following meanings:

(1) For the purpose of charging fees and issuing certificates, "Lot" means any number of containers of the same size and type which contain a processed product of the same type and style located in the same or adjacent warehouses and which are available for inspection at any one time: *Provided*, That:

(i) Processed products in separate piles which differ from each other as to grade or other factors may be deemed to be separate lots;

(ii) Containers in a pile bearing an identification mark different from other containers of such processed product in that pile, if determined to be of lower grade or deficient in other factors, may be deemed to be a separate lot; and

(iii) If the applicant requests more than one inspection certificate covering different portions of such processed product, the quantity of the product covered by each certificate shall be deemed to be a separate lot.

(2) For the purpose of sampling, "Lot" means each pile of containers of the same size and type containing a processed product of the same type and style which is separated from other piles in the same warehouse, but containers in the same pile bearing an identification mark different from other containers in that pile may be deemed to be a separate lot.

2. Delete paragraph (n) of § 52.3 *Terms defined* and insert in lieu thereof the following:

(n) "Licensed sampler" means any person who is authorized by the Secretary to draw samples of processed products for inspection service, to inspect for identification and condition of containers in a lot, and may, when authorized by the Administrator, perform related services under the act and the regulations in this part.

3. Delete § 52.6 *How to make application* and insert in lieu thereof the following:

§ 52.6 *How to make application.* An application for inspection service may be made to the office of inspection or to any inspector, at or nearest the place where the service is desired. An up-to-date list of the Inspection Field Offices of the Department may be obtained upon request to the Administrator. Satisfactory proof that the applicant is an interested party shall be furnished.

4. Delete § 52.29 *Who may become licensed sampler* and insert in lieu thereof the following:

§ 52.29 *Who may become licensed sampler.* Any person deemed to have the necessary qualifications may be licensed as a licensed sampler to draw samples for the purpose of inspection under the regulations in this part. Such a license shall bear the printed signature of the Secretary, and shall be countersigned by an authorized employee of the Department. Licensed samplers shall have no authority to inspect processed products under the regulations in this part except as to identification and condition of the containers in a lot. A licensed sampler shall perform his duties pursuant to the regulations in this part as directed by the Administrator.

5. Delete § 52.30 *Application to become a licensed sampler* and insert in lieu thereof the following:

§ 52.30 *Application to become a licensed sampler.* Application to become a licensed sampler shall be made to the Administrator on forms furnished for that purpose. Each such application shall be signed by the applicant in his own handwriting, and the information contained therein shall be certified by him to be true, complete, and correct to the best of his knowledge and belief, and the application shall contain or be accompanied by:

(a) A statement showing his present and previous occupations, together with names of all employers for whom he has worked, with periods of service, during the ten years previous to the date of his application;

(b) A statement that, in his capacity as a licensed sampler, he will not draw samples from any lot of processed products with respect to which he or his employer is an interested party;

(c) A statement that he agrees to comply with all terms and conditions of the regulations in this part relating to duties of licensed samplers; and

(d) Such other information as may be requested.

5. Delete Tables No. 1 and No. III of § 52.38 *Sampling rates for officially drawn samples* and insert in lieu thereof the following:

TABLE I—CANNED FRUITS AND VEGETABLES AND CANNED FRUIT AND VEGETABLE PRODUCTS, INCLUDING TOMATO PRODUCTS AND SUCH PRODUCTS AS PEANUT BUTTER, PICKLES, RELISHES, MARMALADES, HONEY,[1] MAPLE SYRUP, FRUIT PULPS AND JAMS, EXCEPT SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES AND FRUIT JELLIES AND VINEGAR

Size and type of container	Minimum rate of sampling, from lots containing—				
	1 to 600 dozen	601 to 2,000 dozen	2,001 to 4,000 dozen	4,001 to 8,000 dozen	Exceeding 8,000 dozen
Any type of container of less volume than a No. 300 size can (300 x 407).	1 container for each 1,200 cans or fraction thereof but not less than 2.	1 container for each 2,400 cans or fraction thereof but not less than 6.	1 container for each 4,000 containers or fraction thereof but not less than 10.	1 container for each 4,800 containers or fraction thereof but not less than 12.	1 container for each 6,000 containers or fraction thereof but not less than 30.
	1 to 100 cases	101 to 200 cases	201 to 500 cases	501 to 2,000 cases	2,001 to 5,000 cases	Exceeding 5,000 cases
Any type of container of a volume equal to that of a No. 300 size can (300 x 407) or greater, but not exceeding that of a No. 3 cylinder size can (401 x 700).	2	4	6	1 container for each 2,000 containers or fraction thereof but not less than 6.	1 container for each 2,400 containers or fraction thereof.[2]	1 container for each 3,000 containers or fraction thereof.[2]
Any type of container of a volume exceeding that of a No. 3 cylinder size can (404 x 700) but not exceeding that of a No. 12 size can (603 x 812).	2	3	4	1 container for each 1,000 containers or fraction thereof but not less than 6.	1 container for each 1,200 containers or fraction thereof.[2]	1 container for each 1,500 containers or fraction thereof.[2]
	1 to 100 containers	101 to 200 containers	201 to 500 containers	Exceeding 500 containers		
Any type of container of a volume exceeding that of a No. 12 size can (603 x 812) but not containing more than 5 gallons of the product.	1 sample from each of 6 percent of the containers but in no case less than 2 samples.	1 sample from each of 4 percent of the containers but in no case less than 6.	1 sample from each of 3 percent of the containers but in no case less than 8.	1 sample from each of 2 percent of the containers but in no case less than 12.		
	1 to 20 containers	21 to 100 containers	101 to 200 containers	Exceeding 200 containers		
Any type of container containing more than 5 gallons of the product.	1 sample from each of 25 percent of the containers but in no case less than 2 samples.	1 sample from each of 10 percent of the containers but in no case less than 6.	1 sample from each of 8 percent of the containers but in no case less than 10.	1 sample from each of 6 percent of the containers but in no case less than 16.		

[1] Except when packed in containers larger than a No. 12 (603 x 812) size can.

[2] In no case shall the number of samples be less than the maximum number specified for the immediately preceding smaller group of containers.

TABLE III—FROZEN FRUITS AND VEGETABLES AND FROZEN FRUIT AND VEGETABLE PRODUCTS, EXCEPT FROZEN SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES

Size and type of container	Minimum rate of sampling,[1] from lots containing—				
	1,000 pounds or less	1,001–5,000 pounds	5,001–10,000 pounds	10,001 to 50,000 pounds	Exceeding 50,000 pounds
Any type of container of 1 pound or less net weight.	2	4	6	1 container for each 2,400 containers or fraction thereof but not less than 6.	1 container for each 3,000 containers or fraction thereof.[2]
Any type of container over 1 pound but less than 4 pounds, net weight.	2	3	4	1 container for each 1,600 containers or fraction thereof but not less than 4.	1 container for each 2,000 containers or fraction thereof.[2]
Any type of container over 4 pounds but not over 10 pounds, net weight.	2	2	3	1 container for each 1,200 containers or fraction thereof but not less than 3.	1 container for each 1,500 containers or fraction thereof.[2]
Frozen vegetables only: Any type of container over 10 pounds, net weight.	One 2-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus one additional 2-pound sample for each additional 5,000 pounds, or fraction thereof, in excess of 18,000 pounds, but in no case less than 2 samples.				
Frozen fruits only: Any type of container over 10 pounds.	One 3-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus one additional 3-pound sample for each additional 5,000 pounds, or fraction thereof, in excess of 18,000 pounds, but in no case less than 2 samples. When determined by the inspector that 3-pound samples do not reflect the quality of the product in the container one or more entire containers may be substituted for any one or more sub-samples.				

[1] In no case shall the number of samples be less than the maximum specified for the immediately preceding smaller group of containers.

6. Add to § 52.38 *Sampling rates for officially drawn samples* the following new Table No. VII:

TABLE VII—HONEY WHEN PACKED IN CONTAINERS OF A VOLUME EXCEEDING THAT OF A NO. 12 SIZE CAN (603 X 812) BUT NOT CONTAINING MORE THAN 70 GALLONS OF THE PRODUCT

Minimum rate of sampling—Size of lot				
10 containers or less	11 to 100 containers	101 to 200 containers	201 to 500 containers	Exceeding 500 containers
1 sample from each 50 percent of the containers.	1 sample from each of 5 containers and in addition one sample from each 5 percent of the containers.	1 sample from each of at least 10 containers and in addition one sample from each of 3 percent of the containers.	1 sample from each of at least 15 containers and in addition 1 sample from each of 1 percent of the containers.	1 sample from each of 3 percent of the containers but in no case less than 20 samples.

7. Delete § 52.42 *Schedule of fees* and insert in lieu thereof the following:

§ 52.42 *Schedule of fees.* (a) Unless otherwise provided in a written agreement between the applicant and the Administrator, the fees to be charged and collected for any inspection service performed under the regulations in this part at the request of the United States, or any agency or instrumentality thereof, shall be at the rate of $4.00 per hour.

(b) Unless otherwise provided in the regulations in this part, the fees to be charged and collected for any inspection service performed under the regulations in this part shall be based on the applicable rates specified in this section.[1]

(1) *Canned fruits and vegetables and canned fruit and vegetable products, including pickles, relishes, jams, jellies, marmalades, and concentrate; and other canned processed food products, such as peanut butter, honey, and maple sirup.*

OFFICIALLY DRAWN SAMPLES

For each lot packed in containers of a volume not exceeding that of a No. 12 size can (603 x 812) except canned pineapple and canned pineapple juice inspected in Puerto Rico:

Minimum fee for 600 cases or less[2]	$8.00
For each additional 100 cases, or fraction thereof, in excess of 600 cases but not in excess of 10,000 cases	.90
For each additional 100 cases, or fraction thereof, in excess of 10,000 cases	.80

For each lot of canned pineapple and canned pineapple juice inspected in Puerto Rico:

The fee for each case of 24 containers or less	$0.015
The fee for each case of more than 24 containers	.020
The minimum fee for any lot	6.00

For each lot of honey packed in containers of a volume exceeding that of a No. 12 size can (603 x 812), the fee for sampling and inspecting the samples shall be in accordance with the following schedule:

(a) For sampling the honey, including travel time, per hour	$4.00
(b) For inspection—each sample	.75
(c) For liquefying crystallized or partially crystallized honey for any one applicant at any one time—each group of 15 samples or fraction thereof	4.00
(d) Minimum fee for any lot	8.00

UNOFFICIALLY DRAWN SAMPLES

For containers of a volume not exceeding that of a No. 3 size can (404 x 414):

Minimum fee for 4 containers or less	$4.00
For each additional container in excess of 4 containers	1.00

For containers of a volume exceeding that of a No. 3 size can (404 x 414), but not exceeding that of a No. 12 size can (603 x 812):

Minimum fee for 2 containers or less	$4.00
For each additional container in excess of 2 containers	2.00

(2) *Frozen fruits and vegetables and frozen fruit and vegetable products.*

OFFICIALLY DRAWN SAMPLES

For each lot other than frozen corn-on-the-cob or when inspected in Puerto Rico:

Minimum fee for 10,000 pounds or less	[1] $8.00
For each additional 5,000 pounds or fraction thereof, in excess of 10,000 pounds but not in excess of 100,000 pounds	[1] 2.25
For each additional 5,000 pounds, or fraction thereof, in excess of 100,000 pounds	[1] 2.00

For each lot inspected in Puerto Rico:

Minimum fee for 10,000 pounds or less	$7.20
For each additional 5,000 pounds, or fraction thereof, in excess of 10,000 pounds	2.40

For each lot of frozen corn-on-the-cob:

Minimum fee for 1,500 dozen ears or less	[1] $8.00
For each additional 1,000 dozen ears, or fraction thereof, in excess of 1,500 dozen ears but not exceeding 15,000 dozen ears	[1] 2.25
For each additional 1,000 dozen ears, or fraction thereof, in excess of 15,000 dozen ears	[1] 2.00

UNOFFICIALLY DRAWN SAMPLES

Minimum fee for 2 samples or less of any type or weight	$4.00
For each additional sample in excess of 2 samples	2.00

(3) *Dried fruits other than figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

Minimum fee for 12,000 pounds or less	$8.00
For each additional 2,000 pounds, or fraction thereof, in excess of 12,000 pounds	.60

UNOFFICIALLY DRAWN SAMPLES

Each sample	$4.00

(4) *Dried figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

Minimum fee for 8,000 pounds or less	$8.00
For each additional 2,000 pounds, or fraction thereof, in excess of 8,000 pounds	1.75

[1] The fees specified herein are exclusive of charges for such micro, chemical and certain other special analyses, other than salt and acidity by direct titration, soluble solids (by refractometer) or total solids (by refractometer), which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product.

[2] However, the fee for any additional lots of 200 cases or less which are offered for inspection by the same applicant at the same time and which are available for inspection at the same time and place shall be $6.00.

[1] However, the fee for any additional lots of 1,500 pounds or less which are offered for inspection by the same applicant at the same time and which are available for inspection at the same time and place shall be $6.00.

[2] However, the fee for any additional lots of 250 dozen or less which are offered for inspection by the same applicant at the same time and which are available for inspection at the same time and place shall be $6.00.

UNOFFICIALLY DRAWN SAMPLES

Each sample..... $4.00

(5) *Edible sugarcane, molasses, sugarcane sirup, and refiners sirup.*

OFFICIALLY AND UNOFFICIALLY DRAWN [illegible]

The total fee for sampling and inspection of samples shall be in accordance with the following schedule:

(a) For sampling the product, including travel time, per hour..... $4.00
(b) For inspecting—each sample..... 3.00
(c) For complete chemical analyses required to determine grade,
First analysis..... 25.00
Each additional analysis for one applicant at one time..... 12.00

(6) *Other processed food products.* The fee to be charged and collected for the inspection of any processed product not included in subparagraphs (1), (2), (3), (4), and (5) of this paragraph shall be at the rate of $4.00 per hour for the time consumed by the inspector in making the inspection, including the time consumed in sampling by the inspector or licensed sampler: *Provided*, That, fees for sampling time will not be assessed by the office of inspection when such fees have been assessed and collected directly from the applicant by a licensed sampler.

8. Delete § 52.44 *Inspection fees when charges for sampling have been collected by a licensed sampler* and insert in lieu thereof the following:

§ 52.44 *Inspection fees when charges for sampling have been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler and with respect to which the sampling fee has been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee provided in this part applicable to the respective processed product: *Provided*, That, if the fee charged for the inspection service is based on the hourly rate of charge, the fee shall be at the rate of $4.00 per hour prescribed in this part.

9. Delete § 52.45 *Inspection fees when charges for sampling have not been collected by a licensed sampler* and insert in lieu thereof the following:

§ 52.45 *Inspection fees when charges for sampling have not been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler, and with respect to which the sampling fee has been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee as prescribed in this part, plus a reasonable charge to cover the cost of sampling as may be determined by the Administrator: *Provided*, That, if the fee charged is based on the hourly rate, the fee shall be at the rate of $4.00 per hour prescribed in this part, plus a reasonable charge to cover the cost of sampling, as determined by the Administrator.

10. Delete § 52.47 *Charges for micro, chemical, and certain other special analyses* and insert in lieu thereof the following:

§ 52.47 *Charges for micro, chemical, and certain other special analyses.* (a) The following charges shall be made for micro, chemical, and certain other special analyses which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product: [2]

Type of analysis	For first analysis	For each additional analysis
Mold count	$1.50	$1.50
Worm larvae and insect fragment count	3.00	3.00
Fly egg and maggot count	3.00	3.00
Alcohol insoluble solids	4.00	2.00
Alcohol (distillation and specific gravity)	6.00	4.00
Ascorbic acid (vitamin C)	8.00	2.00
Total ash (carbonated or sulfated)	4.00	2.00
Ash, acid insoluble	5.00	3.00
Ash, water soluble or water insoluble	5.00	3.00
Ash, NaCl free (approximate method—total ash less NaCl)	6.00	3.00
Ash, NaCl free ($P_2O_5 \times 2$)	12.00	6.00
Catalase test	2.00	1.00
Crude fiber	10.00	5.00
Diastase test for honey (AOAC method)	4.00	2.00
Ether extract (crude fat)	8.00	4.00
Fat (acid hydrolysis)	8.00	6.00
Fiber (green and wax bean)	4.00	2.00
Iodine number	8.00	4.00
Moisture (air oven method)	2.00	2.00
Moisture (vacuum oven method)	2.00	2.00
Nitrogen or crude protein	6.00	3.00
Non-volatile ether extract	8.00	4.00
Oil of lemon and orange extract (precipitation method)	4.00	3.00
Oil of lemon with oil base (distillation method)	4.00	4.00
Phosphorous pentoxide (P_2O_5)	12.00	6.00
Potash (K_2O)	12.00	6.00
Phosphorous pentoxide (P_2O_5) and aluminum trioxide (Al_2O_3)	16.00	12.00
Recoverable oil	2.00	2.00
Peroxidase test (frozen vegetables)	2.00	2.00
Reducing sugars	12.00	6.00
Reducing sugars plus sucrose	18.00	12.00
Sucrose (direct polarization)	4.00	2.00
Sucrose (chemical methods)	18.00	12.00
Starch or carbohydrates (direct hydrolysis)	16.00	[illegible]
Sulphur dioxide (direct titration)	4.00	2.00
Sulphur dioxide (distillation method)	6.00	4.00
Total solids (drying method)	2.00	2.00
Vanillin and coumarin	10.00	8.00
Volatile and non-volatile ether extract	10.00	6.00
Water extract	4.00	4.00
Water-insoluble-inorganic-residue (peanut butter)	8.00	4.00
Water-insoluble-inorganic-residue, filth analysis, and particle count (peanut butter)	12.00	8.00

(b) The following charges shall be made for analyses which are requested by an applicant and are not in connection with an inspection to determine the quality or condition of the product: [3]

Type of analysis	For first analysis	For each additional analysis
Brix readings (refractometric or spindle)	$2.00	$1.00
Brix readings (double dilution)	3.00	1.00
Total acidity (direct titration)	2.00	1.00
Free fatty acids	4.00	2.00
Salt (NaCl)—direct titration	4.00	2.00
Soluble solids (refractometric method)	2.00	1.00
Total solids (refractometric method)	2.00	1.00
Color determination of extracted honey	2.00	1.00
Color determination of sugarcane molasses or sugarcane sirup	4.00	2.00

11. Delete § 52.48 *When charges are to be based on hourly rate not otherwise provided for in this part* and insert in lieu thereof the following:

§ 52.48 *When charges are to be based on hourly rate not otherwise provided for in this part.* When inspection is for condition only or when inspection services or related services are rendered and formal certificates are not issued or when the services rendered are such that charges based upon the foregoing sections would be inadequate or inequitable, charges may be based on the time consumed by the inspector in performance of such inspection service at the rate of $4.00 per hour.

12. Delete § 52.50 *Fees for additional copies of inspection certificates* and insert in lieu thereof the following:

§ 52.50 *Fees for additional copies of inspection certificates.* Additional copies of any inspection certificate other than those provided for in § 52.21, may be supplied to any interested party upon payment of a fee of $2.00 for each set of five (5) or fewer copies.

13. Delete § 52.51 *Travel and other expenses*, and insert in lieu thereof the following:

§ 52.51 *Travel and other expenses.* Charges may be made to cover the cost of travel and other expenses incurred in connection with the performance of any inspection service, including appeal inspections; *Provided*, That, if charges for sampling or inspection are based on an hourly rate, an additional hourly charge may be made for travel time including time spent waiting for transportation as well as time spent traveling, but not to exceed eight hours of travel time for any one person for any one day: *And provided further*, That, if travel is by common carrier, no hourly charge may be made for travel time outside the employee's official work hours.

Done at Washington, D. C., this 22d day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-536; Filed, Jan. 26, 1954; 8:48 a. m.]

[2] When any of these analyses are made at the request of an applicant and are not in connection with an inspection to determine the quality or condition of the product, the listed fees shall be increased by 30 percent.

[3] When these analyses are made in connection with an inspection to determine the quality or condition of the product no fee shall be charged for the analyses.

[7 CFR Part 54]

GRADING AND INSPECTION OF DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF AND UNITED STATES SPECIFICATIONS FOR CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the U. S. Department of Agriculture is considering the issuance as hereinafter proposed of an amendment to the regulations governing the grading and inspection of domestic rabbits and edible products thereof and United States specifications for classes, standards, and grades with respect thereto (7 CFR Part 54) issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). The amendment provides for an increase in the charge for performing grading service. The hourly charge would be raised from $3.60 to $4.00 and the fee schedules for grading service would be raised 15 to 30 percent and in some few instances by a greater amount. The financial status of the grading service indicates that these increases are needed to cover the costs of performing the service.

All persons who desire to submit written data, views, or arguments in connection with this amendment should file the same in triplicate with the Chief of the Marketing Services Branch, Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Room 2099, South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Change paragraph (b) of § 54.101 *Grading service on a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates specified in § 54.103 are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service the fees for such service shall not be based on the rates specified in § 54.103, but shall be based on the time required to perform such grading service and the travel of each grader at the rate of $4.00 per hour for the time actually required.

2 Change § 54.103 *Domestic rabbits grading fees* to read as follows:

§ 54.103 *Domestic rabbits grading fees.* For each grading of any lot of domestic rabbits, whether live or ready-to-cook, the following fees shall be applicable:

For 500 pounds or less	$1.80
For 501 to 1,500 pounds, inclusive	3.00
For 1,501 to 3,000 pounds, inclusive	4.00
For 3,001 to 6,000 pounds, inclusive	5.50
For 6,001 to 10,000 pounds, inclusive	8.50
For 10,001 to 15,000 pounds, inclusive	11.50
For 15,001 to 20,000 pounds, inclusive	14.00
For 20,001 to 25,000 pounds, inclusive	17.50
For 25,001 to 30,000 pounds, inclusive	20.00
For each additional 5,000 pounds, or fraction thereof, in excess of 30,000 pounds	2.00

3. Change § 54.104 *Inspection service on a fee basis* to read as follows:

§ 54.104 *Inspection service on a fee basis.* Fees to be charged and collected for inspection services furnished on a fee basis shall be based on the time required to render such services including, but not being limited to, the time required for the travel of the inspector or inspectors in connection therewith, at the rate of $4.00 per hour for each inspector for the time actually required.

4. Change § 54.105 *Fees for additional copies of grading certificates and inspection certificates* to read as follows:

§ 54.105 *Fees for additional copies of grading certificates and inspection certificates.* Additional copies, other than those provided for in §§ 54.141 and 54.171, of any grading certificates or inspection certificates, may be supplied to any interested party upon payment of a fee of $1.50 for each set of five or fewer copies.

5. Change § 54.106 *Traveling expenses and other charges* to read as follows:

§ 54.106 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

(60 Stat. 1090; 7 U. S. C. 1621 et seq.; Pub. Law 156, 83d Cong., approved July 28, 1953)

Issued at Washington, D. C., this 25th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 54-598; Filed, Jan. 26, 1954; 8:55 a. m.]

[7 CFR Part 55]

SAMPLING, GRADING, GRADE LABELING, AND SUPERVISION OF PACKAGING OF EGGS AND EGG PRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the U. S. Department of Agriculture is considering the issuance as hereinafter proposed of an amendment to the regulations governing the sampling, grading, grade labeling, and supervision of packaging of eggs and egg products (7 CFR Part 55) issued pursuant to the authority contained in the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). The amendment provides for an increase in the charges for performing grading and inspection service. The hourly charge will be raised from $3.60 to $4.00, and the fee schedules for grading service on a package or lot basis will also be increased. These increased fees, which will result in an increase in total collections of about 11 percent, are needed to cover the full costs of performing grading and inspection service which legislation requires to be financed by the collection of fees for services rendered.

All persons who desire to submit written data, views, or arguments in connection with this amendment should file the same in triplicate with the Chief of the Marketing Services Branch, Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Room 2099 South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Change paragraph (b) of § 55.39 *On a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service, the fees for such service shall not be based on the rates specified in §§ 55.43 to 55.45, both inclusive, but shall be based on the time required to perform such service and the travel of each sampler, grader, inspector, and supervisor of packaging at the rate of $4.00 per hour for the time actually required.

2. Change § 55.42 *Traveling expenses and other charges* to read as follows:

§ 55.42 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

3. Change § 55.43 *Egg grading and inspection fees* to read as follows:

§ 55.43 *Egg grading and inspection fees.* For each grading, or regrading pursuant to § 55.30 (b), of any lot of eggs, the following fees shall be applicable and shall be computed on the basis of the number of packages in such lot:

(a) *Shell eggs.*

	Fee
For 10 packages or less	$1.80
For 11 to 25 packages, inclusive	3.00
For 26 to 50 packages, inclusive	4.00
For 51 to 100 packages, inclusive	5.50
For 101 to 200 packages, inclusive	8.50
For 201 to 300 packages, inclusive	11.50
For 301 to 400 packages, inclusive	13.50
For 401 to 500 packages, inclusive	15.50
For 501 to 600 packages, inclusive	17.50
For each additional 35 packages, or fraction thereof, in excess of 600 packages	1.00

(b) *Frozen eggs*—(1) *Inspection for condition only.*

	Fee
For 50 packages or less	$2.00
For 51 to 100 packages, inclusive	3.00
For each additional 100 packages, or fraction thereof, in excess of 100 packages	1.00
When each individual package in any lot is inspected for condition only, the fee for each package inspected shall be	.20

(2) *Inspection for condition and sampling for laboratory analysis.*

	Fee
For 50 packages or less	$4.00
For 51 to 100 packages, inclusive	5.00
For each additional 100 packages, or fraction thereof, in excess of 100 packages	1.00

4. Change § 55.49 *Approval of official identification* to read as follows:

§ 55.49 *Approval of official identification.* Any grade label, inspection mark or packaging material which is to be used as official identification shall be used only in such manner as the Administrator may prescribe; and such label, inspection mark, and packaging material shall be of such form and contain such information as the Administrator may require. No grade label, inspection mark, or packaging material may be used in the identification of any graded or inspected product unless finished copies or samples of such grade label, inspection mark, and packaging material have been approved by the Service.

(Pub. Law 156, 83rd Cong., approved July 28, 1953)

Issued at Washington, D. C., this 25th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 54-597; Filed, Jan. 26, 1954; 8:55 a. m.]

[7 CFR Part 70]

GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF AND UNITED STATES CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the U. S. Department of Agriculture is considering the issuance as hereinafter proposed of an amendment to the regulations governing the grading and inspection of poultry and edible products thereof and United States classes, standards, and grades with respect thereto (7 CFR Part 70) issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). The amendment provides for an increase in the charge for performing grading service. The hourly charge would be raised from $3.60 to $4.00 and the fee schedules for grading service would be raised 15 to 30 percent and in some few instances by a greater amount. The charge for performing inspection service on an hourly basis would also be increased from $3.60 to $4.00 per hour. An analysis of the financial status of the grading service indicates that these amendments are needed to cover the costs of the service. Legislation requires that fees charged shall cover the costs of the service.

All persons who desire to submit written data, views, or arguments in connection with this amendment should file the same in triplicate with the Chief of the Marketing Services Branch, Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Room 2099 South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

1. Change paragraph (b) of § 70.131 *Grading service on a fee basis* to read as follows:

(b) In the event the aforesaid applicable rates specified in § 70.133 are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such grading service the fees for such service shall not be based on the rates specified in § 70.133, but shall be based on the time required to perform such grading service and the travel of each grader at the rate of $4.00 per hour for the time actually required.

2. Change § 70.133 *Poultry grading fees* to read as follows:

§ 70.133 *Poultry grading fees.* For each grading of any lot of poultry whether live, dressed, or ready-to-cook, the following fees shall be applicable:

For 500 pounds or less	$1.80
For 501 to 1,500 pounds, inclusive	3.00
For 1501 to 3,000 pounds, inclusive	4.00
For 3,001 to 6,000 pounds, inclusive	5.50
For 6,001 to 10,000 pounds, inclusive	8.50
For 10,001 to 15,000 pounds, inclusive	11.50
For 15,001 to 20,000 pounds, inclusive	14.00
For 20,001 to 25,000 pounds, inclusive	17.50
For 25,001 to 30,000 pounds, inclusive	20.00
For each additional 5,000 pounds, or fraction thereof in excess of 30,000 pounds	2.00

3. Change § 70.134 *Inspection service on a fee basis* to read as follows:

§ 70.134 *Inspection service on a fee basis.* Fees to be charged and collected for inspection services furnished on a fee basis shall be based on the time required to render such service including, but not being limited to, the time required for the travel of the inspector, or inspectors, in connection therewith, at the rate of $4.00 per hour for each inspector for the time actually required.

4. Change § 70.135 *Fees for additional copies of grading certificates and inspection certificates* to read as follows:

§ 70.35 *Fees for additional copies of grading certificates and inspection certificates.* Additional copies, other than those provided for in § 70.171 to 70.173, 70.201 and 70.211, of any grading certificates or inspection certificates may be supplied to any interested party upon payment of a fee of $1.50 for each set of five or fewer copies.

5. Change § 70.136 *Traveling expenses and other charges* to read as follows:

§ 70.136 *Travel expenses and other charges.* Charges may be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include: (a) A charge of $0.50 for each grading made on a fee basis within the metropolitan area of the grader's official station, or (b) charges to cover the cost of travel (common carrier or automobile mileage) and per diem for each grading made on a fee basis outside the metropolitan area of the grader's official station, plus a charge of 10 percent of the amount charged for said per diem and travel costs.

6. Delete § 70.410 *Application for grading service with respect* to live poultry, dressed poultry, and ready-to-cook poultry.

7. Delete the center heading "Application for grading service" immediately preceding § 70.410.

(60 Stat. 1090; 7 U. S. C. 1621 et seq.; Pub. Law 156, 83d Cong., approved July 28, 1953)

Issued at Washington, D. C., this 25th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10843]

ARTHUR R. OLSON

ORDER ADVANCING HEARING

In re application of Arthur R. Olson, Tulsa, Oklahoma, Docket No. 10843, File No. BPCT-1628; for construction permit for new television station.

The Commission having under consideration a petition filed January 21, 1954, by Arthur R. Olson requesting that the hearing on the above-entitled application be advanced from February 5, 1954, to January 28, 1954, and that the requirement of furnishing the supplemental information called for by the so-called "McFarland" letter, dated November 5, 1953, be waived;

It appearing, that counsel for the Chief of the Commission's Broadcast Bureau has consented to immediate consideration and grant of the petition;

It is ordered, This 22d day of January 1954, that the above petition is granted, and the hearing conference pursuant to § 1.841 and hearing previously scheduled for February 5, 1954, are advanced to 10:00 a. m., January 28, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

MINIDOKA PROJECT, IDAHO

ORDER OF REVOCATION

SEPTEMBER 28, 1953.

Pursuant to the authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental Orders of November 17, 1902, January 27, 1904, March 21, 1907, December 20, 1907, and September 29, 1919, in so far as said orders affect the following-described land: *Provided, however*, That such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing or reserving the land hereinafter described:

BOISE MERIDIAN, IDAHO

T. 8 S., R. 26 E.,
Sec. 25, SE¼SW¼ and S½SE¼.
Sec. 26, W½NE¼, NW¼NW¼SW¼ and N½SE¼.
Sec. 27, E½NE¼, NE¼NW¼NE¼, S½NW¼NE¼, SW¼NE¼, NW¼NE¼NW¼, S½NE¼NW¼, NW¼NW¼, S½NW¼, N½SW¼, SW¼SW¼ and N½SE¼.
Sec. 28, All.
Sec. 29, All.
Sec. 30, All.
Sec. 31, Lots 1 and 2, NE¼NW¼.
Sec. 32, N½NE¼ and N½NW¼.
Sec. 33, N½NE¼, SW¼NE¼ and N½NW¼.
T. 8 S., R. 27 E.,
Sec. 31, Lot 1, S½NE¼, E½NW¼, NE¼SE¼, NW¼SE¼SE¼ and S½SE¼SE¼.
T. 9 S., R. 27 E.,
Sec. 05, Lot 1, SE¼NE¼ and E½SE¼.
Sec. 08, E½NE¼ and E½SE¼.
T. 9 S., R. 29 E.,
Sec. 06, S½NE¼, S½NW¼, SW¼ and NW¼SE¼.
Sec. 10, S½NE¼, NE¼SW¼ and NW¼SE¼.
Sec. 17, S½NE¼ and N½SW¼.
Sec. 18, Lot 4, SE¼SW¼ and S½SE¼.

The above areas aggregate 4,816.17 acres.

H. F. MCPHAIL,
Acting Commissioner.

[Misc. 869558]

[Misc. 64650]

JANUARY 15, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The following-described lands released from withdrawal by this order were included in the Minidoka National Wildlife Refuge by Executive Order No. 7417 of July 17, 1936, as changed by Executive Order No. 8600 of November 20, 1940:

BOISE MERIDIAN

T. 8 S., R. 26 E.,
Sec. 25, SE¼SW¼, S½SE¼.
Sec. 26, NW¼SW¼, N½SE¼.
Sec. 27, N½SW¼, SW¼SW¼, N½SE¼.
Sec. 31, lots 1 and 2, NE¼NW¼.
Sec. 32, N½NE¼, N½NW¼.
Sec. 33, N½NE¼, SW¼NE¼, N½NW¼.
T. 9 S., R. 27 E.,
Sec. 5, lot 1, SE¼NE¼, E½SE¼.
Sec. 8, E½NE¼, E½SE¼.
T. 9 S., R. 29 E.,
Sec. 8, S½NE¼, S½NW¼, SW¼, NW¼SE¼.

The remaining lands released from withdrawal by this order are in a blow sand area. They have a sparse vegetative cover and are primarily suitable for grazing.

Any application that is filed for the lands restored to disposition by this order will be considered on its merits. However, the lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 447; 43 U. S. C. 279-284), as amended.

Inquiries concerning the lands should be directed to the Manager, Land and Survey Office, Bureau of Land Management, Boise, Idaho.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

The above areas aggregate 9,485 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[Misc. 869558]

[Misc. 64650]

JANUARY 15, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The following-described lands released from withdrawal by this order vary in terrain from level to slightly rolling. They are broken by solid rock outcrops but have sufficient tillable areas to comply with the minimum requirements of the desert-land laws:

BOISE MERIDIAN

T. 9 S., R. 21 E.,
Sec. 5, E½SW¼, W½SE¼, SE¼SE¼.
Sec. 7, SW¼NE¼, W½SE¼.
Sec. 14, W½NW¼, NE¼NW¼.
Sec. 15, SE¼NE¼, NE¼SE¼, S½SE¼.
Sec. 17, NE¼NE¼, S½NE¼ and S½NW¼.
Sec. 18, W½NE¼.
Sec. 20, E½NE¼, N½SE¼.
Sec. 21, SE¼SE¼.
Sec. 22, SW¼SW¼.
Sec. 24, NW¼NE¼.
Sec. 26, N½SW¼.
Sec. 34, N½NW¼.
T. 8 S., R. 25 E.,
Sec. 2, lot 9, W½SW¼ and SE¼SE¼.

The following-described lands released from withdrawal by this order are subject to the provisions of Private Law 838, 82d Congress, Ch. 685, 2d Session, authorizing their sale and conveyance to the Idaho Ranch for Youth Inc.:

T. 7 S., R. 24 E.,
Secs. 13, 14, 24, and 25.

The following-described lands released from withdrawal by this order are in a blow sand area where wind erosion is severe. They have a sparse vegetative cover and are primarily suitable for grazing:

T. 8 S., R. 25 E.,
Sec. 24, SE¼NE¼, SE¼SW¼, and SE¼.
Sec. 26, S½NE¼ and S½NW¼.
Sec. 27, S½NE¼.

The remaining lands released from withdrawal by this order are rough and rocky and unsuitable for cultivation.

Any application that is filed for the lands restored to disposition by this order will be considered on its merits. However, the lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 447; 43 U. S. C. 279–284), as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Boise, Idaho.

[SEAL] EDWARD WOOZLEY,
Director,
Bureau of Land Management.

The above area aggregates 34,379.14 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[Misc. 869558]

[Misc. 64650]

JANUARY 15, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The following-described lands released from withdrawal by this order vary in terrain from level to slightly rolling. They are broken by solid rock outcrops, but have sufficient tillable areas to comply with the minimum requirements of the desert-land laws:

BOISE MERIDIAN

T. 7 S., R. 18 E.,
Sec. 2, W½SE¼.
Sec. 10, E½NE¼, SW¼NE¼.
Sec. 11, W½NE¼, NW¼.
Sec. 21, E½SW¼ and SE¼.
Sec. 32, SW¼, S½SE¼.
Sec. 33, W½, SE¼SE¼.
Sec. 34, N½, SE¼.
T. 8 S., R. 18 E.,
Sec. 2,
Sec. 3, S½NE¼, SE¼NW¼, S½SW¼.
Sec. 4, S½NW¼, S½.
Secs. 22 to 26, inclusive.
T. 8 S., R. 19 E.,
Sec. 7, NE¼.
Sec. 8, NW¼.
Secs. 30, E½SW¼.

The remaining lands released from withdrawal by this order are rough and rocky and are not suitable for cultivation.

Any application that is filed for the lands restored to disposition by this order will be considered on its merits. However, the lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 447; 43 U. S. C. 279–284), as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Boise, Idaho.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

FEDERAL POWER COMMISSION

[Docket No. G-2055]

UNITED FUEL GAS CO.

ORDER REOPENING RECORD AND FIXING DATE OF HEARING

On November 19, 1953, the Commission issued its Opinion No. 258–A in this proceeding prescribing rates to be observed by United Fuel Gas Company (United Fuel) after February 15, 1953. On December 15, 1953, United Fuel filed application for a stay of the Commission's order and for the reopening of the record for the purpose of adducing additional evidence. By Commission order issued December 22, 1953, the Commission stayed its order of November 19, 1953, pending consideration of the matter alleged in the application.

United Fuel has pending under suspension, at Docket No. G–2274, a proposed rate increase which it may place in effect, under bond, on March 1, 1954. United Fuel requests opportunity to present evidence in the instant proceeding as to costs and sales revenues for calendar year 1953 and the 12 months ending February 28, 1954.

The Commission finds: It is reasonable and good cause exists to reopen the record in this proceeding to afford United Fuel opportunity to adduce evidence of operations for the year 1953 and the 12 months ending February 28, 1954.

The Commission orders:

(A) The record in this proceeding be and it hereby is reopened for the purpose of receiving evidence with regard to operations for the year 1953 and the 12 months ending February 28, 1954.

(B) A public hearing be held commencing on January 28, 1954, at 9:30 a. m., in the Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., for the purpose specified in paragraph (A).

Adopted: January 20, 1954.

Issued: January 21, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-521; Filed, Jan. 26, 1954; 8:45 a. m.]

[Docket No. G-2313]

TEXAS EASTERN TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed November 12, 1953, pursuant to section 7 of the Natural Gas Act, to abandon certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for nonconested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application including

publication in the FEDERAL REGISTER on December 30, 1953 (18 F. R. 8880).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 15, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 20, 1954.

Issued: January 21, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-522; Filed, Jan. 26, 1954; 8:45 a. m.]

[Docket No. G-2314]

MANUFACTURERS LIGHT AND HEAT CO.

ORDER FIXING DATE OF HEARING

On November 16, 1953, The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation having its principal place of business at Pittsburgh, Pennsylvania, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas transmission facilities, subject to the jurisdiction of the Commission, all as more fully described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 15, 1953 (18 F. R. 8212-8213).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on February 10, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 20, 1954.

Issued: January 21, 1954.

By the Commission.

[F. R. Doc. 54-523; Filed, Jan. 26, 1954; 8:46 a. m.]

[Docket No. G-2322]

LONE STAR GAS CO.

ORDER FIXING DATE OF HEARING

Lone Star Gas Company (Applicant) filed, on December 2, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing construction and operation of 3.43 miles of 3-inch lateral transmission pipe line looping its existing 2-inch lateral line G 3-4 serving Phillips Petroleum Company and four other direct industrial customers near Muenster, Texas, some fifty miles north of Ft. Worth, Texas.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 30, 1953 (18 F. R. 8880).

The Commission orders:

(1) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing be held on February 11, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(2) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 20, 1954.

Issued: January 21, 1954.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28843]

VARIOUS COMMODITIES BETWEEN POINTS IN SOUTHERN TERRITORY AND FROM SOUTHERN TERRITORY TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

JANUARY 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed in exhibit A of the application, pursuant to fourth-section order No. 17220.

Commodities involved: Various commodities, carloads.

Between: Specified points in southern territory, and from points in that territory to points in official territory.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28844]

REFINED PETROLEUM PRODUCTS FROM ALFORD AND WRENSHALL, MINN., TO OTHER POINTS IN MINNESOTA

APPLICATION FOR RELIEF

JANUARY 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the aggregate-of-intermediates provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Great Northern Railway Company and Northern Pacific Railway Company for and on behalf of themselves and carriers parties to schedules listed below.

Commodities involved: Blended gasolines, petroleum distillate fuel, gasoline, except natural gasoline, naphtha and refined oil.

From: Alford and Wrenshall, Minn.

To: Points in Minnesota.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: Great Northern Railway Company tariff I. C. C. No. A-8163, supp. 78; Northern Pacific Railway Company tariff I. C. C. No. 9635, supp. 102.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28845]

PHOSPHATE ROCK FROM FLORIDA TO GEIGER, PANOLA, DANCY AND COCHRANE, ALA.

APPLICATION FOR RELIEF

JANUARY 22, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Phosphate rock, carloads.

From: Points in Florida.

To: Geiger, Panola, Dancy and Cochrane, Ala.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: Atlantic Coast Line Railroad tariff I. C. C. B-3232, supp. 95.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

THE NATIONAL ARCHIVES OF THE UNITED STATES — 1934

VOLUME 19 NUMBER 19

Washington, Thursday, January 28, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10516

TRANSFERRING CERTAIN LANDS TO THE SECRETARY OF AGRICULTURE FOR USE, ADMINISTRATION, AND DISPOSITION UNDER TITLE III OF THE BANKHEAD-JONES FARM TENANT ACT

WHEREAS I find suitable for the purposes of Title III of the Bankhead-Jones Farm Tenant Act, approved July 22, 1937 (50 Stat. 522, 7 U. S. C. 1010 *et seq.*), and the related provisions of Title IV thereof, certain lands of the United States under the supervision of the Secretary of Agriculture which are being administered by the Department of Agriculture as tree and grass nurseries for the production of woody and herbaceous planting stock, such nurseries being designated and described as follows:

Nursery	County	State	Acreage
Clanton	Chilton	Alabama	181.20
Tucson	Pima	Arizona	45.88
Pleasonton	Alameda	California	60.00
Americus	Sumter	Georgia	340.70
Manhattan	Riley	Kansas	181.45
Elsberry	Lincoln	Missouri	112.987
Two Rivers	Douglas	Nebraska	200.44
Big Flats	Chemung	New York	212.88
Mandan	Morton-Burleigh	North Dakota	595.20
Zanesville	Muskingum	Ohio	202.69
Howard	Centre	Pennsylvania	76.924
San Antonio	Hexar	Texas	3.00
Pullman	Whitman	Washington	160.26
Bellingham	Whatcom	Washington	72.214

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me by section 45 of the said Bankhead-Jones Farm Tenant Act, it is ordered that all the right, title, and interest of the United States in and to the above-described lands be, and they are hereby, transferred to the Secretary of Agriculture for use, administration, and disposition in accordance with the provisions of Title III of the said act and the related provisions of Title IV thereof.

DWIGHT D. EISENHOWER

PART 327—TITLE CLEARANCE

ARRANGEMENT WITH TITLE INSURERS

Section 327.4 (b) (5), Title 6, Code of Federal Regulations (13 F. R. 9409), is revised to modify the requirements with respect to owners' policies of title insurance and as revised reads as follows:

§ 327.4 *Arrangements with title insurers.* • • •

(b) *Standard proposals: acceptance by State Director.* • • •

(5) Rates for owners' policies are set forth in the manner indicated by part II, section 1 (if combination policies are offered there may be supplied in part I, section 1, an additional column showing rates, based on amount of insurance, applicable to combination policies), and such rates are found by the State Director to be reasonable and the lowest rates which can be secured by negotiation. If the insurer offers to issue owners' policies in the same amount as the mortgage insurance in Farm Enlargement and Farm Development cases, the proviso following the semicolon in the first paragraph of part II, section 1, should be stricken. Because each borrower has the option of electing whether to obtain an owner's policy, the State Director may delete part II, "Owners' Policies," or may approve any provisions satisfactory to him relating to owners' policies contained in the proposal, including the form of owner's policy offered.

(Sec. 41 (1), 60 Stat. 1066; 7 U. S. C. 1015 (1). Interprets or applies secs. 3 (a), 12 (a), 44 (b), 60 Stat. 1074, 1076, 1069; 7 U. S. C. 1003 (a), 1005b (a), 1018 (b))

Dated: January 20, 1954.

[SEAL] R. B. MCLEAISH, *Administrator, Farmers Home Administration.*

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

[Amdt. 1]

PART 417—TOBACCO CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1954 AND SUCCEEDING CROP YEARS

ELIGIBILITY FOR INSURANCE

The above identified regulations (18 F. R. 5703), are hereby amended, effective beginning with the 1954 crop year, by adding a § 417.9 to read as follows:

§ 417.9 *Eligibility for insurance.* Notwithstanding the provisions of section 20 (b) of the policy as shown in § 417.8, insurance may be provided in any crop year to any person who canceled his contract for that crop year and who as owner-operator or tenant-operator files an application for insurance after the cancellation date and by the applicable closing date preceding such crop year, provided the interest(s) covered by such application for insurance is not limited to the identical interest(s) which was insured under the canceled contract.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong.; 7 U. S. C. 1507–1509)

Adopted by the Board of Directors on January 15, 1954.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on January 22, 1954.

TRUE D. MORSE,
Acting Secretary of Agriculture.

[Amdt. 5]

PART 418—WHEAT CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1953 AND SUCCEEDING CROP YEARS

MISCELLANEOUS AMENDMENTS

The above identified regulations, as amended (16 F. R. 9628, 11565; 17 F. R. 189, 10537; 18 F. R. 439, 3632, 6990, 7222), are hereby amended for all counties, effective beginning with the 1955 crop year, as follows:

1. The table following paragraph (a) of § 418.204 (formerly designated § 418.154) is amended by changing the closing date for all counties in Idaho, Oregon, and Washington to October 31, and establishing a closing date of August 31 for Bennett County, South Dakota.

2. Section 2, as amended, of the policy shown in § 418.210 (formerly designated § 418.160) is amended to read as follows:

2. *Insurable acreage.* For each crop year of the contract any acreage is insurable only if a coverage for such acreage is shown on the county actuarial table for that crop year, provided, however, in any county where a coverage(s) is established by a farming practice(s) any acreage is insurable only if a coverage is established for the farming practice followed on such acreage.

3. Section 6 of the policy shown in § 418.210 is amended to read as follows:

6. *Coverage per acre.* The coverage per acre established for the area in which the insured acreage is located shall be shown, by practice(s) where applicable, on the county actuarial table on file in the county office. The coverage per acre is progressive depending upon whether the acreage is (a) First Stage—released and seeded to a substitute crop, (b) Second Stage—not harvested and not seeded to a substitute crop or (c) Third Stage—harvested.

4. Subsections (a) and (d) of section 9, as amended, of the policy shown in § 418.210 are amended to read as follows:

(a) Subject to the provisions of this section, the contract shall be in effect for the first crop year specified on the application and shall continue in effect for each succeeding crop year until canceled by either the insured or the Corporation. Cancellation may be made by either party giving written notice to the other party on or before the applicable cancellation date preceding the crop year for which the cancellation is to become effective: *Provided, however,* That (1) if by the March 31 following such cancellation date for all counties with a December 31 cancellation date any amount of premium remains unpaid or (2) if by such cancellation date for all other counties any amount of premium, except the premium due on the crop harvested or to be harvested in the calendar year in which the cancellation date occurs, remains unpaid, the contract shall terminate as if canceled by the Corporation prior to such cancellation date. Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation to the insured's last known address and mailing shall constitute notice to the insured.

• • • • •

(d) If the Corporation determines that the county minimum participation requirement established by the Federal Crop Insurance Act, as amended, is not met for any crop year, insurance shall not be in effect for that crop year and the contract shall terminate.

5. Section 12, as amended, of the policy shown in § 418.210 is amended to read as follows:

12. *Amount of annual premium.* (a) The premium rate per acre will be established by the Corporation for the coverage and rate area in which the insured acreage is located and will be shown, by practice(s), where applicable, on the county actuarial table on file in the county office. The annual premium for each insurance unit under the contract will be based upon (1) the insured acreage of wheat, (2) the applicable premium rate(s) and (3) the insured interest(s) in the crop at the time of seeding. There will be a reduction in the annual premium for each insurance unit of 4 percent for the first full 200 acres of insured acreage on the unit and an additional 2 percent reduction for each additional full 100 acres, provided, however, that the total reduction shall not exceed 20 percent. The annual premium for the contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract, and with respect to any insured acreage shall be earned and payable when the wheat on such acreage is seeded.

(b) The premium rate(s) shown on the county actuarial table is based on prompt payment and any amount of the premium which remains unpaid on the day following the discount date (the discount date shall be the November 30 following the time the wheat crop is normally harvested) will be increased by 10 percent, which increased amount shall be the premium balance. Thereafter, at the end of each 12 months' period, 6 percent simple interest shall attach to any amount of the premium balance remaining unpaid. Interest shall not be charged on premiums earned in the 1955 and succeeding crop years except as specified in this section.

(c) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured wheat crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. Whether or not the insured is eligible for the above premium reduction, his annual premium may be reduced in lieu of the above in any year by not to exceed 50 percent if it is determined by the Corporation that the accumulated balance of premiums over indemnities on consecutively insured wheat crops exceeds his total coverage (computed on a harvested acreage basis). Nothing in this paragraph shall create in the insured any right to a reduced premium.

(d) Notwithstanding any other provision of the contract, if in any year a premium is earned and totals less than $10.00 the amount shall be increased to $10.00.

6. Subsection (b) of section 13, as amended, of the policy shown in § 418.210 is amended to read as follows:

(b) Any unpaid amount of any premium or any other amount owed the Corporation by the insured may be deducted from any indemnity payable by the Corporation or from any loan or any payment made to the insured under any act of Congress or program administered by the United States Department of Agriculture. There shall be no refund of any annual premium overpayment of less than $1.00 unless written request for such refund is received by the Corporation within one year after the payment thereof.

7. Section 18 of the policy shown in § 418.210 is amended to read as follows:

18. *Insurance unit.* Losses shall be determined separately for each insurance unit except as provided in section 19 (b). An insurance unit consists of (a) all the insurable acreage of wheat in the county in which the insured has 100 percent interest in the crop at the time of seeding, or (b) all the insurable acreage of wheat in the county owned by one person which is operated by the insured as a share tenant, or (c) all the insurable acreage of wheat in the county which is owned by the insured and is rented to one share tenant at the time of seeding. For any crop year of the contract, acreage shall be considered to be located in the county if a coverage is shown therefor on the county actuarial table. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee.

8. Item 4 of the "Production Schedule" contained in section 19, as amended, of the policy shown in § 418.210 is amended to read as follows:

Acreage classification	Basis of coverage to be used	Production to be [illegible]
4. Acreage from which threshed wheat as determined by the Corporation (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes, and would not meet these requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight.	T II I III D	The number of bushels obtained by (1) multiplying the bushels of such threshed wheat by the value per bushel as determined by the Corporation, and (2) dividing the result thus obtained by the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight.

9. Subsection (a) of section 30, as amended, of the policy shown in § 418.210 is deleted.

10. Subsection (d) of section 30, as amended, of the policy shown in § 418.210 is amended to read as follows:

(d) "County office" means the Corporation's office for the county, shown on the application for insurance or such other office as may be specified by the Corporation from time to time.

11. Section 30, as amended, of the policy shown in § 418.210 is further amended by adding a subsection (k) to read as follows:

(k) "County" means the area shown on the county actuarial table which may include farms located in a local producing area(s) bordering on the county.

12. Section 32, as amended, of the policy shown in § 418.210 is amended by deleting the maturity dates and changing the discount date to November 30 for all counties.

13. Section 32, as amended, of the policy shown in § 418.210 is further amended by establishing a cancellation date of April 30, and a discount date of November 30 for Bennett County, South Dakota.

(Secs. 509, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong.; 7 U. S. C. 1507–1509)

Adopted by the Board of Directors on January 15, 1954.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on January 22, 1954.

PART 419—COTTON CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1952 AND SUCCEEDING CROP YEARS

ELIGIBILITY FOR INSURANCE

The above identified regulations, as amended (16 F. R. 7975, 11565; 17 F. R. 2110, 5633, 8206, 8471; 18 F. R. 440, 3633, 3994, 6990), are hereby amended, effective beginning with the 1954 crop year, by adding a § 419.14 to read as follows:

§ 419.14 *Eligibility for insurance.* Notwithstanding the provisions of section 8 (b), as amended, of the policy as shown in § 419.13, insurance may be provided in any crop year to any person who canceled his contract for that crop year and who as owner-operator or tenant-operator files an application for insurance after the cancellation date and by the applicable closing date preceding such crop year, provided the interest(s) covered by such application for insurance is not limited to the identical interest(s) which was insured under the canceled contract.

(Sec. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong., 7 U. S. C. 1507–1509)

Adopted by the Board of Directors on January 15, 1954.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on January 22, 1954.

TRUE D. MORSE,
Acting Secretary of Agriculture.

[Amdt. 14]

PART 420—MULTIPLE CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1950 AND SUCCEEDING CROP YEARS

SINGLE CROP SETTLEMENT

The above identified regulations, as amended (14 F. R. 5303, 6787, 7827; 15 F. R. 2485, 2622, 3077, 4161, 9033, 9271; 16 F. R. 579, 4300, 4829, 12111, 12765; 17 F. R. 2110, 2385, 3265, 3671, 5082, 5933, 8206, 10537, 11257, 11379; 18 F. R. 151, 440, 3634, 4418, 6282, 6992, 7222, 8080, 8530), are hereby amended, effective beginning with the 1954 crop year, as follows:

1. The following section is added:

§ 420.36 *Single crop settlement.* Notwithstanding any other provisions of this subpart to the contrary, the Manager of the Corporation is authorized, in counties designated by him, in any case the insured so elects, to compute premium(s) and indemnity(ies) as though each crop insured were the only crop insured under the contract. For the first crop year in which such election is authorized in a county and for the first crop year of any contract, the election must be made before the closing date for filing applications for insurance. Thereafter, any election or change therein shall be in writing and filed in the county office prior to the cancellation date for the crop year the change is to become effective. The combination of insurance units provided for in section 13 of the policy shall not be permitted in counties designated under this section.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong.; 7 U. S. C. 1507–1509)

Adopted by the Board of Directors on January 15, 1954.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on January 22, 1954.

TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-581; Filed, Jan. 27, 1954; 8:52 a. m.]

PART 422—CITRUS CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1954 AND SUCCEEDING CROP YEARS

By virtue of the authority contained in the Federal Crop Insurance Act, as amended, the "Regulations for the 1953 and Succeeding Crop Years" (18 F. R. 440), which shall continue in full force and effect for the 1953 crop year, are hereby amended for the 1954 and succeeding crop years to read as set forth below. The provisions of this subpart shall apply, until amended or superseded, to all citrus contracts as they relate to the 1954 and succeeding crop years.

Sec.
422.21 Availability of citrus crop insurance.
422.22 Coverages per acre.
422.23 Premium.
422.24 Application for insurance.
422.25 Public notice of indemnities paid.
422.26 Creditors.
422.27 Changes in continuous contracts covering the 1953 and succeeding crop years.
422.28 The policy.

AUTHORITY: §§ 422.21 through 422.28 issued under secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong.; 7 U. S. C. 1507–1509.

§ 422.21 *Availability of citrus crop insurance.* Citrus crop insurance will be provided in Orange and Polk Counties, Florida, except that insurance will not be provided in a county for any crop year unless the minimum participation requirement prescribed by the Federal Crop Insurance Act, as amended, is met before the June 1 following the beginning of such crop year. For this purpose an insurance unit shall be counted as one farm.

§ 422.22 *Coverages per acre.* The Corporation shall establish coverages per acre by areas which shall not be in excess of the maximum limitations prescribed by the Federal Crop Insurance Act, as amended. Coverages so established shall be shown on the county actuarial table which shall be on file in the county office and may be revised from year to year.

§ 422.23 *Premium.* (a) The Corporation shall establish premium rates per acre by areas for all acreage for which coverages are established and such rates shall be those deemed adequate to cover claims for citrus crop losses and to provide a reasonable reserve against unforeseen losses. Premium rates so established shall be shown on the county actuarial table which shall be on file in the county office and may be revised from year to year.

(b) The premium for each crop year shall be paid before the beginning of the insurance period for such crop year except that payment may be deferred upon the insured making arrangements satisfactory to the Corporation for the payment of the premium. The Corporation may charge interest at not to exceed 6 percent per annum on deferred payments.

§ 422.24 *Application for insurance.* Application for insurance on a form approved by the Corporation may be made by any person to cover his interest as landlord, owner-operator, or tenant in a citrus crop. A supplemental application may be submitted to cover any interest in citrus acreage acquired after the date of premium payment for any crop year. For any crop year, applications and supplemental applications may be submitted to the county office until such time as the Manager of the Corporation terminates the sale of citrus insurance for such crop year.

§ 422.25 *Public notice of indemnities paid.* The Corporation shall provide for the posting annually in each county at the county courthouse of a list of indemnities paid for losses in the county.

§ 422.26 *Creditors.* An interest in an insured crop existing by virtue of a lien, mortgage, garnishment, levy, execution, bankruptcy, or any involuntary transfer shall not entitle any holder of any such interest to any benefits under the contract.

§ 422.27 *Changes in continuous contracts covering the 1953 and succeeding crop years.* Continuous citrus insurance contracts in effect for the 1953 and succeeding crop years shall be amended for 1954 and succeeding crop years so that the terms and conditions of such contracts will conform with the terms and conditions of the policy set forth in this subpart.

§ 422.28 *The policy.* The provisions of the policy for the 1954 and succeeding crop years are as follows:

Pursuant to the provisions of the application upon which this policy is issued, which application together with this policy shall constitute the contract, and subject to the terms and conditions set forth herein, the Federal Crop Insurance Corporation (herein called the "Corporation") does insure _____ (Name) _____ (Policy No.) _____, _____, Florida (herein called the "insured"), against unavoidable loss on his citrus crops due to freeze, hail, hurricane, or tornado.
(Address) (County)

In witness whereof, the Corporation has caused this policy to be issued this _____ day of _____, 195__.

FEDERAL CROP INSURANCE CORPORATION,
By _____
(State Crop Insurance Director)

TERMS AND CONDITIONS

1. *Citrus crops insured.* (a) The kinds of citrus insured shall be all varieties of oranges, grapefruit, and tangerines.

(b) Insurance for each crop year of the contract shall cover only citrus fruit that normally matures within such crop year and shall not cover any fruit on the trees which matures before August 1 of such crop year.

2. *Insurable acreage.* For each crop year of the contract, any acreage is insurable only if a coverage for such acreage is shown on the county actuarial table for that crop year. Acreage having a potential production for any crop year of less than 100 standard field boxes per acre is uninsurable for that crop year.

3. *Responsibility of insured to report acreage and interest.* For the initial crop year of the contract, the insured shall specify on his application all the insurable acres of citrus in the county in which he has an interest on the date of premium payment for such crop year and his interest in each such acreage. These data shall be revised by the insured on or before the date of premium payment for each succeeding crop year provided that the data on the application or latest revision are incorrect, to show the actual insurable acreage of citrus in which he has an interest on such date and his interest therein. If such data are not so revised for any crop year, the data on the latest revision or the application if there has been no revision, shall constitute the insured's report of his citrus acreage and his interest therein on the date of premium payment for such crop year.

4. *Insured acreage.* For each crop year of the contract the insured acreage with respect to each insurance unit shall be the insurable acreage of citrus in which the insured has an interest on the date of premium payment, as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided, however,* That the insured acreage shall not include acreage in which the insured does not have an interest on the date insurance attaches.

5. *Insured interest.* For each crop year of the contract the insured interest in the citrus crops covered by the contract shall be the insured's interest on the date of premium payment, as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect: *Provided, however,* That such insured interest shall not exceed the insured's interest on the date insurance attaches. For the purpose of determining the amount of loss the insured interest shall not exceed the insured's actual interest at the time of damage.

6. *Coverage per acre.* (a) The coverage(s) per acre shall be the number of dollars established by the Corporation for the area in which the insured acreage is located, and will be shown on the county actuarial table on file in the county office.

(b) Where more than one coverage per acre is established for a county and shown on the county actuarial table, the amount of coverage elected by the insured shall be specified on the application for insurance. However, the insured may elect to change from one coverage to the other by so advising the Corporation in writing at the county office on or before the date of premium payment for the crop year the change is to become effective.

7. *Insurance period.* For any insured acreage insurance shall attach, subject to the provisions of section 20, on the first April 1 of each crop year or 10 days after the date of premium payment (see section 25 (e)) for such acreage for such crop year, whichever is later. Insurance shall cease with respect to any portion of a citrus crop covered by the contract upon harvest but in no event shall the insurance remain in effect after June 30 of the calendar year following the year in which the insurance period begins, unless such time is extended in writing by the Corporation.

8. *Causes of loss not insured against.* The contract shall not cover loss caused by (a) failure to follow recognized good grove practices, (b) failure properly and without unreasonable delay to care for, harvest, salvage, or market the insured citrus crops, (c) failure of a marketing agency or buyer to accept delivery of marketable fruit, (d) drought, (e) flood, (f) lightning, (g) fire, (h) excessive rain, (i) wildlife, (j) insect infestation, (k) plant disease, (l) normal dropping of fruit, (m) neglect or malfeasance of the insured or of any person in his household or employment or connected with the grove as caretaker, tenant or wage hand, or (n) any cause of loss other than freeze, hail, hurricane, or tornado; nor shall it cover damage to blossoms.

9. *Amount of annual premium.* (a) The annual premium for each insurance unit under the contract will be based upon (1) the insured acreage, (2) the applicable premium rate(s), and (3) the insured interest(s) in the citrus crop(s) on the date of premium payment for each crop year. The annual premium for the contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract. The annual premium with respect to any insured acreage shall be regarded as earned on the beginning of the insurance period of each crop year.

(b) The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutively insured citrus crops (immediately preceding the current crop year) without a loss for which an indemnity was paid. Nothing in this paragraph shall create in the insured any right to a reduced premium.

10. *Manner of payment of premium.* (a) Payment on any premium shall be made by means of cash or by check, money order, or bank draft payable to the order of the Treasurer of the United States. All checks and drafts will be accepted subject to collection and no payment shall be regarded as paid unless collection is made.

(b) There shall be no refund of any annual premium overpayment of less than $1.00 unless written request for such refund is received by the Corporation within one year after the payment thereof.

11. *Notice of loss or damage.* (a) Notice in writing shall be given the Corporation at the county office within 7 days after each material damage to the insured crop on any insurance unit from an insured cause. Such notice shall state the cause and date of damage and the insured's estimate of the percentage of damage.

(b) In the case of freeze or hail, if the extent of damage cannot be determined until after the damaged fruit is harvested, an additional notice in writing, stating the date that harvest of the damaged fruit was completed for the insurance unit, shall be given the Corporation at the county office within 15 days of such date.

(c) If notice(s) is not given as required by this section, the Corporation reserves the right to reject any claim for indemnity.

12. *No abandonment.* There shall be no liability under the contract on any citrus crop or part thereof which is abandoned by the insured without a release by the Corporation. There will be no abandonment of any crop or portion thereof to the Corporation.

13. *Proof of loss.* For each insurance unit on which a loss is claimed, the insured shall submit to the Corporation, on a form approved by the Corporation, such information regarding the manner and extent of the loss as may be required by the Corporation. This form containing such information shall be executed and submitted for each loss claimed, within (a) 90 days after the time

of damage in the case of hurricane or tornado or (b) 60 days after the completion of harvesting the damaged fruit in the case of freeze or hail, but in no event later than July 31 following the crop year in which the loss occurred, unless additional time is granted in writing by the Corporation. It shall be a condition precedent to any liability under the contract that the insured establish the amount of any loss for which claim is made, and that such loss is not due to uninsured causes and has been directly caused by one or more of the hazards insured against by the contract during the insurance period for the crop year for which loss is claimed.

14. *Insurance unit.* Losses shall be determined separately for each insurance unit except as provided in section 15 (e). An insurance unit consists of (a) all the insurable acreage of citrus in the county in which the insured has 100 percent interest on the date of premium payment for the crop year, that is located on contiguous land under the same ownership, or (b) all such insurable acreage in the county in which two or more persons have 100 percent interest on the date of premium payment for the crop year, that is located on contiguous land under the same ownership, excluding any other acreage of citrus in which such persons do not have 100 percent interest on such date. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee. Contiguous land shall include only land that is touching at any point except that land that is separated only by a public or private way shall be considered contiguous. For any crop year of the contract acreage shall be considered to be located in the county if a coverage is shown therefor on the county actuarial table.

15. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by multiplying the coverage for such unit by the weighted average percent of damage for all citrus crops on such unit, except that no loss shall be payable if the weighted average percent of damage for the unit on the insured crop during the insurance period is less than 10 percent.

(b) The amount of coverage with respect to any insurance unit shall be determined by multiplying the insured acreage of citrus on such unit by the insured interest and the result by the coverage per acre.

(c) The weighted average percent of damage for all citrus crops on any insurance unit shall be based upon the percent of damage to each kind of fruit on the unit and the insurable acreage in each such kind.

(d) The percent of damage for each kind of fruit on any insurance unit shall be the ratio of the number of standard field boxes of fruit lost from an insured cause(s) to the total number of standard field boxes of such kind of fruit which was or would have been produced, as determined by the Corporation. In the case of partial damage by freeze or hail, the number of standard field boxes of partially damaged fruit lost will be determined by the Corporation on the basis of 85 pounds per box for grapefruit, 90 pounds per box for oranges, and 95 pounds per box for tangerines. The number of boxes of each kind of fruit which was or would have been produced shall include (1) fruit picked before the insured damage occurs, (2) fruit remaining on the trees after the damage occurs, (3) fruit lost from the insured cause(s) of damage, and (4) any other fruit not included in items (1) through (3), including fruit lost from causes not insured against. Fruit lost shall include any fruit which is unmarketable as fruit or for juice due to an insured cause(s) and the destroyed portion (based on weight) of any fruit which is partially damaged by freeze or hail, as determined by the Corporation.

(e) If the production from an insurance unit is commingled with the production from any other acreage and the insured fails to keep records satisfactory to the Corporation of the acreages involved and the production from each, the Corporation may (1) deny liability with respect to all insurance units involved for the crop year and declare the premium on such units forfeited by the insured, or (2) allocate either the commingled production or the amount of loss or both between the acreage involved in such manner as it determines appropriate.

16. *Payment of indemnity.* (a) Any indemnity will be payable by check within thirty days after satisfactory proof of loss is approved by the Corporation, but if payment is delayed for any reason the Corporation shall not be liable for interest or damage on account of such delay.

(b) If the insured dies, is judicially declared incompetent or disappears during an insurance period any indemnity which is, or becomes, part of his estate shall be paid to the legal representative of the estate. Should no such representative be qualified, the Corporation may pay the indemnity to the person(s) it determines to be beneficially entitled thereto or to any one or more of such persons on behalf of all such persons, or may withhold payment until a legal representative of the estate is qualified. In such cases, and in any other case where an indemnity is claimed by a person(s) other than the original insured or diverse interests appear with respect to any insurance unit, the determination of the Corporation as to the existence or nonexistence of a circumstance in the event of which payment may be made and of the person(s) to whom such payment shall be made shall be final and conclusive. Payment of an indemnity shall constitute a complete discharge of the Corporation's obligations with respect to the loss for which such indemnity is paid and shall be a bar to recovery by any other person(s).

17. *Transfer of interest.* (a) If the insured transfers all or a part of his insured interest in a citrus crop before the end of the insurance period the transferee upon written request made by the transferor will be entitled to the benefits of the contract, and subject to its terms and conditions, accruing after the transfer with respect to the interest so transferred. Any transfer shall be subject to any collateral assignment made by the original insured in accordance with section 18. However, the Corporation shall not be liable for a greater amount of indemnity in connection with the insured crop than would have been paid if the transfer had not taken place.

(b) If a transfer is effected in accordance with paragraph (a) above, the contract of the transferor shall cover the interest so transferred only to the end of the insurance period for the crop year during which the transfer is made.

18. *Collateral assignment.* The original insured may assign his right to an indemnity for any year under the contract by executing a collateral assignment on a form prescribed by the Corporation and upon approval thereof by the Corporation the interest of the assignee will be recognized and the assignee shall have the right to submit the loss notices and forms required by the contract if the insured neglects or refuses to take such action.

19. *Records and access to grove.* For the purpose of enabling the Corporation to determine any loss that may have occurred under the contract, the insured shall keep, or cause to be kept, for two years after the time of loss, records of the harvesting, storage, shipment, sale, or other disposition of all citrus produced on each insurance unit covered by the contract, and separate records showing the same information for production on any uninsured acreage in the county in which he has an interest. As often as may be reasonably required, any person(s) designated by the Corporation shall have access to such records and the grove(s) for purposes related to the contract.

20. *Life of contract, termination or cancellation thereof.* The contract shall be in effect for the first crop year specified on the application subject to the provisions of subsections (c) and (d) of this section, and shall continue in effect for each succeeding crop year subject to the provisions of subsections (a), (b), (c) and (d) of this section.

(a) The contract shall terminate if for any crop year the premium, computed on the basis of the insured's latest report of his citrus acreage, is not paid before the June 1 following the beginning of such crop year, such termination to become effective beginning with the crop year for which such premium is not paid. For the purpose of this section, any premium for which the insured has made arrangements for payment satisfactory to the Corporation shall be deemed paid.

(b) Cancellation may be made by either party giving written notice to the other party on or before the cancellation date which shall be the day preceding the beginning of the insurance period for the crop year for which the cancellation is to become effective. Any notice of cancellation by the insured shall be in writing and shall be filed with the county office. The Corporation shall mail any notice of cancellation to the insured's last known address and the mailing of such notice shall constitute notice to the insured.

(c) If the Corporation determines that the county minimum participation requirement established by the Federal Crop Insurance Act, as amended, is not met for any crop year before the June 1 following the beginning of such crop year, insurance shall not be in effect for that crop year and the contract shall terminate.

(d) The contract shall terminate upon death or judicial declaration of incompetence of the insured, except that if such death or judicial declaration of incompetence occurs after the beginning of the insurance period in any crop year but before the end of the insurance period for such year, the contract shall terminate at the end of the latest insurance period for which insurance attached.

21. *Changes in contract.* The Corporation reserves the right to change the premium rate(s), insurance coverage(s), and other terms and provisions of the contract from year to year. Notice of such changes shall be mailed to the insured or placed on file in the county office by the March 1 preceding the beginning of the crop year for which such changes are to become effective and such mailing or filing shall constitute notice to the insured. Failure of the insured to cancel the contract as provided in section 20 shall constitute his acceptance of any such changes. If no notice is given, the terms and provisions of the contract for the prior year shall continue in force.

22. *Voidance of contract.* The Corporation may void the contract and declare the premium(s) forfeited without waiving any right or remedy including the right to collect any unpaid premium(s) if (a) at any time, either before or after loss, the insured has concealed or misrepresented any material fact (including his insurable acreage or his interest therein) or committed any fraud relating to the contract, or (b) the insured fails to give any notice or otherwise fails to comply with the terms of the contract at the time and in the manner prescribed.

23. *Modification of contract.* No notice to any representative of the Corporation or knowledge possessed by any such representative or by any other person shall be held to effect a waiver of or a change in any part of the contract, or to estop the Corporation from asserting any right or power under such contract, nor shall the terms of such contract be waived or changed except as authorized in writing by a duly authorized representative of the Corporation; nor shall any provision or condition of this contract or any forfeiture be held to be waived by any delay or omission by the Corporation in exercising its rights and powers thereunder.

24. *Forms.* Copies of the forms referred to in this policy are available at the county office.

25. *Meaning of terms.* For purposes of the citrus insurance program the terms:

(a) "County" means the area shown on the county acturial table which may include groves located in local producing area(s) bordering on the county.

(b) "County actuarial table" means the form(s) and related materials (including the crop insurance maps) which are approved annually by the Corporation and show the coverages per acre and the premium rates per acre applicable in the county.

(c) "County office" means the Corporation's office for the county, shown on the application for insurance or such other office as may be specified by the Corporation from time to time.

(d) "Crop year" means the period beginning April 1 and extending through June 30 of the following calendar year and shall be designated by reference to the calendar year in which the insurance period begins.

(e) "Date of premium payment" means the date an official receipt is issued to the insured by an authorized representative of the Corporation acknowledging that premium payment has been received in the county office or that satisfactory arrangements for the payment of the premium have been approved by the county office.

(f) "Harvest" means (i) any severance of the fruit from the tree either by pulling or clipping or (ii) picking the marketable fruit from the ground.

(g) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity and wherever applicable, a State, a political subdivision of a State, or any agency thereof.

NOTE: The reporting and/or record keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Adopted by the Board of Directors on January 15, 1954.

[SEAL] C. S. LAIDLAW,
Secretary,
Federal Crop Insurance Corporation.

Approved on January 22, 1954.

TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Subchapter B—Immigration Regulations

PART 214k—ADMISSION OF NONIMMIGRANTS: UNILATERAL ADMISSION OF MEXICAN AGRICULTURAL WORKERS

Chapter I of Title 8 of the Code of Federal Regulations is amended by adding thereto Part 214k as follows:

SUBPART A—SUBSTANTIVE PROVISIONS

Sec.
214k.1 Definitions.
214k.2 Conditions of admission.
214k.3 Admission; period; revocation.

Sec.
214k.4 Persons ineligible to employ agricultural workers; report on worker's leave of employment.
214k.5 Extension of stay; conditions.
214k.6 Readmission after temporary visits to Mexico.
214k.7 Previous removal, deportation; consent to reapply.
214k.8 Failure to maintain nonimmigrant status; arrest and further proceedings.

SUBPART B—PROCEDURAL AND OTHER NONSUBSTANTIVE PROVISIONS

214k.21 Conveyance of aliens to reception centers.
214k.22 Immigration inspection at reception centers; authority to admit.
214k.23 Reemployment in the United States.
214k.24 Duplicate identification cards.
214k.51 Extension of period of admission.

AUTHORITY: §§ 214k.1 to 214k.51 issued under sec. 103, 66 Stat. 173; 8 U. S. C. 1103. Interpret or apply Title V, 65 Stat. 119, secs. 214, 241, 242, 264, 405, 66 Stat. 189, 204, 208, 224, 281; 7 U. S. C. 1461-1468, 8 U. S. C. 1184, 1251, 1252, 1304, 1101 note.

SUBPART—SUBSTANTIVE PROVISIONS

§ 214k.1 *Definitions.* As used in this part:

(a) The term "agricultural worker" means a native-born citizen of Mexico at least 18 years of age who is a bona fide resident of Mexico and who seeks to enter the United States temporarily for the sole purpose of engaging in agricultural employment as defined in this section, and who is legally admitted to the United States for such purpose.

(b) The term "agricultural employment" means employment in connection with:

(1) Cultivation and tillage of the soil, planting, production, cultivation, growing, and harvesting of any agricultural or horticultural commodities, and any operations (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in connection with such activities, including the raising, shearing, feeding, caring for, training and management of livestock, preparations for market, delivery to storage, or to market, or to a carrier for transportation to market, and cotton ginning; or

(2) The maintenance of a farm and its tools and equipment, or salvaging of timber or clearing land of brush and other debris left by a hurricane, if the major part of such service is performed on a farm; or

(3) The maintenance of ditches, canals, reservoirs, or waterways, not owned or operated for profit and used exclusively for supplying or storing water for farming purposes; or

(4) The handling, drying, packing, packaging, processing, freezing, grading, or storing, in its unmanufactured state of any agricultural or horticultural commodity for the operator of a farm; but only if such operator shall have produced more than one-half of the commodity with respect to which the service is performed; or

(5) Any of the activities described in subparagraph (4) of this paragraph for a group of operators of farms, but only if such operators shall have produced the commodities with respect to which such activities are performed: *Provided,* that the provisions of this subparagraph and subparagraph (4) of this paragraph shall not be applicable to services performed in connection with commercial canning or commercial freezing, or in connection with any agricultural or horticultural commodities after their delivery to a terminal market for distribution or consumption.

(c) The term "employer" means:

(1) The operator of agricultural property who is engaged in agricultural employment and who has not been disapproved by the Commissioner of Immigration and Naturalization or an immigration officer acting for him; or

(2) A processor, shipper, or marketer of agricultural products who employs agricultural workers for work on crops purchased by him and who has not been disapproved by the Commissioner of Immigration and Naturalization or an immigration officer acting for him; or

(3) An association or other group of employers as defined in subparagraph (1) or (2) of this paragraph which has not been disapproved by the Commissioner of Immigration and Naturalization or an immigration officer acting for him, but only if those of its members for whom agricultural workers are being obtained are bound, in the event of its default, to carry out the obligations undertaken by it, unless the Secretary of Labor determines that such individual liability is not necessary to assure performance of such obligations.

(d) The term "certification" means the finding and determination by the Secretary of Labor that (1) sufficient domestic workers who are able, willing, and qualified are not available at the time and place needed to perform the work for which agricultural workers are to be employed, (2) the employment of such workers will not adversely affect the wages and working conditions of domestic agricultural workers similarly employed, and (3) reasonable efforts have been made to attract domestic workers for such employment at wages and standard hours of work comparable to those offered to foreign workers.

(e) The term "work agreement" means the contract entered into by the Secretary of Labor on behalf of the United States, the employer, and the agricultural worker with respect to the terms and conditions of employment.

(f) The term "reception center" means any place established by the Secretary of Labor within the United States to which workers are brought to be employed by employers and to which the workers will return upon termination of the work agreement.

(g) The term "Secretary of Labor" means the Secretary of Labor of the United States or his duly authorized representative.

§ 214k.2 *Conditions of admission.* A Mexican alien who applies for admission to the United States as an agricultural worker shall, as conditions of admission:

(a) Establish that he is in all respects admissible under the provisions of the immigration laws;

(b) Have been selected by an employer;

(c) Establish to the satisfaction of the examining immigration officer that, if admitted, he will comply with all of the conditions of such admission; and

(d) Have been selected by the Secretary of Labor as a qualified agricultural worker.

§ 214k.3 *Admission; period; revocation.* A Mexican alien found admissible under § 214k.2 may be admitted to the United States as an agricultural worker, provided:

(a) That the initial period of admission shall be that specified in the certification of the Secretary of Labor, but shall not exceed six months; and

(b) That the period of temporary admission shall be subject to immediate revocation, without notice, by the district director of the district having jurisdiction over the place of the worker's employment upon (1) failure of the worker to maintain his status as an agricultural worker by accepting any employment or engaging in any activities not specifically authorized, or violation by the employer or worker of the work agreement or of any condition under which the importation of such worker shall have been authorized or under which he is permitted to remain in the United States; or (2) withdrawal by the Secretary of Labor of the certification furnished the employer; or (3) determination and notification by the Secretary of Labor that sufficient domestic workers who are able, willing, and qualified are available at the time and place needed to perform the work for which such workers are employed, or that the employment of agricultural workers is adversely affecting the wages and working conditions of domestic agricultural workers similarly employed, or that reasonable efforts have not been made to attract domestic workers for such employment at wages and standard hours of work comparable to those offered to foreign workers.

§ 214k.4 *Persons ineligible to employ agricultural workers; report on worker's leave of employment.* (a) No agricultural workers shall be made available to, nor shall any such workers made available be permitted to remain in the employ of, any person (1) who has in his employ any Mexican alien when such person knows or has reasonable grounds to believe or suspect or by reasonable inquiry could have ascertained that such Mexican alien is not lawfully within the United States, or (2) who has not received a certification from, or whose certification is withdrawn by, the Secretary of Labor, or (3) who the Secretary of Labor determines has wilfully violated the individual work agreement. Whenever it shall appear that a Mexican alien not lawfully in the United States is employed by such a person, an investigation shall be made and a report submitted to the district director having jurisdiction over the place of the alien's employment. The temporary admission of all agricultural workers employed by such a person may be revoked in the manner provided in § 214k.3.

(b) If an agricultural worker leaves his employment without proper authorization, or dies (from either natural or accidental causes), or becomes seriously ill or injured, the employer shall submit an appropriate report within five days to the district director having jurisdiction over the reception center at which the worker was admitted. Such report shall contain (1) the worker's name, as shown in the employer's copy of the work agreement; (2) the worker's Form I–100a number; (3) the location of the reception center at which the worker was originally employed; and (4) the date the employment of the worker ceased. Upon failure of an employer to furnish the report required by this paragraph, his authorization to import and employ agricultural workers may be revoked.

§ 214k.5 *Extension of stay; conditions.* An alien admitted to the United States as an agricultural worker may be granted an extension or extensions of the period for which he was originally admitted by the district director or the officer in charge having jurisdiction over the place of the alien's employment: *Provided*, That any such extension shall be subject to the same conditions as those imposed upon his original admission: *And provided further*, That no extension shall be granted which would permit such alien to remain in the United States in excess of three years from the date of his original admission.

§ 214k.6 *Readmission after temporary visits to Mexico.* (a) An agricultural worker who has been admitted to the United States under this part may be readmitted after temporary visits to Mexico on presentation of Form I–100a, Alien Laborer's Permit and Identification Card, if he still maintains the status of an agricultural worker in the United States.

(b) An agricultural worker who is granted a furlough shall be furnished a letter by his employer indicating the time for which the furlough is granted and stating that all contractual obligations will be reassumed upon the alien's return to his employment after the furlough. The letter shall be appropriately noted by a representative of the United States Employment Service to show approval of the furlough.

§ 214k.7 *Previous removal, deportation; consent to reapply.* An alien who establishes that he is in all respects entitled to admission as an agricultural worker except that he has been previously removed at Government expense pursuant to section 242 (b) of the Immigration and Nationality Act, or has been excluded or arrested and deported, on not more than one occasion solely because of illegal entry or lack of required documents, is hereby granted consent to reapply for admission to the United States as an agricultural worker.

§ 214k.8 *Failure to maintain nonimmigrant status; arrest and further proceedings.* (a) An alien admitted to the United States as an agricultural worker shall be deemed to have failed to maintain his nonimmigrant status within the meaning of section 241 (a) (9) of the Immigration and Nationality Act if:

(1) He remains in the United States after the expiration of the time for which he is temporarily admitted or after the expiration of any authorized extension of such period; or

(2) He violates or fails to fulfill any of the other conditions of his admission to, or extended stay in, the United States; or

(3) He evidences orally or in writing or by conduct an intention to violate or to fail to fulfill any of the conditions of his temporary admission to, or extended stay in, the United States; or

(4) He remains in the United States after the period of his temporary admission or extended stay is revoked.

(b) Any alien admitted under this part who fails to maintain his nonimmigrant status shall be subject to being taken into custody and to being made the subject of further proceedings under the applicable provisions of the immigration laws and regulations.

SUBPART B—PROCEDURAL AND OTHER NONSUBSTANTIVE PROVISIONS

§ 214k.21 *Conveyance of aliens to reception centers.* If the immigration officer at the port of entry determines that an alien is a bona fide agricultural worker and is admissible as such upon selection by an employer, he shall permit the alien to proceed to the reception center in the custody of a representative of the Secretary of Labor. Such permission shall not be construed as a guarantee that the alien will be admitted to the United States, nor shall the alien be entitled to accept employment in the United States unless and until he has been issued Form I–100a. Such aliens shall be conveyed directly from the port of entry to the reception center at or near a port of entry, under the supervision of representatives of the Secretary of Labor, for completion of immigration inspection. The conveyance of an agricultural worker to a reception center shall not constitute an admission to the United States. Such alien shall be considered to have been admitted to the United States only after he has been inspected and issued Form I–100a.

§ 214k.22 *Immigration inspection at reception centers; authority to admit.* (a) An alien conveyed to a reception center who is found to be admissible as an agricultural worker may be so admitted by the examining immigration officer, at which time such officer shall fingerprint the alien:

(1) By placing the rolled impression of the right index finger on the Form I–100a, Alien Laborer's Permit and Identification Card, which shall be prepared in duplicate in each such case; and

(2) By placing complete fingerprints of both hands on one copy of Form AR–4.

(b) The examining immigration officer shall execute the obverse of Form AR–4 and shall place thereon the serial number of Form I–100a and a stamped notation reading "Admitted as agricultural worker"; and shall mail the executed form direct to the Federal Bureau of Investigation, Washington 25, D. C.

(c) The alien shall be given the Form I–100a bearing his photograph and stating his name, place of birth, and citizenship. Such form shall be duly noted by an immigration officer to show the date, place, and period of the alien's admission to the United States and shall be signed by such officer across the bottom of the photograph, partly on the photograph and partly on the card. Such noted card shall be the sole document required for admission to the United States as an agricultural worker.

§ 214k.23 *Reemployment in the United States.* During the period for which he is admitted, or any authorized extension thereof, an agricultural worker may, with the approval of the district director having jurisdiction over the place of the worker's employment and the appropriate representative of the United States Employment Service, be reemployed by the same or another employer. When an agricultural worker is so reemployed, his Form I–100a shall be appropriately noted, and the officer in charge having administrative jurisdiction over the port of the worker's entry shall be notified.

§ 214k.24 *Duplicate identification cards.* A duplicate of Form I–100a may be issued to an agricultural worker in the discretion of the district director or the officer in charge having jurisdiction over the place of the worker's employment if the original has been lost, mutilated, or destroyed. The officer in charge having administrative jurisdiction over the port of the worker's entry shall be notified of the issuance of such duplicate Form I–100a.

§ 214k.51 *Extension of period of admission.* Extension of the temporary admission of an alien admitted to the United States as an agricultural worker may be granted by the district director or the officer in charge having jurisdiction over the place of the alien's employment only upon determination and certification by the Secretary of Labor that:

(a) Sufficient domestic workers who are able, willing, and qualified are not available at the time and place needed to perform the work for which such workers are to be employed;

(b) The employment of such workers will not adversely affect the wages and working conditions of domestic agricultural workers similarly employed; and

(c) Reasonable efforts have been made to attract domestic workers for such employment at wages and standard hours of work comparable to those offered to foreign workers.

This order shall become effective on January 16, 1954. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date is impracticable and contrary to the public interest in this instance, since such compliance would unduly delay and impede the entry to the United States of needed agricultural workers.

Dated: January 21, 1954.

HERBERT BROWNELL, JR.,
Attorney General.

Recommended: January 8, 1954.

ARGYLE R. MACKEY,
Commissioner of Immigration and Naturalization.

[F. R. Doc. 54–589; Filed, Jan. 27, 1954; 8:53 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 22 to Revision of May 10, 1949]

PART 550—FEDERAL AID TO PUBLIC AGENCIES FOR DEVELOPMENT OF PUBLIC AIRPORTS

PROJECT COSTS

Acting pursuant to the authority vested in me by the Federal Airport Act, I hereby amend Part 550 of the regulations of the Civil Aeronautics Administration as follows:

Section 550.4 (c) (1) is hereby amended to read as follows:

§ 550.4 *Project costs.* * * *

(c) *United States share of project costs.* * * *

(1) *Project costs other than costs of installation of high intensity lighting on runways designated instrument landing runways.* The United States share of the project costs (other than costs of installation of high intensity lighting on runways designated instrument landing runways) of an approved project for the development of an airport, regardless of the size or location of the airport to be developed, shall be 50 percent of the allowable project costs of the project (other than costs of installation of high intensity lighting on runways designated instrument landing runways), except that this share, in the case of any State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) exceeding 5 percent of the total area of all lands therein shall be increased as provided in section 10 (b) of the act and except that the United States share shall be 75 percent in the case of the Territory of Alaska and the Virgin Islands, all as set forth in the following table:

UNITED STATES' PERCENTAGE SHARE OF ALLOWABLE PROJECT COSTS IN STATES CONTAINING UNAPPROPRIATED AND UNRESERVED PUBLIC LANDS AND NONTAXABLE INDIAN LANDS

Arizona	60.97
California	54.21
Colorado	53.22
Idaho	56.23
Montana	53.46
Nevada	62.50
New Mexico	56.53
Oklahoma	51.37
Oregon	55.99
South Dakota	52.99
Utah	62.30
Washington	51.76
Wyoming	57.25

NOTE: The percentages listed in this table will vary as changes occur with respect to the area of unappropriated and unreserved public lands and nontaxable Indian lands in the several States, in which event such changed percentages will be used by the Administrator in determining the United States share of allowable project costs other than costs of installing high intensity runway lighting on runways designated as instrument landing runways.

(Secs. 1–15, 60 Stat. 170–178, as amended; 49 U. S. C. and Sup., 1101–1114)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54–550; Filed, Jan. 27, 1954; 8:45 a. m.]

[Amdt. 25]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.104 *Amber civil airway No. 4 (Brownsville, Tex., to Minot, N. Dak.)* is amended between the "Fort Worth, Tex., radio range station" and the "Tulsa, Okla., radio range station" to read: "Fort Worth, Tex., radio range station; Oklahoma City, Okla., radio range station; the intersection of the southeast course of the Oklahoma City, Okla., radio range and the southwest course of the Tulsa, Okla., radio range; Tulsa, Okla., radio range station;".

2. Section 600.235 is amended to read:

§ 600.235 *Red civil airway No. 35 (Pueblo, Colo., to St. Joseph, Mo.).* From the Pueblo, Colo., radio range station via the La Junta, Colo., radio range station; Garden City, Kans., radio range station; Hutchinson, Kans., radio range station; the intersection of the east course of the Hutchinson, Kans., radio range and the southwest course of the Forbes AFB, Kans., radio range; Forbes AFB, Kans., radio range station to the intersection of the northeast course of the Forbes AFB, Kans., radio range and the south course of the St. Joseph, Mo., radio range.

3. Section 600.277 is amended to read:

§ 600.277 *Red civil airway No. 77 (Greensboro, N. C., to Atlantic City, N. J.).* From the Greensboro, N. C., radio range station via the Lynchburg, Va., radio range station; Richmond, Va.,

radio range station; Tappahannock, Va., radio range station; Dover, Del., AFB radio range station to the Atlantic City, N. J. (Navy) radio range station, excluding the portion below 6,000 feet which lies over Patuxent Danger Area No. 71 and excluding the portion which lies over Patuxent danger area No. 43.

4. Section 600.605 *Blue civil airway No. 5 (Galveston, Tex., to Wichita, Kans.)* is amended by deleting the portion which reads: "Dallas, Tex., radio range station to the intersection of the northwest course of the Dallas, Tex., radio range and the north course of the Fort Worth, Tex., radio range." and by adding the following in lieu thereof: "Dallas, Tex., radio range station; Ardmore, Okla., nondirectional radio beacon to the intersection of the south course of the Tinker AFB, Okla., radio range and the southeast course of the Oklahoma City, Okla., radio range."

5. Section 600.620 is amended to read:

§ 600.620 *Blue civil airway No. 20 (Millville, N. J., to Allentown, Pa.).* From the intersection of the southwest course of the Atlantic City, N. J., (Navy) radio range and the southeast course of the Millville, N. J., radio range via the intersection of the southeast course of the Millville, N. J., radio range and the southeast course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station; a point at latitude 40°15'00", longitude 75°22'45", to the Allentown, Pa., radio range station.

6. Section 600.6004 *VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.)* is amended after the Louisville, Ky., omnirange station to read: "Louisville, Ky., omnirange station, including a north alternate from the Evansville, Ind., omnirange station to the Louisville omnirange station; Lexington, Ky., omnirange station; Charleston, W. Va., omnirange station; Elkins, W. Va., omnirange station; Front Royal, Va., omnirange station; Herndon, Va., omnirange station to the point of intersection of the Herndon omnirange 089° True and the Washington, D. C., terminal omnirange 351° True radials."

7. Section 600.6016 is amended by changing the caption to read: *"VOR civil airway No. 16 (Los Angeles, Calif., to Boston, Mass.)"*, and by changing the portions after "to the Nashville, Tenn., omnirange station." to read: "From the Tri-City, Tenn., omnirange station via the Pulaski, Va., omnirange station; Montebello, Va., omnirange station; Gordonsville, Va., omnirange station; Andrews, Md., radio range station via the Gordonsville omnirange 056° True radial; a point at latitude 38°51'00" north, longitude 76°30'00" west bearing 062° True from the Andrews, Md., radio range station; Dover, Del., omnirange station via the Dover omnirange 244° True radial; Atlantic City, N. J., VAR station via the Dover omnirange 070° True radial; intersection of the Atlantic City VAR northeast course and the Colts Neck omnirange 204° True radial; Colts Neck, N. J., omnirange station; intersection of the Colts Neck omnirange 103° True and the Riverhead omnirange 222° True radials; Riverhead, N. Y., omnirange station; intersection of the Riverhead omnirange 042° True and the Norwich omnirange 224° True radials; Norwich, Conn., omnirange station to the Boston, Mass., omnirange station. Those portions of this airway between the Atlantic City, N. J., VAR station and the Colts Neck, N. J., omnirange station more than 3 miles either side of the center line are excluded."

8. Section 600.6034 is amended to read:

§ 600.6034 *VOR civil airway No. 34 (Rochester, N. Y., to Wilton, Conn.).* From the Rochester, N. Y., omnirange station via the Binghamton, N. Y., omnirange station; intersection of the Binghamton omnirange 110° True and the Wilton omnirange 300° True radials; Wilton, Conn., omnirange station to the point of intersection of the Wilton omnirange 090° True and the Norwich, Conn., omnirange 224° True radials.

9. Section 600.6035 is amended to read:

§ 600.6035 *VOR civil airway No. 35 (Tri-City, Tenn., to Syracuse, N. Y.).* From the Tri-City, Tenn., omnirange station via the intersection of the Tri-City omnirange 012° True and the Charleston omnirange 185° True radials; Charleston, W. Va., omnirange station; Parkersburg, W. Va., omnirange station; intersection of the Parkersburg omnirange 060° True and the Pittsburgh omnirange 223° True radials; Pittsburgh, Pa., omnirange station; Philipsburg, Pa., omnirange station; Elmira, N. Y., omnirange station to the Syracuse, N. Y., omnirange station.

10. Section 600.6036 is amended to read:

§ 600.6036 *VOR civil airway No. 36 (Buffalo, N. Y., to New York, N. Y.).* From the Buffalo, N. Y., omnirange station via the Elmira, N. Y., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station to the intersection of the Wilkes-Barre-Scranton omnirange 117° True and the Wilton, Conn., omnirange 233° True radials.

11. Section 600.6046 is amended to read:

§ 600.6046 *VOR civil airway No. 46 (New York, N. Y., to Nantucket, Mass.).* From the point of intersection of the Riverhead, N. Y., omnirange 262° True and the Wilton, Conn., omnirange 198° True radials via the Riverhead, N. Y., omnirange station; intersection of the Riverhead omnirange 085° True and the Nantucket omnirange 255° True radials to the Nantucket, Mass., omnirange station.

12. Section 600.6113 is amended to read:

§ 600.6113 *VOR civil airway No. 113 (Paso Robles, Calif., to Reno, Nev.).* From the Paso Robles, Calif., omnirange station via the intersection of the Paso Robles omnirange 352° True and the Modesto omnirange 176° True radials; Modesto, Calif., omnirange station to the Reno, Nev., omnirange station.

13. Section 600.6119 is amended to read:

§ 600.6119 *VOR civil airway No. 119 (Huntington, W. Va., to Bradford, Pa.).* From the Huntington, W. Va., nondirectional radio beacon via the Parkersburg, W. Va., omnirange station; Wheeling, W. Va., omnirange station; Pittsburgh, Pa., omnirange station; intersection of the Pittsburgh omnirange 040° True and the Bradford omnirange 210° True radials to the Bradford, Pa., omnirange station.

14. Section 600.6130 is added to read:

§ 600.6130 *VOR civil airway No. 130 (Hartford, Conn., to Providence, R. I.).* From the Hartford, Conn., omnirange station via the Norwich, Conn., omnirange station to the point of intersection of the Norwich omnirange 090° True radial and the Providence, R. I., ILS localizer course (Wyoming, R. I., fan marker).

15. Section 600.6138 is added to read:

§ 600.6138 *VOR civil airway No. 138.* [Unassigned.]

16. Section 600.6139 is added to read:

§ 600.6139 *VOR civil airway No. 139 (Norwich, Conn., to Boston, Mass.).* From the Norwich, Conn., omnirange station via the intersection of the Norwich omnirange 090° True radial and the Providence, R. I., ILS localizer course at the Wyoming, R. I., fan marker; Providence, R. I., ILS localizer; intersection of the Providence ILS localizer course and the Boston ILS localizer course at the Easton, Mass., fan marker to the Boston, Mass., localizer.

17. Section 600.6140 is added to read:

§ 600.6140 *VOR civil airway No. 140.* [Unassigned.]

18. Section 600.6141 is added to read:

§ 600.6141 *VOR civil airway No. 141 (Nantucket, Mass., to Boston, Mass.).* From the Nantucket, Mass., omnirange station via the intersection of the Nantucket omnirange 331° True and the Boston omnirange 137° True radials to the Boston, Mass., omnirange station.

19. Section 600.6142 is added to read:

§ 600.6142 *VOR civil airway No. 142.* [Unassigned.]

20. Section 600.6143 is added to read:

§ 600.6143 *VOR civil airway No. 143 (Montebello, Va., to Front Royal, Va.).* From the Montebello, Va., omnirange station to the Front Royal, Va., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., February 2, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-551; Filed, Jan. 27, 1954; 8:45 a. m.]

[Amdt. 25]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.277 is amended to read:

§ 601.277 *Red civil airway No. 77 control areas (Greensboro, N. C., to Atlantic City, N. J.).* All of Red civil airway No. 77.

2. Section 601.620 is amended to read:

§ 601.620 *Blue civil airway No. 20 control areas (Millville, N. J., to Allentown, Pa.).* All of Blue civil airway No. 20.

3. Section 601.1130 is amended to read:

§ 601.1130 *Control area extension (Spokane, Wash.).* Within 5 miles either side of the north course of the Spokane radio range extending from the radio range station to a point 25 miles north, within 5 miles either side of the 22° and 322° True radials of the Spokane omnirange extending from the omnirange station to points 25 miles northeast and northwest; that airspace southwest of Spokane bounded on the north by Green civil airway No. 2, on the east by VOR civil airway No. 103 and on the southwest by a line 5 miles southwest of and parallel to a direct line between the Pine City and Harrington, Wash., fan markers; that airspace southeast of Spokane bounded on the north by VOR civil airway No. 2, on the west by Blue civil airway No. 1 and on the southeast by a line 5 miles southeast of and parallel to a direct line between the Pine City, Wash., fan marker and the intersection of the east course of the Spokane radio range and the south course of the Coeur d'Alene, Idaho radio range, and that airspace east of Spokane bounded on the south by Green civil airway No. 2 and on the northwest and northeast by Red civil airway No. 48.

4. Section 601.1150 *Control area extension (Wilmington, N. C.)* is amended by changing the last portion to read: "excluding that portion below 2,000 feet which lies outside the continental limits of the United States."

5. Section 601.1167 is added to read:

§ 601.1167 *Control area extension (Ontario, Oreg.).* That airspace within an 8½-mile radius of the Ontario, Oreg., airport including the airspace southeast of Ontario bounded on the northeast by Red civil airway No. 1, on the south by the Boise, Idaho, control area extension and on the southwest by a line 12 miles southwest of and parallel to Red civil airway No. 1.

6. Section 601.1284 is amended to read:

§ 601.1284 *Control area extension (Oklahoma City, Okla.).* All that airspace within a 25-mile radius of the Oklahoma City, Okla., radio range station, including the airspace east of Oklahoma City bounded on the northwest by VOR civil airway No. 14 and on the south and southeast by Amber civil airway No. 4, and the airspace northeast of Oklahoma City bounded on the north by a line extending through points at latitude 36°01'45", longitude 97°20'25" and latitude 36°05'00", longitude 97°01'10", on the southeast by VOR civil airway No. 14N and on the west by VOR civil airway No. 77.

7. Section 601.1286 is amended to read:

§ 601.1286 *Control area extension (Fort Worth, Tex.).* All that airspace between Waco, Tex., Fort Worth-Dallas, Tex., and Oklahoma City, Okla., bounded on the southeast and east by Blue civil airway No. 5, on the southwest and west by Amber civil airway No. 4 and on the north by the Oklahoma City, Okla., control area extension; all that airspace between Waco, Tex., Fort Worth, Tex., Wichita Falls, Tex., and Abilene, Tex., bounded on the east by Amber civil airway No. 4, on the northeast by Red civil airway No. 10, on the northwest by Blue civil airway No. 6, on the south by Green civil airway No. 5 to Mineral Wells, Tex., thence on the west and southwest by Blue civil airway No. 70.

8. Section 601.1983 *Three mile radius zones* is amended by deleting the following airports:

Salem, Oreg.: Salem-McNary Airport.
Spokane, Wash.: Fairchild AFB.

9. Section 601.1984 *Five mile radius zones,* is amended by deleting the following airport:

Spokane, Wash.: Geiger Municipal Airport.

10. Section 601.2264 *Dunkirk, N. Y., control zone* is revoked.

11. Section 601.2264 is added to read:

§ 601.2264 *Spokane, Wash., control zone.* Within a 5-mile radius of Geiger Field and within a 3-mile radius of Fairchild AFB including the airspace within 2 miles either side of the southwest course of the Geiger Field ILS localizer extending from Geiger Field to a point 10 miles southwest of the ILS outer marker.

12. Section 601.4277 is amended to read:

§ 601.4277 *Red civil airway No. 77 (Greensboro, N. C., to Atlantic City, N. J.).* No reporting point designation.

13. Section 601.4620 is amended to read:

§ 601.4620 *Blue civil airway No. 20 (Millville, N. J., to Allentown, Pa.).* No reporting point designation.

14. Section 601.5001 *Other reporting points* is amended by adding the following reporting point:

Parallon Island, Calif., non-directional radio beacon.

15. Section 601.6016 is amended to read:

§ 601.6016 *VOR civil airway No. 16 control areas (Los Angeles, Calif., to Boston, Mass.).* All of VOR civil airway No. 16, including north and south alternates.

16. Section 601.6034 is amended to read:

§ 601.6034 *VOR civil airway No. 34 control areas (Rochester, N. Y., to Wilton, Conn.).* All of VOR civil airway No. 34.

17. Section 601.6035 is amended to read:

§ 601.6035 *VOR civil airway No. 35 control areas (Tri-City, Tenn., to Syracuse, N. Y.).* All of VOR civil airway No. 35.

18. Section 601.6046 is amended to read:

§ 601.6046 *VOR civil airway No. 46 control areas (New York, N. Y., to Nantucket, Mass.).* All of VOR civil airway No. 46.

19. Section 601.6113 is amended to read:

§ 601.6113 *VOR civil airway No. 113 control areas (Paso Robles, Calif., to Reno, Nev.).* All of VOR civil airway No. 113.

20. Section 601.6119 is amended to read:

§ 601.6119 *VOR civil airway No. 119 control areas (Huntington, W. Va., to Bradford, Pa.).* All of VOR civil airway No. 119.

21. Section 601.6130 is added to read:

§ 601.6130 *VOR civil airway No. 130 control areas (Hartford, Conn., to Providence, R. I.).* All of VOR civil airway No. 130.

22. Section 601.6138 is added to read:

§ 601.6138 *VOR civil airway No. 138 control areas.* [Unassigned.]

23. Section 601.6139 is added to read:

§ 601.6139 *VOR civil airway No. 139 control areas (Norwich, Conn., to Boston, Mass.).* All of VOR civil airway No. 139.

24. Section 601.6140 is added to read:

§ 601.6140 *VOR civil airway No. 140 control areas.* [Unassigned.]

25. Section 601.6141 is added to read:

§ 601.6141 *VOR civil airway No. 141 control areas (Nantucket, Mass., to Boston, Mass.).* All of VOR civil airway No. 141.

26. Section 601.6142 is added to read:

§ 601.6142 *VOR civil airway No. 142 control areas.* [Unassigned.]

27. Section 601.6143 is added to read:

§ 601.6143 *VOR civil airway No. 143 control areas (Montebello, Va., to Front Royal, Va.).* All of VOR civil airway No. 143.

28. Section 601.7001 *Domestic VOR reporting points* is amended by deleting the following reporting point:

Caldwell, N. J., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551).

This amendment shall become effective 0001 e. s. t. February 2, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-552; Filed, Jan. 27, 1954; 8:46 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 369; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18) the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 146; 18 F. R. 3533, 18 F. R. 1207) are amended as indicated below:

1. In § 141.1 *Sodium penicillin* • • • amend paragraph (e) *Preparation of plates* by inserting between the eighteenth and nineteenth sentences the following: "(In the preparation of the suspensions of the test organism on agar slants and Roux bottles, the 24-hour storage periods at room temperature may be omitted if the suspensions will permit 20-percent light transmission through a filter at 6,500 angstrom units in a photoelectric colorimeter.)"

2. In § 146.101 *Streptomycin sulfate* • • • paragraph (c) (3) (iii) is amended to read:

(c) *Labeling.* • • •

(3) • • •

(iii) The conditions under which such solutions should be stored, including the statement "Sterile solutions may be stored at room temperature for 4 weeks without significant loss of potency."

3. In § 146.414 *Bacitracin-neomycin with vasoconstrictor* • • • the first sentence of paragraph (a) (2) is amended by changing the period at the end thereof to a comma and adding the following new clause: "except that the blank may be filled in with the date which is 18 months after the month during which the batch was certified if the person who requests certification has submitted to the Commissioner results of tests and assays showing that such drug as prepared by him is stable for such period of time."

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: January 21, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

[F. R. Doc. 54-594; Filed, Jan. 27, 1954; 8:54 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 204—DANGER ZONE REGULATIONS

CHESAPEAKE BAY AREA

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 204.42 governing the use and navigation of waters of Chesapeake Bay from Point Lookout to Cedar Point, Maryland, comprising an aerial gunnery range and target areas, is hereby amended to include an additional target area, as follows:

§ 204.42 *Chesapeake Bay, Point Lookout to Cedar Point; aerial gunnery range and target areas, U. S. Naval Air Station, Patuxent River, Md.*—(a) *Aerial gunnery range*—(1) *The danger zone.* The waters of Chesapeake Bay within an area described as follows: Beginning at the easternmost extremity of Cedar Point; thence easterly to the southern tip of Barren Island; thence southeasterly to latitude 38°01'15", longitude 76°05'33"; thence southwesterly to Kedges Strait Middle Ground Buoy 14 (approximately latitude 37°59'36", longitude 76°10'30"); thence northwesterly to Fish Net Buoy 20 W (approximately latitude 38°02'20", longitude 76°17'-26");thence northerly to Point No Point Light; thence northwesterly to the shore at latitude 38°15'45"; thence northeasterly along the shore to the point of beginning. Aerial machine gun practice will be conducted in this area throughout the year.

(2) *The regulations.* (i) Through navigation of surface craft will be permitted at all times outside the target areas. Such vessels shall proceed on their normal course and shall not delay their progress.

(ii) Advance notice will be given of the date on which firing practice is to begin, and such notice will be published in "Notice to Mariners". The range will be used throughout the year, and no further notice that firing is continuing will be given.

(iii) Prior to firing practice the gunnery range will be patrolled by surface craft or naval aircraft to warn any watercraft likely to be endangered by such firing by means of signals that firing is to take place. Surface craft so used will display a square flag. Naval aircraft will employ a method of warning consisting of repeated shallow dives to a low altitude in the area following each dive with a sharp pull-up.

(iv) Any watercraft under way or at anchor, upon being so warned, shall immediately vacate the area and shall remain outside the area until conclusion of firing practice.

(v) Military and naval vessels will conduct gunnery and training exercises in the aerial gunnery range. When there is apparent conflict between surface craft with attendant planes and planes operating under the control of the Naval Test Center, Patuxent River, Maryland, planes from the Naval Test Center are expected to keep clear.

(vi) Nothing in this section shall prevent oystering or the setting of fishing structures within the range outside the target areas in accordance with approved Federal and State regulations: Provided, that no permanent or semipermanent fishing structures or oyster ground marker shall be placed on the western side of Chesapeake Bay between Point No Point and Cedar Point, without prior written approval of the Commanding Officer, U. S. Naval Air Station, Patuxent River, Maryland.

(vii) When operations are being conducted in the target areas, all projectiles, bombs, and other missiles will be released to fall within the areas, but naval authorities will not be responsible for damage by such missiles or by Naval or Coast Guard vessels to fishing structures or fishing equipment which may be located adjacent to the target areas.

(b) *Target areas*—(1) *Prohibited areas.* (i) A circular area with a radius of 400 yards having its center at latitude 38°16'54", longitude 76°22'00" (bearing approximately 176° true, 1,870 yards from Cedar Point Light).

(ii) A circular area with a radius of 600 yards having its center at latitude 38°13'00", longitude 76°19'00" (bearing approximately 153° true, 11,130 yards from Cedar Point Light).

(2) *Restricted area.* A circular area with a radius of 600 yards having its center at latitude 38°02'18", longitude 76°09'26" (bearing approximately 237° 50' true, 7,000 yards from Holland Island Bar Light).

(3) *The regulations.* (i) Nonexplosive aerial projectiles will be dropped at infrequent intervals in the areas described in subparagraph (1) (i) and (ii) of this paragraph. The areas shall be closed to navigation at all times except for vessels engaged in operational and maintenance operations as directed by the Commanding Officer, U. S. Naval Air Station, Patuxent River, Maryland. The areas will be patrolled and vessels "buzzed" by the patrol plane prior to the conduct of operations in the areas. Vessels which have inadvertently entered the danger zones upon being so warned shall leave the areas immediately.

(ii) Nonexplosive aerial projectiles will be dropped and aerial machine gun firing will be conducted in the area described in subparagraph (2) of this paragraph. Operations will be conducted throughout the year from sunrise to sunset daily and no vessel or other craft shall enter or remain in the area during daylight hours, except on prior written approval of the Commanding Officer, U. S. Naval Station, Patuxent River, Maryland. The area will be patrolled and vessels "buzzed" by the patrol plane prior to the conduct of operations in the area. Vessels which have inadvertently entered the danger zone upon being so warned shall leave the area immediately.

(c) The regulations in this section shall be enforced by the Commandant, Fifth Naval District, and such agencies as he may designate.

PART 204—DANGER ZONE REGULATIONS

ALBEMARLE SOUND, PAMLICO SOUND, AND ADJACENT WATERS, NORTH CAROLINA

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), and Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), section 204.54 establishing and governing the use and navigation of danger zones for naval aircraft operations in Albemarle Sound, Pamlico Sound, and adjacent waters, North Carolina, is hereby amended, changing paragraphs (a) and (d) (1) to include an additional target area in the waters of North Landing River, as follows:

§ 204.54 *Albemarle Sound, Pamlico Sound, and adjacent waters, N. C.; danger zones for naval aircraft operations*—(a) *Target areas*—(1) *North Landing River (Currituck Sound).* The waters of North Landing River within a radius of 1,000 yards from a target located at latitude 36°31'00", longitude 76°01'40".

(2) *Northern part of Currituck Sound.* Beginning at a point bearing 65° 30', 1,025 yards, from Currituck Sound Light 69; thence 86°, 6,000 yards; thence 193°, 4,425 yards; thence 267° 30', 2,775 yards; and thence to the point of beginning. The target is located at latitude 36 27'16", longitude 75°56'30".

(3) *North of Currituck Beach Light.* The waters of Currituck Sound and the Atlantic Ocean within a radius of 1,000 yards from a target located at latitude 36°25'24", longitude 75°50'09".

(4) *South of Caffey Inlet Coast Guard Station.* The waters of Currituck Sound and the Atlantic Ocean within a radius of 1,000 yards from a target located at latitude 36°12'15", longitude 75°45'57".

(5) *Southeast of Caffey Inlet Coast Guard Station.* The waters of Currituck Sound and the Atlantic Ocean within an area described as follows: Beginning at a point bearing 170°, 5,900 yards, from Caffey Inlet Coast Guard Station; thence 55° 30', 7,650 yards; thence 177°, 8,700 yards; and thence to the point of beginning. The target is located at latitude 36°10'28", longitude 75°45'04".

NOTE: All bearings in this section are referred to true meridian.

• • • • •

(d) *The regulations*—(1) *Target areas.* The area described in subparagraph (1) of paragraph (a) of this section will be used as a dive bombing target by naval aircraft. In peacetime, munitions will be limited to miniature bombs which contain only small explosive charges for producing smoke puffs to mark points of impact. All operations will be conducted during daylight hours, and the area will be open to navigation at night. No vessel shall enter this area during the hours of daylight without special permission from the enforcing agency. The area will be patrolled and vessels will be warned not to enter. "Buzzing" by plane will warn vessels that they are in a danger zone, and upon being so warned they shall immediately leave the area. The areas described in subparagraphs (2), (3), (4) and (5) of paragraph (a) of this section will be used as target areas by naval aircraft. The areas shall be closed to navigtion at all times, except for vessels engaged in operational and maintenance work as directed by the enforcing agency. Prior to the conduct of operations the areas will be patrolled by naval aircraft. "Buzzing" by plane will warn vessels that they are in a danger zone, and upon being so warned vessels which have inadvertently entered one of the areas shall immediately leave the area or areas.

• • • • • •

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 64—MISCELLANEOUS RULES RELATING TO COMMON CARRIERS

INSTRUCTIONS FOR CONDUCT OF DOMESTIC TELEGRAPH SPEED OF SERVICE STUDIES AND SUBMISSION OF REPORTS THEREOF

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954:

The Commission, having under consideration a letter dated December 15, 1953, from the Western Union Telegraph Company requesting that § 64.221 of Subpart B of Part 64 of the Commission's rules and regulations governing domestic telegraph speed of service studies be amended, effective February 1, 1954, to delete Charlotte, North Carolina, from the cities listed therein at which Western Union is required to conduct monthly speed of service studies, and to substitute, in lieu thereof, Milwaukee, Wisconsin;

It appearing, that the major portion of the relay traffic load has been removed from Charlotte and placed in the Richmond, Virginia, reperforator office, thereby leaving very little traffic in the Charlotte office to be tallied for speed of service purposes; and that Western Union's manually-operated message center at Milwaukee, Wisconsin, currently handles the largest volume of domestic telegraph traffic of any office not now listed in § 64.221 of the rules;

It further appearing, that notice of proposed rule-making pursuant to section 4 (a) of the Administrative Procedure Act may be omitted as unnecessary because the proposed amendment involves only a minor change in the Commission's rules;

It further appearing, that such rule change may be made effective on less than 30 days notice inasmuch as Western Union is the only person affected by the change and it has requested that the amendment be made effective February 1, 1954;

It further appearing, that authority for the proposed amendment is contained in sections 4 (i) and 218 of the Communications Act of 1934, as amended;

It is ordered, That, effective February 1, 1954, § 64.221 of Subpart B of Part 64 of the Commission's rules and regulations governing domestic telegraph speed of service studies is amended by deleting "Charlotte, N. C." from the list of cities therein and adding "Milwaukee, Wis." immediately following "Los Angeles Calif."

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 218, 48 Stat. 1077; 47 U. S. C. 218)

Released: January 21, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WM. P. MASSING,
Acting Secretary.

[F. R. Doc. 54-560; Filed, Jan. 27, 1954; 8:47 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

FROZEN STRAWBERRIES[1]

U. S. STANDARDS FOR GRADES

Notice is hereby given that the United States Department of Agriculture is considering the revision, as herein proposed, of United States Standards for Grades of Frozen Strawberries pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq.; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83d Cong., approved July 28, 1953). The proposal provides three grades for the product above Substandard instead of only two grades as in the present standards (7 CFR Part 52; 18 F. R. 8059). This revision, if made effective, will be the fifth issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed revision should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, SIZES AND GRADES

Sec.
52.1981 Product description.
52.1982 Styles of frozen strawberries.
52.1983 Sizes of whole frozen strawberries.
52.1984 Grades of frozen strawberries.

FACTORS OF QUALITY

52.1985 Ascertaining the score and grade for frozen strawberries.
52.1986 Ascertaining the score of each factor for frozen strawberries.
52.1987 Color.
52.1988 Defects.
52.1989 Character.

LOT CERTIFICATION TOLERANCE

52.1990 Tolerances for certification of officially drawn samples.

[Reserved]

52.1991 Score sheet for frozen strawberries.

AUTHORITY: §§ 52.1981 to 52.1991 issued under sec. 205, 60 Stat. 1090, 7 U. S. C. 1624; Pub. Law 156, 83d Cong.

PRODUCT, DESCRIPTION, STYLES, SIZES AND GRADES

§ 52.1981 *Product description.* Frozen strawberries means the frozen product prepared from sound, properly ripened fresh fruit of the strawberry plant by stemming, proper washing, sorting, and properly draining, may be packed with or without packing media, and are then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

§ 52.1982 *Styles of frozen strawberries.* (a) "Whole."

(b) "Sliced."

§ 52.1983 *Sizes of whole frozen strawberries.* Except with respect to U. S. Grade A or U. S. Fancy grade, the size of the whole frozen strawberry is not incorporated in the grades of the finished product since size, as such, is not a factor of quality for the purpose of these grades. When used in connection with the following sizes of whole frozen strawberries, the term "diameter" means the greatest dimension measured at right angles to a straight line running from the stem to the apex:

(a) Small size means whole frozen strawberries that measure less than ¾ inch in diameter.

(b) Medium size means whole frozen strawberries that measure ¾ inch to one inch, inclusive, in diameter.

(c) Large size means whole frozen strawberries that measure more than one inch in diameter.

§ 52.1984 *Grades of frozen strawberries.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen strawberries that possess similar varietal characteristics; that possess a good flavor; that possess a good color; that are practically free from defects; that possess a good character; that score not less than 90 points when scored in accordance with the scoring system outlined in this section and that with respect to whole style contain not more than 5 percent, by count, of whole strawberries that are small size.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of frozen strawberries that possess similar varietal characteristics; that possess a good flavor; that possess a reasonably good color; that are reasonably free from defects; that possess a reasonably good character; and that score not less than 80 points when scored in accordance with the scoring system outlined in this section.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen strawberries that possess similar varietal characteristics; that possess a fairly good flavor; that possess a fairly good color; that are fairly free from defects; that possess a fairly good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(d) "Substandard" is the quality of frozen strawberries that fail to meet the requirements of "U. S. Grade C" or "U. S. Standard."

FACTORS OF QUALITY

§ 52.1985 *Ascertaining the score and grade for frozen strawberries.* (a) The grade of frozen strawberries is determined immediately after thawing to the extent that the units may be separated easily. The grade of frozen strawberries is ascertained by considering with respect to varietal characteristics, flavor and odor, and size relative to U. S. Grade A or U. S. Fancy which are not scored and the requirements and the factors of color, defects, and character, which are scored.

(b) The relative importance of each factor has been expressed numerically on the scale of 100. The maximum number of points that may be given for each factor is:

Factors:	Points
Color	40
Defects	40
Character	20
Total score	100

(c) "Good flavor" means that the product has a good characteristic, normal flavor and odor, and is free from objectionable flavors or objectionable odors of any kind.

(d) "Fairly good flavor" means that the product may be lacking in good characteristic normal flavor and odor but is free from objectionable flavors or objectionable odors of any kind.

§ 52.1986 *Ascertaining the score of each factor for frozen strawberries.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor is inclusive. For example, the range "36 to 40 points" means 36, 37, 38, 39, or 40 points.

§ 52.1987 *Color*—(a) *(A) classification.* Frozen strawberries that possess a good color may be given a score of 36 to 40 points. "Good color" means that the frozen strawberries possess a good red or good pink color characteristic of similar varieties, which is not more than slightly affected by a dull, grey, or reddish-brown cast, and that:

(1) With respect to whole style 85 percent or more by count, of the strawberries have practically the entire surface red or pink characteristic color, but of the balance not more than 5 percent, by count, of all the strawberries may have less than ⅘ of the surface area of a characteristic red or pink color, and that:

(2) With respect to sliced style 85 percent or more, by weight, of the strawberries have practically the entire outer surface (not including cut surfaces) of the slice red or pink characteristics color, but of the balance not more than 5 percent by weight, of all the slices may have less than ⅘ of the outer surface of the slice (not including cut surfaces) red or pink characteristic color.

(b) *(B) classification.* If the frozen strawberries possess a reasonably good color, a score of 32 to 35 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen strawberries possess a reasonably good red or reasonably good pink color characteristic of similar varieties, which is not materially affected by a dull, grey, or reddish-brown cast, and that:

(1) With respect to the whole style 75 percent or more, by count, of the strawberries have practically the entire surface red or pink characteristic color, but of the balance not more than 10 percent, by count, of all the strawberries may have less than ⅘ of the surface area of a characteristic red or pink color, and that:

(2) With respect to sliced style 75 percent or more, by weight, of the strawberries have practically the entire outer surface (not including cut surfaces) of the slice red or pink characteristic color, but of the balance not more than 10 percent, by weight, of all the slices may have less than ⅘ of the outer surface of the slice (not including cut surfaces) red or pink characteristic color.

(c) *(C) classification.* If the frozen strawberries possess a fairly good color, a score of 28 to 31 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the frozen strawberries possess a fairly good red or fairly good pink color characteristic of similar varieties, that may show a dull, grey, or reddish-brown cast, but not to the extent that the appearance or eating quality is seriously affected, and that:

(1) With respect to whole style not more than 25 percent, by count, of the strawberries may have less than ⅘ of the surface area of a characteristic red or pink color, and that:

(2) With respect to sliced style not more than 25 percent, by weight, of the slices may have less than ⅘ of the outer surface of the slice (not including cut surfaces) red or pink characteristic color.

(d) *(SStd) classification.* Frozen strawberries that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1988 *Defects*—(a) *General.* The factor of defects refers to the degree of freedom from grit, sand, or silt, from harmless extraneous material, caps and portions thereof, sepal-like bracts and portions thereof, stems, short stems, and damaged strawberries.

(1) "Harmless extraneous material" means vegetable substances such as weeds, grass, and leaves and any portions thereof that are harmless.

(2) "Grit, sand, or silt" means any particles of earthy material.

(3) A "cap" means a loose or attached full cap or portion of a cap to which at least one sepal-like bract or a portion thereof is attached. A "short stem" that is attached to the cap is considered a part of the cap. A "stem" that is attached to the cap is considered a separate defect.

(4) A "stem" means a stem, either loose or attached, that is longer than one-eighth inch.

(5) A "short stem" means a stem that is one-eighth inch or less in length and which may include the center portion of a cap to which no sepal-like bract or portion thereof is attached.

(6) A "damaged strawberry" means a strawberry or a portion of a strawberry that is damaged by bruises or by other injury or possesses a hard, seedy, or deformed end or that possesses deformed or damaged areas which materially affect either the appearance or edibility of the product. Minute, insignificant injuries are not considered as damage.

(7) "Area" means the aggregate surface covered by the material stated when such material or portions thereof are placed in a contiguous position with no intervening spaces.

(b) *(A) classification.* Frozen strawberries that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" has the following meanings with respect to the following styles of frozen strawberries:

(1) *Whole.* No grit, sand, or silt may be present that affects the appearance or eating quality of the product and for each 16 ounces of net weight there may be present an area of not more than one-fourth square inch comprising harmless extraneous material (such as leaves and portions thereof), caps and portions thereof, and loose sepal-like bracts and portions thereof; not more than two stems, including not more than one stem which may exceed one-half inch in length, or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and not more than 16 short stems; and there may be present not more than a total of 5 percent, by weight, that are damaged strawberries.

(2) *Sliced.* No grit, sand, or silt may be present that affects the appearance or eating quality of the product and for each 16 ounces of net weight there may be present an area of not more than one-fourth square inch comprising harmless extraneous material (such as leaves and portions thereof); caps and portions thereof, and loose sepal-like bracts and portions thereof; not more than one stem which may exceed one-half inch in length, or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and not more than 16 short stems; and there may be present not more than a total of 2½ percent, by weight, that are damaged portions of strawberries.

(c) *(B) classification.* If the frozen strawberries are reasonably free from defects, a score of 32 to 35 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" has the following meanings with respect to the following styles of frozen strawberries.

(1) *Whole.* No grit, sand, or silt may be present that affects the appearance or eating quality of the product and for each 16 ounces of net weight there may be present an area of not more than one-half square inch comprising harmless extraneous material (such as leaves and portions thereof), caps and portions thereof, and loose sepal-like bracts and portions thereof; not more than four stems, including not more than one stem which may exceed one-half inch in length, or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and not more than 32 short stems; and there may be present not more than a total of 10 percent, by weight, that are damaged strawberries.

(2) *Sliced.* No grit, sand, or silt may be present that affects the appearance or eating quality of the product and for each 16 ounces of net weight there may be present an area of not more than ½ square inch comprising harmless extraneous material (such as leaves and portions thereof), caps, and portions thereof, and loose sepal-like bracts and portions thereof; not more than four stems, including not more than one stem which may exceed ½ inch in length or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and not more than 32 short stems; and there may be present not more than a total of 5 percent, by weight, that are damaged portions of strawberries.

(d) *(C) classification.* If the frozen strawberries are fairly free from defects, a score of 28 to 31 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" has the following meanings with respect to the following styles of frozen strawberries:

(1) *Whole.* A trace of grit, sand, or silt may be present that does not materially affect the appearance or eating quality of the product and for each 16 ounces of net weight, there may be present an area of not more than ¾ square inch comprising harmless extraneous material (such as leaves and portions thereof), caps and portions thereof, and loose sepal-like bracts and portions thereof; not more than 6 stems, including not more than one stem which may exceed ½ inch in length, or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and there may be present not more than a total of 20 percent, by weight, that are damaged strawberries.

(2) *Sliced.* A trace of grit, sand, or silt may be present that does not materially affect the appearance or eating quality of the product and for each 16 ounces of net weight, there may be present an area of not more than ¾ square inch comprising harmless extraneous material (such as leaves and portions thereof), caps and portions thereof, and loose sepal-like bracts and portions thereof; not more than 6 stems, includ-

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

ing not more than one stem which may exceed ½ inch in length, or one piece of harmless extraneous material that is not measurable by area (such as weeds and blades of grass); and there may be present not more than a total of 10 percent, by weight, that are damaged portions of strawberries.

(e) *(SStd) classification.* Frozen strawberries that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1989 *Character—(a) General.* The factor of character refers to the texture and the degree of wholeness, degree of disintegration as evidenced by partial strawberries and mushy strawberries.

(1) A "partial strawberry" in whole style means that less than ¾ of the apparent whole strawberry remains intact.

(2) "Mushy strawberries" in whole and sliced styles are strawberries that are so soft that they are a pulpy mass and with respect to sliced style also includes badly disintegated slices.

(b) *(A) classification.* Frozen strawberries that possess a good character may be given a score of 18 to 20 points. "Good character" means that the strawberries are fleshy, reasonably firm, that the appearance and eating quality of the product are not materially affected by disintegration or seediness and that:

(1) Not more than 10 percent, by weight, of strawberries in whole style may be partial strawberries and mushy strawberries; and

(2) Not more than 15 percent, by weight, of strawberries in sliced style may be mushy strawberries.

(c) *(B) classification.* If the frozen strawberries have a reasonably good character, a score of 16 or 17 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the strawberries are reasonably fleshy, fairly firm, that the appearance and eating quality of the product are not seriously affected by seediness or disintegration, and that:

(1) Not more than 20 percent, by weight, of strawberries in whole style may be partial strawberries and mushy strawberries; and

(2) Not more than 25 percent, by weight, of strawberries in sliced style may be mushy strawberries.

(d) *(C) classification.* If the frozen strawberries have a fairly good character, a score of 14 or 15 points may be given. Frozen strawberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the strawberries are fairly fleshy, fairly firm and that:

(1) Not more than 25 percent, by count, of strawberries in whole style may be partial strawberries and mushy strawberries; and

(2) Not more than 30 percent, by weight, of strawberries may be mushy strawberries.

(e) *(SStd) classification.* Frozen strawberries that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.1990 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen strawberries, the grade for such lot, if all containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification, will be determined by averaging the total scores of all containers comprising the sample, if, with respect to those factors which are scored:

(1) Not more than one-sixth of such containers fails to meet the grade indicated by the average of such total scores:

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of the total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores; and

(4) The average score of all containers for any factor subject to a limiting rule must be within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample.

SCORE SHEET

§ 52.1991 *Score sheet for frozen strawberries.*

HANDLING OF MILK IN OKLAHOMA CITY, OKLAHOMA, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposal to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Oklahome City, Oklahoma, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the following findings and conclusions were formulated, was conducted at Oklahoma City, Oklahoma, on October 19–21, 1953, pursuant to notice thereof which was issued on September 29, 1953 (18 F. R. 6339).

The material issues of record are concerned with:

1. The level and supply-demand adjustment of the Class I price;

2. The method of determining the Class II price;

3. Proposals for the classification and allocation of milk relating to:

(a) Classification of milk transferred to unapproved plants;

(b) Aerated products;

(c) Emergency milk;

(d) Shrinkage and dumped skim milk; and

(e) Inventories.

4. Payments to producers:

(a) The base payment period; and

(b) Partial payments.

5. Definitions of producer and producer-handler; and

6. The date of announcement of the Class I price.

Findings and conclusions. The following findings and conclusions are based upon the testimony received at the hearing and the record thereof:

1. *The pricing of Class I milk.* The following three proposals were made to change pricing provisions with respect to Class I milk:

(a) To amend the supply-demand adjustment,

(b) To make the basic formula price the same as the Class II price, and

(c) To reduce the Class I differential by 25 cents.

The Class I price of the Oklahoma City order is presently determined by adding a Class I differential $1.90 ($1.70 for April, May and June) to a basic formula price which is the higher of the paying prices of midwest condenseries or a butter-powder formula price. The price so determined is adjusted on the basis of the ratio of producer receipts to Class I sales in the immediately preceding two month period.

Producers proposed that the supply-demand adjustment provisions be modified by (1) changing the representative ratio or norm now incorporated in the order by an average of approximately 11 percentage points, (2) providing that price adjustments apply only for deviations from the norm that exceed 10 percentage points instead of 2 percentage points, and (3) limiting the total adjustment to 30 cents instead of 50 cents.

The present supply-demand adjustment became effective July 1, 1952. Except for July, when there was no adjustment, upward adjustments resulted in the remaining months of 1952. For 1953 however there has been some downward adjustment of the price each month. For January, February, and March the amount was only 3 cents, but from April on the decrease has ranged from 21 to 50 cents, averaging 34 cents. Producers contend that these adjustments, coupled with decreases in the basic formula price, have resulted in prices that are too low to assure a continued supply for the market.

Supply-demand adjustments provide an automatic means whereby prices may be adjusted to changing conditions more rapidly than by the procedure of public hearing and order amendment. They are designed to increase prices when current conditions indicate the need for greater price incentive to bring more milk to the market and to avoid the incentive for more milk to come to the market when current conditions indicate that supplies will be more than ample.

Milk supplies in the Oklahoma City market have increased substantially in 1953 over those for 1952. While there has been some increase in Class I sales this has been at a lesser rate than the increase in production. As a result the ratio of producer receipts to Class I sales for the first 9 months of 1953 averaged 135 as contrasted with an average of 116 for the same months of 1952. While receipts in September 1952 were only 101 percent of sales, in September 1953 they were 128 percent. For August the comparable figures were 111 and 148 respectively.

In general the proposed changes in the supply-demand formula would provide increases in price approximating those of the present provision and would have eliminated practically all the decreases that have occurred. The wide range of utilization, 20 percentage points (10 each above and below the proposed norm) within which no adjustment was proposed, would make such a provision relatively ineffective in reflecting changes in supply and sales relationships in the Class I price.

The Oklahoma City market has not been adequately supplied with milk during fall months in any year prior to 1953 since the effective date of the order. The representative ratios or norm presently provided in the order reflects this experience to a limited extent. A ratio of 107 percent of Class I sales is presently the norm for the lowest two-month period October-November. Testimony in this record indicates that 110 percent of Class I sales is a base minimum supply with which a handler can operate over a 60 day accounting period. Now that the market is fully supplied it is considered appropriate that the norm be raised to represent this base minimum supply in the short season, but not to the extent proposed by producers. The present norm appears well adjusted seasonally. Addition of 3 percentage points uniformly to each two-month ratio will provide adjustment to an adequate supply level in the short season without distorting the seasonal adjustment. The effect of such adjustment on the present level of prices will be minor, it will prevent however the possibility of downward adjustments at times when the market may be slightly undersupplied in the short season.

No change should be made in the other features of the supply-demand adjustment. The present range of no adjustment provides sensitivity which should be retained. The maximum adjustment of 50 cents in either direction should also be retained rather than limiting the movement of prices to 30 cents. Such a limit is of necessity arbitrary, and is a means of limiting action under conditions of extreme shortage or surplus until such time as other pricing features can be considered in a public hearing. These considerations do not require that the range of price change be limited narrowly.

Handler proposals for changes in basic formula prices and Class I differentials should not be adopted. Testimony in support of these proposals indicates that the proponents are principally interested in offsetting the increase in the price that might have resulted from adoption of producer proposals for revision of the supply-demand formula. Use of the Class II price as the basic formula price would not produce price changes in the Oklahoma City market consistent with those in nearby markets which currently use a basic formula price identical with that of the Oklahoma City order. It is argued that with a sensitive supply-demand adjustment the actual Class I price could be the same even though the basic formula price plus Class I differential might be lower. Even though such a result is conceivable after a long period of operation, no solution is offered as to how such a result might be achieved in a transition period from one method of pricing to another. Even though milk supplies have increased substantially in the Oklahoma City market during the past year there is no evidence that over a long period present prices and differentials are excessive. From mid 1950 through 1952 prices at approximately these levels did not fully supply the market.

2. *The Class II price.* It was proposed that two plants in the group of the manufacturing plants used to determine the Class II paying price be deleted and two other plants be substituted. The effect of the substitution of the proposed plants on the Class II price can not be determined from the record. The Class II price should be at such levels as will permit market outlets for necessary reserve supplies and at the same time not encourage handlers to retain or increase producer receipts primarily for Class II use. The testimony fails to show that the substitution of the proposed plants would reflect a price which is more representative of competitive prices for milk for manufacturing uses in this area. The record shows that the producers association is willing to handle, for its members, all milk in excess of the handler's Class I requirements which they do not desire to receive at order prices. It is concluded that the present basis of establishing Class II prices should not be changed.

3. *Classification and allocation of milk.* a. The provisions of the order pertaining to the classification of milk transferred or diverted to unapproved milk plants should be modified to apply the same classification rules to all milk and skim milk transferred to unapproved plants regardless of the type of operation conducted at such plants.

The present order language provides, in part, for the classification of transferred milk from an approved plant to an unapproved plant on the basis of location and the character of operation at the unapproved plant. If the movement of such milk is more than 200 miles from the approved plant, the milk is classified as Class I. If the movement is less than 200 miles from the approved plant, the classification then becomes dependent on whether or not the unapproved plant receiving such transferred milk operates wholesale and retail routes. Transfers to plants which do not operate routes are classified automatically as Class II milk. The classification of milk transferred to unapproved plants having routes is dependent on:

(a) Utilization of milk at the unapproved plant after first giving priority to receipts from the plant's regular dairy farmers; and

(b) The availability of books and records for audit by the market administrator.

The record indicates that all milk or skim milk transferred to unapproved plants within the 200 miles radius of the market should be classified on a uniform basis. Classification procedure based on whether or not the unapproved plant operates retail or wholesale routes is not a satisfactory criteria for classification under present conditions. The rules which now apply to transfers to processing plants operating routes should be applied to all unapproved plants.

The record shows that some unapproved plants may be engaged in receiving and cooling milk for shipment to other outlets with little or no milk processed in the plant to which the milk is first transferred or diverted. In order to achieve uniformity in the classification procedure, provision should be made to classify such transfers or diversions from the approved plant on the basis of the utilization in the plant which processes or manufactures such milk. The proposed change will enable the market administrator to follow the utilization of the milk beyond the first unapproved plant to determine its classification. This will clarify the intent of the transfer provisions and eliminate the possibility of transferring or diverting, as Class II milk, producer milk through non-processing plants for use in other unapproved plants for Class I usage.

Under the present order fluid cream transferred under Grade A certification to an unapproved plant located beyond a 200 mile radius from the approved plant is classified as Class I milk and as Class II milk if moved without such certification. Cream transferred to unapproved plants within the 200 mile radius is Class II if transferred to a plant but does not operate retail or wholesale routes. Cream transferred to plants operating routes is classified on the same basis as milk or skim milk.

The order should be changed to provide that cream transferred to an unapproved plant shall be Class I milk unless the handler (a) claims classification as Class II milk, (b) establishes that such cream was transferred without Grade A certification, and (c) labels or tags each container to indicate that the contents are for manufacturing use only. This proposed change will provide a uniform method for establishing the classification of cream transferred to an unapproved plant regardless of the type of operation or location of the unapproved plant.

It was proposed by handlers that milk transferred to unapproved plants within the 200 mile radius be classified by the market administrator on the basis of certification by the handler as to the use of the milk. It is essential that the market administrator be permitted to verify the utilization of transferred milk at unapproved plants in the same manner that verification is made of receipts and utilization in the plants of handlers.

b. Aerated products containing milk or cream should be classified as Class II milk rather than Class I milk as presently provided. Such products are permitted by health authorities to be disposed of in the Oklahoma City area without being from locally inspected sources. No handler in the market produces such products. The present provision places handlers at a competitive disadvantage with wholesale grocers, in importing aerated products processed elsewhere for distribution in the market.

c. Proposed definition and allocation of emergency milk: It was proposed that during the months of October through January certain other source milk imported under emergency health department permits be defined as "emergency milk" and allocated separately. The notice of hearing indicated a different method of establishing the maximum volume to be defined as emergency milk and provided allocation for such milk which would have produced no change from that resulting under the present order in the classification of producer milk. Evidence at the hearing indicated that the intent was that the volume of such milk to be defined as emergency milk should be that by which 115 percent of Class I sales exceeded producer receipts and that such emergency milk should have prior claim over producer milk for Class I sales. The net result of such a system would be that regardless of market supplies in relation to sales, producers would be paid at Class II prices for a volume of milk equal to 15 percent of the handler's Class I sales. In periods of extreme shortage, the shorter the supply of producer milk the lower would be the uniform price to producers.

Emergency milk provisions should not be included in the order on the basis of this record. Presently producer milk supplies appear to be adequate to supply the needs of the market so that supplementary supplies are not required.

d. Handlers proposed that skim milk and butterfat not specifically accounted for as Class II milk no longer be defined as Class I milk, that the shrinkage allowance be increased during the flush production months and that dumped milk be classified as Class II milk. Discussion of the proposals resulted in the abandonment by the handlers of support of that part of the proposal relating to an increase in the shrinkage allowance. Skim milk and butterfat not specifically accounted for as Class II milk should be classified as Class I milk if there is to be any limit on the shrinkage allowance. The Oklahoma City order provides that skim milk and butterfat used to produce any product not specifically named as a Class I product shall be Class II milk, but if a handler fails to account for the use of his receipts they are classified as Class I milk other than for the shrinkage allowance. At present, inasmuch as there is no specific classification for skim milk which may be required to be dumped, it is automatically classified as Class I milk when its volume exceeds the shrinkage allowance. Occasions may arise however when handlers are unable to process or otherwise dispose of skim milk in excess of their needs. At such times the only practical outlet may be processed skim milk to be disposed of by dumping. Both producers and handlers favored the adoption of the proposal to handle dumped skim milk as Class II milk. It is recognized that a handler will use reasonable precautions with respect to dumping milk inasmuch as such disposition does not afford him any return while remaining responsible for settlement for such milk at the Class II price. Provision should be made however, for handlers to notify the market administrator in order to afford him an opportunity to verify such proposed dumping and the volumes of such disposition.

e. The procedure employed in classifying and allocating skim milk and butterfat in inventory should be modified and specific provision should be made for the reclassification of skim milk and butterfat in inventory, which is initially classified as Class II milk and later used as Class I milk.

The inventory account should include all bulk milk, skim milk and fluid cream, and items specifically mentioned as Class I milk on hand at the beginning or end of each month. Class I products are classified on the basis of the form in which disposition is made. It is necessary therefore to account for bulk milk and such Class I products which are on hand and not disposed of at the end of a delivery period. Class II products are accounted for primarily on the basis of the milk used to produce specified products. It is therefore unnecessary to include Class II products on hand at the end of the month in the handler's monthly report of receipts and utilization. The handler will be required to keep stock records on holdings of such products to facilitate the auditing of current receipts and utilization. Products manufactured from stocks on hand and used by the handler should be considered as a receipt of other source milk in the month of such usage.

At present, plus or minus variations in inventory between the beginning and end of the month are classified as Class II milk. The classification of inventory variations in Class II milk will result in negative Class II utilization figures in any month that a handler's decrease in inventory exceeds other Class II utilization. Such negative figures are confusing and under such conditions result in a complicated problem of determining whether or not reclassification charges should apply to the inventory milk disposed of as Class I milk.

The allocation provisions of the order are based on the principle that producer milk is to be given priority over current receipts of other source milk for use in Class I milk. The classification of inventory variations in Class II milk does not follow this principle. Producer milk in beginning inventory is, in effect, assigned to Class II usage prior to current receipts of other source milk. For these reasons the monthly accounting procedure for the classification of inventory should be modified and specifically set forth in the order.

Closing inventory should be classified as Class II milk. Opening inventory should be treated as a receipt. Provision should be made so as to give the handler credit for beginning inventory by subtracting such inventories from his current utilization in series beginning with Class II milk after first subtracting receipts of other source milk and allowable producer shrinkage. Any inventory allocated to Class I milk represents a current use in Class I for milk which was classified temporarily as Class II in the previous month. Such inventory milk should be subject to a reclassification charge if it was derived from producer milk. This may be determined by the amount of producer milk classified in Class II milk in the previous month. Thus the quantity of inventory milk which is allocated to Class I milk in the current month and on which a reclassification charge is to be made should be limited to the amount of producer milk classified as Class II milk the previous month. This procedure conforms to the principles of assigning fluid milk from producers to the highest priced available utilizations and eliminates the possibility of reclassification charge on inventory derived from other source milk.

Provision should be made in the order for establishing the rates for reclassification charges on inventory milk used in Class I. This rate should be the difference between the Class I price and the Class II price in the month of utilization. In this manner handlers are required to pay, and producers receive, the same differential over the current months' Class II price for producer milk derived from inventory, as current receipts of producer milk.

4. *Payments to producers*—a. *Extension of base operating period.* Producers should be paid for base milk during the months of February through July. At present, a producer's base is formed during the months of September, October, November and December, while producers are paid under the base and excess plan, during April through June. Dairy farmers who are regularly associated with the market, as determined by their delivery of milk to handlers during the short period of production, receive the necessary incentive to produce milk during the short production season through the operation of the base and excess plan. To such regular producers, this serves as a means of getting a high utilization price during the flush production season. The returns to producers during the flush season is commensurate therefore with their deliveries during the short season. The record shows that both handlers and producers are in favor of extending the base operating period since the months of April, May and June appears to be too short a period to provide sufficient incentive to the producers to furnish the milk required during the short production season. Since new producers may form a full base with deliveries for ninety days of the base-forming period, the months of August and September will provide a sufficient period of time for new producers to enter the market following operating period before deliveries are required in order to establish a full base.

b. *Partial payments.* A partial payment with respect to milk received from a producer during the first 15 days of each month should not be required if the producer has discontinued delivery to the handler, and the minimum rate of such payment should be specified as the Class II price of the preceding month for 4 percent milk, without adjustment for butterfat test or deduction for hauling. Such partial payments are merely advances deductible from the payment computed for deliveries for the entire month. The provisions stated above will avoid any possibility that the required advance may exceed the final settlement and provide for simplicity of computing the minimum advance. The record indicates the desirability of specific mention that authorized deductions (such as for hauling) may be made from the final payments.

5. *Definition of producer and producer-handler.* A proposal that producers whose milk was to be priced and pooled deliver all of their production to an approved plant and file sworn statements that they do not and will not engage in Class I sales was abandoned by its proponents because of administrative difficulties. A comparison proposal to redefine producer-handler would appear to involve administrative difficulties in identifying the persons as defined, inasmuch as neither health department approval nor Class I sales in the marketing area would be a prerequisite to producer-handler status. Reports from former distributors with no connection with the marketing area would also be required under such a definition. No change in the definition of producers or producer-handlers should be adopted on the basis of this record.

6. The order requirement for the announcements of the Class I price on the 10th day of the month should be changed to 12th day of the month.

Handlers reports of receipts and utilization for the preceding month, which are used in the supply-demand adjustment of the Class I price for the current month, are required to be forwarded by handlers not later than the 7th day of the month. With the intervention of a week end or holiday, the market administrator has insufficient time to summarize handlers reports to determine the supply-demand adjustment for the announcement of the Class I price by the 10th day of the month. The proposed revision will not preclude the market administrator from announcing the Class I price at the earliest possible date as has been his practice in the past. No objection was raised to the proposed change.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Central Oklahoma Milk Producers Association and handlers subject to the order.

The briefs contained proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and order. The following order, amending the order, as amended, is recommended as the detailed and appropriate means whereby the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order as hereby proposed to be amended.

1. In § 905.22 (j) (1) delete "10th" and substitute therefor "12th".

2. In § 905.41 (a) delete the words "aerated products containing milk or cream".

3. In § 905.41 delete paragraph (b) and substitute therefor the following:

(b) Class II milk shall be all skim milk and butterfat, (1) used to produce any product other than those specified in paragraph (a) of this section; (2) disposed of for livestock feed; (3) in frozen cream placed in storage; (4) in skim milk dumped, after prior notification to and opportunity for verification by the market administrator; (5) in shrinkage up to 2 percent of receipts from producers; (6) in shrinkage of other source milk; and (7) in inventory at the end of the month in the forms specified in paragraph (a) (1) and (2) of this section.

4. Delete § 905.43 (b) and substitute therefor the following:

(b) Any skim milk or butterfat classified as Class II milk shall be reclassified if such skim milk or butterfat is later disposed of by such handler or another handler (whether in original or other form) as Class I milk. Any skim milk or butterfat which was classified as Class II milk in the previous month pursuant to § 905.41 (b) (7) shall be reclassified as Class I milk if it is subtracted in the current month from Class I pursuant to § 905.46 (a) (4).

5. Delete paragraphs (d), (e), and (f) of § 905.44 and substitute therefor the following:

(d) As Class I milk if transferred in the form of cream to an unapproved plant, unless the handler (1) claims classification as Class II milk, (2) establishes that such cream was transferred without Grade A certification, and (3) labels or tags each container "for manufacturing use only" and so invoices the shipment.

(e) As Class I milk if transferred or diverted in the form of bulk milk or bulk skim milk to an unapproved plant located not more than 200 miles from the approved plant unless the following conditions are met:

(1) The handler claims classification as Class II milk;

(2) The operator of the unapproved plant maintains books and records, showing the receipts and utilization of all skim milk and butterfat at such plant, which are made available if requested by the market administrator for the purpose of verification;

(3) If the above conditions are met, the classification reported by the handler shall be subject to verification by the market administrator as follows:

(i) Determine the use of all skim milk and butterfat at such unapproved plant and,

(ii) Allocate the skim milk and butterfat so transferred or diverted to the highest use classification remaining after subtracting, in series beginning with Class I milk, the skim milk and butterfat in milk received at the unapproved plant from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such unapproved plant.

(iii) If the unapproved plant makes bulk shipments of milk or cream and the skim milk and butterfat transferred to such plant exceeds the amounts remaining in the transferee plant after subtracting receipts from dairy farmers pursuant to subdivision (ii) of this subparagraph, the excess shall be classified according to its utilization determined at the second unapproved plant pursuant to subdivision (ii) of this subparagraph.

6. In § 905.46 (a) insert as subparagraph (4) the following and renumber subparagraphs "(4)" "(5)" and "(6)" as "(5) "(6)" and "(7)" respectively:

(4) Subtract from the remaining pounds of skim milk in each class in series beginning with Class II, the pounds of skim milk in inventory specified in § 905.41 (b) (7) at the beginning of the month;

7. In § 905.51 (a) (2) change the tabulated schedule of standard utilization percentages to read as follows:

Month for which price applies	Months used in computation	Standard utilization percentage
January	November-December	113
February	December-January	117
March	January-February	121
April	February-March	123
May	March-April	127
June	April-May	130
July	May-June	135
August	June-July	134
September	July-August	130
October	August-September	119
November	September-October	111
December	October-November	110

8. Delete § 905.70 and substitute therefor the following:

§ 905.70 *Computation of value of milk.* The value of milk received during each month from each handler from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable respective class prices and add together the resulting amounts;

(b) Add an amount computed by multiplying the pounds of any overage deducted from each class by the applicable class prices; and

(c) Add a reclassification charge computed at a rate equal to the difference between the Class I and Class II prices for the current month for skim milk and butterfat in inventory which is subtracted from Class I pursuant to § 905.46 (a) (4) and the corresponding step of § 906.46 (b) which is not in excess of the skim milk and butterfat, respectively, remaining in Class II milk in the previous month pursuant to § 905.46 (a) (4).

9. In § 905.65 delete "April through June" where such words first appear in such sections and substitute therefor "February through July", and also delete the proviso appearing in paragraph (a) of such section.

10. In § 905.72 delete "April through June" and substitute therefor "February through July".

11. In § 905.66 (b) delete "April through June" and substitute therefor "February through July".

12. Delete § 905.80 and substitute therefor the following:

§ 905.80 *Time and method of payment.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) of this section, at not less than the applicable uniform price(s) pursuant to § 905.71 or § 905.72, adjusted by the butterfat differential computed pursuant to § 905.81, less the amount of the payment made pursuant to paragraph (b) of this section and deductions authorized by the producer.

(b) On or before the last day of each month, to each producer (1) for whom payment is not made pursuant to paragraph (c) of this section and (2) who has not discontinued delivery of milk to such handler, an advance payment with respect to milk received from such producer during the first 15 days of such month computed at the Class II price for 4 percent milk for the preceding month, without deduction for hauling;

(c) On or before the 13th and 27th days of each month, in lieu of payments pursuant to paragraphs (a) and (b) respectively, of this section, to a cooperative association, which so requests, with respect to producers for whose milk such cooperative associations is authorized to collect payments, an amount equal to the sum of the individual payments otherwise payable to such producers.

Filed at Washington, D. C., this 22d day of January 1954."

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-575; Filed, Jan. 27, 1954; 8:50 a. m.]

[7 CFR Part 925]

[Docket No. A 226-A3]

MILK IN PUGET SOUND, WASHINGTON, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Seattle, Washington, on August 10-11, 1953.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Assistant Administrator, Production and Marketing Administration, on December 3, 1953, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Notice of such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on December 9, 1953 (18 F. R. 8090). Following the issuance of the recommended decision proponents of proposals 3 and 8 as set forth in the notice of hearing issued July 23, 1953, requested that a final decision be withheld on these proposals pending a reopening of the public hearing for the reconsideration of such proposals and any closely related matters in relation to recent developments in economic and marketing conditions on which additional evidence would be offered. In light of this request a final decision on such issues is withheld at this time. Accordingly, the following findings and conclusions contained in the recommended decision are not included as a part of this decision:

(a) The second, third and fourth paragraphs beginning in column 2 and all paragraphs beginning in column 3, 18 F. R. 8093 (F. R. Doc. 53-10265), in their entirety;

(b) The first 23 lines in column 1, 18 F. R. 8094 (F. R. Doc. 53-10265), and the entire first paragraph beginning in such column;

(c) The words "provisions relating to the diversion of producer milk to nonpool plants should be modified; the" contained in the third paragraph beginning in column 1, 18 F. R. 8095 (F. R. Doc. 53-10265); also the fourth and fifth paragraphs beginning in column 1 and the first paragraph beginning in column 2, 18 F. R. 8095 (F. R. Doc. 53-10265) in their entirety.

Except as referred to in the preceding paragraph, the material issues and the findings and conclusions of the recommended decision (F. R. Doc. 53-10265 18 F. R. 8090) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein subject to the following revisions made in consideration of the exceptions filed and certain changes for clarification:

1. Delete the third paragraph beginning in column 3, 18 F. R. 8090 (F. R. Doc. 53-10265) and substitute therefor the following:

(1) The provisions relating to producer bases should be revised as to the number of months during the year bases are applied in distributing to producers the proceeds from the sale of milk and to modify the conditions for the transfer of base between producers.

2. Delete the last paragraph beginning in column 2, 18 F. R. 8091 (F. R. Doc. 53-10265) in its entirety and substitute therefor the following:

In establishing percentages for determining the bases of new producers under a 12-month plan, particular consideration has been given to seasonal levels of deliveries for the market as a whole. The seasonal levels of production in relation to the need for Class I milk indicates that the percentages of new producer deliveries to be priced as base milk should be relatively higher in the fall and winter months to encourage the delivery of milk by new producers in such months and to minimize the incentive to enter the market during months when supplies are seasonally large. On the other hand such percentages should not be set at levels which would result in a price advantage for new producers over established producers. The latter condition would not be in keeping with the basic concepts of this method of distributing producer returns and inevitably would induce established producers with bases earned in the regular manner to abandon them and seek the more favorable opportunity afforded by the new producer base. The widespread relinquishment of earned bases would disrupt the effectiveness of the plan. The following percentages of deliveries for the additional months the plan will be in effect should provide a situation in which returns to established producers are not unduly reduced by the entry of new producers in the fall months and yet in which no serious deterrent to market expansion through the addition of new producers is introduced: August, 65; September and October, 75; November and December, 80; and January, 75. The present record indicates that the percentages currently established by the order with respect to new producer deliveries for the months of February through July have operated satisfactorily and do not require revision. The above-stated percentages will establish for the added months a relationship of new producer returns to those of regular producers similar to that currently provided by the order for February through July. In view of the foregoing it is concluded that the base and excess plan of payment should be made effective for all months of the year.

3. Delete the second and third paragraphs beginning in column 3, 18 F. R. 8091 (F. R. Doc. 53-10265) in their entirety and substitute therefor the following:

The ability of the producer, as a farm manager, to produce even supplies of milk should be the most significant underlying consideration to the establishment of base. However, the transfer of base should be allowed where the producer transfers his farm and herd as a going operation to another producer who continues the production of milk on the same farm. There is little likelihood that the curve of production established for the farm will alter or become greatly more seasonal in the short run, and if the production pattern prevailing at the time of transfer is not maintained the transferee producer's base will be adjusted automatically to his own performance within a period not exceeding twelve months. In the meantime the herd should produce generally in accordance with the pattern resulting from the manner in which the transferor bred his animals. This revision in the base transfer rules will assist a transferor producer to realize full value from the effort and management expended in achieving a desirable production pattern without significantly affecting the returns of other producers.

4. Add the following immediately following the last paragraph beginning in column 3, 18 F. R. 8096 (F. R. Doc. 53-10265):

It is contended in the exceptions filed that the provision adopted differs from that proposed by the Secretary at the time of the hearing, and that if the original proposal is not the correct solution then no action should be taken until the provision recommended can be submitted for further hearing when interested parties will have an opportunity to address their testimony directly to it. The original proposal was based upon an interpretation of the order which had been put into effect by the market administrator. It is clear in the record that the market administrator desired advice as to a proper method of accounting for the volume of milk to be priced as fortified skim milk or skim milk drinks as the result of the addition of nonfat dry milk solids. The testimony discloses that the interpretation applied does not result in the uniform pricing of milk based on its use, as required by the statute. In order to meet the standards of classification and pricing required by the act, the provision herein adopted is considered necessary.

As a corollary change for the purpose of implementing the accounting for such products, a revision of language in the definition of other source milk has been made.

Rulings on exceptions. Exceptions relating to the findings, conclusions and amendment action recommended by the Assistant Administrator were filed by the Arden Farms Co. and ten cooperative associations of producers jointly through the United Dairymen's Association. In arriving at the findings, conclusions and amendment action decided in this decision, each of these exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. Some revisions of the recommended decision have resulted therefrom. To the extent that the findings, conclusions, and amendment action decided upon herein are at variance with the exceptions, such exceptions are overruled.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The order, as amended and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of October 1953 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Pudget Sound, Washington, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Annexed hereto and made a part hereof are two documents entitled respectively, "marketing agreement regulating the handling of milk in the Puget Sound, Washington, marketing area," and "order amending the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of §900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order, as amended, which will be published with this decision.

This decision filed at Washington, D. C., this 22d day of January 1954.

Dated: January 22, 1954.

[SEAL] JOHN H. DAVIS,
Assistant Secretary of Agriculture.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Puget Sound, Washington, Marketing Area*

§ 925.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") (7 U. S. C. 601 et seq.), and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the prices of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which hearings have been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Puget Sound, Washington, marketing area shall be in conformity to and in compliance with the following terms and conditions:

1. Delete § 925.14 and substitute therefor the following:

§ 925.14 *Other source milk.* "Other source milk" means (a) all skim milk and butterfat received from a producer-handler (or the plant of a producer-handler) in any form (including bottled products), and (b) all other skim milk and butterfat other than in (1) producer milk, and (2) milk and milk products in any of the forms specified in § 925.41 (a) (1) received from fluid milk plants and country plants.

2. Delete § 925.18 and substitute therefor the following:

§ 925.18 *Base milk.* "Base milk" means milk delivered by a producer during the month which is not in excess of (a) his daily base computed pursuant to § 925.60 (a) multiplied by the number of days of delivery in such month, or (b) his base computed pursuant to § 925.60 (b): *Provided,* That with respect to any producer on "every-other-day" delivery to a fluid milk plant or country plant, the days of non-delivery shall be considered as days of delivery for the purposes of this section and of § 925.60 (a).

3. Delete the language of § 925.30 preceding paragraph (a) of such section and substitute therefor the following:

§ 925.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to § 925.15 (a), except a producer-handler, shall submit to the market administrator a separate report for each of such handler's fluid milk plants, country plants, and plants where milk or milk products subject to payments required under § 925.70 (b) were handled, and each cooperative association which is a handler pursuant to § 925.15 (b) shall submit to the market administrator a report with respect to milk diverted on its account, containing the following information for the preceding month.

3a. Add the following as § 925.44 (a) (5):

(5) Notwithstanding the prior provisions of this paragraph any such skim milk and butterfat caused to be moved in bulk by a handler during any month from any fluid milk plant or country plant either by transfer or without being received therein to a fluid milk plant in which facilities are maintained and used during the same month to receive milk or milk products required by applicable health authority regulations to be kept physically separate from milk qualified as described in § 925.12 shall be deemed to have been transferred by such handler to a country plant and shall be classified in accordance with the provisions of paragraph (b) of this section.

4. Delete § 925.44 (a) (4) and substitute therefor the following:

(4) If at a fluid milk plant any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) located in District No. 1 or in the counties of Kitsap or Mason are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) insofar as such uses are available at the transferee plant after allocating to such uses the other source milk at such plant; and

4a. Delete § 925.44 (b) (1) and substitute therefor the following:

(1) The skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the transferee plant after the subtraction pursuant to § 925.45 (b) (2) of other source milk at such plant and after the subtraction of producer shrinkage classified as Class II milk pursuant to § 925.41 (b) (4), and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk;

5. Delete § 925.44 (b) (4) and substitute therefor the following:

(4) If at a country plant any receipts of skim milk or butterfat from any fluid milk plant(s) or country plant(s) located in District No. 1 or in the counties of Kitsap and Mason are assigned to Class II milk, they shall be allocated to the uses stated in § 925.54 (a) insofar as such uses are available at the transferee plant after allocating to such uses the other source milk at such plant; and

5a. Add the following as § 925.44 (b) (5):

(5) Notwithstanding the prior provisions of this paragraph, any such skim milk and butterfat caused to be moved in bulk by a handler during any month from any fluid milk plant or country plant without being received therein to a country plant in which facilities are maintained and used during the same month to receive milk or milk products required by applicable health authority regulations to be kept physically separate from milk qualified as described in § 925.12 shall be deemed to have been transferred by such handler to a country plant and shall be classified in accordance with the provisions of this paragraph.

5b. Delete § 925.44 (c) (2) and substitute therefor the following:

(2) As Class II milk if the transfer is to a nonpool plant located in the marketing area or within any of the counties of Clallam, Jefferson, Grays Harbor, Island, Kitsap and Mason, in the State of Washington, which is not engaged in the distribution of milk for consumption in fluid form: *Provided,* That if such nonpool plant disposes of skim milk or butterfat in any of the forms specified in § 925.41 (a) (1) to any other nonpool plant distributing milk in fluid form which is not located in the marketing area, such disposition up to the quantity of producer milk transferred to the first nonpool plant shall be classified as Class I milk: *Provided further,* That if the preceding proviso does not apply the transferred quantity shall be allocated to uses other than those covered by § 925.54 (a) (1) to the extent that such other Class II milk uses are available at such nonpool plant: *And provided also,* That if the market administrator is not permitted to audit the records of such nonpool plant for the purpose of use verification, the entire transfer shall be classified as Class I milk.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

6. Delete § 925.45 (a) and substitute therefor the following:

(a) Correct for mathematical and for other obvious errors the monthly report submitted by such handler and compute the total pounds of skim milk and butterfat in each class: *Provided,* That when nonfat milk solids derived from nonfat dry milk solids, condensed skim milk, or any other product condensed from skim milk, are utilized by such handler either (1) to fortify (or as an additive to) fluid milk, flavored milk, skim milk or any other milk product, or (2) for disposition in reconstituted form as skim milk or a milk drink, the total pounds of skim milk computed for the appropriate class of use shall reflect a volume equivalent to the skim milk used to produce such nonfat milk solids.

7. Delete in § 925.52 (a) the figure "1.25" and substitute therefor the figure "1.2."

8. Delete § 925.54 (a) and substitute therefor the following:

(a) Compute the sum (in pounds) of: (1) The total utilization at such plant (including any disposition of skim milk and butterfat from such plant for similar uses at nonpool plants) of skim milk and butterfat, respectively, in evaporated milk in hermetically sealed cans, butter, nonfat dry milk solids, powdered whole milk, all cheeses except "baker's," "pot," cottage (including that creamed), cream and neufchatel, and shrinkage allowable as Class II milk pursuant to § 925.41 (b) (4) and (5), and (2) the total quantity of skim milk and butterfat transferred to other fluid milk plants and country plants located in District No. 1 or in the counties of Kitsap and Mason and allocated to the uses specified in subparagraph (1) of this paragraph (as provided in § 925.44 (a) (4) and (b) (4));

9. Delete § 925.60 (a) and (b) and substitute therefor the following:

(a) The daily base of each producer whose milk was received by a handler(s) on not less than one hundred twenty (120) days during the months of August through December, inclusive, shall be an amount computed by dividing such producer's total pounds of milk delivered in such five-month period by the number of days from the date of his first delivery to the end of such five-month period. The base so computed, which shall be recomputed each year, shall become effective on the first day of February next following and shall remain in effect through the month of January of the next succeeding year.

(b) Any producer who is not eligible to receive a base computed pursuant to paragraph (a) of this section, shall have, beginning with February 1954, a monthly base computed by multiplying his deliveries to a handler(s) during the month by the appropriate monthly percentage in the following table:

January	75	July	55
February	70	August	65
March	65	September	75
April	55	October	75
May	45	November	80
June	[illegible]	December	80

10. Delete § 925.61 and substitute therefor the following:

§ 925.61 *Base rules.* The following rules shall be observed in determination of bases:

(a) A base may be transferred upon written notice to the market administrator on or before the last day of the month of transfer, but under the following circumstances only: If a producer sells, leases, or otherwise conveys his herd to another producer, the latter may receive the transferor's base, unless earned under § 925.60 (b), pursuant to the conveyance and utilize such base until February 1 next following the date of conveyance, subject to the following conditions:

(1) Such base shall apply to deliveries of milk by the transferee producer from the same farm only;

(2) If such conveyance takes place subsequent to August 1 of any year, all milk delivered to a handler(s) between August 1 and December 31, inclusive, from the same farm (whether by the transferor or transferee producer) shall be utilized, pursuant to § 925.60 (a), in computing the base of the transferee producer to become effective the next February 1; and

(3) It is established to the satisfaction of the market administrator that the conveyance of the herd was bona-fide and not for the purpose of evading any provision of this subpart.

(b) A producer who ceases deliveries to a fluid milk plant or country plant for more than 45 days shall lose his base if computed pursuant to § 925.60 (a) and if he resumes deliveries to such a plant he shall be paid on a base determined pursuant to § 925.60 (b) until he can establish a new base under § 925.60 (a) to begin the next February 1.

(c) By notifying the market administrator in writing on or before the 15th day of any month, a producer holding a base established pursuant to § 925.60 (a) may relinquish such base by cancellation, and effective from the first day of the month in which notice is received by the market administrator until the next February 1 such producer's base shall be computed in the manner provided by § 925.60 (b).

(d) As soon as bases computed by the market administrator are allotted, notice of the amount of each producer's base shall be given by the market administrator to the handler receiving such producer's milk and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place at each of his plants a list or lists showing the base of each producer whose milk is received at such plant.

(e) If a producer operates more than one farm he shall establish a separate base with respect to producer milk delivered from each such farm.

(f) Only producers as defined in § 925.12 may establish or earn a base pursuant to the provisions of § 925.60, and only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings, and equipment used are jointly owned or operated.

11. Delete that portion of § 925.70 (a) prior to subparagraph (1) of such paragraph and substitute therefor the following:

(a) Except as provided in paragraph (b) of this section, the total value of milk received during any month at each plant by each handler, including a cooperative association, shall be a sum of money computed by the market administrator as follows:

12. Delete § 925.70 (a) (6) and (b) and substitute therefor the following:

(6) Add, with respect to other source milk (including overage allocated to other source milk) received at each fluid milk plant and country plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant, an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and in the case of a fluid milk plant or country plant not located in District No. 1, or in the counties of Kitsap or Mason, such difference shall be reduced as follows: 50 cents at any such plant located in Clallam County or Jefferson County; and 40 cents at any other plant not located in District No. 1 or in the counties of Kitsap or Mason.

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and, in the event disposition within the marketing area was only within Districts Nos. 2 or 3, such difference shall be reduced by 40 cents per hundredweight.

13. Delete § 925.80 (b) and substitute therefor the following:

(b) On or before the 17th day after the end of each month each handler shall pay to each cooperative association which operates a fluid milk plant or country plant, for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 925.41) by the class price taking into account any location adjustment, as provided by §§ 925.53 and 925.54, applicable at the plant at which payment for such skim milk and butterfat is required under the provisions of § 925.70.

14. Delete § 925.81 (b) and substitute therefor the following:

(b) 25 cents per hundredweight shall be added to the uniform price for excess milk received from producers at plants located in District No. 1 or in the counties of Kitsap and Mason.

15. Delete § 925.87 (a) and substitute therefor the following:

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 925.80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(s) from producers who are members thereof but for whom any of the services set forth below in this paragraph is not being performed by such association(s), as determined by the market administrator.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

[F. R. Doc. 54-577; Filed, Jan. 27, 1954; 8:50 a. m.]

[7 CFR Part 925]

Milk in Puget Sound, Washington, Marketing Area

Order of Secretary Directing That Referendum Be Conducted Among Producers Supplying Milk and Designation of Agent to Conduct Such Referendum

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area) who, during the month of October 1953 were engaged in the production of milk for sale in the marketing area specified in the aforesaid order to determine whether such producers favor the issuance of the order which is a part of the decision of the Secretary of Agriculture filed simultaneously herewith.[1]

[1] See F. R. Doc. 54-577 *supra*.

Nicholas L. Keyock is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the Federal Register on August 10, 1950 (15 F. R. 5177).

Done at Washington, D. C., this 22d day of January 1954.

[SEAL] John H. Davis,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-576; Filed, Jan. 27, 1954; 8:50 a. m.]

[7 CFR Part 962]

[Docket No. AO 162-A4]

Handling of Fresh Peaches Grown in Georgia

Notice of Recommended Decision and Opportunity to File Written Exceptions With Respect to Proposed Amendments to Amended Marketing Agreement and Order

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900; 19 F. R. 57), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposed amendments to Marketing Agreement No. 99, as amended, and Order No. 62, as amended (7 CFR Part 962; 18 F. R. 3013), hereinafter referred to as "marketing agreement" and "order," respectively, regulating the handling of fresh peaches grown in the State of Georgia, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), hereinafter referred to as the "act." Interested parties may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C., not later than the close of business on the tenth day after publication thereof in the Federal Register. Exceptions should be filed in quadruplicate.

Preliminary statement. The public hearing, on the record of which the proposed amendments to the marketing agreement and order are formulated, was initiated by the Production and Marketing Administration as a result of proposals received from the Industry Committee, hereinafter referred to as the "committee," established pursuant to the marketing agreement and order as the agency to administer the terms and provisions thereof. In accordance with the applicable provisions of the aforesaid rules of practice and procedure, a notice that a public hearing would be held in Macon, Georgia, beginning on December 17, 1953, to consider the proposed amendments was published in the Federal Register (18 F. R. 7895) on December 8, 1953.

Material issue. The material issue presented on the record of the hearing was concerned with amending the marketing agreement and order to:

(1) Provide that no assessments shall be levied against peaches which are exempt from inspection.

Findings and conclusions. The findings and conclusions on the material issue are based upon the evidence adduced at the hearing and the record thereof and are as follows:

(1) The marketing agreement and order should be amended to provide that no assessments shall be levied against peaches which are exempt from inspection.

The marketing agreement and order were amended, effective May 26, 1953, to authorize the committee to recommend, and the Secretary to prescribe, that the inspection requirements of the marketing agreement and order shall be not applicable to any peaches in bulk shipped to the adjacent markets (the States of Florida, Alabama, Tennessee, North Carolina, South Carolina, Mississippi, and that portion of Louisiana which is east of the Mississippi River). This provision authorized the exemption of such shipments from only the inspection requirements, but such shipments were required to comply in all other respects with the provisions of the program. Inspection was not required on peaches shipped in bulk to adjacent markets under this provision during the 1953 season, and shipments to the adjacent markets during 1953 reported to the committee constituted only a small percentage (4 percent) of the total shipments of fresh peaches from the State of Georgia. Total shipments to adjacent markets during the 1951 and 1952 seasons were also rather small in relation to other out-of-State shipments, totaling 13 percent and 11 percent, respectively, of the total out-of-State shipments.

Assessments to defray the cost of administering and operating the marketing agreement and order have been collected from shippers of fresh peaches by the Federal-State Inspection Service under a cooperative agreement between such service and the committee since the inception of the marketing agreement program. Experience has shown that, inasmuch as inspectors of this service are present in the packinghouses of shippers in order to inspect peaches, and since this service collects a fee for the inspection performed, marketing agreement program assessments can be collected by such inspectors at considerable savings over the costs which would be involved in collecting these assessments if the collections were made by the committee. Bulk shipments to adjacent markets may originate either at a packinghouse of a shipper or at an orchard, whereas packed peaches originate only at packinghouses. Since inspection is not now required on peaches shipped in bulk to the adjacent markets under the circumstances stated above, inspectors would not be required at the packinghouses and orchards of shippers who ship only bulk peaches to adjacent markets if assessments on such peaches were not required under the marketing agreement and order. The collection of assessments on such peaches could be accomplished under the present provisions of the program by either (1) an increase in inspection personnel for the specific purpose of collecting such assessments, or (2) an increase in personnel employed by the committee. Reports indicate that the equivalent of 182 carloads of fresh peaches were shipped in bulk to adjacent markets during 1953. At the assessment rate in effect during the 1953 season, revenue from such shipments amounted to only $704.34. During the 1953 season the Inspection Service maintained a larger force than would have been necessary for inspection purposes, for the purpose of collecting assessments on bulk shipments to adjacent markets, and the expenses incurred were greater than the sum collected. The expenses of collecting assessments on such peaches in future years, unless such adjacent market peaches were required to be inspected, would be in excess of the sum collected regardless of whether collection was accomplished by personnel of the Inspection Service or by employees of the committee. During those periods, if any, when inspection is required on bulk shipments of fresh peaches to adjacent markets, however, shippers should be required to pay assessments on such peaches, because under such circumstances the sum of the assessments so collected would exceed the expenses incurred in such collection.

Rulings on findings and conclusions. The period ending January 4, 1954, was fixed for the filing of briefs, proposed findings, or conclusions. No such documents were filed within the prescribed time.

General findings. (1) The marketing agreement as hereby proposed to be amended, and the order as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The marketing agreement as hereby proposed to be amended, and the order as hereby proposed to be amended, regulate the handling of peaches grown in the State of Georgia in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The marketing agreement as hereby proposed to be amended, and the order as hereby proposed to be amended are limited in their application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such regional production area would not effectively carry out the declared policy of the act; and

(4) The marketing agreement as hereby proposed to be amended, and the order as hereby proposed to be amended prescribe such different terms applicable to different marketing areas, as are necessary to give due recognition to such differences in the marketing of such peaches.

Effective November 15, 1953, the parity price for fresh peaches grown in the production area was $2.80 per bushel on the tree. On the basis of information now available, the seasonal average farm price for the 1954 crop of peaches grown in the production area will not exceed the parity price level for the 1954 season.

Recommended amendment to the marketing agreement and order. The following amendment to the marketing agreement and order is recommended as the detailed means by which the aforesaid conclusions may be carried out:

1. Delete the proviso in the first sentence of § 962.41 and insert in lieu thereof the following: "*Provided*, That no assessment shall be levied against peaches that are exempt from regulation pursuant to § 962.71 or against peaches that are exempt from inspection pursuant to § 962.64."

Filed at Washington, D. C., this 22d day of January 1954.

[SEAL] F. R. Burke,
Acting Deputy Administrator.

[F. R. Doc. 54-578; Filed, Jan. 27, 1954; 8:51 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Nebraska National Forest

Notice of Proposed Withdrawal and Reservation of Lands

An application, serial No. 59154, for the withdrawal from all forms of appropriation under the public land laws, except of the lands described below was filed on November 10, 1952, by the U. S. Forest Service.

The purposes of the proposed withdrawal: Land to be added to and made a part of the Nebraska National Forest.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Regional Administrator, Region III, Bureau of Land Management, Department of the Interior at Billings, Montana. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the Federal Register, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

T. 22 N., R. 26 W., 6th P. M., Nebraska.

Beginning at a point on the west boundary of Sec. 2 from which the south sixteenth section corner between Secs. 2 and 3 bears S. 0° 28' E., 0.75 chains; thence N. 0° 28' W. along section line approximately 19.70 chains to the south boundary of 100 foot right of way to C. B. and Q. R. R.; thence southeasterly along south boundary of said right of way to a point on meridianal center section line of Sec. 2; thence S. 0° 21' E., 10.30 chains, along said center section line to south center sixteenth section corner; thence S. 89° 46' W., 23.34 chains, approximately along south latitudinal sixteenth section line; thence N. 81° 48' W., 13.66 chains; thence S. 66° 56' W., 3.29 chains to point of beginning.

The area described aggregates approximately 54.4 acres.

M. B. Wallace,
Regional Administrator.

Alaska

Filing of Plat of Survey Canceled

January 15, 1954.

Notice is given that the plat or original survey of the following described lands published in the Federal Register December 17, 1953, on page 8462 which was amended and published in the Federal Register December 29, 1953, on page 8811 is hereby canceled on advice from the Division of Engineering, Bureau of Land Management, to the effect that a new plat has been authorized.

The land affected lies in T. 18 N., R. 13 E., C. R. M. Sections 18, 19 and 20.

Alfred P. Steger,
Manager.

Alaska

Shorespace Restoration Order No. 505

January 22, 1954.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 91-day preference right filing period for veterans, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43

U. S. C. 279–284), as amended, the 80-rod shorespace reserved created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371), is hereby revoked as to the following described lands, effective at 10:00 a. m. on the 21st day after the date of this order.

ANCHORAGE LAND DISTRICT

A tract of land situated on Lake Nancy, Alaska, more particularly described as follows:

Beginning at the section corner common to Sections 33 and 34, T. 19 N., R. 4 W., and Section 3, T. 18 N., R. 4 W., Seward Meridian; thence, south 11.55 chains; thence, northwesterly along the shore 13.00 chains; thence, east 5.57 chains to the point of beginning, containing approximately 4.5 acres (Petition for Shorespace Restoration of Kenneth V. Preston, Anchorage 016865).

A tract of land situated on Seldovia Bay, Alaska, identified as Lot 3, Section 6, T. 9 S., R. 14 W., Seward Meridian, containing approximately 15.29 acres (Homesite Application of Orland P. Rees, Anchorage 017576).

A tract of land situated on Naknek River, Alaska, more particularly described as follows:

Beginning at corner No. 3, U. S. Survey 2870; thence, N 18° 50' W 400 feet; thence, easterly 500 feet; thence, southerly 400 feet; thence, westerly along the right limit of Naknek River 500 feet to the point of beginning (Homesite Application of Alex Alvarez, Anchorage 018268).

A tract of land situated on Iliamna Lake, Alaska, identified U. S. Survey 3195, containing approximately 4.91 acres (Homesite Application of Charles St. Cyr, Anchorage 018468).

A tract of land situated on Naknek River, Alaska, more particularly described as follows:

Beginning at corner No. 4, U. S. Survey 544; thence, easterly along the right limit of the Naknek River 4.33 chains; thence N 16° 50' W 5.10 chains; thence, westerly along Red Salmon Company Road 4.40 chains; thence, S 16° 45' E 4.85 chains along line 3–4 of U. S. Survey 544 to the point of beginning, containing approximately 2.0 acres (Trade and Manufacturing Application of John W. Maggitt, Anchorage 018911).

A tract of land situated on Orca Inlet, Alaska, identified as Lot 4, U. S. Survey 2764, containing approximately 0.70 acres (Homesite Application of Max Wolf, Anchorage 019943).

A tract of land situated on Fritz Cove, Alaska, identified as Lot 2, proposed U. S. Survey 3281, containing approximately 0.15 acres (Homesite Application of J. W. Monagle, Anchorage 021789).

A tract of land situated on Auke Bay, Alaska, identified as Lot A, U. S. Survey 2389, containing approximately 4.72 acres (Homesite Application of Lyle A. Bowman, Anchorage 023178).

A tract of land situated on Lisianski Inlet, Alaska, identified as Lot 25, U. S. Survey 2913, containing approximately 4.76 acres (Homesite Application of John W. Breseman, Anchorage 024295).

A tract of land situated on Point Baker Anchorage, Alaska, identified as Lot 40, U. S. Survey 2829, containing approximately 1.73 acres (Homesite Application of Monk D. Lewis, Anchorage 024491).

A tract of land situated on Turnagain Arm, Alaska, identified as Lot 8, U. S. Survey 2757, containing approximately 4.48 acres (Homesite Application of George L. Adney, Anchorage 024492).

A tract of land situated on Point Baker Anchorage, Alaska, identified as Lot 23, U. S. Survey 2828, containing approximately 0.97 acres (Homesite Application of Elof Hanning, Anchorage 024493).

A tract of land situated on Point Baker, Anchorage, Alaska, identified as Lot 38, U. S. Survey 2829, containing approximately 0.93 acres (Homesite Application of Herbert Zeiske, Anchorage 024505).

A tract of land situated on Kenai Lake, Alaska, identified as Lot G, U. S. Survey 2520, containing approximately 3.97 acres (Homesite Application of Russell W. Lamoreaux, Anchorage 024534).

A tract of land situated on Turnagain Arm, Alaska, identified as Lot 10, U. S. Survey 2757, containing approximately 4.48 acres (Homesite Application of James W. Carter, Anchorage 024579).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 41, U. S. Survey 2951, containing approximately 1.31 acres (Homesite Application of Arthur H. Alexander, Anchorage 024588).

A tract of land situated on Point Baker Anchorage, Alaska identified as Lot 12, U. S. Survey 2827, containing approximately 1.26 acres (Homesite Application of Delman Kamp, Anchorage 024602).

A tract of land situated on Auke Lake, Alaska, identified as Lot K, U. S. Survey 2386, containing approximately 1.92 acres (Homesite Application of Rudy LaBraah, Anchorage 024624).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 6, proposed U. S. Survey 2946, containing approximately 0.27 acres (Homesite Application of Lucille F. Peterson, Anchorage 024854).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 16, proposed U. S. Survey 2947, containing approximately 0.73 acres (Homesite Application of Karl O. Strom, Anchorage 024882).

A tract of land situated on Kenai Lake, Alaska, identified as Lot 2, U. S. Survey 2523, containing approximately 1.87 acres (Homesite Application of John E. Coppock, Anchorage 025136).

A tract of land situated on Kenai Lake, Alaska, identified as Lot G, U. S. Survey 2529, containing approximately 4.55 acres (Homesite Application of James W. Dyer, Anchorage 025137).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 11, proposed U. S Survey 2946, containing approximately 0.27 acres (Homesite Application of Roy B. Elliot, Anchorage 025163).

A tract of land situated on Turnagain Arm, Alaska, identified as Lot 2, U. S. Survey 2757, containing approximately 2.99 acres (Homesite Application of Lawrence Stainbrook, Anchorage 025164).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 13, proposed U. S. Survey 2946, containing approximately 0.22 acres (Homesite Application of Ernest O. Swanson, Anchorage 025175).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 20, proposed U. S. Survey 2947, containing approximately 0.78 acres (Homesite Application of Hazel Wimer, Anchorage 025179).

A tract of land situated on Kenai Lake, Alaska, identified as Lot C, U. S. Survey 2531, containing approximately 4.97 acres (Homesite Application of Roy M. Malutin, Anchorage 025258).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 30, proposed U. S. Survey 2948, containing approximately 0.98 acres (Homesite Application of Roy C. Clements, Anchorage 025285).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 9, proposed U. S. Survey 2946, containing approximately 1.00 acres (Headquarters Site Application of John M. Steear, Anchorage 025489).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 31, proposed U. S. Survey 2949, containing approximately 1.50 acres (Homesite Application of Iva H. Lingard, Anchorage 025510).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 58, U. S. Survey 2953, containing approximately 0.68 acre (Homesite Application of Karl Wollarth, Anchorage 025559).

A tract of land situated on Tongass Narrows, Alaska, identified as Lot 59, U. S. Survey 2402, containing approximately 1.33 acres (Homesite Application of Roland Fisher, Anchorage 025618).

A tract of land situated on Elfin Cove, Alaska, identified as Lot 17, proposed U. S Survey 2947, containing approximately 0.47 acre (Petition for Small Tract Classification of Hugh A. Tennison, Anchorage 025623).

A tract of land situated on Wrangell Narrows, Alaska, identified as Lot D, U. S. Survey 2461, containing approximately 4.86 acres (Homesite Application of Raymond Brady, Anchorage 022651).

A tract of land situated on Boswell Bay, Alaska, identified as Homesite 74, U. S. Survey 2679, containing approximately 4.64 acres (Homesite Application of W. W. Tschoeppl, Anchorage 025822).

A tract of land situated on Kenai Lake, Alaska, identified as Lot 1, U. S. Survey 2528, containing approximately 4.78 acres (Homesite Application of Harvey Ainsworth, Anchorage 026036).

FRED J. WEILER,
Chief,
Division of Land Planning.

ALASKA

SHORESPACE RESTORATION ORDER NO. 307

JANUARY 22, 1954.

By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to section 2.22 (a) (3), of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 91-day preference right filing period for veterans, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279–284), as amended, the 80-rod shorespace reserve created under the act of May 14, 1898 (30 Stat. 409), as amended by the act of March 3, 1903 (32 Stat. 1028; 48 U. S. C. 371), is hereby revoked as to the following described lands, effective at 10:00 a. m. on the 21st day after the date of this order.

ANCHORAGE LAND DISTRICT

All vacant and unappropriated public lands abutting or lying within 80 rods of the shore of Tongass Narrows, Alaska, between Corner No. 1 and Corner No. 12, U. S. Survey 1761, containing approximately 1,140 acres.

All vacant and unappropriated public lands abutting or lying within 80 rods of the shore of Gastineau Channel, Alaska, between U. S. Land Monument No. 3 and Corner No. 7, U. S. Survey 1762, containing approximately 840 acres.

All lands abutting or lying within 80 rods of the south bank of Knik River, Alaska, in unsurveyed sections 5 and 6, T. 16 N., R. 3 E., Seward Meridian, containing approximately 450 acres.

SEWARD MERIDIAN

T. 26 N., R. 5 W.,
Section 13: Lot 6.

Containing approximately 38.07 acres.

A tract of land situated on Tongass Narrows, Alaska more particularly described as follows:

Beginning at Corner No. 1, U. S. Survey 3094; thence, southeasterly 20 chains along the shore of Tongass Narrows; thence, S 40° 58' W 20 chains; thence, northwesterly 20 chains; thence, N 40° 58' E 20 chains to the point of beginning, containing approximately 40 acres.

Proposed U. S. Survey 2946: Lots 2, 4, 7, 8, 10, 12, 13A, 14, and 15. Containing approximately 3.03 acres.

Proposed U. S. Survey 2947: Lots 18, 19, 21, 22, and 23. Containing approximately 3.83 acres.

Proposed U. S. Survey 2948: Lots 24–29, inclusive. Containing approximately 3.81 acres.

Proposed U. S. Survey 2949: Lots 32–36, inclusive. Containing approximately 3.13 acres.

Proposed U. S. Survey 2950: All. Containing approximately 2.65 acres.

Proposed U. S. Survey 2951: Lots 42, 42A, 43, 44, and 45A. Containing approximately 11.93 acres.

U. S. Survey 2952: Lots 45, 46, 47, 48, 49, 75, and 76. Containing approximately 8.18 acres.

U. S. Survey 2953: Lots 51, 52, 53, 54, 56, and 74. Containing approximately 6.04 acres.

U. S. Survey 2954: Lots 57, 58, 59, 59A, 60, 72, and 73. Containing approximately 9.28 acres.

U. S. Survey 2955: Lots 61, 62, 63, 64, and 71. Containing approximately 4.18 acres.

U. S. Survey 2956: Lots 65, 66, 67, 68, 68A, 69, and 69A. Containing approximately 6.00 acres.

U. S. Survey 3175: All. Containing approximately 2.50 acres.

U. S. Survey 2829: Lot 33. Containing approximately 1.05 acres.

U. S. Survey 2616: Lots 1, 4, 12, 14, and 15. Containing approximately 9.48 acres.

U. S. Survey 2613: Lots 29 and 36. Containing approximately 7.09 acres.

U. S. Survey 2612: Lot 22. Containing approximately 4.31 acres.

U. S. Survey 2327: Lot J. Containing approximately 0.61 acres.

U. S. Survey 2615: Lot 2. Containing approximately 1.90 acres.

U. S. Survey 2475: Lot L. Containing approximately 4.18 acres.

U. S. Survey 2450: Lot 1. Containing approximately 4.02 acres.

U. S. Survey 2451: Lot 6. Containing approximately 4.99 acres.

U. S. Survey 2452: Lot 15. Containing approximately 3.74 acres.

FRED J. WEILER,
Chief,
Division of Land Planning.

ARIZONA

SMALL TRACT CLASSIFICATION ORDER NO. 26

JANUARY 20, 1954.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, under section 2.21 of Order No. 427, approved by the Secretary of the Interior on August 16, 1950 (15 F. R. 5641), I hereby classify, under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467; 43 U. S. C. 682a), as hereinafter indicated, for lease and sale, the following described lands in the Arizona Land District, embracing approximately 701.02 acres:

GILA AND SALT RIVER MERIDIAN

T. 11 S., R. 6 W.,
Sec. 34, lots 1 to 32, inclusive (W½SE¼, E½SW¼).
T. 12 S., R. 6 W.,
Sec. 3, lots 5 to 69, inclusive (W½E½, E½W½),
Sec. 10, lots 1 to 46, inclusive (NW¼NE¼, NE¼NW¼, W½SE¼NW¼, W½E½SE¼NW¼, W½NE¼SW¼, S½SW¼).

(a) For home or business sites:

T. 11 S., R. 6 W.,
Sec. 34, lots 2, 3, 7, 8, 10, 11, 15, 16, 18, 19, 23, 24, 26, 27, 31, 32.
T. 12 S., R. 6 W.,
Sec. 3, lots 6, 7, 11, 12, 14, 15, 19, 20, 22, 23, 27, 28, 30, 31, 35, 36, 38, 39, 43, 44, 46, 47, 51, 52, 54, 55, 59, 60, 62, 63, 67, 68.
T. 12 S., R. 6 W.,
Sec. 10, lots 2, 3, 7, 8, 11, 12, 16, 17.

(b) For home sites only:

T. 11 S., R. 6 W.,
Sec. 34, lots 1, 4, 5, 6, 9, 12, 13, 14, 17, 20, 21, 22, 25, 28, 29, 30.
T. 12 S., R. 6 W.,
Sec. 3, lots 5, 8, 9, 10, 13, 16, 17, 18, 21, 24, 25, 26, 29, 32, 33, 34, 37, 40, 41, 42, 45, 48, 49, 50, 53, 56, 57, 58, 61, 64, 65, 66, 69.
T. 12 S., R. 6 W.,
Sec. 10, lots 1, 4, 5, 6, 9, 10, 13, 14, 15, 18 to 46, inclusive.

2. The lands in Sec. 34, T. 11 S., R. 6 W. described above were placed under consideration for small tract classification at 9:30 a. m. on September 29, 1952. The lands in Secs. 3 and 10, T. 12 S., R. 6 W. described above were placed under consideration for small tract classification at 10:30 a. m. on July 28, 1952.

3. The lands affected by this order are in Pima County, Arizona and adjoin the northern outskirts of the Ajo community, extending northward for a distance of approximately 2½ miles on State Highway No. 85. The general topography of the area varies from flat to broken. Sec. 34, T. 11 S., R. 6 W. has a flat even surface. The same is true for Sec. 3, T. 12 S., R. 6 W. In Sec. 10, T. 12 S., R. 6 W. the surface is quite uneven and cut up by numerous washes. The soil is of a rocky to coarse gravel type with some small areas of fine sand. Vegetation is typical of the southwestern desert.

4. As to applications filed on lands described in Sec. 34, T. 11 S., R. 6 W. prior to 9:30 a. m. on September 29, 1952, and on lands in Secs. 3 and 10, T. 12 S., R. 6 W. prior to 10:30 a. m. on July 28, 1952, this order shall become effective upon the date it is signed, provided the applications are made to conform to the land descriptions and types of use specified in this order.

5. This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to applications under the Small Tract Act as follows:

(a) Ninety-one day period for preference-right filings. For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to applications under the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II, subject to the requirements of applicable law. All applications filed under this paragraph after the lands were placed under consideration as stated in paragraph (2) above, and either at or before 10:00 a. m. on the 35th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 35th day. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) Date for non-preference-right filings. Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to disposal under the Small Tract Act only. All such applications filed after the lands were placed under consideration as stated in paragraph (2) above, and either at or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

6. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

7. Each of the lots described in this order will be leased as one tract. Lots 62, 63, 67 and 68 in Sec. 3, and lots 2, 3, 7, 8, 11, 12, 16 and 17 in Sec. 10, T. 12 S., R. 6 W. contain approximately 3¾ acres. All remaining lots contain approximately 5 acres.

8. Leases will be for a period of three years at annual rentals of $5.00 for home sites or a minimum of $20.00 for business sites, payable for the entire lease period in advance of the issuance of the lease. The lessee for a business site shall be obligated to pay any additional rental at the rate fixed by the schedule of rentals in effect at the date of the approval of the lease.

9. Leases will contain an option to purchase clause at appraised values as follows:

In Sec. 34, T. 11 S., R. 6 W., lots 2, 3, 7, 8, 10, 11, 15, 16, 18, 19, 23, 24, 26, 27, 31, and 32 are appraised at $75.00 per lot; lots 1, 4, 5, 6, 9, 12, 13, 14, 17, 20, 21, 22, 25, 28, 29, and 30 are appraised at $50.00 per lot.

In Sec. 2, T. 12 S., R. 6 W., lots 6, 7, 11, 12, 14, 15, 19, 20, 22, 23, 27, 28, 30, 31, 35, 36, 37, 40, 41, 42, 45, 48, 49, 50, 53, 56, 57, 58, 61, 64, 65, 66, and 69 are appraised at $100.00 per lot; lots 38, 39, 43, 44, 46, 47, 51, 52, 54, 55, 59, 60, 62, 63, 67, and 68 are appraised at $115.00 per lot; lots 5, 8, 9, 10, 13, 16, 17, 18, 21, 24, 25, 26, 29, 32, 33, and 34 are appraised at $75.00 per lot.

In Sec. 10, T. 12 S., R. 6 W., lots 1, 4, 5, 8, 9, 10, 13, 14, 15, and 18 are appraised at $115.00 per lot; lots 2, 3, 7, 8, 11, 12, 16, 17, and 19 to 24, inclusive, are appraised at $125.00 per lot; lots 25 to 30, inclusive, and lots 33, 34, 35, 36, 41, 42, 43, and 44 are appraised at $135.00 per lot; lots 31, 32, 37, 38, 39, 40, 45, and 46 are appraised at $150.00 per lot.

(a) Applications to purchase may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease, provided minimum improvements shall have been constructed prior to the date of application to purchase. For home sites the minimum improvements shall consist of a habitable house of at least two rooms, containing a minimum floor area of 500 square feet, and adequate water and sanitary facilities. For business sites the minimum improvements shall be those improvements suitable for the purpose for which the tract is leased.

(b) Notwithstanding the minimum requirements set forth in (a) above, all improvements on the lands covered by this order must comply with the zoning regulations of the Pima County Planning and Zoning Commission and with the requirements of the Pima County Health Department with regard to building specifications, set-backs, and sanitation facilities.

(c) Leases issued under the terms of this order shall not be subject to assignment unless and until improvements as specified in (a) and (b) above shall have been constructed.

(d) Leases for lands upon which the improvements mentioned above have not been constructed prior to the expiration thereof shall not be renewed.

10. Tracts will be subject to all existing rights-of-way and to rights-of-way, thirty-three feet in width, for road purposes and public utilities, as follows:

In Sec. 34, T. 11 S., R. 6 W., along north line of lots 1, 2, 3, 4, 5, 17, 18, 19, 20, 21; along south line of lots 9, 13, 14, 15, 16, 25, 29, 30, 31, 32; along east line of lots 1, 5, 9, 13, 17, 21, 25, 29; along west line of lots 4, 6, 12, 14, 20, 22, 28, 30.

In Sec. 3, T. 12 S., R. 6 W., along north line of lots 5, 6, 7, 8, 9, 21, 22, 23, 24, 25, 37, 38, 39, 40, 41, 53, 54, 55, 56, 57; along south line of lots 13, 17, 18, 19, 20, 29, 33, 34, 35, 36, 45, 49, 50, 51, 52, 65, 66, 67, 68, 69; along east line of lots 5, 9, 13, 17, 21, 25, 29, 33, 37, 41, 45, 49, 53, 57, 61, 65, 69; along west line of lots 8, 10, 16, 18, 24, 26, 32, 34, 40, 42, 48, 50, 56, 58, 64, 66.

In Sec. 10, T. 12 S., R. 6 W. along north line of lots 1, 2, 3, 4, 5, 19, 20, 25, 26, 31, 32, 33, 34; along south line of lots 14, 15, 16, 17, 18, 23, 24, 29, 30, 43, 44, 45, 46; along east line of lots 1, 5, 9, 10, 14, 18, 20, 23, 26, 29, 32, 34, 35, 37, 40, 42, 43, 45; along west line of lots 4, 6, 13, 15, 19, 21, 22, 34, 25, 27, 28, 30, 31, 33, 36, 38, 39, 41, 44, 46.

Such rights-of-way may be utilized by the Federal Government, or the State, County or municipality in which the tract is situated, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

11. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

[F. R. Doc. 54-555; Filed, Jan. 27, 1954; 8:46 a. m.]

ARIZONA

CLASSIFICATION ORDER

JANUARY 22, 1954.

1. Pursuant to the authority delegated to me by the Director, Bureau of Land Management, by Order No. 427, dated August 16, 1950, 15 F. R. 5639, I hereby classify under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. 682a), as hereinafter indicated, the following described lands in the Arizona land district, embracing approximately 440 acres:

ARIZONA SMALL TRACT CLASSIFICATION NO. 27

For lease and sale for homesites only:

T. 5 S., R. 10 E., G. & S. R. M.,
Sec. 34, NW¼, N½SW¼, SE¼SW¼, SE¼.

The land is located just north of U. S. Highway 80–89, a distance of approximately 7 miles southeast of Florence, Arizona. A good graded road leading from Highway 80–89 traverses the north boundary of the section. The soil is of a deep sandy loam type with a heavy growth of typical southwestern desert vegetation. Water for domestic purposes in the area is obtained from drilled wells. A privately owned water system located north of this area could be extended to supply some of these lands. Electric power is available from the electric power system of the San Carlos Irrigation Project. Natural gas service is not available.

2. As to applications filed on these lands prior to 12:03 p. m. on April 25, 1949, this order shall become effective upon the date it is signed, provided the applications conform to or are made to conform to the provisions of this order.

3. This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to applications under the Small Tract Act as follows:

(a) Ninety-one day period for preference-right filings. For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject to applications under the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II, subject to the requirements of applicable law. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) Date for non-preference-right filings. Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to disposal under the Small Tract Act only. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their application by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. The lands will be leased in tracts of approximately 5 acres, 660 feet by 330 feet, the longer dimension extending north and south. Leases will be for a period of three years at an annual rental of $5.00 payable for the entire lease period in advance of the issuance of the lease.

6. Leases will contain an option to purchase clause at the appraised values as follows:

Tracts in the N½N½NW¼ are appraised at $100.00 per tract.

Tracts in the S½N½NW¼, S½NW¼, N½SW¼ and SE¼SW¼ are appraised at $75.00 per tract.

Tracts in the SE¼ are appraised at $50.00 per tract.

(a) Applications for purchase may be filed during the term of the lease but not more than 30 days prior to the expiration of one year from the date of the lease, provided minimum improvements consisting of a habitable house of at least two rooms, containing a minimum floor area of 500 square feet, and adequate water and sanitary facilities shall have been constructed prior to the date of application to purchase.

(b) Leases issued under the terms of this order shall not be subject to assignment unless and until improvements as mentioned in (a) shall have been completed.

(c) Leases for lands upon which the improvements mentioned above shall not have been constructed at or before the expiration thereof shall not be renewed.

7. Lessees and/or their successors in interest shall comply with all Federal, State, county and municipal laws and ordinances, especially those governing health and sanitation, and failure or refusal to do so may be cause for cancellation of the lease in the discretion of the authorized officer of the Bureau of Land Management.

8. Tracts will be subject to all existing rights-of-way and to rights-of-way for road purposes and public utilities as follows:

33 feet along the north and south boundaries of the N½NW¼, S½NW¼, N½SW¼, SE¼SW¼, N½SE¼, S½SE¼.

33 feet along the east and west boundaries of the W½NW¼, E½NW¼, NW¼SW¼, E½SW¼, W½SE¼, E½SE¼.

The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of patent. If not so located, they may be subject to location after patent is issued. All rights-of-way herein mentioned and reserved may be utilized by the Federal Government, or the State, county or municipality in which the tract is situated, or by any agency thereof.

9. All inquiries relating to these lands should be addressed to the Manager, Land and Survey Office, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

[F. R. Doc. 54-554; Filed, Jan. 27, 1954; 8:46 a. m.]

[No. 22 (R–IV)]

UTAH

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 19, 1954.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. 315g), the following described lands have been reconveyed to the United States:

SALT LAKE MERIDIAN

T. 35 S., R. 26 E.,
Sec. 9, E½NE¼, NE¼SE¼,
Sec. 15, NE¼.

The area described contains 280 acres.

The land in section 9 is primarily valuable for grazing, and it is unlikely that it will be classified as suitable for disposal under the homestead, desert-land, or small tract laws. The NE¼ section 15 may have agricultural possibilities.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Salt Lake City, Utah.

H. BYRON MOCK,
Regional Administrator.

[F. R. Doc. 54-556; Filed, Jan. 27, 1954; 8:46 a. m.]

DEPARTMENT OF COMMERCE

Patent Office

[Dept. Order No. 89 (amended)]

ORGANIZATION AND FUNCTIONS

SECTION 1. *Purpose.* The purpose of this order is to describe the organization and define the functions of the Patent Office.

SEC. 2. *Organization.* .01 The Patent Office, a primary organization unit of the Department of Commerce, shall be under the direction and supervision of the Under Secretary of Commerce. The Patent Office shall be headed by a Commissioner of Patents who shall report and be responsible to the Under Secretary of Commerce.

.02 The Patent Office shall consist of the following organization units:

1. Office of the Commissioner of Patents.
2. Board of Appeals.
3. Office of the Solicitor.
4. Office of Interferences.
5. Executive Office, including:
(1) Executive Officer.
(2) Budget and Finance Division.
(3) Administrative Management Division.
(4) Personnel Division.
(5) General Services Division.
(6) Scientific Library.
6. Patent Examining Operation, including:
(1) Patent Examining Groups.
(2) Classification Group.
7. Trade-Mark Examining Operation, including:
(1) Trade-Mark Examining Group.
(2) Trade-Mark Classification Division.

SEC. 3. *Delegation of authority.* .01 Reorganization Plan No. 5 of 1950 transferred all functions of all officers, agencies and employees of the Department, including the Patent Office, to the Secretary of Commerce; also, pursuant to the authority conferred on the Secretary of Commerce in section 3 of Title 35, United States Code, there were vested in the Secretary of Commerce by Amendment No. 1 of Department Order No. 89 (Amended), effective January 1, 1953 (18 F. R. 87), the functions of the Patent Office and its officers and employees specified in Title 35.

.02 Pursuant to the same authority, the Patent Office and its officers and employees were authorized to continue to perform the functions of the Patent Office and the several officers and em-

ployees thereof theretofore performed and as specified in said Title 35.

.03 Pursuant to the same authority the Patent Office and its officers and employees shall continue to exercise the same authority and functions in accordance with the provisions of this order.

SEC. 4. *General functions.* The basic function of the Patent Office is the administration of patent and trade-mark laws as they relate to the granting of patents for inventions and the registration of trade-marks.

SEC. 5. *Office of the Commissioner of Patents.* .01. The Office of the Commissioner includes the Commissioner of Patents, the First Assistant Commissioner, and two Assistant Commissioners.

.02 The Office of the Commissioner of Patents shall be responsible for formulating the policies, developing and coordinating the programs and directing all operations and administrative functions of the Patent Office.

.03 The First Assistant Commissioner and the Assistant Commissioners perform such duties pertaining to the Office of Commissioner as may be assigned them by the Commissioner. By statutory designation, they are members of the Board of Appeals.

SEC. 6. *Board of Appeals.* The Board of Appeals consists of the Commissioner, the Assistant Commissioners, nine examiners-in-chief, and such pro tempore members as may be assigned by the Commissioner under the authority contained in Title 35, U. S. Code, section 7. The Board shall hear and decide appeals from final rejections by the patent examining divisions denying the patentability of inventions claimed in patent applications.

SEC. 7. *Office of the Solicitor.* The Office of the Solicitor includes the Solicitor and the Law Examiners, who comprise the legal staff of the Commissioner. This office shall have charge of litigation in which the Patent Office is a party; investigate legal and legislative matters for the Commissioner, and render opinions and decisions on legal questions.

SEC. 8. *Office of Interferences.* The Office of Interferences consists of the Board of Patent Interferences and the Examiners of Trade-Mark Interferences, who function under the direction of the Chief Examiner of Interferences.

1. The Board of Patent Interferences shall make final determinations in the Patent Office of the question of priority of invention in proceedings involving rival claimants for patents for the same patentable invention; and

2. The Examiners of Trade-Mark Interferences shall determine the respective rights to trade-mark registration among rival claimants to the same mark. Determinations shall also be made as to the rights of parties involved in oppositions to registration, applications to register as a lawful concurrent user, and applications to cancel registrations.

SEC. 9. *Executive Office.* The Executive Office comprises the following major organizational units:

1. The Executive Officer, who is responsible to the Commissioner of Patents for the conduct of administrative and service functions of the Patent Office;

2. The Budget and Finance Division, which provides assistance to the Executive Officer in developing sound budgetary and fiscal policies and practices. It prepares budget estimates and aids in their justification; administers and controls the approved expenditures program; and provides accounting services and administers payroll and leave functions;

3. The Administrative Management Division, which maintains a continual appraisal of operations to identify conditions requiring management improvement and conducts required analysis, research and planning to effect the indicated improvement. It collects, analyzes and distributes internally workload and performance data for the Office and provides a continuing review of administrative printing and duplicating including the administration of a forms development and control operation. It is also responsible for records management and the development of administrative manuals;

4. The Personnel Division, which formulates personnel policies and programs; recruits and places personnel; effects proper position classification; recommends actions to improve working conditions and employee morale; develops and administers employee training programs; maintains records of all personnel actions; and administers the performance rating system;

5. The General Services Division, which reviews new patent applications for compliance with requirements as to form prior to consideration by patent examiners; inspects drawings submitted in applications to insure conformance with requirements as to formal execution; prepares allowed applications for printing and issues patent grants and trade-mark registration certificates; records assignments transferring property rights in patents and trade-marks and furnishes abstracts of title; procures, stores and sells printed copies of patents and trade-marks; answers correspondence of a general nature; and provides the routine service and supply needs of the Office; and

6. The Scientific Library, which maintains a search room for the benefit of the public in searching and examining the United States patents. It also maintains a library of scientific publications and a comprehensive file of foreign patents, for use by Patent Office examiners and the public. In addition, it maintains a register of patents dedicated to public use and those available for license or sale.

SEC. 10. *Patent Examining Operation.* The Patent Examining Operation is under the direction of the Executive Examiner (Patents), who is responsible to the Commissioner of Patents for the operation of the patent examining and patent classification functions of the Patent Office. The Executive Examiner formulates and directs the execution of basic examining policies and practices; applies provisions of law relating to the security of applications; renders decisions on procedural and substantive matters; and exercises overall responsibility for the professional competence and productive efficiency of the examining corps. The major organizational components of the Patent Examining Operation comprise a number of Patent Examining Groups and a Classification Group.

1. Each Patent Examining Group comprises a Supervisory Patent Examiner, as its head, and a number of patent examining divisions. The Supervisory Patent Examiner is responsible for ensuring the fullest effectiveness of operation in the various examining divisions within his cognizance and maintaining relative uniformity of practice among them. He also fosters quantitative and qualitative improvements in the examining process; passes upon certain actions proposed to be taken by examiners; and acts for the Commissioner in deciding petitions filed by applicants on matters not appealable to the Board of Appeals. Each patent examining division comprises a primary examiner and a number of assistant examiners and has jurisdiction of applications in assigned fields of inventions. The functions of the divisions are to determine the patentability of claimed invention based on search of prior art and application of statutory provisions; allow or reject the claims in applications on the basis of their findings; make holdings of abandonment; institute interference proceedings to determine priority of invention; rule on certain motions in connection with interferences; and perform related duties; and

2. The Classification Group develops and maintains a system for the classification of the useful arts to provide a basic frame of reference for the guidance of patent examiners and the general public in making searches for novelty, interference, or infringement of inventions. The Group also insures the effective use of this system in the classification of issued patents and reviews the work of the examining divisions for uniform application of prescribed practice governing the restriction of patent applications to a single invention. These functions are divided among five classification divisions.

SEC. 11. *Trade-Mark Examining Operation.* The Trade-Mark Examining Operation is under the supervision of an Executive Examiner (Trade-Marks). The Executive Examiner plans, directs, and coordinates the trade-mark classification, examination, and service activities; formulates and directs the execution of basic examining and classification policies and practices relating to the registration of marks; insures that such policies comply with statutory and regulatory provisions, court decisions, and decisions of the Commissioner; effects standards of performance for individuals and groups; and, in general, exercises overall responsibility for the effectiveness of trade-mark operations. The principal organizational units within the Trade-Mark operation are:

1. The Trade-Mark Examining Group, consisting of four trade-mark examining divisions, a service branch, and a search room, which performs trade-mark examining functions; furnishes necessary clerical processing and recording services connected with these functions; and maintains a digest of published and registered marks, classified according to the characteristics of the marks, to facilitate reference searches by examiners and the public. Each of the trade-mark examining divisions, under the supervision of a primary examiner, examines applications for the registration of trade-marks within assigned class of goods or services. The divisions develop the formal sufficiency of applications; determine the registrable merits of marks through search of the prior art and application of references, precedent decisions, established rules and procedures, and statutory requirements; allow or reject applications on the basis of their findings; make holdings of abandonment; institute interference proceedings to determine priority of use of marks and rule on certain motions in connection therewith; and perform related duties; and

2. The Trade-Mark Classification Division, which develops and maintains a system for the classification of goods and services to which trade-marks may be applied, and insures the effective application of the system in the examination of trade-mark applications and the registration of marks.

SEC. 12. *Effect on other orders.* This order supersedes Department Order No. 89 (amended) of May 5, 1948 (13 F. R. 2568–2569). This order also supersedes Department Order No. 89 (amended), Amendment 1, effective January 1, 1953 (18 F. R. 87), inasmuch as the provisions of that amendment are incorporated herein. This order also supersedes paragraphs 1, 2, and 14 through 27 of the material appearing at 12 F. R. 5874. This order shall not affect any existing delegations or authorizations issued by the Secretary relating to specific functions or officials of the Patent Office. Any other orders or parts of orders the provisions of which are inconsistent or in conflict with the provisions of this order are hereby amended or superseded accordingly.

Effective date: December 30, 1953.

[SEAL] SINCLAIR WEEKS,
Secretary of Commerce.

[F. R. Doc. 54–588; Filed, Jan. 27, 1954; 8:53 a. m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

DIRECTOR OF DIVISION OF SCHOOL ASSISTANCE IN FEDERALLY AFFECTED AREAS, ET AL.

DELEGATION OF AUTHORITY WITH RESPECT TO CERTAIN DUTIES AND FUNCTIONS

Pursuant to section 105 (a) of Public Law 815, 81st Congress (act of September 23, 1950, 64 Stat. 967), as amended, and section 8 (a), Public Law 874, 81st Congress (act of September 30, 1950, 64 Stat. 1100), as amended, the Director or Associate Director of the Division of School Assistance in Federally Affected Areas, or in the event of their concurrent absence the Director of the Field Operations Branch, Division of School Assistance in Federally Affected Areas, are hereby authorized and empowered to exercise all authority vested in the Commissioner of Education by Titles II, III, and IV of Public Law 815, 81st Congress, as amended, and Public Law 874, 81st Congress, as amended, including the certification of payments, subject to applicable regulations, except:

1. The authority to make regulations;

2. The authority with respect to the holding of hearings as provided in Part 106, Chapter I, 45 CFR, as amended, or as it may be amended;

3. The authority to delegate functions to officers or employees of the Office of Education as set forth in section 105 (a) of Public Law 815, 81st Congress, as amended, and section 8 (a) of Public Law 874, 81st Congress, as amended; and

4. The responsibility for making an annual report to the Congress as set forth in section 208 (c) of Public Law 815, 81st Congress, as amended, and section 7 (c) of Public Law 874, 81st Congress, as amended.

Dated: January 18, 1954.

[SEAL] S. M. BROWNELL,
Commissioner of Education.

Approved: January 21, 1954.

OVETA CULP HOBBY,
Secretary.

PALM BEACH BROADCASTING CORP. AND WEAT–TV, INC.

ORDER CONTINUING HEARING

In re applications of Palm Beach Broadcasting Corporation, West Palm Beach, Florida, Docket No. 10828, File No. BPCT–1237; WEAT–TV, Inc., West Palm Beach, Florida, Docket No. 10829, File No. BPCT–1803; for construction permits for new television stations.

In view of the order issued on January 19, 1954, granting an extension of time through January 25, 1954, to both applicants in the above-entitled proceeding, for the filing of certain supplementary information required by the Commission's McFarland letters of November 30, 1953: *It is hereby ordered*, This 22d day of January, 1954, that the hearing in said proceeding, heretofore scheduled to commence on January 29, 1954, is continued to February 5, 1954, at 10:00 a. m. at Washington, D. C.

The hearing will commence at the rescheduled time stated above with a conference pursuant to § 1.841 of the Commission's rules and regulations for the purpose of discussing the various matters and for taking such action as is prescribed in said section.

Counsel for the applicants have informally agreed to exchange their proposed points of reliance, and to furnish counsel for the Broadcast Bureau with copies thereof, on February 3, 1954.

Released: January 25, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

[Docket Nos. 10859, 10860]

SOUTHERN BROADCASTING CO., INC., AND CHARLESTON BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Southern Broadcasting Company, Inc., Charleston, South Carolina, Docket No. 10859, File No. BPCT–693; Charleston Broadcasting Company, Charleston, South Carolina, Docket No. 10860, File No. BPCT–1110; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 2 in Charleston, South Carolina; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Southern Broadcasting Company, Inc., is legally, technically and financially qualified to construct, own and operate a television broadcast station; that Charleston Broadcasting Company is legally qualified to construct, own and operate a television broadcast station and is technically so qualified except as to the matters referred to in issues "2", "3" and "4" below; and

It further appearing, that Charleston Broadcasting Company proposes an antenna location in the immediate vicinity of the antennas of standard broadcast stations WHAN and WPAL; that no determination has been made as to the feasibility of such proposed operation and as to the effects of such proximate operation upon the operation of stations WHAN and WPAL, particularly with respect to the effects of such operation upon the ability of stations WHAN and

WPAL to operate in accordance with the terms of their licenses; and that if the proposed operation is determined to be feasible and the application is granted after the hearing herein, such grant shall be subject to a condition as follows:

The construction authorized shall not adversely affect the ability of standard broadcast stations WHAN and WPAL to operate in accordance with the terms of their licenses, particularly with respect to their antenna systems, and that sufficient field intensity measurements of stations WHAN and WPAL shall be made before and after such construction to prove that no material effect thereon has resulted.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 19th day of February 1954 in Washington, D. C., upon the following issues:

(1) To determine whether Charleston Broadcasting Company is financially qualified to construct, own and operate the proposed television broadcast station.

(2) To determine what effects, if any, the installation of the television antenna as proposed in the above-entitled application of Charleston Broadcasting Company would have on the operation of standard broadcast stations WHAN and WPAL; whether corrective measures for such effects are possible and feasible; and what proof should be submitted to show that such corrective measures have been taken after installation and operation of the said proposed antenna.

(3) To determine whether the engineering data contained in the above-entitled application of Charleston Broadcasting Company is in accordance with the requirements of § 3.684 of the Commission's rules.

(4) To determine the antenna gain rating, aural transmitter output rating and transmission line losses proposed by Charleston Broadcasting Company, and the effect thereof on the calculated effective radiated power.

(5) To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 22, 1954.

[Docket Nos. 10854-10858]

BISCAYNE TELEVISION CORP. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Biscayne Television Corporation, Miami, Florida, Docket No. 10854, File No. BPCT-1453; Mel Foster-Harold Hoersch, Miami, Florida, Docket No. 10855, File No. BPCT-1611; East Coast Television Corp., Miami, Florida, Docket No. 10856, File No. BPCT-1612; South Florida Television Corporation, Miami, Florida, Docket No. 10857, File No. BPCT-1806; Sunbeam Television Corporation, Miami, Florida, Docket No. 10858, File No. BPCT-1816; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954:

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 7 in Miami, Florida; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that East Coast Television Corp., South Florida Television Corporation and Sunbeam Television Corporation are legally, financially and technically qualified to construct, own and operate a television broadcast station; that Biscayne Television Corporation is so qualified but that its application, considered in the light of the provisions of §§ 3.35 and 3.240 of the Commission's rules and established policy, raises a serious question as to whether a grant thereof would result in a lessening of competition between radio stations WQAM and WIOD and between radio stations WQAM-FM and WIOD-FM; that Mel Foster-Harold Hoersch are legally and financially so qualified and are technically so qualified except as to the matters raised in issues "2" and "3" below;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 19th day of February 1954 in Washington, D. C., upon the following issues:

1. To determine, in the light of the provisions of §§ 3.35 and 3.240 of the Commission's rules and the Commission's policy with respect to complete divorcement of management, ownership and other interests between stations of the same class in the same community or serving substantially the same area, what special circumstances, if any, exist which might justify the grant of the above-entitled application of Biscayne Television Corporation.

2. To determine whether the installation and operation of the station proposed by Mel Foster-Harold Hoersch in their above-entitled application would constitute a hazard to air navigation

3. To determine the loss of the diplexer and the power gain of the antenna system proposed by Mel Foster-Harold Hoersch, and the effect thereof on the calculated effective radiated power.

4. To determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 22, 1954.

[Docket Nos. 10861, 10862]

WPTF RADIO CO. AND CAPITOL BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of WPTF Radio Company, Raleigh, North Carolina, Docket No. 10861, File No. BPCT-511; Capitol Broadcasting Company, Incorporated, Raleigh, North Carolina, Docket No. 10862, File No. BPCT-824; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 5 in Raleigh, North Carolina; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It further appearing, that WPTF Radio Company and Capitol Broadcasting Company, Incorporated were notified, by letters dated January 7 and 11, 1954, respectively, that in the event of a grant of either of their applications, such grant would be conditioned so as to require the installation and maintenance of special hazard markers; that both applicants have replied to said letters and have indicated their willingness to accept such conditions; and that any grant made to either of the above applicants shall be subject to the following conditions:

The outer limits of the hazard area in which the tower will be situated shall be marked by symbols consisting of the letters "HAZ" located so that at least one symbol will be visible from aircraft at any normal angle of approach. The marking symbols shall be located immediately beyond the ground connection of the outer guy wires. The letters of such symbols shall be installed in a manner to be legible in clear air at an altitude of 3000 feet at a distance of two miles. Moreover the symbols shall consist of uniform block letters having a height of at least thirty feet and a width equal to two-thirds of the height. The width of each stroke shall be approximately one-seventh of the height of the letters. In addition, the letters shall be painted aviation surface orange.

The symbols shall be cleaned and repainted as often as necessary to maintain good visibility. If the strokes of the letters are constructed of wood or metal panels such construction shall be designed to prevent an accumulation of snow.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 19th day of February 1954 in Washington, D. C., to determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(1) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(2) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: January 22, 1954.

GREATER HUNTINGTON RADIO CORP. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Greater Huntington Radio Corporation, Huntington, West Virginia, Docket No. 10863, File No. BPCT-773; The Ashland Broadcasting Company, Huntington, West Virginia, Docket No. 10864, File No. BPCT-1639; Huntington Broadcasting Corporation, Huntington, West Virginia, Docket No. 10865, File No. BPCT-1762; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 13 in Huntington, West Virginia; and

It appearing, that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; and that each of the above-named applicants is legally, financially and technically qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 19th day of February 1954, in Washington, D. C., to determine on a comparative basis which of the operations proposed in the above-entitled applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(1) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(2) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

[Docket Nos. 10866, 10867]

CHICK CAPITOL BROADCASTERS, INC., AND RADIO STATION KAMO

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Chick Capitol Broadcasters, Inc., Rogers, Arkansas, Docket No. 10866, File No. BP-8552; G. Don Thompson and Leon McAuliffe, a partnership d/b as Radio Station KAMO, Rogers, Arkansas, Docket No. 10867, File No. BP-8923; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration the above-entitled applications of Chick Capitol Broadcasters, Inc., and Radio Station KAMO for a construction permit to operate a new standard broadcast station in Rogers, Arkansas, on 1390 and 1370 kilocycles, respectively, with a power of 1000 watts, daytime only;

It appearing, that each applicant is legally, technically, financially and otherwise qualified to operate the station proposed; that no interference would be caused to any existing or proposed station, but that the operation of both stations as proposed would result in mutually prohibitive interference with each other; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated September 2, 1953, of the fact that both proposals were mutually exclusive with a proposal of the Ozark Playground Broadcasters to operate a new standard broadcast station on 1390 kilocycles, with a power of 500 watts, daytime only, at Neosho, Missouri (File No. BP-8880); that neither of the subject proposals contained sufficient information from which to determine whether the applicant was financially qualified to construct and operate the station proposed; that the Chick Capitol Broadcasters proposal presented a question as to whether a grant thereof would give David M. Segal interests in excess of seven standard broadcast stations; and that the Commission was unable to conclude that a grant of any one of the applications would be in the public interest; and

It further appearing, that on October 21, 1953, the Ozark Playground Broadcasters amended its application to request a different frequency; and

It further appearing, that Chick Capitol Broadcasters, in a reply dated September 30, 1953, submitted sufficient information from which to determine that it is financially qualified to construct and operate the station proposed, and stated that David M. Segal has divested himself of any interest in Station KDAS, thereby leaving him with interests in six standard broadcast stations; and

It further appearing, that G. Don Thompson filed an amendment on September 28, 1953, changing the applicant from an individual to a partnership, which is financially qualified to construct and operate the station proposed; and

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

To determine, on a comparative basis, which of the operations proposed in the above-entitled applications would best serve the public interest, convenience or necessity in the light of the evidence adduced and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

Released: January 22, 1954.

[Docket No. 10868]

CAVALIER BROADCASTING CORP. AND LARUS & BROTHER CO., INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Cavalier Broadcasting Corporation (Assignor), Larus & Brother Company, Inc. (Assignee), for assignment of the broadcast license for Station WCAV, Norfolk, Virginia; Docket No. 10868, File No. BAL-1564.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration the above-entitled application requesting consent to the assignment of the license for Station WCAV, Norfolk, Virginia, from Cavalier Broadcasting Corporation to Larus & Brother Company, Inc., assignees; and

It appearing, that there is a substantial overlap between Station WCAV and Station WRVA, Richmond, Virginia, which is also owned by the assignee; and

It further appearing, that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applicants were advised by letter dated November 5, 1953, that the Commission was unable to find at that time that a grant of their application would serve the public interest, convenience, and necessity, because of the possible violation of § 3.35 of the Commission's rules and regulations, and of its established policy with respect to a substantial overlap of the primary service areas of these stations; and

It further appearing, that, the application, considered in the light of § 3.35 of our rules, and our established policy, raises a serious question as to whether grant of the instant application would result in a serious overlap between Stations WCAV and WRVA;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing, at a date to be determined, in Washington, D. C., upon the following issues:

1. To determine the degree of overlap between Stations WCAV, Norfolk, Virginia; and WRVA, Richmond, Virginia.

2. To determine if the overlap, as manifested by Issue No. 1, is so substantial as to violate § 3.35 of the Commission's rules and regulations.

3. To determine, in light of the evidence adduced under the above issues, whether grant of the above-entitled application would serve the public interest, convenience, and necessity.

Released: January 21, 1954.

CHIEF ENGINEER

DELEGATION OF AUTHORITY TO EXEMPT BROADCAST STATIONS FROM CERTAIN REQUIREMENTS OF CONELRAD PROGRAM

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of January 1954;

The Commission having under consideration a proposal to amend Part 0 of its rules to delegate authority to its Chief Engineer to exempt standard, FM and TV broadcast stations from the requirements of installing and keeping in adequate condition radio receivers for receiving the Radio Alerts and Radio All Clears as provided for by § 3.931 of the Commission's rules concerning the CONELRAD program; and

It appearing, that the Chief Engineer is in a position to determine in which instances standard, FM and TV broadcast stations may properly be specifically exempted from the requirements of § 3.931 of the rules; and

It further appearing, that it would be in the public interest to delegate appropriate authority to the Chief Engineer to make such determinations; and

It further appearing, that such delegation of authority relates to Commission's internal procedure and is not substantive in nature, and therefore compliance with the public notice and procedure provided for in section 4 of the Administrative Procedure Act is unnecessary, and for the same reason, this order may be made effective immediately; and

It further appearing, that the authority for the amendment of Part 0 of the Commission's rules is contained in sections 4 (i) and 5 (e) of the Communications Act of 1934, as amended;

It is ordered, That effective immediately, Part 0 of the rules be and it is hereby amended as shown below.

Released: January 21, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

Insert the following new subparagraph to section 0.121:

(s) (1) The Commission's Chief Engineer is authorized to exempt standard, FM and TV broadcast stations, including Basic Key and Relay Key stations, from the requirements of installing the necessary equipment to receive notification of Radio Alerts or Radio All Clears by means of reception of radio broadcast messages, and to maintain this equipment in a state of readiness for reception, including arrangements for human listening watch or automatic alarm devices or both. (Section 3.931 of the rules.)

(2) The Commission's Chief Engineer is authorized, when the public interest so requires, to revoke all exemptions granted by him in accordance with section (a) of this section, and also all exemptions which the Commission has granted in connection with § 3.931 before January 20, 1954. Any such revocation shall be effective as soon as the licensee is notified.

[Docket No. G-2284]

CENTRAL KENTUCKY NATURAL GAS CO.

ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

Central Kentucky Natural Gas Company (Applicant), a Kentucky corporation having its principal place of business in Charleston, West Virginia, filed an application with the Federal Power Commission on October 20, 1953, for an order disclaiming jurisdiction with respect to certain sales of natural gas to Kentucky Creosoting Company, or, in the alternative, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the operation of facilities and the sale of natural gas subject to the jurisdiction of the Commission, as fully described in the application, on file with the Commission and open to public inspection.

Applicant has requested that its application be disposed of pursuant to the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Due notice of the filing of the application has been given, including publication in the FEDERAL REGISTER on December 5, 1953 (18 F. R. 7878). Although no formal protest to the application has been filed, the Commission has received a letter dated December 24, 1953 from Kentucky Creosoting Company in which it is alleged, among other things, that Kentucky Creosoting Company has refused to sign a service agreement with Applicant for the sale of natural gas herein involved. Said letter has been designated as an informal complaint by Kentucky Creosoting Company and assigned Docket No. IN-863. In these circumstances, the Commission deems it appropriate to provide opportunity for presentation by Kentucky Creosoting Company of any facts or matters pertinent to the issues presented by the application herein.

The Commission finds: This proceeding is not a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission orders:

(A) The request that the proceeding be disposed of under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure be and the same hereby is denied.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held on February 23, 1954, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application.

(C) Protests or petitions seeking leave to intervene in this proceeding may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 10th day of February 1954.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: January 20, 1954.

Issued: January 22, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-568; Filed, Jan. 27, 1954; 8:49 a. m.]

[Docket No. E-6541]

COMMUNITY PUBLIC SERVICE CO.

NOTICE OF APPLICATION

JANUARY 19, 1954.

Take notice that on January 18, 1954, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Community Public Service Company, a corporation organized under the laws of the State of Delaware and doing business in the State of New Mexico and Texas, with its principal business office at Fort Worth, Texas, seeking an order authorizing the issuance of $3,000,000 principal amount of promissory notes dated or to be dated during the first six months of 1954 representing short-term loans obtained or to be obtained from banking institutions. Applicant proposes to renew short-term promissory notes in the aggregate principal amount of $2,200,000 now outstanding, and to borrow on an additional short-term promissory note or notes the aggregate maximum sum of $800,000 by June 30, 1954; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 12th day of February 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3125]

UNION ELECTRIC CO. OF MISSOURI

ORDER MAKING EFFECTIVE POST-AMENDMENT REGARDING EXTENSION OF TIME FOR ACCEPTANCE OF EXCHANGE OFFER

JANUARY 21, 1954.

The Commission having on December 15, 1953, granted and permitted to become effective the application-declaration of Union Electric Company of Missouri ("Union"), a registered holding company and also a subsidiary of The North American Company, likewise a registered holding company, regarding the acquisition of shares of common stock of Missouri Edison Company

("Missouri Edison"), pursuant to an offer of exchange, and the issuance of additional shares of common stock by Union to effectuate such exchange; and

One of the conditions of the exchange offer being that the holders of at least 85 percent of the shares of Missouri Edison common stock should accept such offer; and

Union having now filed a post-amendment stating that Union on December 18, 1953, mailed such exchange offer to all common stockholders of record of Missouri Edison, such offer to be open through the close of business on January 21, 1954; that as of January 18, 1954, more than 85 percent of such shares of Missouri Edison common stock had been deposited for exchange and that Union proposes, shortly after the initial closing of the exchange offer (January 21, 1954), to consummate the initial exchange upon the fulfillment of the other conditions thereto, but that Union believes that it would be advisable, in the interest of the stockholders of Missouri Edison who may not have had sufficient time to obtain their certificates or to respond to the offer, as well as in the interests of Union and Missouri Edison, to extend the exchange offer on the same terms as those contained in the initial offer for a period of sixty days from January 21, 1954; and

The Commission having considered said post-amendment, and finding that such post-amendment regarding such extension of time should be made effective forthwith;

It is ordered, That said post-amendment regarding such extension of time be and become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

CITIES SERVICE CO. ET AL.

ORDER CONCERNING MOTION FOR POSTPONEMENT OF HEARING

JANUARY 22, 1954.

In the matter of Cities Service Company, the Gas Service Company, Gas Advisers, Inc., File No. 70-3167; Missouri Public Service Company, File No. 70-3181.

The Commission having, on January 12, 1954, issued a Supplemental Notice of Filing and Notice of and Order for Hearing directing that a hearing be held on January 26, 1954, upon the application-declaration of Cities Service Company ("Cities"), the Gas Service Company ("Gas Service"), and Gas Advisers, Inc. ("Gas Advisers") (File No. 70-3167), regarding, among other things, the sale by Cities of 1,500,000 shares of the common stock of Gas Service to Missouri Public Service Company ("Missouri"); and

The Commission having, on January 19, 1954, issued a Notice of Filing and Notice of and Order for Hearing and Order Consolidating Proceedings with respect to an application-declaration filed by Missouri regarding, among other things, the acquisition by Missouri from Cities of the 1,500,000 shares of the common stock of Gas Service (File No. 70-3181) wherein the Commission ordered that the hearing with respect to the application-declaration filed by Cities and the application-declaration filed by Missouri be consolidated for hearing and that the hearing on both matters be held on January 26, 1954; and

It appearing that, on January 21, 1954 the State Corporation Commission of the State of Kansas ("Kansas Commission") filed (1) a motion that it be admitted as a party in the consolidated proceeding and (2) a motion that the hearing scheduled to be held on January 26, 1954 be postponed for a period of 30 days or for as long a period as the Commission can under the circumstances grant; and

It appearing that the Kansas Commission is a "State Commission" as defined by section 2 (a) (26) of the act and, pursuant to section 19 of the act and Rule XVII of the Commission's rules of practice is entitled to be admitted as a party; and

The Commission having considered the request of the motion of the Kansas Commission for an order postponing the hearing,

It is ordered, That (1) Kansas Commission be and hereby is admitted as a party in the above captioned proceedings, (2) the motion of the Kansas Commission for an order postponing the hearing is denied, and (3) after the conclusion of the taking of testimony at the hearing to commence on January 26, 1954, the hearing be adjourned until February 2, 1954, at 10:00 a. m., e. s. t., and that, at the adjourned hearing, the Kansas Commission be permitted to examine or cross-examine any witness who has testified earlier and to offer such further evidence as it may wish to present.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

MISSION OIL CO. ET AL.

ORDER GRANTING FURTHER EXTENSION OF TIME FOR DISPOSITION BY SINCLAIR OIL COMPANY OF CERTAIN COMMON STOCK OF SUBSIDIARIES

JANUARY 22, 1954.

In the matter of The Mission Oil Company, Southwestern Development Company, and subsidiaries and Sinclair Oil Corporation, File Nos. 54-196; 59-97; Albert R. Jones, et al., File No. 70-2681.

Sinclair Oil Corporation ("Sinclair"), a registered holding company which is exempt from the provisions of the Public Utility Holding Company Act of 1935 ("act"), other than sections 9 (a) (2) and 11 (b), (c) and (e) thereof, having filed an application requesting the Commission to extend for a further period of six months from December 21, 1953, the time within which to effect a disposition of its holdings of the common stock of Westpan Hydrocarbon Company ("Westpan"), which was provided for in a plan approved by the Commission, pursuant to section 11 (e) of the act, by order dated December 21, 1951;

Sinclair having set forth in its application that it has been unable in the exercise of due diligence to dispose of the common stock of Westpan;

Due notice of the filing of said application having been given and no hearing having been requested of, or ordered by the Commission; and

The Commission having examined said application and having considered the reasons submitted in support thereof, and deeming it appropriate to grant said application for a further extension of time:

It is ordered, That the time within which Sinclair shall effect the disposition of the common stock of Westpan be, and it hereby is, extended for a further period of six months from December 21, 1953.

It is further ordered, That the Commission's order herein of July 1, 1953, shall in all other respects remain in full force and effect.

By the Commission.

[File Nos. 70-3167, 70-3181]

CITIES SERVICE CO. ET AL.

ORDER DECLARING DECLARATION EFFECTIVE

JANUARY 22, 1954.

In the matter of Cities Service Company, The Gas Service Company, Gas Advisers, Inc., File No. 70-3167; Missouri Public Service Company, File No. 70-3181.

Missouri Public Service Company, a registered holding company, having filed, among other things, a declaration and an amendment thereto pursuant to section 12 (e) of the Public Utility Holding Company Act of 1935 and Rule U-62 thereunder regarding proxy material to be sent to its stockholders of record in connection with a special meeting of stockholders to be held to vote on the increase in the number of authorized shares of its common stock and to ratify the action of the management in contracting to purchase the common stock of The Gas Service Company; and

The Commission having examined such material, as amended, observing no basis for making adverse findings with respect thereto, and finding that such declaration with respect to such solicitation material should become effective forthwith;

It is ordered, That such declaration be and become effective forthwith.

By the Commission.

FEDERAL REGISTER

VOLUME 19 NUMBER 20

Washington, Friday, January 29, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3042

ARMED FORCES DAY, 1954

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the members of the armed forces of the United States have constantly demonstrated their loyalty and devotion to the service of their country; and

WHEREAS the men and women of the armed forces are actively engaged, at home and overseas, in upholding and defending our democratic way of life as opposed to ideologies which seek to destroy the basic principles of freedom cherished by this Nation; and

WHEREAS it is appropriate that on a special day each year our armed forces demonstrate to the people of the United States and our friends overseas their increased teamwork and efficiency and their technological advances; and

WHEREAS it is fitting and proper that all our citizens devote one day each year to paying special tribute to our fighting forces as the protectors and defenders of our Nation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America and Commander in Chief of the armed forces of the United States, do hereby proclaim Saturday, May 15, 1954, as Armed Forces Day; and I direct the Secretary of Defense and the Secretaries of the Army, the Navy, and the Air Force, as well as the Secretary of the Treasury on behalf of the Coast Guard, to mark that day with appropriate ceremonies and to cooperate with civil authorities in suitable observances.

I invite the Governors of the States, Territories, and possessions of the United States to provide for the celebration of the day in such manner as will pay suitable honor to the members of the armed forces.

I also call upon my fellow citizens not only to display the flag of the United States on Armed Forces Day, but also to manifest their recognition of the sacrifice and devotion to duty of the men and women of the armed forces by attending and participating in the local observances of the day conducted by the armed forces and the civil authorities.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 25th day of January in the year of our Lord nineteen hundred and fifty-four, and of the Independence of the United States of America the one hundred and seventy-eighth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

WALTER B. SMITH, *Acting Secretary of State.*

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 8—PROMOTION, DEMOTION, REASSIGNMENT, AND TRANSFER OF PERMANENT EMPLOYEES

MISCELLANEOUS AMENDMENTS

1. Paragraphs (a), (b), and (c) of § 8.107 are amended and paragraph (e) is added. As amended § 8.107 reads as set out below.

§ 8.107 *Promotions, demotions, reassignments, and transfers without reemployment rights.* (a) (1) All promotions to military or defense-transfer vacancies shall be indefinite.

(2) All other promotions after September 1, 1950, shall be indefinite except that:

(i) An agency may promote an employee permanently to a position if such promotion will not increase the number of employees holding permanent positions in the grade of such position in such agency above the number in such grade in such agency prior to September 1, 1950.

(ii) Permanent promotions may be made to positions in a category for which the Civil Service Commission authorizes permanent appointments.

(b) (1) All reassignments on and after December 1, 1950, to positions above the grade (or level) which the employee last occupied on a permanent basis shall be indefinite, unless he is made permanent

at that grade (or level) under one of the exceptions in paragraph (a) of this section.

(2) Any reassignment to a military or defense-transfer vacancy shall be indefinite unless made through reduction in force of an employee who, prior to September 1, 1950, permanently held a grade (or level) equal to or higher than the grade (or level) of such vacancy. In the latter case, the reassignment shall be permanent.

(3) Any reassignment to the position last held on a permanent basis shall be permanent, except as provided in subparagraph (2) of this paragraph; all other reassignments within an employee's latest permanent grade (or level) may be either permanent or indefinite in the discretion of the head of the agency.

(c) (1) All demotions on and after December 1, 1950, to positions above the grade (or level) which the employee last occupied on a permanent basis shall be indefinite, unless he is made permanent at that grade (or level) under one of the exceptions in paragraph (a) of this section.

(2) Any demotion to a military or defense-transfer vacancy shall be indefinite except that the demotion of an employee who, prior to September 1, 1950, permanently held a grade (or level) equal to or higher than the grade (or level) of such vacancy shall be permanent.

(3) Any demotion to the position last held on a permanent basis shall be permanent except as provided in subparagraph (2) of this section; all other demotions within the employee's latest permanent grade (or level) may be either permanent or indefinite in the discretion of the head of the agency.

(4) Any demotion to a position below the employee's permanent grade (or level) shall be permanent.

(d) The transfer of a permanent employee from one agency to another shall be permanent. However, when such transfer is to a position above the grade (or level) the employee last occupied on a permanent basis, his occupancy of the higher grade position shall be on an indefinite basis, unless the promotion is made permanent under one of the exceptions in paragraph (a) of this section.

(e) "Military or defense transfer vacancy," as used in this part, means a position vacated by a permanent employee with restoration rights after service in the armed forces or with reemployment rights after service in a defense agency.

These amendments are effective September 2, 1950. However, agencies are not required to correct reduction in force actions or restoration or reemployment actions which have taken place prior to the date of these changes unless so ordered in connection with an appeal granted by the Civil Service Commission.

2. Effective upon publication in the FEDERAL REGISTER, paragraph (a) (3) of § 8.108, § 8.201, paragraph (a) (1) of § 8.204, and § 8.206 are amended to read as follows:

§ 8.108 *Agency authority for promotion, demotion, reassignment, or transfer without reemployment rights.* (a) • • •

(3) To transfer without reemployment rights (i) any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), and (ii) any employee serving under an excepted appointment which he received (without a break in service of a full work day) after service in a position with a competitive status, provided he had completed at least 6 months of the probationary period before receiving the excepted appointment: *Provided*, That this authority shall not be used in the case of any transfer from a nondefense to a defense activity which can be effected with reemployment rights under § 8.204: *Provided further*, That this authority shall not be used to fill a military or defense-transfer vacancy.

§ 8.201 *Reemployment rights defined.* Any permanent employee granted reemployment rights under this subpart shall be entitled to be reemployed within thirty days after his application, by the original agency in which he was granted reemployment rights in the occupational field and at the same grade or level and in the same geographical area as the position which he last held in that agency: *Provided*, That, if his reemployment would cause the separation or demotion of another employee, he shall then be considered an employee for the purpose of applying Retention Preference Regulations to determine what, if any, position he is entitled to: *Provided further*, That, upon reemployment, he shall have the status of a permanent employee at the grade (or level) he last held on a permanent basis and, if reemployed at a higher level, shall occupy that position on an indefinite basis unless the promotion is made permanent under one of the exceptions in § 8.107 (a): *Provided further*, That upon reemployment in the Postal Service he shall be given the seniority he would have attained had he remained in the Postal Service.

§ 8.204 *Agency authority and general requirements for transfer or appointment with reemployment rights.* (a) • • •

(1) By transfer, (i) any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), and (ii) any employee serving under an excepted appointment which he received (without a break in service of a full work day) after service in a position with a competitive status, provided he had completed at least 6 months of the probationary period before receiving the excepted appointment: *Provided*, That this authority shall not be used to fill a military or defense-transfer vacancy. The indefinite appointment with reemployment rights of any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) which was made on or after November 1, 1951, under former § 8.115 (a) without a break in service of one work day, is hereby converted to a transfer with reemployment rights under this section.

§ 8.206 *Conditions under which employees may apply for reemployment.* (a) An employee shall be entitled to reemployment by the original agency in which he was granted reemployment rights when he is:

(1) Involuntarily separated without cause such as would reflect on his suitability for reemployment; or

(2) Reduced to a grade or level below his latest grade or level in his original agency.

(b) The right to reemployment in accordance with this subpart shall expire unless the employee makes application for reemployment not later than 40 days after he is separated, or within 40 days after he is notified by the agency he left to enter military service that it is unable to restore him in accordance with § 35.5 of this chapter. The employee shall lose his reemployment rights if he applies for reemployment after notice of reduction in grade or level and then declines an offer of reemployment in accordance with his rights under § 8.201 at or above his last grade or level in his original agency. His right shall likewise expire when the agency in which he has reemployment rights (or the Commission, upon appeal) takes final action on his application for reemployment following notice of separation.

TITLE 6—AGRICULTURAL CREDIT

Chapter I—Farm Credit Administration

Subchapter G—Federal Farm Mortgage Corporation

PART 91—DISPOSAL OF MINERAL INTERESTS

TRANSFER OF FEDERAL FARM MORTGAGE CORPORATION TO FARM CREDIT ADMINISTRATION

Part 91 of Title 6 of the Code of Federal Regulations (1952 Supp.), concerning the disposal of mineral interests by the Federal Farm Mortgage Corporation, is being amended as hereinafter provided, in order to reflect that, effective December 4, 1953, the Federal Farm Mortgage Corporation and its functions and activities were transferred from the Department of Agriculture to the Farm Credit Administration which was then reestablished as as independent agency in the executive branch of the Government.

1. The second sentence of § 91.1 of Title 6 of the Code of Federal Regula-

tions (1952 Supp.) is hereby amended to delete therefrom "by the Secretary of Agriculture".

2. Section 91.2 of Title 6 of the Code of Federal Regulations (1952 Supp.) is hereby amended by deleting the heading thereof, all of paragraph (a) thereof and the designation "(b)", so that such § 91.2 shall consist only of the heading and text of the present paragraph (b) thereof.

3. Section 91.3 (a) of Title 6 of the Code of Federal Regulations (1952 Supp.) is hereby amended to read as follows:

§ 91.3 *Area determinations*—(a) *Adoption of existing determinations and time when changes are effective.* The Federal Farm Mortgage Corporation hereby adopts as its own the determination heretofore or hereafter made by the Secretary of Agriculture, pursuant to Public Law 760, 81st Congress, as to areas in which mineral interests are to be sold for their fair market value and as to areas in which mineral interests covered by a single application are to be sold for a consideration of $1.00, although the Federal Farm Mortgage Corporation may make different or additional area determinations if occasion therefor arises. Any change in area designation from inactive, in which mineral interests covered by a single application are to be sold for a consideration of $1.00, to active, in which mineral interests are to be sold for their fair market value, shall be deemed effective from the time active mineral development or leasing began in the area as to mineral interests remaining unsold. Each district office will be advised of such area determinations.

4. Section 91.10 of Title 6 of the Code of Federal Regulations (1952 Supp.) is hereby amended to delete from the uniform recital set forth therein, the following: "the order of the Secretary of Agriculture, dated October 16, 1950 (15 F. R. 6998), made".

(Sec. 6, 64 Stat. 770; 7 U. S. C. 1038. Interpret or apply sec. 7, 67 Stat. 393)

Pursuant to sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), § 301.72-2 of the regulations supplemental to notice of quarantine No. 72 relating to the white-fringed beetle (7 CFR Supp. 301.72-2, as amended; 18 F. R. 6227), is hereby amended to read as follows:

§ 301.72-2 *Regulated areas.* The following counties, parishes, cities, and towns, or parts thereof, as described, are designated by the Administrator of the Agricultural Research Service as regulated areas:

ALABAMA

Baldwin County. T. 7 S., R. 6 E.; S½ T. 7 S., Rs. 4 and 5 E.; secs. 6 and 7, T. 8 S., R. 4 E.; secs. 1, 2, 11, and 12, T. 8 S., R. 3 E.; E½ T. 7 S., R. 3 E., except secs. 1 and 2; secs. 4, 5, 6, 7, 8, and 9, T. 6 S., R. 4 E.; N½ T. 6 S., R. 3 E.; T. 5 S., R. 3 E.; S½ T. 4 S., R. 3 E.; NE¼, T. 5 S., R. 2 E.; secs. 25, 26, 27, 34, 35, and 36, T. 4 S., R. 2 E.; and secs. 28, 29, 30, 31, 32, and 33, T. 5 S., R. 4 E.

Clarke County. N½ T. 8 N., R. 9 E., and S½ T. 9 N., R. 3 E., including all of the town of Grove Hill; and all that area lying within the corporate limits of the town of Jackson.

Coffee County. That part of the county lying south of the south line of T. 5 N.; and T 5 N., R. 21 E.

Conecuh County. T. 5 N., Rs. 9, 10, 11, 12, 13, and 14 E.; T. 6 N., Rs. 10, 11, 12, and 13 E.; and those parts of T. 4 N., R. 7 E., T. 5 N., Rs. 7 and 8 E., T. 6 N., Rs. 8 and 9 E., and Tps. 7 and 8 N., R. 9 E., lying in Conecuh County.

Covington County. All of Covington County.

Crenshaw County. Secs. 27, 28, 29, 30, 31, 32, 33, and 34, T. 9 N., R. 18 E., and secs. 3, 4, 5, and 6, T. 8 N., R. 18 E., including all of the town of Luverne.

Dallas County. Tps. 13, 14, 15, 16, and 17 N., Rs. 10 and 11 E.; the N½ of T. 15 N., Rs. 6, 7, 8, and 9 E.; T. 16 N., Rs. 7, 8, and 9 E.

Escambia County. Tps. 1, 2, and 3 N., Rs 6, 7, and 8 E.; secs. 33, 34, 35, and 36, T 1 N., R. 10 E., and all area south thereof to the Alabama State line.

Geneva County. That part of the county lying west of the east line of R. 22 E.

Houston County. W½ T. 3 N., R. 27 E., except secs. 3, 4, 5, and 6; W½ T. 2 N., R. 27 E., except secs. 31, 32, 33, and 34; N½ T. 2 N., R. 26 E.; and the S½ T. 3 N., R. 26 E.

Jefferson County. Secs. 17, 18, 19, and 20, T. 18 S., R. 3 W., and that area included within the corporate limits of the city of Birmingham.

Lowndes County. All of T. 14 N., R. 12 E.

Mobile County. All that area south of township line which separates T. 1 S. from T. 2 S.

Monroe County. All of Monroe County.

Montgomery County. Tps. 16 and 17 N., Rs. 17, 18, and 19 E.; and that part of T. 18 N., R. 18 E., lying in Montgomery County.

Wilcox County. N½ T. 10 N., Rs. 6, 7, 8, 9, 10, and 11 E.; T. 11 N., R. 9 E.; sec. 36, T. 12 N., R. 8 E.; S½ T. 12 N., R. 9 E.; Tps. 11 and 12 N., R. 10 E.; E½ T. 11 N., R. 8 E.

FLORIDA

Escambia County. All of Escambia County.

Holmes County. S½ T. 6 N., R. 15 W., except secs. 18, 19, 30, and 31; NE¼ and secs. 22, 23, and 24, T. 5 N., R. 15 W., including all of the town of Smyrna; secs. 5, 6, 7, 8, 17, 18, 19, and 20, T. 5 N., R. 14 W.; secs. 29, 30, 31, and 32, T. 6 N., R. 14 W.; and E½ of Tps. 4, 5, 6, and 7 N., R. 18 W.

Jackson County. T. 4 N., Rs. 8 and 9 W.; T. 5 N., R. 8 W.; and that part of T. 4 N., R. 10 W., lying east of Chipola River.

Okaloosa County. That part of the county lying north of the south line of T. 2 N

Santa Rosa County. All of Santa Rosa County.

Walton County. That part of the county lying north of the south line of T. 3 N.

GEORGIA

Baldwin County. That area included within the corporate limits of the city of Milledgeville.

Ben Hill County. That area included within a circle having a 2-mile radius and center at the Ben Hill County Courthouse in Fitzgerald, including all of the city of Fitzgerald.

Berrien County. That area included within the corporate limits of the city of Nashville.

Bibb County. That area included within the Georgia Militia Districts of East Macon, Godfrey, Vineville, Hazzard, and Howard; and that portion of the Georgia Militia District of Rutland lying east of a line beginning at the point where U. S. Highway No. 41 crosses the north boundary of said militia district (Tobesofkee Creek) and running southward along said highway to its junction with Hartley Bridge Road and thence southwestward along said road to the west boundary line of said militia district.

Bleckley County. That area included within the corporate limits of the city of Cochran; and that portion of the Georgia Militia District of Manning included within a boundary beginning at the intersection of Georgia State Highway 112 and the Bleckley-Twiggs County line, thence northeast along said county line to the intersection of the Bleckley, Twiggs, Wilkinson, and Laurens County lines, thence southeast for a distance of 1 mile along the Bleckley-Laurens County line, and thence northwest to the point of beginning.

Bulloch County. That area included within a circle having a 2-mile radius and center at the Bulloch County Courthouse in Statesboro, including all of the city of Statesboro; and that area included within a circle having a 1-mile radius and center at the Georgia and Florida Railroad depot in Portal, including all of the town of Portal.

Burke County. That area, comprising parts of Georgia Militia Districts numbers 60 and 62, bounded on the east by Fitz Branch, on the south by a line beginning at the intersection of Georgia State Highway 56 and the Hephzibah Road and extending due east to its intersection with Fitz Branch, on the west by Hephzibah Road, and on the north by Brier Creek, including all of the city of Waynesboro.

Candler County. That area included within a circle having a 1½-mile radius and center at the intersection in Metter of Georgia State Highways 23 and 46, including all of the city of Metter.

Coffee County. That area included within the corporate limits of the city of Douglas; an area 2 miles wide beginning at the north corporate limits of the city of Douglas and extending northward along U. S. Highway No. 441 with said highway as a centerline to and bounded on the north by Seventeen Mile Creek; that area included within a circle having a 2-mile radius and center at the Atlanta, Birmingham and Coast Railroad depot in Ambrose, including all of the town of Ambrose; and an area 3 miles wide beginning at a line projected due east and due west from a point on the Georgia and Florida Railroad 1 mile northwest of the railroad depot in Broxton, and extending northwesterly with said railroad as a centerline to and bounded on the north by Georgia State Highway 107.

Crawford County. That area included within a circle having a 1½-mile radius and center at the intersection in Roberta of U. S. Highway No. 80 and Georgia State Highway 7, including all of the city of Roberta and the town of Knoxville.

Crisp County. That area included with the corporate limits of the city of Cordele.

Dodge County. That area included within land lots numbers 6, 7, 8, 9, 10, 11, 12, 13, 18, 19, 20, 21, 22, 23, 24, 25, 36, 37, 38, 39, 40, 41, and 42 in the Fifteenth Land District, and land lots numbers 278, 279, 280, 281, 282, 289, 290, 291, 292, 293, 294, 295, 306, 307, 308, 309, 310, 311, and 312 in the Sixteenth Land District, including all of the city of Eastman; and all that area included within the corporate limits of the town of Chester.

Emanuel County. That area included within a circle having a 1½-mile radius and center at the Union Grove Methodist Church in Georgia Militia District No. 49.

Fulton County. That area included within the corporate limits of the city of East Point.

Greene County. That area included within the corporate limits of the city of Greensboro.

Houston County. That area included within the lower Fifth Georgia Militia District, including all of the city of Warner Robins and all of Robins Air Force Base; an area 3 miles wide beginning north of Perry and bounded on the north by Mossy Creek and extending southward along U. S. Highway No. 41 with said highway as a center line to and bounded on the south by Georgia State Highway 26, including all of the city of Perry; and an area 2 miles wide beginning north of Clinchfield and bounded on the north by Big Indian Creek and extending southwesterly along the Southern Railway with said railway as a center line to and bounded on the south by Burnham Branch southwest of Grovania, including all of the communities of Clinchfield and Grovania.

Irwin County. That area included within a circle having a ½-mile radius and center at the intersection in Irwinville of Georgia State Highway 32 and the Jefferson Davis Memorial State Park Road; that area included within a circle having a 2-mile radius and center at the Irwin County Courthouse at Ocilla, including all of the city of Ocilla; an area 1 mile wide bounded on the south and east by the Irwin-Coffee County line and extending northwesterly along the Atlanta, Birmingham and Coast Railroad with said railroad as a center line for a distance of 1¼ miles beyond the Atlanta, Birmingham and Coast Railroad depot in Wray; and an area 2 miles wide beginning at the Atlanta, Birmingham and Coast Railroad in Georgia Militia District No. 1661 and extending southeasterly along Georgia State Highway 32 with said highway as a center line to the east boundary of said militia district.

Jasper County. That area included within Georgia Militia Districts numbers 262, 289, and 295; and that portion of Georgia Militia Districts numbers 288 and 291 lying south of Whiteoak and Murder Creeks.

Jefferson County. That area included within the corporate limits of the city of Louisville; and that area included within a circle having a 1-mile radius and center at the Central of Georgia Railway depot in Bartow, including all of the town of Bartow.

Johnson County. That area included within the corporate limits of the city of Wrightsville; and an area 1 mile wide beginning at the west corporate limits of Wrightsville and extending southwesterly along Georgia State Highway 15 with said highway as a center line to the Ohoopee River.

Laurens County. Those portions of the Georgia Militia Districts of Dublin, Dudley, and Harvard included within an area 2 miles wide beginning at the west corporate limits of Dublin and extending northwesterly along the Macon, Dublin and Savannah Railroad with said railroad as a center line to the Laurens-Wilkinson and Laurens-Bleckley County lines, including all of the towns of Dudley and Montrose and that portion of Allentown lying in Laurens County; that area included within the corporate limits of the city of Dublin; an area 2 miles wide beginning at the north corporate limits of Dublin and extending northward along Georgia State Highway 29 with said highway as a center line for a distance of 3 miles; and that portion of the Georgia Militia District of Smith lying north of the Macon, Dublin and Savannah Railroad and east of Shaddock Creek.

Macon County. That area lying east of Flint River including the cities of Marshallville and Montezuma; and that area included within the corporate limits of Oglethorpe.

Monroe County. That area included within the corporate limits of the city of Forsyth.

Montgomery County. That area bounded on the east by the Montgomery-Toombs County line, on the south by Rocky Creek, on the west by Georgia State Highway 29, and on the north by Swift Creek; and those areas included within the corporate limits of the city of Mount Vernon and the town of Alley.

Newton County. That area included within a circle having a 1-mile radius and center at the Porterdale High School, including all of the town of Porterdale.

Peach County. That area included within the Georgia Militia District of Fort Valley, including all of the city of Fort Valley; and that area included within the corporate limits of the town of Byron.

Putnam County. That area included within the Georgia Militia District of Ashbank.

Richmond County. That portion of the Georgia Militia District of Forest Hills bounded on the south by Raes Creek and Lake Olmsted and on the west by the Berkman Road and a line extended due north from the point of intersection of the Berkman and Washington Roads.

Screven County. That area included within a circle having a 2-mile radius and center at the Screven County Courthouse in Sylvania, including all of the city of Sylvania.

Sumter County. That area included within the corporate limits of the city of Americus; and an area 1 mile wide beginning at the east corporate limits of Americus and extending along U. S. Highway No. 280 with said highway as a center line to Mill Creek.

Taylor County. That area included in the Georgia Militia District of Reynolds, including all of the town of Reynolds; and that area included within a circle having a 2½-mile radius and center at Taylor County Courthouse in Butler, including all of the town of Butler.

Toombs County. That area bounded on the east by the east boundaries of the Georgia Militia Districts of Vidalia and Center, on the south by Rocky Creek, on the west by the Toombs-Montgomery County line, and on the north by Swift Creek, including all of the city of Vidalia

Treutlen County. That area included within the corporate limits of the city of Soperton; and an area 1 mile wide beginning at the south corporate limits of Soperton and extending southeasterly along Georgia State Highway 29 with said highway as a center line to the Treutlen-Montgomery County line.

Turner County. That area bounded on the east by a line parallel to and ½ mile east of the Sycamore town limits, on the south by a line parallel to and ½ mile south of the Sycamore town limits, on the west by a line parallel to and ½ mile west of the Sycamore town limits, on the north by a line parallel to and ½ mile north of the Sycamore town limits, and the projections of such lines to their intersections, including all of the town of Sycamore; and that part of the Georgia Militia District of Clements included within a circle having a ¾-mile radius and center at the Bethel School.

Twiggs County. That portion of the Georgia Militia District of Higgsville bounded on the east by the Twiggs-Wilkinson County line, on the south by the Twiggs-Bleckley County line, on the north by a line parallel to and 3½ miles north of the Twiggs-Bleckley County line, on the west by a line parallel to and 1 mile west of the Twiggs-Wilkinson County line, and the projections of such lines to their intersections, including all of those portions of the towns of Allentown and Danville lying in Twiggs County.

Washington County. That area included within a circle having a 5-mile radius and center at the Washington County Courthouse in Sandersville, including all of the city of Sandersville and the city of Tennille.

Wheeler County. That area included within land lots numbers 40, 41, 42, 43, 48, 49, 50, 51, 70, 71, 72, 73, 78, 79, 80, 81, 100, 101, 102, and 103, in the Eleventh Land District, including all of the town of Alamo.

Wilkinson County. That portion of the Georgia Militia District of Turkey Creek bounded on the west by the Wilkinson-Twiggs County line, on the south by the Wilkinson-Laurens County line, on the east by a line parallel to and 1¾ miles east of the Wilkinson-Twiggs County line, on the north by a line parallel to and 3½ miles north of the Wilkinson-Laurens County line, and the projections of such lines to their intersections, including all of those portions

[1] The organizations acting for growers in handling the loans are authorized to deduct $1.00 per hundred pounds from the advances to growers to apply against overhead and handling costs. Tobacco can be placed under loan only by the original producer. No advance is authorized for tobacco found to be in unsafe keeping order, unsound, or damaged.

of the towns of Allentown and Danville lying in Wilkinson County.

LOUISIANA

East Baton Rouge Parish. T. 7 S., Rs. 1 and 2 E.

Iberia Parish. Secs. 24, 37, 38, 39, 53, 55, and 56, T. 13 S., R. 5 E.; and secs. 46, 55, 56, 57, 58, 59, and 60, T. 13 S., R. 6 E.

Jefferson Parish. That part lying north of the township line between Tps. 14 and 15 S.

Orleans Parish. All of Orleans Parish, including the city of New Orleans.

Plaquemines Parish. That part lying north of the township lines between Tps. 15 and 16 S.

Saint Bernard Parish. All of Saint Bernard Parish.

Saint Tammany Parish. Secs. 38, 39, and 40, T. 7 S., R. 11 E.; secs. 40 and 41, T. 8 S., R. 11 E.; and that area lying south of the north line of T. 10 N.

Tangipahoa Parish. Secs. 32, 33, and 50, T. 3 S., R. 7 E., and secs. 4, 5, 8, 9, 10, 50, and 54, T. 4 S., R. 7 E., including all of the town of Amite.

Washington Parish. E½ T. 3 S., R. 13 E.; that part of T. 3 S., R. 14 E., west of Pearl River in Washington Parish, including all of the town of Bogalusa; secs. 23, 24, 25, 34, 36, 44, 45, 46, 47, 48, 51, 52, 53, and 54, T. 2 S., R. 10 E.; secs. 3, 10, 14, 15, 39, 40, 41, 42, 43, 46, 48, 49, 50, and 51, T. 3 S., R. 10 E.; secs. 19, 20, 29, 30, 31, 32, 33, and 39, T. 2 S., R. 11 E.; secs. 5, 6, 7, 8, 17, 18, 19, 20, 29, 37, 38, 39, 40, 41, 43, 49, and 50, T. 3 S., R. 11 E.

MISSISSIPPI

Attala County. Secs. 7, 8, 9, 10, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35 and 36, T. 14 N., R. 7 E.; secs. 19, 30, and 31, T. 14 N., R. 8 E.; sec. 6, T. 13 N., R. 8 E.; secs. 1 and 2, T. 13 N., R. 7 E.

Clarke County. Secs. 4, 5, 6, 7, 8, and 9, T. 2 N., R. 14 E.; secs. 4, 5, 8, and 9, T. 4 N., R. 15 E.; secs. 6, 7, and 18, T. 2 N., R. 16 E.; sec. 31, T. 3 N., R. 16 E.; secs. 34, 35, and 36, T. 3 N., R. 15 E.; secs. 1, 2, 3, 10, 11, 12, 13, 14, and 15, T. 2 N., R. 15 E.

Covington County. All of Covington County.

Forrest County. All of Forrest County.

George County. Secs. 27, 28, 29, 32, 33, 34, 35, and 36, T. 1 S., R. 6 W., including all of the town of Lucedale; N½ T. 2 S., R. 6 W., except secs. 6, 7, and 18; secs. 5, 6, 7, 8, 17, and 18, T. 2 S., R. 5 W.; and that part of secs. 31 and 32, T. 1 S., R. 5 W., lying south of Mississippi State Highway 15.

Greene County. Secs. 16, 17, 18, 19, 20, 21, 28, 29, 30, 31, 32, and 33, T. 2 N., R. 8 W.

Hancock County. All of Hancock County.

Harrison County. All of Harrison County.

Hinds County. Secs. 2, 3, 4, 9, 10, and 11, T. 7 N., R. 1 W.; E½ T. 6 N., R. 3 W.; and W½ T. 6 N., R. 2 W.

Jackson County. All of Jackson County.

Jasper County. Secs. 19, 20, 21, 22, 27, 28, 29, 30, 31, 32, 33, and 34, T. 2 N., R. 10 E.; secs. 3, 4, 5, and 6, T. 1 N., R. 10 E.; secs. 32, 33, and 34, T. 1 N., R. 10 E.; secs. 1, 2, and 3 N., T. 10 N., R. 13 W

Jefferson Davis County. All of Jefferson Davis County.

Jones County. All of Jones County.

Lamar County. All of Lamar County.

Lauderdale County. Secs. 1, 12, 13, 14, 22, 23, 24, 26, 27, 34, and 35, T. 6 N., R. 15 E.; secs. 5, 6, 7, 8, 17, 18, 19, and 20, T. 6 N., R. 16 E.; sec. 31, T. 7 N., R. 16 E.; and sec. 36, T. 7 N., R. 15 E., including all of the town of Meridian.

Lawrence County. That part lying east of Pearl River.

Leake County. Secs. 31 and 32, T. 11 N., R. 6 E.; secs. 34, 35, and 36, T. 11 N., R. 7 E.; secs. 1, 2, 3, 10, 11, 12, 13, 14, and 15, T. 10 N., R. 7 E.; secs. 5, 6, 7, 8, 17, and 18, T. 10 N., R. 8 E

Marion County. That area included within a boundary beginning where the north line of sec. 36, T. 4 N., R. 19 W., intersects Pearl River, thence downstream along Pearl River to a point where Pearl River intersects the north line of sec. 18, T. 3 N., R. 18 W., thence east along said section line to the SE. corner sec. 11, T. 3 N., R. 18 W., then north to the NE. corner sec. 35, T. 4 N., R. 18 W., and thence west along said section line to the point of beginning.

Pearl River County. All of Pearl River County.

Perry County. S½ T. 3 N., Rs. 9, 10, and 11 W.; T. 2 N., R. 9 W.; secs. 5 and 6, T. 4 N., R. 9 W.; secs. 1 and 2, T. 4 N., R. 10 W.; secs. 25, 26, 35, and 36, T. 5 N., R. 10 W.; secs. 29, 30, 31, and 32, T. 5 N., R. 9 W.

Rankin County. T. 3 N., Rs. 2 and 3 E.; T. 4 N., Rs. 1 and 2 E.; Tps. 5 and 6 N., Rs. 1 and 2 E.

Simpson County. Tps. 9 and 10 N., Rs. 17, 18, and 19 W.; T. 1 N., Rs. 4, 5, and 6 E.; T. 2 N., Rs. 3, 4, and 5 E.

Stone County. All of Stone County.

Warren County. All that area lying within the corporate limits of the city of Vicksburg, and that area included within a boundary beginning at a point where Halls Ferry Road intersects the corporate limits of the city of Vicksburg, thence southeast along said road to the point of its intersection with the range line between Rs. 3 and 4 E., thence south along the range line to the SE. corner sec. 42, T. 15 N., R. 3 E., thence west along the section line to the Mississippi River, thence north along the east bank of the Mississippi River to said corporate limits, and thence along the south corporate limits to the point of beginning.

Wayne County. Secs. 19, 20, 29, 30, 31, and 32, T. 7 N., R. 5 W.; secs. 24, 25, and 36, T. 7 N., R. 6 W.; secs. 6, 7, and 18, T. 6 N., R. 6 W.; secs. 1, 2, 11, 12, 13, and 14, T. 6 N., R. 7 W.

NORTH CAROLINA

Anson County. An area 2 miles wide beginning at the Anson-Union County line and extending easterly along the Seaboard Air Line Railroad with said railroad as a center line to a due north-south line projected through the point of intersection of said railroad with the east corporate limits of Polkton, including all of the towns of Peachland and Polkton.

Brunswick County. All of Eagles Island.

Cumberland County. That area included within a circle having a 4½-mile radius and center at the Atlantic Coast Line Railroad depot in Hope Mills, including all of the town of Hope Mills and all of the communities of Cumberland and Roslin.

Duplin County. That area included within the corporate limits of the town of Warsaw; and an area 2 miles wide beginning at a line projected northeast and southwest along and beyond the north corporate limits of Warsaw and extending northwesterly along U. S. Highway No. 117 with said highway as a center line for a distance of 3 miles.

Edgecombe County. That portion of the city of Rocky Mount lying in Edgecombe County.

Harnett County. An area 4 miles wide bounded on the north by the Harnett-Wake County line and extending along U. S. Highway No. 15-A with said highway as a center line for a distance of 5 miles.

Jones County. An area 2 miles wide beginning at a line projected due east and due west at the Atlantic Coast Line siding at Ravenswood, approximately 1½ miles south of the Atlantic Coast Line Railroad depot in Pollocksville, and extending southerly with said railroad as a center line for a distance of 3 miles.

New Hanover County. That area included within the corporate limits of the city of Wilmington; all of Cape Fear Township; all that part of Harnett Township lying west of the Wrightsboro-Winter Park Road, including all of the town of Winter Park; and all that part of Masonboro Township lying north of the Sunset Park-Winter Park Road.

Nash County. That portion of the city of Rocky Mount lying in Nash County.

Onslow County. That area 3½ miles wide extending along U. S. Highway 17 with said highway as a center line from Southwest Creek on the south to Starky Creek on the north, including all of the city of Jacksonville; and all of that portion of Onslow County included within the boundaries of the Camp Lejeune Marine Base.

Pender County. All of that portion of Pender County lying west of a line parallel to and 8 miles west of the Pender-Onslow County line.

Union County. An area 2 miles wide beginning at a line projected due north and due south from a point where the west corporate limits of Marshville intersect the Seaboard Air Line Railroad and extending easterly with said railroad as a center line to the Union-Anson County line, including all of the town of Marshville.

Wake County. An area 4 miles wide bounded on the east by a line projected due north and due south for 2 miles on each side of the point of intersection of U. S. Highway No. 15-A and the Norfolk Southern Railway, approximately 1½ miles east of the Norfolk Southern Railway depot in Fuquay Springs, and extending westerly and southwesterly along U. S. Highway No. 15-A with said highway as a center line to the Wake-Harnett County line, including all of the town of Fuquay Springs.

Wayne County. All of Goldsboro Township, including all of the city of Goldsboro; an area 2 miles wide beginning at the west boundary of Goldsboro Township and extending northwesterly along U. S. Highway No. 70 with said highway as a center line to the Wayne-Johnston County line; an area 2 miles wide beginning at the north boundary of Goldsboro Township and extending northerly along the Atlantic Coast Line Railroad with said railroad as a center line to the Wayne-Wilson County line, including all of the towns of Pikeville and Fremont; and an area bounded on the north by the Atlantic and East Carolina Railway, on the west by Stony Creek, on the south by the Neuse River, and on the east by a line beginning at the junction of U. S. Highway No. 70 and North Carolina State Highway 111 and extended due north and due south to its intersections with the north and south boundaries, including all of Seymour Johnson Field.

SOUTH CAROLINA

Beaufort County. That area bounded on the east by Wimbee Creek and Bull River, on the south by Whale Branch and the Coosaw River, on the west by Haulover Creek, and on the north by an imaginary line parallel to and one-half mile north of the Seaboard Air Line Railroad between Wimbee and Haulover Creeks.

Fairfield County. That area included within a circle having a 2-mile radius and center at the intersection of South Carolina State Highways 22 and 227, approximately 5½ miles northwest of the city of Winnsboro.

TENNESSEE

Hamilton County. That area included within a circle having a ½-mile radius and center at the office of the Shell Oil Corporation bulk plant located on Jersey Pike Road.

Shelby County. All that area included within a boundary beginning at the confluence of Wolf River with the Mississippi River, thence upstream along Wolf River to a point where it is crossed by the Nashville, Chattanooga and St. Louis Railway, thence west along said railway to its intersection with White Station Road, thence south along White Station Road to its intersection with U. S. Highway No. 72, thence west along U. S. Highway No. 72 to the point where it is intersected by Mount Moriah Road, thence south and east along Mount Moriah Road to the point where it intersects Nonconnah Creek, thence downstream along Nonconnah Creek to its confluence with the Tennessee Chute, and thence north along the Tennessee Chute and the Mississippi River to the point of beginning; that area included within a circle having a 1-mile radius and center at the intersection of the Memphis-Arlington and Pea Point Roads; and that area included within a circle having a 2-mile radius and center at the junction of the Macon Road with the Germantown Road, excluding that part of such area lying in the Shelby County Penal Farm.

Tipton County. That area within the corporate limits of the town of Mason.

This amendment makes additions to the regulated areas in Baldwin, Coffee, Geneva, Houston, and Monroe Counties, Alabama; Jackson County, Florida; Macon County, Georgia; Attala, Clarke, Jasper, Leake, and Perry Counties, Mississippi; Onslow County, North Carolina; and Beaufort County, South Carolina. Portions of Houston County, Alabama; Attala, Clarke, Jasper, and Leake Counties, Mississippi; and Beaufort County, South Carolina, are included in the regulated area for the first time.

It is necessary to take immediate action with respect to the newly regulated areas in order to control the movement therefrom of articles that might spread the white-fringed beetle. Accordingly, pursuant to section 4 (a) and (c) of the Administrative Procedure Act (5 U. S. C. 1003 (a), (c)), it is found upon good cause that notice and other public procedure with respect to this amendment are impracticable and contrary to the public interest, and good cause is found for the issuance of this amendment effective less than 30 days after its publication in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 8, 9, 37 Stat. 318, as amended; 7 U. S. C. 141, 143, 161, 162)

This amendment shall be effective February 1, 1954.

Done at Washington, D. C., this 25th day of January 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

PART 420—MULTIPLE CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1950 AND SUCCEEDING CROP YEARS

Correction

In Federal Register Document 53-10262, appearing at page 8530 of the issue for Saturday, December 19, 1953, the following changes are made:

1. In the list of counties on page 8531, Steuben County, New York, should carry a footnote 1 reference.

2. In § 420.63-1 the 13th line of paragraph 6 of the rider should read "so determined shall be reduced if the premi-".

3. In § 420.82-1, paragraph 6 of the rider, the 10th line of the second column on page 8545 should read "on the insurance unit shall include all pro-".

4. In § 420.82-3, paragraph 3 of the rider, the fourth line of the third column on page 8546 should read "harvest period for such crop or (ii) October".

5. In the production schedule for the rider in § 420.90-4, the entry in the second column for item 6 should read: "Acreage put to another use without the consent of the Corporation."

6. In § 420.90-8 the headnote for paragraph 4 of the rider should read: "*Protection against loss of quality.*"

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Reg. No. SR-400]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; ISSUANCE OF AIR CARRIER OPERATING CERTIFICATES FOR HELICOPTER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of January 1954.

Parts 40 and 61 of the Civil Air Regulations currently prescribe the certification and operation rules for scheduled air carriers. These parts apply primarily to air carriers operating airplanes, but also apply to the certification and operation of helicopters by air carriers. However, Special Civil Air Regulation SR-369 authorizes the Administrator to issue an air carrier operating certificate, or amendments thereto, under conditions which do not fully meet the requirements of Parts 40 and 61 to an air carrier holding a temporary certificate of public convenience and necessity issued by the Board. Because all scheduled helicopter air carrier operations are currently being conducted under temporary certificates of public convenience and necessity and, since Parts 40 and 61 were not designed particularly for such operations, the Administrator has used SR-369 as a basis for regulating helicopter air carrier operations.

Revised Part 40 which will become effective April 1, 1954, provides certification and operation rules for scheduled domestic air carriers using airplanes, the scope of which was previously covered by Parts 40 and 61. It is not applicable, however, to the operation of other aircraft such as helicopters.

At present, the Board is in the process of formulating rules governing air carrier helicopter operations. In view of this and the fact that revised Part 40 does not provide a regulatory basis for helicopter operations, this regulation continues and enlarges in scope the authority contained in SR-369 for two years. Since it appears that air carriers other than those holding temporary certificates of public convenience and necessity are considering initiation of helicopter operations, this regulation provides authority for the Administrator to issue air carrier operating certificates and to permit deviations from Parts 40 and 61 for helicopter operations for all air carriers. Since presently effective Parts 40 and 61 will be rescinded on April 1, 1954, this regulation incorporates by reference Parts 40 and 61 as in effect on December 31, 1953.

Interested persons have been afforded an opportunity to participate in the making of this regulation, and due consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective January 25, 1954:

An air carrier operating certificate, or amendments thereto, may be issued by the Administrator to an air carrier for the purpose of engaging in helicopter operations in accordance with the certification requirements of Part 40 of the Civil Air Regulations. Such helicopter operations shall be conducted in accordance with the operation requirements of Part 61 of the Civil Air Regulations. If the Administrator finds that any of the requirements of Parts 40 and 61 can be omitted or modified without adversely affecting safety, the Administrator may approve such omissions or modifications and they shall be listed in the air carrier operations specifications. The Administrator shall promptly notify the Board of the omissions or modifications approved by him and the reasons therefor.

All references herein to Parts 40 and 61 are to those Parts as in effect on December 31, 1953.

This Special Civil Air Regulation supersedes Special Civil Air Regulation SR-369 and shall terminate January 25, 1956, unless sooner superseded or rescinded by the Board.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554, 555)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-635; Filed, Jan. 28, 1954; 8:53 a. m.]

Subchapter B—Economic Regulations

[Reg. No. ER-195]

PART 221—PREPARATION OF TARIFFS OF AIR CARRIERS

LIABILITY RULES FOR PERSONAL INJURY AND DEATH; CLARIFICATION OF ECONOMIC REGULATIONS TO INDICATE FILING OF SUCH RULES NOT REQUIRED

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of January 1954.

By notice dated July 22, 1953, (Economic Regulations Draft Release No. 62) published in the FEDERAL REGISTER on

July 25, 1953 (18 F. R. 4386), the Board gave notice that it had under consideration an amendment to Part 221 of the Economic Regulations (14 CFR Part 221) to make clear that after the effective date thereof its regulations will not require the filing by air carriers or foreign air carriers of tariff liability rules for personal injury and death. Oral argument was heard thereon on December 1, 1953.

Since the enactment of the Civil Aeronautics Act in 1938, there has been no express requirement in the Board regulations that carrier tariff liability rules of the nature herein dealt with shall be filed by carriers subject to the Board's jurisdiction. However, until relatively recently, it has been the widespread practice of air carriers and foreign air carriers to file such rules tariffs, and the Board has not rejected them. In Continental Charters, Inc.—Complaint of Mary Battista, et al., (Docket No. 5573), the Board, without deciding whether such tariff rules were required to be filed, held that a carrier requirement of written notification of claim within 30 days after the occurrence giving rise thereto was unjust, unreasonable, unjustly discriminatory, and therefore unlawful. In view of the practice of the air carriers and the course of administrative dealing with these rules, it cannot be definitely stated that the filing of tariff liability rules has not been required by Board regulations.

The purpose of the regulation hereby adopted is to make it absolutely clear that from and after the effective date of this amendment the Board's regulations will not require the filing of such tariff rules. In so doing, the Board is not passing upon the reasonableness of any such rule, nor of the legality of any such practice. Neither is this regulation an interpretation of the Board's earlier regulations, and any rights which have accrued prior to the effective date hereof will be governed by the law and regulations as they existed prior to the effective date hereof.

Under section 403 (a) of the Civil Aeronautics Act every air carrier and every foreign air carrier is required to file tariffs with the Board showing all rates and charges for air transportation in which it engages. In addition, such carriers are required to file all classifications, rules, regulations, practices, and services in connection with such air transportation "to the extent required by regulations of the Board". Section 403 (b) requires such carriers to abide by their filed tariffs, including those matters "required by the Board to be specified in such tariffs". Taken together, the effect of these two sections is to regulate, as an exercise of the Congressional power over interstate and foreign commerce, the fares, rates and practices of air carriers. Within the limited authority granted it under section 403 (a), the Board may vary the extent of the Federal occupation of this field by requiring or not requiring carrier rules and practices to be filed as tariffs by the carriers. Filing of matter appropriately required to be filed by the Board and otherwise in conformance with the provisions of the Act makes the practices covered therein lawful even though, in certain instances, the practice or regulation might be contrary to the public policy or the laws of one or more of the states. Filing of material not so required to be filed by the Board or the act does not grant any such Federal protection, however.

The Board is of the opinion that the rules herein dealt with are clearly carrier rules, regulations and practices in connection with air transportation and, as such, could be required by the Board to be filed under section 403 (a). Consequently, the Board by specific requirement could give effect to rules of this character, provided they were reasonable and non-discriminatory. That the Board is not doing so, but on the contrary, is making it clear that no personal injury liability rules are required to be filed is because of its concern with two factors in particular:

(a) While the Board recognizes that certain advantages to the air carriers might result if a uniform federal rule of this nature were prescribed, the Board believes that in the present state of the art and the widespread public acceptance of aviation the public interest requires a different type of uniformity—that is, uniformity of rules regulating the bringing of suits for personal injury and death within the local jurisdiction governing the claim. The traveling public and their lawyers do not tend to think of aviation in terms of special rules in respect of negligence actions which require procedures, notification of claims, and special limitations of actions differing from those applicable to other negligence actions. Weighing the relative advantages to air carriers of uniformity throughout the country against the advantages of uniformity of treatment within each local jurisdiction to the users of air transportation, the Board believes that conformity with state practice is the more desirable result at the present state of development of air transportation.

(b) Even if federal regulation in this precise field were considered desirable, the Board does not believe that arriving at such result through the medium of tariff regulations, in the instance of these particular rules, is in the public interest, because actual notice of the rules is seldom brought home to passengers or their representatives. Legal actions against private persons in respect of personal injury or death are generally governed by statute; and passengers and general practitioners are not accustomed to thinking of such matters as being limited or otherwise adversely affected by tariff publications. Consequently, in the absence of positive notification of their presence and effect, these rules tend to become traps for the unwary.

The contention has been raised in this proceeding that the issuance of this regulation is improper because it constitutes a prejudgment of the issues in the Board's pending Investigation of Personal Injury Tariff Rules (Docket No. 6149). The issues in that case include the question of whether or not the existing regulations of the Board require the filing of tariff rules of this nature, whether the tariff rules that are now on file are reasonable and, if not, what tariff rules should be prescribed. As indicated above, the only issue in the rule-making proceeding is the purely legislative one of whether for the future the federal government should occupy the field covered by these rules to the exclusion of state law. The Board is of the opinion that this issue is one which is exclusively legislative in nature and in no way prejudges any of the issues in the investigation case.

After the effective date of this amendment carrier tariffs, to the extent they contain matter dealing with limitations on or conditions relating to carrier liability for personal injury or death, will be mere surplusage and of no effect as tariffs.

This regulation is applicable to tariff rules of United States air carriers and foreign air carriers alike in respect of air transportation within the meaning of the Civil Aeronautics Act. No distinction is made as to whether the carrier engages in interstate or overseas air transportation on the one hand, or in foreign air transportation on the other.

Interested persons have been afforded an opportunity to participate in the making of this rule, and due consideration has been given to all matter submitted and all arguments presented, both written and oral.

In consideration of the foregoing, the Board hereby amends Part 221 of the Economic Regulations as follows, effective March 2, 1954:

1. By amending § 221.4 (g) by adding at the end thereof the following sentences: "No provision of the Board's Regulations issued under this Part or elsewhere shall be construed to require on and after March 2, 1954, the filing of any tariff rules stating any limitation on, or condition relating to, the carrier's liability for personal injury or death. No subsequent regulation issued by the Board shall be construed to supersede or modify this rule of construction except to the extent that such regulation shall do so in express terms."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 403, 52 Stat. 992; 49 U. S. C. 483)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 59]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

LIMITATIONS ON DESCENT BELOW AUTHORIZED IFR LANDING MINIMUMS

This amendment prohibits descent (1) below the prescribed IFR landing minimums, and (2) thereafter to more than 50 feet below the prescribed IFR landing minimums—except when certain specified conditions exist. The amendment is adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable.

In § 609.3 a new paragraph (i) is added to read:

§ 609.3 *Introduction.* • • •

(i) *Descent below authorized IFR landing minimums.* Except when landing minimums equal to or better than 1000–2 are authorized, no aircraft, after reaching an altitude equal to the minimum altitude for landings specified in these regulations, will descend below such altitude unless it is clear of clouds, and thereafter the aircraft will not descend more than 50 feet below such altitude, unless (1) it has arrived at a position from which a normal approach can be made to the runway of intended landing, and (2) either the approach threshold of such runway or the approach lights or other markings identifiable with such runway are clearly visible to the pilot. If, at any time, after descent below the clouds, the pilot cannot maintain visual reference to the ground or lights, he will immediately execute the appropriate missed approach procedure prescribed in the regulations in this part.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective January 30, 1954.

[SEAL] F. B. LEE, *Administrator of Civil Aeronautics.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6102]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

CHARLES ANTELL CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.20 *Comparative data or merits;* § 3.30 *Composition of goods;* § 3.155 Prices—Usual as Reduced, Special, etc.; § 3.170 *Qualities or properties of product or service;* § 3.205 *Scientific or other relevant facts.* I. In connection with the offering for sale, sale, or distribution of Charles Antell Formula No. 9 and Charles Antell Shampoo, or any products of substantially similar composition or possessing substantially similar properties, whether sold under the same names or any other names, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, the purchase in commerce, of either of said products, which advertisements represent, directly or through inference (a) with respect to Charles Antell Formula No. 9: (1) That the main ingredient in said product is lanolin; (2) that lanolin is the only natural oil, or grease that is absorbed by the hair or scalp or that the lanolin in said product is absorbed by the scalp to the extent that it will reach the roots of the hair; (3) that the lanolin in said product will cleanse the hair; (4) that its use will loosen the scalp or constitute an effective treatment for dandruff or infected scalp; (5) that it will remedy the cause of cracked or split hair or will remedy the damage caused by improper dyeing of the hair, permanents, burning or other harmful practices having to do with the hair; (6) that the use of said product, as directed or otherwise, will promote the growth of the hair; (7) that the use of said product will give the hair health or vitality, except to the extent that brushing, pulling, and massaging of the hair and scalp with said product regularly serves as a stimulant to circulation around the hair roots and thereby helps maintain normal scalp and hair health; (8) that the use of said products will not change the color of the hair or will not leave grease on the hair, unless such representation is limited to cases where said product is used in moderate amounts as directed; (9) that its use will cause the hair to curl; and (10) that its use will prevent the loss of hair or baldness; and (b) with respect to Charles Antell Shampoo: that the hormones present in said product will have any cleansing action on the hair; and, II, in connection with the offering for sale, sale or distribution in commerce of the product known as Hexachlorophene Soap, or any other soap or product of substantially similar properties, whether sold under the same name or any other name: (1) misrepresenting, directly or by implication, the effectiveness of said soap as a cleansing agent; and, (2) representing, directly or by implication, that the use of said soap will prevent impetigo or cradle cap in case of babies or prevent the development of pimples, boils, blackheads, or other skin blemishes generally; and, III, in connection with the offering for sale, sale, or distribution in commerce, of any article of merchandise, representing directly or by implication: that it is being sold at a reduced price when such price is the price at which the article is usually and regularly sold; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Charles Antell Co., Inc., et al., Baltimore, Md., Docket 6102, December 19, 1953]

In the Matter of Charles Antell Co., Inc., a Corporation, T. A. A. Inc., a Corporation, and Charles D. Kasher, Julius J. Rosen and Leonard L. Rosen, Individually

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission, respondents' answer, and hearings before said examiner, therefore duly designated by the Commission, at which counsel for respondents and counsel supporting the complaint entered into a stipulation as to the facts in the proceeding in lieu of oral testimony and other evidence in support of or in opposition to the allegations of the complaint.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer, and stipulation which had been spread upon the record at said hearings and duly filed in the office of the Commission, counsel having elected not to file proposed findings and conclusions for consideration by said examiner and oral argument not having been requested; and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on December 19, 1953.

Said order to cease and desist is as follows:

It is ordered, That the respondent Charles Antell, Inc., a corporation, and its officers, and respondents Charles D. Kasher, Leonard L. Rosen and Julius J. Rosen, individually, and respondent T. A. A., Inc., a corporation, and its officers, and respondents' respective agents, representatives and employees, directly or through any cooperate or other device, in connection with the offering for sale, sale or distribution of Charles Antell Formula No. 9 and Charles Antell Shampoo, or any products of substantially similar composition or possessing substantially similar properties, whether sold under the same names or any other names, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference, (a) With respect to Charles Antell Formula No. 9:

(1) That the main ingredient in said product is lanolin;

(2) That lanolin is the only natural oil or grease that is absorbed by the hair or scalp or that the lanolin in said product is absorbed by the scalp to the extent that it will reach the roots of the hair;

(3) That the lanolin in said product will cleanse the hair;

(4) That its use will loosen the scalp or constitute an effective treatment for dandruff or infected scalp;

(5) That it will remedy the cause of cracked or split hair or will remedy the damage caused by improper dyeing of the hair, permanents, burning or other harmful practices having to do with the hair;

(6) That the use of said product, as directed or otherwise, will promote the growth of the hair;

(7) That the use of said product will give the hair health or vitality, except to the extent that brushing, pulling and

[1] Filed as part of original document.

massaging of the hair and scalp with said product regularly serves as a stimulant to circulation around the hair roots and thereby helps maintain normal scalp and hair health;

(8) That the use of said products will not change the color of the hair or will not leave grease on the hair, unless such representation is limited to cases where said product is used in moderate amounts as directed;

(9) That its use will cause the hair to curl;

(10) That its use will prevent the loss of hair or baldness.

(b) With respect to Charles Antell Shampoo: That the hormones present in said product will have any cleansing action on the hair.

2. Disseminating, or causing the dissemination of any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of either of said products, which advertisement contains any of the representations prohibited in Paragraph 1 hereof.

It is further ordered, That respondents Charles Antell, Inc., a corporation, and its officers, and respondents Charles D. Kasher, Leonard L. Rosen and Julius J. Rosen, individually, and respondent T. A. A., Inc., a corporation, and its officers, and respondents' respective agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce as "commerce" is defined in the Federal Trade Commission Act, of the product known as Hexachlorophene Soap, or any other soap or product of substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from:

1. Misrepresenting, directly or by implication, the effectiveness of said soap as a cleansing agent.

2. Representing, directly or by implication, that the use of said soap will prevent impetigo or cradle cap in case of babies or prevent the development of pimples, boils, blackheads, or other skin blemishes generally.

It is further ordered, That respondents Charles Antell, Inc., a corporation, and its officers, and respondents Charles D. Kasher, Leonard L. Rosen, and Julius J. Rosen, individually, and respondent T. A. A., Inc., a corporation, and its officers, and respondents' respective agents, representatives and emloyees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any article of merchandise do forthwith cease and desist from representing, directly or by implication:

That it is being sold at a reduced price when such price is the price at which the article is usually and regularly sold.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6102, December 18, 1953, which decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 18, 1953.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
Secretary.

[F. R. Doc. 54-630; Filed, Jan. 28, 1954; 8:51 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53425]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

MISCELLANEOUS AMENDMENTS

The changes made below in the customs regulations (1) require declarations of crew members on customs Form 5123 to be prepared at the first port of arrival in the United States for all articles acquired abroad by them and intended to be unladen in the United States; (2) prescribe a more effective and extended use by customs officers of the manifests of crews' purchases which accompany vessels from port to port in the United States; and (3) eliminate the filing with comptrollers of customs of reports on customs Form 3253. Hereafter, under the regulations a comptroller will receive from every vessel required to enter, a copy of the manifest covering cargo for discharge in his district and a copy of the manifest of the crews' purchases and vessel stores filed with the collector at the first port of entry in the comptroller district.

1. Section 4.7 (e) is amended by deleting the words "at that port" from the last sentence and substituting therefor "in the United States".

(Secs. 431, 581 (a), 583, 624, 46 Stat. 710, as amended, 747, as amended, 748, 759; 19 U. S. C. 1431, 1581 (a), 1583, 1624)

2. Section 4.81 is amended as follows:

a. Paragraph (e) is redesignated as paragraph (f) and amended by inserting the following sentence after the second sentence: "The traveling crew purchase manifest (curio list) shall be placed in a sealed envelope addressed to the customs boarding officer at the next domestic port of call and returned to the master for delivery."

and by deleting the words "and the document of the vessel" from the last sentence and substituting therefor: "a list in duplicate of all unentered articles acquired abroad by the officers and members of the crew of the vessel which are still on board and of the stores remaining on board, and the document of the vessel. Immediately upon arrival at the first port in a comptroller district and before entry of the vessel, the master shall mail or deliver to the comptroller for the district a copy of such list of all unentered crew's purchases and stores on board. The traveling crew purchase manifest (curio list) returned by the prior port of call to the master shall be delivered by him to the boarding officer."

b. A new paragraph (e) is inserted reading as follows:

(e) The traveling crew purchase manifest (curio list) referred to in § 4.85 (b), (c), and (e) shall be deposited with the collector upon arrival at each port in the United States and finally surrendered to the boarding officer or collector at the port where the vessel first departs directly for a foreign port.

c. The citation of authority for § 4.81 is amended to read as follows:

(R. S. 161, 251, secs. 423, 439, 442, 443, 444, 486, 624, 46 Stat. 711, 712, as amended, 713, 725, as amended, 759, sec. 2, 23 Stat. 118, as amended, R. S. 4132, as amended, R. S. 4311, as amended, R. S. 4367, 4368, sec. 27, 41 Stat. 999, as amended; 5 U. S. C. 22, 19 U. S. C. 66, 1433, 1439, 1442, 1443, 1444, 1486, 1624, 46 U. S. C. 2, 11, 251, 313, 314, 883)

3. Section 4.85 is amended as follows:

a. Paragraph (b) is amended by adding the following sentence: "The part of the traveling manifest, which covers articles acquired abroad by the officers and members of the crew (curio list), together with the unused crew declarations prepared for such articles, shall be placed in a sealed envelope addressed to the customs boarding officer at the next port of call and given to the master of the vessel for delivery."

b. Paragraph (c) is amended by changing the period at the end of the third sentence to a comma and adding thereafter: "each such list to show the port where and the date the vessel first entered in that comptroller district. The traveling crew purchase manifest (curio list), together with the crew declarations, furnished by the prior port of call to the master shall be delivered by him to the boarding officer."

c. Paragraph (e) is amended by adding the following sentence: "The traveling crew purchase manifest (curio list) shall be finally surrendered to the boarding officer or collector at the port where the vessel first departs directly for a foreign port."

d. Paragraph (f) is deleted and paragraph (g) is redesignated paragraph (f) and amended to read:

(f) If a vessel proceeds to another comptroller district where it is to enter, immediately upon arrival at the first port in the district and before entry of the vessel, the master shall mail or deliver to the comptroller for the district a manifest of any foreign cargo remaining on board manifested for discharge in that comptroller district and of all unentered articles acquired abroad by the officers or crew of the vessel and of the stores on board.

(R. S. 161, 251, secs. 439, 442, 443, 444, 624, 46 Stat. 712, 713, 759, sec. 2, 23 Stat. 118, as amended; 5 U. S. C. 22, 19 U. S. C. 66, 1439, 1442, 1443, 1444, 1624, 46 U. S. C. 2)

4. Section 4.87 is amended as follows:

a. Paragraph (c) is amended by adding the following sentence: "The traveling crew purchase manifest (curio list), together with any unused crew declarations, shall be placed in a sealed envelope addressed to the customs boarding officer at the next domestic port of call and returned to the master of the vessel for delivery."

b. Paragraph (d) is amended by changing the period at the end of the second sentence to a comma and adding thereafter: "each such list to show the port where and the date the vessel first entered in that comptroller district. Immediately upon arrival at the first port in a comptroller district and before entry of the vessel, the master shall mail or deliver to the comptroller for the district a copy of such list of unentered crew's purchases and stores on board."

and by adding the following sentence at the end thereof: "The traveling crew purchase manifest (curio list) together with any unused crew declarations returned by the prior port of call to the master shall be delivered by him to the boarding officer."

c. The citation of authority for § 4.87 is amended to read as follows:

(R. S. 161, 251, secs. 433, 435, 437, 439, 442, 443, 444, 624, 46 Stat. 711, 712, as amended, 713, 759, sec. 2, 23, Stat. 118, as amended, R. S. 4197, as amended, R. S. 4200, as amended, R. S. 4367, R. S. 4368; 5 U. S. C. 22, 19 U. S. C. 66, 1433, 1435, 1437, 1439, 1442, 1443, 1444, 1624, 46 U. S. C. 2, 91, 92, 313, 314)

5. Section 10.22 (b) is hereby amended to read:

(b) Articles on board a vessel in the possession of or owned by any officer or member of the crew of the vessel, which are to be landed in the United States and for which written declaration and entry are required, shall be described and declared on a Declaration and Entry of Crew Member for Imported Articles, customs Form 5123, or other form approved by the Commissioner of Customs, upon the arrival of the vessel in the United States. Articles in the possession of or owned by officers or members of the crew and of a character for which entry must be made when they are brought into the United States shall be entered only at the port where the articles are to be landed, except that if any officer or crew member remains on a vessel which is to proceed on a movement described in (2) of paragraph (a), entry shall be made at the port where such movement begins. Any duties and taxes found due shall be collected as in the case of arriving passengers. Articles belonging to an officer or seaman may be transferred from one vessel to another in the foreign trade under the supervision of customs officers, by a bonded cartman if necessary, without entry, declaration, or assessment of duty.

(Secs. 498, 624, 46 Stat. 728, as amended, 759; 19 U. S. C. 1498, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: January 21, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 54-624; Filed, Jan. 28, 1954; 8:50 a. m.]

[T. D. 53423]

PART 25—CUSTOMS BONDS

BONDS APPROVED BY COLLECTORS

In view of the repeal of the act of June 8, 1896 (19 U. S. C. 472-475), by section 16 (f) of the Customs Simplification Act of 1953 (67 Stat. 517), the bond described in § 25.4 (a) (28) is no longer required. Section 25.4 (a) is, therefore, amended by deleting subparagraph (28) and by renumbering subparagraphs 29 through 31 as 28 through 30, respectively.

(R. S. 251, sec. 624, 46 Stat. 759; 19 U. S. C. 66, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: January 18, 1954.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

GERMANY

In § 127.261 *Germany* make the following changes:

1. Amend paragraph (a) (8) to read as follows:

(8) *Prohibitions*—(i) Invisible ink. Illegible or incomprehensible designs.

(ii) Arms and war materials of all kinds, including parts of airplanes and military vehicles; communication, electronic and fire-control instruments; cryptographic equipment and cipher codes; trigonometric and cartographic equipment; military maps, plans, instruction manuals and models; training films and other instruction aids, and research material on military subjects.

(iii) Postcards and envelopes bearing illustrations constituting pro-Fascist or subversive propaganda.

(iv) German banknotes and coins.

(v) Paper values of German issue, unless the article is addressed to a German bank.

2. In paragraph (b) (5), amend (*a*) and (*b*) of subdivision (ii) to read as follows:

(*a*) Addressees of gift parcels may receive duty free each month up to 33 pounds of foodstuffs, which may include 1 pound 1½ ounces of coffee, 2 pounds 3 ounces of powdered cocoa, and 2 pounds 3 ounces of chocolate. However, the coffee, cocoa, chocolate, or any combination thereof must comprise the lesser part of the total weight of the parcel, and less than two-thirds of the value of the duty-free contents.

(*b*) Articles other than foodstuffs are duty-free when sent as gifts if the kind and quantity are in accord with the actual needs of the addressee and members of his household. However, duty is always charged on tea; lobster, caviar, and oysters; jewelry, precious stones, and articles made from precious metals; new garments made from or trimmed with fur if over 800 marks in value; expensive carpets and floor coverings; new articles made from reptile skin; radios; photographic apparatus; expensive perfumes and cosmetics; and any other articles subject to special levies.

3. In paragraph (b) (6), add subdivision (iii) to read as follows:

(iii) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] LOUIS J. DOYLE,
Acting Solicitor.

[F. R. Doc. 54-621; Filed, Jan. 28, 1954; 8:49 a. m.]

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

PARCEL POST; PARAGUAY

In § 127.327 *Paraguay* as amended (18 F. R. 8401), add a note to subdivision (i) of paragraph (b) (1) to read as follows:

NOTE: In accordance with request from the Postal Administration of Paraguay, effective at once and continuing until further notice, parcel post service to that country is temporarily suspended, except for parcels containing medical and pharmaceutical products and parcels addressed to the Government of Paraguay or to members of the diplomatic corps in care of their respective embassies or legations in Paraguay.

(R. S. 161, 396, 398, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] LOUIS J. DOYLE,
Acting Solicitor.

[F. R. Doc. 54-617; Filed, Jan. 28, 1954; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 39]

INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

In order to conform Regulations 118 (26 CFR Part 39) to section 203 of the Technical Changes Act of 1953, approved August 15, 1953, such regulations are amended as follows:

PARAGRAPH 1. Section 39.113 (a) (5) is amended by inserting at the end thereof the following:

SEC. 203. BASIS OF CERTAIN PROPERTY TRANSFERRED IN TRUST (TECHNICAL CHANGES ACT OF 1953, APPROVED AUGUST 15, 1953).

(a) *Amendment of section 113 (a) (5).* The second sentence of section 113 (a) (5) (relating to the basis of property transmitted at death) is hereby amended by inserting immediately after the words "revoke the trust" the following: "or to make any change in the enjoyment thereof through the exercise of a power to alter, amend, or terminate the trust".

(b) *Effective date.* The amendment made by subsection (a) shall apply (1) only in the case of property transferred by grantors dying after December 31, 1951, and (2) only with respect to taxable years ending after December 31, 1951.

PAR. 2. Section 39.113 (a) (5)-1 is amended by inserting immediately at the end thereof the following:

(h) *Property acquired by certain transfers in trust.* Property shall, for the purposes of section 113 (a) (5) and of this section, be considered as property passing under an instrument which is treated as though it were a will executed on the day of the grantor's death if:

(1) The property was transferred in trust to pay the income for life to or upon the order or direction of the grantor, with the right reserved to the grantor at all times prior to his death to revoke the trust, or

(2) The property was transferred in trust by a grantor dying after December 31, 1951, to pay the income for life to or upon the order or direction of the grantor, with the right reserved to the grantor at all times prior to his death to revoke the trust or to make any change in the enjoyment thereof through the exercise of a power to alter, amend, or terminate the trust.

[F. R. Doc. 54-625; Filed, Jan. 28, 1954; 8:50 a. m.]

NOTICES

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

FEES FOR LICENSING AND RELATED ACTIVITIES

Notice is hereby given that in compliance with the provisions of Title V of the Independent Offices Appropriation Act, 1952 (5 U. S. C. 140) providing for recovering to the extent possible the cost of Federal services rendered including the issuance of various types of permits, the Secretary of the Army is considering the following schedule of fees for the purpose of recovering the cost of issuing permits for work in navigable waters of the United States under the provisions of sections 9, 10, and 14 of the River and Harbor Act of March 3, 1899 (33 U. S. C. 401, 403, 408) and the General Bridge Act of 1946 (33 U. S. C. 525–533).

FEE SCHEDULE

Group	Classification	Estimated cost of work	Fee
1	Noncommercial structures or facilities for recreational craft; protective structures such as revetments, retaining walls, bulkheads, groins, jetties including breaking and filling relating thereto, and dredging of channels, slips, berthing areas, with dumping in designated disposal areas.	Under $5,000	$25
		$5,000 to $25,000	75
		Over $25,000	150
2	Commercial structures used in waterborne commerce and navigation including piers, wharves, landing bulkheads and related structures or work.	Under $25,000	75
		$25,000 and over	150
3	Structures not used in waterborne commerce and navigation such as oil wells, water intakes, sewer outfalls and related structures; and dredging for commercial shell, sand and gravel.	Under $25,000	100
		25,000 and over	175
4	Dumping of materials in designated disposal areas or at sea	$20 per dump trip	
5	Fish traps and pounds	Gill nets	25
		Traps and pounds	50
		Under $50,000	100
6	Bridges, dams and tunnels	$50,000 to $500,000	300
		Over $500,000	500
7	Revised plans and extensions of time	50 percent of original fee (maximum).	100

Charitable nonprofit organizations are exempt from payment of fees.

Any interested party may present such written comments and suggestions, in duplicate, as to the level and form of the proposed fees as he may desire to the Chief of Engineers, Corps of Engineers, U. S. Army, Building T–7, Washington 25, D. C., Attention: ENGWO, within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 54-622; Filed, Jan. 28, 1954; 8:49 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

NOTICE OF ORGANIZATION, FUNCTIONS AND AUTHORITIES

I. *Purpose.* This memorandum outlines the functions, authorities and basic organizational structure of the Agricultural Research Service (ARS) established under Secretary's order of December 24, 1953 (19 F. R. 74), which assigns responsibilities, and delegates related authorities. Provisions of this memorandum become effective January 2, 1954.

* * * * *

III. *Functions of the Agricultural Research Service—A. Assignment of functions.* The Agricultural Research Service is responsible for:

1. Coordination of all research activities of the Department, including examination and analysis of all such activities current and contemplated, review and approval of all projects or proposals prior to initiation, advice and consultation on planning with heads of Services, and reports and recommendations to the Secretary.

2. The following research programs: Production and utilization (except forestry) research, including research under Title I of the Research and Marketing Act of 1946; farm management and cost, land economics, and agricultural finance; production aspects of farm labor ordinarily associated with farm management problems; soil conservation except national soil survey; grass and control of undesirable plants; range management except on forest and related ranges (the term "forest" includes woodlands, and brush covered wildlands in mountainous areas); cotton ginning and processing; under section 7 (b) of the Strategic and Critical Materials Stock Piling Act; under the Housing Act of 1949.

3. The research, investigations, inspections, experimentations, demonstrations, development work, service and regulatory work, and control and eradication of insects, plant and animal pests and diseases provided for under the heading "Agricultural Research Administration" in the Department of Agriculture Appropriation Act of 1954 (except forest pests and diseases, and research on off-farm handling, transportation and storage of agricultural products, including investigations of insect infestations of off-farm stored products), and inspection and certification service, and standardization incidental thereto, for foods for dogs, cats and other Carnivora.

4. Administration of the Federal Insecticide, Fungicide and Rodenticide Act (7 U. S. C. 135–135k).

5. The program of payments to States, Territories and Puerto Rico under the Hatch Act of March 2, 1887, and supplemental and related acts, and payments to State Experiment Stations under section 204 (b) of the Agricultural Marketing Act of 1946 (7 U. S. C. 1623 (b)).

6. Eradication of foot-and-mouth and other contagious diseases of animals and poultry.

7. Hog Cholera Serum and Virus Marketing Agreement Act.

8. Administration of Title III, Research and Marketing Act.

9. All administrative functions on behalf of the Secretary relating to the acquisition and administration of patent rights.

B. *Reservations.* Final actions in proceedings pursuant to sections 7 and 8 of the Administrative Procedure Act, except orders in rule-making proceedings under the Hog Cholera Serum and Virus Marketing Agreement Act, are reserved to the Judicial Officer. The following are reserved to the Secretary:

1. Final action on regulations under the Hog Cholera Serum and Virus Marketing Agreement Act, previously requiring approval of the President.

2. The issuance, amendment, termination or suspension of any marketing agreement or order or any provision thereof.

3. Designation of members of advisory committees under Title III of the Research and Marketing Act (7 U. S. C. 1628–1629).

4. Determinations as to the measure and character of cooperation with Mexico in the foot-and-mouth disease program pursuant to section 1 of the Act of February 28, 1947 (21 U. S. C. 114b), the designation of members of advisory committees, and the appointment of commissioners on any joint commission with the Government of Mexico set up under such program.

5. Approval of requests for apportionment of reserves for emergency outbreaks of insect pests and plant diseases.

6. Determination of emergencies in connection with the eradication of foot-and-mouth disease and other contagious diseases of animals and poultry.

IV. *Assignment of functions, responsibilities and authorities—A. The Office of the Administrator—1. Functions and responsibilities of the Administrator.* The Administrator is responsible for the programs and activities of ARS. He reports to the Assistant Secretary for Federal-State Relations.

2. *Authorities of the Administrator.* Subject to the reservations of authority contained in III B above, authority has been delegated to the Administrator to take any action including the authority to execute any document, authorize any expenditure, and promulgate any rule, regulation, order or instruction, required by law or deemed by him to be necessary and proper to the discharge of the functions assigned to the Agricultural Research Service, and to delegate and provide for the redelegation of his authority to appropriate officers and employees consistent with and with due regard to his personal responsibilities for the proper discharge of the functions assigned to the Service.

3. *Redelegation of authorities.* There are hereby redelegated to Deputy and Assistant Administrators, Directors and Branch Chiefs the authorities not specifically reserved herein which are necessary to the discharge of the responsibilities as assigned below. This redelegation does not apply to the functions which are assigned to Administrative Divisions and Program Branches directly by action of a departmental staff officer or otherwise. No redelegation herein shall preclude the Administrator from exercising any of the powers or functions or from performing any of the duties herein and any such redelegation is subject at all times to withdrawal or amendment.

4. *Reservations.* There are hereby reserved to the Administrator or Acting Administrator the following authorities and/or responsibilities:

a. The coordination of all research activities identified in III A 1 above.

b. Initiating, changing or discontinuing major areas of research and control or regulatory activities conducted by ARS.

c. The issuance of regulations pursuant to law.

d. The transfer of functions, funds, property or personnel between divisions and or branches.

e. All administrative functions on behalf of the Secretary relating to the acquisition and administration of patent rights.

f. The execution of research contracts and cooperative agreements.

g. The approval of organization changes.

h. Authority to establish, consolidate, change the location, or abolish (1) any field office (other than temporary), and (2) any regional or other administrative area that includes two or more States or that cuts across a State line.

i. Authority to authorize payment of travel and transportation expenses incident to transfers of official stations for permanent duty.

j. Authorizing attendance at national and international meetings.

k. Authorizing foreign travel.

l. The assignment of personnel to positions in grade GS–14 and above.

5. *General responsibilities of Deputy and Assistant Administrators, Directors and Branch Chiefs.* The Deputy and Assistant Administrators, and through them the Directors and Branch Chiefs have the following general responsibilities:

a. *Responsibility to the Administrator.* Keeping the Administrator advised with respect to major problems and developments and consulting with him or, in his absence, the Acting Administrator before taking actions which involve policy questions or major questions involving relationships with other Federal agencies, other agencies of this Department or State agencies.

b. *Responsibility for coordination of policies and operations.* Consulting and cooperating with other appropriate officials when their activities relate to, affect or are affected by the work of other organizational units of the Service and of seeing that their policies, program and operations are coordinated with such other activities to the end that the Service operates with maximum unity and effectiveness.

c. *Responsibility for efficient operation.* Seeing that the work assigned to them is efficiently administered and that the public obtains the fullest possible benefit for the funds expended. To this end they shall see that programs and operations are reviewed periodically as required by Executive Order 10072 and 5 U. S. C. 1151.

(1) *Deputy Administrator, Research.* The Deputy Administrator for Research is responsible for:

(a) Assisting and acting for and as the Administrator in the overall planning and administration of all programs and activities of ARS, and

(b) Directing and coordinating the administration of all research programs of ARS including committee functions pursuant to Title III, Research and Marketing Act.

(2) *Deputy Administrator, Regulatory Programs.* The Deputy Administrator for Regulatory Programs is responsible for:

(a) Assisting and acting for and as the Administrator in the overall planning and administration of all programs and activities of ARS, and

(b) Directing and coordinating the administration of all control and regulatory programs of ARS.

(3) *Assistant Administrator, Office of Experiment Stations.* The Assistant Administrator for the Office of Experiment Stations is responsible for participating with the Administrator, Deputy Administrators and other key staff members in the overall planning and administration of all programs and activities of ARS and for directing all activities of the Office of Experiment Stations.

(4) *Assistant Administrator for Management.* The Assistant Administrator for Management is responsible for participating with the Administrator, Deputy Administrators, and other key staff

members, in the over-all planning and administration of all programs and activities of ARS; for formulating, directing, coordinating and integrating the over-all management, budget, fiscal, personnel and administrative services activities to meet requirements of ARS programs, and for acting as and for the Administrator in connection with these functions.

(5) *Programs inspection and evaluation.* The programs inspection and evaluation staff is responsible for inspecting, evaluating and reporting to the Administrator upon all aspects of the Service's programs and administrative operations.

(6) *Central Project Office.* The Central Project Office is responsible for:

(a) Developing the project inventory to meet the needs of planning and coordination within the Department, and integrating it with similar systems in the States and in the Office of Experiment Stations to serve as a means of coordination and cooperation with the States.

(b) Reviewing projects to determine existing or potential relationships requiring coordination of planning and the carrying on of cooperative research.

(c) Analyzing the Department's research programs as a basis for development or modification of policy.

B. *Research programs.* The Directors of Crops, Farm and Land Management, Livestock, Human Nutrition and Home Economics, and Utilization Research are responsible for participating with the Administrator, Deputy Administrators, and other key staff members, in the over-all planning and administration of all programs and activities of ARS. Under the general supervision of the Deputy Administrator for Research, and when appropriate, in cooperation with other Federal, State and other public and private agencies, they have the following additional responsibilities relating to ARS programs:

1. *Director, Crops Research.* Formulates policies, provides leadership, coordinates and directs national programs of research on field crops, horticultural crops and entomology.

a. *Field Crops Research Branch.* Under the general supervision of the Director of Crops Research, plans, organizes and directs a national program of research on field crops including the production, improvement and disease control of cereal crops, cotton and other fiber crops, forage crops and range plants, rubber plants, sugar plants, tobacco, medicinal and special crops, and the control of brush and weeds in cultivated crops, pastures and rangelands through the use of herbicides, cultivation, competitive crops, pasturage and other means.

b. *Horticultural Crops Research Branch.* Under the general supervision of the Director of Crops Research, plans, organizes and directs a national program of research on horticultural crops, including the production, improvement and disease control of deciduous and subtropical fruits and nuts, truck crops, vegetables, potatoes, sweetpotatoes, peanuts, landscaping and ornamental trees and shrubs and flower crops. Introduces and tests promising seeds and plants from foreign countries for possible domestic use. Identifies plants and plant disease organisms. Maintains herbarium materials and a reference collection of plant-disease organisms. Collects and disseminates current information on principal plant diseases in the United States. Conducts research on plant parasitic soil inhabiting and insect-infesting nematodes, and methods of control. Directs hormone, photoperiodism and spectrographic studies relating to plant growth. Directs activities of the National Arboretum.

c. *Entomology Research Branch.* Under the general supervision of the Director of Crops Research, plans, organizes and directs national programs of research on insects affecting fruits, grapes, nuts, trees, shrubs, truck and garden crops, cereal, forage and range crops, cotton and other fiber crops, tobacco, sugar and other plants and agricultural products, household possessions, man and animals, and on the bee culture and apiary management. Classifies and identifies insects. Conducts investigations on the introduction of natural enemies of injurious insects, related pests and noxious weeds for the exchange with other countries of useful and beneficial insects and other arthropods. Develops methods, equipment, and apparatus to aid in enforcing plant quarantines and in the eradication and control of insect pests and plant diseases. Investigates insecticides, including methods of synthesis, formulation, use and analysis. Determines the existence and extent of residues in plant or animal products and in soils resulting from the use of insecticides. Determines the effects of pesticides on beneficial insects.

2. *Director, Farm and Land Management Research.* Formulates policies, provides leadership, coordinates and directs national programs of research on soil and water conservation, agricultural engineering, and production economics, including finance.

a. *Soil and Water Conservation Research Branch.* Under the general supervision of the Director of Farm and Land Management Research, plans, organizes and directs a national research program on soil and water conservation including soil management, irrigation and drainage, salinity control, plant soil relationships, fertilizer technology and use, soil chemistry and physics, soil fertility, soil microbiology, watershed hydrology, stream and reservoir sedimentation and the design and hydraulics of conservation structures.

b. *Agricultural Engineering Research Branch.* Under the general supervision of the Director of Farm and Land Management Research, plans, organizes and directs a national program of agricultural engineering research including the determination and application of basic principles governing the efficient performance of machinery and mechanical power on the farm, the application of electric power to rural and farm problems, the development and improvement of machinery and methods for the primary processing of farm products and the determination and application of basic engineering principles governing the design, construction, utilization and operation of farm buildings.

c. *Production Economics Research Branch.* Under the general supervision of the Director of Farm and Land Management Research, plans, organizes and directs a national program of research, statistics, and service work in economics of agricultural production including research on economic utilization of resources in farming, adjustments in production to prospective demands, farm labor requirements, distribution and productivity, costs and returns from farming and from individual farming practices, problems relating to farm credit, investment, taxation, insurance, and other financial phases of agriculture, and economic problems relating to land and water use and development, land values, land tenure, and special land problems.

3. *Director, Livestock Research.* Formulates policies, provides leadership, coordinates, and directs national programs of research on animal diseases and parasites, dairy husbandry and animal and poultry husbandry.

a. *Animal Disease and Parasite Research Branch.* Under the general supervision of the Director of Livestock Research, plans, organizes and directs national programs of research on animal and poultry diseases and parasites and develops measures for their control or eradication. Produces and standardizes diagnostic and immunological agents and other biological and chemical products for use in disease and parasite control and eradications programs.

b. *Dairy Husbandry Research Branch.* Under the general supervision of the Director of Livestock Research, plans, organizes and directs national programs of research on the breeding, feeding, nutrition and management of dairy cattle and in the physiology of milk secretion and of reproduction to improve dairy herds.

c. *Animal and Poultry Husbandry Research Branch.* Under the general supervision of the Director of Livestock Research, plans, organizes and directs national programs of research on nutritional, physiological, genetic, biochemical and other factors involved in the improvement of livestock, poultry, and domestically raised fur bearing animal production. Administers regulations regarding Alaska fur-farming and for the improvement of poultry and turkeys in cooperation with State authorities and in compliance with the National Poultry and Turkey Improvement Plans.

4. *Director, Human Nutrition and Home Economics Research.* Formulates policies, provides leadership, coordinates and directs national programs of research relating to human nutrition and home economics.

a. *Human Nutrition Research Branch.* Under the general supervision of the Director of Human Nutrition and Home Economics Research, plans, organizes and directs a national research program on human nutritional requirements, including nutritional effects of diets and interrelationships of nutrients and of foods, composition, nutritive value and availability of nutrients of foods, principles of utility underlying consumer selection, preparation and preservation of foods of different qualities, and appraisal of food supplies and diets in terms of nutritive content. Cooperates with other Federal and State agencies in the coordination of nutrition programs.

b. *Home Economics Research Branch.* Under the general supervision of the Director of Human Nutrition and Home Economics Research, plans, organizes and directs a national research program on family practices in the purchase, home production, use and care of consumer goods and the level of living achieved thereby, the utility and economy of agricultural products for clothing and household purposes to bring about their most effective utilization and contribution to the welfare of the consumer, housing and household equipment to meet family requirements, home management practices to simplify household procedures and improve time and money management in the home, and such other investigations as have for their purpose the development and improvement of the home and family life.

5. *Director, Utilization Research.* Formulates policies, provides leadership, coordinates and directs national programs of research to develop new, wider, and more effective uses for agricultural products.

a. *Northern Utilization Research Branch.* Under the general supervision of the Director, Utilization Research, plans, organizes, coordinates and directs fundamental and applied research to develop new and improved uses for the agricultural products and by-products of the Northern producing area and to extend their existing uses.

b. *Southern Utilization Research Branch.* Under the general supervision of the Director of Utilization Research, plans, organizes, coordinates and directs fundamental and applied research to develop new and improved uses for the agricultural products and by-products of the Southern producing area and to extend their existing uses.

c. *Eastern Utilization Research Branch.* Under the general supervision of the Director of Utilization Research, plans, organizes, coordinates and directs fundamental and applied research to develop new and improved uses for the agricultural products and by-products of the Eastern producing area and to extend their existing uses.

d. *Western Utilization Research Branch.* Under the general supervision of the Director of Utilization Research, plans, organizes, coordinates and directs fundamental and applied research to develop new and improved uses for the agricultural products and by-products of the Western producing area and to extend their existing uses.

e. *Washington Utilization Research Branch.* Under the general supervision of the Director of Utilization Research, plans, organizes, coordinates and directs fundamental and applied research designed to develop new dairy and meat products, to improve the quality of dairy and meat products, and to reduce the cost of their manufacture; conducts fundamental and applied research on the chemistry and immunology of allergenic components in substances of agricultural origin.

C. *Regulatory programs.* The Directors of Crops and Livestock Regulatory Programs are responsible for participating with the Administrator, Deputy Administrators, and other key staff members, in the over-all planning and administration of all programs and activities of ARS. Under the general supervision of the Deputy Administrator for Regulatory Programs, they have the following additional responsibilities relating to ARS programs:

1. *Director, Crops Regulatory Programs.* Formulates policies, provides leadership, coordinates and directs national programs of plant pest control and plant quarantine.

a. *Plant Pest Control Branch.* Under the general supervision of the Director of Crops Regulatory Programs and pursuant to general and special authorization and in cooperation with other Federal, State and other public and private agencies, as appropriate, conducts programs to eradicate, suppress or control insect pests and plant diseases, including new introductions which may have become established in limited areas within the United States. Combats insects or plant diseases which occur in emergency outbreaks and require organized control effort over wide areas. Provides leadership for a Nation-wide insect survey to furnish a basis for forecasting insect outbreaks and advising industry and farmers as to the kind and extent of controls needed. Administers the Insecticide, Fungicide and Rodenticide Act of 1947.

b. *Plant Quarantine Branch.* Under the general supervision of the Director of Crops Regulatory Programs, administers statutory authorities and related regulations and in cooperation with the States, and other Federal agencies as appropriate, conducts a national program of plant quarantine to prevent the spread of injurious plant pests through the enforcement of quarantines affecting the entry into the United States of plants and plant products from foreign countries, the movement of such products between United States possessions and the mainland, the interstate shipment of products restricted by domestic plant quarantines and the inspection and certification of plants and plant products for export to meet plant quarantine import requirements of countries of destination.

2. *Director, Livestock Regulatory Programs.* Formulates policies, provides leadership, coordinates and directs national programs of animal disease eradication, animal quarantine and meat inspection.

a. *Animal Disease Eradication Branch.* Under the general supervision of the Director of Livestock Regulatory Programs, administers statutory authorities and related regulations, and in cooperation with the States and other Federal agencies, as appropriate, conducts Nation-wide programs for the control and eradication of diseases of livestock and poultry. Administers the Virus-Serum Toxin Act and the Hog Cholera Serum and Virus Marketing Agreement Act. As authorized, furnishes technical assistance to and cooperates with foreign governments in livestock disease control and eradication measures.

b. *Animal Quarantine Branch.* Under the general supervision of the Director of Livestock Regulatory Programs, administers statutory authorities and related regulations governing the inspection, humane treatment and safe transport of animals for exportation and laws and regulations designed to prevent the introduction and dissemination of livestock and poultry diseases of foreign origin and the certification for free entry of pure-bred livestock for breeding purposes. Administers the acts and regulations governing the interstate movement of livestock and poultry to prevent the spread of communicable animal diseases, and the enforcement of the 28-hour law.

c. *Meat Inspection Branch.* Under the general supervision of the Director of Livestock Regulatory Programs, administers the Meat Inspection Act, the Horse Meat Act and the Imported Meat Act. Enforces regulations issued pursuant to law relating to the manufacture, sale, and exportation of process or renovated butter. Directs the inspection, certification and identification of canned, wet maintenance dog food and canned or fresh frozen food component for dog food pursuant to the Agricultural Marketing Act of 1946.

D. *Experiment station programs.* The Directors of the State and Territorial Experiment Station Divisions, under the general supervision of the Assistant Administrator, Office of Experiment Stations, are responsible as follows:

1. *State Experiment Stations Division.* a. Administers Federal-grant funds for research at State and Territorial agricultural experiment stations.

b. Gives advice and assistance on and participates in the planning and coordination of cooperative regional agricultural research conducted at State agricultural experiment stations and coordinates research between States and between States and the Department.

c. Maintains liaison between Department and State and Territorial Agricultural Experiment Stations.

d. Disseminates informational materials to facilitate research and research coordination within the area of responsibility.

2. *Territorial Experiment Stations Division.* a. Supervises the Federal experiment stations in Puerto Rico and Alaska and the agricultural research and extension programs in the Virgin Islands.

b. Maintains liaison between Department and other agencies and Federal Territorial Agricultural Experiment Stations.

c. Disseminates informational materials to facilitate research and research coordination within the area of responsibility.

E. *Management programs.* The Directors of the Administrative Services, Budget and Finance, and Personnel Divisions, and the Superintendent of the Agricultural Research Center, under the general supervision of the Assistant Administrator for Management, are responsible as follows:

1. *Administrative Services Division.* a. Plans and administers procurement, property management, records management, real estate, space and equipment management activities to meet requirements of ARS programs.

b. Approves, for administrative feasibility and for compliance with governing rules and regulations, contracts for research work under the Research and Marketing Act, and documents providing for cooperation with other Federal, State and other public and private agencies.

2. *Budget and Finance Division.* a. Plans and administers a budgetary and fiscal program to meet the requirements of ARS activities.

b. Develops and assists in establishing required controls with respect to apportionments, obligations and expenditures of available funds.

3. *Personnel Division.* Plans and administers the classification, employment, employee relations, training, safety, and investigational phases of a personnel program and organization and methods functions to meet requirements of ARS activities.

4. *Agricultural Research Center.* Provides engineering, maintenance, shop, farming, space and related services and facilities required for the utilization and development of the Agricultural Research Center.

* * * * *

This document shall be effective January 2, 1954.

Done at Washington, D. C., this 28th day of December 1953.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

CIVIL AERONAUTICS BOARD

[Docket No. 5818]

PAN AMERICAN WORLD AIRWAYS, INC.; SOUTH ATLANTIC RENEWAL CASE

NOTICE OF HEARING

In the matter of the application of Pan American World Airways, Inc. for the renewal of its South Africa certificate of public convenience and necessity.

Pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, notice is hereby given that a hearing in the above-entitled proceeding is assigned to be held on February 8, 1954, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner F. Merritt Ruhlen.

For further details of the issues involved in this proceeding, interested persons are referred to the application and other documents entered in the proceeding, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record and intervenors of record desiring to be heard in this proceeding may file with the Board on or before February 8, 1954, a statement setting forth the issues of fact and of law raised by this proceeding which he desires to controvert, and such person may appear and participate in the hearing in accordance with § 302.14 of the Procedural Regulations under Title X of the Civil Aeronautics Act, as amended.

Dated at Washington, D. C., January 25, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 54-615; Filed, Jan. 28, 1954; 8:47 a. m.]

[Docket No. 6200]

WESTERN AIR LINES, INC.

NOTICE OF POSTPONEMENT OF ORAL ARGUMENT

Notice is hereby given pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding now assigned to be held on February 9 is postponed to February 11, 1954. The argument will be at 10:00 a. m. e. s. t., in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., January 25, 1954.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Public Notice PN 6]

DELEGATIONS OF AUTHORITY BY THE CIVIL AERONAUTICS BOARD TO THE STAFF

JANUARY 19, 1954.

Recent changes in the internal organization of the staff of the Civil Aeronautics Board and revisions in the delegations of authority by the Board to the staff require that Public Notice PN 4 and amendments 1, 2, 3, and 4 thereto be revoked and that the following statements of delegations of authority be promulgated as Public Notice PN 6.

Sec.
1. Officers and employees.
2. Presiding officers and hearing examiners.
3. Chief Examiner.
4. Director, Bureau of Air Operations.
5. Director, Alaska Office.
6. Chief, Office of Carrier Accounts and Statistics.
7. Director, Bureau of Safety Regulation.
8. Director, Bureau of Safety Investigation.
9. Chief, Office of Compliance.
10. General Counsel.
11. The Secretary.

SECTION 1. *Officers and employees.* All officers and employees of the Board are authorized to request such information from, or make such contact with, the public or agencies of Government as may be necessary to the proper discharge of assigned duties.

SEC. 2. *Presiding officers and hearing examiners.* Presiding officers, hearing examiners, individual members of the Board or any other representative assigned to hold a hearing in a proceeding is authorized to:

.01 Give notice concerning and hold hearings.

.02 Administer oaths and affirmations.

.03 Examine witnesses.

.04 Issue subpenas and take or cause depositions to be taken.

.05 Rule upon offers of proof and receive relevant evidence.

.06 Regulate the course and conduct of the hearing.

.07 Hold conferences, before or during the hearing, for the settlement or simplification of issues.

.08 Rule on motions and dispose of procedural requests or similar matters.

.09 Within his discretion, or upon the direction of the Board, certify any question to the Board for its consideration and disposition.

.10 Issue initial decisions in proceedings for the suspension or revocation of airman or other safety certificates and for the review of the Administrator's refusal to issue an airman certificate.

.11 Render an initial decision orally on the record, or in writing if, before the close of the hearing any party so requests in cases relating to rates, fares or charges, classification rules or regulations or practices affecting such matters or value of service, or mail compensation.

.12 Render a recommended decision orally on the record or in writing in cases where the action of the Board is subject to the approval of the President pursuant to section 801 of the Civil Aeronautics Act of 1938, as amended.

.13 Render an initial decision orally on the record or in writing in cases relating to economic proceedings other than those covered by subsections 2.11 and 2.12 above.

SEC. 3. *Chief Examiner.* The Chief Examiner is authorized to:

.01 Approve or disapprove requests for changes in procedural requirements in economic and safety enforcement cases for good cause shown, providing that an extension of time for filing documents shall not be granted within three days of the date originally set for the filing except in cases involving unusual hardship on the requesting party or parties.

.02 Consolidate, upon recommendation of the Director, Bureau of Air Operations, into one proceeding, cases involving the investigation of a tariff or of complaints concerned with related tariffs.

SEC. 4. *Director, Bureau of Air Operations.* .01 *Delegations with respect to route and carrier relations matters.* The Director, Bureau of Air Operations, is authorized to:

A. Approve applications for a Letter of Registration filed pursuant to Parts 296 and 297 of the Economic Regulations, when such approval does not involve novel or substantial questions of policy.

B. Approve relationships prohibited by §§ 296.11 and 297.13 of the Economic Regulations, when such approval does not involve novel or substantial questions of policy.

C. Dismiss, by letter, applications for such Letters of Registration, provided that each such applicant is given notice that his application will be dismissed if, in appropriate cases he does not, within 30 days, file information necessary to complete the processing of his application, or file a tariff.

D. Cancel a Letter of Registration upon the filing by a Domestic or International Air Freight Forwarder of a written notice with the Board indicating the discontinuance of common carrier activities.

E. Issue revised Letters of Registration and Exemption Orders when revisions thereof are made necessary due to a change in name of the carrier specified in the document, provided that no issue of substance concerning the operating authority of a carrier is involved.

F. Issue the permits provided for in § 190.46 of the Civil Air Regulations if he finds that applications for such permits are in order and meet the requirements of § 190.46. If disapproval of any application for such a permit is deemed appropriate the Director will advise the applicant that he may request the Board to review the matter.

G. Approve Airport Notices which indicate an intention to serve regularly a point through any airport not regularly used by a holder of a certificate of public convenience and necessity; and approve the issuance of an order granting or denying requests for an effective date earlier than thirty days subsequent to filing such Airport Notice, if no new and substantial question of policy is involved and issuance of the order is not found to be adverse to the public interest.

H. Approve Nonstop Notices which indicate an intention to inaugurate a scheduled nonstop service between any two points not consecutively named in the certificate of public convenience and necessity.

I. Dispose, without action, of contracts and agreements which, prior to review thereof, have expired, been terminated or been superseded.

J. Approve or disapprove applications of air carriers for exemptions permitting a carrier to serve a point certificated on one segment of its route in place of a point certificated on another segment of a route whenever no substantial competition to other lines will result or when no new policy is involved.

K. Approve interchange schedules which appear to conform to the service plan contemplated by the Board's orders approving the basic interchange agreements.

.02 *Delegations with respect to rate and tariff matters.* The Director, Bureau of Air Operations, is authorized to:

A. Reject any tariff, supplement, or revised page which is filed by any air carrier other than an Alaskan Air Carrier, or by any foreign air carrier, and which is subject to rejection under section 403 (a) of the Civil Aeronautics Act of 1938, as amended, because it is not consistent with section 403 of the act or with Parts 221 and 222 of the Economic Regulations, as amended.

B. Approve or disapprove any application for permission to make tariff changes upon less than statutory notice, filed pursuant to § 222.3 (k) of the Economic Regulations which (a) has as its only purpose the correction of mechanical, clerical, or administrative errors; or (b) does not involve new or substantial questions of policy.

C. Permit cancellation of a tariff in instances when an investigation of a tariff is pending, or the tariff is under suspension, or where a complaint requesting investigation or suspension of a tariff has been filed.

D. Approve or disapprove methods for indicating cancellation of existing rate or rule in the publication stating the new rate or rule, in a manner other than that specifically required by § 221.8 (c) of the Economic Regulations.

E. Determine the form and manner in which a supplement is to be prepared whenever the operation of any provision of a tariff, supplement, or looseleaf page is suspended by the Board, in accordance with § 222.5 of the Economic Regulations.

F. Authorize the issuance of supplements to looseleaf tariffs in accordance with § 221.10 (g) of the Economic Regulations.

G. Approve or disapprove applications for waiver of the provisions of Parts 221 and 222 of the Economic Regulations in accordance with § 222.3 (g).

H. Approve or disapprove applications filed under section 403 (b) of the act and § 223.8 of the Economic Regulations for permission to furnish free or reduced rate overseas or foreign air transportation, when such applications do not involve new and substantial questions of policy. In the event the disapproval of any such application is deemed appropriate, the Director will advise the applicants that the staff is unable to recommend approval of the free or reduced rate transportation, giving the applicant's an opportunity of requesting Board review of the matter.

I. Effectuate issuance of final orders establishing temporary mail rates whenever he finds that all the procedural steps required prior to final decision have been completed and that no substantive changes have been made in the temporary mail rates to be established as compared with the rates as proposed in the order to show cause.

J. Waive or modify the requirements of paragraph 2 (a) of Order No. E-6390 with respect to any document covered thereby for such period as he deems proper, and revoke any such waiver or modification. The Director shall advise the United States members of International Air Transport Association of such waiver, modification or revocation, and of their right to appeal his action to the Board within 15 days.

SEC. 5. *Director, Alaska Office.* The Director, Alaska Office, is authorized to:

.01 Require any person filing documents with the Alaska Office to file additional copies thereof.

.02 Require any person filing a formal or informal application, complaint, petition or other document that, in his opinion, does not sufficiently set forth the material required to be set forth by the applicable regulation, order or rule of the Board, or is otherwise insufficient, to supply additional information.

.03 Require, if he deems an answer desirable, a reply to formal complaints and petitions.

.04 Conduct prehearing conferences in accordance with § 302.23 of the Procedural Regulations.

.05 Assign such hearings and conferences, and serve all interested persons with procedural notices (other than notice of oral argument before the Board) and Examiners' reports relating thereto; hear oral argument upon exceptions to an Examiner's report: *Provided,* That upon completion of oral argument a transcript thereof shall be sent to the Board; and make service upon persons other than those specified in the pertinent regulation, order, or rule of the Board, if he finds such requirements necessary in the public interest or in the interest of efficiency and expedition in the work of the Board.

.06 Prepare and publish for comment by Alaskan Air Carriers a draft of proposed Economic Regulations affecting air transportation within Alaska or of proposed amendments or modifications of such regulations, provided that such notice shall indicate clearly that the proposals are those of the Director and have not been approved by the Board.

.07 Grant or deny, upon good cause shown, individual requests for extensions of time for filing any document required to be filed with the Alaska Office pursuant to Part 292 of the Economic Regulations, or for waiver of the form or content of such document to conform to the particular operations of the individual requesting such waiver.

.08 Reject, on behalf of the Board, any tariff, supplement, or revised page which is filed by any Alaskan Air Carrier and which is subject to rejection under section 403 (a) of the Civil Aeronautics Act of 1938, as amended, because it is not consistent with section 403 of the act or with Parts 221 and 222 of the Economic Regulations.

.09 Approve or disapprove any application for permission to make tariff changes upon less than statutory notice, filed by an Alaskan Air Carrier pursuant to § 222.3 (k) of the Economic Regulations which (a) has as its only purpose the correction of mechanical, clerical, or administrative errors, or (b) does not involve new or substantial questions of policy.

.10 Approve, in whole or in part, or deny, any application for a Letter of Registration filed pursuant to Part 292 of the Economic Regulations. Pursuant to such approval, such Letter of Registration will be issued by the Director, Alaska Office, on behalf of the Secretary of the Board.

SEC. 6. *Chief, Office of Carrier Accounts and Statistics.* The Chief, Office of Carrier Accounts and Statistics, is authorized to:

.01 Waive, modify or interpret any of the accounting and reporting requirements of Parts 241, 242, 243 and 244 of the Economic Regulations and establish detailed uniform practices in connection with the submission of the reports required therein; provided, that upon ap-

plication by any air carrier affected by such action, the Chief shall submit any waiver, modification, interpretation or established practice to the Board for review.

.02 Authorize air carriers to substitute photographic reproductions for specified categories of records; and approve or disapprove an "application for substitution" filed by an air carrier pursuant to § 249.1 (d) of the Economic Regulations.

.03 Grant or deny, upon good cause shown, individual requests for extension of time for filing reports or for waiver of the form or content of such reports to conform to the particular operation of the individual requesting such waiver.

SEC. 7. *Director, Bureau of Safety Regulation.* The Director, Bureau of Safety Regulation, is authorized to:

.01 Publish notice of proposed changes in the Civil Air Regulations. Such notice shall indicate clearly that the proposed changes are those of the Bureau and have not been approved by the Board.

.02 Approve, with the concurrence of the General Counsel on legal aspects, requests for waiver of the citizenship requirements of the Civil Air Regulations regarding the issuance of airman certificates, in cases where the files of the Federal Bureau of Investigation and the Central Intelligence Agency do not contain any information showing, or tending to show, that the persons submitting such requests owe or might owe allegiance to an unfriendly foreign government and thus may, in some way, take improper advantage of the privileges of the airman certificates requested.

.03 Approve, with the concurrence of the General Counsel on legal aspects, requests for waiver of specific requirements of the Civil Air Regulations as he may deem necessary or desirable where he finds that the granting of the request will be in the interest of the national defense and that it will not create a hazard to air safety. No waiver granted under this authority shall be for a period longer than six months.

.04 Approve, with the concurrence of the General Counsel on legal aspects, applications for waivers of the Civil Air Regulations where he finds that no new policy question is involved. Applications not hereby authorized to be approved by the staff, or which the staff does not approve, will be referred to the Board with a recommendation as to appropriate action.

SEC. 8. *Director, Bureau of Safety Investigation.* The Director, Bureau of Safety Investigation, is authorized to:

.01 Order an inquiry into the facts, conditions, circumstances and probable cause of an accident involving aircraft whenever he deems it necessary in the public interest; and designate, in writing, a presiding officer to conduct the inquiry and appoint additional persons, who, together with the presiding officer and the Investigator-in-Charge of the field investigation, constitute the Board of Inquiry.

.02 Order a special investigation and designate one or more hearing officials to make such investigation with authority to sign and issue subpenas, administer oaths and affirmations, and take or cause depositions to be taken.

.03 Participate fully in the consideration and disposition of individual cases coming before the Airspace Subcommittee and the Regional Airspace Subcommittees of the Air Co-ordinating Committee where no new or significant Board policy issue is involved.

SEC. 9. *Chief, Office of Compliance.* The Chief, Office of Compliance, is authorized to institute and prosecute in the proper court, as agent of the Board, all necessary proceedings for the enforcement of subpenas and for the enforcement of the provisions of the act or any rule, regulation, requirement, or order thereunder, or any term, condition, or limitation of any certificate or permit, and for the punishment of all violations thereof.

SEC. 10. *General Counsel.* The General Counsel is authorized to:

.01 Issue revised certificates of public convenience and necessity and foreign air permits when revisions thereof are made necessary due to a change in name of the carrier or of points specified in the certificate or permit, provided that no issue of substance concerning the operating authority of a carrier is involved.

.02 Approve, disapprove, or request further information concerning, in accordance with the provisions of Part 311 of the Board's Procedural Regulations, requests for testimony of Board employees, with respect to their participation in the investigation of aircraft accidents.

SEC. 11. *The Secretary.* The Secretary is authorized to certify, as true and correct copies, transcripts of records required by section 1006 (c) of the Civil Aeronautics Act to be filed with the Appellate Court.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 54-636; Filed, Jan. 28, 1954; 8:52 a. m.]

SEC. 2. *Authority.* This order is issued pursuant to Departmental Order No. 2740 (18 F. R. 7663).

H. F. MCPHAIL,
Acting Commissioner.

[Docket No. G-2360]

SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JANUARY 25, 1954.

Take notice that Southern Natural Gas Company (Applicant), a Delaware corporation, having its principal place of business in Birmingham, Alabama, filed on January 13, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of metering and regulating facilities and approximately 9 miles of 4½-inch transmission pipeline extending generally eastward from the present terminus of Applicant's main 16-inch South Line near Aiken, South Carolina, subject to the jurisdiction of the Commission to three kaolin plants in Aiken County, South Carolina, for the sale and delivery of natural gas on an interruptible basis to plants of the National Kaolin Products Company, the Southeastern Clay Company and the United Clay Mines Corporation.

The application recites that the following maximum day volumes will be delivered 558.4 Mcf to National Kaolin Products Company; 437 Mcf to Southeastern Clay Company and 161.8 Mcf to United Clay Mines Corporation; and will be utilized in the direct application of heat in the drying of kaolin. The addition of 1157.2 Mcf per day, the total non-coincidental requirements of the proposed customers, will increase the total non-coincidental requirements east of Bass Junction to 134,522.2 Mcf daily.

The estimated cost of the proposed construction is $171,450, and will be defrayed from funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 12th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[Project No. 2147]

MONTANA POWER CO. ET AL.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JANUARY 25, 1954.

In the matter of The Montana Power Company, The Washington Water Power Company, Pacific Power & Light Company, Portland General Electric Company, Mountain States Power Company, Project No. 2147.

Public notice is hereby given that The Montana Power Company, Butte, Montana; The Washington Water Power Company, Spokane, Washington; Pacific Power & Light Company, Portland, Oregon; Portland General Electric Company, Portland, Oregon; and Mountain States Power Company, Albany, Oregon, have filed application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed Project No. 2147 to be located on the North Fork Clearwater River and Middlefork Clearwater River in Clearwater and Idaho Counties, Idaho, and affecting lands of the United States within the St. Joe, Clearwater and Nezperce National Forests. The proposed project would consist of two developments described as follows: (1) Bruces Eddy development encompassing a rock-fill dam in North Fork Clearwater River at river mile 2, a reservoir about 49 miles long with about 2,460,000 acre-feet of storage of which 1,430,000 acre-feet would be usuable storage, a powerhouse with provisions for an installed generating capacity of 244,000 kilowatts, and appurtenant facilities; and (2) Penny Cliffs development consisting of a rock-fill dam in Middle Fork Clearwater River at river mile 79, a reservoir extending about 48 miles up the Middle Fork Clearwater and Selway Rivers and 20 miles up the Lochsa River and containing 3,430,000 acre-feet of storage of which 2,300,000 acre-feet would be usable storage, a powerhouse to have an installed generating capacity of 292,000 kilowatts, and appurtenant facilities. The power generated would be used for public utility purposes.

The application is on file with the Commission for public inspection.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before March 9, 1954.

[SEAL] LEON M. FUQUAY,
Secretary.

[Project No. 2148]

PUGET SOUND POWER & LIGHT CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

JANUARY 25, 1954.

Public notice is hereby given that Puget Sound Power & Light Company, of Seattle, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed Project No. 2148 to be located on the Columbia River in Chelan, Douglas, and Okanogan Counties, Washington, and effecting public lands of the United States. The proposed project would consist of a concrete dam at the Wells site; a non-overflow spillway; a powerhouse intake section; a pool extending upstream about 29 miles to the tailrace of Chief Joseph Dam, now under construction by the United States; a powerhouse; and appurtenant facilities. Applicant's proposal is essentially the plan of the U. S. Army, Corps of Engineers, for development of the Wells damsite. The project would have an initial installation of eight generators of 49,000 kilowatts each with provisions for an ultimate installation of twelve units totaling 588,000 kilowatts capacity. The power generated would be distributed through the Applicant's electric system to its customers.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before March 9, 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

ASSISTANT REGIONAL REPRESENTATIVE, REGION II, ATLANTA, GA.

REDELEGATION OF AUTHORITY TO PERFORM FUNCTIONS IN CONNECTION WITH DEFENSE HOUSING AUTHORIZED UNDER HHFA REGULATION CR 2

The Assistant Regional Representative, Region II, is hereby authorized, within the area under his jurisdiction, to take any action which it is necessary or appropriate for the Housing and Home Finance Administrator to take in the administration of Housing and Home Finance Agency Regulation CR 2, as amended February 27, 1952 (17 F. R. 1721), with any subsequent amendments thereto with respect to releasing applicants or their successors from their obligations under CR 2:

(a) To hold for rent structures containing one-family or two-family dwelling units, and

(b) To exclusively offer dwelling units to eligible defense workers.

(Delegation of authority, effective Dec. 29, 1953, 18 F. R. 8813)

Effective as of the 11th day of January 1954.

[SEAL] J. H. DUPUY,
Regional Representative, Region II.

[F. R. Doc. 54-618; Filed, Jan. 28, 1954; 8:48 a. m.]

Public Housing Administration

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section I *Description of Agency and principal programs* is amended as follows:

1. Paragraph D 1 is amended to add the following sentence: "Under section 502 (b) of Public Law 901, 80th Congress, the Commissioner is authorized to delegate any of his functions and powers to such officers, agents, or employees of the PHA as he may designate."

2. Paragraph D 7 is amended to read as follows:

7. The General Counsel is the PHA's principal attorney. He heads the Legal Division and, with the assistance of a Deputy General Counsel, supervises the activities of an Opinions and Legislation Branch, a Programs Branch, and an Office of Finance Counsel.

Date approved: January 25, 1954.

[SEAL] CHARLES E. SLUSSER,
Commissioner.

[F. R. Doc. 54-604; Filed, Jan. 28, 1954; 8:46 a. m.]

CENTRAL OFFICE

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section II *Central Office organization and final delegation of authority to Central Office officials* is amended as follows:

Paragraph b 1 (a), including subparagraphs (1) through (8), delegating authority to the Assistant Commissioner for Management in connection with the Greentowns Program, is hereby revoked.

In paragraph j 3, the semicolon at the end of the first clause is changed to a period, and the second clause (delegating to the Deputy Assistant Commissioner for Management and the Assistant Commissioner for War Emergency Housing authority to exercise the powers delegated to the Assistant Commissioner for Management in paragraph b 1 (a)) is hereby revoked.

Paragraph g *Designation of Acting Commissioner* is hereby revoked.

Paragraph l *Central Office address* is hereby revoked.

Date approved: January 25, 1954.

[SEAL] CHARLES E. SLUSSER, *Commissioner.*

[F. R. Doc. 54-605; Filed, Jan. 28, 1954; 8:46 a. m.]

CENTRAL OFFICE; FIELD ORGANIZATION

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section II *Central Office organization and final delegations of authority to Central Office Officials* is amended as follows:

Subparagraph j 9, delegating authority to the Assistant Commissioner for Development and the Deputy Assistant Commissioner for Development in accordance with Revised CMP Regulation No. 6, is hereby revoked.

Section III *Field organization and final delegations of authority* is amended as follows:

Subparagraph e 1 (h), delegating authority to general housing managers, housing managers, and their assistants and management aides to assign defense order ratings, is hereby revoked.

Date approved: January 25, 1954.

[SEAL] CHARLES E. SLUSSER, *Commissioner.*

[F. R. Doc. 54-606; Filed, Jan. 28, 1954; 8:46 a. m.]

SPECIAL DELEGATIONS OF AUTHORITY

DESCRIPTION OF AGENCY AND PROGRAMS AND FINAL DELEGATIONS OF AUTHORITY

Section IV *Special delegations of authority*, is amended as follows:

1. Paragraph j is added as follows:

j. The powers of the Commissioner under the provisions of Public Resolution No. 11, 74th Congress, section 43 of the Bankhead-Jones Farm Tenant Act (50 Stat. 530), section 2 (a) (3) of Public Law 731, 79th Congress, and section 4 of the Reorganization Plan No. 3 of 1947 (12 F. R. 4981), with respect to the Greentowns Program, are hereby delegated to the Director of the Washington Field Office and the Assistant Director for Management and Disposition, Washington Field Office.

2. Paragraphs (c), (d), and (e), delegating authority to certain PHA officials in connection with projects SR-WI-1, SR-MD-6, and MD-18111, are hereby revoked.

Date approved: January 25, 1954.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28839, Correction]

LIQUID CAUSTIC SODA FROM HUNTSVILLE AND REDSTONE ARSENAL, ALA., TO TUSCOLA, ILL.

APPLICATION FOR RELIEF; CORRECTED NOTICE

JANUARY 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent for carriers parties to schedule listed below.

Commodities involved: Liquid caustic soda, tank-car loads.

From: Huntsville and Redstone Arsenal, Ala.

To: Tuscola, Ill.

Grounds for relief: Rail competition, circuity, and market competition.

Schedules filed containing proposed rates: Agent C. A. Spaninger's tariff I. C. C. No. 1351, supp. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28851]

SUPERPHOSPHATE FROM BARTOW, FLA., AND OTHER SOUTHERN POINTS TO WESTERN TRUNK-LINE TERRITORY

APPLICATION FOR RELIEF

JANUARY 26, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent for carriers defendants in docket 30946 et al., and other carriers parties to schedule listed below.

Commodities involved: Superphosphate (acid phosphate), other than ammoniated or defluorinated, carloads.

Territory: (a) from Bartow (Armour), Fla., to points in western trunk-line territory and (b) from Bartow (Armour), Agricola and East Tampa, Fla., Valdosta, Ga., and Sheffield, Ala., to Grand Forks, N. Dak.

Grounds for relief: Rail competition, circuity, market competition, to maintain grouping, operation through higher-rated territory, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1286, supp. 24.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-77, 30-212, 31-531]

KOPPERS CO., INC.

ORDER MODIFYING ORDER, DECLARING THAT APPLICANT HAS CEASED TO BE A HOLDING COMPANY, AND DISMISSING APPLICATION

JANUARY 22, 1954.

Koppers Company, Inc. ("Koppers"), a registered holding company, has filed an application pursuant to sections 5 (d) and 11 (b) of the Public Utility Holding Company Act of 1935 ("act") requesting that the Commission issue an order (a) modifying its order dated June 26, 1945, issued under section 11 (b) (1) of the act, and (b) declaring that Koppers has ceased to be a holding company.

On November 27, 1944, Koppers filed a Notification of Registration under section 5 (a) of the act with respect to sections 4, 5 (other than 5 (b)), and 11 (b) (1) and to the extent necessary to implement compliance with section 11 (b) (1), and only to that extent, section 11 (c), (d) and (e). On May 14, 1945, this Commission instituted proceedings with respect to Koppers under section 11 (b) (1) of the act. (See Holding Company Act Release No. 5793). At that time Koppers was a public-utility holding company by reason of its holdings of approximately 78 percent of the then outstanding Common Stock and approximately 13 percent of the then outstanding 6 percent Preferred Stock of its then subsidiary public-utility holding company, Eastern Gas and Fuel Associates ("Eastern"). The Commission's order, dated May 14, 1945, alleged, among other things, that it appeared to the Commission that the holding company system of Koppers was not confined in its operations to a single integrated public-utility system, within the meaning of the act, or to a single integrated public-utility system together with such additional integrated public-utility systems as would meet the requirements of section 11 (b) (1), and to such other businesses as were reasonably incidental or economically necessary or appropriate to the operations of an integrated public-utility system or systems. Koppers admitted these allegations and consented to the entry by the Commission of its order, dated June 26, 1945, requiring the divestment by Koppers of its Eastern security holdings. (See Holding Company Act Release No. 5888.)

Subsequently, Eastern was recapitalized pursuant to a plan filed under section 11 (e) of the act, which plan was approved by the Commission on February 3, 1950. (See Holding Company Act Release No. 9633.) Pursuant to the plan Koppers' holdings of Eastern's securities were exchanged for 563,347 shares (21 percent) of Eastern's new Common Stock. From time to time thereafter, Koppers disposed of 550,347 of these shares, leaving a balance of 13,000 shares constituting approximately ½ of 1 percent of Eastern's outstanding Common Stock.

Koppers now requests the entry of an order (File No. 59-77) revoking or modifying the aforesaid order dated June 26, 1945, and alleges that the conditions upon which such order was predicated do not exist and (File No. 30-212) declaring that Koppers has ceased to be a holding company.

Koppers has requested that the Commission's order herein become effective upon issuance.

Due notice of the filing of said application having been given and no hearing having been ordered by or requested of the Commission and the Commission having examined the said application and its official files in connection therewith and finding that the conditions upon which said order of June 26, 1945, was predicated do not exist and that Koppers has ceased to be a holding company; and

It appearing to the Commission that there is pending an application filed by Koppers pursuant to section 3 (a) of the act (File No. 31-531), requesting an exemption from certain provisions of the act, and that in view of the order to be entered herein declaring that Koppers has ceased to be a holding company such application is moot and that it is appropriate that such application be dismissed:

It is ordered, Pursuant to section 11 (b) of the act, that the Commission's order dated June 26, 1945, under section 11 (b) (1) of the act be, and the same hereby is, modified so that Koppers may continue to hold 13,000 shares of the present Common Stock of Eastern.

It is further ordered and declared, Pursuant to section 5 (d) of the act, that Koppers has ceased to be a holding company and that its registration under the act is no longer in effect.

It is further ordered, That the application filed by Koppers pursuant to section 3 (a) of the act be, and the same hereby is, dismissed.

It is further ordered, That this order shall become effective forthwith upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-571; Filed, Jan. 27, 1954; 8:49 a. m.]

UNITED STATES TARIFF COMMISSION

[Investigation 33]

GROUND CHICORY

INVESTIGATION AND PUBLIC HEARING

Investigation instituted. Upon application of E. B. Muller & Company, Port Huron, Michigan, and others, received January 19, 1954, the United States Tariff Commission, on the 25th day of January 1954, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, instituted an investigation to determine whether chicory, ground or otherwise prepared, provided for in paragraph 776 of the Tariff Act of 1930, is, as a result in whole or in part of the duty or other customs treatment reflecting concessions granted thereon under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Hearing ordered. A public hearing in this investigation was ordered by the Tariff Commission to begin at 10 a. m. on April 27, 1954, in the Hearing Room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., at which hearing all interested parties will be given opportunity to be present, to produce evidence, and to be heard.

Requests to appear at hearing. Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission, in writing, in advance of the hearing.

Inspection of application. The application filed in this case is available for public inspection at the office of the Secretary, United States Tariff Commission, Eighth and E Streets NW., Washington, D. C., and in the New York office of the Tariff Commission, located in Room 437 of the Custom House, where it may be read and copied by persons interested.

I certify that the above investigation was instituted and the above hearing was ordered by the Tariff Commission on the 25th day of January 1954.

Issued: January 26, 1954.

[SEAL] DONN N. BENT, *Secretary.*

[F. R. Doc. 54-626; Filed, Jan. 28, 1954; 8:50 a. m.]

[Investigation 32]

SPRING CLOTHESPINS

INVESTIGATION AND PUBLIC HEARING

Investigation instituted. Upon application of the Clothespin Manufacturers of America, Washington, D. C., received January 7, 1954, the United States Tariff Commission, on the 25th day of January 1954, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, instituted an investigation to determine whether spring clothespins, provided for in paragraph 412 of the Tariff Act of 1930, are, as a result in whole or in part of the duty or other customs treatment reflecting concessions granted thereon under the General Agreement on Tariffs and Trade, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Hearing ordered. A public hearing in this investigation was ordered by the Tariff Commission to begin at 10 a. m. on April 20, 1954, in the Hearing Room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., at which hearing all interested parties will be given opportunity to be present, to produce evidence, and to be heard.

Requests to appear at hearing. Interested parties desiring to appear and give testimony at the hearing should notify the Secretary of the Commission, in writing, in advance of the hearing.

Inspection of application. The application filed in this case is available for public inspection at the office of the Secretary, United States Tariff Commission, Eighth and E Streets NW., Washington, D. C., and in the New York office of the Tariff Commission, located in Room 437 of the Custom House, where it may be read and copied by persons interested.

I certify that the above investigation was instituted and the above hearing was ordered by the Tariff Commission on the 25th day of January 1954.

Issued: January 26, 1954.

FEDERAL REGISTER

VOLUME 19 NUMBER 21

Washington, Saturday, January 30, 1954

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 16]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.316 *Navel Orange Regulation 16*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on January 28, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., January 31, 1954, and ending at 12:01 a. m., P. s. t., February 7, 1954, is hereby fixed as follows:

(i) District 1: 277,200 boxes;

(ii) District 2: 184,800 boxes;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(4) As used in this section "handled," "handler," "boxes," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 29th day of January 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 193]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.662 *Grapefruit Regulation 193*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 1, 1954. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until February 1, 1954, the recommendation and supporting information for continued regulation subsequent to January 31, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 26; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., February 1, 1954, and ending at 12:01 a. m., e. s. t., February 15, 1954, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(iii) Any white seeded grapefruit, grown in the State of Florida, that grade U. S. No. 2 or U. S. No. 2 Bright, which are of a size smaller than a size that will pack 54 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iv) Any white seeded grapefruit, grown in the State of Florida, that grade U. S. No. 1 Russet, U. S. No. 1 Bronze, U. S. No. 1 Golden, U. S. No. 1, U. S. No. 1 Bright or U. S. Fancy, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vi) Any pink seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vii) Any white seedless grapefruit, grown in the State of Florida, that grade U. S. No. 2, U. S. No. 2 Bright, or U. S. No. 2 Russet which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(viii) Any white seedless grapefruit, grown in the State of Florida, that grade

U. S. No. 1 Russet, U. S. No. 1, U. S. No. 1 Bronze, U. S. No. 1 Golden, U. S. No. 1 Bright or U. S. Fancy which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," "U. S. No. 1," "U. S. No. 1 Bronze," "U. S. No. 1 Golden," "U. S. No. 1 Bright," "U. S. Fancy," "U. S. No. 2," "U. S. No. 2 Bright," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. [illegible])

Done at Washington, D. C., this 27th day of January 1954.

[Orange Reg. 249]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.663 *Orange Regulation 249*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 1, 1954. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until February 1, 1954; the recommendation and supporting information for continued regulation subsequent to January 31, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 26; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., February 1, 1954, and ending at 12:01 a. m., e. s. t., February 22, 1954, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any oranges, except Temple oranges and Valencia, Lue Gim Gong, and similar late-maturing oranges of the Valencia type, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack in a standard nailed box; or

(iii) Any Valencia, Lue Gim Gong, and similar late-maturing oranges of the Valencia type, grown in the State of Florida, which are of a size smaller than a size that will pack 252 oranges, packed in accordance with the requirements of a standard pack in a standard nailed box.

(2) As used in this section, the terms "handler," "ship," "Temple oranges," "Valencia, Lue Gim Gong, and similar late-maturing oranges of the Valencia type" and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

(3) Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 244 (§ 933.647; 18 F. R. 7380).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 27th day of January 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangerine Reg. 146]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.664 *Tangerine Regulation 146*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 1, 1954. Shipments of tangerines grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until February 1, 1954; the recommendation and supporting information for continued regulation subsequent to January 31, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 26; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., February 1, 1954, and ending at 12:01 a. m., e. s. t., July 31, 1954, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 246 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2," and "standard pack," shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 27th day of January 1954.

[Lemon Reg. 522]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.629 *Lemon Regulation 522*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than February 1, 1954. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on January 27, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 31, 1954, and ending at 12:01 a. m., P. s. t., February 7, 1954, is hereby fixed as follows:

(i) District 1: 35 carloads;

(ii) District 2: 190 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 521 (19 F. R. 412) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 28th day of January 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6094]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

MERCANTILE STORES CO., INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1255 *Manufacture or preparation;* § 3.1290 *Qualities or properties.* Subpart—*Using misleading name*—Goods: § 3.2310 *Manufacture or preparation;* § 3.2325 *Qualities or properties.* In connection with the offering for sale, sale, and distribution in commerce of shoes now designated as "Health-Flex", or any other shoe of substantially the same constitution, (1) using the name "Health-Flex" or any name in which the word "Health" appears as a trade or brand name therefor; and (2) representing, directly or by implication, that the said shoes are constructed in such a manner that their use will prevent or correct abnormalities, deformities, or ailments of the feet or will keep the feet healthy; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Mercantile Stores Company, Inc., et al., Wilmington, Del., Docket 6094, December 21, 1953]

In the Matter of Mercantile Stores Company, Inc., a Corporation, and Mercantile Stores Company, Inc. (N. Y.), a Corporation

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission, on April 24, 1953, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereof, charging them with the use of unfair and deceptive acts and practices in commerce in violation of the provisions of said act. The respondents filed a joint answer admitting all of the material allegations of the complaint and waiving all intervening procedure and further hearing as to the said facts, but reserving the right to withdraw said answer if the Commission failed to grant respondents' request for an extension of the effective date of any order to cease and desist which might be entered to a date specified by respondents. On July 24, 1953, the hearing examiner filed his initial decision.

The Commission, having reason to believe that said initial decision did not constitute an adequate and appropriate disposition of this matter, subsequently placed this case on its own docket for review. On October 5, 1953, the respondents filed their consent to the withdrawal of the portion of their admission answer relating to the effective date of the order to cease and desist which might be entered, and the Commission, on November 9, 1953, issued, and thereafter served upon the parties, its order setting time within which objections to a tentative decision of the Commission attached to said order, and reply thereto, might be filed. No objections having been filed

within the time permitted, the proceeding regularly came on for final consideration by the Commission upon the record herein on review; and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondents, Mercantile Stores Company, Inc., a corporation, and Mercantile Stores Company, Inc. (N. Y.), a corporation, their officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of shoes now designated as "Health-Flex," or any other shoe of substantially the same constitution, do cease and desist from:

1. Using the name "Health-Flex" or any name in which the word "Health" appears as a trade or brand name therefor.

2. Representing, directly or by implication, that the said shoes are constructed in such a manner that their use will prevent or correct abnormalities, deformities, or ailments of the feet or will keep the feet healthy.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: December 21, 1953.

By the Commission.

[SEAL] ALEX. AKERMAN, JR., *Secretary.*

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 35—PROVISIONS APPLICABLE TO THE SEVERAL CLASSES OF MAIL MATTER

MISCELLANEOUS AMENDMENTS

In Part 35, Provisions Applicable to the Several Classes of Mail Matter, make the following changes:

a. In § 35.14 *Inflammable substances* add new paragraph (h) to read as follows:

(h) *Safety matches, deodorizing (strike-only-on-the-box variety).* (1) Deodorizing matches with ignition temperature of not less than 338° F. dipped in incense composition extending not over five-eighths of an inch along the stem which will burn with progressive low sparkling ignition are acceptable in good quality paperboard boxes (not less than 18 point) with quantity restriction of not to exceed 40 regular size match sticks in one box and not to exceed 12 boxes in one aluminum-foil or asbestos-lined shipping carton of approved manufacture, provided that when more than 3 boxes are contained in a shipping carton the boxes in units of not more than 3 shall be in sleeves of good quality paperboard.

(2) Shipping cartons shall comply with paragraph (f) (2) (i) and (ii) as to construction, wall strength and taped flaps.

(R. S. 161, 396, sec. 24, 20 Stat. 361, secs. 304, 309, 42 Stat. 24, 25, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716, 39 U. S. C. 250)

b. In § 35.16 *Motion-picture films* redesignate paragraphs (l) and (m) as paragraphs (m) and (n), respectively, and insert new paragraph (l) to read as follows:

(l) *Sacking of parcels bearing yellow-caution labels.* Parcels bearing yellow caution labels shall be sacked when the weight of an individual parcel does not exceed 35 pounds and there are two or more parcels available for dispatch in the sack. Parcels which would not be damaged by the metal cans of film or which would not cause damage to other parcels in the sack may be sacked with motion-picture film or with other parcels bearing yellow caution labels.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 62 Stat. 781, as amended; 5 U. S. C. 22, 369; 18 U. S. C. 1716)

c. In § 35.19 *Perishable articles* delete present paragraph (e), and redesignate paragraph (f) as paragraph (e).

(R. S. 161, 396, sec. 24, 20 Stat. 361; secs. 304, 309, 42 Stat. 24, 25; 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 8 U. S. C. 1716; 39 U. S. C. 250)

d. In § 35.29 *Containers, packing, closures, labeling and endorsements; general requirements* amend paragraph (d) to read as follows:

(d) *Matter for dispatch outside of mail bags; (air parcel post not included in these instructions)*—(1) *Acceptance and endorsement.* Parcels properly prepared for mailing which require handling outside of mail bags are those which by reason of their size, weight, nature, or condition, cannot be safely handled inside of mail sacks without damaging them or other mail matter. Such parcels shall be plainly marked by individual mailers or labeled by firm mailers, when necessary, as to contents. Such parcels from individual mailers shall be stamped "Outside Mail" by the accepting employee as provided in § 35.11a. Firm mailers shall provide labels in accordance with subparagraphs (3) and (4) of this paragraph. The dispatch of parcels outside of mail bags due to inadequate packing is not permissible.

(2) *Dispatch.* Parcels which should be dispatched and transported outside of mail bags are listed in the following paragraphs. The "Outside Mail" label or endorsement is not required unless its use is indicated by footnote reference.

(i) *Size.* (a) *Parcels which would* completely fill a sack or are too large to go in a sack.

(b) Parcels exceeding 34 inches in length, except in the case of nonfragile lightweight bar-shaped articles such as mailing tubes, levels, umbrellas, curtain rollers, venetian blinds and small trees, when length shall exceed 38 inches.

(c) Parcels containing pipes or bars or similar articles of heavy metal over 25 inches in length. (When weight is over 8 pounds see subdivision (ii) (d) of this subparagraph.)[1]

(d) Fluorescent tubes, narrow glass shelves, candles, and similar shaped fragile articles over 25 inches in length.[1]

(e) Window or picture glass, or mirrors, or similar articles with wide expanse of glass measuring over 12 x 16 inches (192 square inches).[1]

(f) Fragile phonograph records with 16 inch diameter or larger, and flexible phonograph records with 21 inch diameter or larger.[1]

(ii) *Weight.* (a) Parcels weighing over 35 pounds.[1]

(b) Small, heavy parcels, weighing over 15 pounds containing roller bearings, nuts, bolts, wrenches, pipes, machinery parts, castings, or other articles of similar weight per cubic foot.[1]

(c) Small, heavy wooden boxes weighing over 8 pounds, with sharp corners which might damage other sacked mail.

(d) Matter such as heavy metal boxes, heavy castings or machinery parts, weighing over 8 pounds which is not wrapped or boxed.

NOTE: Such matter of lesser weight and under 25 inches in length shall be properly padded in a strong shipping container in order that it may be sacked without damage to other sacked mail.

(iii) *Liquids.* Parcels containing mailable nonhazardous liquids with total content in excess of 24 fluid ounces in glass container or containers, or 1 gallon or more in metal container or containers.[2]

(iv) *Perishable.* (a) Eggs, day-old fowl, cut flowers, honey bees in cages, queen bees when 24 or more individual cages are fastened together to form one parcel, soft crabs, shellfish, soft fruits such as tree ripened peaches, tree ripened nectarines or tree ripened plums; or soft berries such as raspberries or strawberries.[2]

(b) Alligators, frogs, baby turtles, chameleons and other mailable harmless live creatures during period from April 1 to October 31 of each year.[2]

(v) *Hazardous.* Parcels required to have a red caution label.

NOTE: Parcels with yellow caution labels are sacked in accordance with § 36.16 (l).

(vi) *Miscellaneous.* Matter which is not wrapped or boxed such as bicycle wheels or rolls of wire.

(3) *Approved labels.* Parcels from firm mailers, and mentioned in subparagraph (2) of this paragraph as requiring handling outside of mail bags, may be accepted if an approved label is securely attached thereto adjacent to the address. The label shall be rectangular in shape, approximately 1½ x 2½ inches in size, and the background shall be of dull red color (color similar to red caution label). It shall bear in black print the inscription "Outside Mail" and, in a space provided under these words, shall bear an approved endorsement as to contents. The colors specified in this label (black print on a red background) shall not be used on labels on matter which is not classed as outside matter under the regulations. The stamp "Outside Mail" mentioned in subparagraph (2) of this paragraph shall not be used by either firm or individual mailers as its use is restricted to postal employees.

(4) *Examples of labels*—(i) *General.* Labels to be used by firm mailers on matter shown in subparagraph (2) of this paragraph are: "Outside Mail—Weight over 35 pounds"; "Outside Mail—Weight over 15 pounds (heavy metal parts)"; "Outside Mail—Soft Fruits or Berries"; "Outside Mail—Fragile—Phonograph Records—Diameter 16 inches or larger"; "Outside Mail—Fragile—Mirror or Glass—Dimensions larger than 12 x 16 inches"; "Outside Mail—Heavy Metal Bar-Shaped Items—Over 25 inches long." An endorsement on a label such as "Contents meet the requirements for handling outside of mail bags" is not permitted. The "Outside Mail" label does not eliminate need for the "Perishable" or "Fragile" endorsement unless such endorsement is incorporated on the label. The label "This Side Up" may be used in conjunction with the label "Outside Mail," if desired by mailers, on parcels containing liquids or other matter which would present less of a hazard to other mails if carried in a certain position.

(ii) *Liquids.* (a) Parcels containing mailable liquids (nonflammable and nontoxic) with total content exceeding 24 fluid ounces in glass container or containers, or 1 gallon or more in metal container or containers, may be labeled "Outside Mail—Fragile—Liquid—Over 24 ounces in glass container or 1 gallon or more in metal container." However, concerns mailing only liquids in glass should use a label showing the type of container. If preferred, the actual liquid content and type of container may be stated in addition to "Outside Mail—Fragile—Liquid."

(b) Parcels containing mailable liquids (nonflammable and nontoxic) with total content less than that noted in (a) of this subdivision may be labeled "Fragile—Liquid—Not over 24 ounces in glass container or less than 1 gallon in metal container." If preferred, the actual liquid content and type of container may be stated. The use of a separate label for this quantity of liquid is not required when the desired information is incorporated on the address label. When not more than 8 ounces of liquid are contained in a small parcel of corresponding size, the endorsement "Fragile—Liquid" is considered sufficient. Parcels from individual mailers containing liquids in quantities which are to be sacked, may be stamped "Fragile—Liquid" by the accepting clerk. A red label with black print, as mentioned in subparagraph (3) of this paragraph must not be used on parcels containing this quantity of liquid.

(5) *Labels or markings.* Labels or markings printed on cartons, on gummed tape, or on the wrappers of parcels are not permitted in lieu of the required label shown in subparagraph (3) of this paragraph or in lieu of the red or yellow caution label mentioned in subparagraph (2) (v) of this paragraph.

(6) *Acceptance.* Parcels improperly marked or labeled for handling outside of mail bags are not acceptable. Periodic checks are made on firm mailings to insure proper labeling thereof. Improper markings or labeling must be obliterated by the mailer before the parcel may be accepted or dispatched from the office of origin if detected after acceptance.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 62 Stat. 781, as amended; 5 U. S. C. 22, 369, 18 U. S. C. 1716)

[SEAL] LOUIS J. DOYLE, *Acting Solicitor.*

[F. R. Doc. 54-643; Filed, Jan. 29, 1954; 8:46 a. m.]

[1] "Outside Mail" label or endorsement required if of sackable size.

[2] "Outside Mail" label or endorsement required.

[3] "Outside Mail" label or endorsement required if nature of contents is not plainly evident.

PART 97—STAR, STEAMSHIP, AND STEAMBOAT ROUTES, AND VEHICLE SERVICE IN CITIES

CONTRACTS FOR VEHICLE SERVICE

In Part 97, Star, Steamship, and Steamboat Routes, and Vehicle Service in Cities, insert between § 97.11 *Transportation of mails by screen-vehicle service*, and § 97.12 *Four contract sections of United States* new § 97.11a to read as follows:

§ 97.11a *Contracts for vehicle service*—(a) *Hourly rate contracts.* (1) No obligations or expenditures for vehicle service on an hourly rate basis may be incurred wtihout the prior approval of the Bureau of Facilities, Division of Vehicles, and not until the necessary funds for the class of service involved, shall have been granted.

(2) Contracts for the hire of vehicles for mail service shall be entered into only after bids have been invited by public advertisement on Form VS–68, properly completed. (See § 137.28, of this chapter.) Each advertisement must be posted on the bulletin board at the post office, stations and branches. Diligent effort must be made to secure the widest possible competition from eligible postal employees, persons, and firms not connected with the Postal Service, and as the result of publicity as a news item but only without cost to the Department. All hourly rate contracts will be for a period of not exceeding 1 year, terminable by the Department or the postmaster acting in its behalf, upon 1 day's notice and by the contractor at any time after giving the postmaster 30 days' notice. Contracts may not be terminated by contractors until they have been in operation 30 days or longer.

(3) The advertisement should indicate the estimated number of hours the equipment will be required daily, including loading time, but excluding standing and swing time. In determining the number of hours of vehicle service required daily under the contract for each class of service, consideration should be given to utilization to the fullest possible extent of Government-owned trucks of suitable capacity and vehicles under annual rate contracts if available for extra service.

(4) Bids must be prepared in triplicate, signed in ink, and the lowest bid received accepted by the postmaster as contracting officer for the Department, provided the rate is satisfactory for the service to be performed. If a proposal at a reasonable rate cannot be obtained, a full statement of the facts should be presented to the Bureau of Facilities, Division of Vehicles, before actually consummating the contract. Erasures in proposals must bear a statement on the margin of the proposal signed by the bidder as follows: "I hereby certify that the correction(s) was made by me before the proposal was submitted in response to the advertisement."

(5) Each proposal must be enclosed in a sealed envelope with the notation on the envelop "Proposal for Vehicle Service, City of ------", and addressed to the postmaster. Each envelope must be stamped to show the date and time of receipt. All proposals received shall be kept under lock and key until the date and hour stated in the advertisement for the receipt of bids and thereafter the bids shall be opened by a committee of three supervisors (or three disinterested employees if supervisors are not available), to be designated by the postmaster. The committee as a whole shall open the bids, initial, number, and abstract them, and submit recommendations to the postmaster for award of contract. After the bids have been opened, each envelope must be attached to the bid contained therein. If bids are mailed, they must bear proper postage.

(6) A copy of the advertisement, Form VS–68, and a copy of the abstract, Form VS–66, should be forwarded to the Bureau of Facilities, Division of Vehicles, at the time of the submission of estimates or when a contract is terminated and a new contract awarded. It is not necessary to forward Form VS–67 to the Department for approval since the postmaster is the contracting officer and is authorized to incur expenditures if funds are available. The original of the accepted bid with Form 1036 for each advertisement, must be submitted immediately to the regional accounting office, the duplicate retained in the office file and the triplicate given the successful bidder. Qualified bids and bids received after the expiration of the advertisement may not be considered. No contract may be awarded for the furnishing of a vehicle with driver, neither may the proposal Form VS–67 be modified in any respect.

(7) If, for any reason, a contract is canceled in accordance with the terms thereof, another advertisement should be issued immediately and a new contract awarded. In that case, every effort should be made to secure replacement equipment at the same or lower hourly rate. However, if that is not possible a supplemental estimate of the additional

funds required should be submitted promptly on Form VS–69. Forms VS–66 and VS–68, explaining the reason for further advertising, should also be submitted to the Bureau of Facilities, Division of Vehicles.

(8) A current record shall be maintained by various contract rates (not individual contractors) on Forms 1804 and 1805 of all contract vehicles used in the city delivery. There shall also be kept currently on Form 1805 an accurate record of vehicles secured under equipment maintenance allowance for special delivery. A memorandum shall be kept on the back of Form 1805 of all vehicle delays because of mechanical or other failures, in order that consideration may be given to deducting the time the vehicle was inoperable from the contract pay or to cancellation of the contract due to failure to keep the vehicle in good condition, as required under the terms of the contract.

(9) If there is any evidence of collusion in bidding, price fixing, or abuse of contract equipment, a special report should be submitted to the inspector in charge and to the Bureau of Facilities, Division of Vehicles.

(b) *Annual rate contracts.* (1) Whenever a contract for furnishing a vehicle on an annual rate basis is about to expire or notice of intention to terminate is received, the postmaster shall notify the Bureau of Facilities, Division of Vehicles, in order that the necessary forms and instructions may be issued for readvertising.

(2) Annual rate contracts with automatic yearly renewal clauses are not permitted to remain in effect for a longer period than 4 years, except when held by postal employees below the grade of supervisor. It is the responsibility of the postmaster to see that contracts subject to limitation are readvertised 60 days prior to expiration.

(3) Annual rate contracts may be terminated by either party after 6 months' operation and 30 days' notice of intention to terminate. Where service requirements have changed or there is indication that economy would accrue by readvertising the service, appropriate recommendation should be made to the Division of Vehicles.

(4) Advertisements must be posted on the bulletin board at the main post office and at stations and branches, inviting bids for service required. Invitations to bid should be sent to persons, firms, and individuals in a position to furnish the required vehicles. Newspaper publicity should be given only if obtainable without cost as a news item. The Division of Vehicles will furnish the necessary forms for soliciation of proposals and consummation of contracts.

(5) The advertisement should indicate the minimum number of hours each day the equipment shall be furnished, including loading time but excluding standing and swing time. If the advertisement specifies vehicle hire in excess of 7 hours daily, an explanation must accompany each proposal recommended for acceptance, accounting in full for the operator's time during the whole period of a normal day's assignment.

(6) No advertisement should be issued for bids for service to begin prior to the time and date set for the opening of the bids. In each instance the advertisement must be posted so that bids may be received in ample time to allow the Department at least 2 weeks to process the papers and to notify the postmaster of approval or disapproval in advance of the effective date.

(7) Each proposal must be enclosed in a sealed envelope with the notation on the envelope "Proposal for Vehicle Service, City of _____" and addressed to the postmaster. Each envelope must be stamped to show the date and time of receipt. All proposals received are to be kept under lock and key until the date and hour stated in the advertisement for the receipt of bids and thereafter the bids shall be opened by a committee of three supervisors (or three disinterested employees if supervisors are not available), to be designated by the postmaster. The committee as a whole shall open the bids, initial, number, and abstract them, and submit recommendations to the postmaster for award of contract. After the bids have been opened, each envelope must be attached to the bid contained therein. If bids are mailed, they must bear proper postage.

(8) Erasures in proposals must bear a statement on the margin of the proposal signed by the bidder as follows: "I hereby certify that the correction was made by me before the proposal was submitted in response to the advertisement."

(9) All bids must be prepared in triplicate and transmitted to the Bureau of Facilities, Division of Vehicles, with the advertisement that was posted on the bulletin board, bearing certification that the advertisement was posted on the bulletin board during the period indicated thereon; together with the abstract of bidders and bids and recommendation for acceptanve of the lowest bid. The advertisement posted on the bulletin board must contain all of the information contemplated by the blank spaces, including the hour of the day the advertisement will expire. Qualified bids and bids received after the expiration time and date indicated in the advertisement may not be considered. No contracts will be awarded for the furnishing of vehicles with drivers in response to such advertisements. Form 1036 must be completed for each advertisement with an appropriate statement as to whom the award was made. The contract, in duplicate, and a Form 1036 will be returned to the postmaster, the original and Form 1036 for transmittal immediately to the designated regional accounting office and the duplicate for the postmaster's file. Each successful bidder shall be notified promptly by the postmaster and a copy of the contract furnished him upon request.

(10) If it becomes necessary, service may be maintained at the lowest hourly rate determined by competitive bidding pending the consummation of an annual rate contract, but in that event it is the responsibility of the postmaster to see that the necessary funds are available for temporary vehicle hire.

(11) Claims for overtime use of a vehicle will not be allowed unless filed with the postmaster within 30 days after the end of the calendar quarter in which the service was performed upon proper authorization of the postmaster or of a supervisor to whom such authority shall have been delegated.

(12) A current record shall be maintained by various contract rates (not individual contractors) on Forms 1804 and 1805 of all contract vehicles used in the city delivery. There shall also be kept currently on Form 1805 an accurate record of vehicles secured under equipment maintenance allowance for special delivery. A memorandum shall be kept on the back of Form 1805 of delays of each vehicle daily because of mechanical failure for determination as to whether the vehicle is in proper condition for continued service and if the circumstances are such that would warrant deduction from the contract pay because of failure to furnish the vehicle the full time called for by the contract.

(13) If there is any evidence of collusion in bidding, price fixing, or abuse of contract equipment, a special report should be submitted to the inspector in charge and to the Bureau of Facilities, Division of Vehicles.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 932]

[Docket No. AO–33–A21]

HANDLING OF MILK IN FORT WAYNE, INDIANA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that a public hearing will be held in the Van Orman Hotel, 128 West Berry Street, Fort Wayne, Indiana, beginning at 10:00 a. m., c. s. t., on February 15, 1954, for the purpose of receiving evidence with respect to emergency and other economic conditions which relate to the proposed amendments which are set forth below, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area. These proposed amendments have not been approved by the Secretary of Agriculture.

Proposed by Wayne Cooperative Milk Producers, Inc.:

1. Delete § 932.41 (a) (3) and substitute therefor the following, to be designated paragraph (a) (3):

(3) Not specifically accounted for as any product specified in subparagraphs (1) and (2) of this paragraph, as Class II milk, or as Class III milk.

2. Delete § 932.41 (b) (1) and substitute therefor the following, to be designated paragraph (b) (1):

(1) Used to produce a milk product other than those specified in paragraphs (a) (1) and (2) or (c) of this section.

3. Add to § 932.41 the following paragraph, to be designated (c):

(c) Class III milk shall be all skim milk and butterfat used during April, May, June, and July to produce butter.

4. Establish a Class III price, to be designated as § 932.53, which shall read as follows:

§ 932.53 *Class III milk prices.* Subject to the provisions of §§ 932.54 and 932.55, the minimum price per hundredweight, on a 4.0 percent butterfat content basis, to be paid by each handler for producer milk received and classified as Class III milk shall be computed by the following formula:

(a) Multiply by 120 percent the average daily wholesale price per pound of 92 score butter in the Chicago market as reported by the Department during the delivery period, subtract 5 cents therefrom, and then multiply by 4.0; and

(b) Add thereto an amount computed as follows: From the arithmetical average of car lot prices per pound for nonfat dry buttermilk solids (animal) in the Chicago area as published by the Department during the delivery period deduct 5.5 cents, multiply by 8.5, and then multiply by 0.96.

5. Renumber § 932.53 to read 932.54, and add thereto the following paragraph to be designated (c):

(c) *Class III milk.* Multiply by 1.10 the average daily wholesale price per pound of 92 score butter in the Chicago market as reported by the Department during the delivery period, and divide the result by 10.

6. Renumber § 932.54 to read 932.55.

Proposed by Allen Dairy Products, Inc.:

7. Delete § 932.6 in its entirety and substitute therefor the following:

§ 932.6 *Fort Wayne, Indiana, Marketing Area.* "Fort Wayne, Indiana, Marketing Area," hereinafter called the "Marketing Area," means all territory within the corporate limits of Fort Wayne, Indiana, and all territory within five miles of the corporate limits of Fort Wayne, Indiana, and including all territory within the corporate limits of New Haven, Indiana.

Proposed by Central Dairy, Inc.:

8. Add item (d) to § 932.12, "the percentage requirements regarding a pool plant do not apply in the case of a handler's plant located within the marketing area."

9. Replace § 932.41 (b) (3) (4) with "Disposed of to any manufacturer of butter, ice cream, candy, soup, or bakery products".

10. In § 932.84 (c) change to "Such milk computed at the blend price and butterfat differential" instead of "Class II price and butterfat differential".

11. Make such changes as the above proposals would make necessary to clarify and correct the order.

Proposed by Chris. Bullerman & Sons:

12. Amend § 932.12 (a) of Order No. 32 to read as follows:

(a) During any delivery period within which the total combined amount of skim milk and butterfat disposed of as Class I milk on a route (or routes) operated wholly or partially in the marketing area from such plant is equal to 10 percent or more of the total volume of milk received at such plant during such delivery period from dairy farmers having certification issued by the Fort Wayne Board of Health to produce milk for disposition within the marketing area in the form of fluid milk;

Proposed by Tonne Dairy:

13. It is proposed to amend § 932.51 (a) to read as follows:

(a) Add (1) $0.60 during each of the delivery periods of April, May and June; (2) $1.15 during each of the delivery periods of October, November and December; and (3) $1.00 during each of the other delivery periods.

Proposed by the Dairy Division, Agricultural Marketing Service:

14. Change subparagraph (1) of § 932.44 (c) to read as follows: "(1) the handler claims Class II on the basis of a utilization indicated in writing to the market administrator;"

15. Make such other changes as may be required to make the marketing agreements and order in their entirety conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and of the order, as amended, regulating the handling of milk in the Fort Wayne, Indiana, marketing area, may be obtained from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or from the Market Administrator, 407 Strauss Building, Fort Wayne 2, Indiana, or may be inspected there.

Issued at Washington, D. C., this 27th day of January 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54–659; Filed, Jan. 29, 1954; 8:49 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

WOOLEN AND WORSTED INDUSTRY

NOTICE OF PROPOSED AMENDMENT TO DETERMINATION OF PREVAILING MINIMUM WAGE WOOLEN AND WORSTED INDUSTRY

This matter is before the Department pursuant to the act of June 30, 1936, as amended (49 Stat. 2036; 41 U. S. C. sec. 35 et seq.), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," and known as the Walsh-Healey Public Contracts Act.

The Secretary of Labor, in a minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act and effective May 14, 1949 (14 F. R. 1793), determined the minimum wage prevailing for persons employed in the Woolen and Worsted Industry in the performance of contracts with agencies of the United States Government subject to the act, to be not less than $1.05 per hour. This determination also authorized employment of learners and beginners at rates not less than 90 cents an hour for a learning period no longer than 320 hours. This determination is currently in effect as editorially revised and published in the FEDERAL REGISTER on July 20, 1950 (15 F. R. 4634).

The Textile Workers Union of America, CIO (hereinafter referred to as the TWUA), submitted a petition to the Secretary of Labor dated November 16, 1951, for determination of a prevailing minimum wage of $1.265 an hour in the

Woolen and Worsted Industry with a provision for a wage escalator quarterly adjustment of one cent for each 1.18 rise in the Bureau of Labor Statistics Consumer Price Index (Old Series) beginning with February 15, 1951, and fringe benefits of vacations with pay, paid holidays, and shift premiums as provided in its collective agreements. Retention of the currently effective definition of the Industry also was urged.

The United Textile Workers of America, A. F. of L. (hereinafter referred to as the UTWA), submitted a petition to the Secretary under date of February 29, 1952, seeking determination of a prevailing minimum wage of $1.30 an hour in the Industry, with a wage escalator clause and shift premiums, vacations with pay, paid holidays and health and welfare plan benefits. Retention of the currently effective definition of the Industry also was proposed.

Averments in these petitions respecting minimum wage rates established by collective bargaining agreements, and other wage data concerning woolen and worsted manufacturing establishments and associations, impugned the prevailing status of the $1.05 per hour minimum wage promulgated and currently effective since May 14, 1949, for the Woolen and Worsted Industry. This proceeding was, therefore, initiated for the purpose of determining the minimum wages prevailing in the Industry, and amendment of the outstanding determination, if requisite.

As a preliminary to public hearing, a conference of representatives of the Department of Labor, of management and of labor was noticed, and subsequently held on January 15, 1952. Industry representatives consisted of the National Association of Wool Manufacturers (hereinafter referred to as the NAWM) and several individual woolen and worsted companies, and representatives of TWUA and UTWA for labor. Issues and matters germane to this proceeding were discussed, including definition of the Industry, and information on wages necessary for a determination of prevailing minimum wages in the Industry.

Notice of a hearing in this matter to be held on May 15, 1952, was duly published in the FEDERAL REGISTER on March 25, 1952 (17 F. R. 2576). Copies of the Notice and a press release announcing the hearing were mailed to trade associations, unions, and to individual companies in the Industry. In addition, the press release was distributed to newspapers and trade publications.

This notice and release informed interested persons of the rule making proceeding and of the time and place at which they could appear and offer testimony as to: (1) The prevailing minimum wages in the Woolen and Worsted Industry; (2) whether there should be included in any amended determination for the Industry provision for employment of learners and/or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to learning period, and the number or proportion in relation to total employment of such subminimum rate employees; and (3) the propriety of the outstanding definition of the Industry set forth in full in the notice of hearing. The notice particularly invited information with respect to the subject matter of testimony or statements of each witness as to: (1) The number of workers covered in the presentation; (2) the number and location of establishments; (3) the number of looms and spindles operated in each establishment; (4) minimum wages paid at the end of a probationary or learner period, the number of workers receiving such wages, and the occupations in which these employees are found; (5) the entrance rate for learners, beginners or probationary workers, the length of such learning or probationary period, and the number of workers paid such entrance rates; and (6) the product or products. The notice further stated that, "To the extent possible, data should be submitted in such a manner as to permit evaluation thereof on a plant by plant basis."

Pursuant to the notice, a hearing was held on May 15, 1952, at 10 a. m. in Conference Room A of the Interdepartmental Auditorium in Washington, D. C. Representatives of employees and employers appeared and testified at the hearing, and the record was kept open until June 16, 1952, for the submission of additional written data and briefs.

At the hearing, management appearances included representatives of NAWM and of several woolen and worsted companies. Labor appearances included representatives of TWUA and UTWA. Other appearances at the hearing included Governor Paul H. Dever of Massachusetts and Professor Seymour E. Harris, Chairman, Governors' Committee on the New England Textile Industry. In addition, letters, statements and briefs were filed by interested parties at and after the hearing, and were made a part of the record.

The former Secretary of Labor's Proposed Amendment to the Determination of the Prevailing Minimum Wage for the Woolen and Worsted Industry dated January 19, 1953, was published in the FEDERAL REGISTER on January 27, 1953 (18 F. R. 575), and granted a period of 30 days for the filing of exceptions and objections. The NAWM requested additional time for such filing and the period was extended to March 13, 1953. Notice of the extension to all parties was duly published (18 F. R. 807). Under date of March 3, 1953, attorneys for the NAWM and 105 woolen and worsted companies filed motions to vacate and withdraw the proposed amendment, or to reopen the hearing for examination of witnesses and introduction of additional evidence and further to extend the time for filing exceptions. The motion to reopen was granted to the extent stated in the Notice of Supplemental Hearing to be held on April 22, 1953, duly published in the FEDERAL REGISTER on March 30, 1953 (18 F. R. 1603). This notice together with a press release was given the same distribution as the notice for the original hearing. Pursuant thereto, the supplemental hearing was held on April 22, 23, and 24, 1953, in the Department of Labor Building, Washington, D. C.

Participating in the hearing on behalf of the Industry were representatives of The NAWM and counsel appearing jointly for it and 105 woolen and worsted companies. Labor was represented by The TWUA and UTWA. There also appeared and participated Senator John F. Kennedy of Massachusetts, and Government representatives from the Bureau of Labor Statistics, the Armed Services Textile and Apparel Procurement Agency, the Office of the Quartermaster General and the Bureau of the Census. All parties consenting, the record of the proceedings was closed by the Examiner as of April 24, 1953.

Procedural motions and objections. The exceptions and objections to the proposed Amendment filed by counsel for the NAWM on its behalf and on behalf of certain woolen and worsted companies are of three types: Those questioning the authority and discretion exercised by the Secretary in the proposed amendment to the wage determination; objections to the sufficiency, or the competency of evidence; and procedural objections bottomed on the requirements of the Administrative Procedure Act. At appropriate places in subsequent pages the subject matter basic to these objections together with the objections themselves are considered.

Both in their exceptions and objections to the proposed Amendment, and in their motions to vacate the proposed Amendment, or to reopen the hearing for additional evidence, NAWM counsel have urged invalidity of the proposed Amendment for failure to comply with the requirements of provisions of the Administrative Procedure Act applicable to these proceedings. Counsel by letter to the Secretary dated March 25, 1953, also objected that the Notice of Supplemental Hearing, as well as the notice for the earlier May 1952 hearing, fail to inform interested parties of the matters of fact and law and the subjects and issues to be considered and determined at the supplemental hearing. This alleged failure is averred to have deprived parties of requisite opportunity to prepare therefor. On this ground, counsel for NAWM moved at the conclusion of the supplemental hearing that the proceeding be terminated and dismissed.

The NAWM exceptions and motions urge alleged inadequacy of the hearing notices and consequent lack of opportunity to prepare for hearing. The provisions of section 4 (a) (3) of the Administrative Procedure Act require the notice of hearing in rule making proceedings to include,

> either the terms or substance of the proposed rule or a description of the subjects and issues involved.

The Attorney General's Manual on the Administrative Procedure Act, at page 30, construes this provision to require that,

> the notice should be sufficiently informative to assure interested persons an opportunity by participate intelligently in the rule making process.

The provisions of the first Notice of Hearing on Proposed Amendment, commented on above, were responsive to the pre-hearing conference understanding on issues and subjects to be heard, and refer and were directed to amendment of a duly promulgated, effective wage determination and met the letter and spirit of the statutory requirement of notice. The Notice of Supplemental Hearing, no less so, accords with the statutory requirement. It invited further submission on the subjects and issues included in the notice of the May 1952 hearing, and specifically notified "all interested parties" to "appear in opposition to, or in support of the proposed amendment (of January 19, 1953), and offer supplemental evidence and otherwise participate."

Attorneys for NAWM were also informed as follows by the former Secretary's letter of April 3, 1953, well antedating the hearing:

> I am satisfied that the Notice of Hearing on Proposed Amendment, published March 25, 1952 (17 F. R. 2576) and the Notice of Supplemental Hearing, published March 20, 1953 (18 F. R. 1603) adequately describe the subjects and issues involved in this proceeding conformably with section 4 (a) (3) of the Administrative Procedure Act. This puts in issue the question of what minimum wages prevail in the industry, whether subminimum rates should be authorized for learners and apprentices and the propriety of the present industry definition.
>
> All interested persons have full opportunity to appear and to submit whatever supplemental data, views and arguments they wish the Secretary to consider in making the determinations required by these proceedings.
>
> It is the intention of the Department to introduce evidence material to this proceeding, including the wage data prepared by the Bureau of Labor Statistics. You, of course, may exercise rights to examine witnesses in accordance with the provisions of the Administrative Procedure Act.
>
> Neither the scope of the definition of the industry, or of any branch or branches thereof, nor the geographical basis on which prevailing minimum wages are to be considered, nor for that matter any other of the issues, can be determined prior to consideration of the complete record. Guidance with respect to the Department's interpretations and practices relating to determinations under section 1 (b) of the Public Contracts Act is afforded by the amended determination for the Textile Industry and the proposed amendment for the Woolen and Worsted Industry, as well as by other existing proposals or determinations. Accordingly, you should be prepared to submit any and all data, views and arguments that you believe pertinent to the issues. You are, of course, aware that the Secretary has not construed the act as requiring determinations for cities, towns or villages.

At the hearing in April 1953, granted in response to the NAWM petition, the Association representative and Counsel declined to state in what respects they had been unable to prepare, and also declined to introduce any evidence of specific wages actually paid and to make any recommendation as to a proper wage determination under the Act. NAWM counsel characterized its motion for dismissal because of inadequacy of the notices as "made for the record."

I am satisfied the Examiner properly denied the motion, and that the exceptions in this respect are not well founded.

The prevailing minimum wage standard. The proposed amendment to the Determination of the prevailing minimum wage for the Woolen and Worsted Industry, as promulgated on January 19, 1953, found that the locality in which the products of the Industry are manufactured or furnished under Government contracts is co-extensive with the entire area in which the Industry operates. For this reason, and because the proposed amended Determination was restricted to that Industry and the occupations in it, no geographic division of the Industry was proposed. This accords with the interpretation of the Act which has been applied by the Department throughout its administration, and accords with the evidence presented in both hearings, and the Determination heretofore made in establishing the original minimum wage of $1.05 per hour for the Woolen and Worsted Industry by this Department in 1949.

This construction of the provisions of the Act has not been wholly free from doubt, however, and the pertinent statutory provision has been variously interpreted by parties interested in these prevailing minimum wage determinations. Congress inquired into the problem in 1952, and made provision for its solution. After considering the interpretation applied by the Department over the last 16 years and specific language proposed to require a change, Congress disposed of this question by granting to the parties adversely affected by the Secretary's determinations the right to take the question to court for ultimate judicial resolution. This right to judicial review did not exist before. Congress did not deem it advisable to exercise its power either to reverse or affirm the past practices of the Department. It left the matter to resolution of the courts through the usual processes available to aggrieved parties.

Two proceedings under the Public Contracts Act have been conducted pursuant to the provisions of the Administrative Procedure Act, made applicable by the 1952 Fulbright Amendment to the Defense Production Act of 1950. The public hearing on petitions for amendment of the prevailing minimum wage determination for the Woolen and Worsted Industry initially took place on May 15, 1952. The hearing subsequently was reopened on April 22, 23, and 24, 1953, and was concluded. Prior thereto, upon petitions for amendment to the prevailing minimum wage determination for the Textile Industry (cotton, silk, synthetic fibers, etc.), a public hearing was held on September 4, 1952, and a final determination became effective February 21, 1953. The standards and statistical criteria hereinafter applied to the instant determination are not less than the standards and statistical criteria relied upon in the Textile Industry amendment, and applied by the Department for many years to wage determinations of the kind here involved.

After fully considering the 1952 Fulbright Amendment to the Act and its legislative history, I have concluded that it does not authorize or justify delay in the administrative disposition of this matter which has been fully heard since the Fulbright Amendment, and has been pending but undecided in the Department from 1951 to the present time.

In view of the history and adjustments in the Act's procedures, I am in this matter continuing to follow the applicable departmental practice in making this prevailing minimum wage determination without provisions for geographic differentials. I do, therefore, approve and issue my amendment to the Determination of the prevailing minimum wages in the Woolen and Worsted Industry as herein set out.

Definition. The notice of the May 15, 1952, hearing published in the FEDERAL REGISTER March 25, 1952, contained the text of the currently effective definition of the Industry and placed in issue its propriety and continued adequacy. The definition reads as follows:

> (1) The manufacturing or processing of all yarns (other than carpet yarns) spun entirely from wool or animal fiber (other than silk); and all processes preparatory thereto;
>
> (2) The manufacturing, dyeing or other finishing of fabrics and blankets (other than carpets, rugs, and pile fabrics) woven from yarns spun entirely of wool or animal fiber (other than silk);
>
> (3) The manufacturing, dyeing, or other finishing of fulled suitings, coatings, topcoatings, and overcoatings knit from yarns spun entirely of wool or animal fiber (other than silk);
>
> (4) The picking of rags and clips made entirely from wool or animal fiber (other than silk) and the garnetting of wool or animal fiber (other than silk) from rags, clips, or mill waste; and other processes related thereto;
>
> (5) The manufacturing of batting, wadding, or filling made entirely of wool or animal fiber (other than silk);
>
> (6) The manufacturing or processing of all yarns (other than carpet yarns), spun from wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute, or any synthetic fiber; except the manufacturing or processing on systems other than the woolen system of yarns containing not more than 45 percent by weight of wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute or any synthetic fiber;
>
> (7) The manufacturing, dyeing, or other finishing of the products enumerated in clauses (2), (3), (4), and (5) from wool or animal fiber (other than silk) in combination with cotton, silk, flax, jute or any synthetic fiber; except products containing not more than 25 percent by weight of wool or animal fiber (other than silk) with a margin of tolerance of 2 percent to meet the exigencies of manufacture.

The National Association of Wool Manufacturers proposed at the pre-hearing panel conference, at the May 15, 1952, hearing, and in a post-hearing statement that the definition of the Industry be modified on the ground that rising competition from new man-made fibers, or wool mixtures therewith, would place woolen and worsted mills at a competitive disadvantage. The NAWM proposed a definition to read as follows:

> I. Cloths woven from yarns wholly or in part spun.
>
> A. From wool, reprocessed wool or re-used wool.
>
> B. From staple, waste or tow of man-made fibers other than rayon or acetate.
>
> 2. Cloths knit from yarns wholly or in part spun.
>
> A. From wool, reprocessed wool or re-used wool.
>
> B. From staple, waste or tow of man-made fibers other than rayon or acetate.

C. And procured by the yard or square yard.

3. Blankets woven or knit from yarns wholly or in part spun

A. From wool, reprocessed wool or re-used wool.

B. From staple, waste or tow of man-made fibers other than rayon or acetate.

4. Yarns wholly or in part spun

A. From wool, reprocessed wool or re-used wool.

B. From staple, waste or tow of man-made fibers other than rayon or acetate.

5. Tops processed from wool or man-made fibers.

At the April 1953 hearing, the NAWM offered a revised definition to read as follows:

> The manufacture, as a prime contractor or substitute manufacturer, of the products enumerated below when wholly or in part of wool, reprocessed wool, or reused wool; or wholly or in chief part by weight of staple, waste or tow of man-made fibers other than acetate or rayon:—
>
> I. Woven cloths, except pile constructions.
>
> II. Pulled knit suitings, coatings, topcoatings and overcoatings.
>
> III. Woven or knit blankets.
>
> IV. Yarns.
>
> V. Tops.

The 1952 and 1953 definitions suggested by NAWM are designed to encompass within the Woolen and Worsted Industry existing or prospective products resulting from recent developments in the field of man-made fibers. The principal effect of the most recent NAWM definition would be to include yarns and fabrics containing proportions of wool less than those indicated in paragraphs (6) and (7) of the present definition, or containing no wool, but consisting by weight, either wholly or in chief part, of staple, waste, or tow of man-made fibers, other than acetate or rayon.

Both the TWUA and UTWA opposed the definitional suggestions of the NAWM primarily on the ground that such changes would vitiate lines of demarcation with related industries, and would bring within the definition of the Industry many products not properly of the Industry, or manufactured in woolen and worsted mills.

The testimony of the representative of the NAWM largely validates this basis of objection. He testified that, with respect to types of products purchased by the Government, the suggested modification of the definition did not reflect current practices or production of the Industry, but would have future application on the basis of hoped for future production developments. He could identify only one woolen and worsted plant producing cloth primarily made from man-made fibers, other than rayon or acetate.

The problem of overlaps between the various textile industries is not a new one. Most products of the Textile Industry and the Woolen and Worsted Industry are clearly identifiable, and constitute no problem with respect to industry classification. Since the problem as to borderline areas arises out of inter-industry competition, it is not surprising that the contentions of the manufacturers in these overlapping industries may not coincide. Several Government agencies have drawn necessary lines of demarcation for the borderline areas between these related industries, to provide authoritative guides for the Government and the public.

Representatives of three Government agencies dealing continuously with Industry members testified at the hearing. Testimony of officials of the Bureau of the Census, subpoenaed by the NAWM, reveals that this agency generally follows the Industry classifications set forth in the authoritative Standard Industrial Classification Manual, issued by the Bureau of the Budget. The Bureau of the Census has never classified as woolen and worsted products any fabrics containing less than 25 percent by weight of wool or animal fiber other than silk, nor any yarn spun on systems other than woolen and worsted systems containing less than 45 percent by weight of such fibers. Since 1951, the Bureau of the Census has classified, as woolen and worsted fabrics, only those products which are 50 percent or more by weight of wool, re-used wool or reprocessed wool, or are mixtures and blends in which the chief fiber content is wool, although it has continued to collect and report data in the 25 to 50 percent wool content classification. None of the interested parties proposed exclusion from the definition of these fabrics and yarns currently included.

The Bureau of Labor Statistics representative testified that this agency generally also follows the Bureau of the Budget classifications in defining industries for survey purposes, such as the wage survey made by the Bureau, in evidence as Exhibits 10–A and 10–B, which utilize a definition in accord with the definition hereinafter given of the Broad-Woven Fabric, Yarn and Thread Branch of the Woolen and Worsted Industry.

The NAWM itself, as recently as 1952, has utilized the 25 percent fabric demarcation line in its Bulletin, Volume LXXXI for the year 1951, which contains a number of statistical tables and charts for the Industry. None of the statistical tables or charts for these products include data for any fabrics with less than 25 percent by weight of wool, reprocessed wool, or re-used wool. The data included in these tables and charts were obtained from Government sources, and from records of the NAWM.

Testimony concerning the procurement experience of the Government's largest purchaser of textiles is also significant. Representatives of the Armed Services Textile and Apparel Procurement Agency and of the Quartermaster testifying at the April 1953, hearing, stated that the Agency seldom purchases fabrics containing woolen and worsted fibers that have a wool content of less than 80 percent. It was testified that the Agency had bought fabrics with as little as 25 percent of wool in only one instance. Abstracts of individual procurements of products of the Woolen and Worsted Industry by the Armed Services Textile and Apparel Procurement Agency and the Quartermaster Corps, were introduced into the record. There is no evidence in the record that the Government purchases fabrics of wool mixtures which contain less than 25 percent wool.

It is essential that industry definitions under the Act be formulated in accordance with actual industry practices. Industry changes, as here not mere indications of nascent trends, can and will be recognized by definition changes when they have occurred. Clauses (6) and (7) of the currently effective definition with respect to yarn mixtures and to fabric mixtures respectively, accurately reflect existing industry practice, and their retention is the only sound determination on the record before me, and requires denial of the definition suggested by the NAWM.

It has been the consistent administrative interpretation since 1943 that pressed wool felt is included in the definition of this Industry. The NAWM has noted disagreement with this position. The record discloses, however, that The Felt Association, and some individual companies producing pressed wool felt, have not questioned that pressed wool felt is within the scope of the Woolen and Worsted Industry.

Woven and pressed wool felt are clearly products of the Woolen and Worsted Industry. Woven wool felt is provided for by Clause (2) of the Industry definition. To remove any possibility of misunderstanding, current paragraphs (6) and (7) shall be renumbered as (7) and (8) respectively, and there shall be inserted a new paragraph (6) to read as follows:

> The manufacturing of pressed felt made entirely of wool or animal fiber (other than silk);

In addition, the paragraph renumbered (8), shall be further amended to add to the enumeration of clauses therein contained, enumeration of the new paragraph (6).

No other suggestions with respect to amendment of the definition were made, and both petitioners urge the present definition of the Woolen and Worsted Industry is proper, and recommend it be retained. I find that the currently effective definition (41 CFR 202.47 (a)), as above amended, properly and accurately defines the Industry as presently constituted.

Origin and nature of evidence on wages. Evidence in the record concerning wages in the Woolen and Worsted Industry consists principally of the following: (1) The Bureau of Labor Statistics (BLS) wage survey; (2) The NAWM wage survey, and (3) separate TWUA and UTWA wage listings by establishments. In the Proposed Amendment to the Determination of the Prevailing Minimum Wage for the Woolen and Worsted Industry issued January 19, 1953, the former Secretary placed primary reliance on the BLS survey in determining the prevailing minimum wage. I am similarly persuaded, after examination of all the evidence on wages.

In exceptions and objections to the proposed amendment, filed before the supplemental hearing, the NAWM questioned reliance on the BLS data in determining the prevailing minimum wage for this Industry. Its objections are directed to statistical procedures utilized, and to whether such survey adhered to the Industry definition. The NAWM argues that the matters excepted to would necessarily result in a margin of error in the ultimate BLS figures, the exact extent of which, however, it was unable to state. The supplemental hearing adduced additional evidence concerning BLS methods, data and conclusions which deprive the NAWM exceptions and objections of substantiality.

The BLS survey was undertaken as part of the Bureau's regular program of conducting wage surveys in important industries. The results of this survey, not available at the original hearing, were introduced in evidence at the supplemental hearing as Exhibit 10–A consisting of Tables 1 through 9 contained in a preliminary release issued by the BLS, and Tables 10 through 17 subsequently prepared by the BLS, all of which tabulate data for the entire United States as well as for certain specific portions thereof; Exhibit 10–B consisting of separate releases for Rhode Island, Massachusetts, Northern New England, New York-New Jersey, and Philadelphia, Pennsylvania-Camden, New Jersey, identified as Tables 18 through 22; and Exhibit 11 entitled "Wage Structure, Woolen and Worsted Textiles, April–May 1952; Series 2, Number 90", which is the final survey report issued by the BLS in October 1952.

The scope, source materials, statistical procedures, and accuracy of the BLS wage data, including methods of obtaining the basic data, its responsiveness to the Industry definition, and preparation of the several tabulations were subjects of testimony by BLS officials. The BLS survey includes wage and other data for establishments in the following categories: Broad-Woven fabric mills primarily engaged in weaving woolen and worsted fabrics over 12 inches in width; yarn and thread mills primarily engaged in spinning, twisting, winding or spooling yarn and thread from wool fibers. The data include the workers in such establishments engaged in producing the above-named products, as well as employees engaged in producing blankets and other fabricated woolen and worsted products and in scouring, combing, dyeing and finishing operations. Data with respect to the number and size of establishments in the above and other Industry categories, and the percentage of each category's production to total industry production are available in the 1947 Census of Manufactures, and aid in evaluating the adequacy of the BLS survey for wage determination purposes.[1]

[1] Some differences in classification nomenclature without resulting difference in content may be shown between the BLS survey and the Census of Manufactures. For example, yarn mill classifications of the two, though differently expressed are basically similar and yield the same context. The definitions of woven fabrics in both studies are identical. In part they were interpreted at variance as to wool content without significant variance as to results, or impairing the essentially comparable BLS and Census coverage of mills encompassed by the Branch definition. The BLS survey did not cover independent scouring, combing or finishing establishments. The BLS survey did cover all mill employees so engaged. The testimony reveals that commercial finishing is the exception and that most wool is scoured and combed and wool yarns and fabrics are dyed by the producing mills themselves.

The BLS representative also testified that workers employed in spinning and weaving establishments engaged in producing blankets and other fabricated woolen and worsted textile products were similarly included in the survey, and Exhibit 60 shows on page 115 that blankets and other specified household supplies are usually fabricated at the weaving mills.

The NAWM voices objection that since the BLS survey omitted plants with less than 21 workers, it is not representative of the Industry as defined. Evidence of record shows that such plants accounted for less than one percent of the total employees. The absence of data for one percent of the total employees constitutes minute and harmless error without perceptible effect on the Survey.

Similarly, NAWM contends that the data obtained from the 205 plants in the sample, when adjusted by statistical methods, reflect hypothetical data for the entire 462 plants. The BLS in making this survey and the tabulations, followed generally accepted statistical practices and principles. The last paragraph of Exhibit 11 explains in part the method of sampling as follows:

> In sampling, relatively large proportions of establishments concentrated in the major regions as well as of major establishments in terms of size were included to permit presentation of separate data by region and size of establishment. The effect of varying proportions in terms of employment was offset by weighting. Thus, each region and size-group of establishment was given only its appropriate influence in the data.

The NAWM also has filed objection that the BLS survey was limited to plants primarily engaged in spinning yarn or thread and related operations, or in weaving broad-woven fabrics, whereas the proposed determination applies to plants engaged in the operations covered by the definition whether or not they are the primary activities in such plants. This objection also is without requisite support in the record. Exhibit 12, page 5, shows that in the year 1947, the latest year for which such information is available, the total value of woolen and worsted fabrics produced amounted to $1,238,609,000 of which $1,194,379,000 worth, or 96 percent, were manufactured in plants primarily engaged in the production of such fabrics or of woolen and worsted yarns (except carpet yarn). The total value of yarns spun on wool systems (except carpet yarn) by plants primarily engaged in the production either of such yarn, or of woolen and worsted fabrics during that year was $323,117,000, or 94 percent of $343,076,000 the total value of such yarns produced in that year. The record further discloses that whatever the primary activities of the plants included in the survey, all of the operations as to which an amended wage is proposed, are performed in plants included in the survey.

The wage data introduced in evidence by the two textile unions, and by the NAWM, relate generally to the same types of establishments as are included in the BLS survey. The NAWM survey, received in evidence as Exhibit C and D at the May 1952, hearing, was made by mail questionnaire covering a large number of firms manufacturing woolen and worsted textiles and related products. It focuses on the rate of $1.265 per hour urged for determination in the TWUA's petition, without attempting otherwise to probe for specific prevailing minimum wage rates. Based on its survey, the NAWM offered tabulations for the record showing the number of establishments, and the estimated number of workers employed in establishments, having minimum hiring rates (excluding learners) of $1.265 or more an hour, or of less than $1.265 an hour. The NAWM made no attempt to obtain data on other specific minimum rates, or the extent to which such "hiring" rates were actually being received by employees on any given date.

The tabulations presented by the NAWM also evidence a breakdown of major products of the mills included in its survey, identification of the number of mills therein also included in the unions' listings, number of employees and minimum wages as of March 1952, and the number and location by geographical region of establishments reporting a minimum hiring wage (excluding learners) of less than $1.265 an hour.

The TWUA and UTWA lists, received as Exhibits D and E at the May 1952, hearing and reproduced in the transcript thereof, evidence the names and locations of plants in the Industry, the type of products manufactured, number of employees and minimum wages paid. These lists include both union and non-union establishments and cover a large proportion of the Industry. In addition, both unions submitted copies of a number of collective bargaining agreements with the Industry.

In the Proposed Amendment dated January 19, 1953, the former Secretary noted that the employment figures reported by the NAWM and by the unions do not relate to any specific date, but are estimates by the reporting firms or by the unions of the number of production workers employed when the establishment is operating on its regular schedule. Further, both the NAWM and unions included data for all plants within the Industry for which information was available, without regard to the possible relative over-representation of certain segments of the Industry and the possible relative under-representation of other segments. He also observed that the NAWM survey, includes a number of establishments which do not appear to be within the definition of the Woolen and Worsted Industry; that, on the other hand, the NAWM at the May 15, 1952, hearing had questioned the accuracy of the minimum rates shown for a number of establishments included in the unions' listings, and that some listed establishments were no longer operating. On the basis of the above-mentioned limitations of the data submitted by NAWM and the

petitioning unions, the Secretary concluded that primary reliance for purposes of the Proposed Amendment of January 1953, must be placed upon the survey by the Bureau of Labor Statistics with the Association and the Union data serving as supplemental data. I share and affirm his conclusion.

As stated earlier, it is patent that the evidence of record provides a sound evidentiary base for the amended determination hereinafter proposed. Administrative responsibility in a matter of this import, would welcome submission of exhaustive pay roll data for the entire Industry. Anything less, renders possible objections as to adequacy of wage data advanced by the NAWM. Reasoning from less than complete data can never be demonstrated to be free from at least trace of error. The NAWM fails to show, however, that such errors are prejudicial, or otherwise impugn the factual validity of the BLS survey of wages. My confidence in the BLS survey springs from the fact that it has collected and collated in accordance with published methods and after consultation with representatives of employers and employees, data of wages actually paid to 67,724 employees, approximately two-thirds of the total in weaving and spinning plants, during a representative pay roll period. These factors, coupled with application of recognized statistical procedures to this very large sample including application of recognized formulas for correction of error, persuades that high accuracy and reliability have been achieved in the ultimate data reported.

Adequate wage data are available in this proceeding only for the Broad-Woven Goods, Yarn and Thread Branch of the Woolen and Worsted Industry and for Pressed Felt. I am proposing at this time a redetermination only of the prevailing minimum wage for this Branch, defined at the conclusion of this proposed determination, and for pressed felt. The prevailing minimum wage for persons employed in the manufacturing or furnishing of the products of the Woolen and Worsted Industry, as hereinbefore defined, other than the products of the Broad-Woven Goods, Yarn and Thread Branch of the Industry, and pressed wool felt, remains as previously determined effective May 14, 1949, and revised July 20, 1950.[1]

The statutory directive to determine "prevailing minimum wages" for a particular industry is framed in the plural as respects the word "wages." Clearly, more than one prevailing minimum wage may be determined. This record discloses functionally separate and constituent parts of the Woolen and Worsted Industry, as to which I have the authority and discretion to determine a prevailing minimum wage, different from that prevailing as to the balance of the Industry.

Analysis of wage data. In its survey of the Woolen and Worsted Textile Industry, the Bureau of Labor Statistics covered plants with 21 or more employees. The Bureau's report did not indicate the percentage of employees thus excluded, but it may be determined by reference to the Census of Manufactures for 1947, the latest available period. Such census developed data for plants employing 20 or more employees, or only one employee less than the standard used in the Bureau's survey. Such data shows that plants of the category surveyed by the Bureau, having 20 or more employees, employed 99.3 percent, and plants having 50 or more employed 97.5 percent of the total production workers employed in such plants. Interpolation of this Census data indicates that the number of employees thus excluded by the Bureau's survey does not exceed one percent.

The Bureau of Labor Statistics survey tabulated returns from 205 establishments employing 67,724 employees. This sample represents 44.4 percent of the establishments and 60.2 percent of all workers in the category surveyed. The Bureau of Labor Statistics weighted these returns in accord with well-accepted statistical procedures to determine wage data for production employees employed in the 462 weaving and yarn plants, employing 21 or more employees.

Table 13 of Exhibit 10–A contains the most significant evidence for determining the prevailing minimum wage, because it is based on wages actually paid, rather than entrance or plant rates, which are frequently only partially observed. This table is also appropriate in that it ignores special rates paid to individuals because they are learners or handicapped workers. These should be ignored in the basic determination because provision for payment of subminimum wages to them is made as a tolerance under Section 6 of the Act. It appears from this table that 44.8 percent of the establishments employing 61 percent of the workers pay no more than 1 percent of their employees less than $1.20 per hour, and 49.3 percent of the establishments employing 65.5 percent of the workers pay no more than 3 percent of their employees less than $1.20 per hour. As the table also shows, the number of workers in these plants actually receiving less than $1.20 per hour is negligible. This is probably occasioned by the fact that the tables include watchmen and certain custodial employees commonly paid less than other workers, who should be excluded from consideration here because the Act, and hence this Determination, does not apply to them.

Table 11 tends to corroborate the evidence contained in table 13. Table 11 shows the rates reported as the established minimum job rates for all production workers, exclusive of custodial employees, learners, and handicapped workers. According to this table, 52.2 percent of the establishments employing 62 percent of all the production workers in the survey having established minimum job rates, reported a rate of $1.20 an hour, or more.

In view of this preponderance of the Branch of the Industry which actually confines its wage structure for employees here considered to rates of $1.20 per hour and higher, I find that the prevailing minimum wage in the Broad-Woven Goods, Yarn and Thread Branch of the Woolen and Worsted Industry, is $1.20 per hour.

The union wage data contained considerable evidence on minimum wages in plants producing pressed felt and included information with respect to in excess of 3,400 production employees out of a total of 4,167 reported by the 1947 Census of Manufactures in plants making felt goods, including pressed felt. At the April 1953 hearing, the TWUA representative stated that most of the employees in pressed felt plants are organized under the TWUA, and minimum wage rates as high as or higher than $1.20 per hour are established.

On the record before me, I find that the prevailing minimum wage in the manufacturing or furnishing of pressed felt is $1.20 per hour.

In application of the "similar work" standard, the BLS data point particularly to four occupations, namely, janitors, battery hands, hand truckers and spinning frame doffers. The job descriptions applicable thereto were developed as a result of the Bureau's extensive experience in making surveys in the Industry and in consultation with labor and management representatives from the Industry.

The four occupations are defined by the Bureau as follows:

Janitor, excluding machinery cleaners (day porter, sweeper; charwoman; janitress): Cleans and keeps in an orderly condition factory working areas and wash rooms, or premises of an office, apartment house, or commercial or other establishment. Duties involve a combination of the following: sweeping, mopping and/or scrubbing, and polishing floors; removing chips, trash and other refuse; dusting equipment, furniture, or fixtures; polishing metal fixtures or trimming; providing supplies and minor maintenance services; cleaning lavatories, showers, and rest rooms. Workers who specialize in window washing are excluded.

Battery hand: Transfers or loads quills or bobbins of filling to the battery or loading hopper of automatic looms. May convey filling to looms by means of a hand truck.

Trucker, hand (including bobbin boy): Pushes or pulls hand trucks, cars or wheelbarrows used for transporting goods and materials of all kinds about a warehouse, manufacturing plant, or other establishment, and usually loads or unloads hand trucks or wheelbarrows. May stack materials in storage bins, etc., and may keep records of materials moved.

Doffer, spinning frame: Removes full bobbins of yarn from spindles of ring or cap spinning frames, replaces with empty ones and starts yarn on empty bobbins. May help piece-up broken ends of yarn.

Table 3 reveals the average hourly earnings for 21 occupations in this Industry. These were selected as fairly representative of the whole Industry from the highest to the lowest. It is apparent from this table that janitors, battery hands, hand truckers, and spinning frame doffers are the lowest paid occupations. This comports with the oral testimony. It is apparent from table 15 of exhibit 10–A that 83 percent of the establishments employ workers to perform these tasks under these designations. As this work is generally necessary to the operation of woolen and worsted mills, it is assumed that it is performed in other plants but under other designations. By reason of this fact, precise wage data as to this type of work in the other plants is unavailable, but table 16, indicates that the minimum job rate prevailing in those plants does not vary significantly from that prevailing for this work in the plants which employ this nomenclature. It appears from table 15 that 68.6 percent of the workers in these categories are employed in plants paying none of such workers less than $1.20 per hour. Such plants comprise 52.8 percent of the 462 establishments in the BLS survey, which plants employ 68.7 percent of the total production workers.

In view of this preponderance of this Branch of the Industry which actually confines its wage structure for this work to rates of $1.20 per hour and higher, I find that the prevailing minimum wage for battery hands, hand truckers, janitors, and spinning frame doffers, in the Broad-Woven Goods, Yarn and Thread Branch of the Woolen and Worsted Industry is $1.20 per hour. As these are the lowest paid occupations in this Branch of the Industry, this finding corroborates the finding that $1.20 is the prevailing minimum wage in this Branch of the Industry as a whole. By necessary implication, the prevailing minimum wages for all other occupations of this Branch are not less than $1.20 per hour.

Learners and apprentices. Though table 12 of exhibit 10–A shows that recognition of a subminimum rate for inexperienced workers is not the prevailing practice in the Industry, it would be inequitable to ignore the practice as to the substantial portion of the Industry in which it does exist because the subminimum rates actually paid such workers have been ignored in the determination that $1.20 is the prevailing minimum wage. This causes no difficulty, as provision for a tolerance of this type is authorized by section 6 of the act without reference to prevailing practice in the Industry. Nevertheless, I will be guided by prevailing practice in the establishments which recognize such a differential in determining its scope. The majority of such establishments employing the majority of the workers in such establishments observe a difference of 15 cents per hour or less. It is also apparent from table 10 that the $1.05 rate for the inexperienced worker thus suggested is not unreasonable as 56.3 percent of the plants employing 70.2 percent of the workers have established minimum entrance rates of $1.05 or more.

Evidence as to the length of the learning period was introduced only by UTWA and TWUA. Both reported a 320 hour learning period provided in their collective bergaining agreements. The evidence reflected utilization of an additional 30 day probationary period at submininum rates in some mills, but it appears that this practice is neither uniform nor sufficiently widespread to be recognized in this tolerance, at this time.

I conclude, therefore, that employment of learners and beginners, as such terms are hereinafter defined, at subminimum rates should be authorized, and a wage rate of $1.05 an hour is an appropriate and reasonable subminimum rate for learners and beginners in the Broad-Woven Goods, Yarn, and Thread Branch of the Woolen and Worsted Industry and in the production of pressed wool felt.

As the present determination does not make any provision for the employment of apprentices at subminimum rates, and no testimony was introduced at the hearing regarding a need for a subminimum rate in the employment of apprentices, the employment of apprentices at a subminimum rate is not authorized.

Handicapped workers. The general regulations presently permit employment of handicapped workers at subminimum rates on contract work under the act, and this authorization was not an issue in the proceedings. It appears advisable, however, to include in the determination specific authorization for such employment.

Fringe benefits. The Textile Workers Union of America and the United Textile Workers of America recommended that a cost-of-living provision be included in the determination reflecting that provided for in their collective bargaining agreements and, in addition, fringe benefits covered in their contracts. The National Association of Wool Manufacturers vigorously opposed the inclusion of such provisions in any determination.

No determination issued under the Act provides for cost-of-living increases, shift differentials, paid vacations or holidays, insurance or pension plans or any other similar benefits. Such cost-of-living increases as were currently effective as of the time of the BLS survey are necessarily reflected in the data of actual wages paid collected by the Bureau, and necessarily are reflected in the prevailing minimum wages herein found and determined. Shift differentials are increments to the basic wage rates of employees for work performed at hours or under conditions departing from normal. Self-evidently, such differentials may not be accorded weight in the determination of a prevailing minimum wage, which in and of itself does not have the effect of foreclosing employees from receiving the increment of shift differentials if they meet the conditions for their payment. Paid holidays, insurance or pension plans are related to conditions of employment rather than to wages. This is equally true of other so-called fringe benefits. No other conclusion is justified by the record before me, in a proceeding for the determination of prevailing minimum wages in the Woolen and Worsted Industry. For these reasons, I find that the determination should not contain provisions separately relating to fringe benefits, or based upon them.

Proposed amendment of determination. Notice is hereby given that, upon the findings and conclusions made and stated herein, I propose to issue an amendment in this matter as set forth below. Interested parties may submit exceptions thereto within 30 days from publication of this proposed amendment in the FEDERAL REGISTER.

The minimum wage determination for the Woolen and Worsted Industry contained in Section 202.47 (41 Code of Federal Regulations, Part 202), hereby is amended as follows:

1. Section 202.47 (a) is amended to renumber paragraphs (6) and (7) as (7) and (8), respectively; to delete the word "and" before the word "(5)"; to add the words "and (6)" to the enumeration of clauses in renumbered paragraph (8), and to add a new paragraph (6) to read as follows:

(6) The manufacturing of pressed felt made entirely of wool or animal fiber (other than silk);

2. Section 202.47 (b) is amended to read as follows:

(b) *Minimum wage.* (1) The minimum wage for persons employed in the manufacturing or furnishing of the products of the Broad-Woven Goods, Yarn, and Tread Branch of the Woolen and Worsted Industry and Pressed Felt under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.20 an hour arrived at either on a time or piece rate basis. The Broad-Woven Goods, Yarn, and Thread Branch includes the manufacturing, processing (including all preparatory processing), dyeing or other finishing of any of the following items which are within the scope of the Woolen and Worsted Industry, as defined herein: Broad-Woven fabrics (fabrics over 12 inches in width), yarn, thread, blankets.

(2) The minimum wage for persons employed in the manufacturing or furnishing of the products of the Woolen and Worsted Industry, other than the products of the Broad-Woven Goods, Yarn, and Thread Branch of the Industry and Pressed Felt, under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.05 an hour, arrived at either on a time or piece rate basis.

(3) Section 202.47 (c) is amended to read as follows:

(c) *Subminimum wages authorized.* (1) Learners and beginners may be employed subject to the following terms and conditions:

(i) In the performance of contracts for the products of the Broad-Woven Goods, Yarn and Thread Branch of the Woolen and Worsted Industry and for Pressed Felt, learners and beginners may be paid a subminimum rate of $1.05 an hour, unless experienced workers in the same plant are paid on a piece rate basis, in which case learners and beginners must be paid the same piece rates paid to experienced workers, and earnings based upon these piece rates if such earnings are in excess of $1.05 per hour. In the performance of contracts for products of the Woolen and Worsted Industry, other than the products of the Broad-Woven Goods, Yarn and Thread Branch of the Industry and Pressed Felt, learners and beginners may be paid a subminimum

[1] Production of the Industry, other than by mills in the Broad-Woven Goods Branch and by pressed felt plants, is relatively small, particularly as respects Government contractual procurement. The Industry was awarded 696 contracts from May 1951 through March 1953, having a total value of $516,023,000. Only one contract totaling $36,000 is identifiable as not within the Broad-Woven Goods Branch, or for pressed wool felt. On the basis of the record, redetermination is not administratively justified, desirable, or necessary at this time, for the small balance of the Industry.

rate of 90 cents an hour unless experienced workers in the same plant are paid on a piece rate basis, in which case learners and beginners must be paid the same piece rates paid to experienced workers and earnings based upon these piece rates, if such earnings are in excess of 90 cents an hour;

(ii) The permitted length of the learning period for learners and beginners shall be 320 hours unless the learner or beginner has had previous experience in the Industry, in which case the number of hours of such experience must be deducted from the 320-hour learning period;

(iii) A learner or beginner for the purpose of this determination is a person who has had less than 320 hours' experience in the Industry.

(2) Handicapped workers may be employed at wages below the applicable minimum wages specified herein upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR, Parts 524 and 525), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

Filed at Washington, D. C., this 27th day of January 1954.

JAMES P. MITCHELL,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 110]

DESTRUCTION OF RECORDS

NOTICE OF PROPOSED RULE MAKING

JANUARY 14, 1954.

Having under consideration the matter of "Regulations to Govern the Destruction of Records of Steam Railroads, Issue of 1945," as amended, the Commission by Division 1 has approved changes in the description of records to be retained, and prescribed periods of retention, to bring the regulations governing purchases and stores records into line with those prescribed for similar records in other departments, and to eliminate the requirement that certain records be retained for undue periods of time.

The following modifications have been approved:

In § 110.12 *List of accounts, records, and memoranda, and periods of retention* make the following changes:

1. In item 110, Material ledgers, change the period of retention from 6 years to 4 years in "(a) Records of material and supplies on hand."

2. In item 111, Purchases and sales, cancel the text and period of retention for "(b)", and substitute:

(b) Invoices for materials and supplies purchased whether attached to voucher or filed separately (see items 55c and 111-1), and records and reports of such invoices—10 years.

3. In item 111, Purchases and sales, cancel the text and period of retention for "(1)", and substitute:

(1) Price records of purchases, original file copies of invoices (see item 111-b)—10 years.

4. In item 114, Materials and supplies issued, change period of retention from "Permanent" to 4 years in "(d) Price records of materials and supplies issued, free copies."

5. In item 118, Company fuel, in (b), (c), (d), and (f), change word "coaling" to read "fueling."

Any interested person may on or before April 1, 1954, file with the Commission written views or arguments to be considered in this connection. Unless otherwise decided after consideration of representations so received, an order will be entered making the said changes effective June 1, 1954.

[SEAL] GEORGE W. LAIRD,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 10, 11, 16, 18]

[Docket No. 10798]

EQUIPMENT ACCEPTABLE FOR LICENSING; WITHDRAWAL OF CERTIFICATE OF TYPE APPROVAL

ORDER EXTENDING TIME FOR FILING COMMENTS

In the matter of amendment of Part 2 of the Commission's rules to establish a program for the certification of equipment acceptable for licensing; amendment of Parts 10, 11, and 16 of the Commission's rules to require type acceptance of equipment; amendment of § 18.16 of the Commission's rules to clarify the procedure for withdrawal of type approval.

The Commission having under consideration the petition dated January 21, 1954, filed by the Radio-Electronics-Television Manufacturers Association in the above-entitled proceeding, requesting an extension of time in which to file comments directed to the Commission's notice of proposed rule making in this docket;

It appearing, that good and sufficient reasons have been advanced by the Radio-Electronics-Television Manufacturers Association in its petition for an extension of time in which to file comments in this proceeding, and that the public interest would be served by an extension until April 1, 1954;

It is ordered, That the time for filing comments in the above-entitled proceeding is hereby extended from February 1, 1954, to April 1, 1954.

Adopted: January 26, 1954.

Released: January 26, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

NOTICES

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

CANNED CRANBERRY SAUCE

NOTICE OF PURCHASE PROGRAM, UMP 1818

In order to encourage the consumption of cranberries by diverting them from the normal channels of trade and commerce in accordance with section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, canned cranberry sauce will be purchased during the period January 25, 1954, to and including February 27, 1954, in instances where surpluses have created serious marketing problems, and subject to limitations imposed by the capacity of available outlets to utilize supplies without waste and by the amount of funds available for such purchases. Information as to this purchase program may be obtained from the Fruit and Vegetable Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(Sec. 32, 49 Stat. 774, as amended, 7 U. S. C. and Sup. 612c)

Done at Washington, D. C., this 27th day of January 1954.

FEDERAL POWER COMMISSION

[Docket No. E-6536]

ENERGY ACCUMULATION AND EXCHANGE CORP.

NOTICE OF DECLARATION OF INTENTION

JANUARY 26, 1954.

Public notice is hereby given that Energy Accumulation and Exchange Corporation, of New York, New York, has filed a declaration of intention pursuant to section 23 (b) of the Federal Power Act (16 U. S. C. 817) to construct a hydroelectric development (Docket No. E-6536), to be known as the Accumex Project, on the shore of Lake Erie near the village of Brocton in Chautauqua County, New York, consisting of an initial installation of 5 "specially" designed pump-turbines serving as motors and generators having combined capacity of 400,000 kw and an ultimate installation of 24 units having a total installed capacity of 1,920,000 kw operating under a head of 800 feet with an hydraulic capacity of 1500 cfs per unit connected by means of 10-foot or possibly 12-foot diameter penstocks about 4 miles long to a reservoir formed by two natural slopes and two artificial dams closing a valley called either Bear Lake Valley or Stockton Valley, the reservoir having an area of some 7,000 acres and a maximum total and usable storage capacity of 500,000 acre feet at Elevation 1390 within a draw-down level of 70 to 75 feet. The South Dam would be of a gravity type rock-fill and earth design about 100 feet high and about 7,200 feet long. The North Dam located near the escarpment on the Lake Erie side would be about 60 to 90 feet high and 6,000 feet long and would comprise the valve gallery and auxiliaries. Aggregate and earth for construction needs are near the site. Plans for construction of transmission lines will be determined later.

The Commission will investigate the proposed construction and determine whether a license under the Federal Power Act is required or whether the project may be constructed merely upon compliance with State law.

Any communication from persons interested in this matter may be submitted within 30 days from publication of this notice to the Federal Power Commission, Washington 25, D. C.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-1952]

UNITED FUEL GAS CO.

NOTICE OF ORDER AMENDING ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JANUARY 26, 1954.

Notice is hereby given that on January 21, 1954, the Federal Power Commission issued its order adopted January 20, 1954, amending order issued May 1, 1953 (18 F. R. 2674) issuing a certificate of public convenience and necessity in the above-entitled matter.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-640; Filed, Jan. 29, 1954; 8:45 a. m.]

[Docket No. G-2356]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JANUARY 26, 1954.

Take notice that El Paso Natural Gas Company (Applicant), a Delaware corporation having its principal place of business in El Paso, Texas, filed, on January 18, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of facilities, subject to the jurisdiction of the Commission, and described as follows:

(1) Approximately 32.5 miles of 10¾-inch OD transmission pipeline, extending from the downstream side of Barnhart's gasoline plant in Reagan County, Texas, to a point of connection on Applicant's 20-inch Upton County line, in Section 47 Block Y of G. C. & S. F. Railroad Company Survey, Upton County, Texas.

(2) A metering station to be known as Barnhart Purchase Meter Station for metering of gas purchased from Barnhart gasoline plant referred to in (1) above.

The application recites the described facilities are necessary for the purpose of purchasing and acquiring 20,000 Mcf of natural gas daily from Barnhart Hydrocarbon Corporation in Reagan County, Texas. The estimated cost of the proposed facilities is $798,603.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 15th day of February 1954. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3175]

MISSISSIPPI POWER & LIGHT CO.

ORDER REGARDING SALE OF PREFERRED STOCK AT COMPETITIVE BIDDING

JANUARY 26, 1954.

A declaration having been filed with this Commission by Mississippi Power & Light Company ("Mississippi"), a public utility subsidiary of Middle South Utilities, Inc., a registered holding company, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act"), and Rule U-50, promulgated thereunder, with respect to transactions, which are summarized as follows:

The declarant proposes to issue and sell to the public 60,000 shares of a new class of Preferred Stock ($100 par value), to provide funds for its 1954 construction program and other corporate purposes.

Mississippi contemplates expenditures of approximately $7,000,000 in the year 1954 in connection with its program for the construction of new facilities and the extension and improvement of its present facilities to provide electric service to its customers. The company desires to obtain a portion of the funds with which to carry forward such program and funds for other corporate purposes through the issuance and sale of prefererd stock and believes that it is desirable to obtain said funds by such means. The company's charter now authorizes 100,000 shares of $6 Preferred Stock, of which 44,476 shares are issued and outstanding. Mississippi intends to amend its charter by appropriate corporate action, to authorize 60,000 shares of a new class of preferred stock and establish its characteristics, and to authorize the issuance and sale of said 60,000 shares to the public.

The dividend rate, to be a multiple of 1/20 of 1 percent and the price of the New Preferred Stock to be paid the company, to be not less than $100 nor more than $102.75 per share plus accrued dividends, will be fixed by proposals to be invited by the company pursuant to the requirements of the Commission's Rule U-50 and the company will reserve the right to reject any or all proposals at or after the opening thereof. Declarant has requested that the Commission's order herein be issued on January 26, 1954.

Fees and expenses to be paid by the company, other than underwriters' commissions, are estimated as follows:

Federal stamp tax	$6,600.00
Filing fee Securities and Exchange Commission	616.50
Fees of transfer agent and registrar	1,500.00
Fees of company's counsel:	
Green, Green and Cheney	84,250.00
Reid & Priest	8,500.00
Auditors' fees	2,500.00
Printing, including Form S-1, prospectus, etc.	16,000.00
Printing and engraving securities	600.00
Miscellaneous expense	7,433.50
Total expenses	48,000.00

It further appearing that the proposed fee of Winthrop, Stimson, Putnam & Roberts, counsel for the underwriters, which is to be paid by the successful bidders, is $4,500.00;

Due notice having been given of the filing of the declaration and a hearing not having been requested of, or ordered by, the Commission, and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, that no adverse findings are necessary, and that the fees and expenses, as estimated, are not unreasonable, and deeming it appropriate in the public interest and the interest of investors and consumers that said declaration, as amended, be permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-645; Filed, Jan. 29, 1954; 8:46 a. m.]

[File No. 70-3180]

CAMBRIDGE ELECTRIC LIGHT CO.

NOTICE OF PROPOSED BANK LOAN

JANUARY 25, 1954.

Notice is hereby given that Cambridge Electric Light Company ("Applicant"), an electric utility subsidiary of New England Gas and Electric Association, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating section 6 (b) of the act as applicable to the proposed transaction, which is summarized as follows:

Applicant proposes to borrow, from time to time on notes payable to The First National Bank of Boston, funds not exceeding in the aggregate $2,750,000, the notes to mature more than one year after date thereof but not later than June 30, 1955, and to bear interest at the prime Boston rate for commercial paper plus ¼ of 1 percent, with a maximum of 3½ percent and a minimum of 3 percent, the interest rate to be adjusted every ninety days in the event of a change in the prime rate.

The purpose of said borrowing is to repay notes payable, aggregating $500,000, to The First National Bank of Boston, due December 31, 1954, bearing interest at the rate of 3¼ percent per annum, incurred for the purpose of temporarily financing additions to Applicant's property, plant and equipment. The balance of the borrowing, $2,250,000, will be used to partially reimburse the Plant Replacement Fund for expenditures made therefrom to finance extensions, additions and improvements to property, plant and equipment.

Applicant's expenses are estimated at $800, including $150 for legal services.

The proposed borrowing has been approved and authorized by order issued on January 11, 1954, by the Department of Public Utilities of Massachusetts, in which State the Applicant is organized and doing business.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than February 12, 1954, at 5:30 p. m., e. s. t., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-644; Filed, Jan. 29, 1954; 8:46 a. m.]

[File No. 70-3182]

SUBURBAN ELECTRIC CO.

NOTICE OF FILING REGARDING SALE OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING

JANUARY 26, 1954.

Notice is hereby given that Suburban Electric Company ("Suburban"), a public-utility subsidiary of New England Electric System ("NEES"), a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicant has designated Section 6 (b) of the act and Rules U-42 (b) (2) and U-50 thereunder as applicable to the proposed transactions which are summarized as follows:

Suburban proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $4,000,000 principal amount of its First Mortgage Bonds, Series A, due 1984. The price of the bonds which shall be not less than the principal amount nor more than 102¾ percent thereof and the interest rate which shall be a multiple of ⅛ of 1 percent and not in excess of 4½ percent will be determined by competitive bidding.

The proceeds from the sale of the bonds will be applied to the payment of short-term note indebtedness, and the balance, if any, will be used to pay for capitalizable expenditures or to reimburse the treasury therefor. Suburban presently has outstanding $3,800,000 principal amount of short-term notes of which $1,300,000 principal amount is payable to banks and $2,500,000 principal amount is payable to NEES.

Suburban is organized and doing business in The Commonwealth of Massachusetts and represents that the sale of its bonds is subject to the approval of the Department of Public Utilities of that State.

The expenses to be incurred in connection with the issue and sale of the bonds are estimated by Suburban to amount to $56,000, including $20,000 for services, at cost, of New England Power Service Company, an affiliated service company, and $5,000 for accounting services.

Suburban requests that the Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than February 15, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

  - Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports):
    - Automatic direction finding procedures 552, 648, 677, 1007
    - Ground controlled approach procedures 651
    - Instrument landing system procedures 553, 649, 678, 896, 1007
    - Radio range:
      - Low frequency range procedures 550, 647, 675, 895, 1005
      - Very high frequency omnirange procedures 554, 651, 678, 1009, 1010
      - Very high frequency range procedures 1006
- Security control of air traffic:
  - Designated air defense identification zones; Coastal ADIZ's, provision respecting Guam 819
  - Operating rules; authorized exceptions, areas or routes excepted, provision respecting Guam 819

CIVIL AERONAUTICS BOARD:

- Accidents, aircraft, and overdue aircraft:
  - Investigation of accidents occurring at or near certain cities, etc.:
    - Buffalo, New York 984
    - Shreveport, Louisiana 626
  - Reporting and notification of accidents and overdue aircraft, revision 891
    - Applicability and definitions 893
    - To Civil Aeronautics Administration 893
      - Applicability 893
      - Notification requirements 893
      - Overdue aircraft; when notification is to be given 894
      - Preservation of aircraft wreckage and records 894
      - Reporting requirements 893
    - To Civil Aeronautics Board 894
      - Applicability 894
      - Notification requirements 894

CIVIL AERONAUTICS BOARD—Continued Page

- Accidents, aircraft, and overdue aircraft—Continued
  - Reporting and notification of accidents and overdue aircraft, revision—Continued
    - To Civil Aeronautics Board—Continued
      - Overdue aircraft, when notification is to be given 895
      - Preservation of aircraft wreckage and records 894
      - Reporting requirements 894
- Air agencies; certificates and ratings. *See* Certificates and ratings.
- Air carriers:
  - Accidents, aircraft, and overdue aircraft; investigation of, reporting, etc. *See* Accidents, aircraft, and overdue aircraft
  - Irregular. *See* Irregular air carrier and off-route rules
  - Operation rules. *See* Operation rules
  - Scheduled. *See* Scheduled air carriers.
- Certificates and ratings, air agencies; mechanic school certificate, entrance examinations 674
- Commercial operator certification and operation rules; military service, air carriers under contract to, authority of Administrator to permit deviation from certain civil air regulations by (SR-385C) 577
- Hearings, investigations, etc.:
  - Accidents, aircraft, and overdue aircraft, investigation of. *See* Accidents, aircraft, and overdue aircraft
  - Companies and cases, list of *see list at end of this agency.*
- Irregular air carriers and off-route rules:
  - Aircraft equipment, supplemental oxygen; providing oxygen for, and administering to, crew members and passengers in pressurized and nonpressurized cabin aircraft at various operating altitudes 549
  - Military services, air carriers under contract to; authority of Administrator to permit deviation from certain civil air regulations by (SR-385C) 577
- Operation rules, for various types of aircraft:
  - *See also* Commercial operators; Irregular air carriers and off-route rules, *and* Scheduled air carriers
  - General operation rules; aircraft electronic navigation equipment accuracy 766
- Scheduled air carriers:
  - Interstate air carrier certification and operation rules:
    - Airplane requirements; proving tests, authority to waive in special cases, proposed rule making 1018
    - CAA rules, interpretations, and policies; correction 747
    - Military services, air carriers under contract to; authority of Administrator to permit deviation from certain civil air regulations by (SR-385C) 577
  - Operations outside continental limits of United States:
    - Military services, air carriers under contract to; authority of Administrator to permit deviation from certain civil air regulations by (SR-385C) 577
    - Passenger operation rules:
      - Aircraft requirements, supplemental oxygen; providing oxygen for and administering oxygen to, crew members and passengers in pressurized cabin aircraft at various operating altitudes 547
      - Miscellaneous operation rules; route operation proving flights, authority to waive in special cases, proposed rule making 1018
  - Operations within continental limits of United States; military services, air carriers under contract to, authority of Administrator to permit deviation from certain civil air regulations by (SR-385C) 577

Hearings, investigations, etc.:

- Aero Finance Corp 1049
- Army Post Office, mail rate 662
- Bartels, T. R 1023
- Braniff Airways, Inc 962, 1130
- British Overseas Airways Corp 662, 758, 1067

CIVIL AERONAUTICS BOARD—Continued Page

- Hearings, investigations, etc.—Continued
  - Capital Airlines, Inc 962, 1130
  - City of Newport, Vermont; application for scheduled airline service 842, 1023
  - Delta Airlines, Inc 962, 1130
  - Fleet Post Office, mail rate 662
  - Mote, W. R 1023
  - Northeast Airlines, Inc 984
  - Oberdorf, J. J 1023
  - Republic Air Freight Inc 1023
  - Republic Carloading and Distributing Co., Inc 1023
  - Resort Airlines, Miami stopover investigation 1049
  - Seaboard and Western Airlines, Inc 662
  - Southwest Airways Co 758
  - Transocean Air Lines 662
  - United Air Lines 758
  - Western Airlines, Inc 962, 1150

CIVIL SERVICE COMMISSION:

- Appointment to positions excepted from competitive service. *See* Exceptions from competitive service
- Exceptions from competitive service, Civil Service Rule VI
  - Schedule A; positions other than confidential or policy-determining for which an examination is not practicable
    - Agencies with positions added to Schedule A; Post Office Department 851
    - Agencies with positions revoked from Schedule A
      - National Security Training Commission 991
      - Post Office Department 851
  - Schedule C, confidential or policy-determining positions.
    - Agencies with positions added to Schedule C
      - Agriculture Department 852, 991
      - Air Coordinating Committee 852
      - Federal Mediation and Conciliation Service 852
      - Post Office Department 851
      - Small Business Administration 743
      - State Department 571, 851
    - Agencies with positions revoked from Schedule C.
      - Agriculture Department 851, 991
      - State Department 851

COAST AND GEODETIC SURVEY:

- Retirement optional, of members of uniformed services. *See main heading* Defense Department.

COAST GUARD:

- Authority, delegation of, to Commandant and designees, by Secretary of Treasury, of certain functions authorized under various statutes with respect to determination, settlement, etc., of certain claims for damages in connection with Coast Guard activities 775
- Bonds and guaranties in connection with procurement. *See* Procurement regulations.
- Cargo and miscellaneous vessels:
  - Construction and arrangement:
    - Accommodations, for officers and crew; location of crew spaces, proposed rule making 1058
    - Rails and guards; where rails required, proposed rule making 1058
  - Fire protection equipment:
    - Fire detecting and extinguishing equipment, where required; proposed rule making 1058
    - Hand portable fire extinguishers and semiportable fire extinguishing systems, arrangements and details; proposed rule making 1058
  - General provisions; application to vessels on international voyage, proposed rule making 1057
  - Inspection and certification; annual inspection of fire extinguishing equipment, proposed rule making 1058
  - Lifesaving equipment:
    - Application details; proposed rule making 1057
    - Embarkation aids; illumination for lifeboat launching operations, proposed rule making 1057
    - Life buoys, ring, and water lights; number required, proposed rule making 1057
    - Lifeboats and life rafts, stowage and marking of; vessels contracted for prior to November 19, 1952, proposed rule making 1057
    - Line-throwing appliances; proposed rule making 1057
    - Radio apparatus, portable; required on international voyage, proposed rule making 1057

COAST GUARD—Continued Page

- Cargo and miscellaneous vessels—Continued
  - Stability; application to vessels on international voyage, proposed rule making 1058
- Claims in connection with Coast Guard activities:
  - Authority of Commandant respecting determination, settlement, etc 775
  - Regulations respecting. *See main heading* Treasury Department
- Contracts, for purchases. *See* Procurement regulations.
- Equipment, approval of miscellaneous items; termination of certain approvals 885
- Explosives or other dangerous articles or substances and combustible liquids on board vessels:
  - Ship's stores and supplies on board vessels, use of dangerous articles as:
    - Classification; proposed rule making 1058
    - Use, detailed regulations governing; proposed rule making 1058
  - Transportation or storage (amendments proposed and or adopted):
    - Explosives, detailed regulations governing 1058
    - Gases, compressed; detailed regulations governing, correction 821
      - Chlorine, liquid, in bulk; correction 821
      - Classification 1058
    - Hazardous articles, detailed regulations governing; correction 821
      - Classification 1058
    - Cotton, baled; requirements and conditions for loading, stowing and transporting, correction 821
    - Inflammables; detailed regulations governing:
      - Liquids 821, 1058
      - Solids and oxydizing materials 1058
    - Liquids, detailed regulations governing:
      - Combustible 1058
      - Corrosive 1058
    - List of explosives or other dangerous articles containing shipping name or description of articles subject to regulation 821, 1058
    - Poisonous articles, detailed regulations governing 821, 1058
    - Requirements, shippers', with respect to packing marking, labeling, and shipping papers; domestic shipments 1058
- Marine engineering 723
  - Construction:
    - Boiler mountings and attachments; detail requirements, proposed rule making 1057
    - Domes and steam chimneys, materials and workmanship 727
    - General requirements and procedures:
      - Boilers on barges; cancellation 725
      - Request for increase of pressure, proposed rule making 1057
    - Heads; materials and workmanship:
      - Dished 727
      - Flat 727
    - Openings, access and inspection; detail requirements, for manhole and handhole openings in externally fired boilers, cancellation 727
    - Safety valves; installation, proposed rule making 1057
    - Shells, cylindrical:
      - Computations, table 726
      - Materials 725
      - Maximum allowable stresses; hemispherical or ellipsoidal heads 727
    - Stays and reinforcements; detail requirements, for arc welding 727
    - Tubes, boiler and superheater; computations, table, footnote 3 728
  - General provisions, basis and purpose; application of regulations, proposed rule making 1057
  - Installations, tests, inspections, etc., of boilers in service; proposed rule making 1057
  - Machinery, main and auxiliary; internal combustion engine, gasoline engine installations, proposed rule making 1057
  - Materials:
    - Bars and shapes, steel; scope 724
    - Bolting and nut material, carbon and alloy-steel; scope, table of material specifications 725

COAST GUARD—Continued — Page

Marine engineering—Continued
Materials—Continued
Castings:
Copper-alloy; scope — 725
Iron, malleable, and gray iron; scope — 725
Steel; scope, table of material specifications — 725
Forgings, steel; scope, table of material specifications — 725
Pipe:
Carbon and alloy-steel and wrought iron; scope, table of material specifications — 725
Copper, seamless; scope — 725
Plate:
Aluminum-alloy; scope — 725
Copper and copper-alloy; scope — 725
Steel:
Flange and firebox; scope — 724
Marine boiler; scope — 724
Staybolt and rivet:
Iron; scope — 724
Steel; scope — 724
Tubes:
Carbon and alloy-steel and wrought iron; scope, table of material specifications — 725
Copper, seamless, and copper-alloy; scope — 725
Piping systems, pumps, refrigeration machinery, and fuel tanks:
Detail requirements:
Design pressures and thickness of pipes — 729
Proposed rule making — 1057
Materials — 729
Pumping arrangements and piping systems:
Bilge and ballast piping, proposed rule making — 1057
Steam and exhaust piping, proposed rule making — 1057
Unfired pressure vessels; design and construction:
Openings, access and inspection — 728
Tube sheets — 728
Tubes, heat exchanger — 728
Merchant Marine Council; notice of public hearing on proposed changes in navigation and vessel inspection regulations — 1056
Merchant marine officers and seamen; security check and clearance. *See* Security and protection of vessels.
Military personnel; enlisted personnel, application for certificate in lieu of lost or destroyed discharge — 937
Passenger vessels:
Construction and arrangement:
Accommodations, for officers and crew, location of crew spaces, proposed rule making — 1058
Fire protection, structural; proposed rule making — 1058
Rails and guards; where rails required, proposed rule making — 1058
Fire protection equipment:
Fire detecting and extinguishing equipment, where required, proposed rule making — 1057
Hand portable fire extinguishers and semiportable fire extinguishing systems, arrangements and details; location, proposed rule making — 1058
General provisions; application to vessels on international voyage, proposed rule making — 1057
Inspection and certification; annual inspection, of fire detecting and extinguishing equipment, proposed rule making — 1058
Lifesaving equipment:
Life buoys, ring, and water lights; number required, proposed rule making — 1057
Lifeboats, life rafts, life floats, and buoyant apparatus:
Requirements for vessels in coastwise service, proposed rule making — 1057
